Degree Type – Bachelor of Fine Arts (BFA)
Degree Title – Art

Focus: Graphic Design
A Bachelor of Fine Arts with Graphic Design Concentration at UTRGV prepares students for serious professional work in the field. The curriculum emphasizes concept development and application, work with clients and professional development, including the establishment of a working portfolio. Students who graduate from the program are equipped for a broad range of practices in the design field. Our alumni have worked in a number of design-related areas such as interactive design, art direction, publication design, including print and advertising, multimedia and web design, motion graphics, photography and social service design in a variety of settings, including small boutique design studios, multinational advertising agencies, and start-up consultancies. UTRGV Graphic Design alumni follow a wide range of individual paths, including running their own design studios, working for large corporations or specializing in web and interactive media. Some students also choose to earn a master’s degree in the field or pursue other professional degrees, opening many possible horizons.

STUDENT LEARNING OUTCOMES:
1. Students will identify the chronology and the impact of the major periods of the differing aesthetic movements, styles, periods and concerns of design history broadly and graphic design history more specifically.
2. The students’ work will exhibit a high level of craftsmanship and creative activity.
3. Students will show the ability to conduct advanced problem solving with regard to each stage of their production process.
4. Students will show the ability to critically discuss and defend their field of study and their personal work.
5. Students shall demonstrate a serious work ethic as well as the ability to incorporate constructive critical feedback.
6. For the capstone course ARTS 4396, the concepts and intentions behind the students’ work will be convincingly manifest in the final product, piece or installation, including a grammatically and semantically articulate artist’s statement in English that is not general but instead specific to the motivations and steps taken to arrive at the exhibited display.
