

**Degree Type – Bachelor of Science (BS)**  
**Degree Title – Psychology**

*A college degree in psychology opens the door to one of the most challenging and rewarding professional fields today. Psychology students learn the necessary skills to assist people in improving their mental health; they also gain knowledge and abilities that are valued in many other fields, such as business and politics. At the bachelor's level, psychology graduates are sought in fields like mental health casework statistics, probation and corrections, public relations, health education, social work, human resources, recreational therapy, education, and physician assisting among others.*

**STUDENT LEARNING OUTCOMES:**

1. **Students will demonstrate knowledge of the major schools of thought in Psychology. Measurement will involve an embedded question in the final exam.**
2. **Students will be able to explain the APA ethical guidelines for professional psychology.**
3. **Students will integrate knowledge of research methods, data collection and interpretation of data.**
4. **Students will respect and use critical and creative thinking, skeptical inquiry, and when possible, the scientific approach to solve problems related to behavior and mental processes.**

**A – GENERAL EDUCATION CORE – 42 HOURS**
