A BS in Physical Science with teaching certification will enable future educators to gain solid training and education in the areas of chemistry and physics. Future graduates will have a leadership role in improving science education and in enabling the youth to become more interested in STEM careers.

STUDENT LEARNING OUTCOMES:
1. Demonstrate solid understanding of physics and chemistry by successfully passing the content exam in 6-12 physical science.
2. Apply knowledge of physics and chemistry principles through a successful student teaching internship.
3. Demonstrate strong pedagogical content knowledge by passing the state teaching certification requirements.
