Accreditation Review Commission on Education for the Physician Assistant (ARC-PA)

The University of Texas-Pan American is a member of the  
American Association of Colleges for Teacher Education  
American Association of State Colleges and Universities  
American Council on Education  
Association for Continuing Higher Education  
Conference of Southern Graduate Schools  
Council for Advancement and Support of Education  
Council of Graduate Schools  
Hispanic Association of Colleges and Universities

This catalog was prepared based on the best information available at the time. The University of Texas-Pan American reserves the right to change any information, including statement of fees, course offerings, and admission and graduation deadlines and requirements without notice or obligation, in keeping with the policies of The University of Texas System Board of Regents and in conformance with the laws of the state of Texas.

For updates to this catalog, check the online version at http://www.utpa.edu/catalog.

Individuals with disabilities wishing to acquire this publication in an alternative format should contact the Office of the Registrar at (956) 665-2201 or Voice/TDD (956) 665-2215.

The University of Texas-Pan American operates subject to the rules and regulations of The University of Texas System Board of Regents. This catalog is a general information publication. It is not intended to nor does it contain all regulations that relate to students. The provisions of this catalog do not constitute a contract, express or implied, between any applicant, student or faculty member of The University of Texas-Pan American or The University of Texas System. The University of Texas-Pan American reserves the right to withdraw courses at any time and to change fees or tuition, calendar, curriculum, degree requirements, graduation procedures and any other requirements affecting students. Changes will become effective whenever officially implemented by proper authorities and will apply to both prospective students and those already enrolled.

Non-Discrimination Policy Statement

The University of Texas-Pan American declares and reaffirms a policy of administering all of its educational programs and related supporting services and benefits in a manner that does not discriminate because of a student's or prospective student's race, color, religion, sex, national origin, age, veteran status, disability or other characteristics that lawfully cannot be the basis for provision of such services. These programs, services and benefits include, but are not limited to, admission, class assignments, scholarships and other financial and employment assistance, counseling, physical education and recreational services, and the membership practices of registered student organizations.

Pursuant to this policy statement, The University of Texas-Pan American will undertake a continuing program of compliance with all federal, state and local laws relating to equal educational opportunity and affirmative action, specifically those addressing the obligations of the institution under Title VI of the Civil Rights Act of 1964 as amended, Title IX of the Educational Amendments of 1972, Sections 503 and 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act (ADA) of 1990.

To the extent provided by applicable law, no person shall be excluded from participation in, denied the benefits of, or be subject to discrimination under any program or activity sponsored or conducted by The University of Texas System or any of its component institutions on the basis of race, color, national origin, religion, sex, age, veteran status, disability or sexual orientation.

Inquiries or complaints may be directed to the immediate supervisor or to the compliance officer in Administration Building, Room 324; telephone (956) 665-2110, the chair of the department or the Dean of Students in University Center, Room 104; telephone (956) 665-2260. Inquiries concerning ADA should be directed to the coordinator of services for persons with disabilities in Emilia Schunior Ramirez Hall, Room 100; telephone (956) 665-7005.

Individuals who believe they have been discriminated against in violation of any of the non-discrimination policies may, after an initial interview with the appropriate compliance officer named above, initiate grievance proceedings in accordance with the provisions and procedures stipulated under Student Complaint Procedures and Grievance Policy for Complaints Concerning Discrimination on the Basis of Disability found in the University's Handbook of Operating Procedures.

Individuals are protected from coercion, intimidation, interference or discrimination for filing a complaint or assisting in an investigation.
Calendar
2011-2013

Dates and deadlines for applications for student loans, scholarships or other financial aid are set in Student Financial Services and are listed in the Financial Assistance section of this catalog.

For ACT, TSI, GRE, GMAT and other test information, contact the University Testing Center at (956) 665-7584, ext. 7585, or e-mail testing@utpa.edu.

Registration for any given semester begins in the preceding semester. For example, registration for the fall semester for currently enrolled students and for new students who meet the early application deadline will begin in the previous spring.

NOTE: For financial aid purposes, the Miniterm will be processed as part of Summer I and all Summer I deadlines apply.

Fall 2011

April 4, 2011, Monday
ASSIST registration (Web) begins by classification for Fall 2011.

Deadline to file Application for Degree Form with the Office of the Registrar for December 2011 graduation.

August 25, 2011, Thursday
Housing move-in for students participating in Bronc Round-up. Cafeteria open for dinner.

August 27, 2011, Saturday
Housing move-in for returning students.

August 29, 2011, Monday
First day of classes.

September 5, 2011, Monday
Labor Day holiday, no classes, campus closed. Cafeteria open.

September 14, 2011, Wednesday
Twelfth class day, census date. Courses dropped by this date do not count toward six-course drop limit.

September 16, 2011, Friday
Deadline to file Application for Degree Form with the Office of the Registrar for May 2012 graduation.

September 27, 2011, Tuesday
Last day to change to non-credit.

October 31, 2011, Monday (tentative)
ASSIST registration (Web) begins by classification for Spring 2012

November 14, 2011, Monday
Last day to drop a course or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade he/she earns.

November 23, 2011, Wednesday
Residence Halls close at 5 p.m.

November 24-26, 2011, inclusive
Thanksgiving holiday, no classes. Cafeteria closed Thursday through Saturday.

November 27, 2011, Sunday
Residence Halls reopen at noon. Cafeteria open for dinner only.

December 2, 2011, Friday
Deadline to file Application for Degree Form with the Office of the Registrar for July 2012 graduation.

December 8-9, 2011, inclusive
Study days, no classes or final examinations without written approval of the Dean.

December 10-16, 2011, inclusive
Fall semester final examinations.

December 16, 2011, Friday
Residence Halls close at 6 p.m.

December 17, 2011, Saturday
Commencement exercises.

December 18, 2011, Sunday
Cafeteria open for breakfast and lunch only.

December 19, 2011, Monday
Fall final grades to be entered by faculty no later than 3 p.m.

Spring 2012

September 16, 2011, Friday
Deadline to file Application for Degree Form with the Office of the Registrar for May 2012 graduation.

October 31, 2011, Monday (tentative)
ASSIST registration (Web) begins by classification for Spring 2012
November 1, 2011, Tuesday
Priority admission application and document deadline for students. Admission application and document deadline for international students.

December 22, 2011, Thursday
Admission application and document deadline for late registration. Applications received after this deadline will be processed for the next semester.

January 15, 2012, Sunday
Residence Halls reopen at noon.
Cafeteria open for dinner only.

January 16, 2012, Monday
Martin Luther King Day holiday, no classes, campus closed.

January 17, 2012, Tuesday
First day of classes.

January 20, 2012, Friday
Deadline to file Application for Degree Form with the Office of the Registrar for August 2012 graduation.

February 1, 2012, Wednesday
Twelfth class day, census date.
Courses dropped by this date do not count toward six-course drop limit.

February 15, 2012, Wednesday
Last day to change course to non-credit.

March 9, 2012, Friday
Residence Halls close for Spring Break at 5 p.m.
Cafeteria open for breakfast and lunch only.

March 10-17, 2012, inclusive
Cafeteria closed.

March 11-16, 2012, inclusive, Spring Break, no classes.

March 18, 2012, Sunday
Residence Halls reopen at noon.
Cafeteria open for dinner only.
April 6-7, 2012, inclusive
Easter holiday, no classes.

April 2, 2012, Monday
Last day to drop a course or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade he/she earns.

April 9, 2012, Monday (tentative)
ASSIST registration (Web) begins by classification for Fall, Miniterm, Summer I, Summer II and Summer III 2012.

April 13, 2012, Friday
Deadline to file Application for Degree Form with the Office of the Registrar for December 2012 graduation.

May 3-4, 2012, inclusive
Study days, no classes or final examinations without written approval of the dean.

May 5-11, 2012, inclusive
Spring semester final examinations.

May 11, 2012, Friday
Residence Halls close at 5 p.m.
Cafeteria open for breakfast and lunch only.

May 12, 2012, Saturday
Commencement exercises.

May 14, 2012, Monday
Final grades to be entered by faculty no later than 3 p.m.

April 9, 2012, Monday (tentative)
ASSIST registration (Web) begins by classification for Fall, Miniterm, Summer I, Summer II and Summer III 2012.

April 27, 2012, Friday
Admission Application and document deadline for late registration. Applications received after this deadline will be processed for next semester.

May 11, 2012, Friday
Housing move-in.

May 14, 2012, Monday
First day of classes.

May 15, 2012, Tuesday
Second class day, census date.
Courses dropped by this date do not count toward six-course drop limit.

May 25, 2012, Friday
Last day to drop a course or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade he/she earns.

May 28, 2012, Monday
Memorial Day holiday, no classes, campus closed.

Miniterm 2012

February 1, 2012, Wednesday
Priority admission application and document deadline for students.

April 9, 2012, Monday (tentative)
ASSIST registration (Web) begins by classification for Fall, Miniterm, Summer I, Summer II and Summer III 2012.
May 30, 2012, Wednesday  
Last day of classes.

May 31, 2012, Thursday  
Study day, no classes or final examinations without written approval of the Dean.

June 1, 2012, Friday  
Miniterm final examinations.  
Residence Halls close at 6 p.m.

June 4, 2012, Monday  
Miniterm final grades to be entered by faculty no later than 3 p.m.

August 18, 2012, Saturday  
Commencement exercises.

### Summer I 2012

December 2, 2011, Friday  
Deadline to file Application for Degree Form with the Office of the Registrar for July 2012 graduation.

February 1, 2012, Wednesday  
Priority admission application and document deadline for students.

April 9, 2012, Monday (tentative)  
ASSIST registration (Web) begins by classification for Fall, Miniterm, Summer I, Summer II and Summer III 2012.

May 18, 2012, Friday  
Admission application and document deadline for late registration. Applications received after this deadline will be processed for next semester.

June 1, 2012, Friday  
Housing move-in.  
Cafeteria open for dinner only.

June 4, 2012, Monday  
First day of classes.

June 7, 2012, Thursday  
Fourth class day, census date. Courses dropped by this date do not count toward six-course drop limit.

June 13, 2012, Wednesday  
Last day to drop to change course to non-credit.

July 2, 2012, Monday  
Last day to drop a course or to withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade he/she earns.

July 4, 2012, Wednesday  
Fourth of July holiday, no classes, campus closed.

July 9, 2012, Monday  
Summer I final examinations.  
Residence Halls close at 6 p.m.  
Cafeteria open for breakfast and lunch only.

July 10, 2012, Tuesday  
Summer I final grades to be entered by faculty no later than 3 p.m.

### Summer II 2012

January 20, 2012 Friday  
Deadline to file Application for Degree Form with the Office of the Registrar for August 2012 graduation.

February 1, 2012, Wednesday  
Priority admission application and document deadline for students.

April 9, 2012, Monday (tentative)  
ASSIST registration (Web) begins by classification for Fall, Miniterm, Summer I, Summer II and Summer III 2012.

June 26, 2012, Tuesday  
Admission application and document deadline for late registration. Applications received after this deadline will be processed for the next semester.

July 10, 2012, Tuesday  
Housing move-in.  
Cafeteria open for dinner only.

July 11, 2012, Wednesday  
First day of classes.

July 16, 2012, Monday  
Fourth class day, census date.  
Courses dropped by this date do not count toward six-course drop limit.

July 20, 2012, Friday  
Last day to change course to non-credit.

August 6, 2012, Monday  
Last day to drop a course or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade he/she earns.

August 15, 2012, Wednesday  
Last day of classes.

grade(s) he/she earns.

April 19, 2013, Friday
Deadline to file Application for Degree Form with the
Office of the Registrar for December 2013 graduation.

May 2-3, 2013, inclusive,
Study days, no classes or final examinations
without written approval of the Dean.

May 4-10, 2013, inclusive,
Spring semester final examinations.

May 10, 2013, Friday
Residence Halls close at 5 p.m.
Cafeteria open for breakfast and lunch only.

May 11, 2013, Saturday
Commencement exercises.

May 13, 2013, Monday
Spring final grades to be entered by faculty no later than
3 p.m.
**Miniterm 2013**

February 1, 2013, Friday  
Priority admission application and document deadline for students.

April 1, 2013, Monday (tentative)  
ASSIST registration (Web) begins by classification for Miniterm, Summer I, Summer II, Summer III and Fall 2013.

April 26, 2013, Friday  
Admission application and document deadline for late registration. Applications received after this deadline will be processed for the next semester.

May 10, 2013, Friday  
Housing move-in begins for Miniterm.

May 13, 2013, Monday  
First day of classes.

May 14, 2013, Tuesday  
Second class day, census date.  
Courses dropped by this date do not count toward six-course drop limit.

May 24, 2013, Friday  
Last day to drop courses or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade(s) he/she earns.

May 27, 2013, Monday  
Memorial Day holiday, no classes, campus closed.

May 30, 2013, Thursday  
Last day of classes.

May 31, 2013, Friday  
Miniterm final examinations.  
Residence Halls close at 6 p.m.

June 3, 2013, Monday  
Miniterm final grades to be entered by faculty no later than 3 p.m.

August 17, 2013, Saturday  
Commencement exercises.

**Summer I 2013**

December 7, 2012, Friday  
Deadline to file Application for Degree Form with the Office of the Registrar for July 2013 graduation.

February 1, 2013, Friday  
Priority admission application and document deadline for students.

April 1, 2013, Monday (tentative)  
ASSIST registration (Web) begins by classification for Miniterm, Summer I, Summer II, Summer III, and Fall 2013.

May 17, 2013, Friday  
Admission application and document deadline for late registration. Applications received after this deadline will be processed for the next semester.

May 31, 2013, Friday  
Housing move-in begins.  
Cafeteria open for dinner only.

June 3, 2013, Monday  
First day of classes.

June 6, 2013, Thursday  
Fourth class day, census date.  
Courses dropped by this date do not count toward six-course drop limit.

June 12, 2013, Wednesday  
Last day to change course to non-credit.

July 1, 2013, Monday  
Last day to drop courses or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade(s) he/she earns.

July 4, 2013, Thursday  
Fourth of July holiday, no classes, campus closed.

July 5, 2013, Friday  
Last day of classes.

July 8, 2013, Monday  
Summer I final examinations.  
Residence Halls close at 6 p.m.  
Cafeteria open for breakfast and lunch only.

July 9, 2013, Tuesday  
Summer I final grades to be entered by faculty no later than 3 p.m.

August 17, 2013, Saturday  
Commencement exercises.
**Summer II 2013**

January 18, 2013, Friday  
Deadline to file Application for Degree Form with the Office of the Registrar for August 2013 graduation.

February 1, 2013, Friday  
Priority admission application and document deadline for students.

April 1, 2013, Monday (tentative)  
ASSIST registration (Web) begins by classification for Miniterm, Summer I, Summer II, Summer III and Fall 2013.

June 25, 2013, Tuesday  
Admission application and document deadline for late registration. Applications received after this deadline will be processed for the next semester.

July 8, 2013, Monday  
Housing move-in begins.  
Cafeteria open for dinner only.

July 10, 2013, Wednesday  
First day of classes.

July 15, 2013, Monday  
Fourth class day, census date.  
Courses dropped by this date do not count toward six-course drop limit.

July 18, 2013, Thursday  
Last day to change course to non-credit.

August 2, 2013, Friday  
Last day to drop courses or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade(s) he/she earns.

August 13, 2013, Tuesday  
Last day of classes.

August 14, 2013, Wednesday  
Study day, no classes or final examinations without written approval of the Dean.

August 15, 2013, Thursday  
Summer II final examinations.  
Residence Halls close at 6 p.m.

August 16, 2013, Friday  
Final grades to be entered by faculty no later than 3 p.m.  
Cafeteria open for breakfast and lunch only.

August 17, 2013, Saturday  
Commencement exercises.

---

**Summer III 2013**  
**10-week Session**

April 1, 2013 Monday (tentative)  
ASSIST registration (Web) begins by classification for Miniterm, Summer I, Summer II, Summer III and Fall 2013.

June 3, 2013, Monday  
First day of classes.

June 11, 2013, Tuesday  
Seventh class day, census date.  
Courses dropped by this date do not count toward six-course drop limit.

July 4, 2013, Thursday  
Fourth of July holiday, no classes for Summer III courses.

July 12, 2013, Friday  
Last day to change course to non-credit

July 31, 2013, Wednesday  
Last day to drop a course or withdraw from the University with a grade of DR or W recorded. After this date student remains enrolled in course(s) and receives whatever letter grade(s) he/she earns.

August 13, 2013, Tuesday  
Last day of classes.

August 14, 2013, Wednesday  
Study day, no classes or final examinations without written approval of the Dean.

August 15, 2013, Thursday  
Summer III Final Examinations.

August 16, 2013, Friday  
Summer III final grades to be entered by faculty no later than 3 p.m.

August 17, 2013, Saturday  
Commencement exercises.
General Information

The University of Texas-Pan American

Overview

The University of Texas-Pan American is a comprehensive, public coeducational institution located in Edinburg, Texas, close to the Mexican border and the Gulf of Mexico.

Mission

The University of Texas-Pan American (UTPA) serves the higher education needs of a rapidly growing, international, multicultural population in the South Texas region. The University preserves, transmits, and creates knowledge to serve the cultural, civic, and economic advancement of the region and the state.

The University provides students advanced instruction in academic programs offered through innovative delivery systems that lead to professional certification, and baccalaureate, master’s, and doctoral degrees.

Through teaching, research, creative activity, and public service, UTPA prepares students for lifelong learning and leadership roles in the state, nation, and world community.

Vision

The vision of The University of Texas-Pan American is to be a premier institution of higher education. As a major, nationally recognized Hispanic-serving institution, the University will be a leader in addressing the needs of a culturally diverse society through discoveries and innovations of global significance.

Values

- We value ethical conduct based on honesty, integrity, and mutual respect in all interactions and relationships.
- We value student access to higher education, recognizing their diversity and needs.
- We value student success fostered through the commitment of faculty and staff.
- We value a diversity of perspectives, experiences, and traditions as essential components of a quality education.
- We value curiosity, exploration, inquiry, innovation, creativity, and an entrepreneurial spirit.
- We value collaboration with internal and external constituent groups.
- We value active involvement in shared governance, consensus building, teamwork and open communication.
- We value our relationship as a united community of scholars, students and staff enriching each other’s work and lives through our commitment to the advancement of UTPA.

Goals

Provide students a quality educational experience that enables them to complete their educational goals in a timely fashion. Become an outstanding research institution, emphasizing collaborative partnerships and entrepreneurship. Enhance UTPA’s engagement with the community to meet challenges and maximize opportunities.

Collaborate with P-12 schools to enlarge the pool of applicants who are personally prepared and academically qualified for higher education. Infuse Inter-American and global perspectives throughout the University community. Optimize institutional effectiveness and efficiency consistent with high quality organizational standards.

University History

The University of Texas-Pan American has a rich tradition of educational service and community engagement. In the past eight decades, it has undergone six name changes, all reflecting growth, achievement, and success.

1927-1933

Edinburg College was founded as a two-year community college governed by the Edinburg School District. The original building housed 200 students and today is listed as a historical site in the city of Edinburg, the county seat for Hidalgo County.

1933-1948

Edinburg Junior College, as the only institution of higher learning in South Texas, experienced rapid growth in its early years, prompting administrators to pursue the first name change.

1948-1952

Edinburg Regional College was moved from the original four-acre site to a 186-acre campus a few blocks west. During the 1950s and 1960s, the campus was purchased in parcels at a cost of $677,000.

1952-1971

Pan American College made its transformation from a junior college to a four-year university in the early 1950s. The name Pan American was selected to reflect the institution’s desire to bridge the cultures of North and South America and to reflect the cultural and ethnic diversity of the University.
Pan American University saw the student population diversify during the 1970s reflecting a predominantly Mexican-American population. The Wall Street Journal article credited President Miguel Nevárez with creating an Hispanic middle class for the South Texas region through education.

The University of Texas-Pan American was established in 1989 after the successful and historic merger of Pan American University with The University of Texas System.

Today, UT Pan American continues to grow with a current enrollment of more than 18,700 students. The institution serves the cultural, social, economic, research, and most importantly educational needs of the rapidly growing, international, culturally diverse population of South Texas.

### The Students

UTPA has a total of 18,744 students (Fall 2010) coming from 32 different states, while the majority comes from Texas. UTPA enrolls the highest number and highest percentage of Hispanics (88.5%) among Texas public universities. Of the total student population, 2,478 are graduate students participating in over 57 graduate-level programs. According to the Texas Higher Education Coordinating Board’s “Closing the Gaps” target, the University will have a fall enrollment of 22,000 students by the year 2015.

According to The Hispanic Outlook in Higher Education 2011, UTPA is among the top 100 best U.S. colleges for Hispanics including:

- 3rd in the nation in the number of bachelor’s degrees,
- 3rd in the number of master’s degrees awarded to Hispanics,
- 1st in English Literature, Foreign Languages, Multi-interdisciplinary Studies and Biological and Biomedical Sciences in bachelor’s degrees awarded to Hispanic students.

### Degrees and Programs

UT Pan American’s seven academic colleges — Arts and Humanities, Business Administration, Education, Engineering and Computer Science, Health Sciences and Human Services, Science and Mathematics, and Social and Behavioral Sciences — offer a wide range of degree options encompassing a comprehensive series of academic concentrations and selected areas of professional study.

### Bachelor’s Degrees

#### College of Arts and Humanities
- Art (BA, BFA)
- Communication
  - Communication Studies (BA)
  - Mass Communication (BA)
  - Theatre (BA)
- Dance (BA)

Director for Alumni Relations
Debby Grant

Admission

General Information

The University of Texas-Pan American is an equal opportunity educational institution. Under this philosophy, students are admitted to the University without regard to race, creed, color, sex, ethnic origin, religion, age, veteran status or disability.

Admission is only for the semester requested. Students who apply but do not attend must either contact the Office of Admissions and New Student Services to request a term change for the following semester or submit an updated application at www.applytexas.org for admission to enroll for a later semester.

Students are admitted to UT Pan American through the Office of Admissions and New Student Services, which is responsible for administering admission policies. Students who wish to attend the University must meet all admission requirements by the published deadline date for the semester for which they are applying. Failure to have applications with supporting documents on file by these dates will result in restrictive admission or denial of admission at that time. Documents must be sent to:

The University of Texas-Pan American
Admissions and New Student Services
Student Services Building, First Floor
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-2999
General Information

Voice/Telecommunications
Device for the Deaf: (956) 665-2215
Web: www.newstudent.utpa.edu

Required high school and/or college transcripts must be requested from each individual institution attended. The official transcripts must be sent by the institution directly to Admissions and New Student Services at the above address or may be hand delivered as long as they are in a sealed envelope from the institution. Information regarding how test scores may be requested may be obtained from the University Testing Center; UTPA Annex, 2412 S. Closner, telephone (956) 665-7585, e-mail testing@utpa.edu.

Undergraduate Admission

Admission Documents Required

Applicants seeking admission are required to submit the following documents by the published deadline date to be considered for admission. Applications received after the published deadline date will automatically be processed for the next available semester.

1. Application for Admission.
2. Official college transcripts from all colleges and universities attended. Transcripts must be sent directly from the institution(s) attended or may be hand delivered as long as the document is in a sealed envelope from the institution. Students who are currently enrolled at another institution should request a transcript to be sent with the coursework completed to date, followed by a final transcript to be sent upon completion of the current semester. Only coursework or degrees earned at an institution accredited by a regional accrediting association will be recognized.
3. Texas Success Initiative (TSI) approved test scores or proof of exemption for students who plan to enroll in college-level coursework. Test scores from approved TSI exams or TSI exemption will not be used as a basis for admission, but will be used to determine placement. Refer to page 22 for further information.
4. ACT or SAT scores.
5. High school transcript showing the units completed, grades earned, date of graduation, graduation program type and rank in class. Admission may be tentatively granted on the basis of the first semester of the senior year.

In addition to current University requirements for admission, applicants must also have either:

1. Successfully completed the curriculum requirements for the Recommended or Distinguished Achievement Plan or its equivalent; or
2. Satisfied ACTs College Readiness Benchmarks on the ACT assessment applicable to the applicant or earned on the SAT assessment a score of at least 1500 out of 2400 or the equivalent.

The above requirement may be satisfied if the applicant’s official high school transcript or diploma states that the applicant completed the portion of the recommended or
advanced curriculum or its equivalent that was available to the applicant, but was unable to complete the remainder of the curriculum solely because courses necessary to complete the remainder were unavailable to the applicant at the appropriate times in the applicant’s high school career as a result of course scheduling, lack of enrollment capacity or another cause not within the applicant’s control.

In accordance with Texas Education Code, Section 51.803(e), an applicant is entitled to automatic admission if he/she meets the UTPA minimum requirements and is a child of certain public servants who were killed or sustained fatal injury in the line of duty.

Admissions and New Student Services will make every effort to inform applicants of incomplete files. If incomplete applications are received within one month of the application deadline, there will not be sufficient time to notify applicants. Applicants will be issued a UTPA ID number to be used as a student identification number. Students may use the UTPA ID or their social security number when requesting information regarding their records.

All documents submitted become the property of UT Pan American. Admission documents submitted will remain on file for one year, if the student does not attend, or for five years if the student attends UT Pan American. Documents will not be returned.

Notification of Admission Decisions

Admission decisions are made throughout the application period and announced as soon as possible. The decision may be to accept, accept conditionally pending completion of high school or current college enrollment, or to deny the application. Applicants who were accepted conditionally are required to submit final transcripts when that institution has transcribed all coursework and final grade calculations. New applicants accepted for admission are required to attend new student orientation prior to enrolling for courses.

Admission Review Requirements

Selected applicants who do not qualify for automatic admission may be eligible for admission through the University’s Admission Review Program. Selected applicants must have successfully completed the curriculum requirements for the Recommended or Distinguished Achievement Plan or its equivalent. In addition to the required admission documents, applicants selected for review will be required to submit the following:

- Personal Letter of Appeal
- Personal Résumé
- Letters of Recommendation

Selected applicants will be individually reviewed with admissions approval or denial decisions based on a combination of the following holistic criteria:

- Academic Record
- Extracurricular Activities
- Work-related Activities

Suspected Fraudulent Admission Applications

Applicants for admission to UT Pan American should be aware that the information submitted will be relied upon by University officials to determine their status for admission and residency for tuition purposes. Failure to submit a complete and correct application, including all transcripts, is grounds for rejection of application, withdrawal of an offer of acceptance or, after enrollment, any disciplinary action including expulsion. Any applicant, whether a new student or a former student at the University, who has attended another collegiate institution is not at liberty to disregard any part of the collegiate records and apply for admission to UT Pan American on the basis of the high school record or a partial record of his or her college work, but is subject without exception to the regulations given above. Students who have course credit or grades earned 10 or more years ago may elect to be readmitted under the Academic Fresh Start program. See page 18 for more information.

Freshman Admission

Applicants who have not attended a college or university after graduating from high school, or students transferring less than 15 academic college hours, may seek admission as a freshman. Freshmen will be accepted to UT Pan American based on their high school class rank, high school curriculum, scores on the ACT or SAT exam, and GPA of all college work attempted (if applicable, refer to page 24 on Transfer Admission).

1. Top 10 Percent Applicants from Texas High Schools — Applicants who graduate from recognized public or private high schools in Texas with a class rank in the top 10 percent of their high school graduating class will be automatically admitted to UT Pan American.*

2. International Baccalaureate Diploma Program Recipients – Applicants who receive an International Baccalaureate Diploma will be automatically admitted to UT Pan American.*

*While Top 10 percent or IB admission is automatic, the documents described above must be submitted by the admission deadline in order to take advantage of the automatic admission.
3. Other Applicants – Entering freshmen, who achieve the following standards, may also be admitted to UT Pan American.

**Minimum Admission Requirements:**
- Minimum ACT composite of 18 (SAT of 860 (math + verbal only)) and Texas distinguished or recommended diploma or equivalent.*
- or
  - A. One point below the current ACT composite requirement and a rank within the top 33 percent of their graduating class.
  - or
  - B. Two points below the current ACT composite requirement and a rank within the top 25 percent of their graduating class.

*Students graduating from a recognized high school from outside the state of Texas must have completed the following college preparatory coursework in addition to other credits required for graduation:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>4 years of college preparatory English</td>
<td></td>
</tr>
<tr>
<td>4 years of mathematics to include Algebra Geometry, Algebra II and advanced math</td>
<td></td>
</tr>
<tr>
<td>4 years of science in Biology, Chemistry or Physics</td>
<td></td>
</tr>
<tr>
<td>3 1/2 years of Social Studies to include World History, World Geography, U.S. History Studies since reconstruction and U.S. Government</td>
<td></td>
</tr>
<tr>
<td>2 years of the same foreign language</td>
<td></td>
</tr>
</tbody>
</table>

The following recommended high school curriculum will be phased-in as a requirement for regular admission beginning Fall 2007:

<table>
<thead>
<tr>
<th>Subject</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>English Language Arts</td>
<td>4 credits</td>
</tr>
<tr>
<td>English I, II, III, IV</td>
<td></td>
</tr>
<tr>
<td>English I and II for speakers of other languages may be substituted for English I and II only for immigrant students with limited English proficiency</td>
<td></td>
</tr>
<tr>
<td>Mathematics</td>
<td>4 credits</td>

C. Elective (1 1/2 credits)

1. Option I: Mathematics, Science Elective
   A. Mathematics (1 credit) must be
   - Precalculus
   B. Science (1 credit) selected from:
   - Integrated Physics and Chemistry
   - Biology, AP Biology or IB Biology
   - Environmental Systems, AP Environmental Science or IB Environmental Systems
   - Chemistry, AP Chemistry or IB Chemistry
   - Aquatic Science
   - Physics, AP Physics or IB Physics
   - Astronomy
   - Geology, Meteorology, and Oceanography
   - Scientific Research and Design
   - Anatomy and Physiology of Human Systems
   - Medical Microbiology
   - Pathophysiology
   - Principles of Technology I and II

2. Option II: Career and Technology
   3 1/2 credits in a coherent sequence of courses for career and technology preparation
3. Option III: Academic
   3 1/2 credits in state approved courses in:
   • Language Arts
   • Science
   • Social Studies
   • Mathematics
   • Languages other than English
   • Fine Arts
   or
   • Technology Applications

   Advanced Placement (AP), International Baccalaureate (IB) or college courses may substitute.

   TOTAL 24 credits

State of Texas Uniform Admission Standards

Per state law, The Uniform Admissions Policy, TEC 51.803-51.809 requires that all students must meet one of the following college readiness standards in order to be eligible for consideration for admission at a Texas four-year public institution:

- Successfully complete the recommended or advanced (distinguished) high school program or complete the portion of the program that was available to them. Successfully complete a curriculum that is equivalent in content and rigor to the recommended or advanced (distinguished) high school program at a high school that is exempt from offering such programs. Satisfy the College Readiness Benchmarks on the SAT or ACT assessment: SAT- 1500 out of 2400 ACT- 18 English, 21 Reading, 22 Math and 24 Science
- Students graduating from private high schools in Texas or out-of-state high schools can be documented by the students' high school using one of the forms:
  - TPHSC-Form 1: Students who graduated in 2010 or before from Texas private schools, Texas public schools and out-of-state schools.
  - TPHSC-Form 2: Students who will graduate in 2011 or after from Texas private schools, Texas public schools and out-of-state schools.
- NTHSC-Form 1: Students who graduated in 2010 or before from out-of-state schools.
- NTHSC-Form 2: Students who will graduate in 2011 or after from out-of-state schools.

General Education Development (GED) Applicant:

Applicants who did not graduate from an accredited high school but who have successfully passed all five-subject tests and received a GED certificate may be considered for admission to UTPA.

The State of Texas Uniform Admissions Policy also applies to GED graduates. Since a GED graduate cannot provide curriculum information, either the ACT College Readiness Benchmarks or the required SAT assessment scores must have been achieved for admittance to a Texas general academic teaching institution. Therefore, the application will not be processed without the SAT or ACT scores to consider.

Guerra Honors Program

The Rafael A. “Felo” and Carmen Guerra Honors Program (GHP) offers a means of enriching the college education of a select group of academically talented and highly motivated undergraduate students by providing special opportunities and challenges. Students in GHP attend special honors classes at the freshman and sophomore level and complete honors independent study courses related to their major field of study at the junior and senior level.

Entering freshmen are eligible to apply for admission to GHP in one of three ways:

(Please note: These are minimum requirements and are not guarantees for admission.)

1. Have a composite ACT score of 24 or higher (or New SAT of 1670 or higher or Old SAT equivalent of 1110)
2. Graduate in the top 10 percent of their high school class
3. Graduate from high school with a grade average of 90 or above in English, math, science and social studies courses

Students currently attending college may apply if they have earned 12 or more hours of college credit with a GPA of 3.3 or higher. College grades and recommendations from university professors will determine the student’s eligibility. A list of courses and other information about the Guerra Honors Program are on page 21 and page 108 of this catalog.

Admission to UT Pan American does not grant automatic admission into the Guerra Honors Program. Students must apply directly to GHP and submit an Honors Admissions Portfolio. Contact the Guerra Honors Program Office for additional information.

Concurrent Enrollment Program for High School Students

UT Pan American sponsors two types of Concurrent Enrollment Programs, the High School to University Program (On-Campus Attendance and Distance Learning) and the Independent Student Program (On-Campus Attendance only). Both programs are designed to give eligible high school juniors and seniors an opportunity to earn college credit in a University learning environment. Concurrent Enrollment students are graded in the same manner as are other college students and are awarded college credit upon completion of their courses and graduation from high school. Students who wish to receive dual credit (high school and college credit) must receive approval from their school districts for high school credit to be awarded.

Students who receive Concurrent Enrollment credit at UT Pan American may be eligible for the University Scholars Scholarship Program upon regular admission to the University. For more information contact the Scholarship Office at (956) 665-2935.

The Independent Student Program

On-Campus Attendance

Outstanding high school students may apply on an individual basis to take University courses. High school counselors are usually available to assist individual students in preparing their applications for admission to Concurrent Enrollment.

Admission Criteria for the Independent Student Program:
1. ACT composite of 22 or SAT composite of 1030, (verbal and math).
2. Rank in the top 10% of graduating class or have a 90 or above GPA in academic courses*
3. Recommendations from high school counselor and principal each semester of attendance
4. Permission of parent or guardian
5. Meet deadlines for Concurrent Enrollment admissions.

* Academic average is based on grades in academic courses such as English, mathematics, foreign languages, natural sciences and social sciences. Non-academic courses such as physical education, music and vocational courses are not considered.

Application for Concurrent Enrollment Admission

To be admitted to Concurrent Enrollment, students must submit the following documents by the published deadline for the semester for which they are applying:

- Concurrent Enrollment Authorization Form • High school transcript that include class ranking and student GPA
- ACT scores with a minimum composite of 22 or equivalent SAT score of 1030.
- Test scores fulfilling the Texas Success Initiative (TSI), if required for the courses taken. Students will not be permitted to register or will be dropped if TSI requirements are not met.

All admission documents for Concurrent Enrollment must be submitted to:
The University of Texas-Pan American Admissions and New Student Services 1201 West University Dr. Edinburg, TX 78539-2999 Phone: (956) 665-2999 Fax: (956) 665-2687

It is recommended that all documents be sent at one time. All documents submitted become the property of The University of Texas-Pan American. Students must also meet the prerequisites for the course(s) in which they plan to enroll, if any exist. To continue participating in Concurrent Enrollment, participants must
upon graduation from high school, Concurrent Enrollment students must submit a final high school transcript indicating:

1. The student is a graduate.
2. The student has earned at least 21 accredited high school units.
3. The student’s class rank.

Concurrent Enrollment students who wish to continue their studies at UT Pan American after high school graduation will be readmitted as Entering Freshmen and will be invited to attend Freshman Orientation.

Concurrent Enrollment Honors Program

The Concurrent Enrollment Honors Program offers an exceptional educational experience for academically talented high school students. Benefits to program participants include small class sizes, innovative teaching techniques, individualized instruction, research opportunities, academic recognition and a wide variety of extracurricular activities. Honors courses are offered in a wide range of academic disciplines including English, history, political science, humanities, biology, statistics and others. Concurrent Enrollment Honors Program participants who continue their education at UT Pan American after high school graduation have an opportunity to graduate from the University within the framework of the Honors Program.

Admission Criteria for the Concurrent Enrollment Honors Program

In addition to meeting the criteria and submitting all documents required for regular admission to the Concurrent Enrollment Program, students must:

• Complete a Concurrent Enrollment Honors Program application form
• Have an ACT composite score of at least 22 or SAT equivalent of 1030.
• Submit a personal narrative that:
  1) Summarizes the important events in the student’s life, giving particular attention to special interests and any honors or awards received.
  2) Gives the student’s reasons for wanting to participate in the Concurrent Enrollment Honors program at UTPA.

Concurrent Enrollment Honors Program applicants must meet all regular application deadlines for Concurrent Enrollment. Because of limited seating in honors classes, students are encouraged to apply early.

Concurrent Enrollment Summer Housing Programs

Several summer residential programs are available for eligible Concurrent Enrollment students. Individuals selected for these programs receive room and board scholarships and have the added benefit of special informational sessions that cover topics related to applying for college and preparing for success in higher education. Additional benefits may exist depending upon the focus of the program. Call Admissions and New Student Services at (956) 665-2999 for details.

Readmission

Students who last attended UT Pan American are admitted as Returning Students after an absence of at least one regular semester. To be admitted as a Returning Student, an applicant must be in good academic standing or have served his or her period of suspension (students will be readmitted on academic probation). Returning students must also clear any academic or financial holds before enrollment will be permitted.

If students seeking readmission were enrolled at other colleges or universities after last attending UTPA, a transfer admissions application must be submitted at www.applytexas.org. Official transcripts must also be provided to Admissions and New Student Services. A cumulative grade point average of 2.0 (on a 4.0 scale) is required on all academic transfer coursework attempted.

It is recommended that students who are returning after an extended absence seek advising, either from an academic advisor, the Advisement Center or the Academic Advisement and Mentoring Center. Students with 60 or more hours should work with their academic advisor in their major department to make any necessary updates to their degree plan.

Returning students who are not TSI exempt or who have not passed all sections of a TSI approved exam, must seek advising at the Advisement Center.
Transfer Admission

Applicants who last attended an accredited college or university other than UT Pan American may seek admission as a transfer student by submitting their application at www.applytexas.org. Official transcripts must also be provided to Admissions and New Student Services. A cumulative GPA of 2.0 (on a 4.0 scale) is required on all academic transfer coursework attempted. Students who are currently enrolled at another institution at the time of application will have their admission decision based on work completed at the time of application. In addition, the applicant must be in good academic standing at the transferring institution. Applicants transferring less than 15 hours must also meet Freshman Admission requirements (see page 19).

Transfer of Undergraduate Credits

Transfer of regular academic credit to or recognition of degrees from another institution by UT Pan American involves at least three considerations:

1. The educational quality of the institution from which the student transfers.
2. The comparability of the nature, content and level of credit earned to that offered by UT Pan American.
3. The appropriateness and applicability of credit earned to the programs offered by UT Pan American, in light of the student's educational goals.

Accreditation speaks primarily to the first of these considerations, serving as the basic indicator that an institution meets certain minimum standards. Accreditation affords reason for confidence in an institution's purposes, in the appropriateness of the resources and plans for carrying out these purposes and in its effectiveness in accomplishing its goals. UT Pan American requires that the institution be accredited by the regional accreditation association responsible for the geographical area in which the institution is located. Institutions that are not accredited may lack that status for reasons unrelated to questions of quality. Such institutions, however, cannot provide a reliable, third party assurance that they meet or exceed minimum standards.

Comparability of nature, content and level of transfer credit and the appropriateness and applicability of the credit earned to programs offered by UT Pan American are as important in the evaluation process as the accreditation status of the institution at which the credit was awarded. Since accreditation does not address these questions, this information must be obtained from the catalog and other materials from the sending institution.

The University accepts transfer credit and recognizes degrees from both traditional and non-traditional education institutions that are accredited by regional accreditation bodies in the United States. In cases where credits and degrees are awarded by non-traditional accredited institutions requiring no in-residence coursework, individual evaluation of transcripts must be made to determine credits for transfer. The appropriate academic or administrative office will normally make these evaluations.

There may be some differences between the acceptance of credit for admission purposes and the applicability of credit for degree purposes. UT Pan American may accept previous work, place a credit value on it and enter it on the transcript. However, because of its content, it may be determined to have no applicability to a specific degree program to be pursued by the student.

Foreign institutions, in most cases, are chartered and authorized by their national governments, usually through a ministry of education. Although this provides for standardization within a country, it does not produce useful information about comparability from one country to another. No other nation has a system comparable to the voluntary accreditation used in the United States. Please check with Admissions and New Student Services.

Outreach to Prospective Transfer Students

In an effort to help facilitate the transfer process from two-year and four-year institutions to UTPA, several programs and resources have been established to assist transfer students.

UTPA currently offers articulation agreements with two-year institutions that assist students with course selections and course transferability. Following a degree/transfer plan maximizes the 66 transferable hours a student can take at a community college prior to transferring to UTPA.

Colleges with Articulation Agreements with UTPA

South Texas College

In addition to the above mentioned degree/transfer plans, UTPA provides a host of transfer resources on the Admissions and New Student Services website at www.newstudent.utpa.edu. The online equivalency table found at www.assist.utpa.edu can assist transfer students in evaluating how their existing course credits might satisfy the requirements of a UTPA degree plan.

Finally, UTPA provides a transfer center with transfer specialists to assist prospective transfer students from two-year and four-year institutions. Transfer specialists provide admission requirements and basic academic advisement to all prospective transfer students.

For more information on transferring to UTPA, please visit the Undergraduate Admissions website at www.newstudent.utpa.edu or call (956) 665-2999.

Transfer Credit Guidelines

The grading policies of UT Pan American will be applied to all coursework transferring from other institutions. Some special circumstances regarding the transfer or non-transfer of credit to UT Pan American are listed as follows:

1. Bible Coursework: Exegetical or doctrinal courses in religion are not transferable. Courses in Bible of a historical or literary nature (but non-doctrinal) are transferable up to a maximum of 12 semester hours of lower-division credit.
2. Incomplete Grades: Incomplete grades are treated as F grades for the purpose of grade point average calculation.

3. Life Experience: Normally, no credit will be awarded for life experience. Exception to this rule may include those cases where the credit has been validated either by another regionally accredited institution of higher education, or by a test administered by an academic department and approved by the Office of the Provost.

4. Remedial Courses: Courses such as remedial or developmental reading and math, speed reading, remedial science and orientation are not transferable for credit.

5. Terminal Courses: Terminal courses offered at many junior colleges are not offered for the purpose of transfer to senior colleges and usually are clearly labeled in the college catalog as being non-transferable. Examples of terminal courses are auto mechanics, machine shop, electricity, data processing and welding.

6. Vocational/Technical Courses: Drill or skill courses such as filing methods and vocational or technical training courses such as shop courses, welding, carpentry, plumbing and masonry are not transferable.

7. Second Undergraduate Degrees: Transfer students entering with a bachelor's degree who seek a second undergraduate degree from UT Pan American must officially request that an evaluation of credits be completed by Admissions and New Student Services by filling out a "Second Degree Evaluation Form." Completion of a baccalaureate degree at another accredited institution will fulfill UT Pan American's general education (core curriculum) requirements exclusive of any state specified coursework. Students will be required to complete the Texas state-mandated coursework in U.S. history and political science if this has not already been completed as part of their first degree. Students must also complete any other University and departmental requirements for the second degree as stipulated in the catalog.

Transfer Curricula and Resolution of Transfer Disputes for Lower Division Courses

The following policy was developed for students transferring to UT Pan American from other Texas public institutions:

1. The transfer of curricula shall be as prescribed by the current issue of the Texas Higher Education Coordinating Board's guide to Transfer Curricula and Transfer of Credit. Current guidelines can be reviewed at the Office of Admissions and New Student Services.

2. The following procedures shall be followed by public institutions of higher education in the resolution of transfer disputes involving lower division courses:

a. If an institution of higher education does not accept a course credit earned by a student at another Texas public institution of higher education, that institution shall give written notice to the student and the other institution that the transfer of the course credit is denied.

b. The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with Coordinating Board rules and/or guidelines.

c. If the transfer dispute is not resolved to the satisfaction of the student or the institution at which the credit was earned within 45 days after the date the student received written notice of the denial, the institution that denies the transfer of the course credit shall notify the commissioner of higher education of its denial and the reason for the denial.

3. The commissioner or the commissioner’s designee shall make the final determination about a dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.

4. All Texas public institutions of higher education shall furnish data to the Coordinating Board on reported transfer disputes as the board may require in accordance with its statutory responsibilities under Section 61.826(e) of the Texas Education Code.

Texas Common Course Numbering System

The Texas Common Course Numbering System (TCCNS) has been designed to aid students in the transfer of general academic courses between colleges and universities throughout Texas. Common courses are freshman and sophomore academic credit courses that have been identified as common by institutions that are members of the TCCNS. The system ensures that if the student takes courses that the receiving institution has designated as common, then the courses will be accepted in transfer.

The table on pages 27-29 lists the courses UT Pan American has identified as common and their TCCNS equivalents. Before using this table, students should make sure the institution they attend employs the TCCNS. Course availability varies from institution to institution.

Only courses that have direct equivalents are shown. Courses at other TCCNS institutions that do not have a direct UTPA equivalent will be evaluated for transferability on a case-by-case basis. Students wishing to transfer a course to UT Pan American that is not listed in this guide should obtain approval from Admissions and New Student Services prior to taking the course.

Admissions and New Student Services at UT Pan American must receive an official transcript directly from the registrar’s office of the institution attended before credit can
General Information

be transferred. (See section on Transfer of Undergraduate Credits on page 24 for complete transfer of course credit regulations.)

Distance Learning Courses

UTPA offers two types of distance learning education courses in addition to the traditional classroom setting - interactive video courses are identified by the letter I after the section number and local Web delivery courses are identified by the letter L after the section number (i.e. ENG 1301.90I or ENG 1301.90L).

For further information, contact the course instructor or visit the Center for Distance Learning website at http://cdl.utpa.edu or call (956) 665-2979.

UT Online Consortium

Online courses are offered from UT Pan American via UT Online Consortium, the gateway to online degrees and courses from UT System institutions. On the website one will find links to various student services, support offices and program information for the UT System institutions participating in the consortium. Designated contacts at each campus are available to assist, as is the student services support staff at Online Consortium. Call toll-free 1-888-TEXAS-16 (1-888-839-2716) with questions.

NOTE: To see a full listing of semester courses offerings and host universities for the UT Online Consortium, access http://www.utcoursesonline.org.

International Admission

An applicant is considered an international student if the applicant is not a citizen of the United States or does not hold permanent resident alien status. All required documents must be on file in the Office of International Admissions and Services by the designated date.

