GROSS SALES

While gross sales figures in Cameron County exhibited an upward trend between the fourth quarters of 2005 and 2007, declines in the fourth quarter of 2008 resulted in a net loss of one percent relative to the fourth quarter of 2004. In Hidalgo County gross sales maintained an overall growth rate of 31 percent over the same time period despite the decreases between 2007 and 2008.

Relative to the fourth quarter of 2007, Cameron County's

in the fourth quarter of 2008. Within retail trade, the sector breakdown is similar across the two counties. The top three sectors are: General Merchandise, Motor Vehicles, and Food & Beverage.

Changes in sales tax revenues were mixed across Valley cities in the first quarter of 2009 relative to the same period in 2008. The cities of Brownsville and McAllen posted decline of six and three percent, respectively, while the city of Harlingen posted an increase of three percent in its sales tax revenues.

^{**} The "Other" category includes the following sectors, each of which accounts for less than two percent of gross sales: Agriculture; Mining; Utilities; Transportation and warehousing; and Public administration.

EMPLOYMENT

In March 2009, total employment stood at 133,934 for Cameron County and at 263,441 for Hidalgo County. This represented a 2.3 percent decrease from March 2008 employment figures for Cameron County and a 0.5 percent increase for Hidalgo County. The corresponding employment growth rate for Texas was a negative 0.4 percent.

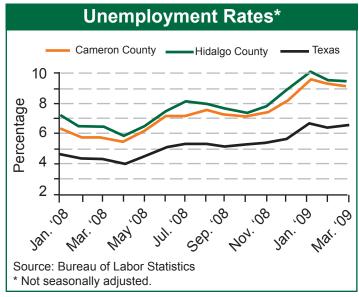

By the end of the first quarter of 2009, the unemployment rate was 8.4 and 9.5 percent for Cameron and Hidalgo counties, respectively, compared to rates of 5.5 and 6.4 percent in March 2008. The local percentage increase in unemployment rates, however, was lower than the percentage change for Texas and the U.S. Monthly employment growth fluctuations for both counties, more or less, mirrored those at the state level.

Employment projections for the Rio Grande Valley area point to a 27 percent increase in jobs over the period 2006 to 2016. The fastest and largest growing occupations are those of personal and home care aides rising at 58 percent and adding 12,750 jobs. Other promising occupations are in the field of education (elementary, middle, and secondary school teachers) and nursing (registered nurses, nursing aides, and licensed practical and vocational nurses).

The number of small businesses (those employing one to 49 employees) increased between 2002 and 2007. In Cameron County, there were 6,158 small businesses in 2007, an increase of almost seven percent from 2002 numbers. The number of small businesses in Hidalgo County rose to over 10,000 in 2007, representing an increase of nearly 20 percent relative to 2002. The Healthcare and Social Assistance sectors represented the largest increase in the two counties, both in absolute and percentage terms.

^{*}Rio Grande Valley includes land ports of entry in Cameron and Hidalgo counties.

^{**}El Paso has four international bridges. However, southbound data is collected for only two bridges since *Paso del Norte* is strictly northbound and Bridge of the Americas is a toll-free bridge. Thus, no official count for southbound traffic is available for Bridge of the Americas.

EXPORT/IMPORT ACTIVITY

Overall trade activity through the ports of Cameron and Hidalgo counties decreased by 17.5 percent in the first quarter of 2009 relative to the same quarter in 2008. Exports to Mexico through the two counties' ports fell by 15.4 percent compared to a 14.9 percent decline through

all Texas ports. Imports from Mexico decreased by 19.5 percent through the two counties versus a 22.6 percent decrease at the state level. Overall, the ports of Cameron and Hidalgo counties account for around 18 percent of Texas trade activity with Mexico.

^{*}Total export (import) trade activity through the Texas-Mexico border has two components: exports to (imports from) Mexico and exports whose final destination (country of origin) is a country other than Mexico (transshipment). The total export (import) trade activity figure, however, can be used interchangeably with exports to (imports from) Mexico, since the latter figure constitutes more than 95 percent of the total.
