The degree in sociology will prepare students for civic and professional participation in an increasingly global society. The students will learn the skills to critically analyze the world; address social, ecological and other problems; and obtain employment opportunities that emphasize critical thinking, research and data analysis.

STUDENT LEARNING OUTCOMES:
1. Students will be able to substantively discuss the core theoretical perspectives of the field.
2. Students will be able to substantively discuss core methodological approaches of the field.
3. Students will be able to carry out a research project integrating sociological theory and methodology.