International students must not only meet standard admission requirements, but must also submit the following documents by the respective deadline:

**Application Hard Deadlines for students currently NOT studying in another U.S. institution with visa**

July 1  (for fall entry)
November 1  (for spring entry)
March 1  (summer minimester)
April 1  (for summer I entry)
May 1  (for summer II entry)

**Application Deadlines for students currently studying in another U.S. institution with visa**

August 1  (for fall entry)
December 1  (for spring entry)
April 1  (summer minimester)
May 1  (for summer I entry)
June 1  (for summer II entry)

1. International Student Application for Admission (applytexas.org).

2. Test of English as a Foreign Language (TOEFL) scores or IELTS. Students from countries whose native language is not English are required to take the TOEFL or the IELTS. TOEFL or IELTS scores must be sent directly from the educational testing service. UT Pan American will not accept residual TOEFL exams taken at another institution. Students scoring below 500 (173 for computer-based tests) on the TOEFL will be denied admission. IELTS exam will also be accepted with a minimum of a 6.0 score.

3. The ACT Assessment and the SAT are designed to assess high school students’ general educational development and their ability to complete college-level work. The tests cover four skill areas: English, mathematics, reading and science. The minimum ACT composite test score is 18. The minimum CEEB-SAT test score is 850.

4. The Texas Success Initiative (TSI) requires students to be assessed in reading, writing and math skills prior to enrolling in college, and to be advised on course placement based on the results of that assessment. The approved TSI testing instruments are as follows: THEA, ACCUPLACER, ASSET, AND COMPASS.

5. Proof of sufficient funds to pay for one year of educational and living expenses. This may be proved through financial documents and bank statements showing specific dollar amounts available.

6. English translation and evaluation of educational records from Foreign Credential Services of America. In addition to the official transcripts required for admission, certified English translation must be included to allow for accurate interpretations. Foreign Credential Services of America (FCSA) 1910 Justin Lane, Austin, TX 78757-2411 (USA) Phone: (512) 459-8428; Fax: (512) 459-4565 Web: http://www.fcsa.biz
   E-mail: info@fcsa.biz

7. Purchase of Mandatory Medical Insurance from the University. As required by Regents’ Rule 50402, students holding nonimmigrant visas are required to maintain approved comprehensive health insurance or coverage while enrolled. Medical insurance is required each semester of attendance with minimum coverage as follows: Major Medical, $50,000; Medical Evacuation, $10,000; and Repatriation of Remains, $7,500. Deductible has to be $500 or less. Medical insurance will be automatically billed at the beginning of each semester and must be maintained throughout your time at our University unless proof of adequate insurance is provided to the international student advisor by the official census date for the semester (refer to the University calendar for published census dates). Refunds will not be generated for students who obtain or submit proof of insurance after the census date.

Procedure After Admission — Issuance of I-20

Upon completion of the application process, successful applicants will be issued an I-20 by the international student advisor, who is the University’s designated official to report the status of international students to the U.S. Citizenship and Immigration Services (USCIS). Students must then present the I-20 to the American Consulate in their home country to obtain a visa.

International students are required to report any change in status immediately to the International Student Advisement Office, located in LEAC 156, telephone: (956) 665-2922, web: http://www.utpa.edu/oias.

SEVIS: (Student and Exchange Visitor Information System) is an Internet-based system that allows schools and the Department of Homeland Security (immigration agencies) to exchange data on the visa status and activities.
of international students. Accurate and current information is transmitted electronically throughout an F-1 and J-1 student’s academic year in the United States. U.S. Ports of Entry, U.S. Embassies and Consulates also have access to SEVIS. Schools are now required to report immediately to U.S. Immigration and Customs Enforcement any violations of immigration regulations. The designated school official is then required to terminate the student’s visa status in SEVIS. Students who violate any immigration regulations are subject to arrest, fines and/or deportation.

Duration: A non-immigrant student may be admitted for “duration of status.” This means the student is authorized to stay in the United States for the entire length of time during which the student is enrolled full time in an educational program and any period of authorized practical training plus 60 days. While in the United States, the student must maintain a valid foreign passport unless exempt from passport requirements.

School on Visa: For initial admission, the student must attend the school specified on the visa. If the student has a Form I-20 A-B from more than one school, it is important to have the name of the intended school specified on the visa by presenting a Form I-20 A-B from that school to the visa-issuing consular officer. Failure to attend the specified school will result in the loss of student status and subject the individual to deportation.

Re-entry: A non-immigrant student may be readmitted to the University after a temporary absence of five months or less from the United States, if the student is otherwise admissible. The student may be readmitted by presenting a valid foreign passport, a valid visa and either a new Form I-20 A-B or page three of the Form I-20 A-B (the I-20 ID Copy) properly endorsed for re-entry if the information on the I-20 form is current.

Transfer: A non-immigrant student is permitted to transfer to a different school provided the transfer procedure is followed. Please contact the Office of International Admissions and Services for information on transfer procedures.

Extension of Stay: If the student cannot complete the educational program in the time indicated on the I-20, the student must apply for extension of stay. An application for extension of stay should be filed with the Office of International Admissions and Services at least 30 days but no more than 60 days before the expiration of the student’s stay. Extensions are granted under limited conditions.

Reservation of Work by Undergraduates for Graduate Credit

It is possible for undergraduate students to enroll in graduate courses in their last semester under the following conditions:

1. The undergraduate student must lack no more than 12 hours to complete all requirements for his or her first bachelor’s degree.

2. These 12 hours (or less) must be completed in the same semester, or in two consecutive summer sessions, in which the student is taking the graduate courses.

3. Total enrollment, including undergraduate and graduate courses, must not exceed 15 hours in a regular semester, or 12 hours in two consecutive summer sessions.

4. The student has a minimum Graduate Admission GPA Calculation of 2.5 (on a 4.0 scale) on all work completed to date. (For information on the Graduate Admission GPA Calculation, consult the Graduate Catalog.)

5. The application for such graduate work is submitted to the Graduate School. Undergraduates cannot count their work in graduate courses toward the bachelor’s degree. Such work will be reserved for credit toward a graduate degree.

Graduate Non-degree Seeking Students

Students wanting to take graduate coursework for professional improvement must submit a graduate application online, pay the required fees and submit an official transcript showing the awarding of a bachelor’s or higher degree. This must be sent to the UT Pan American Office of Graduate Studies directly from the awarding institution. Non-degree seeking students applying for certification related to education are required to have transcripts sent from all institutions attended.
Tuition and fee student bill statements are available at www.assist.utpa.edu two weeks prior to the first tuition due date. Students are responsible for verifying their student account before every tuition due date in order to make sure there is no outstanding balance. UTPA is required to set aside a portion of a student’s designated tuition to provide financial assistance. Effective Spring 2010, notice of the specific amount required to be set aside will be included with the student’s tuition bill. (Texas Education Code, Section 56.014)
Special types of visas
Military
Additional information on residency, reclassification, tuition exceptions and waivers is available at:

The University of Texas-Pan American
Office of the Registrar
Student Services Building, First Floor
1201 West University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-2481

Excess Credit Hours
45-Hour Rule and 30-Hour Rule

The state of Texas has enacted legislation regarding funding for excess undergraduate credit hours (Texas Education Code, Section 61.0595). As a result of this legislation, funding will not be provided to state institutions of higher education for students exceeding the minimum number of hours required for completion of their degree program.

- **30-Hour Rule:** Students initially enrolled as undergraduates in an institution of higher education beginning the Fall 2006 semester and subsequent semesters may not exceed 30 hours more than the minimum number required for the completion of their degree program.

- **45-Hour Rule:** Students initially enrolling as undergraduates in an institution of higher education beginning the Fall 1999 semester, but no later than the 2006 summer semester, may not exceed 45 hours more than the minimum number required for completion of their degree program.

- **Exemption:** Students who enrolled as undergraduates in an institution of higher education prior to the 1999 fall semester are exempt from this legislation.

Since funding will not be provided by the state and as permitted by state law (Texas Education Code, Section 54.014), in addition to resident tuition, UTPA will charge an Excess Credit Hour fee to all students who exceed the semester credit hour limit of their program as follows:

The semester hours counted toward the excessive credit hour calculation include all hours attempted by the student except:

- Semester credit hours earned by a student 10 or more years before the date the student begins the new degree program under the Academic Fresh Start Program.

- Semester credit hours earned by the student before receiving a baccalaureate degree that has been previously awarded.

- Semester credit hours earned by examination or other procedure by which credit is earned without registering for a course for which tuition is charged

- Developmental education (remedial), technical and workforce education courses funded according to contact hours or other courses that would not generate academic credit that could be applied toward a degree at UT Pan American.

- Semester credit hours earned at a private or out-of-state institution.

- Hours not eligible for formula funding.

For questions about tuition and fees under this policy, contact the registration accountant at (956) 665-2713.

Students with academic questions are encouraged to contact a student development specialist in the University Retention and Advisement Program at (956) 665-2319.

Three-Peat Rule

The Texas Legislature withholds funding from the University when a student enrolls in the same course for three or more times. The intent is to reduce the time that students take to graduate. Since funding will not be provided by the state and as permitted by state law (Texas Education Code, Section 54.014), in addition to resident tuition, UTPA charges a Three-Peat fee of $100 per credit hour fee for “three-peat” courses.

Per THECB Rule 13.106, the semester hours counted toward the three-peat calculation include all hours attempted by the student except:

- Remedial and development courses (18 hour limit

- Courses dropped prior to the official census date for the semester.

- Dissertation, thesis, seminar, independent study and special topics courses.

- Courses that involve different or more advanced content each time they are taken, including individual music lessons, Workforce Education Courses, Manual Special Topics courses (when the topic changes), theater practicum, music performance, ensembles, certain physical education and kinesiology courses, and studio art.

- Continuing education courses that must be repeated to retain professional certification.
General Information

- Courses taken at institutions other than UTPA.

For questions about tuition and fees under this policy, contact the registration accountant at (956) 665-2713.

Students with academic questions are encouraged to contact the Advisement Center at (956) 665-2529 or the Academic Advisement and Mentoring Center at (956) 665-7121.

Excessive Developmental Course Hours

Students may enroll in 18 hours of developmental courses (MATH 1300, 1334; ENG 1310, 1320) without penalty. Students enrolling in more than 18 hours of developmental courses will, in addition to resident tuition, be assessed as permitted by state law (Texas Education Code, Section 54.014) an additional Excessive Developmental Course Hour fee of $100 per credit hour for these courses.

The semester hours counted toward the Excessive Developmental Course calculation include all developmental hours attempted by the student except:

- Courses dropped prior to the official census date for the semester.
- Courses taken at institutions other than UTPA.

For questions about tuition and fees under this policy, contact the registration accountant at (956) 665-2713.

Students with academic questions are encouraged to contact the Advisement Center at (956) 665-2529.

Tuition and Mandatory Fees

Tuition, fees and charges are assessed to students based on semester credit hours, charges per semester or specific services. Tuition and fees are subject to change by legislative or regent action and become effective when enacted. The Texas Legislature, except for basic tuition, does not set the specific amount for any particular student fee. The student fees assessed are authorized by state statute; however, the University administration and The University of Texas System Board of Regents make the specific fee amounts and the determination to increase fees. Texas Education Code Sections 54.504 and 55.16 authorize the governing board to fix and collect fees and charges.

Shown in the Fee Tables on pages 40-41 are the required tuition and fees charged each semester:

- Tuition: 2011-2012 is $50 per semester credit hour for resident undergraduate students and $363 per semester credit hour for all nonresident undergraduate students and in 2012-2013 is $50 and $363, respectively.
- Tuition Designated Charge: 2011-2012 is $115.39 per semester credit hour, with a maximum of $1,615.46 per semester, for all undergraduate students.
- Student Service Fee: Supports student activities such as intramural and intercollegiate athletics, the campus newspaper, student accident insurance, University Program Board, drama, dance group, Student Government Association, University Center and other student services as determined by the Board of Regents. At the time of the printing of this catalog, the fee is charged at $14 per semester credit hour up to a maximum of $250 per regular semester or $125 per summer session.
- Student Union Fee: $30 per student per regular semester and $15 per student per summer session will be assessed to provide operation and maintenance support of the Student Union Building.
- Computer Access Fee: $10.25 per semester credit hour is charged to fund costs incurred in providing access to and supervision of computer laboratories.
- International Education Fee: $1 per semester is charged to assist students participating in international student exchanges or study programs.
- Recreation Fee: $75/$35.
- Registration Fee: $10 per semester is charged to defray the cost of providing ASSIST services for registration.
- Library Technology Fee: $3.25 per semester credit hour is charged to enhance student access to library information via technology.
- Medical Service Fee: $27.35 per regular semester or $11.55 per summer session is charged to fund Student Health Services.
- Utility Fee: $2.85 per semester credit hour is charged to defray the rising cost of utilities.
- Academic Advisement Fee: $25 per regular semester or $12.50 per summer session is charged to defray the cost of providing the necessary advisement infrastructure for undergraduate students, who are TASP cleared.

NOTE: The fee tables do not include required laboratory fees or individual instruction fees, which are listed with the individual course descriptions.
Course Specific Fees

- Art Course Fee: $40 per course for studio art and art education and $20 per course for art history. This fee is assessed to defray the cost of technology, materials, student assistants, and visiting artists and critics.

- Biology Course Fee: $15-$36 will be assessed on biology courses to defray the costs of supplies, chemicals, and costs associated with replacement of equipment.

- Chemistry Course Fee: $24 will be assessed to defray the cost of field trips, supplies, chemicals, and costs associated with replacement of equipment to students enrolled in specific chemistry courses.

- Clinical Lab Science Course Fee: $20-$50 per course. This fee is assessed to defray the costs of consumable supplies, media, diagnostic reagents, and chemicals and the clinical practicum cost.

- College of Education Field Experience Fee: $25 per course is assessed to defray the cost of the field experience program.

- College of HS&HS Student Insurance Fee: Actual cost of insurance assessed to cover liability insurance cost for students in clinical practices.

- Communication Course Fee: $40 for television, photography, and media publishing courses, $20 for writing courses, and $5 for all other courses. This fee is assessed to defray the cost of supplies, materials, and cost associated with the replacement of equipment and software.

- Computer Science Instruction Fee: $5 per semester credit hour for lower undergraduate level courses, $7 per semester credit hour for upper undergraduate level courses, and $15 per semester credit hour for graduate-level courses. This fee will be assessed on computer science courses to defray the cost of computer hardware, maintenance, lab monitors and software upgrades.

- Developmental Course Repeat Fee: $100 per semester credit hour. This fee is assessed to defray the cost associated with students enrolled in an aggregate total of more than 18 semester hours of developmental courses.

- Dietetics Course Fee: $15 will be assessed on specific dietetics courses to defray the cost of supplies, chemicals, and costs associated with replacement of equipment.

- Distance Education Fee: $25 per SCH will be assessed to students enrolled in interactive video/online courses. $40 per SCH will be assessed to students enrolled in distance learning courses. Students enrolled in these courses may request fee waivers if special circumstances preclude them from using UTPA facilities, activities, and/or student services on which a fee is based. Reference Distance Learning Tuition Waivers on pages 52-53 for additional information.

- Engineering Course Fee: $5 per semester credit hour for lower undergraduate courses, $13 per semester credit hour for upper-level undergraduate courses, and $18 per semester credit hour for graduate courses. This fee is assessed to defray the costs of lab equipment beyond that provided by the College of Science and Engineering Technology Fee, and for supplies, maintenance of equipment, cost of software, and other peripherals utilized.

- Excess Credit Hour Fee: $90 per semester credit hour is assessed to defray the cost of providing instruction to students who have exceeded the required degree plan hours as described in the Texas Education Code §61.0595.

- Field Trip Fee: Varies based on actual transportation and related costs. This fee is assessed to defray the cost of providing transportation and related costs associated with field trips.

- Instrument Users Fee: $10 will be assessed for clinical laboratory science courses, $25 to certain College of Education courses, and $8-$58 for specific music courses to support maintenance and equipment replacement costs.

- Individual Instruction Fees: For courses in art, communication, and music that provide individual coaching or instruction, a fee of $35 for a one- or two-hour course or $60 for a four-hour course may be charged. Specific music courses are assessed $2.

- Kinesiology Activity Course Fees: $6 will be assessed for all two-hour kinesiology activity courses. In the case of bowling, golf, and scuba diving there is an additional fee for the use of non-University facilities and equipment. Additional fees are subject to change at the discretion of the facility provider.

- Kinesiology and Dance Supply Replacement Fee: Actual cost. This fee is assessed to defray the cost of replacing locks, towels, and baseball gloves.

- Laboratory Fees: $2-30 may be assessed for each laboratory course depending upon cost of material used.
General Information

- Nursing Course Fee: $50 per course is assessed to defray the costs of supplies, materials and other costs associated with the replacement of equipment and software.

- Nursing Testing Fee: The actual cost of testing will be assessed for standardized testing required by the Board of Nurse Examiners. This fee is non-refundable.

- Occupational Therapy Course Fee: $30-100 will be assessed to defray costs of supplies, chemicals and costs associated with replacement of equipment to students enrolled in specific courses.

- Practicum Course Fee-Dietetics: $20 per course is assessed to defray cost associated with academics, coordinator visits to food service, clinical, and community nutrition sites as mandated by accreditation standards.

- Physics and Geology Course Fee: $20 per course is assessed to defray cost of maintenance and purchase of lab equipment, to provide one field trip per year for each lab course sequence, to introduce use of technology to teach labs, and to provide lab tutorial services.

- Rehabilitation Course Fee: $10 per course is assessed to defray the cost of supplies, chemicals and costs associated with replacement of equipment.

- Rehabilitation Field Experience Fee: $8 per course is assessed to defray the cost of the Field Experience Program.

- Social Work Field Experience Fee: $12.50 per course is assessed to defray the cost of faculty travel to observe student’s progress.

- Technology Fee: Students enrolled in the College of Business Administration or College of Science and Engineering will be assessed a fee to defray costs associated with technical support and software licensing. Fee rates are as follows:
  - College of Business Administration - undergraduates, $10 per three-semester credit hours with a $30 maximum; MBA graduates, $15 per three-semester credit hours with a $45 maximum; doctoral graduates, $25 per three-semester credit hours with a $75 maximum.
  - College of Science and Engineering – Biology, Chemistry, Engineering, Physics and Geology: undergraduates, $3 per semester credit hour; graduates, $15 per semester credit hour. Mathematics: undergraduates, $1 per semester credit hour; graduates, $5 per semester credit hour.

- Three-peat Fee: $100 per semester credit hour is assessed to defray the costs associated with students enrolled in a given course for the third or greater time.

Payment by Installment

Section 54.007 of the Texas Education Code provides for payment by installment of tuition and mandatory fees in the fall and spring semesters. Students electing to use the installment plan must be enrolled for a minimum of seven semester hours and must personally fill out a contract at the Office of Payments and Collections, Student Services Building, Room 115. Students already receiving some form of financial aid, including scholarships, are not eligible. Eligible students may elect one of the following two options during fall and spring registration:

- Option A: Full payment on specified due date.
- Option B: Half payment on specified due date.
  - One-fourth payment before the sixth class week.
  - One-fourth payment before the 11th class week.

Once an option has been selected, it may not be changed; however, advance payments will be accepted. Students electing to pay in accordance with Option B must personally sign a promissory note. A non-refundable Tuition Installment Incidental Charge of $30 will be collected to defray the cost to the University of providing this delayed payment service.

The second and any subsequent installment must be made before the class week indicated above. Late installments will be accepted during the first three class days of the class week indicated above, but a non-refundable late payment charge of $5 will be assessed in addition to the installment amount.

After the first three class days of the class week indicated above, late installments will still be accepted, but a non-refundable reinstatement fee of $25 will be assessed in addition to the installment amount.

A student who fails to provide full payment of tuition and fees, including assessed late fees, to the University when the payments are due is subject to one or more of the following actions at the University’s option:

1. Being withdrawn from the University.
2. Being barred from readmission to the institution.
3. The withholding of the student’s grades, degree, and official transcript.
4. All penalties and actions authorized by law.
Other Fees and Deposits

- Auditing Fees: $20 non-refundable fee will be charged if the instructor permits anyone to audit the course.

- Cafeteria Meal Tickets: Cafeteria meals for students residing on campus are included in the residence hall contract. Other students may purchase a semester or summer session meal ticket. For more information, see Student Housing on page 97.

- Catalog: The first University Catalog is provided free to each undergraduate and graduate student. Subsequent catalogs will cost $2 each.

- Cooperative Pharmacy Program Application Fee: $60 will be assessed to defray the cost associated with the application process and travel of faculty between UT Austin and UT Pan American for admission committee meetings.

- Diploma Replacement Fee: $20 will be charged to students who request the replacement of a diploma for duplication costs.

- Emergency Loan Processing Fee: $20 non-refundable fee to defray administrative costs incurred in processing and collecting emergency loan payments. (See page 54 for more on Emergency Loans.)

- Engineering Magnetic Key Fee: $15 for magnetic cards ($10 refundable) and $25 for electronic cards ($18 refundable).

- Foreign Transcript Evaluation Fee: $80 to defray the cost associated with evaluation of foreign transcripts.

- General Property Deposit: $20 one-time deposit to ensure against losses, damages or breakage in laboratories and libraries.

- Graduation Fee: $32 non-refundable fee is assessed for undergraduate and graduate degrees. This fee is payable at the time the candidate presents the application for graduation to the Office of the Registrar. This fee is used to pay for processing the application for graduation, music, graduation speaker, postage, diplomas and other expenses associated with graduation. All students participating in the commencement ceremony are required to purchase the proper graduation regalia from the University Bookstore. No students will be permitted to participate without the proper regalia. Students wishing to transfer their application for graduation to another semester will be required to pay an additional $10 fee for each time they transfer.

- Health Insurance Fee: This is mandatory insurance for international students holding non-immigrant visas and living in the United States. The fee is variable to match the premium for approved UT System Student Insurance Plan, and may be waived if proof of adequate insurance is provided, as required by Regents’ Rule 50402.

- ID Card Replacement Fee: $12 non-refundable fee for a replacement ID card. Entering students are provided a free University photo identification card. Students may pay the fee at the Office of Student Development, University Center, Room 205, when they request a replacement ID card.

- International Student Service Fee: $40 per semester is assessed to defray the cost of providing services to F-1, J-1 and F-3 students.

- International Business Doctorate Application Fee: $35 non-refundable fee to defray costs of processing applications for admission to the doctoral program in international business.

- Late Payment Fee: $50 non-refundable fee to defray the cost associated with the processing of late tuition and fee payments.

- Late Registration Fee: $40 non-refundable fee to defray the costs of late registration and extra services required.

- Library Fees: The fees are, for a late book, $.25 per workday per book; lost book, plus a $15 processing fee; damage fee, $5 if repairable in-house, $12 if rebinding is needed by commercial binder; late reserve material, $.50 per hour; late special collections book, $1 per day; late vertical file/Annual Report item, $1 per day; graduate carrel locker, $10 per year; photocopy fee, $.20 per page; Interlibrary loan, actual cost; late equipment fee, up to $.50 per hour and not to exceed $20 for equipment with value of up to $100, $1 per hour and not to exceed $75 for equipment with value of $101-$300, $2 per hour and not to exceed $200 for equipment with value of $301-$600, $3 per hour and not to exceed $400 for equipment with value of $601-$1,200, $4 per hour and not to exceed $600 for equipment with value of $1,201-$2,000, and $5 per hour and not to exceed $800 for equipment with value of $2,001-$3,000; locker rental fee, $25; lost book returned without CD-ROM, cost of item plus a $15 processing fee; and lost audio visual and computer materials, replacement cost plus a $15 processing fee. All library fees are paid at the Circulation Desk of the University Library.

- Orientation Fee: A $75 one-time non-refundable fee will be charged to defray the costs associated with new student orientation, pre-registration and other activities. Students must pay the fee prior to attending
General Information

- Parking Permit: See Vehicle Registration and Operation Permit on page 38.
- Professional MBA Program Fee: Fee is assessed to cover the program-related costs, including textbooks, supplies and guest lecturers. The amount varies based on actual costs.
- Residence Hall Installment Charge: See Student Housing on page 97.
- Returned Check Charge: $15 non-refundable service charge will be assessed to a student for each bad check. The University may refuse to accept a check from a student who has previously given a bad check (insufficient funds, account closed, signature irregular, payment stopped, etc.).
- Science Magnetic Key Fee: $15 for magnetic cards ($10 refundable) and $25 for electronic cards ($18 refundable).
- Short-Term Loan Fees: $5 processing fee and a $5 late payment fee. (For more information on short-term loans, see page 54.)
- Study Abroad and International Exchange Application and Program Fees: $125 application fee will be assessed to defray the cost of administering the programs in addition to the actual cost of travel, lodging, meals, instructional honorarium and enrollment. Program fees assessed will be the actual cost of Study Abroad or International Exchange Program. These fees are non-refundable.
- Student Liability Insurance: All students enrolled in specific programs in the College of Health Sciences and Human Services, College of Education or College of Social and Behavioral Sciences must carry liability insurance. This is necessary in order for students to participate in clinical practicum activities associated with coursework. Fee assessed will reflect actual cost of insurance.
- Student Union Game Room Late Payment Fee: This fee is charged to defray the cost of processing late payments of recreation room charges. The fee is $5 the first day plus $1 per day after the first day to a maximum of $10.
- Teacher Alternative Certification Program Application Fee: $50 will be charged for processing applications for the Alternative Certification Program in the College of Education.
- Teacher Preparation Program Fee: A $40 one-time fee will be charged to defray costs related to services provided to the College of Education students seeking certification in the teacher preparation program upon completion of 90 hours.
- TELESYS Account Fee: Students are charged $36 per year or $17 per fall or spring semester and $14 for both summer terms for 260 hours annually (pro-rated if paid by semester) of Internet access through a SLIP/PPP modem pool. The charges for 520 hours are $72 per year or $34 per fall or spring semester and $28 for both summer terms. The charge for 1,040 hours is $108 per year or $42 per fall or spring semester and $36 for both summer terms. Internet access for more than 1,040 hours annually is available at $2 per hour. The fee is assessed only for those students who make use of the service.
- Thesis Binding Fee: Actual cost.
- Thesis Microfilming Fee: Each master’s thesis is microfilmed and placed in the University Library. The cost will be approximately $20, depending on length of thesis.
- TSI Activity Fee: $120 will be charged to students participating in the Learning Assistance Center’s Texas Success Initiative (TSI). This fee supports non-course based developmental education activities.
- TSI Affected Student Advisement Fee: $45 per semester will be charged to students not cleared from TSI to defray the cost of advising.
- Tuition Installment Incidental Charge: See Installment Payments on page 36.
- University Testing Services: Fees may be charged for tests to defray the cost of administering and scoring academic tests. Accuplacer Test Fee, $45; ACT Residual Test, $60; CLEP Service Fee, $20; Correspondence Exam, $30; Institutional TOEFL, 50; The Higher Education Assessment of THEA-Quick Test (formerly Q-TASP), $15; PSB Health Occupations Aptitude, $35; and Computer Assisted Placement, $10. Please inquire at the University Testing Center, UTPA Annex, 2412 S. Closner, Edinburg, telephone (956) 292-7584 or 7585, e-mail: testing@utpa.edu.
- Vehicle Registration and Operation Permit (Parking Permit): All students, full- or part-time, who operate a motor vehicle in the campus area must register the vehicle with the University Police Department. A hangtag permit or decal to be placed on the vehicle indicating the permit number and class C parking privileges will be provided. The charge for the academic year beginning Sept. 1 and ending Aug 31 is $52 for upperclassman and $45 for freshman if paid during the fall semester. There are no refunds after the 12th class day (fourth class day in the summer). UT Pan American enforces all Texas Vehicle inspection codes (Texas Education Code, Sec. 51.207). All vehicles that park on the campus premises must have current...
inspection stickers and a current student-parking permit properly displayed. Parking and Traffic Rules and Regulations are available at the University Police Department or online at http://utpa.edu/police.

NOTE: Unpaid fees and/or fines that become overdue may result in a “hold” being placed on student’s records. The fees listed above must be paid at the Parking Services Department, Office of Payments and Collections, Student Services Building, Room 115, except for the Library Fees and ID Card Replacement Fee as noted above. Students who are unsure where to pay fees or what fees they owe may call the Office of Payments and Collections at (956) 665-2715 for more information. For citation fees or fines, call the Parking Services Department at (956) 665-2738.

Refund of Registration Fees

To officially withdraw from the University or drop a course, a student must go to the Office of the Registrar. A student withdrawing officially and completely during a fall or spring semester will receive a refund of total tuition and fees (excluding non-refundable fees) according to the following scale (Section 54.006, Texas Education Code):

- 100 percent before the first day of classes
- 80 percent during the first five class days
- 70 percent during the second five class days
- 50 percent during the third five class days
- 25 percent during the fourth five class days
- No refund after fourth five class day period

Refund of total tuition and fees (excluding non-refundable fees) during a summer term to students withdrawing officially and completely will be made according to the following scale:

- 100 percent before the first day of classes
- 80 percent during the first three class days
- 50 percent during the fourth, fifth and sixth class days
- No refund after the sixth class day

NOTE: The term "class days" refers to days the University schedules classes, not the individual student’s schedule.

Students officially dropping courses but remaining enrolled at the University receive a full refund of tuition and mandatory fees actually paid for the dropped classes through the 12th class day (official census date) during a fall or spring semester or the fourth class day (official census day) during a summer term, minus a non-refundable $5 course drop fee and other non-refundable fees assessed for each course dropped beginning with the first day of classes.

Students will not receive refunds for classes dropped after these dates. Additionally, per the Texas Higher Education Coordinating Board Rules and Regulations, students may not enroll in a course after the official census date (Chapter 9, Subch. B, 9.31.a).

Refund checks will be mailed within 45 days to the student’s billing address on file at the Office of the Registrar (within 30 days if the student did not receive some form of financial assistance through the University). Refunds for a student under the installment plan will be first applied to the student’s unpaid balance.

Students who do not officially withdraw through the Office of the Registrar will be responsible for tuition, fees and any circumstances arising from failure to withdraw.

General Information

* Texas Education Code, 54.504 - Incidental Fees and 55.16 Board Responsibility authorizes the governing board to fix and collect fees and charges. The averages are not given for college and course related fees (laboratory, incidental, supplemental/individual fees) since charges vary according to academic program and courses; actual fees are published in the institutional catalog and/or other publications. A summary description of these fees and the optional student fees may be found in UTPA Catalog. Check out the online version at http://www.utpa.edu.

General Information: The Texas Legislature, except for basic tuition, does not set the specific amount for any particular student fee. The student fees assessed are authorized by state statute; however, the University administration and UT System Board of Regents determine specific fee amounts and make the decision to increase fees.

**House Bill 3015 authorizes the governing boards of institutions of higher education to charge any student Designated Tuition in any amount necessary for the effective operation of the institution effective Sept. 1, 2003.

Tuition Rebates

Eligible Students

To qualify for a tuition rebate of $1,000 upon graduation from UTPA, students must meet all of the following criteria:

1. Student must have attempted no more than three hours in excess of the minimum number of semester credit hours required to complete the degree in the catalog under which they graduated. (See definition of Attempted Hours below.)

2. Student must have enrolled for the first time in an institution of higher education in the fall of 1997 semester or later.

3. Student must be requesting a rebate for work related purposes to a first baccalaureate degree received from a Texas public university.

4. Student must have been a resident of Texas, must have attempted all coursework at a Texas public institution of higher education, and have been entitled to pay resident tuition at all times while pursuing the degree.

Definition: Attempted hours include transfer credits, course credit in excess of nine hours that were earned exclusively by examination, courses that are dropped after the official census date, for-credit developmental courses, optional internship and cooperative education courses, and repeated courses exclusively by examination. Courses dropped for reasons that are determined by the institution to be totally beyond the control of the student shall not be counted.

Amount of Tuition Rebates

1. The amount of tuition to be rebated to a student under this program is $1,000, unless the total amount of undergraduate tuition paid by the student to the institution awarding the degree was less than $1,000, in which event the amount of tuition to be rebated is equal to the amount of undergraduate tuition paid by the student to the institution.

2. A student who paid the institution awarding the degree an amount of undergraduate tuition less than $1,000 may qualify for an increase in the amount of the rebate, not to exceed a total rebate of $1,000, for any amount of undergraduate tuition the student paid to other Texas public institutions of higher education by providing the institution awarding the degree with proof of the total amount of that tuition paid to other institutions.

3. Tuition rebates shall be reduced by the amount of any outstanding student loan, including an emergency loan, owed to or guaranteed by this state, including the Texas Guaranteed Student Loan Corporation. If a student has more than one outstanding student loan, the institution shall apply the amount of the rebate to the loans as directed by the student. If the student fails to provide timely instructions on the application of the amount, the institution shall apply the amount of the rebate to retire the loans with the highest interest rates first.

Responsibilities of Institutions

1. Institutions shall notify first-time freshmen of the tuition rebate program. A notice in this catalog is considered an acceptable form of notice.

2. If requested by potentially eligible students, public institutions of higher education are required to provide these students opportunities to enroll during each fall and spring semester in the equivalent of at least 12 semester credit hours that apply toward their degrees. Institutions are not required to provide students with the opportunity to enroll in specific courses or specific sections. The requirement may be met by allowing substitutions for required courses or by allowing Concurrent Enrollment in courses from another institution, so long as the courses are taught on the student’s home campus and the student incurs no financial penalty.

3. Texas public universities are required to provide students with appropriate forms and instructions for requesting tuition reimbursement at the time that students apply for baccalaureate degrees.

4. Institutions are required to provide tuition rebates to students who apply for them within 60 days after graduation or provide the student with a statement.
explaining the reason the student is ineligible for the rebate.

5. Institutions are required to provide a dispute resolution process to resolve disputes related to local administration of the program.

6. Disputes related to lower-division credit transfer should be resolved in accordance with Coordinating Board rules, Chapter 5, Section 5.393 of this title (relating to transfer of lower division course credit).

7. Institutions may adopt rules and regulations for administering the program.

Responsibilities of Students

1. Students desiring to qualify for tuition rebates are responsible for complying with all University rules and regulations related to administration of the program.

2. Students desiring to qualify for tuition rebates are solely responsible for enrolling only in courses that will qualify them for the rebates.

3. A student who has transferred from another institution of higher education is responsible for providing to the institution awarding the degree official transcripts from all institutions attended by the student.

4. Students must apply for rebates prior to receiving their baccalaureate degrees on forms provided by the institution’s registrar’s office and must keep the institution notified of their mailing address for at least 60 days after their graduation date.

Return of Title IV Funds Policy

When a recipient of federal financial aid funds withdraws from the University during a period of enrollment (i.e. semester) in which the recipient began attendance, the institution must determine the amount of federal loan or grant assistance that the student earned as of the student’s withdrawal date. The percentage of aid that has been earned by the student is equal to the percentage of the semester that the student completed as of the student’s withdrawal date. To determine the earned aid, the school will divide the total number of days of enrollment completed for which aid is awarded by the number of calendar days in that enrollment period. If this date occurs after the completion of 60 percent of the semester, the student is considered to have earned 100 percent of the federal grant and/or loan assistance for the semester. Please note that in cases where a student ceases attendance without providing official notification to the university of his or her withdrawal from the university, the institution must consider the midpoint of the semester as the official date of withdrawal. The student must contact his or her academic dean’s office to provide official notification of intent to withdraw.

If the total amount of federal grant or loan assistance, or both, that the student earned is less than the amount of federal grant or loan assistance that was disbursed to the student, the difference between these amounts must be returned to the federal aid programs. The amounts of unearned federal aid must be returned regardless of whether the student is eligible to receive a refund of a portion of university fees, such as tuition fees or room and board fees. The amount to be returned to the federal student financial aid accounts will be returned to the programs from which the student received aid up to the amount of aid disbursed in the following order: Unsubsidized Federal Stafford loans, Subsidized Federal Stafford loans, Federal Perkins Loan, Federal PLUS loans received on behalf of the student, Federal Pell Grants for which a return of funds is required, and Federal SEOG grants for which a return of funds is required.

If the total amount of federal grant or loan assistance, or both, that the student earned is greater than total amount of federal grant and/or loan assistance that was disbursed to the student or on behalf of the student, as of the date of the institution’s determination that the student withdrew, the difference between these amounts must be treated as a post-withdrawal disbursement. If federal loan funds are used to credit a post-withdrawal disbursement, the university must provide the student, or parent in the case of a PLUS loan, the opportunity to cancel all or a portion of the post-withdrawal disbursement. The university has 30 days to provide this notice to the student or parent. The student or parent must respond to the notice within 14 days of the date the institution sent the notification. If the student or parent does not respond, the university cannot make a post-withdrawal disbursement of federal loan funds.

Federal Policy on all F’s

If a student fails to earn at least one passing grade in his/her classes and received Title IV aid, the student must prove within a timely manner that he/she completed the course and earned the failing grade or the date the student stopped attending. Federal regulations, 34 CFR 668.22(c)(1)(iii), require the school to determine if the student earned the failing grades or if the student dropped out of school. If the school cannot make this determination, the school must apply the Return of Title IV Funds Policy on the student’s account. This will cause the student to owe a balance due to the school. The student might also owe a balance to the federal government that must be paid within 45 days or the student’s account will be reported to the U.S. Department of Education for collections. A hold will also be placed on the student’s account that will prevent the student from receiving future Title IV Aid, register for future semesters, and receive any services from the institution.
General Information

Financial Assistance

Financial aid plays a vital role at The University of Texas-Pan American, where a large percentage of students receive some type of financial assistance.

Tuition and fees at UT Pan American are significantly lower than private colleges and equal to, or lower than, most public colleges. This, together with the availability of financial aid funds, makes UT Pan American an outstanding educational value. There are several sources of undergraduate student aid including federal, state, institutional and private funds. Financial assistance comes in the form of grants, scholarships, student loans and work-study.

For more information about the various types of financial assistance, contact:

Student Financial Services
Student Services Building, First Floor
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-2501
Web: www.utpa.edu/finaid
http://askrio.utpa.edu

For other financial aid information, the following services are available:

- Hours: 8 a.m.-6 p.m., Monday-Thursday
  8 a.m.-5 p.m., Friday

Federal Student Aid Information Center
1-800-4-FED-AID (1-800-433-3243)
Hours: 8 a.m.-midnight (Eastern Time)

To find out if the federal student financial aid application has been processed or to see the information on the application, a student should call 1-800-433-3243 or visit the website at www.fafsa.gov.

Application Process

The University of Texas-Pan American is an equal opportunity institution in the administration of its financial aid programs. In keeping with this policy, financial aid is extended to students without regard to race, creed, sex, national origin, veteran status, religion, age or disability.

In order to qualify for federal financial assistance, an applicant must meet the following criteria:

1. Be a U.S. citizen or eligible non-citizen.
2. Be registered with Selective Service (if required). 
   Note: In order to receive financial assistance from the state of Texas, a student must file a statement that he has registered for, or is exempt from registering with, Selective Service. If exempt, the specific reason must be provided.
3. Have a high school diploma or its equivalent
4. Have signed a statement of educational purpose certifying that any federal aid received will be used for educational purposes.
5. Be enrolled as a regular student working toward a degree in an eligible program.
6. Is not in default on any federal or institutional loan and does not owe a refund on any federal or state grant program.
7. Demonstrates financial need, except when applying for funds from a program that does not require proof of financial need.
8. Be in satisfactory academic standing and making Satisfactory Academic Progress (as defined by the Satisfactory Academic Progress Policy (described below) at the University.
9. Have completed a financial aid application and all required documentation is on file by the appropriate deadline.

How to Apply for Financial Aid

- File your FAFSA over the Internet at www.fafsa.gov and request a PIN at www.pin.ed.gov. (This is your electronic signature for FAFSA on the web).
- Visit the UTPA Financial Aid Express Lab for one-on-one electronic FAFSA submittal assistance.
- All required documents must be submitted before any aid can be awarded. Some applications are selected for verification of information submitted on the application.
Additional Information on the Federal Verification Procedure

As stated above, some applicants are selected by the federal processor for verification of information submitted on financial aid applications. If an applicant has been selected for verification, he or she will be notified by mail and/or e-mail. In most cases the documents used to verify information are the prior year’s federal income tax return and a Verification Worksheet. Additional documents may be requested depending upon the information to be verified. Dependent students will be asked to submit the requested information to the Office of Student Financial Services within two weeks. The financial aid application is considered incomplete until verification is completed. No aid offer will be made until verification is complete. If corrections must be made as a result of verification, corrections to the ISIR will be submitted to the federal processor. If an aid offer must be adjusted because of information submitted as part of the verification process, the applicant will be notified through a revised Financial Aid Notification e-mail.

The UTPA School Code for FAFSA is 003599.

Application Deadlines

To ensure processing before registration, the recommended priority dates for submission of the FAFSA are as follows:

- Fall awards: April 1
- Spring awards: Sept. 15
- Summer awards: Feb. 15

Final deadline to apply and receive financial aid is June 30 of each award year. In order to award aid for an application submitted after the end of the spring semester, the student must be currently enrolled in a summer term.

Aid is awarded on a funds-available basis, and priority is given to students who file by the priority deadline.

Students who did not apply for financial aid or submit required documents by the recommended priority dates may not have their aid awarded at the time payment is due. Arrangements will then need to be made by the student for an alternate method of payment.

Benefits of Applying Early

You increase your chance of receiving some of the state and/or local aid, which is in limited supply.

- You receive an award notification prior to the payment of tuition and fees.
- If your file needs corrections, these can be completed before the payment date of tuition and fees.

The Disbursement Process

Students receiving financial aid can expect to receive their aid in any of the following methods:

1. When the student accepts his/her award, the award will be credited to the student’s account to pay for any educational expenses approximately 10 days prior to the first class day.

2. Stafford Loan funds will be credited to the student’s account approximately 10 days prior to the first class day for students who have successfully guaranteed their loan. If a student is a first-time freshman borrower, the funds will not be received until 30 calendar days after the first class day.

3. Financial aid disbursement checks: Any credits remaining in the student’s account after all tuition/fees and all educational expenses have been paid will be disbursed the week prior to the first class day.

NOTE: Changes in class schedule or enrollment status may cause an adjustment or cancellation of a student’s awards, which will require you to pay a balance or return funds.

NOTE: All funds are mailed to the student’s mailing/billing address on file with the Office of the Registrar. Students that wish to have their disbursements sent directly to their bank account can set up Direct Deposit at http://assist.utpa.edu. Please refer to the Direct Deposit Student guide located in the log in page for ASSIST website for detailed instructions on how to set up Direct Deposit.

Satisfactory Academic Progress Policy

Federal Title IV financial aid regulations require students receiving federal student financial aid to maintain Satisfactory Academic Progress (SAP) at the University in order to remain eligible for this aid. Satisfactory Academic Progress standards are also required for some state and institutional financial aid programs.

Policy

The Office of Student Financial Services evaluates SAP (Satisfactory Academic Progress) after the completion of each semester once grades are posted. There are three components of SAP: a qualitative standard (i.e., grade point average), pace of number of credits attempted and earned for each year of study, and a maximum time frame (MTF) to complete the degree or program. All semesters of enrollment, including summer, must be considered in the determination of SAP. SAP standards, including grade point average, pace and maximum time frame, begin a new for students seeking a graduate or professional degree after completing an undergraduate degree.
Qualitative or Grade Point Average (GPA) Requirements

The student must maintain a grade point average (GPA) required for continued enrollment consistent with the University’s graduation requirements:

- Students with 1 to 29 earned credits — institutional GPA of 1.70
- Students with 30 to 59 earned credits — institutional GPA of 1.80
- Students with 60 to 89 earned credits — institutional GPA of 2.00
- Students with 90 or greater earned credits — institutional GPA of 2.00

All courses with a grade of A, B, C, D and F are counted in the calculations of GPA. Satisfactory Academic Progress cannot be determined until all incomplete (I) grades are resolved. Transfer grades that are accepted by the University are not counted in the determination of GPA because they are not part of the institutional or native GPA (effective Fall 2010). However, the credits from all attempts accepted by UTPA are counted in the calculation of pace and the maximum time frame requirement because transfer credits will be applied to meet prerequisites and course requirements for a student’s UTPA degree. If a student repeats a course, only the most recent grade is counted in the calculation of GPA. However, the credits from all attempts are counted in the calculation of pace and the maximum time frame requirement. Remedial courses are not counted in the calculation of GPA, pace or the maximum time frame requirement. Audited courses do not count toward the GPA, pace or maximum time frame requirements. Credit is not granted for audited courses.

Pace (Progression Requirements)

The student must be progressing toward graduation requirements by completing the courses for which he or she enrolls each semester. This is referred to as “pace.” Courses or classes are measured in credit hours:

Students must complete at least 67 percent of all credits attempted. For example, a sophomore who has attempted 60 credit hours and has satisfactorily completed 48 of those credit hours would have completed 80 percent of attempted credits.

Credits attempted are all course credit hours for which the student is enrolled as of the semester census date, which is the 12th day of class in a semester, whether he or she has received a grade yet or not. Once grades are assigned, attempted credits include grades of A, B, C, D, P, S, CR, F, W, WP, WF, IP, DR, DP, DX, NC or I. Grades of DROPPED are counted as hours attempted if the student is enrolled in the class and charged for it as of the semester census date (the 12th class day of the semester). Credits completed are classes for which the student receives a grade of A, B, C, D, P, S, CR or P.

Maximum Time Frame (MTF) Requirements

The student must complete undergraduate degree requirements in a maximum time period according to federal regulation. Maximum time frame will be measured by the number of credit hours attempted:

Students are allowed a maximum of 180 attempted credit hours in order to complete bachelor’s degree requirements. Students attempting a second bachelor’s degree are allowed 90 attempted credit hours.

Attempted credit hours, for purposes of calculating MTF, include all courses with grades of A, B, C, D, P, S, F, W, WP, WF, IP, CR, DR, DF, DP, DX, NC, I or courses for which grades have not yet been assigned. Transfer credits, AP credits, or CLEP credits accepted for the student’s academic degree or program are also counted when measuring the MTF to complete the degree or program.

Warning Period

Students who fail to meet the minimum requirements, other than MTF, will be allowed one warning semester to restore satisfactory standing. Financial aid will be processed for one semester only. At the end of the warning semester, the student must have regained satisfactory SAP status in order to continue receiving financial aid. Students having reached the maximum time frame to complete a program cannot receive a warning semester.

Financial Aid Suspension

Students who fail to earn the minimum requirements during the warning semester will be considered as not making SAP and all financial assistance will be terminated or suspended until the student regains minimum satisfactory academic progress standards. Students may re-establish eligibility for upcoming periods by achieving the satisfactory progress standards. After a student has re-established eligibility, he/she may be considered for aid for upcoming periods but not for periods during which the standard had not been met.
Appeals for Financial Aid Probation Period

A student who is denied aid because of a failure to meet satisfactory progress standards after the warning semester may appeal this determination to the Satisfactory Academic Progress Appeals Committee of the Office of Student Financial Services by completing a Student Appeal Form by published deadlines. An appeal must be based on significant mitigating circumstances, circumstances that seriously affected academic performance. Examples of possible mitigating circumstances are serious illness, severe injury, death of a family member and other similar situations. The appeal must include an explanation of why the student failed to meet SAP standards, and what has changed that will now allow the student to regain satisfactory SAP status. Appeals can only be approved if it appears that the student can regain satisfactory SAP status after the end of the following semester of enrollment, or if the student can regain satisfactory SAP status by following an academic plan that will lead to timely completion of the degree program. An appeal that is denied because the student is not able to regain satisfactory SAP status before reaching MTF is not appealable.

