Mechanical engineering is a broad field with applications in almost all areas of industry including aviation and aerospace, alternative energy, automotive, automated manufacturing and robotics, chemical, computer, electronics, petroleum, nanotechnology, materials, textiles, and heavy equipment and machinery. The Department of Mechanical Engineering offers a Bachelor of Science in Mechanical Engineering (BSME) degree that is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET).

This degree provides a broad, solid education in engineering fundamentals as well as the opportunity for in-depth study in specialized topics. Students completing the program will have rigorous foundation for engineering practice in industry as well as for graduate studies in engineering and other disciplines. The program has well-equipped, accessible laboratories and extensive experimental and computing facilities.

STUDENT LEARNING OUTCOMES:
1. Be able to use knowledge of mathematics, basic sciences and engineering to analyze (identify, formulate, and solve) problems in mechanical engineering.
2. Be able to design and conduct experiments and interpret the results.
3. Be able to design mechanical devices, systems or processes that meet given specifications.
4. Be able to function in multidisciplinary teams.
5. Be able to communicate ideas effectively in graphical, oral and in written media.
6. Understand the professional responsibility of an engineer and how engineering solutions impact safety, economics, ethics, politics, societal, cultural and contemporary issues.
7. Understand the need for life long learning to keep abreast of current practice.
8. Be able to use state of the art computational hardware and software for analysis, design and documentation (techniques, skills, and modern engineering tools necessary for engineering practice).

A – GENERAL EDUCATION CORE – 42 HOURS
Students must fulfill the General Education Core requirements. The courses listed below satisfy both degree requirements and General Education core requirements.

Required

Mathematics – 3 hours
MATH 2413 Calculus I (or MATH 2487 Honors) three-hour lecture

Life and Physical Science – 6 hours
PHYS 2425 Physics for Scientists and Engineers I three-hour lecture
PHYS 2426 Physics for Scientists and Engineers II three-hour lecture

Language, Philosophy, and Culture – 3 hours
PHIL 1310 Ethics, Happiness, and the Good (Must be Engineering section)

Integrative and Experiential Learning – 6 hours
Choose ENGL from Humanities section, and complete:
PHYS 2425 Physics for Scientists and Engineers I one-hour lab
PHYS 2426 Physics for Scientists and Engineers II one-hour lab
Choose one:
CHEM 1107 Chemistry for Engineers Lab
CHEM 1111 General Chemistry I Lab

B – MAJOR REQUIREMENTS – 79 HOURS (54 advanced)
1 – Mechanical Engineering Core – 64 hours (39 advanced)
- ELEE 2317 Electrical and Electronics Systems
- MANE 2332 Engineering Statistics
- MANE 3164 Manufacturing Processes Lab
- MANE 3364 Manufacturing Processes
- MECE 1101 Introduction to Mechanical Engineering
- MECE 1204 Engineering Graphics
- MECE 2140 Engineering Materials Lab
- MECE 2301 Statics
- MECE 2302 Dynamics
- MECE 2335 Thermodynamics I
- MECE 2340 Engineering Materials
- MECE 2350 Numerical Methods for Engineers
- MECE 3115 Fluid Mechanics Lab
- MECE 3160 Heat Transfer Lab
- MECE 3304 System Dynamics
- MECE 3315 Fluid Mechanics
- MECE 3320 Measurements and Instrumentation
- MECE 3321 Mechanics of Solids
- MECE 3336 Thermodynamics II
- MECE 3360 Heat Transfer
- MECE 3380 Kinematics and Dynamics of Machines
- MECE 3449 Mechanical Engineering Analysis I
- MECE 3450 Mechanical Engineering Analysis II
- MECE 4101 Fundamentals of Engineering
- MECE 4350 Machine Elements

2 – Senior Design – 6 hours (6 advanced)
- MECE 4361 Senior Design Project I (or MANE 4361)
- MECE 4362 Senior Design Project II (or MANE 4362)

3 – Technical Electives – 9 hours (9 advanced)
Students may choose MECE 3100, 33XX, or 43XX course. Students may only receive a maximum of 3 hours of technical elective credit from MECE 3100, MECE 3300, or any other approved non-MECE advanced science or math course. In addition, to receive technical elective credit for MECE 3300, the student must complete 2 terms of internship/co-op and submit a formal report to the department, and to receive technical elective credit for MECE 3100, the student must complete 3 terms/enrollments performing research in the same technical area.

C – SUPPORT COURSES – 8 HOURS
Choose one:
- CHEM 1307 Chemistry for Engineers
- CHEM 1311 General Chemistry I
- MATH 2413 Calculus I (or MATH 2487 Honors) one-hour lecture
- MATH 2414 Calculus II (or MATH 2488 Honors)

TOTAL CREDIT HOURS FOR GRADUATION – 129 HOURS

TOTAL ADVANCED HOURS – 54 HOURS

ADMISSION, PROGRESSION, AND GRADUATION REQUIREMENTS, if applicable:
Admission requirements

Admission into the Lower Division of the Mechanical Engineering Major

Admission to the university, and a 3.0 or better composite GPA in the foundation courses MATH 2413, MATH 2414, CHEM 1307 (or CHEM 1311), CHEM 1107 (or CHEM 1111), PHYS 2425, MECE 1101, and MECE 1204, or a 2.5 or better composite GPA in the foundation courses and a passing score of 70 or above in an exam covering the essential student outcomes of the above listed foundation courses.

Note that while MECE 2340 and MECE 2140 are considered lower division Major courses they can be taken before entrance to the Major is granted.

Progression requirements

Admission into the Upper Division of the Mechanical Engineering Major

Admission to the Lower Division of the Mechanical Engineering Major, and a 3.0 or better composite GPA in MECE 2140, MECE 2340, MECE 2350, MECE 3449, MECE 2301, MECE 2302, and MECE 2335, or a 2.5 or better composite GPA and a passing score of 70 or above in an exam covering the essential student outcomes of the above listed group of lower division courses.

Note that while MECE 3336 and MECE 3450 are considered upper division Major courses they can be taken before entrance to the upper division of the Major is granted.

Graduation requirements

A composite GPA of 2.5 or better in Mechanical Engineering coursework is required. Also, all Mechanical Engineering coursework must be passed with a grade of ‘C’ or better.
