
A Bachelor of Science degree in Criminal Justice prepares students interested in criminal justice careers like law enforcement, parole and probation, corrections, and youth services. While students will learn about the inner workings of the justice system, our courses are also designed to develop skills that will make their careers more successful, like critical thinking skills, good communication skills, problem solving skills, and an ability to grow and learn after college. Finally, the degree prepares students interested in pursuing a graduate degree by providing a strong academic foundation in criminological theory, research methods, and statistics.