Treatment of Title IV Student Financial Aid Funds When a Student Withdraws

When federal Title IV grants or loan assistance is disbursed and the recipient does not complete the enrollment period, the law requires that UT Pan American calculate the amount that must be returned by the school and/or student to Title IV program accounts. The date the student initiates the withdrawal is used for calculating the percentage used in the formula for Return of Title IV Funds. The number of days from the first class day to the withdrawal date divided by the number of days in the payment period (semester) equals the percentage of Title IV Funds earned. If the withdrawal date is after the 60 percent point of the semester, the student has earned 100 percent of the Title IV funds.

If a student fails to earn a passing grade in at least one class, UT Pan American is required to calculate the amount for Return of Title IV Funds based on the last day of enrollment. If last day of attendance cannot be determined, UTPA may use the midpoint of the period (in lieu of an official withdrawal date) as documentation of the student’s last date of attendance. Unless the student can provide acceptable documentation that shows the student was enrolled more than 60 percent of the semester, the student may owe a refund back to UTPA and the federal government.

Distance Learning

UT TeleCampus

An agreement exists between UTPA and other UT institutions to award eligible student Title IV aid when taking courses at two or more of those institutions. This agreement, entered into between each of the named institutions, hereinafter referred to as Home or Host Institutions, is intended to provide the basis for the Home Institution to pay and/or certify federal/state and institutional student financial assistance to UT TeleCampus students matriculated at a Home Institution and also studying at a Host Institution.

Participating Institutions

The University of Texas at Arlington
The University of Texas at Brownsville
The University of Texas at El Paso
The University of Texas-Pan American
The University of Texas at Permian Basin
The University of Texas at Tyler
The University of Texas Health Science Center at San Antonio
The University of Texas Health Science Center at Houston
The University of Texas Southwestern Medical Center at Dallas
The University of Texas Medical Branch at Galveston
The University of Texas M.D. Anderson Cancer Center
The University of Texas at Austin
The University of Texas at Dallas
The University of Texas at San Antonio

Home: The UT component institution at which a student is fully admitted and enrolled in a degree or certificate program. The Home Institution will award the student’s degree or certificate.

Host: The UT component institution at which a student may enroll and take courses applicable to the degree or certificate program at his/her Home Institution.

A student wishing to enroll in a distance-learning course can refer to the following websites for additional information: https://tis.telecampus.utsystem.edu and http://www.utcoursesonline.org/courselogin.html.

NOTE: Financial aid funds will be disbursed after the listed census date for the respective semester for students who list UTPA as their Home Institution. As a result, students will need to contact their Host Institutions to make payment arrangements.
General Information

Study Abroad Program

Enrollment in a program of study abroad approved for credit by UTPA may be considered enrollment at UTPA for the purpose of applying for federal student aid. Students who apply for financial assistance for study abroad should apply in the same manner as if they were planning on being in residence at UT Pan American. A study abroad student must file a FAFSA and be participating in study abroad program that has been pre-approved to be a financial aid eligible Study Abroad Program. This is determined by the agreements that are set up by the Office of International Programs for each specific program. Students should verify with both the Office of International Programs and the Office of Student Financial Services to determine if the program they are interested in is an eligible program for financial aid purposes.

To be considered for Title IV funds, the study abroad applicant is expected to meet all financial aid application priority deadlines, to adhere to other financial aid deadlines, to meet all the eligibility requirements for Title IV awards, be making Satisfactory Academic Progress.

Stafford Loans

Students who will be eligible for Federal Stafford loans, unsubsidized loans and/or Perkins loans should be aware that:

1. First-time borrowers will not receive loan proceeds until 30 days into the term.

2. Entrance loan counseling sessions will be required for all loan applicants and the required applications and promissory notes must be completed and approved.

NOTE: If a student is not automatically awarded a Stafford loan, he/she may submit an additional Financial Aid Request available online at www.utpa.edu/finaid.

The study abroad applicant should also note that if awarded an institutional or outside scholarship, these awards may result in a reduction or cancellation of financial aid.

Disbursement Process (Study Abroad)

Disbursement of financial aid awards will adhere to the regular University schedule of funds disbursement. Study abroad applicants who need to meet earlier payment deadlines must make arrangements to pay from their own resources.

Federal Pell Grant

The study abroad applicant who is eligible for the Federal Pell Grant will have the award based on hours enrolled and the length of the study abroad academic school year.

Return of Title IV

Any time a student withdraws from the study abroad program, he or she will be responsible for repayment of federal funds.

The Office of International Programs can provide additional information on eligible study abroad programs. For additional information, call (956) 665-3572.

NOTE: Financial aid funds will be disbursed the week prior to the beginning of the program for the respective semester or the applicable UTPA disbursement date for that semester. As a result, students will need to contact the Office of International Programs to make payment arrangements with their respective study abroad program if payments are due before that date.

Types of Financial Assistance

Grants

Federal Pell Grant:

This grant is available to qualifying students who complete a Free Application for Federal Student Aid (FAFSA), which is online at www.fafsa.gov. Pell Grants are not available to students who have already received a bachelor’s degree. Student Financial Services determines the amount of the grant after the U.S. Department of Education has calculated the estimated family contribution.

Federal Supplemental Educational Opportunity Grant (FSEOG):

The federal government established this program for students with high financial need. Graduate students or students who have already received a bachelor’s degree are not eligible for FSEOG. The actual amount and qualification is determined after the FAFSA is submitted for processing. Awards from this program are based on the availability of funds.

Texas Public Educational Grant (TPEG):

A Texas Public Educational Grant is a campus-based grant for undergraduate and graduate students with financial need. Unlike the Federal Pell Grant, there is no guarantee that a student is eligible to receive a TPEG. Awards from this program are based on the availability of funds. If a student is awarded a TPEG at UT Pan American, his/her account will be credited.
TEXAS Grant:
The TEXAS (Towards EXcellence, Access and Success) Grant was created to provide a grant to enable well-prepared students to attend public and private nonprofit institutions of higher education in Texas. To qualify for TEXAS Grant, a student must:

- Be a Texas resident.
- Have not been convicted of a felony or crime involving a controlled substance.
- Complete the FAFSA and show financial need.
- Have an EFC less than or equal to 4000.
- Register for the Selective Service or are exempt from this requirement.
- Enroll in at least 3/4 time (nine hours or more) in an undergraduate program.

AND

- Be a graduate of an accredited high school in Texas not earlier than the 1998-99 school year.
- Complete the Recommended High School Program or Distinguished Achievement Program in high school
- Enroll in a nonprofit public college or university in Texas within 16 months of graduation from a public or accredited private high school in Texas.
- Have accumulated no more than 30 semester credit hours, excluding those earned for dual or concurrent courses or awarded for credit by examination (AP, IB, or CLEP).

OR

- Have earned an associate’s degree from a public technical, state or community college in Texas.
- Enroll in any public university in Texas no more than 12 months after receiving their associate’s degree.

Students must ensure that an official high school transcript is on record with the Office of Admissions before they can receive an award.

Please note that new merit criteria for qualifying for a TEXAS Grant is under consideration. A change in criteria will mean that students may have to meet additional qualifications in order to qualify for the grant. Receipt of a TEXAS Grant is not guaranteed and is dependent on yearly allocations from the state.

Federal Work-Study Program (FWS)
The Federal Work-Study Program provides jobs for undergraduate and graduate students with financial need. This program allows the student to earn money to help pay educational expenses and also encourages community service work and work related to the student’s course of study.

The FWS salary will be at least the current federal minimum wage. Students employed by UT Pan American through the Federal Work-Study Program will be paid directly and once a month.

Work-study employment may be on campus or off campus. Off campus, the employer is usually a private nonprofit organization or public agency, and the work performed must be in the public interest.

The amount a student receives in wages under work-study cannot exceed the total Federal Work-Study amount awarded. The employer will consider the student’s class schedule when preparing the work schedule. Funds are limited; therefore, funds are awarded on a first-come, first-serve basis for new incoming students. For returning students, priority is given to students who have previously worked under the work-study program.

Students will be able to see a list of work-study employment opportunities by department at http://www.utpa.edu/finaid/.

State Exemptions

Adopted Students Formerly in Foster or Other Residential Care

This program provides exemption of tuition and required fees for individuals who were adopted, and were subject of an adoption assistance agreement under Subchapter D, Chapter 162, Family Code, that provided monthly payments and medical assistance benefits and was not limited to providing only for the reimbursement of nonrecurring expenses.
General Information

Students under Conservatorship of Department of Protective and Regulatory Services

This program provides exemption of tuition and required fees for persons who were under the conservatorship of the Department of Protective and Regulatory Services on the day preceding their 18th birthday; on or after the day of the student’s 14th birthday, if the student was eligible for adoption on or after that day; on the day the student received a high school diploma or equivalent; or during an academic term in which the student was enrolled in a dual credit course. In order to take advantage of this exemption, the student must enroll as an undergraduate (including a dual credit course) no later than his or her 25th birthday.

Children of Disabled or Deceased Firefighters and Law Enforcement Officers

Exemption is for children under 21 years of age (or 22 if the student was eligible to participate in special education under Texas Education Code 29.003) of disabled full-paid or volunteer firefighters, full-paid municipal, county, state peace officers, custodians of the Department of Criminal Justice, or game wardens. Disability/death must have occurred in the line of duty. Students are exempted from tuition and required fees, not to exceed 120 undergraduate credit hours or any semester begun after age 26, whichever comes first.

Exemption for Highest Ranking High School Graduate (Valedictorian Tuition Exemption)

Valedictorians of each accredited Texas high school are exempted from tuition during the first two regular semesters immediately following their high school graduation. In order to qualify for this exemption, the student must submit a copy of his/her certificate to Student Financial Services confirming the student was the highest-ranking student of his/her high school.

Senior Citizen Exemption

Senior citizens may be exempt from payment of tuition for up to six credit hours per term on a space-available basis. A senior citizen is defined as a student of age 65 or older.

Exemption for Texas Veterans (Hazlewood Act)

The purpose of the Hazlewood Act (Section 54.203) is to encourage U.S. veterans to pursue higher education. To qualify for the Hazlewood Act, the applicant must be a veteran who at the time of entry into the U.S. armed forces:

1. Is a Texas resident, has designated Texas as home of record, or entered the service in Texas.
   Have served at least 181 days of active military duty, as indicated as “net active service” (the sum of 12(c) and 12(d) on the DD-214) and received an honorable discharge or separation or a general discharge under honorable conditions.

2. Have no federal veterans education benefits or have federal education benefits dedicated to the payment of tuition and fees only (such as Chapter 33 or 31; Pell and SEOG are not relevant) for term or semester enrolled that do not exceed the value of Hazlewood benefits.

3. Are not in default on a student loan made or guaranteed by the state of Texas.

4. Enroll in classes for which the college receives tax support (i.e., a course that does depend solely on student tuition and fees to cover its costs), unless the college's governing board has ruled to let veterans receive the benefit while taking non-funded courses.

5. Resides in Texas during the semester or term for which the exemption is claimed.

6. Students are entitled, not to exceed 150 credit hours, to an exemption of payment of tuition, fees (excluding student property deposit fees, student service fees, and any charges for board and lodging, or clothing) and other required charges that would otherwise be paid to attend The University of Texas-Pan American.

Hazlewood-Legacy Program (Transfer of Hazlewood Benefits)

Eligible veterans may assign unused hours of exemption eligibility to a child under certain conditions. To be eligible, the child must:

1. Be a Texas resident.

2. Be the biological child, stepchild, adopted child, or claimed as a dependent in the current or previous tax year.

3. Be 25 years or younger on the first day of the semester or term for which the exemption is claimed (unless granted an extension due to a qualifying illness or debilitating condition).

4. Make satisfactory academic progress in a degree, certificate, or continuing education program as determined by the institution.

If the child to whom hours have been delegated fails to use all of the assigned hours, a veteran may re-assign the unused hours that are available to another dependent child. Veteran’s spouses are not eligible to receive a transfer of unused hours.

Students are entitled, not to exceed 150 credit hours, to an exemption of payment of tuition, fees (excluding student property deposit fees, student service fees, and any charges for board and lodging, or clothing) and other required charges that would otherwise be paid to attend The University of Texas-Pan American.
Hazlewood Exemption for Eligible Dependents (Children and Spouses):

This program is for the children or the spouse of members of the U.S. armed forces who were killed in action, who die or died while in service, who are missing in action, whose death is documented to be directly caused by illness or injury connected with service in the U.S. armed forces, or who become totally disabled for purpose of employability according to the Department of Veterans Affairs disability rating as a result of a service-related injury. Children or spouses of a veteran who at the time of entry into the U.S. armed forces:

1. Are Texas residents, designated Texas as Home of Record or entered the service in Texas

2. Have a parent or is the spouse of a veteran of the U. S. armed forces, Texas National Guard, or Texas Air National Guard who died as a result of service-related injuries or illness, is missing in action, or became totally disabled for purposes of employability as a result of service-related injury or illness.

3. Have no federal veterans education benefits or have federal veterans education benefits dedicated to the payment of tuition and fees only (such as Chapter 33 or 31; Pell and SEOG Grants are not relevant) for the term or semester enrolled that do not exceed the value of Hazlewood benefits.

4. Are residents of Texas as of the term or semester in which they enroll.

5. Are 25 years or younger on the first day of the semester or term for which the exemption is claimed (unless granted an extension due to a qualifying illness or debilitating condition) if receiving the exemption for the first time beginning Fall 2011. This does not apply to children who received the exemption prior to Fall 2011.

6. Provide proof from Department of Defense or from the VA regarding veteran parent’s death or disability related to service.

This exemption also covers children or the spouse of members of the Texas National Guard who after January 1, 1946, were killed while on active duty or became totally disabled for purpose of employability according to the Department of Veterans Affairs disability rating as a result of service-related injury.

These students must be Texas residents who resided in the state at least 12 months immediately preceding date of registration. The children and spouses are entitled, not to exceed 150 credit hours, to an exemption from payment of all dues, fees, and charges (excluding only student property deposits, student service fees, books, board and lodging, or clothing) that would otherwise be paid to attend The University of Texas-Pan American.

Tuition and Fee Exemption for Members of State Military Forces

Texas Education Code Section 54.2155 provides an exemption for individuals certified by the adjutant general of the state military forces as having been awarded assistance for tuition and fees under Texas Government Code Section 431.090. Eligible students are exempt from tuition, not to exceed 12 semester credit hours charged at the Texas resident rate, and mandatory fees for any semester in which the tuition exemption is received.

Exemption for Children of U.S. Military who are Missing in Action or Prisoner of War (MIA/POWs)

The purpose of this exemption is to provide an education benefit to the children of persons listed as Missing in Action or Prisoners of War by the U.S. Department of Defense.

Eligibility requirements:

- Are Texas residents.
- Are 21 or younger, or 25 or younger and receiving most of his/her support from a parent.
- Have documentation from the Department of Defense that a parent, who is classified as a Texas resident, is MIA/POW.
- Enroll in classes for which the college receives tax support (i.e., a course that does not depend solely on student tuition and fees to cover its costs).

Exemption covers tuition, service fees, lab fees, building use fees, and all other fees except room, board, clothing fees, or deposits in the nature of security for the return or proper care of property. No funds may be used to pay tuition for continuing education classes for which the college receives no state tax support.

Exemption for the Surviving Spouse and Minor Children of Certain Deceased Public Servants (Employees)

This program is available for the surviving spouse or children of certain public peace officers, probation officers, parole officers, bailiffs, police reservists, fire fighters and emergency medical personnel (Texas Code 615.003). Death must have occurred in the line of duty as a result of a risk inherent in the duty. The student must enroll full-time and is exempted from tuition and fees, student housing and food costs not to exceed bachelor’s degree or 200 hours.
General Information

**Exemption for Blind and Deaf Students**

A blind disabled person or a person whose sense of hearing is nonfunctional and is a Texas resident may be eligible for exemption from payment of tuition and required fees if appropriately certified by a state vocational rehabilitation agency. Contact the Texas Department of Assistive and Rehabilitative Services for more information.

**Exemption for Firefighters Enrolled in Fire Science Courses**

Eligible students must be firefighters employed by a political subdivision of Texas as a firefighter, or are currently and have been for at least one year an active member of an organized volunteer fire department in Texas who holds appropriate levels of certification; and enrolled in courses offered as a part of fire science curriculum. They are exempted from tuition and laboratory fees.

**Exemption Program for Children of Professional Nursing Program Faculty and Staff**

To provide an exemption of tuition to eligible students to encourage their parents to continue employment as professional nurse faculty or staff members in the state of Texas.

Student must:

- Be 25 years or younger.
- Be a Texas resident.
- Have not previously received a baccalaureate degree.

Be enrolled at an institution that offers an undergraduate or graduate program of professional nursing. Be the child of an individual who:

At the beginning of the semester or other academic term for which an exemption is sought: (1) holds a master’s or doctoral degree in nursing, and is employed full-time by an undergraduate or graduate professional nursing program offered by the institution that the child is attending and is employed as a member of the faculty or staff with duties that include teaching, performing research, serving as an administrator, or performing other professional services other than serving as a teaching assistant, or (2) holds a baccalaureate degree in nursing and has contracted with a professional nursing program offered by the institution to serve as a full-time teaching assistant.

Register for the Selective Service or be exempt from this requirement.

Have not previously received an exemption under this section for 10 semesters or summer sessions.

Students are exempted from tuition, which may be prorated if parent is not full-time.

**Exemption Program for Clinical Preceptors and their Children**

In order to be eligible for this exemption:

- A student must be a Texas resident and a registered nurse serving under contract as a clinical preceptor; or

- A child 25 years or younger whose parent meets the criteria above and has not previously received a baccalaureate degree and has not previously received an exemption under this section for 10 semesters or summer sessions. Students are eligible to receive $500 off tuition per semester.

**Distance/Off-Campus Learning Exemption**

Eligible students must be enrolled only in distance learning courses or other off-campus courses to be able to apply for this exemption. To be eligible, a student must prove special circumstances exist that preclude the student from utilizing activities, facilities and/or services on which a fee is based. Submit a written request with supporting documentation (as needed) to:

The University of Texas-Pan American
Office of the Vice President for Business Affairs
1201 W. University Drive
Student Services Building, Room 5.101
Edinburg, TX 78539-2999

Consideration for fee waivers will be determined prior to the 12th class day during a fall or spring semester or prior to the fourth class day during a summer term.

**Mandatory or Discretionary Fee Exemption**

A student or specific category of students may apply for an exemption of mandatory or discretionary fees. Exemptions may be considered if a student will not utilize the activity, service or facility for which a fee is charged. Consideration may also be given if the exemption is in the best interest of the institution or is critical to the viability of an academic
Exemptions will not be granted for tuition or laboratory fees. Students must submit a written request with supporting documentation (as needed) to:

The University of Texas-Pan American
Office of the Vice President for Business Affairs
1201 W. University Drive
Student Services Building, Room 5.101
Edinburg, TX 78539-2999

Consideration for fee waivers will be determined prior to the 12th class day during a fall or spring semester or prior to the fourth class day during a summer term.

**Fifth-Year Accounting Student Scholarship Program**

The Fifth-Year Accounting Student Scholarship Program was established to recognize and support outstanding scholars who plan to pursue careers in accounting and serve as Certified Public Accountants in the state of Texas. The program can provide up to $10,000 (lifetime maximum) to eligible students to assist with the cost of completing the educational requirements to sit for the CPA exam in Texas.

In order to apply, students must:
- Be classified as residents of Texas.
- Be enrolled at least half-time.
- Have completed at least 120 hours of college coursework (including at least 15 semester credit hours of accounting) at the beginning of the term in which the award is being made.
- Be making satisfactory academic progress.
- Have not already taken the CPA exam, but plan to take the CPA examination in the state of Texas and are willing to sign a written statement confirming the intent to take the written examination conducted by the Texas State Board of Public Accounting for the purpose of being granted a certificate of Certified Public Accountant.
- Register for the Selective Service or be exempt from this requirement.
- Demonstrate financial need.

Applications are available in mid-June at the Student Financial Services office. Funding is limited; therefore, only complete applications will be considered.

**Good Neighbor Scholarship**

A limited number of Good Neighbor Scholarships (as prescribed by the Texas Higher Education Coordinating Board), which provide exemption of tuition, are available to native-born citizens and residents from nations of the Western Hemisphere other than the United States. Information is available from the Office of International Admissions and Services at the University Center, Room 113, telephone (956) 665-2922. Mexican Nationals: Citizens of Mexico may apply for a Nonresident Tuition Waiver. To be eligible, a student must have or obtain an F-1 student status, enroll full-time and must apply before the required deadline dates. Students who have filed for permanent residency are not eligible. For information about this program, contact the Office of International Admissions and Services at the University Center, Room 113, telephone (956) 665-2922.

For additional information on any of these programs, contact:
The University of Texas-Pan American
Student Financial Services
Student Services Building, First Floor
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-2501
askrio.utpa.edu
Web: http://www.utpa.edu/finaid

Also visit the Texas Higher Education Coordinating Board website at http://www.collegeforalltexas.com.

**Loans**

**Federal Perkins Loan:**
UT Pan American recognizes that loans are an increasingly important aspect of financing an education. Participating in the Federal Perkins Loan program allows funds to be made available with which a student may finance a substantial part of his or her education. When the borrower ceases to be enrolled at an accredited higher education institution at least half-time or graduates, he/she has nine months after graduation or a break in enrollment before he/she begins repayment on the Perkins loan.

Applicants are considered on the basis of financial need and demonstrated academic ability. Funds are limited and preference is given to renewal borrowers. Further information may be obtained from Student Financial Services.

**The William D. Ford Federal Direct Loan (Direct Loans) Program:**

The Direct Loan program is one of the Federal Student Aid programs offered by the Department of Education, which provides students with a simple, inexpensive way to borrow money to pay for education after high school. The Direct Loan program offers subsidized and unsubsidized Stafford loans. The first step in the application process is the completion of the FAFSA. After the student's FAFSA is processed, Student Financial Services will review the results and advise the student as to his or her loan eligibility. Before receiving any loan disbursements through the Direct Loan program, every student borrower will have to complete an entrance counseling session and an electronic master promissory note. Once these two requirements are complete, Student Financial Services will receive electronic
General Information

confirmation that the information has been completed and funds will be credited to the student’s university account. UTPA will mail any loan-credited balance to the student within 3-5 days. No single disbursement may exceed one-half of the loan amount.

Texas B-On-Time Loan Program:

The purpose of the Texas B-On-Time Loan Program is to provide eligible Texas students no-interest loans to attend colleges and universities in Texas. If the student meets specified goals, the entire loan amount can be forgiven upon graduation.

Eligibility Requirements:

- Be a Texas resident.
- Have graduated in the 2002-2003 academic year or later under the recommended high school program from public or accredited private high school in Texas or received an associate’s degree from an eligible institution no earlier than May 1, 2005.
- Has not earned a bachelor’s degree.
- Enrolled full-time in an undergraduate degree or certificate program at an eligible institution.
- Has completed a FAFSA and is eligible to receive federal financial aid.

Forgiveness Requirements:

A Texas B-On-Time Loan shall be forgiven if the student receives an undergraduate degree or certificate from an eligible institution and the student either:

- Graduated with a cumulative GPA of at least 3.0 on a 4.0 scale, within:
  - Four calendar years after the date the student initially enrolled in an eligible institution,
  - Five calendar years after the date the student initially enrolled in an eligible institution, if the degree is in architecture, engineering, or any other program determined by the board to require more than four years to complete; or
  - Two calendar years after the date the student initially enrolled in a public or private two-year institution; or
  - Graduated with a cumulative GPA of at least 3.0 on a 4.0 scale, with a total number of credit hours (including transfer hours and hours earned exclusively by examination) that is no more than six hours beyond what is required to complete the degree or certificate.

NOTE: Funds are limited and students will be selected based on priority guidelines determined by the Texas Higher Education Coordinating Board.

Teach for Texas Financial Assistance Program: A person may receive Teach for Texas loan repayment assistance for the repayment of any student loan for education at any public or private institution of higher education. If the loan is not a state or federal guaranteed student loan, the note or other writing governing the terms of the loan must require the loan proceeds to be used for expenses incurred by a person to attend a public or private institution of higher education. The student loan must not be in default at the time of the person’s application. Priority is given to applicants who demonstrate financial need. A person may not receive loan repayment assistance for more than five years.

Teach for Texas repayment assistance is available only to a person who applies for the assistance and who:

- Is certified in a teaching field identified by the commissioner of education as experiencing a critical shortage of teachers in this state in the year in which the person receives the assistance and has for at least one year taught full-time at, and is currently teaching full-time at, the preschool, primary, or secondary level in a public school in this state in that teaching field; or
- Is a certified educator who has for at least one year taught full-time at, and is currently teaching full-time at, the preschool, primary, or secondary level in a public school in this state in a community identified by the commissioner of education as experiencing a critical shortage of teachers in the year which the person receives the assistance.

College Short-Term Loans:

Made possible through donations from a number of individuals and organizations. These funds are administered by Student Financial Services and are available to students for short-term loans. Loans are limited in funding and must be repaid within the semester for which they are borrowed. The loans are designed to aid students who do not have sufficient funds to purchase books and supplies or to assist students when emergencies arise. A $5 processing fee is assessed to each loan and funding is limited. Students interested in applying for short-term loans are advised to apply in person at the Student Financial Services office at the beginning of each semester.

Emergency Tuition and Fee Loans:

Emergency loans are available to UT Pan American students needing assistance in paying registration costs. Emergency loans must be paid back to the University during the same semester in which they are borrowed. An applicant will be assessed a $20 processing fee per semester. Students may borrow up to the amount of tuition and applicable fees. Applications and information about the emergency loan program are available at the Student Loan Collections Office, Room 214, Marialice Shary Shivers Administration Building.

Scholarships

The University of Texas-Pan American awards a variety of scholarships through the University Scholarship Committee and departmental committees. These scholarships are based on various prerequisites and are intended to recognize students for their outstanding academic accomplishments and future potential. These awards are made possible through the generosity of local as well as national business
firms, organizations, individuals and University-endowed funds.

The majority of the scholarships are not automatically renewed, and students must apply each year for continued consideration. Although most awards are restricted to U.S. citizens and permanent residents of the United States, some are open to international students, who are encouraged to apply.

For a complete list of scholarships and application requirements, view our UT Pan American Scholarship Guide online at www.utpa.edu/scholarships. To be considered for scholarships at UTPA, students must complete the UTPA Excellence and Departmental Scholarship application online at www.utpa.edu/scholarships. The scholarship process is very competitive. Students are encouraged to apply early and make sure their applications are submitted and complete by the application deadline.

Important: It is UT Pan American’s policy not to award institutional scholarships to students who have received aid (including institutional, state, federal and private sources) in excess of their cost of attendance. If a student's cost of attendance is exceeded, any UTPA scholarship(s) may be reduced or cancelled.

### University Scholars Scholarship Program

If you are an entering freshman who has earned college credit through Advanced Placement (AP) examinations and/or the Concurrent Enrollment (CE) program at UT Pan American or are an International Baccalaureate Diploma recipient or have graduated in the top 10% of your high school graduating class, you may qualify for a four-year renewable scholarship. You may qualify to receive a University Scholars Presidential Award valued at $24,000 or a University Scholars Meritorious Award valued at $16,000.

The University Scholars Presidential Award is a $6,000 annual scholarship, $3,000 per semester. The University Scholars Meritorious Award is a $4,000 annual scholarship, $2,000 per semester. The award is applied toward your tuition and fees.

NOTICE: It is UTPA's policy not to award institutional scholarships to students that have received aid (including institutional, state, federal and private sources) in excess of their cost of attendance. If your cost of attendance is exceeded, any UTPA institutional scholarship(s) may be reduced or cancelled.

### Initial Award Guidelines

To be eligible to become a University Scholar, you must be an entering freshman who meets the criteria for regular admission and has graduated from a public or private school (or home school).

### Scholarship Qualification Criteria

You can qualify for the University Scholars Scholarship by meeting the initial award guidelines and fulfilling the following requirements while in high school:

#### University Scholars Presidential Award Requirements:

- Four courses (12 hrs.) of AP and/or CE credits earned at UTPA. Earn B or better in each course
- Courses must include English 1301 or higher and Math 1340 or higher.
- Minimum 24 ACT or 1090 SAT Composite
  *Composites do not include writing portion of ACT/SAT tests.
- Or
- Receive International Baccalaureate Diploma
- Minimum 24 ACT or 1090 SAT Composite
  *Composites do not include writing portion of ACT/SAT tests.
- Or
- Top 10% of graduating class from an accredited public or private high school.
- Minimum of 28 ACT or 1250 SAT Composite
  *Composites do not include writing portion of ACT/SAT tests.

#### University Scholars Meritorious Award Requirements

- Four courses (12 hrs.) of AP and/or CE credits earned at UTPA. Earn B or better in each course.
- Courses must include English 1301 or higher and Math 1340 or higher.
- Minimum 22 ACT or 1020 SAT Composite
  *Composites do not include writing portion of ACT/SAT tests.
- Or
- Receive International Baccalaureate Diploma.
- Minimum 22 ACT or 1020 SAT Composite
  *Composites do not include writing portion of ACT/SAT tests.
- Or
General Information

- Top 10% of graduating class from an accredited public or private high school.
- Minimum of 26 ACT or 1170 SAT Composite
  *Composites do not include writing portion of ACT/SAT tests.

How to Apply

There is no formal application for the University Scholars Scholarship Program. This is a competitive scholarship that is awarded on a first-come, first-served basis. This program is dependent on availability of funds; therefore, limited slots are available. Admission to UTPA is required, thus you are highly encouraged to complete the admission process as early as possible to ensure that you are considered for this scholarship:

- Complete and submit the UTPA Admission Application at applytexas.org.
- Submit your ACT or SAT scores to UTPA.
- Submit an official high school transcript to the UTPA Office of Undergraduate Admissions, which must include ACT or SAT scores, GPA (on a 100 point scale), and rank and class size (at time of application).
- Request your AP scores (if applicable) be sent directly to UTPA.

If your eligibility for this scholarship is dependent upon AP credit, please have your scores sent to the UTPA Admissions and New Student Services Office as soon as possible.

- You must be admitted to UTPA.

External Scholarships

Many agencies, employers, military and service organizations award funds to students. Receipt of these external awards may result in a reduction of a student’s financial aid from UT Pan American. Therefore, financial aid recipients must notify the Scholarship Office in writing of any scholarships received from sources other than UTPA. To the extent possible, the University will adjust loan awards before reducing grants.

It is also the student’s responsibility to notify the Scholarship Office of any special instructions or billing information regarding external scholarships. All checks for these awards should be made payable to The University of Texas-Pan American and sent to:

The University of Texas Pan American
Student Financial Services, SSB 1.136
Attn: Scholarship Office
1201 W. University Drive
Edinburg TX 78539-2999

No credit will be entered on a student’s account before the check arrives. It is UTPA’s policy to equally divide external scholarships between fall and spring.

Fellowships

The University of Texas-Pan American awards a limited number of fellowships. Applications may be requested from the department or college awarding the fellowship.

Enrollment

General Information

Classification

Students are classified according to the number of hours of college credit they have earned. Classifications are as follows:

- Freshmen 0-29 earned hours
- Sophomores 30-59 earned hours
- Juniors 60-89 earned hours
- Seniors 90 or more earned hours
- Post Baccalaureate*

*Undergraduate students who hold a bachelor’s degree from an accredited institution.
Graduate Students: Students who have earned a bachelor’s degree and have been accepted to UTPA for graduate study.
Post Master’s: Students who have earned a graduate degree and are continuing in another graduate program. Doctoral Students: Students who have been accepted to a doctoral program.

Course Information

Undergraduate classroom course information, including a list of courses to be offered each semester, syllabi, curriculum vitae of each regular instructor, and textbook information may be found at www.assist.utpa.edu (Texas Education Code Section 51.974).

Student Learning Outcomes

Each undergraduate degree program has identified learning outcomes that it expects its graduates to achieve by the end of the program. These student learning outcomes are reflected in the courses offered by the program and may be found on the course syllabi at www.assist.utpa.edu.
Course Number, Title and Contact Hours

If the course has defined weekly contact hours, these will be shown in brackets [ ] following the course title, with lecture hours first, laboratory hours second and clinical hours, if any, third. These contact hours are for the fall and spring semesters. Summer weekly contact hours will be adjusted according to the length of the summer session.

Common Course Number

If the course is generally equivalent to other lower-division courses taught at universities and community colleges within the state, the Texas Common Course Number is shown for informational purposes. See page 27 for further information.

Course Frequency Information

If the course is normally taught on a regular schedule, such as every fall or every fall and spring semester, this information is provided under the course title. If circumstances warrant, the schedule for offering the course may be changed without notice. Therefore, it is in the student’s best interest, as well as his/her responsibility, to determine by other means (such as semester course schedules) when courses required for his/her degree programs are being offered. Program requirements will not be waived as a result of the course not being offered as indicated in the course frequency information provided in this catalog.

Courses not normally offered on a regular schedule are identified by the comment “as scheduled.”

Course Description

This portion of the course listing includes a brief description of the course content.

Course Numbers

Courses are numbered to show both the collegiate level at which they are offered and the hour value of the course. The first digit shows the level, and the second digit shows the credit hours. The last two digits are departmental designations. For example, Spanish 1301 shows that the course is taught at the freshman level and carries three hours of credit per semester. All lower-division undergraduate courses ending in the numbers 87 and 88 are honors courses.

- 1000 number ed courses Freshman level
- 2000 number ed courses Sophomore level
- 3000 number ed courses Junior level
- 4000 number ed courses Senior level

All 5000-7000 numbered courses are graduate-level courses.
All 8000-9000 numbered courses are doctoral-level courses.

Grading Policies

Grading System

UT Pan American uses a four-point system. The following grades are used to designate achievement in coursework. Their corresponding grade values and points are indicated.

- A Excellent (4 grade points per hour)
- B Good (3 grade points per hour)
- C Satisfactory (2 grade points per hour)
- D Below Average (1 grade point per hour)
- F Failure (0 grade points per hour)
- I Incomplete (not considered in calculating grade points or GPA hours)
- IP In Progress (not considered in calculating grade points or GPA hours)
- DR Course Dropped (not considered in calculating grade points or GPA hours)
- W Withdrawal (not considered in calculating grade points or GPA hours)
- P Passing (not considered in calculating grade points or GPA hours)
- NP No Pass (not considered in calculating grade points or GPA hours)
- CR Credit (not considered in calculating grade points or GPA hours; however, hours are counted in total earned hours)
- NC No Credit (not considered in calculating grade points or GPA hours)
- NR Not Reported (not considered in calculating grade points or GPA hours)
- U Unsatisfactory (not considered in calculating grade points or GPA hours)
- S Satisfactory (not considered in calculating grade points or GPA hours)
- RA Developmental (not considered in Education calculating grade points or GPA hours)
- RB Developmental (not considered in Education calculating grade points or GPA hours)
- RC Developmental (not considered in Education calculating grade points or GPA hours)
- RD Developmental (not considered in Education calculating grade points or GPA hours) *This grades does not fulfill TSI requirements.
- RF Developmental (not considered in Education calculating grade points or GPA hours)
- RI Developmental (not considered in Education calculating grade points or GPA hours)
- RNP Developmental (not considered in Education calculating grade points or GPA hours)
General Information

**Native Grade Point Average**

The cumulative grade point average (GPA) at UT Pan American is calculated on the basis of courses taken at the University and excludes transferred grades.

**Calculation of Undergraduate Grade Point Average**

The GPA is computed by dividing the total grade points earned by the total GPA hours (all hours attempted excluding repeated courses, incomplete grades and credit (CR) grades). The cumulative GPA is calculated using all coursework attempted at UTPA. The current semester grade point average is calculated using only coursework attempted within a specific semester.

The student may repeat some course to improve his/her GPA. (For more information, see the section on Repeated Courses on page 58.)

Grade Points: Grade points are assigned based on the grade received multiplied by the number of credit hours. For example, a grade of A is equivalent to four grade points. If the course was offered for three credit hours (i.e. ENG 1301), the grade points would be calculated as follows:

\[4 \text{ (for grade of A)} \times 3 \text{ (hours)} = 12 \text{ grade points}\]

Grade points are assigned as follows:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4 pts.</td>
</tr>
<tr>
<td>B</td>
<td>3 pts.</td>
</tr>
<tr>
<td>C</td>
<td>2 pts.</td>
</tr>
<tr>
<td>D</td>
<td>1 pt.</td>
</tr>
<tr>
<td>F</td>
<td>0 pts.</td>
</tr>
</tbody>
</table>

The following is an illustration of the method of calculation of the grade point average:

<table>
<thead>
<tr>
<th>Course</th>
<th>No.</th>
<th>Grade</th>
<th>Hours</th>
<th>Points Attempted</th>
<th>Points Total</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG</td>
<td>1301</td>
<td>C</td>
<td>3 hrs. X 2 pts. per hr.</td>
<td>= 6</td>
<td></td>
</tr>
<tr>
<td>MATH</td>
<td>1327</td>
<td>D</td>
<td>3 hrs. X 1 pt. per hr.</td>
<td>= 3</td>
<td></td>
</tr>
<tr>
<td>HIST</td>
<td>2313</td>
<td>B</td>
<td>3 hrs. X 3 pts. per hr.</td>
<td>= 9</td>
<td></td>
</tr>
<tr>
<td>CHEM</td>
<td>1401</td>
<td>F</td>
<td>4 hrs. X 0 pts. per hr.</td>
<td>= 0</td>
<td></td>
</tr>
<tr>
<td>KIN</td>
<td>1201</td>
<td>A</td>
<td>2 hrs. X 4 pts. per hr.</td>
<td>= 8</td>
<td></td>
</tr>
</tbody>
</table>

**TOTAL**

15 26

Total attempted hours = 15
Total grade points = 26

To calculate the GPA for this example, divide the grade points by the attempted hours as follows:

\[26 \div 15 = 1.73\]

**Incomplete Grades**

An incomplete (I) grade is a temporary grade given only during the last one-fourth of a term/semester and only if a student:

1. Is passing the course to date.
2. Has a justifiable and documented reason, beyond the control of the student (such as serious illness or military service), for not completing the work on schedule.

The student must arrange with the instructor to finish the course within one year by completing specific requirements. These requirements must be listed on a Request for Grade of Incomplete Form signed by the instructor, student, department chair and dean. Incomplete grades assigned to a course at the end of a regular semester would at the end of one year default to an F, unless the faculty member has already processed a grade change for the course.

The Office of the Registrar must receive a complete Request for Grade of Incomplete Form with all required signatures by the published deadline for faculty to enter grades or an NR grade will be entered. An NR grade will be converted to an F at the end of two weeks.

**Credit by Examination**

Students may receive credit by examination for some course requirements. For more information, see page 71.

**Quality of Work**

While a grade of D is considered passing in a subject, the student must maintain an overall average of a C, which corresponds to a 2.0 GPA, if the student expects to graduate. In addition, UT Pan American has certain specific grade requirements. For example, the student must make a C in college algebra and required freshman English courses. The student must also have at least a C average in both the major and minor fields.

**NOTE:** Other specific requirements can be found in the program descriptions in other sections of the catalog.

**Repeated Courses**

Some courses at UT Pan American are identified in the Undergraduate Catalog as repeatable for credit. All hours and grade points earned from these courses will be included in the calculation of the student’s grade point average, up to the designated limit.
When a student retakes a course that is not designated as “repeatable for credit,” and the grade received is A, B, C, CR, D, F, P or S, then only the last grade and hours attempted are used to calculate the grade point average. Repeated courses will remain on the student’s academic record (transcript) and will be annotated with the symbol E (excluded).

The policy for repeating courses applies only to undergraduate courses completed and repeated at UT Pan American. Transfer grades will not be used to replace a grade earned at UTPA for the purpose of raising a student’s grade point average.

NOTE: Repeated courses will be used in determining the Graduate Admission GPA. See the Graduate Catalog for further information.

Grade Change

A change of grade is warranted only due to an error in computation, evaluation or recording. The instructor may process a Change of Grade Form through the Office of the Dean of his/her college. Change of Grade Forms may not be released to students and must be sent directly from the appropriate academic department. In the absence of the instructor of record, after unsuccessful attempts to locate him/her, the Change of Grade will be considered by the corresponding academic department chair. The student has the option of filing a Grade Appeal according to Section 5.2.1 of the Handbook of Operating Procedures.

Dean’s List

After each regular (fall or spring) semester, a Dean’s List is published listing the names of all full-time undergraduate students (those who have completed 12 or more hours of non-remedial coursework) who have a GPA of 3.5 or better for courses taken that semester. A Dean’s List is not produced during summer sessions.

Grade Reports

Student grade reports are not mailed automatically for students in good academic standing. Students may obtain their grades using ASSIST via the Web (assist.utpa.edu). Students requiring a paper copy of their grades may request a transcript to be mailed to their home address on file with the Office of the Registrar using ASSIST via the Web.

Registration Procedures

Registration

Students must register for their courses online using ASSIST, or in person at the Office of the Registrar to be eligible to receive credit for a course. Students will not be added to the official class rolls or grade sheets after the registration periods have ended. Per the Texas Higher Education Coordinating Board Rules and Regulations, students may not enroll in a course after the official census date (Ch. 9, Subchapter B, Sec. 9.31a).

ASSIST Registration (Web)

Registration on the Web (ASSIST Registration) is available to currently enrolled students and students who apply by the published admission deadline. Academic advisement is mandatory to be eligible for priority registration. Students with admission, disciplinary, financial, or TSI holds will not be permitted to register until the hold has been cleared. A schedule change period occurs at the beginning of each semester. Students who register during the designated late registration period will be assessed additional late fees. Computers are available in the Academic Services Building for Web registration.

Dropping/Withdrawing

If a student chooses not to attend a class or classes he/she is responsible for officially dropping or withdrawing through the Office of the Registrar. (See the sections on Withdrawal from the University and on Dropping a Course on page 61.)

Students who decide not to attend and do not officially complete the drop or withdrawal process through the Office of the Registrar will be responsible for tuition, fees and any other circumstances resulting from failure to officially drop or withdraw. Students must not assume that they will “automatically” be dropped from their classes if they do not attend or do not pay. (If a student has requested some form of financial assistance, payment may have been posted to his or her account.) Refer to the published Schedule of Classes for refund schedules.

Withdrawal for military service:

A student who withdraws as a result of being called to active military service may choose (1) to receive a refund of tuition and fees for the semester; (2) if eligible, to be assigned an incomplete in each course; or (3) at the instructor’s discretion, to receive a final grade in courses where he/she has completed a substantial amount of
coursework and has demonstrated sufficient mastery of the course material. Policies affecting students who are absent for military service, but do not withdraw are articulated in the “Military Absences” section on page 64.

In accordance with Texas Education Code, 51.907, undergraduate students who first entered college in the Fall 2007 semester, or later, may not drop more than a total of six courses during their undergraduate career. Courses dropped at other Texas public higher education institutions will count toward the six-course drop limit. A student may appeal a drop, if he/she shows good cause. Contact the Office of the Registrar for details concerning the appeals process.

Selection of Courses

During the freshman and sophomore years, the student should plan to satisfy not only the University core curriculum requirements for a bachelor’s degree (see page 105), but also any introductory or prerequisite courses in the major and minor field, as specified by the departments. Although each of the departments of the University list many of the specific courses required in the major and minor areas, usually some choice of courses is permitted at the lower level, the advanced level or at both levels. Choice is permitted when hours are specified as elective hours.

The student should develop an outline of required courses, supplementing it with those courses he/she wishes to take in satisfaction of any elective hours allowed by the department. Any deviation from courses required must be approved by the department chair and the dean of the college, and must be incorporated into the student’s Degree Plan. If deviations are made that subsequently are not approved, the student may find that these will merely add hours to graduation requirements. (See also Degree Requirements on pages 68-71.)

Many courses listed in the catalog are not offered every semester. This is particularly the case with upper-level courses. In planning a program, the student should ascertain whether a particular course will be offered during the semester he or she plans to take it, and that prerequisites to the course will be achieved prior to enrollment for the course.

When students enter this University with the expectation of subsequently transferring to another institution, they should be certain to obtain a copy of the catalog of that other institution and use it as a guide to courses for which they will register at UT Pan American. It is the student’s responsibility to check the requirements.

Students who plan to graduate from UT Pan American should consult the catalog sections concerning graduation and the specific requirements and suggestions listed under their respective colleges and departments to ensure that all required work is satisfied. The department chairs and deans will help clarify matters if the student has questions.

Prior to registering, students go through academic advisement concerning the best selection of courses. Students who have not met the Texas Success Initiative (TSI) requirement are advised at the Advisement Center.

Freshmen and sophomores who have met TSI requirement are advised at the Academic Advisement and Mentoring (AAM) Center. Juniors and seniors are advised by faculty in their major area or college. Professional guidance counselors are available in each of the six colleges to assist faculty in advising juniors and seniors.

Registration Policies

Dropping a Course

A student is “dropping” a course or courses if he or she remains enrolled in a minimum of one credit hour after all course drops have been completed. Students who drop all classes for which they are enrolled are considered to have withdrawn from the University for that semester. (For more information on withdrawal, see the section below on Withdrawal from the University.)

To drop a course or courses after the official census date (12th class day, published in the University’s academic calendar), a student must:

1. Obtain the required signatures.
2. Obtain the required signatures.
3. Return the completed form to the Office of the Registrar, Student Services Building, Room 1.150 by the last date to drop as listed in the University’s academic calendar.

All course drops must be completed during the first 75 percent of the semester or term (refer to the University calendar in this catalog or the Registration Bulletin for deadline dates). Students dropping a course during this time will receive a grade of DR. After the deadline, the student remains on the class roll and will receive the letter grade he/she earns.

If a student chooses not to attend a class or classes, he/she is responsible for officially dropping or withdrawing through the Office of the Registrar. Students who decide not to attend and do not officially notify the Office of the Registrar may be responsible for tuition, fees and any other circumstances resulting from failure to officially drop or withdraw. Students must not assume that they will “automatically” be dropped from their classes if they do not attend or do not pay. (Although the student may not have paid for classes personally, payment may have been posted to his or her account by a financial assistance agency. It is important that the student officially notify the Office of the Registrar of his or her intention not to attend.) Refer to the Registration Bulletin at www.assist.utpa.edu.
Withdrawal from the University

To withdraw from the University, a student must complete a formal withdrawal procedure through the Office of the Registrar prior to the last date to drop or withdraw as listed in the University academic calendar. Withdrawals must be requested by completing the appropriate withdrawal form, and submitting it to the Office of the Registrar, Student Services Building, Room 1.150. Students who cannot come to campus may contact the Office of the Registrar at (956) 665-2201. A withdrawal form will be accepted by fax on or before the deadline to drop or withdraw.

