I obtained the internship by applying on the Region One website after seeing the listing on LinkedIn.

I assist the Finance & Internal support Department in day to day activities such as posting journal entries and maintaining financial records. Some of the things I do in a normal day could be paying off invoices or creating financial reports.

What was the exciting aspect of your internship?

The exciting aspect of my internship is gaining valuable hands on experience that will transfer to my future career. It's a great opportunity to learn and get guidance from experienced professionals.

What recommendations do you have for other students about doing an internship?

I would say apply for as many as you can in your field of choice and don't get discouraged if you don't get picked for some of them. You just have to find the right opportunity and take it.
