

Department of Civil Engineering

Dear Exhibitor,

SustainRGV, a cooperative initiative of the LRGV Stormwater Taskforce, LRGV Academic Institutions, Local, Regional and State Governments, and Practitioners, is pleased to announce it's 1st Annual **Sustainable Civil Infrastructure Management and Planning Conference** to be held November 16-17, 2017, at the Economic Development Corporation of Weslaco , in Weslaco, TX.

We expect 100 – 150 participants at this 1.5-day event. Participants will primarily consist of civil engineering professionals, civil infrastructure industry stakeholders and professionals, local, state and federal agencies. The exhibition of products and services is an integral part of the conference, providing attendees access to sources of relevant equipment, products, and innovative technology. Many opportunities for attendees to view exhibits provided during registration, coffee breaks, lunch, and dinner.

The vendor exhibit cost per table is \$500. This fee includes a 6' skirted table, two chairs, power strip (if requested in submission form) and one complimentary Conference Meal Ticket (for one person, for all meals during conference). Exhibitor personnel will also receive complimentary registration for entrance to the exhibitor area only, and they may register additional staff at the conference-discounted rate.

Benefits of exhibiting include:

Reach a wide audience compromised of industrial representatives, consulting groups, regulatory folks, engineering organizations, academia and the public.

Increase networking potential in a growing South Texas market.

A comprehensive database of conference attendees made available to exhibitors.

Don't delay! The number of tabletop exhibits is limited. Spaces filled on a first-come, first-served basis. To reserve your space, please complete the attached application and return with your full payment.

This conference will provide you with access to numerous local government officials, international, federal and state regulators, local environmental industries, and academia researchers. Topics of interest will range from transportation; innovative best management practices (BMPs), municipal civil and planning programs, non-point source pollution, urban storm water management, water and wastewater, low impact development, geotechnical engineering, and construction management. If you have questions, please contact Javier Guerrero at (956) 929-7189 or via email at javier.guerrero@utrgv.edu or Augusto Sanchez Gonzalez at (956) 331-9847 or via email at augusto.sanchezgonzalez@utrgv.edu.

Sincerely,

Javier Guerrero, M.S., E.I.T.
Director of Water Studies