A student withdrawing during the first 75% of the semester or term (refer to the University calendar in this catalog or the Registration Bulletin for deadline dates) will receive a grade of W. After the deadline, the student remains on the class roll and receives the letter grade s/he earns. Refer to the Registration Bulletin on the web at www.assist.utpa.edu for refund periods.

Transfer Student

Transfer students with 30 or more hours but without the University College-approved courses, or courses deemed comparable by UT Pan American, may take upper-division courses if otherwise qualified, but they too must complete all University core curriculum requirements before graduation. Transfer students who lack six hours of freshman English or the equivalent and three hours of mathematics with a grade of at least C in each course should complete these requirements within their first two semesters at UT Pan American. Students will be required to complete the Texas state-mandated coursework in U.S. history and political science if this has not already been completed at their prior institution.

Non-Credit Enrollment

Students have the option of enrolling in a course for non-credit, which allows them to participate fully in the course but not to receive a grade or to count the course in fulfilling degree requirements. Enrollment for non-credit requires the same payment of tuition and fees as enrollment for credit. (Students may also audit courses for a lesser fee; this normally allows only limited participation. For more information on auditing a class, see below.)

A student who enrolls in a course for credit may change the enrollment to non-credit by completing a Non-Credit Form in the Office of the Registrar, Student Services Building, Room 1.150, no later than 30 calendar days into a regular semester or 10 calendar days into a summer session from the date University classes begin.

Auditing Classes

Students must obtain special permission from the instructor of record to audit or visit a class. Students who wish to audit graduate classes (5000-9000 level) must be eligible to enroll in the course for credit before they will be allowed to audit.

Students auditing classes do not receive academic credit and do not have the course or courses listed on their academic record. One may enroll as an auditor at any time by:
1. Obtaining a Class Audit Form from the Office of the Registrar.
2. Having it approved by the instructor of the class to be audited.
3. Paying the required fee at the Office of Payments and Collections.
4. Using the receipt as an admission card to the class.
Such approval may be granted only when space is available and if the instructor permits the student to be a visitor. Instructors reserve the right to refuse any request to visit a course. Enrollment as an auditor does not permit the enrollee to take examinations, have tests or other papers checked by the instructor or to participate in the class discussion. Audited courses are not posted on the student’s permanent record. Audit fees ($20 per course) are non-refundable and may not be appealed. Individuals who are not regularly enrolled students at the University are also eligible to audit classes subject to the regulations stated above.

Residency

Residency for tuition purposes is determined by regulations set forth by the state of Texas. Students are required to sign an oath of residency as part of the application process. Residency for tuition purposes will be based on this oath and other information submitted by the student. The requirements are outlined on page 32 of the Fiscal Policies section of this catalog.

Other Procedures

Identification Cards

Every student enrolled at The University of Texas-Pan American must possess an official identification card, issued through the supervision of the dean of students. The card remains the property of the University. The card must be presented for:

- Any University or department-sponsored activity
- Admission to all intercollegiate athletic events
- Identification for cashing checks on campus.
- Authorization to resell books to the University Bookstore or Student Book Exchange.
- Checking out equipment from the Office of Student Development and the Student Union Recreation Room.
- Identification for receipt of transcripts at the Office of the Registrar.
General Information

- Identification for receipt of awards from Student Financial Services.
- Use of the University food service meal plans.
- Use of recreation facilities.
- Use of the Student Health Services.
- Purchase of campus parking permit.
- Campus library privileges.
- Voting in campus elections and referendums
- Identifying oneself to a University official when requested to do so.
- Use of computer equipment in computer labs.

This card is non-transferable. Beginning freshmen and first-time entering transfer students will receive their original ID cards at no charge. A service charge of $7 will be required for cards processed during subsequent semesters and for replacement cards. Loss or mutilation of cards must be reported to the Office of Student Development, University Center, Room 205. Fees are subject to change.

Students may not have in their possession more than one student ID card at the same time. This includes teaching assistant cards, which are special identification cards given to students who are employed by the University as teaching assistants. For more information, call the Office of Student Development at (956) 665-2660.

Name Change

A student or former student may change the full, legal name on his or her permanent academic record by completing a Change of Name Form and submitting the appropriate documentation as follows to the Office of the Registrar, Student Services Building, Room 1.150:

1. Misspelling: Student must present a copy of the birth certificate.
2. New Legal Name: Student must present a copy of the signed court order showing the authorized new legal name.
3. Marriage: If a student wishes to assume his or her spouse’s name, the student must present a copy of the marriage certificate.
4. Divorce: Students who wish to discontinue the use of a married name and resume the use of their former name, or another name, must present a divorce decree or signed court order showing court restoration of the former, or other, name.

Official means of communication with students and UTPA

The official means of communication with students from UT Pan American regarding administrative issues is the UTPA e-mail address assigned by the university. Important information, such as financial aid award notification, registration information, class wait listing, payment deadlines, and how to access bills and grades, is sent to the student’s UTPA e-mail address. It is the student’s responsibility to activate this address upon admission and check it often.

Change of Address and/or Telephone Number

If a student changes his or her address or telephone number, he/she is expected to notify the Office of the Registrar in writing immediately. The student will be held responsible for any communication from University offices sent to the address last given to the Office of the Registrar. No special consideration will be given to students who move and fail to receive the communication. Students whose mail is returned to the University will not receive additional communication until an address change has been submitted.

Enrollment Verification

Enrollment verification for lending agencies can be requested from the National Student Clearinghouse at www.studentclearinghouse.org, phone: (703) 742-7791, fax: (703) 742-7792. If further assistance is required, contact Student Financial Services, Student Services Building, Room 1.194.

Enrollment verifications for personal use (i.e., insurance companies, employment) can also be requested at the National Student Clearinghouse.

Full-time Undergraduate

An undergraduate student, who is enrolled for at least 12 semester hours during a regular semester or at least six hours of credit during a summer session, is considered full-time.

Half-time Undergraduate

A half-time undergraduate student is one who is enrolled for six to eight semester hours during the regular semester or three hours of credit during a summer session.

Three-quarter time Undergraduate

A three-quarter time undergraduate student is one who is enrolled for nine to 11 semester hours during the regular semester.
Transcripts

A student may secure an official transcript of his or her UT Pan American record by presenting a picture identification at the Office of the Registrar; by requesting the transcript in writing from the Office of the Registrar or on the Web at assist.utpa.edu. Transcripts will be issued at no charge.

The term “transcript of record” is understood to refer to the recorded results of the student’s work in the classroom, and it is a comprehensive record of an individual’s total academic progress at UT Pan American. This statement will contain all the important facts pertaining to the student’s admission, academic level and academic achievements. No partial or incomplete classroom records (for example, with grades of F omitted) will be given. Students who owe debts to the University, are delinquent or in default on a student loan, or owe a repayment on a student grant overpayment will have their official transcripts withheld until the university debts are paid or satisfactory arrangements have been made to repay the student loan or student grant over payment.

Attendance Policies

Attendance

In accordance with the policy on absences in the University’s Handbook of Operating Procedures, regular attendance in all meetings of courses for which the student is registered is expected. When a student is absent excessively (when in the judgment of the instructor the student has missed more work than can be made up successfully), the student may be dropped from the course with a grade of DR. The Office of the Registrar will notify the student that he/she has been dropped from the course. A student who enrolls for a course and then does not attend is considered absent from class until the student officially drops the course.

If the student does not plan to attend the course, he/she must officially drop or withdraw through the Office of the Registrar by the published deadline dates. Students will be responsible for all tuition, fees and grades received in classes in which they do not officially drop or withdraw. (See the Registration Bulletin or the web at www.assist.utpa.edu for refund periods for drops and withdrawals.)

Absences on Religious Holy Days

Definition

Religious holy days mean holy days observed by a religion whose place of worship is exempt from property taxation under Tax Code Section 11.20.

Rules

Students who are excused from classes for the observance of a religious holy day are required to inform their class instructors at least one week in advance of the absence and arrange with the instructor to make up missed work or missed examinations. Instructors are encouraged to provide those students the opportunity to make up the work (either prior to or after the anticipated absence) or otherwise adjust the grading to ensure that the student is not penalized for the absence.

Absences for University-recognized Activities

Students absent while representing the University in officially recognized University activities (such as athletic, scholastic events, or student development activities) are required to inform their class instructors at least one week in advance of the absence and arrange with the instructor to make up missed work or missed examinations. Instructors are encouraged to provide those students the opportunity to make up the work (either prior to or after the anticipated absence), or otherwise adjust the grading to ensure that the student is not penalized for the absence.

Special Populations

Varsity Athletes

To be in compliance with NCAA Division I eligibility requirements for athletic participation and/or athletically related financial aid, a student-athlete must meet University and NCAA admission requirements and “progress toward degree” requirements in addition to the University’s grade point progress requirements stated under Scholastic Probation and Suspension:

1. Enrollment during each regular semester must not drop below 12 hours.
2. Academic Year Requirements consisting of both credit hour and grade point average minimums for each term of enrollment.

Veterans

The Veterans Services Center certifies veterans to receive educational benefits for attendance at UT Pan American. The Veterans Services Center is located in the University Center, Room 218, phone: (956) 665-7934. Students receiving VA educational benefits must make progress toward a degree as specified in this catalog under Satisfactory Progress and Scholastic Probation and Suspension (see page 65). Students receiving educational benefits must report any changes made to their schedule to the Veteran Services Center. Students who do not report changes in their schedule may be subject to repayment by the Veterans Administration.
**General Information**

**Military Absence**

Under certain circumstances, a student who is required to participate in active military service is excused from scheduled classes or other required activities and will be allowed to complete an assignment or exam within a reasonable time after the absence. The excused absence is permitted only if the student will not miss more than 25% of the total number of class meetings or the contact hour equivalent (not including the final examination period) for the specific course or courses in which the student is enrolled at the beginning of the period of active military service.

Readmission guidelines for a student who withdraws to perform active military services are as follows. These guidelines apply to a student who withdraws from an institution of higher education to perform active military service, a member of the U.S. armed forces or the Texas National Guard, except that this section does not apply to a student who withdraws from an institution solely to perform one or more training exercises as a member of the Texas National Guard.

A. For any academic term that begins after the date a student is released from active military service, but no later than the first anniversary of that date, the institution of higher education from which the student withdrew shall admit the student, without requiring reapplication of charging a fee for readmission, if the student is otherwise eligible to register for classes at the institution. On readmission of the student under this subsection, UTPA shall:

1. Provide the student any financial assistance previously provided by the institution to the student before the student’s withdrawal if the student meets current eligibility requirements for the assistance, other than any requirement directly affected by the student’s service, such as continuous enrollment or another similar training requirement.

2. Allow the student the same academic status that the student had before the student’s withdrawal, including any course credit awarded to the student by the institution.

B. UTPA requires reasonable proof from a student of the fact and duration of the student’s active military absence.

In accordance with Education Code Section 51.3042, eligible former members of the armed forces admitted as an undergraduate student or readmitted as an undergraduate student (after having withdrawn to perform military service) will be given course credit (1) for all physical education courses UT Pan American requires for an undergraduate degree and (2) for additional semester credit hours, not to exceed 12, to satisfy any elective course requirements for the student’s degree program for courses outside the student’s major or minor. To be eligible, a veteran must have graduated from an accredited public or private high school or a high school operated by the U.S. Department of Defense, and be honorably discharged from the U.S. armed forces after completing two years of service or discharged because of disability. To receive credit a DD214 verifying eligibility must be provided to the Office of Admissions.

The University of Texas-Pan American follows the guidelines established by the American Council on Education’s Guide to the Evaluation of Educational Experiences in the Armed Services to assess potential transferability of Military Occupational Specialties.

Acceptable forms of documentation include:

- AARTS Transcript (Army ACE Registry Transcript)
- CCAF Transcript (Community College of the Air Force transcript)
- SMART Transcript (Sailor/Marine ACE Registry Transcript)
- Form DD-214 (Report of Separation)
- Form DD-295 (Application for the Evaluation of Learning Experience During Military Service)

To be considered official, any of the credentials above (except Form DD-214) must be sent to The University of Texas-Pan American directly from the issuing agency. Students/applicants may submit an original DD-214, a certified copy will be made for office use and the original returned.

Credentials (except Form DD-214) should be sent to:
The University of Texas-Pan American
Office of Admissions
1201 W. University Dr.
Edinburg, TX 78539-2999

Unlike college or high school transcripts, submission of military credentials for potential transfer credit is optional and is neither required for undergraduate admission nor subject to admission deadlines. But any credit awarded counts toward admissibility, so official documents should arrive as early as possible.

**Army ROTC**

The Army maintains a senior division of the ROTC at UT Pan American. A four-, three- and two-year program are available to interested students, male and female, graduate and undergraduate.

In March of 2007, UTPA’s ROTC program and cadets won elite national honors as the Best Small ROTC Battalion in the USA, and received the General Douglas MacArthur Award for this national recognition.

Army ROTC has unlimited two- and three-year tuition, books and fees scholarships for students with a 2.5 GPA or better who can pass fitness and background screening.
requirements. These scholarships are valued at about $3,000 per semester with an additional living stipend of about $2,500 per semester.

The four-year program consists of the basic course (freshman and sophomore) and the advanced course (junior and senior). Advanced instruction is oriented toward general military science and includes a four-week summer camp, usually at the end of the junior year or first year of graduate school.

Students who have successfully completed three or four years of Junior ROTC in high school may, at the discretion of the professor of military science, be given placement credit for one year of the basic course regardless of academic classification. Veterans also may be given advanced placement for the basic course, at the discretion of the professor.

Successful students are, upon graduation, commissioned as second lieutenants in the Active Army, the U.S. Army Reserve or U.S. Army National Guard. Students may elect to serve as reserve officers on active duty for an initial commitment period of three years or they may elect to serve for as little as three months of basic officer schooling followed by an extended tour with a Reserve or National Guard Unit.

During the course of instruction, the Army furnishes all required uniforms and military textbooks. Advanced course students receive a tax-free monetary allowance of either $450 or $500 per month for each month of the academic year (10 months of each year).

A special two-year program is available for full-time students who have a minimum of two years remaining on a degree plan and who have not had prior military training or ROTC. This program consists of an intensified course of instruction in military subjects that will qualify the student for the advanced course. The course of instruction is normally taken in the summer between the sophomore and junior years. Students attend a four-week Basic Camp at Fort Knox, Ky. and receive transportation allowance to and from the camp, uniforms, room and board and are paid approximately $750 for the period. In 2008 and 2009 all students completing this training and contracting to become an officer, receive a one-time $5,000 cash bonus. Congress has yet to determine if they will continue this bonus program for 2010 and beyond. No military obligation is incurred by attendance at this camp.

Application for the two-year program must be completed during the spring semester so that attendance at Basic Camp may be arranged. To learn more, visit the Department of Military Science, Lamar Building B, Room 103, or call (956) 665-3600.

### Continuing Enrollment

**Academic Standards for Regularly Admitted Students**

Undergraduate students are expected to meet certain minimal academic standards in work completed in postsecondary education. Students who fail to maintain these minimum standards will be placed on academic probation or academic suspension, as appropriate. In determining whether a student will be placed on academic probation or suspension, all grades earned by the student (only the last grade is used if the student has attempted the course more than once) will be included in the computations of the GPA.

**Scholastic Probation and Suspension Policy**

The Academic Probation and Suspension Policy for undergraduate students at The University of Texas-Pan American is as follows:

1. Academic probation or suspension will be determined each regular (fall or spring) semester on the basis of the student’s current semester and cumulative grade point average.
2. An undergraduate student will be placed on academic probation as follows:
   a. **Freshman** — whenever the student’s cumulative grade point average is below 1.70.
   b. **Sophomore** — whenever the student’s cumulative grade point average is below 1.80.
   c. **Junior and Senior** — whenever the student’s cumulative grade point average is below 2.0.
3. An undergraduate student will be placed on academic suspension for one regular semester whenever the student enters a semester on academic probation and does not remove him or herself from academic probation. The student will continue on probation if the student’s current semester GPA is 2.25 or above for a fall or spring semester.

<table>
<thead>
<tr>
<th>Level of GPA criteria</th>
<th>Academic Status</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>GOOD</strong></td>
<td>Cumulative GPA is 2.0 or above</td>
</tr>
<tr>
<td><strong>STANDING</strong></td>
<td>(1.70 in case of freshmen or 1.80 in case of sophomores).</td>
</tr>
<tr>
<td><strong>PLACED ON</strong></td>
<td>Cumulative GPA has dropped below 2.0 (1.70 in case of freshmen or 1.80 in case of sophomores).</td>
</tr>
<tr>
<td><strong>ACADEMIC PROBATION</strong></td>
<td></td>
</tr>
</tbody>
</table>
CONTINUOUS ACADEMIC PROBATION

Previously on Academic Probation, cumulative GPA is below 2.0 (1.70 in case of freshmen or 1.80 in case of sophomores) and current semester GPA is 2.25 or above.

ACADEMIC SUSPENSION

Previously on Academic Probation, cumulative GPA is below 2.0 (1.70 in case of freshmen or 1.80 in case of sophomores) and current semester GPA is below 2.25.

4. A student on academic suspension may enroll for summer sessions for the purpose of raising the cumulative GPA to the level required for good standing for the student’s classification. (Once placed on suspension for a semester, the suspension cannot be removed or changed to probation on the basis that the current semester GPA is a 2.25 or higher.) Removal from suspension can be most efficiently accomplished by enrolling only for courses in which the student has previously earned a low or failing grade.

5. A student on academic suspension who raises the cumulative GPA to the level required for good standing will be reinstated as a student in good standing following notification of the Office of the Registrar.

6. If a student who has been suspended for failure to meet academic probation requirements feels that unusual circumstances warrant a review, the student may direct a written appeal to the Admissions Committee, in care of the Office of the Registrar, no later than one week prior to registration. The petition must detail the reasons for alleging that circumstances warrant special consideration and should indicate reasons why the circumstances will not recur. The committee may reinstate a student who has not served the period of academic suspension only when convinced the best interests of both the University and the student will be served by such action.

All students are responsible for knowing whether they are eligible to continue at the University. An ineligible student who nevertheless registers or has registered prior to completion of the semester, in which academic standing is determined, shall be dropped and cannot attend classes. Students shall not receive special consideration for lack of knowledge of scholastic status, regardless of whether the student registered and paid fees.

Scholastic probation and suspension for graduate students is discussed in the Graduate Catalog.

Texas Success Initiative

The Texas Success Initiative (TSI), formerly TASP, is a statewide comprehensive program designed to ensure that students attending public institutions of higher education in Texas have the necessary academic skills to perform effectively in college-level coursework.

TSI, in part, requires the following:

1. Mandatory Testing and Assessment – All students must take the THEA (Texas Higher Education Assessment) or approved alternate test prior to enrolling in college-level courses at a Texas public postsecondary institution.

2. Mandatory Orientation – All new students to UT Pan American, including transfer and transient students, must attend an orientation session prior to being allowed to register for classes. TSI information is disseminated at these orientation sessions.

3. Mandatory Academic Advisement – All students who have not passed all sections of the TSI must be advised prior to registration each semester.

4. Mandatory Developmental Education (if indicated by TSI assessment) – The TSI approved tests concentrate on three basic skills: reading, mathematics and writing. The standards for passing the test represent the minimum knowledge students entering college in Texas should have in order to succeed academically. Developmental courses or programs are provided to help students overcome deficiencies identified from the assessment. Students must remain in continuous developmental education activities until they pass all sections of TSI.

The TSI approved Tests

TSI approved tests are designed to determine whether students possess the basic skills in reading, writing and mathematics necessary for University courses.

In accordance with Texas Education Code, Section 51.3062, all students in the following categories who enter public institutions of higher education must take the TSI test prior to enrolling in college-level courses. State-approved exams are ASSET, COMPASS, ACCUPLACER and THEA.

The law exempts the following categories of students:

1. For a period of five years from the date of testing, a student who is tested and performs at or above the following standards:

- ACT: Composite score of 23 with a minimum of 19 on both the English and mathematics tests (partial exemptions are allowed).
- SAT: A combined verbal and mathematics score of 1070 with a minimum of 500 on both the verbal and the mathematics tests.
2. For a period of three years from the date of testing, a student who is tested and performs on the Texas Assessment of Knowledge and Skills (TAKS) with a minimum score of 2200 on the English Language Arts with a writing subscore of 3 or 4 and a minimum score of 2200 on the mathematics test (partial exemptions are allowed).

   • A student who has graduated with an associate or baccalaureate degree from an institution of higher education in the state of Texas.

   • A student who transfers to an institution from a private or independent institution of higher education or an accredited out-of-state institution of higher education and who has satisfactorily completed college-level coursework as determined by the receiving institution.

3. A student who has previously attended any institution and has been determined to have met readiness standards by that institution.

   • A student who is enrolled in a certificate program of one year or less (level-one certificates, 42 or fewer semester credit hours or the equivalent) at a public junior college, a public technical institute, or a public state college.

   • B.A student who is serving on active duty as a member of the U.S. armed forces, the Texas National Guard, or as a member of a reserve component of the armed forces of the United States and has been serving for at least three years preceding enrollment.

4. A student who on or after August 1, 1990, was honorably discharged, retired or released from active duty as a member of the armed forces of the United States of the Texas National Guard or service as a member of a reserve component of the armed forces of the United States.

Other TSI Rules

1. Students who fail one or more parts of a TSI approved test must register for developmental courses or enroll in developmental programs in a deficient area every semester until they meet standards for each part of the test. Standards are set by the Texas Higher Education Coordinating Board and are subject to change.

2. Students who have not passed all parts of the TSI approved test may not register for any 3000- or 4000-level courses if the number of college hours they already earned plus the number of hours for which they wish to register totals 60 or more hours.

3. Students may not enroll in courses designated as skill intensive courses until both TSI and departmental developmental education requirements have been met. The following have been designated as skill intensive courses: Reading: ENG 2303, ENG 2305, ENG 2307, HIST 2313, HIST 2314, PSY 1310, POLS 2313, and POLS 2314; Math: MATH 1340 or higher-level math; Writing: ENG 1301 and ENG 1302.

4. Concurrent Enrollment students and international students seeking a degree are subject to the same TSI requirements as all other students.

5. Test scores are considered official only if they are sent directly from the testing company to UT Pan American, or if they appear on an official transcript from another Texas college or university.

Additional TSI information, including the rules adopted by the Texas Higher Education Coordinating Board, and information about special provisions related to certain disabilities, is available in the Learning Assistance Center and the Office of the Registrar at UT Pan American. Students needing more information on TSI rules or their TSI status can call (956) 665-2529 or (956) 665-2735. The TSI Registration Bulletin is available from the University Testing Center, UTPA Annex, Suite 180, 2412 S. Closner, Edinburg, Texas. For more information, call (956) 665-7585 or e-mail testing@panam.edu.
Undergraduate Degree Information

The University of Texas-Pan American offers the following types of undergraduate curricula:

1. Those leading to one of the following bachelor’s degrees conferred by UT Pan American:
   - Bachelor of Arts (BA)
   - Bachelor of Business Administration (BBA)

2. Those satisfying the requirements leading toward degrees offered at other institutions, such as curricula leading to degrees in law, pharmacy, medicine and other specialized fields.

3. Courses satisfying requirements for a minor field

4. Courses meeting requirements for certification as a teacher.

A complete list of degrees UT Pan American offers is located on pages 13-14.

The College of Science and Mathematics also offers curricula meeting requirements for pre-dental (with a major in biology or chemistry), pre-optometry (with a major in biology or chemistry), pre-pharmacy (two years) and premedical (with a major in biology or chemistry) studies.

Minors are offered in most of the fields that offer majors. Additional minors are available in geology, biochemistry, bilingual/bicultural education, French, statistics, military science, Mexican-American studies, leadership studies, folklore, electrical engineering for computer science majors, electrical engineering, computer science for engineering majors, middle school mathematics, reading (for students seeking certification only), women’s studies, film studies, Hispanic media studies, global security studies, medical Spanish, journalism, religious studies, and public administration.

Supporting courses are available in a variety of fields, including astronomy, Bible, geography and German. Students also may choose to graduate within the framework of honors studies. Requirements are listed on pages 108-109.

Requirements for a Bachelor’s Degree

General Requirements: The general requirements for graduation are the same for each bachelor’s degree and are listed below. Specific requirements for each major field are listed in the catalog sections dealing with majors. It is the responsibility of the student to be familiar with all the requirements for the degree sought.

1. Degree, minimum hours and GPA: A student may not receive two degrees at the same time. Students who wish to pursue more than one major, that fall under different disciplines, must decide at the point of graduation the type of degree he/she will receive. For students wishing to pursue a new degree, please refer to the section titled “Additional Bachelor’s Degrees” on page 71. A minimum of 120 hours of work is required with a minimum institutional GPA of 2.0. Some major requirements exceed the minimum hours and/or require a higher minimum grade point average.

2. Major and Minor GPA: A minimum institutional GPA of 2.0 in the required hours for both the major and minor fields, or for the broad-field major, is required. Graduates who seek certification as elementary teachers must have a minimum 2.50 GPA, and for middle school, high school and all-level certification, a 2.5 GPA is required. Accounting and biology majors are required to have a 2.5 GPA in their major courses.

3. Core Curriculum Hours and GPA: 43 hours of University core curriculum requirements must be satisfactorily completed with a minimum GPA of 2.0.

4. Freshman English: A minimum grade of C must be achieved in each of the two required freshman English courses (ENG 1301, ENG 1302 or equivalent honors courses).

5. College Algebra: A minimum grade of C must be achieved in college algebra or an approved higher-level math course.

6. Advanced Hours Overall: Must include a minimum of 51 hours of advanced-level (3000/4000) work. Some degrees require additional advanced hours.

7. Major/Minor Requirements: The coursework must
include a minimum of the following: 30 hours of work in a major field of concentration (15 of which must be advanced) and 18 hours in a minor field (six of which must be advanced). A minimum of 48 hours of work in a broadly integrated area (such as business administration, music) may be substituted for the major and minor requirement. In such cases, at least 21 advanced hours must be included, and a department may specify not more than 60 total hours in the area.

8. Language Proficiency University Requirement:
A student graduating from UTPA under a degree plan with the 43-Hour Core Curriculum is required to demonstrate Language Proficiency in a language other than English at the undergraduate level equivalent to six semester credit hours.

Proficiency may be demonstrated by the following:

- Students enrolled in higher education prior to Fall 2010 and following a UTPA 43-Hour Core degree plan:
  - Two years high school second language coursework in the same language.
  - A college credit exam (AP, CLEP, International Baccalaureate).
  - A placement test approved through the UT Pan American Department of Modern Languages (WebCAPE), or
  - Six credit hours of college coursework (including dual/concurrent).

Students enrolled in higher education Fall 2010 and forward:

- A college credit exam (e.g. AP, CLEP, International Baccalaureate),
- A placement test approved through UT Pan American Department of Modern Languages (WebCAPE), or
- Six credit hours of college coursework (including Dual/Concurrent).

Students admitted with a TOEFL (or IELTS) Requirements:

Students who are native speakers of languages other than English may fulfill the second language requirement with the Test of English as a Foreign Language (TOEFL) or with the International English Language Testing System (IELTS), provided that it was an admissions requirement and the student met one of the following minimum scores:

<table>
<thead>
<tr>
<th>Language Tested</th>
<th>CAPE Score (Partial Waiver)</th>
<th>CAPE Score (Proficiency Met)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Spanish</td>
<td>270 (SPAN 1301/1303 waived)</td>
<td>345</td>
</tr>
<tr>
<td>French</td>
<td>260 (FREN 1321 waived)</td>
<td>336</td>
</tr>
<tr>
<td>German</td>
<td>292 (GERM 1331 waived)</td>
<td>383</td>
</tr>
</tbody>
</table>

Please note: If your second language is not listed above, contact the Department of Modern Languages.

If UTPA coursework is needed to meet the second language proficiency requirement, courses may be chosen from those listed below.

- FREN 1321, 1322
- GERM 1331, 1332
- SPAN 1301, 1302 (Non-Native Speaker)
- SPAN 1303, 1304 (Native Speaker)
- SPAN 1387, 1388 (Honors)
- PORT 1341, 1342
- COMD 1310, 1320 (Sign Language)
- FORL 1391, 1392 Level I and II (.01 Chinese, .02 Turkish and .03 Arabic)

9. University Requirement: Beginning in Fall 2008, as part of UT Pan American’s retention and graduation initiatives, entering freshmen and transfer students with fewer than 30 semester credit hours of college coursework* will enroll in the UNIV1301 – Learning Framework course during their first year as follows:

Provisional Status: Entering Freshmen (EF) will not be required to enroll during their first full term (Fall for Fall EFs and Spring for Spring EFs) if they are admitted with an ACT composite score of 19 or higher or SAT total equivalent, and are in the top 25% of their graduating class. If a student does not have a high school rank percentage, the test scores (ACT or SAT) will be the sole criteria. Otherwise, both criteria must be met.

Continued Provisional Status: Provisional status will be evaluated after the completion of the first full term (Fall or Spring). A student who earns 12 semester hours and a 2.5
General Information

first-term GPA during the first full term will not need to take the UNIV 1301 during the next full term. Students who do not complete 12 semester hours and a 2.5 GPA during their first full term will need to enroll in the course during the next full term (or Summer term) and/or before the end of the first year of enrollment.

All students with Provisional Status will be re-evaluated at the end of the second full term. A student who has earned 24 semester hours and a cumulative 2.5 GPA during the first two full terms will not need to take the course.

- A student may choose to take the course at his/her discretion, even though he/she is required to do so. Part-Time Students: The same criteria will apply to part-time students, with the following exception:
  - The student must earn the same number of semester hours as attempted, rather than 12 semester hours required of full-time students.

A student who does not have a Provisional Status or does not meet the criteria and fails to enroll in the UNIV 1301 course in their first year will receive a registration hold for the beginning of their second year. Faculty and Academic Advisement Center advisors will work closely with all freshmen students to ensure their successful progress to the second year and completion of their baccalaureate degree.

*College coursework includes Concurrent Enrollment at UTPA only, not elsewhere, and does not include credit by examination (AP, CLEP, IB, etc.)

10. Residency: The student must complete and receive credit in residence for: (a) a total of at least 25 percent of the semester hours of coursework counted toward the degree, and (b) 24 of the last 30 semester hours, and (c) six semester hours of advanced work in the major. (Clinical Laboratory Sciences Majors: The last 30 hours of college work must be completed at UT Pan American; they must include at least eight hours of biology or chemistry, and a minimum of six advanced hours.)

11. "Re-Using" a Course: A core curriculum course may be used to meet either a major or minor requirement. A course may not be used to satisfy a requirement for both a major and minor, or for two majors or for two minors.

12. Teacher Certification: All applications for teacher certification are processed through the UT Pan American Certification Office. Since degree plans for bachelor’s degrees with teacher certification may differ from plans without certification, students should ensure that a revised, official degree plan is filed by their major department with the Office of the Registrar.

13. Course Distribution: The major-minor or broad-field major course distribution must follow the requirements set forth by the various departments, subject to any limitations and requirements noted in the catalog or in published form issued by the various departments or colleges of the University.

14. Degree Plan: The degree plan must be approved by the student’s department chair and dean, and it must be on file in the major department office of the college. This requirement is normally to be accomplished as soon as possible after the close of the sophomore year (completion of 60 or more hours). In any event, the degree plan must be on file before the deadline for submitting the Application for Degree.

15. Application for Degree: The Application for Degree must be filed by the student with the Office of the Registrar on or before the date specified in the University Calendar, which is approximately nine months prior to the intended date of graduation.

16. Catalog-Seven-Year Limit: The degree requirements that must be completed for graduation will be those in effect at the time of the student’s entrance or those provided in a subsequent catalog. In any case, the catalog used to determine the degree requirements must not be more than seven years old. Any changes in the degree plan to comply with a later catalog must be approved by the department chair and the dean of the college. For purposes of graduation requirements, this catalog expires August 2020.

17. Substitutions/Waivers: A Substitution Form, initiated at the departmental level, is required for any deviation from the degree plan and University requirements. Appeals for substitutions and/or waivers that involve the core curriculum (general education) require approval from the student’s major college, from the college of the core curriculum area, if different, and from the provost/vice president for academic affairs or his designee. Appeals for substitutions/waivers for general graduation requirements, such as total number of semester hours, grade point average and number of advanced semester hours, require approval from within the student’s major college and from the provost/vice president for academic affairs or his designee only. Appeals for substitution of courses within the major, minor or elective areas of a student’s degree plan require the approval of the department chair and the dean of the college only. Content of substituted courses must be consistent with approved degree/program requirements.

18. Graduate Courses: Graduate courses may not be used to satisfy any undergraduate graduation requirements for a bachelor’s degree.
19. Non-Traditional Credit: A maximum of 45 hours of college credit will be accepted toward a bachelor’s degree by any combination of extension, examination or correspondence, with an 18-hour limit on correspondence credit. No credit will be awarded for “life experience.”

All course requirements for a bachelor’s degree in any one of the several disciplines are formulated within the department in which the discipline falls, and are announced and listed elsewhere in the catalog by the respective departments of the University. Students should contact their major department and request a degree plan as soon as possible upon completion of their sophomore year.

Additional Bachelor’s Degrees

Students who received their first bachelor’s degree from UT Pan American or other regionally accredited institution may earn an additional bachelor’s degree in a different major from UT Pan American. Such students continue to be classified as undergraduates and must:

1. Complete all requirements for the additional major(s), as set forth in the catalog.

2. Complete an additional minimum of 30 hours of credit in UT Pan American courses (of which at least 12 must be advanced and a minimum of six of these must be in the major field; in the case of a double major, a minimum of six advanced hours is required in each major field) for each bachelor’s degree sought beyond the first.

3. Complete all requirements for the additional degree(s), including GPA requirements, any minor requirements, elective courses, and advanced courses, as set forth in the catalog.

4. Comply with all other regulations as stated under University core curriculum on page 105.

Completion of a baccalaureate degree at another accredited institution will fulfill UT Pan American’s general education (core curriculum requirements) exclusive of any state specified coursework. Students will be required to complete the Texas state mandated coursework in U.S. history and political science if this has not already been completed as part of their first degree. Students must also complete any other University and departmental requirements for the second degree as stipulated in the catalog.

Graduation Under a Specific Catalog

The degree requirements that must be completed for graduation will be those in effect at the time the student begins his/her college career or those provided in a subsequent catalog. In any case, the catalog used to determine the degree requirements must not be more than seven years old.

Any changes in the degree plan must be approved by the department chair and the dean of the college. For purposes of graduation requirements, this catalog expires August 2020.

General Information

Credit by Examination

UT Pan American offers college credit by examination to qualified students through a variety of approved examinations. A student may receive up to 45 hours of undergraduate credit by examination through the following programs:

- American College Testing (ACT) Program — Credit by Examination
- College Entrance Examination Board (CEEB) Achievement Tests
- Advanced Placement (AP) Tests
- International Baccalaureate (IB) exams
- College Level Examination Program (CLEP)

Test scores must be sent directly from the testing agency; student or hand-carried copies are not accepted.

Credit is posted on the student’s permanent record (transcript) when the student officially enrolls at UT Pan American. Credit by exam is accepted as credit only (CR) and does not affect the student’s cumulative GPA. Unsuccessful attempts to earn credit by examination are not recorded on the student’s official transcript. Policies on credit earned by examination are reviewed every two years in conjunction with the publication of a new catalog.

For further information regarding credit by examination policies at UT Pan American, visit the:

Office of the Registrar
Student Services Building, Room 1.150
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-2201
E-mail: registrar@utpa.edu
For additional information regarding testing, contact the:

Testing Center
UTPA Annex - Suite 180
2412 S. Closner Blvd.
Edinburg, TX 78539-2999
Telephone: (956) 665-2457

NOTE: High school students anticipating college credit through College Entrance Examination Board Achievement, Advanced Placement Tests and/or International Baccalaureate should make arrangements to take the proper examination(s) with their high school counselors, AP or IB coordinators. This should be done in time for scores to be received and evaluated by UT Pan American before students begin their first semester.
### International Baccalaureate

The International Baccalaureate (IB) tests are offered worldwide to students enrolled in programs affiliated with the IB program. The University of Texas-Pan American will grant credit on IB higher-level tests for the courses listed below. Please contact Admissions and New Student Services for additional information.

College-Level Examination Program (CLEP)

Students can earn course credit at UT Pan American in a wide variety of subject areas through CLEP Subject Examinations, which are standardized 90-minute, multiple-choice tests. These exams are administered by the UT Pan American Testing Center several times a month throughout the academic year. For available test dates, contact the:

Testing Center
UTPA Annex - Suite 180
2412 S. Closner Blvd.
Edinburg, TX 78539-2999
Telephone: (956) 665-7583
E-mail: testing@utpa.edu
Website: step.utpa.edu

Listed below are subject areas in which UT Pan American credit can be earned through the CLEP testing program, along with the required minimum score for each test. (The minimum score usually represents successful completion of 35 to 50 percent of the questions on an examination.) UT Pan American credit is posted to a student’s transcript once the official score report is sent to UTPA (approximately three weeks after exam) and after he or she officially enrolls at the University. CLEP credit cannot be used to clear financial aid deficiencies.

Students who do not plan to enroll at the University are also permitted to take CLEP tests at the UT Pan American Testing Center. However, it is the responsibility of the student to contact the institution at which he/she plans to enroll in order to verify which CLEP tests are accepted for credit.

In order to prepare for CLEP testing, students may purchase The Official Guide for the CLEP Examinations at the UT Pan American Bookstore or order it from The College Board website at: www.collegeboard.com/clep. Students are also recommended to obtain an appropriate textbook and/or study guide for the specific test(s).

Registration fees and test dates for CLEP exams are outlined in a flyer available at the UT Pan American Testing Center.

OTHER EXAMS - In addition to the exams listed above, COLLEGE BOARD also offers the following exams: College Composition, College Composition Modular, Natural Science, Humanities, Human Growth & Development, Social Sciences & History, College Mathematics, and Financial Accounting. Although these exams are not currently accepted at UTPA, they may still be administered at our campus and transferred to another institution.

Local Advanced Standing Examinations - For Credit

Students may acquire college credit through local departmental examinations at UT Pan American. Local examinations may not be taken for courses for which an approved CLEP subject examination exists. Students are encouraged to contact the individual academic departments for more information regarding the availability of local examinations, requirements, and fees.

Teaching Certificates

Requirements for teaching certificates in various fields or areas are shown in the respective academic sections of the catalog. General information for undergraduates is shown on page 158 of this catalog and in the Graduate Catalog for graduate students.

Consult the Office of the Dean of the College of Education for full details on all certification requirements.

Degree Plan

In general, a student may follow the degree requirements listed in this catalog by the respective departments of the University, thus planning a schedule of courses. However, having a degree plan on file is a requirement for graduation, and a student is well advised to have the degree plan drawn up by his/her faculty advisor on the proper form as soon as possible to preclude the possibility of taking courses that will not satisfy requirements for the degree the student seeks.

Students seeking a bachelor’s degree are expected to file an official degree plan with their major department upon completion of their sophomore year. (Students seeking a master’s degree or doctoral degree are expected to meet with their graduate advisor and file an official degree plan during their first semester of enrollment. For more information, refer to the Graduate Catalog.)

Students who change their major, area of concentration or teacher certification status must have a new official degree plan reflecting their current status on file with the appropriate department.

Upon request, the department chairs will aid students in preparing degree plans that may be required by institutions or agencies other than UT Pan American. As an illustration, some public school systems require prospective teachers who have not completed their degrees to file an approved plan in the superintendent’s office.

Graduation Policies and Procedures

Application for Degree

All students who intend to receive a degree from The University of Texas-Pan American must submit a completed Application for Degree Form to the Office of the Registrar by the published deadline in the University Calendar, which is approximately nine months prior to the intended date of graduation. Applications received after the deadline will be processed for the next available graduation date. These deadlines are necessary in order for prospective graduates to be notified of any deficiencies in time to register for the appropriate coursework.

Graduation Fee

A non-refundable graduation fee of $32 is charged for undergraduate and graduate degrees. This fee is payable online via ASSIST, or at the Office of Payments and Collections, Student Services Building, Room 1.145, at the time the candidate presents the Application for Graduation to the Office of the Registrar. This fee is used to pay for the processing of applications for graduation, music, graduation speakers, postage, diplomas and other expenses associated with graduation.

Transfer of Graduation Date

Prospective graduates who have submitted their Application for Degree form and do not meet graduation requirements for that graduation date must transfer their application to a later graduation date. Students will be required to pay an additional $10 fee each time the graduation date is transferred.
Commencement Exercises

The University of Texas-Pan American confers degrees four times each year in December, May, July and August. Commencement exercises are scheduled for December, May and August.

Regalia (Cap and Gown)

All students participating in the commencement ceremony are required to purchase the proper graduation regalia from the University Bookstore. (No students will be permitted to participate without the proper regalia.)

Correspondence

In order to ensure that information regarding graduation requirements, deficiencies and commencement exercises are received on a timely basis, the student’s correct mailing address must be on file with the Office of the Registrar. Information will be sent to the student’s UTPA e-mail address. Students are responsible for checking this address regularly. Prospective graduates will not receive special consideration for lack of knowledge of graduation requirements, deficiencies or deadlines.

Honors

Upon graduation, a student receiving a bachelor’s degree is listed with “Honors” in accordance with the following standards based on his/her final institutional grade point average:

- **Summa Cum Laude** GPA of 3.9 to 4.0
- **Magna Cum Laude** GPA of 3.7 to 3.89
- **Cum Laude** GPA of 3.5 to 3.69

Honors are listed in the graduation program based on the student’s GPA prior to completion of his/her last semester of coursework, and an honors listing in the program does not guarantee graduation with honors upon calculation of the institutional GPA after the student’s last semester has been completed.

Academic Support Services

University Library

The University Library is the campus center for resources that support the academic programs at The University of Texas-Pan American. The four-story brick and glass structure contains 202,000 square feet. The cornerstone of the building was dedicated on April 10, 1978. A modern addition was completed in early 1999.

The Library houses a collection of over 900,000 print and online books, more than 46,000 print and online journal subscriptions, over a million microform units and over 26,000 audiovisual items. Library collections and databases may be accessed at workstations throughout the building, on and off campus. Instructional services are provided in state-of-the-art-classrooms. Of interests to the region are the special collection materials contained in the Lower Rio Grande Valley Historical Collection and the Rio Grande Foldlore Archive. Materials available pertain to the Texas counties of the Rio Grande Valley and northeastern Mexico.

The library has close to 300 microcomputer workstations connected to the Library local area network (LAN) and available for accessing information resources and e-mail. Connectivity with the Internet provides access to UTPA online catalog and online full text resources as well as the catalogs of other library collections. Library patrons are offered services that include reference and information consultation and assistance, computerized database searching, interlibrary loan and library use instruction.

All UT Pan American students must be registered in order to borrow materials from the library and use other services during the fall and/or spring semesters. Graduate students who are registered in the spring semester will automatically receive privileges for the summer sessions. Students who are not registered during the fall or spring semesters may obtain the public patrons card.

The benefits of the Public Patrons card, extended for one full year, are that members may check out materials according to circulation policies.

Students Enrolled in Cooperative Programs: Students enrolled in cooperative programs must be registered in either the cooperating institutions to have library privileges. These students can use UTPA Library services by obtaining a Texshare Card from their original institutions.

Students with Incomplete Courses: Un-enrolled UT Pan American students with incomplete courses during the fall or spring semesters need to purchase the Public Patrons library card if they wish to use the library services.

All online resources of the University Library are available throughout the year. Detailed information about hours and services may be obtained at the circulation desk or the Library website at www.lib.utpa.edu, or by calling (956) 665-3306 or voice/TDD (956) 665-2763.
General Information

The University of Texas-Pan American

Academic Advisement and Mentoring Center

The Academic Advisement and Mentoring (AAM) Center utilizes a hybrid model of academic advisement with both a centralized and decentralized component. Centrally located in Southwick Hall, nine academic career advisors provide informative academic advisement, career advising and referral services for Texas Success Initiative (TSI) cleared freshmen. Housed in the six academic colleges (two each), professional guidance counselors provide informational, developmental and career advisement for sophomores. The professional guidance counselors also provide career guidance/exploration and referrals for all TSI cleared undergraduate students with undeclared or changing majors. Once a student has been accepted into his/her desired academic program and/or has become a junior or senior with a declared major, the professional guidance counselor provides information to the student as needed and refers the student to the most appropriate department or faculty advisor for program-specific advisement and mentoring.

Academic Advisement and Career Guidance Services

The AAM Center provides the following services for UTPA students:

- Academic information and guidance for prospective students.
- Academic advisement during new student and transfer student orientations.
- Academic degree planning assistance.
- Required academic advisement for current TSI cleared freshmen and TSI cleared sophomores.
- Academic presentations for UNIV 1301 Learning Framework classes.
- Academic skills development assistance (goal setting, GPA calculation, academic self-monitoring, study skills, four-year plans, etc.).
- Retention advisement for at-risk students (probation, suspension, financial aid deficiency, etc.).
- Career exploration and career guidance services.
- Information and referrals to academic departments, UTPA support services, student organizations, internships, employment, and leadership development opportunities.
- Transfer information and resources.

Learning Assistance Center

The purpose of the Learning Assistance Center (LAC) is to provide all students with academic and student support programs that enable them to succeed in college through a variety of support services that address their educational and personal needs. The major goal of this program is to increase retention and graduation rates while providing quality support programs.

The LAC is made up of various units. The LEAC Building houses International Admissions and Services, the Student-Athlete P.O.W.E.R. Center, the Computer-Assisted Instruction (CAI) Center, Supplemental Instruction, and all tutorial centers, except for the University Writing Center, housed on the first floor of the library. Academic Advisement for developmental students (Room 215), Counseling and Psychological Services (Room 109), and Veterans Services Center (Room 218) are all located in the University Center. Please call (956) 665-2585 or 665-2529 for connections to any of these services, all available at no additional cost. Detailed information is available at www.utpa.edu/lac.

Academic Advisement: This unit assists students with educational planning on University core curriculum requirements and course placement related to legislation governing the Texas Success Initiative. Mandatory advisement is provided for UT Pan American students who have not met the state passing standard in any of the three areas of reading, mathematics and writing.

Computer-Assisted Instruction: This unit provides academic support to students enrolled in developmental coursework by providing assistance by use of commercial software program tutorials. Students are also provided instruction in basic keyboarding and Internet skills on a walk-in basis in an effort to enhance student confidence in their technology skills.

Counseling and Psychological Services: This unit assists students having issues with personal, social, emotional and/or interpersonal relationships that may be affecting their adjustment to the University environment or interfering with academic achievement. One-on-one counseling sessions provide support for students as they clarify their goals, experience personal growth, and increase their use of effective coping skills. Additional activities are conducted in group counseling sessions, topical seminars or workshops. Students with serious mental health pathology are referred for psychiatric evaluation when appropriate.

International Admissions and Services: This unit assists international students in transitioning to study in the United States. Staff helps students in regards to admission processes, immigration processes, federal regulations, customs/culture, insurance requirements and other needs that help the student make a successful adjustment to student life in the United States. This office keeps both the University and the international student in compliance with federal regulations and serves as the liaison for both the University and the student with all federal agencies.

Student-Athlete P.O.W.E.R. Center: Academic support and general advisement for UT Pan American student-athletes are coordinated in this unit. Study hall requirements, academic programming provided by various LAC units, and
activities related to college success are monitored in this unit with the support of other departments throughout campus.

Supplemental Instruction (SI): Supplemental Instruction is an academic enrichment program that is offered in traditionally difficult courses. SI leaders, who have successfully completed the course they are assigned to work with, facilitate the SI discussion and review sessions. Designed to supplement, not replace, class lectures and practice, SI sessions are interactive and collaborative. Students who attend sessions learn to integrate how to learn with what to learn. SI sessions are usually held three times weekly for one hour or twice weekly for 1.5 hours. Additional sessions are held prior to exams.

Tutoring: Working in a small group or individual basis, this unit helps students improve their comprehension of coursework and develop successful academic skills and practices by providing them with support provided by professional staff and peer tutors. Tutoring is available in the subject areas of American Sign Language, biology, chemistry, French, history, math, philosophy, physics, political science, and Spanish. Writing tutoring across the disciplines is available in the University Writing Center. All tutors are provided training throughout the semester on tutor pedagogy. LAC’s training program is certified by the College Reading and Learning Association.

Veterans Services Center: Dedicated to serving a diverse population of student veterans, this unit assists students who are veterans and need educational benefits. Services provided by this unit include certifying for education benefits, advocating for services necessary for veterans, developing projects to unite the University with our local veteran community, providing counseling services specifically for veterans, and promoting involvement and excellence with the UTPA Veteran Student Organization and SALUTE (Service-Academics-Leadership-Unity-Tribute-Excellence) Honor Society.

The University Writing Center

The University Writing Center (UWC), located in the University Library, offers UTPA students and faculty assistance with academic writing in all disciplines. Peer tutors, certified by the College Reading and Learning Association, assist students with their class writing assignments. Individual tutoring in writing may include the following: clarifying an assignment; assisting with the drafting process from ideas, notes and outlines; revising and editing an essay for effective organization, sentence structure and grammatical issues; creating appropriate voice and tone; identifying errors and methods for correction; assisting with all documentation styles; and assisting with incorporating source materials. In addition to offering on-site and online weekend writing tutoring, the UWC provides an area for developmental education labs, a computer classroom for student drop-in use or for faculty members to reserve, and a resource area and meeting room for the University’s Writing Across the Curriculum program.

University Retention Advisement Program

The University Retention Advisement Program (URAP) serves students through the development and implementation of programs that supplement the instructional and support services offered at the University. It also supports the advisement process through focused advisement with special populations.

Student Services and Information

Advanced Services for Student Information Supported by Technology

In order to provide students with easy access to student information, The University of Texas-Pan American developed Advanced Services for Student Information Supported by Technology (ASSIST).

With ASSIST technology, students may access general, academic and financial information from home or any place they have access to the web. Personal information is protected by the student’s UTPA username and password. Student receives these as a part of the admission process. For assistance, the student may contact the IT Help Desk located in the Academic Services Building, Room 1.102.

Official means of communication with students and UTPA

The official means of communication with students from UT Pan American regarding administrative issues is the UTPA e-mail address in the student’s record in the BANNER Student Information System. Important information, such as financial aid award notification, registration information, class wait listing, payment deadlines, how to access bills and grades, and other official notifications are sent to the student’s UTPA e-mail address. It is the student’s responsibility to activate that address upon admission and check it regularly.
General Information

Web for Students: Admissions, grade, registration and financial information can be accessed on the web at www.asisst.utpa.edu.

  - E-check
  - Emergency Loan Applications

Student Rights and Responsibilities

Purchase of Textbooks

The University of Texas-Pan American advises students that they are not under any obligation to purchase a textbook from a university-affiliated bookstore. The same textbook may also be available from an independent retailer, including an online retailer. (Texas Education Code 51.9705; 19 TAC 4.215)

Student Travel

Student travel at The University of Texas-Pan American will be guided by the student travel policy in the Handbook of Operating Procedures Section 5.6.3 as follows:

A. Purpose

The purpose of this policy is to set forth University rules and procedures regarding student and pre-college University program participant travel and to comply with The University of Texas System policy and state law (Texas Education Code §51.949) relating to student travel. University students may travel off campus when representing a student organization, University department or engaging in intercollegiate competition or academic activities. Examples of student travel include, but are not limited to, class field trips and assignments, attendance at scholarly or professional conferences, University-funded student organization travel, class trips for educational or cultural enrichment, athletic, student publication, dramatic, music or forensic competition or performances, student leadership conferences, placement forums, and graduate school visits.

B. Authorization

Student and pre-college University program participant travel, as described above, must be registered with and approved by the dean of students or his or her designee. The Authorization for Student Travel and Release of All Claims forms must be completed and submitted to the Office of the Dean of Students at least two weeks prior to the trip. Each individual requesting authorization for travel must submit a completed Release of all Claims Form with the Authorization for Student Travel Form.

C. Statutory Requirements

The statutory requirements in Section D of this policy are applicable to student travel undertaken by one or more currently enrolled students or participants of pre-college University programs to reach an activity or event that meets all of the following criteria:

1. An activity or event organized and sponsored by the University. An activity or event is considered to be organized and sponsored if it has been planned and funded by the University and approved by the dean of students or his or her designee.

2. The activity or event is located more than 25 miles from the University.

3. (a) Travel to the activity or event is funded and undertaken using a vehicle owned, rented or leased by the University; or (b) attendance at the activity or event is required by a registered student organization and approved in accordance with this policy.
1. All Motor Vehicle Travel

(a) Seat Belts
   Occupants of motor vehicles shall use seat belts or other approved safety restraint devices required by law or regulation at all times when the vehicle is in operation. The number of occupants in a vehicle cannot exceed the number of working seatbelts in the vehicle.

(b) Alcohol and Illegal Substance Prohibited
   Occupants of motor vehicles shall not consume, possess, or transport any alcoholic beverages or illegal substances. Operators shall not drive while under the influence of drugs or alcohol. This includes over the counter or prescription medication that may impair the driver’s ability.

(c) Passenger Capacity
   The total number of passengers in any vehicle at any time it is in operation shall not exceed the manufacturer’s recommended capacity or the number specified in applicable federal or State law or regulations, whichever is lower. Twelve and 15-passenger vans shall not be used to carry more than 9 occupants (including the driver) at any one time. Consideration should be given to decreasing the number of passengers if luggage is to be transported in the same vehicle. Luggage should be stored under seats or in the rear storage area and in a manner that does not obstruct the view of the driver.

(d) License and Training
   Each operator of a motor vehicle shall have a valid operator’s license, be at least 18 years of age, and trained as required by law to drive the vehicle that will be used. Persons who drive a 12 or 15-passenger van must successfully complete a van driving training course at least once every three years.
   - Van driving training is available at the Department of Environmental Health and Safety.

(e) Proof of Insurance, Inspection, and Safety Devices
   Each motor vehicle to which this policy applies must be covered by liability insurance and display a current state inspection certificate, be equipped with all safety devices or equipment required by federal or state law or regulation, and comply with all other applicable requirements of federal or state law or regulations and any applicable University policy.

(f) Legal Operation of Vehicle and Driving Schedule
   Operators of motor vehicles shall comply with all laws, regulations, and posted signs regarding speed and traffic control and shall not operate the vehicle for a continuous period that is longer than the maximum provided by federal or state law. A driver may not drive longer than 4 continuous hours without a scheduled rest stop. The rest stop must last a minimum of 30 minutes before that same driver may resume driving. Total driving time within a 24-hour period may not exceed 8 hours per authorized driver. There should be no driving between the hours of 11 p.m. to 6 a.m. without prior approval from the Department of Environmental Health and Safety.

2. Travel Using a Vehicle Owned, Rented, or Leased by the University

(a) Service and Maintenance
   In addition to those provisions in Section F.1, each vehicle owned or leased by the University must be subject to scheduled periodic service and maintenance by qualified persons and comply with all applicable requirements of UTS157-The University of Texas System Business Procedures Memorandum 16-05-02 Automobile Insurance Coverage for Officers and Employees and General Requirements for the Use of Vehicles (BPM 16-05-02). www.utsystem.edu/bpm/16.htm.

(b) Operators of Vehicles
   All operators of vehicles owned, rented, or leased by the University shall be employees of the University and shall have a valid operator’s license for the operation of the particular vehicle. In addition, operators shall have a current motor vehicle record on file with the University Physical Plant. Drivers must have a rating of 3 points or less as required by UTS157-The University of Texas System Business Procedures Memorandum 16-05-02 Automobile Insurance Coverage for Officers and Employees and General Requirements for the Use of Vehicles (BPM 16-05-02).

(c) Travel by Common Carrier
   When a common carrier is used for student travel covered by this policy, the University shall take reasonable steps to assure the travel is undertaken in conformance with this policy.

(d) Rental Vehicles
   All vehicles are required to be rented through the UTPA Travel Services office. All drivers of rental vehicles must be listed on the vehicle rental agreement.

E. Business Procedures Memorandum
   For additional information regarding insurance, safety, and mode of travel, refer to UTS157 BPM 16-5-02 entitled Automobile Insurance Coverage for Officers and Employees and General Requirements for the Use of Vehicles (BPM 16-05-02). A copy of the policy can be obtained at the Office of the Vice President for Business Affairs or at www.utsystem.edu/bpm/16.htm.

F. Coordination of Travel
   Each group must designate a travel coordinator, who is responsible for submission of all travel documents and carrying all necessary documents on the trip. When possible, the advisor or group sponsor should travel with the group and serve as travel coordinator.
   - In case of an accident, the travel coordinator or designee will contact the University Police Department, who will notify appropriate personnel. All students involved in a vehicle accident are required to visit Student Health Services upon their return to the University regardless of the extent of any injury incurred. Students
General Information

on official University travel are covered by the institution’s accident insurance policy. Pre-college University program participants who are not enrolled at UTPA are not eligible for medical care at Student Health Services.

4. Prior to leaving, each group must receive a pre-trip orientation, which must include:
   Applicable rules of conduct as per the University’s Student Conduct Code and this Student Travel Policy.
   Itinerary and contact information.
   Safety issues while traveling and while at the destination point.

5. Students who use their own vehicle or another privately owned vehicle for approved travel are expected to follow all safety requirements set out in this policy.

6. All students who travel with a group are required to stay with that group throughout the duration of the trip. Pre-college University program participants, who are not enrolled as students at the University must abide by the policy and procedures of their program.

Annual Security and Fire Safety Report

The Annual Security and Fire Safety Report (previously known as the Student Right to Know and Campus Security Act) contains critical information you should familiarize yourself with about campus safety and security. Described in detail is the University Police Department: law enforcement arrest authority, crime reporting policies, procedures and responses, working relationships with state and local police, encouragement of prompt reporting of crimes, and access control procedures. Additionally, there is information concerning drug and alcohol abuse prevention, sexual assault information, weapons on campus, and policies on missing students who reside in on-campus housing and fire safety information. The Annual Security and Fire Safety Report contains data about crime statistics for the three previous calendar years detailing the reported crimes that occurred on the UTPA Main Campus, UTPA McAllen Teaching Site, UTPA at Starr County Facility, and the support facilities to include property owned or controlled by UT Pan American and on public property or property immediately adjacent to and accessible from the campuses.

This information is required by the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act and the Higher Education Reauthorization Act and is provided by UT Pan American Police Department. The Annual Security and Fire Safety Report is available on the web at http://www.utpa.edu/campussafety or a hard copy can be provided if you contact the Empowerment Zone at (956) 665-5375.

During emergency situations the University Police Department can be reached by calling 911 or dialing HELP (ext. 4357) from any University phone. For non-emergencies the police can be reached by dialing (956) 665-7151. The University Police Department is located at 501 N. Sugar Road or they can be reached at police@utpa.edu.

Crimes reported on the UT Pan American campus can be accessed at www.utpa.edu/campussafety.

Any law enforcement information provided by state law enforcement agencies concerning registered sex offenders may be obtained from the UT Pan American Police Department at (956) 665-7151.

The University of Texas-Pan American enforces all Texas vehicle inspection codes (Texas Education Code, Sec. 51.207). All vehicles that park on the campus premises must have current inspection stickers and a current student parking permit properly displayed. For complete information on Traffic, Parking, and Safety Regulations, visit the University Police website at http://www.utpa.edu/police/.

Higher Education Opportunity Act (HEOA)

The Higher Education Opportunity Act (HEOA) specifies the University’s requirements for hate crime reporting, emergency response and evacuation procedures, as well as missing student notification and fire safety related issues for UTPA’s on campus housing facilities.

Annual Fire Safety Report

The Department of Environmental Health and Safety (DEHS) is charged with oversight of the Fire Safety Program which ensures compliance with the National Fire Protection Association (NFPA) mandates and best management practices associated with fire and facilities safety in an institutional environment. All faculty, staff and students are required to comply with these specific mandates. In accordance with the HEOA, UTPA publishes an Annual Fire Safety Report, which outlines key information relating to the fire safety related systems associated with UTPA campus housing. Included in the report is a description of the fire safety system for each on-campus student housing facility, the number of fire drills held the previous calendar year, UTPA’s policies or rules on portable electrical appliances, smoking and open flames, procedures for student housing evacuation, policies for fire safety education and training programs, reporting mechanisms in the event of a fire, and plans for future improvements in fire safety. Also included in this report are Fire Safety Statistics, which outline the number of fires and the cause of each fire, the number of injuries or deaths, and the value of any property damage. In addition to the Annual Fire Safety Report, a Fire Log is maintained by the DEHS which lists any fires that occurred in an on-campus housing facility. For each fire, information regarding the location of the fire, the nature of the fire, the date the fire occurred, and the time of day the fire occurred is included.

A hard copy of the Annual Fire Safety Report and the Fire Log is available by visiting the DEHS offices, located at Lamar Bldg., Room 1.202, or it can be requested by contacting the Department of Environmental Health and Safety at (956) 665-3690. In addition, a copy of the report can be accessed via the DEHS website at http://www.utpa.edu/safety/fire.
Emergency Response and Evacuation Procedures

The University Police Department, in conjunction with the Department of Environmental Health and Safety, is charged with the Emergency Response Program on the campus. The program's primary goal is to ensure that in the event of an emergency the University responds in a manner that protects the lives and health of the UTPA community and any visitors, protects University facilities, property and equipment, and provides for the restoration of University facilities, functions and services. It is vital that all faculty, staff and students be familiar with emergency procedures associated with a manmade or natural disaster that may occur on campus. In accordance with the HEOA, UTPA has developed a policy statement that outlines Emergency Response and Evacuation Procedures utilized to immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation. The procedures include a list of organizations responsible for carrying out the emergency process, a description of the process the institution will use to determine the extent of the emergency, who to notify, the content of the notification, and the mechanisms used to initiate the notification system. In addition, procedures are also included for disseminating the emergency information to the larger community.

A hard copy of the Emergency Response and Evacuation Procedures are available by visiting the DEHS offices, located at Lamar Bldg, Room 1.202, or it can be requested by contacting the Department of Environmental Health and Safety at (956) 665-3690. In addition, the procedures can be accessed via the Department of Environmental Health and Safety website at http://utpa.edu/safety/emergency.

Gang-Free Zones

Premises owned, rented or leased by The University of Texas-Pan American and areas within 1,000 feet of the premises are “gang-free” zones. Certain criminal offenses, including those involving gang-related crimes, will be enhanced to the next highest category of offense if committed in a gang-free zone by an individual 17 years or older. See Texas Penal Code, Section 71.028.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. §1232g, and the Texas Public Information Act, Texas Government Code §552.001 et seq., are respectively federal and state laws that provide for the review and disclosure of student educational records.

In accordance with these laws, The University of Texas-Pan American has adopted the following policy. Individuals are informed of their rights under these laws through this policy, which is included in the University Handbook of Operating Procedures, Section 5.2.3 and this catalog. The catalog is available for viewing at www.utpa.edu/catalog/ and the Handbook of Operating Procedures is available at www.utpa.edu/hop.

The University will not permit access to or the release of personally identifiable information contained in student education records without the written consent of the student to any party, except as follows:

1. To appropriate University officials who require access to educational records in order to perform their legitimate educational duties.
2. To officials of other schools in which a student seeks or intends to enroll, is enrolled in or receives services from, upon request of these officials.
3. To federal, state or local officials or agencies authorized by law.
4. In connection with a student's application for, or receipt of, financial aid.
5. To accrediting organizations or organizations conducting educational studies, provided that these organizations do not release personally identifiable data and destroy such data when it is no longer needed for the purpose for which it was obtained.
6. To the parents of a dependent student as defined in Section 152 of the Internal Revenue Code of 1954. This is for financial aid and financial records only and does not include academic records.
7. In compliance with a judicial order or subpoena provided a reasonable effort is made to notify the student in advance, unless such subpoena specifically directs the institution not to disclose the existence of a subpoena.
8. In an emergency situation if the information is necessary to protect the health or safety of students or other persons.
9. To an alleged victim of any crime of violence, the results of the alleged perpetrators disciplinary proceeding may be released.

Additionally, any law enforcement information provided by state law enforcement agencies concerning registered sex offenders may be released from the UT Pan American Police Department. The police department can be contacted at (956) 665-7151.

The University will release information in student education records to appropriate University or UT System officials as indicated in no. 1 above when there is a legitimate educational interest. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, audit or collection agent); a person serving on The University of Texas System Board of Regents; or a student serving on an official committee or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an educational record in order to fulfill his or her professional responsibility. Upon request, the University discloses education records without consent to officials of
another school in which a student seeks or intends to enroll. Where required by regulations, a record of requests for disclosure and such disclosure of personally identifiable information from student education records shall be maintained by the custodian of the public record for each student and will also be made available for inspection pursuant to this policy. If the University discovers that a third party who has received student records from the University has released or failed to destroy such records in violation of this policy, the University will determine any future access by that third party and may take further appropriate action. Respective records no longer subject to audit nor presently under request for access may be purged according to regular schedules.

**Directory Information**

At its discretion, the University may release directory information, which shall include:

1. Name, address, telephone number
2. Date and place of birth
3. Major field of study
4. Participation in officially recognized activities and sports
5. Dates of attendance
6. Most recent previous educational institution attended
7. Classification
8. Degrees and awards received
9. Date of graduation
10. Physical factors (height and weight) of athletes
11. Photographs
12. University e-mail address

Students may have directory information withheld by notifying the Office of the Registrar in writing. The institution will honor requests for nondisclosure until the student grants permission, in writing, to release the information.

**Access to File**

Upon written request, the University shall provide a student with access to his or her educational records. The UTPA vice president for business affairs has been designated by the institution to coordinate the inspection and review procedures for student education records, which include admissions files, academic files and financial files. Students wishing to review their education records must make written requests to the vice president for business affairs listing the item or items of interest. Education records covered by the act will be made available within 45 days of the request.

A list of education records and those officials responsible for the records shall be maintained at the Office of the Vice President for Business Affairs. This list includes:

- **Academic Records**
  - Office of Admissions and New Student Services: SSB 3.104
  - New Student Services: SSB 1.109
  - Office of the Registrar: SSB 1.150
  - College, Division, Department and Faculty Offices (various locations on campus).

- **Enrollment and Student Services/Student Services Records**
  - Counseling Services Office: Director Learning Assistance Center: LAC 100
  - Student Services: Dean of Students Office, UC 104
  - Residence Life: Director, MRH
  - Career Services: SSB 2.101

- **Financial Records**
  - Business Office: Vice President for Business Affairs, SSB 5.101
  - Student Financial Services: Director, SSB 186

**Educational records do not include:**

1. Financial records of the student’s parents or guardians.
2. Confidential letters of recommendations that were placed in the educational records of a student prior to Jan. 1, 1975.
3. Records of instructional, administrative and educational personnel that are kept in the sole possession of the maker and are not accessible or revealed to any other individual except a temporary substitute for the maker.
4. Records of law enforcement units.
5. Employment records related exclusively to an individual’s employment capacity.
6. Medical and psychological records
7. Thesis or research papers (may be made available to interested members of the public).
8. Records that only contain information about an individual after the individual is no longer a student at the institution.

**Challenge to Record**

Students may challenge the accuracy of their educational records. Students, who believe that their educational records contain information that is inaccurate or misleading, or is otherwise in violation of their privacy or their rights, may discuss their problems informally with the department that generated the record in dispute. If an agreement is reached with respect to the student’s request, the appropriate records will be amended. If an agreement is not reached, the student will be notified within a reasonable period of time that the records will not be amended, and he or she will be informed by the head of that department of his or her right to a formal hearing.

A student’s requests for a formal hearing must be made in writing to the vice president for business affairs who, within
a reasonable period of time after receiving such requests, will inform the student of the date, place and the time of the hearing. Students may present evidence relevant to the issues raised and may be assisted or represented at the hearings by one or more persons of their choice, including attorneys, at the students expense. The hearing officer who will adjudicate such challenges will be appointed by the vice president for business affairs in non-academic matters and by the provost/vice president for academic affairs in academic matters.

Decisions of the hearing officer will be final, will be based solely on the evidence presented at the hearing, will consist of the written statements summarizing the evidence and stating the reasons for the decisions, and will be delivered to all parties concerned. The education records will be corrected or amended in accordance with the decision of the hearing officer, if the decision is in favor of the student. If the decision is unsatisfactory to the student, the student may place with the education records statements commenting on the information in the records or statements setting forth any reasons for disagreeing with the decision of the hearing officer, or both.

The statements will be placed in the education records, maintained as part of the student's records and released whenever the records in question are disclosed.

Students who believe that the adjudications of their challenges were unfair or not in keeping with the provisions of the Act may request, in writing, assistance from the president of the University.

Copies

Students may have copies of their educational records and this policy. These copies will be made at the student's expense at rates authorized in the Texas Public Information Act. (There is no charge for student transcripts.) Official copies of academic records or transcripts will not be released for students who have a delinquent financial obligation or financial “hold” at the University.

Complaints

Complaints regarding alleged failures to comply with the provisions of the FERPA may be submitted in writing to the Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue SW, Washington, D.C. 20202-4605.

Drug and Alcohol Policy

The University of Texas-Pan American is a drug-free school and complies with the Drug Free Workplace Act of 1990. The Drug Free School and Communities Act of 1989 requires institutions of higher education to adopt and implement programs to prevent the unlawful possession, use, or distribution of illicit drugs and alcohol. Information concerning these programs must be distributed to students annually. For information regarding these policies please refer to the following: Drug Free School and Communities Act provided by the Office of the Dean of Students at www.utpa.edu/dos.

UTPA is committed to maintaining a safe and healthy environment for the campus community. Alcohol and other drugs should not interfere with the University's educational mission. All UTPA students, faculty members, staff members, administrators and visitors are subject to local state and federal laws regarding the unlawful possession, distribution, or use of alcohol or illegal drugs.

The following University policies apply H.O.P. 4.8.1, H.O.P. 4.9.1, and H.O.P. 5.5.2. The possession, transportation, and/or consumption of alcohol by individuals less than 21 years of age are strictly prohibited. University police officers enforce laws regulating the use of alcoholic beverages and underage drinking with court appearance citations, referral to the Office of Student Rights and Responsibilities and/or arrest. Alcoholic beverages may not be consumed or possessed in public areas of the University. Additional policies regarding alcohol apply at campus housing areas. If a student is found responsible for violating the alcohol policies, sanctions range from educational programs to expulsion. In addition, according to the UTPA Student Code of Conduct the use, manufacturing, possession, sale, or distribution on the campus of the substances defined and regulated under Chapters 481, 484 and 485 of the Texas Health and Safety Code, except as may be allowed by the provisions of such articles. If a student is found responsible of the illegal use, possession, or sale of a drug or narcotic on campus, the minimum penalty shall be suspension from the institution for a specified period of time and/or suspension of rights and privileges.

Hazing

Hazing in state educational institutions is prohibited by both state law (Sections 51.936 & 37.151 et seq., Texas Education Code) and by the Regents’ Rules and Regulations (Rule 50101). Individuals or organizations engaging in hazing could be subject to fines and charged with criminal offenses. Additionally, the law does not affect or in any way restrict the right of the University to enforce its own rules against hazing.

INDIVIDUALS

- A person commits an offense if the person: Engages in hazing.
- Solicits, encourages, directs, aids or attempts to aid another engaging in hazing.
- Recklessly permits hazing to occur.
- Has firsthand knowledge of the planning of a specific hazing incident involving a student in an educational institution or has firsthand knowledge that a specific hazing incident has occurred and knowingly fails to report that knowledge in writing to the dean of students or other appropriate official of the institution.
ORGANIZATIONS

An organization commits an offense if the organization condones or encourages hazing or if an officer or any combination of members, pledges, or alumni of the organization commits or assists in the commission of hazing.

DEFINITION

The term “hazing” is broadly defined by statute to mean any intentional, knowing, or reckless act occurring on or off the campus of an educational institution, by one person alone or acting with others, directed against a student, that endangers the mental or physical health or safety of a student for the purpose of pledging, being initiated into, affiliating with, holding office in, or maintaining membership in an organization. Hazing includes, but is not limited to:

- Any type of physical brutality, such as whipping, beating, striking, branding, electronic shocking, placing of a harmful substance on the body, or similar activity;
- Any type of physical activity, such as sleep deprivation, exposure to the elements, confinement in a small space, calisthenics, or other activity that subjects the student to unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student;
- Any activity involving the consumption of a food, liquid, alcoholic beverage, liquor, drug or other substance that subjects the student to an unreasonable risk of harm or that adversely affects the mental or physical health or safety of the student;
- Any activity that intimidates or threatens the student with ostracism, that subjects the student to extreme mental stress, shame or humiliation, that adversely affects the mental health or dignity of the student or discourages the student from entering or remaining registered in an educational institution, or that may reasonably be expected to cause a student to leave the organization or the institution rather than submit to acts described in this subdivision; and
- Any activity that induces, causes, or requires the student to perform a duty or task that involves a violation of the penal code.

The fact that a person consented to or acquiesced in a hazing activity is not a defense to prosecution.

The University of Texas System Board of Regents’ Rules and Regulations, Rule 50101, Sec. 2.8 states that “Any student, who acting singly or in concert with others, engages in hazing is subject to discipline. State law prohibits hazing in state educational institutions (Texas Education Code, Section 51.936). Hazing with or without the consent of a student, whether on or off campus, is prohibited and a violation of that prohibition renders both the person inflicting the hazing and the person submitting to the hazing subject to discipline. Initiations or activities by organizations may include no feature that is dangerous, harmful, or degrading to the student and a violation of this prohibition renders both the organization and participating individuals subject to discipline.”

Hazing with or without the consent of a student is prohibited by the UT System, and a violation of that prohibition renders both the person inflicting the hazing and the person submitting to the hazing subject to discipline.

Student Conduct

The University considers cultivation of self-discipline by its students to be of great importance in the development of responsible citizens. Therefore, the University expects its students to maintain standards of personal discipline that are in harmony with the education goals and purpose of the University. Although the University is committed to the full
support of the constitutional rights of its students, including
due process, it also has an equal obligation to protect its
educational purpose and the interest of the student body.
The University must therefore be concerned with the actions
of individuals or groups that are in conflict with the welfare
and integrity of the institution or in disregard of the rights of
other students or faculty.

Attendance at a tax-supported educational institution of
higher learning is optional and voluntary. By such voluntary
entrance into the academic community of the University,
students voluntarily assume the obligations of performance
and behavior imposed by the University relevant to its
lawful missions, processes, and functions. When students
enter the University it is assumed that they have a serious
purpose and a sincere interest in their own social and
intellectual development. They are expected to learn to
cope with problems with intelligence, reasonableness, and
consideration for the rights of others; and to obey laws and
ordinances of the nation, state, and community for which
they, as well as the University, are a part. As students prize
rights and freedoms for themselves, they are expected to
respect the rights and freedoms of others.

The administration of student discipline at the University
is a responsibility shared by students, faculty, and
administrative staff. In many cases, peer group influence,
counseling, admonition, and example may resolve problems
of student conduct. Should these preferred means fail, the
recourse is disciplinary course of action. Any academic or
administrative official, faculty member, or student may file a
complaint against any student for misconduct. A student may
be penalized herein, even though, he/she is also punished by
state or federal authorities for the same act.

Students are subject to federal, state, and local laws as well
as University rules and regulations. Students are subject to
reasonable disciplinary action, including suspension and
expulsion in appropriate cases, for breach of federal, state,
or local laws or University rules and regulations. Individuals
who are not currently enrolled at the University remain
subject to the disciplinary process for conduct that occurred
during any period of enrollment, and for statements, acts, or
omissions related to application for enrollment or the award
of a degree.

Rules and regulations relating to the students of the
University are enacted with the view toward protecting the
best interests of the individual, the general welfare of the
entire student body, and the educational objectives of the
University. These rules and regulations are few, and most
students will not find them unduly restrictive. Violations of
institutional rules and regulations, including those which
may subsequently be enacted, may subject a student to
disciplinary action.

The Student Conduct Code can be found in Section 5.5.2.
of the Handbook of Operating Procedures and the student
disciplinary hearing and appeals procedure can be found in
Section 5.5.3 of the Handbook of Operating Procedures.

Copyrighted Material

Using peer-to-peer (P2P) file-sharing applications to
illegally share copyrighted music and movies is the No. 1
way students violate federal copyright law. Students, faculty
and staff are all obligated to comply with federal law and
University policy regarding appropriate use of information
technology and avoiding copyright infringement.

Bandwidth

The University enforces network policies regarding
bandwidth usage and limits. Under some circumstances,
the University may activate monitoring tools designed to
detect abnormal or potentially infringing traffic in order
to determine its appropriateness and, if necessary, initiate
disciplinary procedures.

Copyright complaints and legal content alternatives

If you copy and distribute copyrighted material without
legal permission, you may be found liable for civil or criminal
copyright infringement. Civil penalties for federal copyright
infringement range from $750 per song to $150,000 in
damages for each willful act. Criminal penalties can run
up to five years in prison and $250,000 in fines. The
University cannot protect you from a copyright complaint.
The University may also be required by law to disclose
information about you to a complainant for use in pursuing
legal action against you. The process for handling DMCA
notices received by the University is outlined in the Digital
Millennium Copyright Act (DMCA) policy. The penalties
for violation of copyright law can range from University
sanctions to civil and criminal prosecution. You are not
protected from financial penalty just because you received
material at no cost or are distributing material with no
charge. Your only protection is to not possess or distribute
any unlicensed copyrighted material. There are many
websites that provide legal online music, movies, and other
content. Refer to the “Keep It Legal” page for a list of services
that comply with the DMCA.

Peer-to-peer software

Peer-to-peer (P2P) applications such as BitTorrent,
BearShare, Limewire, Morpheus, iMesh and KaZaA make it
easy for you to share files and there are legitimate uses for
this class of software. However, please keep the following
guidelines in mind:

Network bandwidth

Most P2P applications are configured so other users can
access your hard drive and share your files all the time.
This constant file transfer can degrade your computer’s
performance and generate heavy traffic loads on the
university network. P2P applications can consume your
weekly allocation very quickly. The university’s network
bandwidth consumption is monitored. If your usage impacts
the overall performance of the network, your computer may
be blocked. If you use a P2P application to share content
General Information

The University of Texas-Pan American is committed to creating and maintaining a community in which students, faculty, and staff can work and study in an atmosphere free from all forms of harassment, exploitation, or intimidation. Every member of the University community should be aware that the University does not tolerate sexual assault and harassment and that such behavior is prohibited by both federal and state law and by University policy. UTPA will take whatever action may be needed to prevent, correct, and if necessary, discipline and/or prosecute behavior that violates this policy and the law. All forms of sexual assault and all attempts to commit such acts are regarded as serious University offenses that are likely to result in suspension, required withdrawal, expulsion or termination. Prosecution may take place in accordance with Texas criminal law, independent of University actions.

Privacy

If you are running a P2P application, you may be inadvertently sharing personal information, such as e-mail messages or credit card information. You need to make sure you know which files and data the application is sharing. You should know how to control or disable your P2P application to ensure that you are not inadvertently sharing personal information.

Security

Viruses are easily spread using P2P applications. Many P2P applications include "malware" in the download, so you may be unintentionally infecting your computer. To protect your computer, keep your anti-virus program up-to-date and only install programs acquired from reputable sources. You can download anti-virus software on the UTPA Downloads site.

Resource use

Some P2P applications use your computer as a computational or storage resource for another organization’s use. This may not be an acceptable use of state-owned resources such as the university network or university-owned computers. Do not permit any such use of your system without the consent of the university. For assistance, please contact the Information Security Office, infosecurity@utpa.edu.

University policy and assistance

By running a P2P application, you may be consuming excessive network bandwidth and/or violating copyright law, both of which are violations of the University’s rules for acceptable use of information technology. You may also be sharing confidential information and/or making your computer insecure. If you have questions about P2P applications, please call the IT Help Desk at (956) 665-2020 or send an e-mail to the ITS Help Desk.

Sexual Assault Introduction

The University of Texas-Pan American is committed to creating and maintaining a community in which students, faculty, and staff can work and study in an atmosphere free from all forms of harassment, exploitation, or intimidation. Every member of the University community should be aware that the University does not tolerate sexual assault and harassment and that such behavior is prohibited by both federal and state law and by University policy. UTPA will take whatever action may be needed to prevent, correct, and if necessary, discipline and/or prosecute behavior that violates this policy and the law. All forms of sexual assault and all attempts to commit such acts are regarded as serious University offenses that are likely to result in suspension, required withdrawal, expulsion or termination. Prosecution may take place in accordance with Texas criminal law, independent of University actions.

Description of Educational Programs

There are many campus resources that can help campus community members reduce their risk of becoming a victim of sexual assault:

Self Defense Program (UTPA Police Department):

The UTPA Police Department has a one-hour introductory self-defense class where physical, non-physical and avoidance techniques are covered as well as resources to continue self-defense education.

The Empowerment Zone:

Multiple programs are offered focusing on sexual responsibility, healthy relationships, and self-assault awareness throughout the year. More information can be obtained by calling (956) 665-5375.

Campus Assault Response Effort (CARE):

Aims to provide proactive educational programs to raise awareness of sexual assault of both women and men. In addition CARE provides comprehensive services for victims of sexual assault including sexual assault advocates. More information can be obtained by calling (956) 665-5375.

Procedures to Follow

Reporting a sexual assault to the UTPA Police Department at (956) 665-7151 may help to prevent another assault. Reporting the incident does not mean the survivor must proceed with a prosecution. Immediately following an attack, the survivor should try to write down everything she or he remembers about the incident, including the physical description of the suspect(s) and any further information about the identity or location of the suspect(s).

A CARE advocate trained to deal with sexual assault issues in a confidential way will be available to talk to you. The advocate can assist you in contacting on- and off-campus resources for medical, legal, or emotional support. They also can assist you in changing an academic and/or living situation following an incident of sexual assault.

The CARE office, located in the Empowerment Zone (UC322), is open Monday through Friday. After hours and weekends, a survivor or witness can contact the University Police Department at (956) 665-7151 and the officer will arrange for a CARE advocate to meet with you. When you talk to a CARE advocate, you are not making a report or a formal complaint. All discussions are private and confidential and do not commit you to further action. Conversations with advocates are not disclosed to anyone without your expressed permission, unless there is a threat of physical harm to you or others. No matter when the assault occurred or what you decide to do; consider counseling. Sometimes talking can be the most important step to healing. You may contact the CARE office at any time to arrange an appointment. Friends of survivors may seek counseling and support as well.
CARE can:
- Provide information on legal and disciplinary reporting options.
- Support a complainant through any private University complaint.
- Assist confidentially to manage the impact on academic and living situations following a sexual assault (provided reasonable alternatives are available).
- Assist in obtaining on- and off-campus resources for medical, legal, or emotional support.

Notification of Law Enforcement

Victims of sexual assault or persons who have information regarding a sexual assault are strongly encouraged to report the incident to the UTPA Police Department immediately. It is the policy of the UTPA Police Department to conduct investigations of all sexual assault complaints with sensitivity, compassion, patience and respect for the victim. Investigations are conducted in accordance with guidelines established by the Texas Penal Code, Code of Criminal Procedure and the Hidalgo County District Attorney’s Office.

University police officers attend the Sexual Assault Family Violence Investigators Course (SAFVIC). This course is designed to provide law enforcement officers with the tools they need to effectively investigate and prevent sexual assault and family violence. The curriculum covers crucial aspects for law enforcement’s response to these crimes, as well as the creation and use of community-based resources to assist law enforcement’s efforts.

All information and reports of sexual assault are kept strictly confidential. In accordance with the Texas Code of Criminal Procedures Article 57, victims may use a pseudonym to protect their identity. A pseudonym is a set of initials or a fictitious name chosen by the victim to be used in all public files and records concerning the sexual assault. The victims of sexual assault are not required to file criminal charges or seek judicial actions through the University disciplinary process. However, victims are encouraged to report the assault in order to provide the victim with physical and emotional assistance.

Students may also contact local law enforcement agencies. Members of the UTPA Police Department and other University offices will assist the student in notifying the appropriate agency in the applicable jurisdiction.

Changes in Academic and Living Situation

The Dean of Students Office can assist the victim with issues including, but not limited to, class schedule changes, withdrawal procedures, or campus housing relocation. If the reporting student provides credible evidence that the accused student presents a continuing danger to person or property or poses an ongoing threat of disrupting the academic process, the Office of Student Rights and Responsibilities may take interim disciplinary action against the accused student as appropriate.

Procedures for Campus Disciplinary Action

A student may also choose to report the assault to the Office of Student Rights and Responsibilities for disciplinary action regardless of whether or not the student has decided to press criminal charges. A student may also file a report of sexual assault against another student, or a faculty or staff member, by directly contacting the director for Student Rights and Responsibilities at (956) 665-5375. Procedures for resolving complaints regarding sexual harassment and assault are detailed in the Handbook of Operating Procedures. In any case, both the accuser and the accused are entitled to the same opportunities to have others present during any disciplinary proceedings. Both the accuser and the accused can expect to be informed of the outcome of any proceedings.

During any sexual assault complaint proceeding, the University has a wide range of latitude when developing sanctions. Those sanctions may range from probation to expulsion from the University.

Solicitation on Campus

The University’s policy on solicitation is outlined in The University of Texas-Pan American Handbook of Operating Procedures Section 8.4.5. The term solicitation means the sale, lease, rental or offer for sale, lease, rental of any property, product, merchandise, publication, or service, whether for immediate or future delivery; an oral statement or the distribution or display of printed material, merchandise or products that is designed to encourage the purchase, use or rental of any property, product, merchandise, publication or service; the receipt of or request for any gift or contribution; or the request to support or oppose or to vote for or against a candidate, issue or proposition appearing on the ballot at any election held pursuant to state or federal law or local ordinances. Solicitation is prohibited on any property, street, or sidewalk, or in any building, structure, or facility owned or controlled by the University or The University of Texas System. Please refer to the policy for a list of permissible activities.
Student Academic Responsibilities and Appeals

Academic Responsibilities

Students are expected to inform themselves thoroughly concerning the regulations of the University and the course requirements for degrees, and to make inquiries in case of doubt. It shall not be the University’s responsibility should complications arise because of failure to follow regulations and requirements.

Regulations will not be waived, nor exceptions to requirements made, on a plea of ignorance of the regulations and requirements. Students, therefore, should become familiar with all of the information related to the program contained in the University Catalog, on the University website, and in other official publications.

Each student, by registering, enters an academic college of the University and, except as to conduct, is thereafter under its jurisdiction with regard to the student’s program of study and degree requirements. Students should work directly with the person in their major department who is assigned the responsibility of supervising their programs concerning course requirements and options, deficiencies, degree plan and special regulations. Requests to waive regulations and/or requirements should be directed in writing to the dean of the college.

Academic Appeals

Periodically, misunderstandings arise with regard to academic expectations and final grades. Students wishing to appeal final grades or misunderstandings in academic standards should first discuss the matter with the instructor of the class. If no resolution occurs, and the student wishes to pursue the matter further, he/she should appeal in writing to the appropriate department chair within one year after the disputed grade is issued or the misunderstanding occurred. The department chair will respond in writing within 10 class days of the receipt of the student’s written appeal.

Pursuant appeals will be written and directed within 10 class days of the date of the department chair’s decision to the school, college, or division College Academic Appeals Committee. The committee will consist of a panel of three faculty members, two of who may not be from the department in which the appeal originated. The dean or director will appoint the panel members upon receipt of the written appeal and notify the student in writing of the date, time and location of the hearing and the names of the members of the panel. The student and the faculty member involved may appear in person before the panel and present evidence and/or witnesses. The hearing will be closed to the public. No person other than the student, the faculty member involved, and panel members may be present. No person may represent the student or the faculty member.

After the College Academic Appeals Committee has heard the appeal, it will deliberate and come to a decision. The committee’s decision will be written and mailed, or delivered in person, to the student and faculty member within three class days of the close of the hearing. The student may appeal in writing within 10 class days to the dean/director. The dean’s/director’s decision will be final, and it must be mailed or delivered in person to the student within 10 class days of the receipt of the student’s written appeal.

Student Complaint Procedures

Purpose

The University of Texas-Pan American seeks to provide fair and objective procedures for hearing student complaints and endorses compliance with the spirit of non-discrimination regulations. The following will advise students of procedures to be followed in filing non-academic complaints.

UT Pan American declares and reaffirms a policy of administering all of its educational programs and related supporting services and benefits in a manner that does not discriminate because of a student’s or prospective student’s race, color, religion, sex, national origin, age, veteran status, citizenship, disability, gender (including sexual harassment), sexual orientation, gender expression, and gender identity or other characteristics that lawfully cannot be the basis for provision of such services. Students are protected from coercion, intimidation, interference, harassment, retaliation, or discrimination for filing a complaint, or assisting in an investigation. Students may pursue complaints through the Office of the Dean of Students.

Student Advisement for Concerns/Complaints

The Office of the Dean of Students, located in the University Center, Room 104, offers assistance to students who have concerns or complaints other than those addressed above, or who have questions regarding existing policies and procedures. The Handbook of Operating Procedures outlines the method to file complaints in:

1. Section 2.2.1 - Non-Discrimination Policy
2. Section 2.2.3 - Policy Concerning Accommodations for Individuals with Disabilities
   Section 2.2.4 - Sexual Harassment and Sexual Misconduct Policy
3. Section 5.2.1 - Student Academic Responsibilities and Appeals
4. Section 5.8.1 - Student Complaint Procedures
Student Services

Career Services

The Office of Career Services is committed to providing high quality services that enable students throughout the time they are enrolled and after they graduate, to explore career options. Through partnerships with employers, faculty and staff, Career Services works to empower students to make effective career choices based on realistic self evaluations and comprehension of the world of work, resulting in prepared graduates who market their education, skills and experiences to achieve lifelong career success.

Career Services’ programs and services are designed to serve the entire student population from the first-year student exploring career interests to graduating students seeking their first entry-level opportunity. The services offered are available to all full-time and part-time undergraduates and graduate students.

Individual Career Counseling Students are encouraged to discuss their choice of major, as well as related career plans, with the counseling staff of Career Services. Advisors are also available to review résumés, conduct mock interviews and plan for graduate school. Staff appointments for these services are recommended at least 2-3 days in advance. The professional staff is also available to review résumés and cover letters, and offer suggestions for possible improvement.

Information on Majors More than 40 handouts provide information on each major with regard to related areas of the work world, typical employers, professional associations, and job search strategies. Everything, from health to communication to business to education, there is a helpful array of take-home information for practically every occupational field.

Career Information Center The career library offers a wide range of books, magazines, and brochures addressing all occupational areas. Career books, occupational guides and directories can be used to clarify and confirm a student’s initial impressions about a career field, and to obtain occupational descriptions. Eight computers are also available for career planning and job search needs.

Bronc Career Connection The Bronc Career Connection (BCC) is UT Pan American’s official job/résumé posting site available for students and alumni only. All full-time entry-level, experienced, internships and part-time jobs are posted on the BCC. By signing up on the BCC, students can learn more about their upcoming careers and explore their choices. In addition to job postings, students can also sign up for all upcoming job fair and interviews. Students looking for part-time employment either on or off campus can find all of the positions listed by going to the Bronc Career Connection at any time of the year. To find out more information about pursuing a part-time job, a student can make an appointment with his/her appropriate advisor.

Walk-In Hours
Meet one-on-one with a career advisor for brief résumé reviews without an appointment. Walk-in hours are during specified times, Monday-Friday. For hours call (956) 665-2243.

Career Fairs
Career Services hosts seven career fairs during the academic year. The career fairs are a must attend for all students from all classifications as they are an excellent opportunity for students to meet with a variety of employers in one location. For a complete list of all career fairs and dates, visit the Career Services website.

- Fall Career Expo (Fall Semester)
- Criminal Justice Career Expo (Fall Semester)
- Graduate and Professional School Fair (Fall Semester)
- Teachers Job Expo (Spring and Fall Semesters)
- Annual Career Day (Spring Semester)
- Student Employment Job Fair (Spring Semester)

High School to University Programs and Testing Services

The Office of High School to University Programs and Testing Services promotes educational excellence in local public schools by providing University resources and services to support a wide variety of programs and activities. These initiatives are designed to encourage students to pursue high levels of academic achievement in high school and help prepare them for success in college and beyond.

The Advanced Placement Summer Institutes prepare high school and middle school teachers to teach Advanced Placement and Pre-AP courses. The intensive weeklong training sessions are sponsored by the University in cooperation with the College Board.

Advanced Placement Summer Institutes

General Information

The University of Texas-Pan American invites entering freshmen and transfer students to participate in a New Student Orientation Program. The orientation program is held annually during late spring/early summer for both summer sessions and fall semester. A fee of $60 is assessed to each new student participating in the orientation program. The $60 one-time non-refundable fee will be charged to defray the costs associated with new student orientation, preregistration and other activities. Students must pay the fee prior to attending their orientation.

Testing Services

Testing Services offers numerous national and institutional examinations such as the ACT/ACT-Residual, Scholastic Assessment Test (SAT), Graduate Record Exam (GRE), Graduate Management Admissions Test (GMAT), Law School Admissions Test (LSAT), Medical College Admission Test (MCAT), The Higher Education Assessment - THEA/THEA (QT), ACCUPLACER, Test of English as a Foreign Language (TOEFL). Institutional TOEFL, College Level Examination Program (CLEP), TExES/ExCET and TExES representative forms and a number of others.

Concurrent Enrollment

The Concurrent Enrollment Program allows outstanding high school juniors and seniors to enroll in University courses and receive college credit. Concurrent Enrollment opportunities are offered through both distance learning and on-campus attendance programs. The High School to University Program makes tuition incentives available to qualified students from participating school districts.

New Student Orientation

All entering freshmen and transfer students are required to participate in a New Student Orientation Program. The orientation program, conducted by Admissions and New Student Services, is a retention initiative designed to connect new students to UTPA.

The purpose of the required orientation is to introduce new students and their family members to the University's personnel and operations. During orientation, new students and their families receive a campus tour and are introduced to faculty, academic advisors, and support staff. New students are also provided with curricular and degree requirement information and the opportunity to register for classes. Students also receive information about student life, cultural and athletic events, and information regarding accessing student services such as tutoring, student health, counseling, and campus events.

UTPA recognizes that family plays a strong role in the success of students. An additional parent orientation is also part of the orientation program. By allowing family members to participate in the orientation program, students become acclimated to their new environment more quickly.

New Student Orientation Programs are held during late fall for spring semester enrollment and in late spring and early summer for both summer sessions and fall semester enrollment. A fee of $60 is assessed to each new student participating in the orientation program. The $60 one-time non-refundable fee will be charged to defray the costs associated with new student orientation, preregistration and other activities. Students must pay the fee prior to attending their orientation.

Empowerment Zone: Disability Services

The Disability Services office exists to ensure that students with disabilities are able to participate in the full range of college experiences. The goal is to promote optimal development and achievement in all students while fostering independence and self-advocacy. In addition, the staff works to promote an environment that is free of physical and attitudinal barriers.

Students with disabilities (including temporary disabilities) are encouraged to contact Disability Services for a confidential discussion of their individual needs for academic accommodation. It is the policy of UT Pan American to provide flexible and individualized accommodation to students with documented disabilities that may affect their ability to fully participate in course activities or to meet course requirements. To receive accommodation services, students must be registered with Disability Services, located at University Center, Room 322, phone: (956) 665-7005 (video phone (956) 683-6003/1-877-570-7645) or disabilityservices@utpa.edu. For more information about the services offered, visit www.utpa.edu/disability.

Student Health Services

Student Health Services is here to meet the health care needs of our students so they can focus on their studies. UTPA students pay a Medical Service Fee that allows them to be seen at the clinic as often as needed. The office visits are free of charge as are most educational services. There are low-cost charges for medicines, supplies and any needed lab tests.

The Student Health Clinic offers the same types of services available from the student’s family doctor and much more. Services include general medical care as well as specialty...
clinics in women’s wellness, skin care and STD screening. Also available are routine immunizations and tuberculosis (TB) testing required by many educational programs at UTPA. The Class D pharmacy can fill most prescriptions written in the clinic and carries a selection of over-the-counter items.

Student Health Services is located at 613 North Sugar Road adjacent to the Wellness and Recreational Sports Complex. Students are seen on a limited walk-in basis but will spend less time waiting and be allowed to choose their health care provider if they call ahead for an appointment at (956) 665-2511.

Student Health Services is accredited by the Accreditation Association for Ambulatory Health Care (AAAHC). UTPA has the distinguished honor to be the first in the UT System to hold the AAAHC accreditation. There are currently only six college health facilities accredited in the state of Texas.

**Services Offered**

**Eligibility Payments:**
Registered students pay a Medical Service Fee each semester, which entitles them to a wide variety of Student Health Services. With a validated UTPA ID, they are entitled to office visits to see a health care provider as many times per semester as they need with no office visit charge. There are charges for many services and procedures to diagnose and treat illnesses and injuries, such as laboratory and pharmacy services, but these charges are much lower than those for comparable services provided elsewhere. Cash, check and most credit cards can be used to pay for services rendered. Payment arrangements are also available.

**General Medicine:**
Students with common medical problems are diagnosed and treated on a limited walk-in basis; however, appointments are preferred and necessary for students requesting elective procedures. Referrals to outside providers are made when necessary.

**Physical Exams:**
UTPA students requiring a physical exam prior to admittance to a school program can have a physical exam done at Student Health Services for a nominal fee. Call Student Health Services to schedule an appointment.

**Pharmacy:**
A fully licensed Class D pharmacy is conveniently available. The pharmacy carries both prescription and over-the-counter medications. The costs of medications are greatly reduced compared to retail prices.

**Laboratory:**
A full-service, economical lab is equipped to do routine procedures as well as specimen collections for more sophisticated procedures that must be sent to a reference lab for testing.

**Women Wellness Clinics:**
These services include Pap smears, family planning education and counseling, treatment of sexually transmitted diseases, pregnancy testing, and other women’s health issues.

**HIV Testing:**
Free confidential HIV testing and counseling is available weekly. Call for scheduled days.

**Other Services:**
Also available are health education resources, nutritional counseling, vision, weight, and blood pressure screenings.

**Important Information about Bacterial Meningitis**

The 77th Texas Legislature (2001) required all public institutions of higher education in Texas to notify all new students about bacterial meningitis (Chapter 51, Education Code, Section 51.9191; Chapter 38, Education Code, Section 38.0025).

This information is being provided to all new college students in the state of Texas. Bacterial meningitis is a serious, potentially deadly disease that can progress extremely fast, so take utmost caution. It is an inflammation of the membranes that surround the brain and spinal cord. The bacteria that cause meningitis can also infect the blood. This disease strikes about 3,000 Americans each year, including 100-125 on college campuses, leading to 5-15 deaths among college students every year. There is a treatment, but those who survive may develop severe health problems or disabilities.

**WHAT ARE THE SYMPTOMS?**
- High fever
- Severe headache
- Rash or purple patches on skin
- Vomiting
- Light sensitivity
- Stiff neck
- Confusion and sleepiness
- Nausea
- Lethargy
- Seizures

There may be a rash of tiny, red-purple spots caused by bleeding under the skin. These can occur anywhere on the body. The more symptoms experienced, the higher the risk. Seek immediate medical attention if these symptoms should occur.

**How is Bacterial Meningitis Diagnosed?**

- Diagnosis is made by a medical provider and is usually based on a combination of clinical symptoms and laboratory results from spinal fluid and blood tests
General Information

• Early diagnosis and treatment can greatly improve the likelihood of recovery.

How is it Transmitted?

• The disease is transmitted when people exchange saliva (such as by kissing, or by sharing drinking containers, utensils, cigarettes, toothbrushes, etc.) or come in contact with respiratory or throat secretions.

How do you increase your risk of getting bacterial meningitis?

• Exposure to saliva by sharing cigarettes, water bottles, eating utensils, food, kissing, etc.
• Living in close conditions (such as sharing a room/suite in a dorm or group home).

What are the possible consequences of the disease?

• Death (in 8 to 24 hours from perfectly well to dead
• Permanent brain damage
• Kidney failure
• Learning disability
• Hearing loss, blindness
• Limb damage (fingers, toes, arms, legs) that requires amputation
• Gangrene
• Coma
• Convulsions

Can the disease be treated?

Antibiotic treatment, if received early, can save lives and chances of recovery are increased.

However, permanent disability or death can still occur.

Vaccinations are available and should be considered for:

• Those living in close quarters

• College students 25 years old or younger
• Vaccinations are effective against 4 of the 5 most common bacterial types that cause 70% of the disease in the U.S. (but does not protect against all types of meningitis).
• Vaccinations take 7-10 days to become effective, with protection lasting 3-5 years.
• The cost of vaccine varies, so check with your health care provider.
• The vaccination is very safe. Most common side effects are redness and minor pain at injection site for up to two days.
• Contact Student Health Services at (956) 665-2511 for details about vaccination.

How can I find out more information?

• Contact your own health care provider.
• Contact Student Health Services, located at 613 North Sugar Road, Edinburg, Texas, 78539.
• Contact the regional Texas Department of Health office at:

  HEALTH SERVICE REGION 11-Harlingen
  601 W. Sesame Drive, Harlingen, TX 78550,
  Mail Code 1907
  Phone: (956) 423-0130
  FAX: (956) 444-3298

Contact websites:

CDC Disease Information
http://www.cdc.gov/ncidod/dbmd/diseaseinfo/
American College Health Association
http://www.acha.org/

Communicable Diseases

Communicable diseases include, but are not limited to, measles, influenza, viral hepatitis-A (infectious hepatitis), viral hepatitis-B (serum hepatitis), Human Immunodeficiency Virus (HIV infection), Acquired Immune Deficiency Syndrome (AIDS), leprosy, Methicillin-resistant Staphylococcus aureus (MRSA), and tuberculosis. Educational pamphlets on HIV infection developed by the Texas Department of Health are available to students at Student Health Services, 613 North Sugar Road.

Students with communicable diseases, whether acute or chronic, are subject to the following provisions:

1. The information that a student has a communicable disease shall be confirmed when the student brings the information to the attention of The University of Texas-Pan American and the student confirms the information when asked. If the University president or designee has reasonable cause to believe that a student has a communicable disease, the student may be asked to submit to a college-funded medical examination (a) to determine whether the student’s physical condition interferes with participation in an educational program or activity, or poses a threat to self or others, or (b) a test or medical examination is necessary to manage accidental exposure to blood or other bodily fluids or airborne pathogens (but only when the test or examination is conducted in accordance with the Communicable Disease Prevention and Control Act (Article 4419(b)-1, Section 902(d) of Vernon’s Annotated Civil Statutes of the State of Texas).

2. The results of such examination shall be kept confidential in accordance with the Communicable Disease Prevention and Control Act, (Article 4419(b)-1, Vernon’s Annotated Civil Statutes of the State of Texas), except that the president or designee shall be informed of restrictions and necessary accommodations. Health care and safety personnel may also be informed to the extent appropriate if
Immunizations

Immunization is required for admission to certain programs of study at The University of Texas-Pan American unless the student submits to the admitting official at least one of the following:

- An affidavit or a certificate signed by the student’s physician (M.D. or D.O.) who is duly registered and licensed to practice medicine in the United States and who has examined the student.
- An affidavit signed by the student or, if a minor, the student’s parent or guardian stating that the student declines immunization for reasons of conscience, including a religious belief.
- Proof that he or she is currently up to date with required immunizations.

The Texas Board of Health immunization requirements apply to all students enrolled in health-related courses that will involve direct patient contact in medical or dental care facilities and to veterinary medical students whose coursework involves direct contact with animals or animal remains as required by the Texas Board of Health, Education Code 51.933; 25 TAC 97.64. The following immunizations are required for these students:

- Tetanus/diphtheria: One dose of vaccine within the past 10 years.
- Hepatitis B: At least two doses of the three-dose series. The third dose must be received before the student completes the first professional semester. Students may also show serologic confirmation of immunity to the hepatitis B virus via appropriate documentation.
- Varicella: One dose, for students who received this vaccine prior to 13 years of age, or two doses, for students who were not vaccinated before their 13th birthday. A history of varicella illness (chicken pox), validated by serologic confirmation of immunity, is acceptable in lieu of vaccination.

New Immunization Requirement for Students

Senate Bill 1107 (SB1107) was passed during the 2011 legislative session and signed into law. For incoming students to UT Pan American, this new law, effective January 1, 2012, requires that all first-time students under 30 years of age attending an institution of higher education in the state of Texas, including transfer students, show evidence of having received the Meningococcal Meningitis Vaccination no more than 5 years and no less than 10 days prior to the start of the semester. The law also allows for exemptions on medical grounds or reasons of conscience, including religious belief.

Students requesting a medical or conscientious exemption must return the Meningococcal Meningitis Vaccination Requirement Form along with one of the following documents:

- Immunization Waiver received from the Texas Department of State Health Services signed by the student stating that he/she declines to have the required vaccination based on reasons of conscience, which include religious beliefs. Please note this document must be notarized and can take a minimum of two weeks to be delivered to the student; therefore, it is recommended that it be requested early enough to allow the student to complete and notarize prior to submission.

- An affidavit or certificate signed by a physician licensed to practice medicine, stating that the physician is of the opinion that the required vaccination would be injurious to the student’s health and well being. The affidavit or certificate should also provide the physician’s name, address, the state where licensed and license number.

Students who fail to satisfy this requirement will not be able to attend the University. Failure to submit documentation of the required vaccination does not alleviate the student’s responsibility under any contractual relationship with the University.

The Meningococcal Meningitis Vaccination Requirement Form and documentation can be mailed, faxed, e-mailed or hand delivered to the Office of Registrar. The Immunization Waiver received from the Texas Department of State Health Services must be mailed or hand delivered.

For questions about the vaccination requirement, please contact:

The University of Texas-Pan American
Office of the Registrar
Student Services Building 1.150
1201 W. University Drive
Edinburg, TX 78539
Phone: (956) 665-2999
General Information

Empowerment Zone: Substance Abuse Services

Substance Abuse Services was established to meet the needs of all UT Pan American students who may have a substance abuse concern/issue or who may be dealing with a related concern. The Drug-Free Schools and Communities Act Amendments of 1989, Public Law 101-226, require that each campus implement a program to address substance abuse issues.

Substance Abuse Services is committed to all UT Pan American students by providing an environment for education, exploration and personal growth. The Substance Abuse Services staff maintains a dedication to the overall wellness of each student on campus. Substance Abuse Services strives to fulfill its responsibilities by providing a variety of different services to the student body. Some of these services include, but are not limited to, counseling, crisis intervention and consultations. In addition, Substance Abuse Services has books, videos and literature available to faculty, staff and students.

The Substance Abuse Services staff is fully trained and licensed in chemical dependency and related issues. All of the services offered are strictly confidential, and services are free to all students.

The program offers individual counseling for students who are experiencing a substance abuse problem or who may be in recovery. Individual counseling is also available for related concerns, such as codependency or ACOA (Adult Children of Alcoholics) issues. All individual counseling is by appointment. Substance Abuse Services also provides group counseling. The program offers a recovery group and a group for students dealing with loved ones who have a substance abuse problem. Groups are run once a week at designated times. The staff is available for referrals, consultations, group presentations and crisis intervention services.

Substance Abuse Services is located in the University Center, Room 320, telephone: (956) 665-5375.

Student Publications

Students at UT Pan American are invited to contribute and work on the staff of student publications. Writing, editing, filming, and photography usually start before the opening of classes in the fall semester. Some positions are paid, but volunteer workers also are sought as reporters, copyeditors, and headline writers. The student-run newspaper The Pan American and Panorama magazine are headquartered in the Department of Communication in the Communication Arts and Sciences Building, Room 170, telephone: (956) 665-2541, fax: (956) 665-7122. The student-run television and radio programming are transmitted through the web-based Bronc Radio/TV. Both of these operations are located in the Communication TV/Radio Studios, telephone: (956) 665-7470 (Bronc Radio) and (956) 665-3583 (Bronc TV). All publications and programming can be accessed through the Department of Communication’s website at www.utpa.edu/communication.

Clubs and Organizations

A variety of clubs and organizations offer students friendship, relationships with people of similar interests, avenues for organized and meaningful service and opportunities for self-development. Because new organizations are formed each year, a complete updated list and assistance in starting up new organizations is available in the Office of Student Development, University Center, Room 205, telephone: (956) 665-2660 or visit www.osd.utpa.edu.

Academic Organizations

Academic student organizations are designed to further develop academic and career interests in an informal setting. In these organizations, students may compete in local or national competitions in their academic area and attend conferences that allow them to network with professionals in their field. Academic student organizations are based on subject-matter specialties and each college has a variety of organizations to choose from that range from the American Sign Language Club to the Association of Clinical Laboratory Sciences.

Student Government Association

The Student Government Association (SGA) is dedicated to providing an outlet for the student body to express concerns, questions, and suggestions about the institution. SGA also assists with the facilitation of the more than 30 campus committees that affect the lives of the student community.

University Program Board

The University Program Board is a student-run organization that provides diverse programming funded by student fees. UPB sponsors various events throughout the year including concerts, comedians, coffeehouses, lectures, cultural celebrations, bus trips and special events. By utilizing the expertise of seven student committee chairs, UPB ensures that each experience provides an opportunity for networking, leadership development, strong friendships and lasting memories.

Fraternity and Sorority Life

Social fraternities and sororities have been a vital part of the University since the 1960s. They provide a small group experience that enhances the co-curricular life of every Greek student through academic, social, educational, leadership and community service activities. There are both national and international fraternities and sororities at UTPA with diverse backgrounds and histories.

Honor Societies

Honorary organizations on campus give special recognition to students who have achieved outstanding academic success. Some honor societies recognize scholarship in specific curricula, while other student honor societies recognize scholarship at various stages of the student’s development. Some honor societies reward those who have excelled in several areas and select members because of their
academic superiority as well as the leadership they have demonstrated on campus or in the community.

**Cultural Organizations**  
Cultural student organizations are tied together through their focus on racial, ethnic and cultural celebration and reflect and affirm the diversity of all UTPA students.

**Faith/Spiritual Organizations**  
Faith and spiritual organizations provide a venue for students to affirm, unite, and explore spiritual beliefs and values. Many organizations host prayer, meditation, praise and worship sessions as well mission trips and service in the community.

**Political Organizations**  
Political organizations include political and social action-based groups.

**Special Interest Organizations**  
Special interest organizations are student organizations that reflect a wide range of interests and include groups that support artistic experience, hobbies and activities.

**Recreational Organizations**  
There are several organizations whose members focus primarily on a sport, outdoor recreation or wellness endeavor. Recreation can be as personally driven as yoga or as physically driven as running, swimming or soccer.

**Service Organizations**  
There are several different student service/advocacy specific organizations, each unique in its membership and service-area focus. Yet, what unifies all of the organizations is their commitment to engaging students in positive social change at UTPA and the surrounding community.

---

**Residence Halls**

**Contract Policy**  
Housing at the residence halls is available for UTPA students, faculty, staff and participants of University-sponsored programs. Individuals seeking housing accommodations at the University must sign a Residence Life Housing Reservation Agreement on an academic year basis. Space in the residence halls is reserved on a first-come, first-served basis. Residents cancelling their reservation agreement are subject to additional fees. Please see agreement for details and deadlines.

**Housing Dining Services**  
The University Cafeteria, part of the University Center complex, is conveniently located southeast of the residence halls. All residents must purchase the minimum required meal plan per semester, which is included in the room and board fee.

**Room Furnishings**  
Each residence hall is designed in suite-style configurations. Two adjacent rooms and a bathroom comprise one suite. Residents are responsible for providing their own bed linen, blankets, towels and toiletries. Room contents include:

- Two chests of drawers
- Two twin beds
- Two closets
- Two desks and chairs
- Window blinds
- Direct TV cable service
- Central air and heat
- Ethernet connections

**Residence Hall Services**  
For the student’s convenience, the UTPA Residence Halls provide the following in-house services:

- Study rooms
- Computer labs with network extension
- Laundry facilities
- Vending machines
General Information

- Recreation room (with pool table, foosball, ping pong, and cable television)
- Lounges
- Free resident parking

Safety and Security
Providing a safe living and learning environment for University residents is a priority for Residence Life. To that end, the staff coordinates various safety programs for residents throughout the year, highlighting topics such as securing personal belongings, personal safety on and off campus, and the use of University Police escorts. In addition, trained resident and desk assistants are available to assist residents when necessary. All students residing on campus are required to designate a person of confidential contact as part of our Missing Student Notification Policy. This person will be identified on the Residence Hall Reservation Agreement and can be changed by written request to the Office of Residence Life at anytime.

Bronc Village Apartments
Housing at Bronc Village is available for enrolled eligible UTPA students and current faculty and staff only. The only exception to this policy relates to children and spouses of current UTPA students, faculty, or staff. Individuals seeking housing accommodations at Bronc Village must sign a Residence Life Housing Reservation Agreement. Space in Bronc Village is reserved on a first-come, first-served basis.

In order to be eligible for residency at Bronc Village, students must meet eligibility requirements based upon age and credit hours earned.

Appropriate documentation must be presented in the case of married or family housing if the spouse and/or children are not current UTPA students, or faculty or staff members.

Dining Services
All Bronc Village residents must purchase at least the minimum declining balance of $300 Dining Dollars for each fall and spring semester; the meal credit can be used at the University Cafeteria, Student Union Food Court, and for food items at the Student Union Convenience Store.

Room Furnishings
Bronc Village rooms and living room areas are furnished for the convenience and comfort of the residents. Room contents (per resident) include:
- One twin bed
- One chest of drawers
- One built-in closet
- One desk and chair
- Individual network connections
- Sofa
- Chair
- Multi-use cube
- End table
- Dishwasher
- Conventional microwave
- Stove/oven

- Full-size refrigerator
- Washer/dryer units

Bronc Village Services
- Mail delivery
- Garbage collection
- Free resident parking

Immunization Requirement for Residents
Incoming students must comply with House Bill 4189 (HB4189), which was passed during the 2009 legislative session. Effective January 1, 2010, all first-time students attending an institution of higher education in the state of Texas, including transfer students, who plan to reside in University housing must show evidence of having received the Meningococcal Meningitis Vaccination at least 10 days prior to check-in. The law also allows for exemptions on medical grounds or reasons of conscience, including religious belief.

Students requesting a medical or conscientious exemption must return the Meningococcal Meningitis Vaccination Requirement Form along with one of the following documents:
- Immunization Waiver received from the Texas Department of State Health Services signed by the student stating that he/she declines to have the required vaccination based on reasons of conscience, which include religious beliefs. Please note this document must be notarized and can take a minimum of two weeks to be delivered to the student; therefore, it is recommended that it be requested early enough to allow the student to complete and notarize prior to submission.
- An affidavit or certificate signed by a physician licensed to practice medicine, stating that the physician is of the opinion that the required vaccination would be injurious to the student’s health and well being. The affidavit or certificate should also provide the physician’s name, address, the state where licensed, and license number.

Students who fail to satisfy this requirement you will not be able to check in to University housing. Failure to submit documentation of the required vaccination does not alleviate the student’s responsibility under any contractual relationship with Residence Life.

The Meningococcal Meningitis Vaccination Requirement Form and documentation can be mailed, faxed, e-mailed or hand delivered to the Office of Residence Life. The Immunization Waiver received from the Texas Department of State Health Services must be mailed or hand delivered.
How to Apply

To reserve a room or apartment complete a Residence Hall Reservation Agreement and return it with a deposit to:

The University of Texas-Pan American
Office of Residence Life
1201 W. University Drive
Edinburg, TX 78539-2999
Web: www.utpa.edu/reslife

The deposit is held by UTPA for as long as the student is housed in the residence halls and is transferable from semester to semester. Deposits are partially refundable and returned within four to six weeks upon official check out or cancellation of the Residence Hall Reservation Agreement provided that all deadlines are met, procedures are followed, no damage to the facility is recorded and no extra room cleaning is required.

Department of College Access and Support Programs

The Department of College Access and Support Programs (CASP) serves select populations of students traditionally underrepresented in higher education by promoting the completion of secondary education, facilitating the acquisition of skills for academic success and providing postsecondary education access and transition services. CASP is located at Emilia Schunior Ramirez Hall, Room 1.101, telephone: (956) 665-2522.

The following programs comprise CASP:

- The College Assistance Migrant Program (CAMP) is a federally funded program designed to meet the special educational needs of migrant and seasonal farm workers and their children in pursuing higher education. CAMP provides outreach, recruitment, academic, supportive and financial assistance to migrant and seasonal farm workers to help them successfully complete the first academic year of college. Services include academic advising, monthly stipend, tutoring, counseling, career development, life management skills development, educational/cultural trips, and follow-up services. CAMP is located at Emilia Schunior Ramirez Hall, Room 1.113, telephone: (956) 665-5333.

- Educational Talent Search (ETS) is a federally funded early intervention outreach program, which serves first-generation college potential and/or low-income participants in grades sixth through 12th. The program's objective is to assist participants in the acquisition of skills that will prepare them for entry into the college of their choice. Participants receive a variety of services which include, but are not limited to, counseling, academic advisement, assistance with financial aid and admissions, study skills, career exploration, interest inventories, visits to postsecondary institutions and educational/cultural trips. ETS can be found at the UTPA Annex, Room 182, telephone: (956) 665-7590.

- The High School Equivalency Program (HEP) is a federally funded program offering preparatory classes, testing and placement in employment or postsecondary education for migrant or seasonal farm workers who dropped out of high school and wish to acquire a GED. Services include academic advising, monthly stipend, tutoring, personal counseling, career development, life management skills development and educational/cultural trips. HEP is located at Emilia Schunior Ramirez Hall, Room 2.207, telephone: (956) 665-2521.

- The Texas Prefreshman Engineering Program (TexPREP) identifies high achieving middle and high school students with the potential and interest in becoming engineers and scientists to guide them toward acquiring the knowledge and skills required for success in their professional aspirations. The program is housed at Emilia Schunior Ramirez Hall, Room 1.101, telephone: (956) 665-3634.

- Upward Bound is a federally funded academic enhancement program designed to assist first-generation college potential and/or low-income high school students in developing their potential for success in a postsecondary institution through classroom instruction during the academic year and a six-week summer component on the UTPA campus. Tutoring is offered at host schools, and students are also eligible for stipends. The program is located at Emilia Schunior Ramirez Hall, Room 2.202, telephone: (956) 665-2596.

- The Upward Bound Math and Science (UBMS) Program is a federally funded academic enhancement program designed to encourage first-generation college potential and/or low-income high school students to pursue studies and careers in mathematics, science and engineering through classroom instruction and research mentorships under faculty and graduate students during a six-week summer component on the UTPA campus, supplemented by advisement and college success skills sessions during the academic year. The program is housed in the Lamar Building, Room 7, telephone: (956) 665-8703.

- The Valley Outreach Center (VOC) provides outreach services in support of the “Closing the Gaps” and “College for Texans” initiatives. Efforts are clustered around the following principal services:
  - Mother Daughter Program provides an intervention program for young women in 7th-8th grades, and their mothers. The program encourages and supports completion of high school and the pursuit of a higher education, while preparing students and mothers to reach out to peers with college access information through participation in High School GO Centers.
  - UTPA GO Center Resource Center and G-Force offer support and training services to Rio Grande Valley high
General Information

school and community-based GO Centers, operates a GO Center for use by community members, and facilitates services of the UTPA Collegiate G-Force at schools and other venues in the community.

University Outreach Programs

Academic Centers

Unless otherwise noted, all centers are located on the UTPA campus, 1201 W. University Drive, Edinburg, Texas 78539-2999.

Border Health Office

The mission of the Border Health Office is to foster collaborative health education, health services and health research leading to improved health for Texans living along the Texas-Mexico border. It was created in 1990 in response to recommendations from a task force of representatives from health-related UT System institutions and other University, state and federal agencies that continue to guide the office’s activities. The Border Health Office has collaborated with community-based agencies to promote health services and education, providing technical assistance to communities and institutions, sponsoring health education efforts, including conferences and workshops, and most recently establishing a Diabetes Registry.

Border Health Office
UTPA Annex, 2412 S. Closner, Edinburg, TX 78539-2999
Phone: (956) 665-3687
E-mail: tmbhco@utpa.edu
Web: www.utpa.edu/bho

Center for Bilingual Studies

The Center for Bilingual Studies is an intercollege commitment by the College of Education, College of Social and Behavioral Sciences, and College of Arts and Humanities, and the University Library that works collaboratively for the purpose of addressing the critical issues of bilingual education as it impacts children, schools, families, and communities of the Rio Grande Valley and the surrounding region.

College of Education, Dean’s Office EDUC 3102
Phone: (956) 665-2530

Center for Border Economic Studies

The Center for Border Economic Studies is a public policy research unit dedicated to the study of problems unique to the U.S.-Mexico border. Its research efforts are directed at publishing working papers and technical reports that encompass a wide array of economic and socioeconomic issues. CBEST-affiliated scholars conduct policy-oriented research in four key areas of importance to the border region: (1) regional economic development and trade; (2) labor market and immigration; (3) health and environmental policy; and (4) information technology. The Center also publishes a quarterly newsletter, border business briefs, of economic indicators in the Lower Rio Grande Valley as well as an annual forecast of these indicators.

Center for Research in Nanotechnology and Materials Sciences

The vision for the Center for Research in Nanotechnology and Materials Sciences is to create an integrated multidisciplinary environment (science and engineering) for research, education and outreach at UTPA. The Center pools the talent and expertise from various disciplines within the science and engineering departments into a coherent materials science center and focuses on developing a predictive level of understanding on the development of polymeric and nanoparticle-based material sand devices. It strives to enhance current activities to encourage and motivate students to pursue graduate school while pursuing state-of-the-art research and to promote faculty research careers to attract external funding to UTPA.

Coastal Studies Laboratory

The Coastal Studies Laboratory (CSL), established as a marine biology laboratory in 1973 in Isla Blanca Park on South Padre Island, was reorganized and expanded in 1985 with a concentration on University education, public education, and coastal research. The CSL’s public display contains representative species of fauna and flora from the immediate area of the Lower Laguna Madre and South Padre Island. The CSL also supports classes and field trips from the University and other schools. Many universities in Texas and surrounding states use the CSL facilities for field trips each year. A number of marine-oriented courses are offered at the Lab.

Phone: (956) 761-2644
E-mail: coastal@utpa.edu
Web: www.utpa.edu/dept/csl/csl.html

English Language Institute

The English Language Institute (ELI) provides English language instruction to students, professionals and other individuals whose first language is not English. It also enhances ESL students’ abilities to participate successfully in an American cultural environment and academically prepares students to pursue a degree at an American university. The English Language Institute has offered non-credit intensive and semi-intensive instructional English programs to nonnative speakers from the community and abroad since 1972.

English Language Institute
Lamar Building, Rm. 1
Phone: (956) 665-2133
E-mail: eli@utpa.edu
Web: http://www.utpa.edu/eli

Institute for Population Health Policy

The Institute for Population Health Policy (IPHP) coordinates health policy research initiatives and provides resources for policy-oriented research to faculty and students at UTPA. The IPHP facilitates population health policy research on campus and disseminates research activities to both academic and health policy circles. The long-term goal of the institute’s research program is to improve health status and reduce health disparities. The institute strives to become a national leader in population health, health economics and health services research. The IPHP has collaborative partnerships with several universities with an international reputation in health care and health policy research.

Institute for Population Health Policy
International Trade and Technology Bldg., Rm. 1.404N
Phone: (956) 665-5306

International Journal of Mathematics and Mathematical Sciences

The main editorial office of the International Journal of Mathematics and Mathematical Sciences (IJMMS) is located in the Department of Mathematics at The University of Texas-Pan American. This is a refereed weekly journal devoted to publication of original research papers, research notes, and research expository and survey articles, with emphasis on unsolved problems and open questions in mathematics and mathematical sciences. All areas listed on the cover of mathematical reviews — such as Pure and Applied Mathematics, Mathematical Physics, Theoretical Mechanics, Probability and Mathematical Statistics and Mathematical Biology — are included within the scope of the journal. Dr. Lokenath Debnath, professor and chair of the Department of Mathematics, is the founding managing editor of IJMMS. The international journal will always carry out not only research, knowledge, and information, but also the name and therefore, the prestige of The University of Texas-Pan American.

Department of Mathematics

Raúl Yzaguirre Policy Institute

The Raúl Yzaguirre Policy Institute (RYPI) is the first national Latino leadership and policy institute along the U.S.-Mexico border. The mission of RYPI is to create a world-class center for scholarship research in areas affecting and impacting Hispanics and to serve as a catalyst in the constructive formation of tomorrow’s Hispanic leaders. The main goals of the institute include (1) training Latino leaders at all levels and exposing all leaders to Latino issues and (2) researching regional, national and international issues that impact or are impacted by Latinos. The policy research program collects and disseminates information pertaining to the social, political and economic forces affecting Hispanics in America. Researchers analyze the effects of government actions relating to public policy including their causes and consequences.

Office of Graduate Studies, Rm. AB 116
Phone: (956) 665-3661
Web: www.utpa.edu/yzaguirre

South Texas Border Health Disparities Center

The South Texas Border Health Disparities Center is dedicated to the advancement of knowledge on health disparities by enhancing the institutional capacity to conduct health disparities research addressing issues affecting the largely Hispanic population along the U.S.-Mexico border. The Center was established in September 2008 by a grant from U.S. Department of Health and Human Services.

South Texas Border Health Disparities Center
International Trade & Technology Bldg., Rm. 1.404N
Phone: (956) 665-7937
Web: www.utpa.edu/health
Speech and Hearing Center

The Speech and Hearing Center’s Speech-Language and Audiology clinics provide comprehensive evaluations for children, college students and older adults. The Speech-Language Clinic evaluates speech, language, feeding, swallowing, and related behaviors. The Audiology Clinic evaluates hearing and provides hearing aid fittings. Clients may be referred to other treatment centers in the area or recommended for therapy at the Speech and Hearing Center. Therapy services are provided in the Speech and Hearing Center on a limited basis. The clinic treats communication disorders related to aphasia, fluency, developmental delay, voice, dysphagia, hearing impairment, and others. Evaluation and therapy services are available in English or Spanish. The center also provides accent reduction classes for individuals learning American English as a second language.

Speech and Hearing Center
Health Sciences and Human Services West Bldg., Rm. 1.112
Phone: (956) 665-3587

Statistical Consulting Center

The Statistical Consulting Center is an educational and service center within the Department of Mathematics at UTPA that provides training to students, assists individuals in practical use of statistics, participates in research projects by providing high quality statistical advice and collaborates with researchers in interdisciplinary research activities. The center provides statistical consulting advice on design of experiments, data management, statistical modeling, and statistical analysis of experiments and studies. Its customers include students, faculty and research groups from UTPA, and researchers from academic and non-academic organizations in the Rio Grande Valley.

Department of Mathematics
Phone: (956) 665-3452

Texas Manufacturing Assistance Center

The Texas Manufacturing Assistance Center (TMAC) exists to enhance the competitive position of the state’s manufacturing sector. TMAC’s manufacturing professionals work with a wide range of industrial firms delivering training, providing technical assistance, and implementing best business practices. A particular emphasis is placed on the needs of small to mid-sized manufacturers. Focus areas include lean manufacturing and lean office principles, strategic management, quality systems, environment and safety. TMAC is an affiliate of the Manufacturing Extension Partnership (MEP) program of National Institute of Standards and Technology (NIST), which provides federal funding. TMAC consists of seven partner institutions delivering services statewide.

UTPA Press

Established in 1983 as an extension of the teaching mission of Pan American University, the Press serves both the academic community and the community at large. Through publication of research and materials of particular interest to the Southwestern region, bilingual and bicultural studies, and Latin American business, economic, and cultural topics, the Press emphasizes research unique to the University’s geographic, demographic, and cultural heritage. In addition to publishing full-length manuscripts, the Press serves as publisher/distributor to monographs, collections, and other materials chosen and edited with the various divisions of the University.

Valley Markets and Tourism Research Center

The Valley Markets and Tourism Research Center in the College of Business Administration addresses social, cultural, environmental and economic issues related to the tourism industry locally, regionally and nationally. Tourism studies targeted by the center include senior travelers or “Winter Texans,” Mexican national visitors to the United States, spring breakers at South Padre Island, ecotourism, historic tourism, recreational tourism, and local residents’ attitudes and reactions toward tourism. The center promotes tourism to Texas, particularly South Texas, and assesses the economic impact of tourism on the regions. It also provides an opportunity for students to learn applied research methodologies and to become involved in the research activities of the center.

Community Engagement

The mission of the Department of Community Engagement is to enhance UTPA's engagement with the community to meet challenges and maximize opportunities in South Texas. Community Engagement, located at the International Trade and Technology Building and the UTPA Administrative Annex Building, consists of three areas: 1) Community and Economic Development, 2) Business Development and Innovation, and 3) Rural Enterprise Development. Each area, listed below with contact information, includes a number of centers, projects, and initiatives.

Community and Economic Development is located at the International Trade and Technology Building, 1201 W. University, Edinburg, and can be reached by calling (956) 665-3361, or visiting the respective websites.

Business Development and Innovation is located at the UTPA Annex, AASA 160, 2412 S. Closner, Edinburg, and can be reached by calling (956) 665-7535 or 665-7555, or visiting the respective websites.

Rural Enterprise Development is located at the UTPA Annex, AASA 160, 2412 S. Closner, Edinburg, and can be reached by calling (956) 665-7555 or 665-7535, or visiting the respective websites.

Community and Economic Development (CED)
www.coserve.org

Data and Information System Center (DISC): Serves the southernmost 19 counties of Texas by providing research, data, geographic information systems, economic impact analysis, and mapping services to the community. http://www.coserve.org/disc/

Southwest Border Nonprofit Resource Center (SBNRC): Builds capacity for sustainable, long-term development of nonprofit organizations through technical skills training, funding sources research, and philanthropic organizations’ networks. http://ce.utpa.edu/sbnrc

Strengthening Together Initiative (STI): A HHS funded project that builds the capacity of nonprofit organizations in Hidalgo and Starr counties through training, technical assistance, and grants to local nonprofits. http://ce.utpa.edu/sti/

Mobile Community Development Initiative (MCDI): Extends Community Engagement resources into South Texas communities through the use of a technologically advanced mobile unit to provide job readiness, financial literacy, housing, microenterprise, and nutrition/health training.

Hispanic Engineering, Science and Technology (HESTEC)
Program: Promotes science, technology, engineering, math careers, and education to South Texas students, teachers, and the community. HESTEC culminates in an annual weekend event that promotes STEM literacy. http://hestec.utpa.edu/

Festival of International Books and Arts (FESTIBA): An annual University event that celebrates the arts and humanities, encourages literacy, and broadens cultural awareness. http://coah.utpa.edu/festiba/

Business Development and Innovation (BDI)
www.utpa.edu/bdigroup

Small Business Development Center (SBDC): Provides managerial and technical assistance to small business owners and entrepreneurs through free, confidential, one-on-one business counseling, training, research, and business planning assistance. www.utpa.edu/sbdc

Project ASSIST: Assists small businesses along the Texas-Mexico border that are negatively impacted by NAFTA, with an emphasis on job creation and retention in South Texas. www.utpa.edu/bdigroup

Rio South Texas Regional Procurement Technical Assistance Center (PTAC): Provides procurement counseling, planning assistance, and training to business owners in a nine-county South Texas region to assist them in obtaining federal, state, local, and private contracts. www.utpa.edu/ptac

Veterans Business Outreach Center (VBOC): Assists in the creation, retention, and development of veteran-owned businesses across Texas and four surrounding states through online and on-site counseling and training seminars. www.utpa.edu/vboc

Rural Enterprise Development (RED) www.utpa.edu/red

Texas Rural Cooperative Center (TRCC): Provides training and technical assistance to rural cooperatives, cooperative members, and member businesses in Texas with an emphasis on rural cooperative development in the South Texas region. www.utpa.edu/trcc

Farm Ownership and Rural Growers Empowerment Project (Project FORGE): Provides outreach, training, and technical assistance to Hispanic producers of traditional crops in a 56-county border region area in Texas and New Mexico. www.utpa.edu/forge

Initiative for Child Nutrition through Agriculture (ICNA): Establishes nutrition gardens at public schools in South Texas and incorporates garden production into school lunch programs. www.utpa.edu/icna
General Information

**Begin Farmer Rancher Development (BFRD):** Provides training and assistance to beginning farmers and ranchers that are interested in directly marketing their agricultural produce to consumers through farmers markets, CSAs, and other direct-marketing techniques. www.utpa.edu/bfrd

**South-Central Initiative for Outreach and Assistance to Socially-Disadvantaged Farmers and Ranchers (OASDFR):** Assists Hispanic and Black/African-American farmers and ranchers through outreach, training, and technical assistance that emphasize participation in USDA programs. www.utpa.edu/scioasdfr

**South Texas Regional Rural Economic-Development Strategy (STRREDS):** Develops a comprehensive, regional rural-development strategy for the four-county Rio Grande Valley of South Texas. www.utpa.edu/strreds

---

Cultural Activities

**Art Department Exhibits**

The Charles and Dorothy Clark Gallery, located in the Communication Arts and Sciences Building (COAS), and the Fine Arts Complex, which also features a gallery, feature art exhibitions that are free and open to the public throughout the year. The art galleries are administered through the Department of Art. The office for the University Art Galleries is located in the Fine Arts Complex adjacent to the gallery. The gallery director may be reached at (956) 665-2655 or by e-mail at galleries@utpa.edu.

**Dance Companies**

UT Pan American Dance Ensemble: Founded in 1984, the Dance Ensemble is the only modern/contemporary dance company in the Rio Grande Valley. Membership in the company is open to all UT Pan American students and is determined by audition. The Dance Ensemble focuses on producing formal theatrical dance performances that maintain high artistic and production standards. The dance company office is located at the Health and Physical Education Building II, Room 110, or can be reached at (956) 665-2315.

UT Pan American Folkloric Dance Company: The UT Pan American Folkloric Dance Company, organized in 1970, has as its purpose the preservation and performance of the dance art of Mexico and Spain. During the performing season, the company presents numerous concerts for school children, the general public and private affairs throughout the University, community and state. Membership in the company is available through class audition. The dance company's office is located at the Health and Physical Education Building I, Room 110F, or can be reached at (956) 665-2230.

**Faculty Artist Series**

During the school year, the Department of Music presents a series of performances by faculty members in addition to student recitals. Included in these recitals are vocal and instrumental performances. For more information, call (956) 665-3471 or visit the office at Fine Arts Complex, Room 132.

**Musical Performances**

Performing for students and the public are the University Choir, Men's and Women's Choruses, the Concert Band, the Jazz Ensemble, the Salsa Band, the Brass Ensemble, the Woodwind Ensemble, the Trombone Ensemble, the Guitar Ensemble, the South Texas Chamber Orchestra, the UTPA Mariachi and the Valley Symphony Orchestra and Chorale. For more information, call (956) 665-3471.

**Albert L. Jeffers Theatre**

The Albert L. Jeffers Theatre produces seven to 10 full-length plays each year, including three to four plays in the summer during Pan American Summer Stock (PASS) and four to five plays in the fall and spring. The community can purchase individual tickets to each performance. Season subscriptions are also available.

University ID cardholders are permitted two free admissions per ID as space permits. Actors include University students, faculty and staff, along with community members. The Albert L. Jeffers Theatre seeks to present, within a four-year cycle, quality productions featuring examples from every major genre of dramatic literature. Performances for children and children's theatre classes are frequently offered. Student activity fees, donations, grants and other sources provide funding for the Albert L. Jeffers Theatre. The theatre is located in the Communication Arts and Sciences Building (COAS). The Box Office is located on the first floor of COAS and can be reached at (956) 665-3581.

**Public Use of Facilities**

The property, buildings or facilities owned or controlled by UT Pan American are not open for assembly, speech or other activities as are the public streets, sidewalks and parks. The responsibility of the UT System Board of Regents to operate and maintain an effective and efficient system of institutions of higher education requires that the time, place and manner of assembly, speech and other activities on the grounds and in the buildings and facilities of the UT System or component institutions be regulated.

No person, organization, group, association or corporation may use property, buildings or facilities owned or controlled by UT Pan American for any purpose other than in the course of the regular programs or activities related to the
role and mission of the University, unless authorized by the Regents Rules and Regulations. Any authorized use must be conducted in compliance with the provisions of the Regents Rules and Regulations, the University’s Handbook of Operating Procedures, and applicable federal, state and local laws and regulations.

Anyone from outside the University who is seeking information about scheduling and use of University Special Use Facilities should contact the Office of the Director of Auxiliary Services at (956) 665-2224.

For more information, consult the Regents Rules and Regulations Rule 80101 and the University’s Handbook of Operating Procedures including policy 8.4.1. The Handbook of Operating Procedures is available online at http://www.utpa.edu/hop/.

Undergraduate Academic Programs

A Liberal Arts Education

The student’s education at The University of Texas-Pan American will be better measured by the skills they learn and the knowledge they gain than by the number of credit hours they take. UTPA wants students to improve their abilities to analyze, synthesize, determine values, use and understand mathematics and communicate. No matter what subject a student chooses to major in, he/she will be required to complete courses in fields that reinforce those skills.

To understand the general education and core curriculum requirements, students should understand the established goals. These are the characteristics they will be given the opportunity to attain from their work and study here.

The Goals of a Liberal Arts Education

- An inquiring attitude which acknowledges the many-sided nature of most important questions, recognizes the need to examine inherited judgments, and reveals a desire for continued learning and creative expression.
- Competence in the processes of learning, including the abilities to read, write, listen and speak, knowledge of logic and scientific method, and the mental self-discipline needed for rigorous critical analysis and synthesis of facts and ideas.
- The ability to use words and numbers accurately and effectively, and communicate clearly through the spoken and written word as well as through the symbols of mathematics.
- A historical perspective provided by familiarity with the most significant events, people and achievements of the past; an understanding of the most enduring ideas and values in human history; and a knowledge of the many ways these are expressed in world cultures and in social, political and economic institutions.
- A general knowledge and appreciation of nature, science and technology.
- A general knowledge and appreciation of the fine and performing arts and of literature.
- An understanding of self, along with empathy for the strengths, weaknesses, rights and needs of others, as well as the ability to relate to others with human understanding.
- An appreciation for the responsibilities of the individual to family and society; skill in serving as a constructive member in groups and organizations; and sensitivity to the need for informed, independent, moral and ethical decisions.
- Knowledge of the economic and geographical interrelationships of regions and nations and their resources.

These are the goals of a liberal arts education and the qualities that distinguish a liberally educated person. They are the skills and characteristics that UTPA hopes to nurture in its students through the college and core curriculum requirements.

Core Curriculum Requirements

Mission

The purpose of the general education core curriculum is to provide knowledge and skills and encourage attitudes that will serve undergraduate students with a foundation for lifelong learning, will improve their quality of life, and will broaden their perspective about constructive participation in a global human community. The mission will be accomplished through an interdisciplinary core curriculum that reflects convergences among disciplines and promotes the growth and development of each student.

Goals

The goals of the University core curriculum are to prepare students to:

1. Acquire basic intellectual competence in reading, writing, speaking, listening, critical thinking and computer literacy.
2. Develop competence in the tools and principles of mathematics and logical reasoning in problem solving.
3. Develop an inquiring attitude and demonstrate a desire for continued learning and creative expression.
4. Develop the capacity to discuss and reflect upon individual, political, economic and social aspects of life so as to be responsible members of society in a culturally and ethnically diverse world.
5. Recognize the importance of maintaining health and wellness.
6. Use knowledge of how nature, technology and science affect their lives.
7. Develop personal values for ethical behavior to enhance their potential to make constructive contributions to society.
8. Develop the ability to appreciate, and make informed aesthetic judgments in, disciplines such as the fine and performing arts and literature.
9. Understand the interrelationships of the scholarly disciplines.

The core curriculum requirements apply to all students who enter UT Pan American to pursue a bachelor’s degree. Core curriculum requirements total 43 hours of coursework, primarily in the communication, mathematics, humanities, social sciences and natural sciences. These 43 hours must be completed before graduation with at least a 2.0 grade point average. All undergraduate students must complete the requirements.

**Summary of Core Curriculum Requirements**

<table>
<thead>
<tr>
<th>Category</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication</td>
<td>6 hours</td>
</tr>
<tr>
<td>Science</td>
<td>8 hours</td>
</tr>
<tr>
<td>Mathematics</td>
<td>3 hours</td>
</tr>
<tr>
<td>Humanities and Visual and Performing Arts</td>
<td>9 hours</td>
</tr>
<tr>
<td>Social and Behavioral Science</td>
<td>15 hours</td>
</tr>
<tr>
<td>Computer Literacy</td>
<td>2 hours</td>
</tr>
</tbody>
</table>

Courses that may be used to satisfy these requirements are outlined later in this section.

**Special Considerations for Transfer Students**

Transfer students with 15 or more hours but without the core curriculum-approved courses, or courses deemed comparable by the University, may take upper-division courses if otherwise qualified, but they, too, must complete all University core curriculum requirements before graduation. Transfer students who lack six hours of freshman English and/or three hours of mathematics or their equivalent with grades of at least C in each course must complete these requirements within their first two semesters at UT Pan American.

**State Core Curriculum and Transferability**

In fall 1999, a new core curriculum went into effect pursuant to the Texas Education Code. Beginning with the 1999 fall semester, Texas institutions honor the block transfer of completed core curricula and individual transfer of core courses, as specified in statute (Texas Education Code 61.821-829) and the Texas Higher Education Coordinating Board rules (Chapter 5, Subchapter S). Students who transfer will have their satisfactorily completed core courses transferred and applied as specified in the rules.

**Specific Courses that Meet Core Curriculum Requirements**

Individual degree programs may require specified courses be completed to meet these requirements rather than allowing the full range of selections shown here. Students should check degree requirements in this catalog for the degree they are pursuing to determine what specific courses, if any, are recommended or required to fulfill these requirements.

A. Communication 6 hours

Rafael A. “Felo” and Carmen Guerra Honors Program

The Rafael A. “Felo” and Carmen Guerra Honors Program (GHP) strives to serve the needs of academically talented and ambitious students who value intellectual growth and want to make the most of their undergraduate education by providing them an enriched and challenging curriculum. The program offers an alternative to large lecture classes by offering small classes led by exceptional professors and concentrating on exploring new and innovative ideas and integration of concepts. This, along with the extraordinary opportunity for conducting research at the undergraduate level, makes for a unique and exciting experience. The Honors experience is one that fosters long-term intellectual and personal growth. Membership in the Guerra Honors Program is a privilege, a commitment and a voyage of excellence.

Honors Classes

- Honors classes are small and generally limited to 20 students or less, which allows for more personal attention and interaction with professors.
- Honors classes do not hinge on lectures and textbooks alone, but rather place a significant emphasis on critical thinking and participation.
- Honors classes provide a chance to work with academically gifted students from a variety of backgrounds.
- Honors classes provide cultural enrichment.
- Honors classes afford students the opportunity to conduct independent research under the guidance of experienced faculty mentors.
- Honors classes offer students the opportunity to study abroad.

NOTE: Students with a cumulative GPA of 3.3 or higher and who are not yet in the Honors Program may register for an Honors course in other departments (i.e., English, Political Science, Math, Computer Science, courses ending in XX87 or XX 88) with permission from GHP and on a space-available basis. Courses in Honors – those with HONR in the prefix – are open only to students who are presently in GHP and in “good standing.”
Admission Eligibility Requirements

Students may be admitted to the program at any time during the year; however, they are not considered active until they are enrolled at UTPA. Students who meet most of the following minimum criteria are eligible to apply:

I. Entering Freshmen:
   • ACT Composite of 24 or higher
   • SAT of 1110 or higher
   • New SAT of 1670 or higher
   • Graduate in the upper 10% of high school class
   • A 90 or above average in high school academic courses

II. Currently Enrolled/Transfer Students:
   • A minimum cumulative GPA of 3.3 at UTPA
   • 12 earned/credit hours at UTPA

(Please note: These are minimum requirements and are not guarantees for admission.)

Students must apply directly to GHP and submit an Honors Admissions Portfolio. Program eligibility is monitored closely each semester by UHP. Once admitted, students must maintain a minimum GPA of 3.3.

Scholarships

The Guerra Honors Program offers its students the chance to apply for an Honors Merit Scholarship and a Study Abroad Scholarship each fall semester for the following academic year through the University's Excellence Scholarship program. For more information, please contact Student Financial Services.

Graduating from the Guerra Honors Program

In order to fulfill its requirements and graduate from the Guerra Honors Program, students are encouraged to take as many Honors courses as their schedules allow each semester. A GHP graduate must have a cumulative GPA of 3.3 or higher and must have successfully completed 25 hours of honors courses, in which the following courses are included within the 25 hours:

• HONR 2387 - Humanities I
• HONR 2388 - Humanities II
• HONR 3187 - Honors Seminar – Problems in Honors Independent Studies
• HONR 3387 - Honors Independent Studies I
• HONR 4387 - Honors Independent Studies II

Additional Honors courses must be taken to complete a total of 20-25 hours of Honors coursework.

Graduating as an Honors Program Scholar

Honors students who complete the coursework and program requirements and graduate as an Guerra Honors Program Scholar will have this designation recorded on their diplomas, as well as their transcripts. They will also have the distinction of wearing an Honors Medallion at graduation.

General Overview

The College of Arts and Humanities at UT Pan American develops artistic ideas, studies cultures, and cultivates communication skills. It offers a diverse student population programs in Art, Communication, English, History and Philosophy, Modern Languages and Literature, and Music and Dance.

The college provides its students a myriad of opportunities including participating in seminars, special projects, and internships. In addition, the College of Arts and Humanities offers students the chance to showcase their talents in musical concerts and plays, student media, or art exhibits. The arts and humanities is also an excellent pathway to graduate study in many fields. Arts and humanities also delivers scholarly and creative studies that engage its students and faculty, and benefits the surrounding community.

The goals of the college are based upon the recognition that a liberal arts education is the foundation for all University studies and we present a wide range of programs to promote the arts, the humanities and the exchange of ideas. The College of Arts and Humanities provides the foundation, knowledge, and skills for individuals to act thoughtfully and ethically, in both public and private roles.

Academic Programs

The college offers a wide range of majors, minors and elementary and secondary teacher certification, from art to English, for students interested in pursuing a liberal arts education. Some of the areas of study include Art, English, English as Second Language, Communication Studies, Mass Communication (Journalism, Advertising, Public Relations), History, Mexican-American Studies, Women's Studies, Religious Studies, Medical Spanish, French, Spanish, Philosophy, Theatre/TV/Film, Music, and Dance.

Mission

The COAH recognizes that its greatest strength and highest calling is the delivery of quality academic programs in formats that are accessible to students from all cultural and socioeconomic backgrounds.

Quality instruction, research, creative activity and service in the arts and humanities enriches our society, stimulates entrepreneurial and economic growth, contributes to the emerging creative class, and prepares tomorrow’s leaders with the cultural, critical, and ethical frameworks needed to face our most pressing challenges.

Interdisciplinary Minors

Minor in Women's Studies
A minor in women's studies requires 18 semester hours of coursework, six that are required and 12 selected from women's studies cross-listed courses. Twelve semester hours must be at the advanced level.

**Minor in Honors Studies**

A minor in honors studies requires 25 semester credit hours of HONR coursework, of which nine must be advanced electives. These advanced hours are in addition to the core advanced hour requirements. The core requirements include six credit hours of humanities courses (HONR 2387 and HONR 2388) and seven credit hours of thesis courses (HONR 3187, HONR 3387, and HONR 3388). Students can choose advanced honors electives from any discipline ("honors by contract" or "H" designated sections, for example) or advanced Study Abroad Independent Study courses.
Course descriptions for the following courses may be found in the Course Descriptions section of the catalog, pages 239-391.

- Moyer, Nancy
- Nichols, Edward E.
General Overview

Mission

It is the mission of the department to develop individual directions among its students. Personal expression and art historical investigation are encouraged through the use of technical skills combined with creative and critical thinking, and research. In order to achieve this goal, the following objectives are stressed in each art area:

- Increased visual perception
- Maximum creative thought potential
- Knowledge of technical skills
- Knowledge of current art trends
- Multicultural art knowledge
- Dedication to conscientious artistic exploration and self-development of creative potential

General Departmental Requirements

Students transferring into the department who have more than 15 hours of art courses must present a portfolio to the department chair for advisement into the Bachelor of Fine Arts (BFA) programs. BFA candidates will be expected to participate in a senior exhibit during their last semester of study.

Degree Requirements

Bachelor of Arts in Art

Designated Electives  9 hrs.

Choose nine hours from any other advanced art department courses, but not ART 3356 nor ART 4353, provided that their prerequisite courses have already been completed with grades of C.

Approved Minor  18 hrs.

18 hours of which at least 6 must be advanced.

TOTAL  121 hrs.

Bachelor of Arts with All-Level (EC-12) Certification

Admission to the College of Education (COE) teacher education programs is required for all undergraduate students seeking teacher certification. Students following all-level certification degree plans (grades EC-12) should consult with their adviser in the department in which their degree is offered. They should also seek admission requirements and information from the COE Office of Teacher Certification and Admission Services at the Education Complex, Room 3.102. Students may call the office at (956) 665-3420 or log on to the website for more information at www.utpa.edu/colleges/coe/studentservices.

Course Descriptions

A listing of courses offered by the Department of Art can be found on page 244.
Journalists. The theatre program is accredited by the National Association of Schools of Theatre and the Texas Educational Theatre Association.

**The department offers the following degree programs:**

- Bachelor of Arts in Communication
  - Option in Communication Studies
  - Option in Mass Communication
  - Option in Theatre/TV/Film
- Master of Arts in Communication
- Master of Arts in Theatre

Career Potential: Broad career areas in communication disciplines include international communication, sales and marketing, public relations and advertising, training and organizational development, mass communication — broadcast and print mass communication, communication education/instruction, electronic educational materials, government-politics-religious-social services, educational theatre, community theatre, design and directing, acting, arts management, and TV direction and production.

**Degree Requirements**

**Bachelor of Arts in Communication**

Students may choose from three options. The student will select a single option area from either the communication studies, mass communication or theatre/TV/film program areas. Theatre majors must take three one-hour communication practicum courses. Within each concentration area are specialized career tracks. The student must work closely with a curriculum adviser in selecting an appropriate career track for the student's degree plan.

Career Tracks (non-certification) available under each option area are as follows:

- **Mass Communication option**
  - Advertising/Public Relations track
  - Broadcast Journalism track
  - Print Journalism track

- **Communication Studies option**
  - Interpersonal Communication track
  - Organizational Communication track

- **Theatre/TV/Film option**
  - Design track
  - Performance track
  - Television / Film track

- **Public School Teacher Certification Certifications**

**Minor in Communication**

Students can select an 18-hour general minor in communication, of which nine hours must be advanced coursework. They must take COMM 1302 or COMM 1303 and COMM 3316. Internship hours and practicum hours cannot be counted toward the minor. All courses must be completed with a grade of C or better.

**Option in Communication Studies**

The option in communication studies offers students the opportunity to specialize in one of three tracks — Interpersonal Communication, Organizational Communication, or Certification.

**Core Curriculum Requirements**

Complete the requirements shown in the University core curriculum requirements section of this catalog on pages 150.

Teacher Certification Programs and Requirements

Admission to COE teacher education programs is required for all undergraduate students seeking teacher certification. Students following high school certification degree plans (grades 8-12) should consult with their adviser in the department in which their degree is offered. They should also seek information from the College of Education Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302, for admission requirements. Students may call the office at (956) 665-3420 or visit the website for more information at http://www.utpa.edu/colleges/coe/studentservices.

The professional education courses for high school (8-12) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

In addition students must complete 11 hours of approved electives (8 advanced) and 6 hours of free electives.

Minor in Communication Studies (non-certification)

A minor in communication studies (non-certification) requires a total of 18 semester hours of communication studies courses of which 9 semester hours must be advanced. All courses must be completed with a course grade of C or better. Students should consult with a departmental adviser for guidance with course selection.

Option in Mass Communication

Students in the Mass Communication option can specialize in print and/or broadcast journalism, advertising, or public relations. Students in the print journalism concentration spend about three-fourths of their time on general background courses. The remaining one-fourth involves the development of print journalism skills that relate to student's general background knowledge. Students in broadcast journalism, public relations, or advertising invest more time in communication courses geared to their specific profession.

To enroll in upper-level mass communication courses, a student must have a University GPA of 2.25. Students who do not fulfill this requirement will be dropped from mass communication courses. (This requirement is waived for transfer students during their first semester while establishing a University GPA.)

In addition to completing the 43 hours of the University core curriculum requirements, mass communication students must complete COMM 1302, COMM 1303 or COMM 3313.

Core Curriculum Requirements 43 hrs.

Core Courses 24 hrs.

Mass Communication students must take the following

24 hours of core courses:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>COMM 1315</td>

</tr>
</tbody>
</table>
Print Track 24 hrs.

A grade of C minimum
COMM 3305 Copy Editing
COMM 3306 Feature Writing
COMM 3327 Reporting I
COMM 3329 Reporting II
COMM 4326 Photojournalism

Nine hours advanced mass communication electives

Other Requirements for students in the print track concentration

Student are encouraged to take coursework outside the mass communication area.

The outside concentration requirement may be elected as:
1. 18 hours in one academic department, or
2. 18 hours in an area of study to meet specific career goals or to satisfy a minor. In either option, nine of the 18 hours must be at the 3000-level or above, and all 18 hours must be completed with a course grade of C or better. For degree completion, students must have a grade of at least C in each Mass Communication course.

Other Electives 8-17 hrs.

Journalism with Teacher Certification (8-12) 39 hrs.

Students seeking state certification in journalism will complete the following 36 hours:

COMM 1315 Mass Communication and Society
COMM 2304 Television Production
COMM 3303 Writing for the Mass Media
COMM 3304 Advertising
COMM 3305 Copy Editing
COMM 3306 Feature Writing
COMM 3327 Reporting I
COMM 3333 Communication Theory
COMM 3349 Multimedia Storytelling
COMM 3350 Research in Communication
COMM 4313 Media Law and Ethics
COMM 4326 Photojournalism
COMM 4332 Visual Communication

Students may call the office at (956) 665-3420 or visit the website for more information at http://www.utpa.edu/colleges/coe/student_services.

The professional education courses for high school (8-12) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

Students must also complete 14 hours of approved electives and 3 hours of electives.

Minor in Mass Communication

Applicants must complete 18 hours of mass communication courses, of which nine hours must be advanced coursework. All courses must be completed with a grade of C or better.

Option in Theatre/TV/Film

The option in theatre/TV/film supports three major educational objectives:
1. Preparation for entry into the workforce as a theatre TV/film pre-professional.
2. Preparation for entry into a graduate degree program in theatre/TV/film.
3. Preparation as a theatre teacher. Students pursuing the third objective should select one of the curriculum tracks that lead to certification.

Curriculum Tracks in Theatre/TV/Film

Core Curriculum Requirements 43 hrs.

Complete the core curriculum requirements as shown on page 105 of this catalog EXCEPT as shown below:
It is recommended that students select ENG 2313/COMM 2312 as one of the courses.

In addition to completing the 43 hours of the University core curriculum requirements, theatre/TV/film students must complete COMM 1302, COMM 1303 or COMM 3313.

Core Courses For TV/Film Track 21 hrs. (12 adv.)

COMM 1305 Acting I
COMM 2304 Television Production
COMM 2310 Video and Film Editing I
COMM 4301 Directing I
COMM 4302 Directing II
COMM 4312 Video and Film Editing II
COMM 4314 Advanced TV/Film Production

Teacher Certification Programs and Requirements

Admission to COE teacher education programs is required for all undergraduate students seeking teacher certification. Students following high school certification degree plans (grades 8-12) should consult with their adviser in the department in which their degree is offered. They should also seek information and admission requirements from the College of Education Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302.

Theatre EC-12 Teacher Certification Program

Admission to COE teacher education programs is required for all undergraduate students seeking teacher certification. Students following all-level certification degree plans (grades EC-12) should consult with their adviser in the department in which their degree is offered. They should also seek information and admission requirements from the College of Education Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302. Students may call the office at (956) 665-3420 or visit the website for more information at http://www.utpa.edu/colleges/coe/studentservices.

The professional education courses for all-level certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

Core Courses 18 hrs./12 adv.

COMM 1305  Acting I
COMM 1311  Technical Production I
COMM 4301  Directing I
COMM 4302  Directing II
COMM 4315  History of the Theatre I
COMM 4316  History of the Theatre II

Technical Electives 19 hrs./15 adv.

COMM 2101  Practicum-Theatre/TV/Film
COMM 2320  Costume Technology
COMM 3309  Scene Design
COMM 3312  Costume Design
COMM 3311  Contemporary Drama
COMM 3323  World Drama
COMM 4101  Practicum-Theatre/TV/Film (must be taken three times)
COMM 4318  Theory and Styles of Acting

Additional Electives 18 hrs./3 adv.

TOTAL 120 hrs.

Minor in Theatre/TV/Film

Applicants must complete the 18 core hours of the theatre/TV/film program.

Minor in Leadership Studies

The student, with advisement from the leadership studies academic coordinator, will complete 18 hours, of which nine must be advanced coursework, from the following:

A. Required Courses 12 hrs.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>LEAD 1310</td>
<td>Introduction to Leadership Theory</td>
</tr>
<tr>
<td>LEAD 2310</td>

General Overview

The Department of English offers undergraduate major and minor programs with specializations in literature, writing and discourse studies, creative writing, linguistics and language, applied linguistics, cultural studies, border studies and English as a second language. Teacher certification plans are also available at both the high school (8-12) and middle school (4-8) levels. The English department houses courses for the minors in Film Studies, Mexican American Studies, and Women's Studies.

In addition, the department offers graduate programs leading to the Master of Arts in English (with two tracks, one in literature and cultural studies and the second in rhetoric, composition and literacy studies), the Master of Arts in English as a Second Language, the Master of Fine Arts in creative writing and the Master of Arts in interdisciplinary studies with concentrations in English and writing. More information is available in the graduate catalog.

Major in English

The Bachelor of Arts degree with a major in English requires 39 semester hours of English, 36 hours of which must be advanced. Three of those hours will be satisfied by the core curriculum requirement that all students take, an English 23XX course of their choosing that is literature-based.

All students must complete nine hours of English credits — including 1301, 1302 and one 2000-level course from Area A — as prerequisites for advanced (3000- and 4000-level) courses. Additional prerequisites are listed in the Course Descriptions section of the catalog.

Students may consider the offerings below in order to develop an individual degree plan in consultation with an adviser from the English department. (View Course Descriptions for more information about individual courses.)

Offerings in Literature:
ENG 2300, 2303, 2305, 2307, 2308 (when special topic is literary), 2313, 2387, 2388, 3301, 3304, 3305, 3306, 3307, 3309, 3310, 3311, 3312, 3313, 3315, 3316, 3317, 3320 (when special topic is literary), 3322, 3323, 3324, 3325, 3331, 3332, 3342, 3343, 3344, 3350, 3398, 3399, 4301, 4306, 4309, 4310, 4312, 4313, 4316, 4317, 4318, 4319, and 4390.

Offerings in Literary Theory:
ENG 4305 and 4306.

Offerings in Writing and Discourse Studies:
ENG 1301, 1302, 1310, 1320, 1387, 1388, 1406, 2308 (when topic is writing), 3320 (when topic is writing), 3326, 3333, 3338, 3341, 3342, 4307, 4322, 4323, 4324, 4325, 4330, and 4343.

Offerings in Creative Writing:
ENG 3334, 3336, 3337, 4336, 4337 and 4340.

Offerings in Linguistics and Language:
ENG 3300, 3319, 3320 (when topic is linguistic), 3321, 3330, 3341, 4302, 4308, 4314, 4321, 4326, and 4331.

Offerings in Applied Linguistics:
ENG 3321, 4326 and 4328.

Offerings in Cultural Studies:
ENG 3344, 4304, 4306 and 4307.

Offerings in Border Studies:
ENG 4319, 4320 and 4331.

Offerings in English as a Second Language:
ENG 3319*, 3321*, 4326, 4328*, and 4331.

*Denotes courses that (in addition to EDBE 3324) are required by the state of Texas for ESL endorsement. Students getting this endorsement must have a 2.25 GPA in the required four courses.

Course Offerings

The English department website includes a general rotation of graduate courses offered each semester. Please see this for planning your program in consultation with an adviser.
Degree Requirements

Core Curriculum Requirements 43 hrs.

Complete the requirements shown in the University core curriculum requirements section of this catalog on pages 105.

Required Courses 39 hrs.

Area A: Sophomore Literature (Survey Courses) - 3 credits to be chosen from the following: 2300, 2303, 2305, 2307, 2308, 2313, 2387, 2388

Area B: Literature Survey - 6 credits to be chosen from the following: 3312, 3313, 3331, 3332

Area C: Period/Genre/Theme/Single Author Courses - 3 credits to be chosen from the following: 3301, 3304, 3305, 3306, 3307, 3309, 3310, 3311, 3314, 3315, 3316, 3317, 3322, 3324, 3398, 3399, 4301, 4309, 4310, 4312, 4317, 4319, 4390

Area D: World/Multicultural Literature - 3 credits to be chosen from the following: 3321, 3323, 3342, 3343, 3350, 4313, 4316

Area E: Writing - 6 credits to be chosen from the following: 3326, 3333, 3334, 3336, 3337, 3338, 4325

Area F: English Language/Linguistics - 3 credits to be chosen from the following: 3300, 3319, 3330

Area G: Literary or Rhetorical Theory Survey - 3 credits to be chosen from the following: 4305, 4324

Area H: Electives - 12 credits to be chosen from 3000- and 4000-level courses (3320 may be repeated for elective credit when the topic varies).

Areas of Emphasis in Major

Students may also opt to take an additional nine hours to get an “emphasis” in one of the following areas: literature, writing and discourse studies, creative writing, linguistics and language, applied linguistics, cultural studies and border studies. These nine hours are in addition to the required 39 hours in the major.

Bachelor of Arts in English: Certification in 4-8 English Language Arts/Reading

Teacher Certification Programs and Requirements

Admission to COE teacher education programs is required for all undergraduate students seeking teacher certification. Students following middle school certification degree plans (grades 4-8) should consult with their adviser in the department in which their degree is offered. They should also seek information and admission requirements from the College of Education Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302. Students may call the office at (956) 665-3420 or visit the website for more information at http://www.utpa.edu/colleges/coe/studentservices.

The professional education courses for middle school (4-8) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, and EDUC 4611.

A. Core Curriculum Requirements 43 hrs.

GPA Requirement for Certification Students

Students seeking certification or an ESL endorsement must have a C or better and at least a 2.5 GPA in the content area courses.

Additional Information: Requirements for taking the TExES Exam

To receive clearance, English Language Arts/Reading Certification candidates must arrange a conference with a Department of English TExES adviser to review course completions, GPA requirements and review session attendance. TExES candidates will take the Representative Form of the ELA/Reading 4-8 or ELA/Reading 8-12 exam. To take the Representative Form, candidates should be enrolled in or have completed ENG 4318 or ENG 4325. Candidates should check the Department of English website for links to updates on TExES information.

Minor in English

Eighteen hours of English, six hours of which must be advanced.

Course Descriptions

A listing of courses offered by the Department of English can be found on page 305.

General Overview

Students majoring or minoring in history may become teachers or seek employment in business or government. History is an excellent background for those who wish to go to law school or enter journalism. The Department of History and Philosophy, in conjunction with the Departments of Modern Languages and Literature, Sociology and Social Work, also offers a Bachelor of Arts degree in Latin American Studies and Mexican American Studies.

Beginning history majors are urged to take Civilization Through the Centuries, American Heritage and Historiography and Methodology early in their academic careers. Well-prepared students are encouraged to establish credit in some of these beginning courses by passing advanced standing examinations.

The department also welcomes non-history majors who may wish to take courses in Mexican American heritage, Russian history or a wide assortment of courses in Latin American, American and European history.

Degree Requirements

*Honors HIST 2387 and HIST 2388 may be substituted for HIST 2313 and HIST 2314.

Other Requirements

Minors must take nine additional hours, including six advanced hours.

Major in Social Studies Composite

The following criteria are required of all history majors and minors seeking teacher certification:

- Students must have a 3.0 cumulative GPA in their history or social studies classes.
- Students must have a C or better in each of their history courses.

Students will take the Representative Form for the TExES once after completing HIST 2313 and 2314 and again after completing HIST 2331, 2332 and 3332. Students will take the benchmark the final time while taking HIST 3303. HIST 3303 will be the last history class the student takes.

The social studies composite major is a broad-field major requiring 48 hours in social studies. Students with a social studies composite major do not require a minor. This curriculum is recommended for students seeking social studies certification for grades 8-12.

Teacher Certification Programs and Requirements

Admission to COE teacher education programs is required for all undergraduate students seeking teacher certification. Students following high school certification degree plans (grades 8-12) should consult with their adviser in the department in which their degree is offered. They should also seek information and admission requirements from the College of Education Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302. Students may call the office at (956) 665-3420 or visit the website for more information at http://utpa.edu/colleges/coe/studentservices.

The professional education courses for high school (8-12) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

Core Curriculum Requirements 43 hrs.

Complete the core curriculum requirements as shown on pages 105 of this catalog.

Social Studies Courses

Students take 18 hours of required social studies classes and 33 hours of designated social studies electives.

Jones, Cynthia, Associate Professor
Pearson, Thomas D., Associate Professor
Trott, Adriel, Assistant Professor
Wimberly, Cory, Assistant Professor
Zents, Jeff, Lecturer

General Overview: Philosophy

The Department of History and Philosophy offers a major in philosophy within the Bachelor of Arts degree, as well as a minor in philosophy. The study of philosophy can serve many useful purposes, but perhaps the most important are:

- The philosophy program offers courses in two sections of the UTPA undergraduate core curriculum. All of our lower-division courses except PHIL 1321 satisfy the humanities components. PHIL 1321 satisfies the mathematics component for all COAH majors and for many other non-engineering and non-science majors.

- Training in philosophy helps one to think more clearly, more peremptively and more effectively. Regardless of one's personal and occupational goals, and regardless of the projects in which one is interested, being able to think clearly and well about them is an essential tool.

- Study of philosophy uniquely helps one to better understand and appreciate oneself, the world outside and how the two are related. One of the deepest human needs is to make sense of life and one's place in it, and the satisfaction of that need is the central concern of philosophy.

A major in philosophy provides strong preparation for a variety of careers, particularly in business, law, public policy and the ministry, as well as college teaching. A minor in philosophy provides excellent support for majors in numerous fields, particularly history, government, English, psychology, sociology, math and certain areas in science and business administration.

The Religious Studies Minor

The religious studies minor is a new program housed in the UTPA Philosophy Program. The curriculum includes a wide array of courses designed to equip students to understand the profound religious traditions that shape and inform the diverse communities we all live in. The global environment of the 21st century is driven largely by religious considerations and commitments, and the religious studies minor will enable students to function well in that complex environment.

The curriculum involves a two-pronged academic exploration of 1) different religious traditions (e.g., native religious traditions, borderlands spirituality, Christianity, Islam, Judaism, Buddhism, Hinduism, indigenous faiths, etc.); and 2) different approaches to the study of religion (historical, social, political, intellectual, philosophical, scientific, literary, and artistic). The curriculum helps prepare students for a variety of careers in religious vocations and academia, but it will also help future journalists, teachers, lawyers, doctors, and business leaders operate in the complex religious milieu of the coming decades. More broadly, by providing a greater understanding of religion in its pluralistic expressions the religious studies minor will promote a more informed citizenry. For more advisement and more information, contact Dr. Tom Pearson in Department of History & Philosophy at pearson@utpa.edu.

Course Descriptions

A listing of philosophy courses offered by the Department of History and Philosophy can be found on page 357 of this catalog.

Mexican American Studies

Students who want to major or minor in Mexican American Studies should consult with the director.

Major in Mexican American Studies

The Bachelor of Arts degree in Mexican American Studies is a trans-disciplinary program taught by the faculty of the Departments of History and Philosophy, Psychology and Anthropology, Sociology, Criminal Justice, Political Science, Art, Music, and Modern Languages and Literature. The program is designed as a broad-field major.

Major Requirements 45 hrs.

Seale, Carl

General Overview
The Department of Music offers a major within the Bachelor of Music degree. In addition, it offers teaching fields for majors in all-level music teacher certification. All students majoring in music, in addition to taking
courses in general education, theory and literature of music, pursue excellence in performance in their areas of major interest. Instruction is offered in voice, guitar, piano and all of the instruments of the band and orchestra.

Graduate music courses are offered leading to the Master of Music degree, and Master of Arts in interdisciplinary studies degree with a concentration in music (MAIS-Music). More information is available in the graduate catalog.

Degree Requirements

Departmental Requirements

A grade of C or higher in each required course in music is necessary for that course to apply toward a degree with a major in music. Transfer students may be required to validate (by examination) credits earned in applied music and music theory at other institutions. Failure to pass validation will result in the repetition of courses required to reach proper standards.

Precise definition of standards is provided by the department, and examination in applied music is before a faculty jury.

Music majors and music minors must enroll in piano until the piano proficiency examination has been passed. The piano proficiency examination must be passed as a prerequisite to enrolling in upper-level music courses. Transfer students are required to pass the department's piano proficiency examination, regardless of the number of transfer hours.

Each full-time, music major must be a member of the large ensemble of his/her area of concentration each semester during which he/she is enrolled for a minimum of seven semesters. These assignments are as follows: Wind and Percussion-Band, Strings-Orchestra, Voice, Piano-Choir, and Guitar-Guitar Ensemble. Pianists and others who play appropriate instruments with sufficient proficiency may use band or orchestra for their ensemble requirements. Participation in smaller ensembles is required for applied majors.

A music major who selects the performance curriculum will perform a 30-minute public recital during the junior year and 45 minute-long public recital during the senior year. A music major, who selects the teacher preparation curriculum, will prepare one-half of a music recital during their senior year and at the discretion of a faculty committee will perform it in public. Music majors will study privately in their areas of concentration during each semester they are enrolled full time (12 hours or more). Music majors enrolled in applied music will enroll in applied music lab and attend University concerts and recitals as a part of the course requirement. Examinations in applied music are required at the end of each semester before a jury of music faculty members. Students enrolled in applied music will appear in recitals at the discretion of their instructor.

Major in Music: Applied Music

Core Curriculum Requirements 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog.

Core Courses for Instrumental and Vocal Majors 31 hours

- MUS 2212 Music Theory I
- MUS 2214 Music Theory II
- MUS 2113 Aural Skills I
- MUS 2115 Aural Skills II
- MUS 2201 Music Literature
- MUS 3212 Music Theory III
- MUS 3113 Aural Skills III
- MUS 3214 Music Theory IV
- MUS 3115 Aural Skills IV
- MUS 3301 History of Music
- MUS 3302 History of Music
- MUS 3307 Women in Music
- MUS 4201 Form and Analysis
- MUS 4308 Conducting II
- MUS 4309 Counterpoint

Other Requirements

For Vocal Majors Only: 8 hrs.

- MUS 2120 Diction
- MUS 2127 Song Literature
- MUS 3122 Vocal Repertoire
- MUS 3125 Vocal Pedagogy
- MUS 3209 Choral Conducting
- MUS 4212 Choral Arranging

For Instrumental Majors Only: 7 hrs.

- MUS 2128 Instrumental Literature
- MUS 31XX Instrumental Pedagogy
- MUS 31XX Instrumental Repertoire
- MUS 3207 Instrumental Conducting
- MUS 4203 Orchestration and Arranging

Designated Electives

Applied Music (Primary Instrument) 16 hrs.

Eight semesters minimum, of which four semesters must be advanced.

Applied Music (Secondary Instrument) 8 hrs.

Four semesters minimum, all must be advanced.

Large Music Ensemble 8 hrs.

Eight semesters minimum, of which four semesters must be advanced.

Chamber Music Ensemble

For Vocal Majors: Six semesters minimum, 6 hrs. of which three semesters must be advanced.
For Instrumental Majors: Seven semesters minimum, 7 hrs. of which four must be advanced.

**Other Requirements**
- Proficiency in piano (Piano Blocks I, II, III) 3 hrs.
  MUS 1112 Class Piano I
  MUS 1113 Class Piano II
  MUS 1114 Class Piano III
- One 30-minute junior recital.
- One 45-minute senior recital.
- A total of 51 hours in music must be advanced.

**NOTE:** A minor is not required. TOTAL 123 hrs.

**Requirements for All-Level Teacher Certification**

Admission to COE teacher education programs is required for all undergraduate students seeking teacher certification. Students following all-level certification degree plans (grades EC-12) should consult with their adviser in the department in which their degree is offered. They should also seek information and admission requirements from the College of Education Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302. Students may call the office at (956) 665-3420 or visit the website for more information at http://www.utpa.edu/colleges/coe/studentservices.

The professional education courses for all-level certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

**Core Curriculum Requirements** 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog.

**Core Courses** 28 hrs.

General Overview

All degree programs in the College of Business Administration are fully accredited by the Association to Advance Collegiate Schools of Business (AACSB International).

The college is organized into five departments: Accounting and Business Law, Computer Information Systems and Quantitative Methods, Economics and Finance, Management, and Marketing. Two associate deans, five department chairpersons and the directors of undergraduate studies, MBA program and doctoral program, assist the dean in coordinating the academic activities of the college.

“Business After Five” is designed to meet the educational needs of a wide variety of students. By taking a combination of evening and online distance learning classes, it is now possible for a student to complete the requirements for a Bachelor of Business Administration (BBA) degree at UTPA. Information on this program can be obtained by contacting the director of undergraduate programs.

Mission

The mission of the College of Business Administration is to:
- Develop business and academic leaders who are qualified and committed to the improvement of society
- Produce scholarly research relevant to domestic and global businesses.
- Support professional, community and University activities that contribute to economic progress, social improvement and intellectual development.

Academic Programs

The College of Business Administration offers a Bachelor of Business Administration with majors in accounting, economics, finance, computer information systems, management, and marketing. The college also offers a Bachelor of Arts (BA) degree with a major in economics. Students working toward non-BBA degrees may pursue a minor in business administration, computer information systems, economics, entrepreneurship, human resource management, and marketing. Graduate programs include the Master of Business Administration (MBA), Master of Science in Accounting (MSA), Master of Accountancy (MACC), and Doctor of Philosophy (Ph.D.) in business administration.

Bachelor of Business Administration

Degree Requirements

To graduate from UTPA with a BBA degree, students must successfully complete the 120 hours included in the core curriculum, the business foundation courses, business core courses, and the major coursework with an overall GPA of at least 2.0.

Core Curriculum Requirements

Students must complete the requirements described in the core curriculum requirements section of this catalog, EXCEPT as indicated below:

Section D. Humanities
Group 4. Other Humanities

PHIL 2392 Business Ethics (required of CIS majors)

Section C. Mathematics

MATH 1340 College Algebra
or
MATH 1341 Business Algebra
or
Higher-level math

Section F. Institutionally Designated Options

CIS 1301 Computer Information Systems (fulfills the core curriculum requirement for computer literacy [CIS 1201] and the business foundation requirement [CIS 1101]).

Section E. Social Sciences
Group 3. Other Social Science

ECON 2301 Principles of Macroeconomics

Business Foundation Courses

ACC 2301 Introduction to Financial Accounting
ACC 2302 Fundamentals of Managerial
College of Business Administration

Accounting
CIS 1101 Introduction to Office Software
(Business majors who have previously completed two hours of computer literacy MUST take CIS 1101, otherwise completion of CIS 1301 fulfills both this requirement and the core curriculum computer literacy requirement.)

COMM 1302 Introduction to Communication
or
COMM 1303 Presentation Speaking

ECON 2301 Principles of Macroeconomics
(hours counted in General Education core)

ECON 2302 Principles of Microeconomics

MATH 1342 Business Calculus
or
QUMT 2342 Computational Method in Business

Business Core Courses 30 hours
BLAW 3337 Business Law I
FINA 3383 Managerial Finance
MGMT 3361 Principles of Management and
Organizational Behavior
MGMT 4363 Production Management
MARK 4382 Marketing Research Analysis
QUMT 4343 Quantitative Methods for Decision Making in Business

Major Coursework 27 hours

The specific combination of required and elective courses to be completed by students undertaking the various majors within the BBA degree (accounting, computer information systems, economics, finance, management, and marketing) are described in detail under the following departmental pages of the catalog.

Coursework in Professionalism and Ethics 4 hours
CIS 3198 Business Analysis and Communication (1 hr.)
and
COMM 3313 Business and Professional Communication (3 hrs.)
Or
MGMT 3335 Communication Policy or Strategy (3 hrs.)
Or
MARK 3310 Personal Branding and Communication (3 hrs.)

Pre-Business Major

Lower-division (freshman and sophomore) students who plan to pursue a BBA degree are classified as pre-business majors. Pre-business majors focus their studies on the UTPA core curriculum courses and the business foundation courses that must be completed before admission into the College of Business Administration. Students must complete their general education courses with at least a 2.0 cumulative GPA, and must receive a grade of C or higher in each of the six business foundation courses (listed below). While enrollment in upper-division (junior and senior) business courses for students pursuing a BBA degree is generally limited to those who have officially been admitted into the College of Business Administration, pre-business majors may take up to six hours of junior-level coursework in the College of Business Administration if they have completed at least 54 hours of coursework with at least a 2.0 cumulative GPA and have completed all six business foundation courses with grades of C or higher.

To become a business major, pre-business majors should apply for admission into the College of Business Administration during the semester in which they will complete the admission requirements listed below, generally, the second semester of their sophomore year. Students transferring to UT Pan American from another accredited institution of higher education will be considered for admission into the College of Business Administration if they meet all the admission requirements.

Current UTPA students who are planning to pursue a BBA degree, but are not currently pre-business majors, are encouraged to request a change of major to pre-business.
In addition, all prospective business majors are encouraged to attend a BBA basics information session to find out more about the College of Business Administration programs and services.

**Admission to the College of Business Administration**

Students pursuing a BBA degree must be admitted into the College of Business Administration before they are allowed to complete their upper-division coursework. Admission into the College of Business Administration is restricted to those students who have successfully met the admission requirements listed below. As noted above, pre-business majors are generally eligible to apply for admission into the College of Business Administration during the second semester of their sophomore year. Students accepted into the College of Business Administration may have to meet additional requirements for specific majors within the college. Please read the requirements for each major in the catalog.

Students majoring in economics through the BA degree program, as well as non-business majors with degree plans requiring particular upper-division business courses, are not required to apply for admission into the College of Business Administration, nor do they need special permission to take those specified courses as long as the degree plans have been approved by the college, and the students have completed the appropriate prerequisites. However, such students will only be allowed to take those upper-division courses that are designated to fulfill the degree requirements.

**Admission Requirements**

- Complete the UTPA core curriculum with at least a 2.0 cumulative GPA.
- Complete a total of 59 hours of coursework with at least a 2.0 cumulative GPA.
- Complete each of the following business foundation and core curriculum courses with C or better:

**Transfer Students and Transfer Work**

The College of Business Administration welcomes graduates of Texas community colleges and transfer students from other schools. Through careful planning, full-time students can earn a BBA degree in four years. By adhering to the transfer curricula and transfer of credit guidelines of the Texas Higher Education Coordinating Board, students attending community colleges and other Texas schools can transfer to The University of Texas-Pan American without loss of credit. Students who plan to transfer to the UTPA College of Business Administration should develop their program of academic coursework in consultation with their academic advisors.

Degree applicability of all coursework completed under business programs that are not accredited by the Association to Advance Collegiate Schools of Business (AACSB International) must be determined through appropriate validation procedures and/or examination. Final approval of non-AACSB accredited coursework will be made by the applicable department chair or the dean of the College of Business Administration.

Contact the director of undergraduate programs in the College of Business Administration for further information.

**Core Curriculum Requirements**

By completing the transfer core curriculum recommendations for business majors, transfer students will be considered to have satisfied the UTPA lower-division core curriculum requirements. Only those transfer courses with grades of at least a C will be accepted for credit toward the BBA degree. Courses taken at two-year institutions or in fulfillment of the requirements for two-year degrees are accepted by the College of Business Administration as transfer credits for lower-division courses only.
Business Courses

If you are transferring to UTPA to pursue a BBA degree, you will still need to apply to the College of Business Administration and follow all University admission requirements. Admission into the College of Business Administration does not ensure admittance to the University. Questions regarding the University requirements should be directed to the Office of Undergraduate Admissions at (956) 665-2481, located at SSB 3.104.

If you do not meet the criteria required for admission to the college when you apply, you will be classified as a pre-business major if you are admitted to the University. You may apply for admission to the College of Business Administration at a later date when you meet the admission criteria.

Bachelor of Arts with a Major in Economics

The College of Business Administration also offers a BA degree with a major in economics. There is not a formal application process into the College of Business Administration for UTPA students majoring in economics who are pursuing the BA degree. (Economics majors pursuing the BBA degree must follow the formal application process described above.) However, prerequisites will be enforced, and students will be monitored to ensure that they complete the UTPA core curriculum requirements with a GPA of 2.0 or higher before taking upper-division economics courses. Students pursuing the BA degree while majoring in economics should contact the Department of Economics and Finance for the specific degree requirements or refer to the economics major. (BA degree requirements listed under the Department of Economics and Finance in this catalog.)

Economics majors in the BA degree program do not need special permission to take courses in the College of Business Administration as long as they are included in their degree plans and all prerequisites have been completed.

Business Minors

The College of Business Administration offers business minors in business administration, computer information systems, economics, entrepreneurship, human resources management and marketing for students pursuing non-BBA degrees. Students seeking a business minor must successfully complete the 18 hours of coursework required under the chosen minor (along with any applicable prerequisites). Students who are pursuing or considering pursuing a business minor are encouraged to meet with an academic advisor in the Center for Advisement, Recruitment, Internships and Retention (CARIR) of the College of Business Administration, the director for undergraduate programs, or the chair of the appropriate department.

Minor in Business Administration

A minor in business administration is designed to enhance the marketability of students pursuing non-BBA degrees. This minor complements such degree programs as engineering, health care, nursing, counseling and communication. The minor in business administration consists of the following 18 hours of coursework:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACC 2301</td>
<td>Fundamentals of Managerial Accounting</td>
</tr>
<tr>
<td>ACC 2302</td>
<td>Introduction to Financial Accounting</td>
</tr>
<tr>
<td>ECON 2301</td>
<td>Principles of Economics I</td>
</tr>
<tr>
<td>FINA 3383</td>
<td>Managerial Finance</td>
</tr>
<tr>
<td>MGMT 3361</td>
<td>Principles of Management and Organizational Behavior</td>
</tr>
<tr>
<td>MARK 3371</td>
<td>Principles of Marketing</td>
</tr>
</tbody>
</table>

*Consult the Undergraduate Course Descriptions or contact the director of undergraduate studies in the College of Business Administration for prerequisites to specific courses.

Minor in Computer Information Systems

A minor in computer information systems is available to all students pursuing non-BBA degrees and is designed to prepare students for entry-level positions in the computer field. The minor in computer information systems consists of 18 hours of coursework as specified below *(Any six CIS courses).

Students with no programming and multimedia background may take any combination of four more CIS upper-division courses after taking:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIS 2301</td>
<td>Business Information Technologies</td>
</tr>
<tr>
<td>CIS 2308</td>
<td>Introduction to Business Programming</td>
</tr>
</tbody>
</table>

NOTE: All CIS core and elective courses have CIS 2301 or CIS 2308 as prerequisites.

Students who have taken equivalent programming and multimedia courses may take any combination of six upper-division CIS courses.

*Consult the Undergraduate Course Descriptions or contact the Department of Computer Information Systems and Quantitative Methods for prerequisites to specific courses.

Minor in Economics

A minor in economics is designed to enhance the marketability of students pursuing non-BBA degrees, particularly those seeking careers in law, public
administration/government, health care, social work and engineering. This minor complements such majors as political science, engineering, health care, and other social and behavioral sciences. The minor in economics consists of 18 hours of coursework as specified below:*  

<table>
<thead>
<tr>

<td>Macroeconomic Theory</td>
</tr>
<tr>
<td>ECON 3352</td>
<td>Microeconomic Theory</td>
</tr>
<tr>
<td></td>
<td>Six hours of upper-level ECON courses.</td>
</tr>
</tbody>
</table>

*Consult the Undergraduate Course Descriptions or contact the Department of Economics and Finance for prerequisites to specific courses.

**Minor in Entrepreneurship**

A minor in entrepreneurship serves as an ideal complement for students pursuing non-BBA degrees, who plan to start and successfully operate a small business upon graduation. This program specifically focuses on small business operations in the Lower Rio Grande Valley. The minor in entrepreneurship consists of 18 hours of coursework selected from the following:*  

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>CIS 3380</td>
<td>Small Business Technology</td>
</tr>
<tr>
<td>ECON 3360</td>

<td>Family and the Small Business</td>
</tr>
<tr>
<td>MGMT 4366</td>
<td>Small Business Management</td>
</tr>
</tbody>
</table>

*Consult the Undergraduate Course Descriptions or contact the director of undergraduate studies in the College of Business Administration for prerequisites to specific courses.

**Minor in Human Resource Management**

A minor in human resource management is designed to complement many students’ majors, enhancing their marketability upon graduation. Students majoring in such fields as psychology, communication, nursing, counseling, engineering and political science may be especially interested in this minor. The minor in human resources management consists of 18 hours of coursework as specified below:*  

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>MGMT 3362</td>
<td>Human Resource Management</td>
</tr>
<tr>

</tr>
</tbody>
</table>

*Consult the Undergraduate Course Descriptions or contact the Department of Management, Marketing and International Business for prerequisites to specific courses.

**Electives (select one):**  
MGMT 3300 Internship in Management* (must involve a position in HRM)  
MGMT 3335 Communication Policy and Strategy  
MGMT 4368 Industrial Relations  

*Consult the Undergraduate Course Descriptions or contact the Department of Management, Marketing and International Business for prerequisites to specific courses.

**Minor in Marketing**

A minor in marketing will provide students pursuing non-BBA degrees with an opportunity to develop knowledge, skills, and practices essential for the successful marketing of all types of organizations, products and services, including nonprofit organizations. In addition, it may enhance the marketability of students seeking careers that interface with consumers. The minor in marketing consists of 18 hours of coursework as specified below.*  

<table>
<thead>
<tr>
<th>Course Code</th>

</tbody>
</table>

*Consult the Undergraduate Course Descriptions or contact the Department of Marketing prerequisites to specific courses.

**Non-Business Majors**

Non-business students with degree plans requiring upper-division business courses do not need special permission to take courses in the College of Business Administration if those degree plans have been reviewed by the College of Business Administration and if the students have completed all appropriate prerequisites. However, such students are only allowed to take those upper-division business courses that have been specifically designated to fulfill their degree requirements.

**Graduate Programs**

The College of Business Administration offers the opportunity for advanced study leading to the Master of Business Administration (MBA) degree, the Master of Science in Accounting (MSA), the Master of Accountancy (MACC) and a Doctor of Philosophy (Ph.D.) in business administration. The MBA program is designed for those who wish to pursue advanced studies in a multicultural environment as a means of enhancing their business and administrative careers. Both full-time and part-time students can enroll in the MBA program. The MSA and MACC prepare students for a profession in public accounting and meet the educational...
requirements of the Texas State Board of Public Accountancy and the Texas Society of Certified Public Accountants.

The Ph.D. in business administration offers graduates the opportunity to prepare for faculty positions in state, national and international universities, or to fill management roles in the private sector or in government service.

Service Organizations

A total University experience includes providing students with the opportunity to develop leadership skills to become part of the decision-making process and to create linkages with the business community. To that end, the following fraternities and student chapters of professional organizations are active.

- Association of Latino Professionals in Finance and Accounting
- Beta Gamma Sigma, a national honor society for business administration majors
- Accounting Society
- American Marketing Association - Student Chapter
- Association for Information Technology Professionals
- Collegiate Entrepreneurs’ Organization
- Financial Management Association
- Forum for International Relations and Business
- Insurance and Financial Planning Association
- MBA Association
- National Hispanic Professionals Organization
- Society for Human Resource Management

COBA Advisory Council

Advice and guidance from civic and business leaders are provided through the College of Business Administration Advisory Council. The council serves as a liaison to the business community, helps provide financial support for the college, and provides job opportunities for graduates.

Student Advisement, Internships and Placement

The Center for Advisement, Recruitment, Internships and Retention (CARIR) offers guidance to students on programs of study, provides information on scholarships for business students, and assists in matching students with available internship opportunities. Internships are available as electives for all majors in business. Additional information on internships, scholarships, course selections and programs of study may be obtained by contacting the CARIR office or the director of undergraduate programs. The college also has two professional academic guidance counselors who are available to provide academic advisement to business students and a Career Services specialist assigned to the college by University Career Services.
Mission

The mission of the Department of Accounting and Business Law is to achieve excellence in accounting education by providing high quality instruction and curricula in its academic programs, relevant intellectual contributions, and professional service.

Academic Programs

The department provides a learning environment in which students develop a diverse set of skills including technical competence, critical thinking, strong communication abilities, and the ability to use technology to prepare them for professional careers in a dynamic world. To accomplish these objectives, the department maintains an environment that encourages outstanding teaching, continuous improvement and innovation in the delivery of instruction.

Intellectual Guidelines

The department provides an environment that fosters intellectual contribution by the faculty to the body of knowledge of accounting, business law and related fields. The results of faculty involvement in basic, applied and pedagogical research are integrated into the curriculum where appropriate.

Service

Our faculty members are encouraged to provide educational and professional service to the University community, accounting profession and to the public.

Degree Requirements

Major in Accounting

Every candidate for the BBA degree with a major in accounting must fulfill the following requirements in addition to the core curriculum, business foundation and business core requirements described in pages 143 - 148 of College of Business Administration section. Accounting majors must have an average of at least 2.5 in all accounting courses taken in order to graduate.

Accounting Major

<table>

</tr>
</tbody>
</table>

Elective Courses (with approval of advisor)  12 hrs

Twelve hours of upper-level courses.

Coursework in Professionalism and Ethics  4 hrs.

- CIS  3198 Business Analysis and Communication (1 hr.) and
- COMM  3313 Business and Professional Communication (3 hrs.) or
- MGMT  3335 Communication Policy or Strategy (3 hrs.) or
- MARK  3310 Personal Branding and Communication (3 hrs.)

Combined BBA/MSA in Accounting

The combined BBA/MSA allows students to receive simultaneously a BBA in accounting and a MSA degree. The program has been designed to meet the Texas State Board of Public Accountancy’s requirements to sit for the CPA exam in Texas and is available only to accounting majors. In order to be provisionally admitted to the MSA program, a student must meet all of the following criteria:

1. Have completed 75 hours of undergraduate work with an overall GPA of 2.5 or higher.
2. Have a GPA of 3.0 or better in ACC 2301, ACC 2302 and the first accounting course numbered in the 3000 range.

Students with provisional admission to the MSA program will apply for unconditional admittance to the MSA program during the last semester of their senior year. At that time, they must meet the following criteria:

1. Have no more than 15 hours of undergraduate work remaining.
2. Have an overall GPA of 2.5 or higher.
3. Have a GPA in accounting courses of 3.0 or higher.
4. Provide a letter of intent explaining why they wish to obtain the MSA degree.

Unconditional admittance to the program allows the student to begin taking graduate-level courses while completing the remaining undergraduate work. Students who have been provisionally admitted to the MSA program but who fail to be unconditionally admitted during the last semester of their senior year will be expected to meet the BBA in accounting degree requirements in order to receive a bachelor’s degree.

The program of study for the combined BBA/MSA program includes the following requirements in addition to the core curriculum and business foundation requirements described on pages 143 - 148 in the Business Administration section.

### General Overview

The Department of Computer Information Systems and Quantitative Methods offers a BBA with a major in computer information systems based on the curricula recommended by the Association of Information Technology Professionals. This major is designed to prepare students with the broad business and computer-related knowledge necessary to enter the information systems field. A minor in computer
information systems is available to students from all non-business disciplines and is designed to prepare the student for entry-level positions in the computer field.

The department provides Computer Information Systems (CIS) courses for CIS majors, CIS minors, and other majors. It offers Quantitative Methods (QUMT), Management Information Systems (MIS) and Information Systems and Quantitative Methods (ISQM) courses. Also, the department provides computer literacy courses for all majors to satisfy the computer literacy requirement of the University core curriculum.

It is recommended that students receiving a degree from the College of Business Administration certify their communication skills by taking the appropriate test.

Mission

Through a process of continuous improvement, the Department of Computer Information Systems and Quantitative Methods seeks to provide a high quality, future-oriented education program that prepares its graduates with the necessary analytical, technical and managerial background to function effectively in complex, culturally diverse and technologically-oriented professional environments. The department values and encourages a balance of teaching; together with basic, applied and pedagogical research; and service at a level consistent with both the University and college goals and objectives.

Degree Requirements

Every candidate for the Bachelor of Business Administration degree with a major in computer information systems must fulfill the following requirements in addition to the core curriculum, business foundation and business core requirements described on pages 143 - 148 in the above College of Business Administration section.

Computer Information Systems Major  31 hours

Required Courses

- CIS 2301 Business Information Technologies
- CIS 2308 Introduction to Business Programming
- CIS 3335 Database Management Systems
- CIS 3336 Systems Analysis
- CIS 3338 Computer Networks
- CIS 4308 IT Project Management

Elective Courses  9 hours

- CIS 3300 Internship in CIS
- CIS 3308 Advanced Business Programming
- CIS 3312 Web System Programming
- CIS 3320 Organization Information Assurance
- CIS 3395 ERP Implementation

Course Descriptions

A listing of the undergraduate courses offered by the Department of Computer Information Systems and Quantitative Methods can be found beginning on page 260 (CIS) and 374 (QUMT).

General Overview

The Department of Economics and Finance offers degree opportunities in two areas – economics and finance. Students interested in economics may pursue either a Bachelor of Business Administration or a Bachelor of Arts degree. The Bachelor of Business Administration is also available in finance.

Degree Requirements

Economics Major
(BA degree - minor required) 120 total hours

Every candidate for the Bachelor of Arts degree with a major in economics must fulfill the 43-hour core curriculum, three hours of which should be MATH 1340 (College Algebra or higher), with the grade of C or higher. ECON 2301 (Principles of Macroeconomics), with the grade of C or higher, is recommended to fulfill the social/behavioral sciences component of the core. Students who do not take ECON 2301 (passing with the grade of C or higher) as part of the core requirement must take this course as part of their elective courses listed below.

Every candidate must also fulfill the following requirements:

Required Courses 43 hours

Foundations Courses
- ECON 2302 Principles of Microeconomics (with grade of C or higher)
- COMM 1302 Introduction to Communication
  or
- COMM 1303 Presentational Speaking
- POLS 2334 Political Economy
- QUMT 2341 Elementary Business and Economic Statistics
  or
- MATH/STAT 2330 Elementary Statistics and Probability
  or
- SOCI 2301 Statistics for Behavioral Sciences

Plus six hours from the following (i.e., select two of these five options):

- ACC 2301 Introduction to Financial Accounting
- SOCI 1323 Current Social Issues
- PSY 1310 Introduction to Psychology
- ANTH 1323 Introduction to Cultural Anthropology
- Any one upper-level POLS course.

Upper-Level Economics Courses

- ECON 3341 Econometrics (with grade of C or higher)
- ECON 3351 Macroeconomic Theory (with grade of C or higher)
- ECON 3352 Microeconomic Theory (with grade of C or higher)

Plus 18 additional hours of 3000/4000-level ECON courses, each with the grade of C or higher.
Note: Three hours of 3000/4000 FINA courses can be substituted for one ECON course upon approval of department chair.

Elective Courses (with approval of advisor)  29 hours

These electives include the courses required for a minor. At least 24 hours must be in upper-level coursework that is not being used to meet the above requirements.

Note: Students who do not take ECON 2301 (passing with the grade of C or higher) to fulfill the social/behavioral sciences core curriculum requirement must take this course as part of these electives, and earn a grade of C or higher.

Economics Major (BBA degree)

Every candidate for the BBA degree with a major in economics must fulfill the core curriculum, business foundation, and business core requirements described above on pages 143 - 148 in the College of Business Administration section. In addition, every candidate must fulfill the following requirements (with a grade of C or higher):

Required and Elective Courses  27 hours

Required Courses  9 hours

- ECON 3341  Econometrics
- ECON 3351  Macroeconomic Theory
- ECON 3352  Microeconomic Theory

Elective Courses  18 hours

(with approval of advisor)

Six hours of upper-level ECON courses. Twelve hours of upper-level courses.

Coursework in Professionalism and Ethics  4 hours

- CIS 3198  Business Analysis and Communication (1 hr.)
- COMM 3313  Business and Professional Communication (3 hrs.)
- MGMT 3335  Communication Policy or Strategy (3 hrs.)
- MARK 3310  Personal Branding and Communication (3 hrs.)

Finance Major (BBA degree)

Every candidate for the Bachelor of Business Administration degree with a major in finance must fulfill the core curriculum, business foundation, and business core requirements described above on pages 143 - 148 in the College of Business Administration section. In addition, every candidate must fulfill the following requirements (with a grade of C or higher):

Required Core and Business Foundation
Courses  43 hours

Required Courses  9 hours

- FINA 3382  Investment Principles
- FINA 3386  Financial Institutions and Markets
- FINA 4383  Advanced Managerial Finance

Elective Courses  18 hours (with approval of advisor)

Six hours of upper-level FINA courses. Twelve hours of upper-level courses.

Course Descriptions

A listing of courses offered by the Department of Economics and Finance can be found on pages 290 (ECON) and 313 (FINA).

Elective Courses

Students can choose their electives so that they work toward completing one or more of the following track certificates. To qualify for a track certificate, satisfy all of the requirements of that certificate as specified below.

- Certificate in Channel and Logistics – Take four of the following courses (12 hours):
  - MARK 3300 Internship in Marketing
  - MARK 3373 Business to Business Marketing
  - MARK 3375 Retailing
  - MARK 3378 E-marketing
  - MARK 4340 Channels of Distribution
  - INTB 4360 Export Management

- Certificate in Service and Customer Relations – Take four of the following courses (12 hours):
  - MARK 3300 Internship in Marketing
  - MARK 3375 Retailing
  - MARK 3376 Professional Selling
  - MARK 3378 e-Marketing
  - MARK 3379 Services Marketing
  - MARK 3395 Music Marketing
  - MARK 4373 Sales Management

- Certificate in Markets and Strategy - Take four of the following courses (12 hours):
  - MARK 3300 Internship in Marketing
  - MARK 3375 Retailing
  - MARK 3385 Hispanic Marketing
  - MARK 3395 Music Marketing
  - MARK 4350 New Product Development
  - INTB 4365 International Competitiveness
  - MARK 4379 Topics in Marketing
  - MARK 4383 Marketing Research

Applications

- Certificate in Entertainment Business – Complete steps 1 through 4 below (15 Hours):
  1. Either COMM 2304 Television Production or XXXX Theater Management
  2. MARK 3371 Principles of Marketing
  3. Either MARK 3395 Music Marketing or MARK...
4. Select 2 of the following courses:
   - The second choice in No. 1 above
   - The second choice in No. 3 above
   - MARK 3372 Consumer Behavior (marketing majors cannot select this option)
   - MARK 3376 Professional Selling
   - MUS 3311 Essential Elements of Music I
   - MARK 3300 Marketing Internship in Entertainment Industry

   - Certificate in International Business – Complete steps 1 through 4 below (15 Hours):
     1. INTB 3330 International Business
     2. Select 2 of the following 3 courses:
        - INTB 4365 International Competitiveness
        - MARK 4330 International Marketing
        - INTB 4364 International Management
     3. Select 2 other internationally-oriented electives such as
        - The third choice in No. 2 above

General Overview

The College of Education has 66 full-time tenured/tenure-track faculty members and 12 full-time lecturers. Our faculty and staff serve approximately 2,200 undergraduate/post-baccalaureate students, 740 graduate (master’s) students, and 60 doctoral students. The college is comprised of four academic departments: Curriculum and Instruction, Educational Leadership, Educational Psychology, and Health and Kinesiology.

Academic Programs

At the undergraduate level, the college offers a Bachelor of Science degree with majors in kinesiology and health, and Bachelor of Interdisciplinary Studies with undergraduate certification in EC-6 generalist with a specialization in special education, early childhood education, and bilingual education. At the graduate level, the College of Education offers a Master of Education (M.Ed.) with specializations in elementary education, secondary education, early childhood education, bilingual education, special education, reading, guidance and counseling, educational diagnostian, and educational leadership.

The College of Education offers a Master of Arts degree in school psychology, a Master of Science in kinesiology and a Doctor of Education (Ed.D.) in educational leadership.

Although the graduate programs in education are intended primarily for personnel in public/private schools, the knowledge and skills taught are applicable to other agencies. A student may complete some M.Ed. programs at UT Pan American without meeting all the teacher certification requirements. Please consult with the director of each program for more specific guidelines and information.

Credit for 5000-level courses may not be given to a student with previous undergraduate credit in similar courses.

All programs in the College of Education are fully accredited by the State Board for Educator Certification (SBEC).

Mission

The mission of the College of Education is to continuously improve the educational process as it is implemented in the college and the community through teaching, research and service. The college values the rich cultural and linguistic history of the international border area and directs its programs and course offerings toward the preparation of professionals for an increasingly diverse population of learners.

General Information

Undergraduate Admission to Teacher Certification

Teachers in the state of Texas are required by law to hold a valid Texas teacher’s certificate at the appropriate level in the teaching field and specialization to which they are assigned. UTPA is approved by the State Board for Educator Certification (SBEC) to recommend students for teaching certificates in numerous baccalaureate degree fields. The rules adopted by SBEC are part of a larger body of state agency rules that are collected and published by the Office of the Secretary of State as the Texas Administrative Code (TAC). SBEC rules are codified under Title 19, Part VII, of the TAC. Title 19 is Education, and Part VII is the State Board for Educator Certification.

Students seeking a degree with certification must first apply for admission to the appropriate COE teacher preparation program at the Office of Teacher Certification and Admission Services located at the Education Complex, Room 1.302.

Students should be aware that SBEC may adopt new rules or amendments to or repeals of existing rules. Therefore, certification policies and requirements have the potential to change during the course of the student’s academic preparations at UTPA. Students are encouraged to stay in close contact with the Office of Teacher Certification and Admission Services to keep abreast of changes in the college. Students may call the office at (956) 665-3420 or log on to http://www.utpa.edu/colleges/coe/studentservices for more information.

General Requirements for Texas Teaching Credentials

State Board for Educator Certification rules require an individual to have the following qualifications in order to receive a standard certificate (TAC RULE §230.413).

An applicant for a Texas educator certificate must:

1. Be at least 18 years of age.
2. Not be disqualified or the subject of pending proceeding under Chapter 249 of this title, relating to Disciplinary Proceedings, Sanctions and Contested Cases, including enforcement of the Educator’s Code of Ethics.
3. Not be disqualified by federal law.
4. Be willing to support and defend the constitutions of the United States and Texas.
5. Be able to speak and understand the English language sufficiently to use it easily and readily in conversation and teaching.
6. Successfully complete all appropriate examinations (relating to Educator Assessment) for the educator certificate sought.

Texas Testing Requirements for Certification

To be approved for a Standard Texas Teacher’s Certificate

Persons, including those holding a valid out-of-state certificate, shall be required to achieve a satisfactory level of performance on an examination prescribed by the State Board for Educator Certification. The test is called TExES-Texas Examinations of Educator Standards. TExES must be taken and passed for the appropriate level, specialization, certificate and supplement in order to be recommended for certification.

Students who enroll only in a certification program are expected to meet or exceed the admission requirements of students in the regular program that corresponds to that certificate.

Successful completion and awarding of a degree with certification (elementary, middle school, high school or all-level) does not guarantee nor is it a sufficient condition to be recommended for certification. Students must meet all program and applicable state requirements to be recommended for certification.

Criminal Records

In accordance with Article 6252-13c, Texas Civil Statutes, the Texas Commissioner of Education may suspend or revoke a teaching certificate, or refuse to issue a teaching certificate to a person who has been convicted of a felony or misdemeanor for a crime that directly relates to the duties and responsibilities of the teaching profession.

Admission to Teacher Education and Internship II Programs

Admission to Teacher Education

Admission to Teacher Education is required for all undergraduate students seeking teacher certification and enrolling in courses designated as EDCI, EDBE, EDEC, EDMS, EDHS, EDAL, EDUC, READ and SPED. Admission to Teacher Education is required for all undergraduate students seeking teacher certification. Admission requirements include minimum THEA/TASP/ACCUPLACER score and minimum credit hour requirements, as well as GPA and specific grade requirements for entrance to the program. All applicants must meet current admission requirements in effect at the time of application, regardless of catalog year. Applicants previously denied admission must reapply with all required documents in order to be considered for admission. Applicants should receive early advisement and follow application and degree plan requirements closely. Application takes place during the sophomore/junior year if all requirements specified on the application have been completed or will be in place by the end of the semester prior to admission to the program. Please see the application for a list of all requirements. ALL APPLICANTS must meet current admission requirements in effect at the time of application, regardless of catalog year. Applicants previously denied admission must reapply with all required documents.

Application packets and related information are available on the web and in the Office of Teacher Certification and Admission Services, EDCC 1.302, (956) 665-3420. For those pursuing a certification-track degree, most courses are taken in block format based on education program scheduling guidelines as explained during advisement. Please do not register for education coursework unless you have seen your designated College of Education advisor.

Minimum placement exam score requirements

<table>
<thead>
<tr>
<th>Reading</th>
<th>Math</th>
<th>Writing</th>
</tr>
</thead>
<tbody>
<tr>
<td>240</td>
<td>230</td>
<td>240</td>
</tr>
</tbody>
</table>

ACCUPLACER (TACC) is an accepted alternative to the THEA/TASP

<table>
<thead>
<tr>
<th>Reading</th>
<th>Math</th>
<th>Writing</th>
</tr>
</thead>
<tbody>
<tr>
<td>82</td>
<td>82</td>
<td>80 w/5</td>
</tr>
<tr>
<td>Elementary Algebra</td>
<td>writing sample, or any score w/6</td>
<td>writing sample</td>
</tr>
</tbody>
</table>

Applicant may use a combination of THEA and ACCUPLACER qualifying scores (for example: THEA scores for Reading and Math, with an ACCUPLACER score for Writing) to meet score requirements.

Applicant must be Core Complete with a minimum Core GPA of 2.50

To be Core Complete, the applicant must have completed all courses under the Core/General Education section of the degree plan they are following or have earned an Associate of Arts, Associate of Arts in Teaching, or Associate of Science degree from and accredited two-year institution in Texas. Associate degree, course grades, and/or credits used to fulfill the core requirements must be posted in the UTPA Student Information System (Banner) in order to be cleared for admission. Only coursework taken that applies to the UTPA core will be used to calculate the core GPA.
Overall GPA on the degree plan must be 2.50 or better

Overall GPA includes core, major, and minor area course grades. Grades for elective courses or courses not listed on the degree plan are not included in the overall GPA calculation for application purposes. Consequently, the cumulative GPA on the transcript may not be the same as the GPA used for application purposes. All course grades and/or credits used to fulfill the degree requirements must be posted in the UTPA Student Information System (Banner) in order to be cleared for admission.

At least 60 hours must be completed on degree plan

The student is required to complete 60 hours on their degree plan in order to be admitted. Hours completed includes core, major, and minor area course grades. Grades for elective courses or courses not listed on the degree plan are not included in the hours completed for application purposes. All course grades and/or credits used to fulfill the degree requirements must be posted to your UTPA transcript in order to be cleared for admission.

Applicant must meet program requirements specified on application.

Student Fitness to Teach Policy

The College of Education offers a field-based curriculum in teacher preparation programs designed to academically prepare individuals for the teaching profession. However, satisfying the program requirements alone do not make a candidate eligible for UTPA to recommend the candidate for Texas teacher certification. All teacher candidates in UTPA teacher preparation programs are expected to demonstrate that they are prepared to teach children and youth. This preparation results from the combination of successful completion of University coursework, field experiences, and the demonstration of required professional dispositions that all teachers should possess.

Conditions for Enrollment for Internship II/Student Teaching

The Office of Field Experiences (OFE) will review all teacher candidates for admission into Internship II/Student Teaching Program. In accordance with Texas Education Code 22.083, an examination of each teacher candidate's criminal history will be conducted before student teaching. Criminal history record information, which includes both conviction and arrest records, are obtained. An ISD may deny placement of students with a criminal background. The student's clearance for field work is the prerogative of the ISD and not UTPA. It is solely at the discretion of the ISD to accept a student teacher with a criminal background. If a student is unable to obtain a field-based placement, he/she will not meet UTPA's requirements for recommendation for teacher certification. A current negative TB test must be provided with application. Internship II/Student Teaching applications will be evaluated for all teacher candidates using the following requirements:

1. Successfully complete all respective program requirements (including field experience hours, portfolio, etc.).
2. Be within 12 hours of graduation (may be missing six hours on degree plus student teaching coursework 4399 and 4398).
3. Pass respective TExES content exams (for elementary program students only).
4. Complete all education coursework (interdisciplinary area/academic major and minor/academic specialization) with a minimum of 2.50 GPA in respective major and minor.
5. Have a cumulative 2.50 GPA on an official degree plan.

Conditions for Completion of Internship II/Student Teaching

Upon acceptance to Internship II, the student successfully meeting all program requirements, as stated in Internship II/Student Teaching Handbook, will continue on provisional status as a student teacher intern. During Internship II, a student not successfully meeting all program requirements may be placed on probationary status by the director of the Office of Field Experiences in consultation with the University supervisor. If placed on probationary status, the student will be placed on a Growth Intervention Plan. This affords the student an opportunity to clear his/her status. While on probationary status, if the student does not demonstrate progress, he/she may be dropped from the program. However, in cases of serious legal and ethical violations, the Office of Field Experiences in consultation with the OFE Advisory Council reserves the right to remove a student from a classroom and drop a student from Internship II. The student has the right to appeal at any phase of this process.

Completion of Internship II (student teaching) is a condition for meeting Texas teacher certification requirements. Students may attempt Internship II a maximum of two times. If a student does not successfully complete the second Internship II experience, he or she will not be eligible to enroll a third time. The student has the right to appeal in accordance with HOP 5.2.1

Successful Fulfillment of Internship II/Student Teaching

Students will need to complete internship courses with a C or better as a condition for meeting Texas Teacher Certification requirements.
Educator Aide Exemption Candidates and Internship II Requirements

To be eligible for graduation and to be recommended for certification, the following requirements must be met by students who qualify for the Education Aide Exemption.

Must meet minimum hours on the respective degree plan. Must have a minimum of 51 hours of upper-division credit hours.

If enrolled in an EC-6 certification program, students must have a minimum of 24 hours of upper-division education coursework, not including coursework or hours taken as part of the specialization or taken to fulfill other requirements of the degree plan. Students in middle school, high school and EC-12 certification programs must have a minimum of 18 hours of upper-division education coursework.

To fulfill the requirements of 1 to 3, it is recommended that students enroll in their respective student teaching courses: EDUC 4611 (for 4-8, 8-12 and EC-12 certification courses) or EDCI 4398 and EDCI 4399 (for EC-6 programs). Students who do not enroll in the student teaching courses will be required to enroll in directed electives (see page 162 of the Curriculum and Instruction section of the catalog).

Graduation Requirements for EC-6 Teacher Candidates

Students following the EC-6 degree plan must earn a C or better on all interdisciplinary, professional education and specialization coursework specified in their degree plan.

Policy and Advisory Groups

The primary purpose of the University Teacher Education Committee is to recommend policies and procedures related to teacher education. The Teacher Education Committee is composed of two voting members from each of the six academic colleges, the associate vice president for undergraduate studies (ex-officio) and the executive director for the Region I Education Service Center (ex-officio).

In all regards, the Teacher Education Committee will conform to the rules for standing academic committees as per HOP 3.4.4.

The State Board of Educator Certification Rules (19 Texas Administrative Code, Section 228.20) states that the preparation of educators shall be a "collaborative effort among accredited public schools and/or private schools, regional education service centers, institutions of higher education, and business and community interests" and "shall be delivered in cooperation with accredited public schools and/or private schools." It further states that "an advisory committee with members representing each of the above shall assist in the design, delivery, evaluation and major policy decisions of the prepared program."

In accordance with this rule, the Teacher Education Committee has the responsibility for:

- Establishing a committee composed of personnel from public/private schools, Region I Education Service Center, and business and community representatives to advise the Teacher Education Committee in the design, delivery, evaluation and major policy decisions of educator preparation programs.
- Initiating designing, approving, recommending, implementing and evaluating teacher education programs.
- Developing and recommending policies in regard to admission and retention of students in the teacher education program.
- Reviewing and recommending course offerings in the teaching fields and in the professional certification programs.
- Recommending and coordinating staff development activities.
- Reviewing data and making recommendations regarding TExES scores.
- Discussing issues related to educator certification and TExES.

# Bachelor of Interdisciplinary Studies

For Elementary Teachers (grade level EC-6)

In compliance with the Texas Education Code, a Bachelor of Interdisciplinary Studies is offered with certification in the following undergraduate academic specializations:

- Bilingual Generalist EC-6
- Generalist EC-6
- Special Education Generalist EC-6

## Teacher Certification Programs

### Core Curriculum Requirements for Teacher Education Certification

Students pursuing teacher certification must complete an academic major prescribed by the standards for teacher education. Prospective teacher certification students should consult with their major advisors and with the appropriate department in the College of Education.

Students pursuing teacher certification at all certification levels are required to satisfy the University’s core curriculum requirements as specified by the State Board of Education, the Texas Education Agency and the Texas Higher Education Coordinating Board.

### Summary of University Core Curriculum Requirements

<table>
<thead>
<tr>
<th>Category</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication</td>
<td>9 hrs.</td>
</tr>
<tr>
<td>- Six hours of freshman English (ENG 1301 and ENG 1302)</td>

Supplement Requirements

Bilingual and English as a Second Language (ESL) supplements consisting of 9-12 additional hours may be added to a standard teacher certificate.

Supplement: Bilingual Education

The bilingual education supplement may be added to a valid standard teacher certificate. The professional development sequence for the supplement consists of:

1. Oral and written proficiency in the language of the target population as measured by examinations approved by the State Education Agency.
   - Oral proficiency shall be determined by the Bilingual Target Language Proficiency Test (BTLPT) - Spanish
   - Successful completion of TExES/Bilingual Supplemental EC-6.

2. Twelve hours at the graduate or undergraduate level earned after the bachelor's degree as follows:

   - EDBE 3315 or EDBE 6335
   - EDBE 3316 or EDBE 6350
   - EDBE 3322 or EDBE 6322
   - EDBE 4304 or EDBE 6351

Supplement: English as a Second Language (ESL)

The English as a Second Language (ESL) supplement may be added to a valid standard teacher certificate. The professional development sequence for the ESL endorsement consists of the following 12 hours:

- ENG 3319  Introduction to Descriptive Linguistics
- ENG 3321  Language and Culture
- ENG 4328  Introduction to English as a Second Language
- EDBE 3324  English as a Second Language

Students who are completing this supplement as part of their initial teacher certificate should partially fulfill their student teaching requirements with the following course:

- EDCI 4310  Directed Teaching-ESL: Internship II
Certification Requirements For Middle School (4-8)

For the prospective middle school teacher, UT Pan American offers bachelor’s degrees in various academic disciplines with middle school certification through the College of Education. The core curriculum and major requirements for the various academic disciplines are specified by the departments in this catalog. The College of Education offers middle school certification in the following teaching fields:

- English Language Arts and Reading
- Math
- Science

In addition to the core curriculum coursework and the major course requirements, the following requirements apply to students seeking Middle School Texas Teacher Certificate:

**Professional Development 18 hrs.**

- EDUC 4301 Teaching and Learning in Contemporary Schools
- EDUC 4302 Human Development and Learning Theories in the EC-12 Classroom
- EDUC 4303 Teaching Special Populations in Inclusive Classrooms
- EDUC 4304 Instructional Planning and Assessment
- EDUC 4611 Student Teaching

**Additional Requirements 3 hrs.**

- READ 3325 Cognitive Development and Reading Comprehension
- READ 3326 Reading Across the Curriculum Content Areas

For High School (8-12)

For the prospective high school teacher, UT Pan American offers bachelor’s degrees in various academic disciplines with high school certification through the College of Education. The core curriculum and major requirements for the various academic disciplines are specified by the departments in this catalog. The College of Education offers high school certification in the following teaching fields:

- English
- Journalism
- Life Science
- Physical Science
- Social Studies
- Mathematics
- Dance
- Speech Communication

In addition to the core curriculum coursework and the major course requirements, the following requirements apply to students seeking High School Texas Teacher Certificate:

**Professional Development 18 hrs.**

- EDUC 4301 Teaching and Learning in Contemporary Schools
- EDUC 4302 Human Development and Learning Theories in the EC-12 Classroom
- EDUC 4303 Teaching Special Populations in Inclusive Classrooms
- EDUC 4304 Instructional Planning and Assessment
- EDUC 4611 Student Teaching

**Additional Requirements 3 hrs.**

- READ 4351 Learning through Literacy in the Content Areas

Requirements for All-Level Certificates

For the prospective all-level (EC-12) teacher, UT Pan American offers bachelor’s degrees in various academic disciplines with high school certification through the College of Education. The core curriculum and major requirements for the various academic disciplines are specified by the departments in this catalog. The College of Education offers EC-12 certification in the following teaching fields:

- Health
- Physical education
- Art
- Music
- Spanish
- Theater Arts

In addition to the core curriculum coursework and the major course requirements, the following requirements apply to students seeking EC-12 Teacher Certificates:

**Professional Development 18 hrs.**

- EDUC 4301 Teaching and Learning in Contemporary Schools
- EDUC 4302 Human Development and Learning Theories in the EC-12 Classroom
- EDUC 4303 Teaching Special Populations in Inclusive Classrooms
- EDUC 4304 Instructional Planning and Assessment
- EDUC 4611 Student Teaching

**Additional Requirements 3 hrs.**

- READ 4351 Learning through Literacy in the Content Areas
Internship II/Student Teaching

The College of Education offers the Internship II experience as an important component in the preparation of competent teachers. Prospective teacher preparation students should consult with their program advisors and apply at the College of Education Office of Field Experiences. The Internship II admission requirements below are subject to change due to new state agency regulations or College of Education/University-approved policy.

Requirements for Admission to Internship II Semester EC-6 Certification
1. A minimum 2.5 overall GPA on degree plan.
2. A minimum of 2.5 GPA in all core curriculum courses.
3. A 2.5 GPA in all professional education courses.
4. A minimum of C in ENG 1301.
5. A minimum grade of C in MATH 1340, EMAT 2306 and EMAT 2307.
6. Completed minimum of 75 percent of total hours required in the interdisciplinary area with a minimum 2.5 GPA.
7. Satisfactory completion of the following courses in EC-6 Certification Programs: EDCI 3330, EDCI 3331, EDCI 3332, EDCI 3333, EDCI 3334, EDCI 3335 READ 3323 and READ 3325 with a minimum GPA of 2.5.
8. Completed minimum of 75 percent of total hours required in academic specialization with a minimum GPA of 2.5.

4-8 Certification
1. Minimum overall GPA of 2.5.
2. A minimum GPA of 2.5 core curriculum required courses completed.
3. ENG 1301 completed with a minimum grade of C.
4. Successful completion of MATH 1340 with a grade of C or better.
5. Completed minimum of 75 percent of total hours required in major teaching field.
6. Minimum of 2.5 GPA in major.
7. Additional requirements as specified by major department.
8. Completed minimum of 75 percent of total hours required in the minor or second teaching field.
9. Minimum of 2.5 GPA in minor.
10. Additional requirements as specified by minor department.
11. Satisfactory completion of the following courses: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, and READ 4351.
12. Minimum of 2.5 grade GPA in professional education.

8-12 Certification
1. Minimum overall GPA of 2.5.
2. A minimum GPA of 2.5 core curriculum required courses completed.
3. ENG 1301 completed with a minimum grade of C.
4. Successful completion of MATH 1340 with a grade of C or better.
5. Completed minimum of 75 percent of total hours required in major teaching field.
6. Minimum of 2.5 GPA in major.
7. Additional requirements as specified by major department.
8. Completed minimum of 75 percent of total hours required in the minor or second teaching field.
9. Minimum of 2.5 GPA in minor.
10. Additional requirements as specified by minor department.
11. Satisfactory completion of the following Professional Education courses: EDUC 4301, EDUC 4302, EDUC 4303, and EDUC 4304.
12. Six hours in reading: READ 3325, READ 3326.

Internship II Requirements for Educator Aide Exemption Candidates
To be eligible for graduation and to be recommended for certification, the following requirements must be met by students who qualify for the Education Aide Exemption.

Must meet minimum hours on the respective degree plan.
Must have a minimum of 51 hours of upper-division credit hours.
If enrolled in an EC-6 certification program, students must have a minimum of 24 hours of upper-division education coursework, not including coursework or hours taken as part of the specialization or taken to fulfill other requirements of the degree plan. Students in middle school, high school and EC-12 certification programs must have a minimum of 18 hours of upper-division education coursework.
To fulfill the requirements of 1 to 3, it is recommended that students enroll in their respective student teaching courses: EDUC 4611 (for 4-8, 8-12 and EC-12 certification courses) or EDCI 4398 and EDCI 4399 (for EC-6 programs). Students who do not enroll in the student teaching courses will be required to enroll in the following courses.
EC-6 with Bilingual Education Specialization, choose 6 hours from:

- SPED 3320 Survey of the Exceptionalities
- SPED 3322 Literacy Interventions for Students with Disabilities
- SPED 3323 Behavioral Interventions
- SPED 3324 Related Services
- SPED 3325 Curriculum Based Evaluations
- EDEC 4391 Foundations of Early Childhood
- EDEC 4393 Cultural Dimensions Related to Early Childhood
- EDEC 4394 Cognitive and Psychomotor Development in Early Childhood

*EDBE 3315 The Bilingual Curriculum in the Content Areas
*EDBE 3316 The Development of Biliteracy
*EDBE 3322 Foundations of Bilingual Education
*EDBE 3324 English as a Second Language
*Course is taught in Spanish most semesters; therefore, assignments, projects, and exams must be completed in Spanish.

EC-6 Generalist with Special Education Specialization, choose 6 hours from:

- EDEC 4391 Foundations of Early Childhood
- EDEC 4393 Cultural Dimensions Related to Early Childhood
- EDEC 4394 Cognitive and Psychomotor Development in Early Childhood
- *EDBE 3315 The Bilingual Curriculum in the Content Areas
- *EDBE 3316 The Development of Biliteracy
- *EDBE 3322 Foundations of Bilingual Education
- *EDBE 3324 English as a Second Language

EC-6 Generalist with Early Childhood Specialization, choose 6 hours from:

- SPED 3320 Survey of the Exceptionalities
- SPED 3322 Literacy Interventions for Students with Disabilities
- SPED 3323 Behavioral Interventions
- SPED 3324 Related Services
- SPED 3325 Curriculum Based Evaluations
- *EDBE 3315 The Bilingual Curriculum in the Content Areas
- *EDBE 3316 The Development of Biliteracy
- *EDBE 3322 Foundations of Bilingual Education
- *EDBE 3324 English as a Second Language

4-8, 8-12 and EC-12 Certification Programs, choose 6 hours from:

- SPED 3320 Survey of the Exceptionalities
- SPED 3321 Inclusion Issues
- SPED 3322 Literacy Interventions for Students with Disabilities
- SPED 3323 Behavioral Interventions
- SPED 3324 Related Services
- SPED 3325 Curriculum Based Evaluations
- EDEC 4391 Foundations of Early Childhood
- EDEC 4393 Cultural Dimensions Related to Early Childhood
- EDEC 4394 Cognitive and Psychomotor Development in Early Childhood
- *EDBE 3315 The Bilingual Curriculum in the Content Areas
General Overview

The Department of Health and Kinesiology offers a Bachelor of Science degree with majors in health and kinesiology. The department also offers minors in health and kinesiology. At the graduate level, the Department of Health and Kinesiology offers a Master of Science degree with a specialization in kinesiology. As part of The University of Texas System Consortium, an online master’s degree is also offered.

Mission

The mission of the Department of Health and Kinesiology is congruous with that of UT Pan American and the College of Education. Specifically, it is to prepare health and kinesiology students to function professionally in a changing and diverse society, to fulfill the core curriculum requirements and to improve the quality of University life through the understanding, delivery and promotion of physical activity in the wellness program.

Admission to Program

Students must be formally admitted to their respective programs prior to enrolling in 3000- or 4000-level HLTH or KIN courses. Admission criteria are available in the health and kinesiology office located at HPE 1, Room 1.110.

Teacher Certification

The following plans are offered:

- All-Level Health
- All-Level Kinesiology

Degree Requirements

Special Core Curriculum Requirements for Bachelor of Science in Health and Kinesiology

Complete the requirements shown in the University core curriculum requirements section on page 105 of this catalog EXCEPT for the sections, groups, or areas listed below, which must be satisfied only as shown below.

Section B.  Science and Mathematics
Group 1.  Natural Science

BIOL 2403 and BIOL 2404 required

Health Degree Requirements

Health majors should consult with their advisor in the department.

Health All-Level Major - Certified

Twelve hours of electives, nine of which must be upper-division courses 12 hrs.

TOTAL 30 hrs.

Requires an 18-hour institutional minor in a certifiable teaching area. A minimum of six hours must be advanced.

Teacher Certification in Health

Health major must have a GPA of 2.50 or higher and a C or better in all health courses.

Miscellaneous Requirement 3 hrs.

READ 4351  Internship II: Learning through Literacy in the Content Areas
Miscellaneous Electives

Eight hours of which three must be advanced 8 hrs.

Professional Education 18 hrs.

EDUC 4301  Teaching and Learning in Contemporary Schools
EDUC 4302  Human Development and Learning Theories in the EC-12 Classroom
EDUC 4303  Teaching Special Populations in Inclusive Classrooms
EDUC 4304  Instructional Planning and Assessment
EDUC 4611  Student Teaching

Total 120 hrs.

Health Major (non-certified) — requires a minor

Required Courses 30 hrs.

Thirty total hours in health of which 21 must be advanced, including HLTH 1354 and HLTH 4353.

TOTAL 30 hrs.

A health major (non-certified) requires a support area of
21 hours from the following, with a minimum of 18 hours advanced:
CRIJ 1301, CRIJ 3303, HRP 3310, KIN 3365, MARK 3371, PSY 1310, PSY 3324, REHS 2301, SOCI 3324, SOCW 2314, SOCW 3351, SOCW 4320.

**TOTAL** 21 hrs.

**Miscellaneous Electives**

Nine hours of which three must be advanced 9 hrs.

**TOTAL** 120-121 hrs.

**Health Minor (non-certified)**

Eighteen hours in health, of which six must be advanced. There is no certified minor in health.

**Kinesiology Degree Requirement**

Kinesiology majors should consult with their advisor in the department.

**Kinesiology (All-level Major) - Certified**

**Required Courses** 38 hrs.

KIN 1202 Fitness and Wellness
KIN 1351 Introduction to Kinesiology
KIN 1354 Safety and First Aid (must include CPR certification)
KIN 2305 Technical Skills for Team Sports
KIN 2310 Outdoor Education
KIN 2315 Technical Skills for Individual Sports
KIN 2320 Movement Arts
KIN 3340 Kinesiology Activities for Elementary and Middle School
KIN 3345 Biomechanics
KIN 3353 Physiology of Exercise
KIN 3365 Tests and Measurements in Kinesiology
KIN 4351 Adapted Kinesiology
KIN 4360 Physical Education for All-level Kinesiology

Requires an 18 hour institutional minor in a certifiable teaching area. Of the 18 hours, six must be advanced; however, 12 advanced hours are recommended.

**Miscellaneous Electives** 3 hrs

READ 4351 Learning through Literacy in the Content Areas

**Teacher Certification in Kinesiology**

Kinesiology major must have a GPA of 2.50 or higher and a C or better in kinesiology classes. There is also a professional responsibilities component:

1. Health-related fitness assessment
2. First aid and CPR certification
3. Professional membership
4. Service component

**Professional Education** 18 hrs.

EDUC 4301 Teaching and Learning in Contemporary Schools
EDUC 4302 Human Development and Learning Theories in the EC-12 Classroom
EDUC 4303 Teaching Special Populations in Inclusive Classrooms
EDUC 4304 Instructional Planning and Assessment
EDUC 4611 Student Teaching

**Total** 120 hrs.

**Student Teaching**

Please refer to the student teaching section under the Department of Curriculum and Instruction. In addition, health and kinesiology students must satisfy the following as part of their student teaching requirements:

*No student is allowed to student teach in the school(s) from which they matriculated, and no student is allowed to student teach under the supervision of an immediate family member.

**Major in Kinesiology (non-certified)**

**Required Courses** 35 hrs.

KIN 1202 Fitness and Wellness
KIN 1351 Introduction to Kinesiology
KIN 1354 Safety and First Aid
KIN 2305 Team Sports
KIN 2310 Outdoor Education
KIN 2315 Individual Sports
KIN 3340 Kinesiology Activities for Elementary and Middle Schools
KIN 3345 Biomechanics
KIN 3352 Care, Treatment and Prevention of Athletic Injuries
KIN 3353 Physiology of Exercise
KIN 3365 Tests and Measurements in Kinesiology
KIN 3395 Motor Learning
HLTH 3372 Nutrition and Health

**Support Area** 18 hrs.
Select one of the following three areas:

1. Coaching-Theory of Coaching Courses (6 hrs.)
   - KIN 3368 Sports Psychology
   - KIN 3370 Strength and Conditioning
   - KIN 3344 Sports Officiating
   - KIN 4368 Kinesiology Practicum

2. Athletic Training Kinesiology Advanced Elective (3 hrs.)
   - KIN 3370 Strength and Conditioning
   - KIN 3354 CPR for Professional Rescuer
   - KIN 4321 Therapeutic Modalities
   - KIN 4322 Rehab/Therapeutic Modalities
   - KIN 4368 Kinesiology Practicum

3. Health Fitness
   - KIN 3342 Lifestyle Management
   - KIN 3346 Lab Meth Health Instruc I
   - KIN 3348 Lab Meth Health Instruc II
   - KIN 3350 Leadership and Prog Admn
   - KIN 3354 CPR for Professional Rescuer
   - KIN 4368 Kinesiology Practicum

Miscellaneous Advanced Electives 6 hrs.

Requires an 18 hour institutional minor 18 hrs.

TOTAL 120 hrs.

Minor in Kinesiology (non-certified)

Professional Kinesiology (Theory Courses) 18 hrs.

A minimum of six hours advanced.
   - Kinesiology Activity/Wellness Courses 6 hrs.
   - Six hours of activity wellness classes:
     - KIN 1200 (or another aquatic), plus one two-hour activity/wellness activities, plus KIN 1202.

TOTAL 24 hrs.

There is no certified minor in kinesiology.

Athletic Trainer Licensure Program

The Department of Health and Kinesiology and the UT Pan American head athletic trainer provide an avenue for UT Pan American students to secure a Texas State Athletic Trainer Licensure through the Texas Department of Health. An athletic trainer is an allied health care professional primarily concerned with the prevention, recognition, immediate treatment and rehabilitation of injuries incurred in an athletic or sports setting. Athletic trainers are employed in a wide variety of settings including, but not limited to, interscholastic athletic programs, intercollegiate athletic programs, sports medicine clinics and health clubs.

The requirements for licensure are:

Curriculum Requirements
   - BIOL 2403 Anatomy and Physiology
   - BIOL 2404 Anatomy and Physiology
   - KIN 3353 Physiology of Exercise
   - KIN 3345 Biomechanics
   - KIN 3352 Care, Treatment and Prevention of Athletic Injuries Health - any three hours

Apprenticeship (Internship) Requirements
   1. Scheduled interview with UT Pan American head athletic trainer.
   2. Minimum of three academic years (six semesters of fall and spring) under direct supervision of state licensed athletic trainer (UT Pan American head athletic trainer).
   3. A minimum of 600 supervised “lab clock hours” each year for a total of 1,800 hours.
   4. Enrollment as a full-time student at UT Pan American during each of the three academic years (six semesters).

Application Requirements for Texas State License Exam
   1. Student must request an application from the Texas Department of Health.
   2. Student must be within 30 hours of graduation and must have completed at least 1,500 clock hours (five semesters) of apprenticeship.

Texas State License is granted:
   1. Once applicant has successfully passed the Texas State License Exam.
   2. Once applicant has provided proof of graduation from UT Pan American.
   3. Once applicant has all documentation regarding apprenticeship and course requirements in order.
   4. Once applicant has paid his/her licensure fee.
   5. If applicant has not been convicted of a felony or misdemeanor relating to the duties of an athletic trainer.

Course Descriptions

A listing of courses offered by the Department of Health and Kinesiology can be found on pages 325 and 329.
College of Engineering and Computer Science

Dr. David H. Allen,
Dean

Engineering Building, Room 1.294
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-3510
Fax: (956) 665-2428
E-mail: allendh@utpa.edu

GENERAL OVERVIEW

The College of Engineering and Computer Science is one of the fastest-growing colleges at UT Pan American that aspires to produce the technological leaders of tomorrow and further the knowledge and practice of the engineering and computer science professions nationally and internationally. Our goal is to provide our undergraduate students with the best possible education in a stimulating research-oriented and intellectually diverse environment. Our students participate in research and are taught by faculty, who are considered some of the best and brightest in their fields. The college is comprised of the Departments of Computer Science, Electrical Engineering, Manufacturing Engineering, and Mechanical Engineering. There are also undergraduate programs in civil engineering housed in the mechanical engineering department and computer engineering housed within the electrical engineering and computer science departments.

We provide high-quality and innovative undergraduate curricula that prepare our students to be effective, contributing members of a technological society and lifelong learners. The College of Engineering and Computer Science at UT Pan American is a great place to pursue an engineering or computer science degree.

Academic Programs

The College of Engineering and Computer Science offers Bachelor of Science degrees in civil engineering, computer engineering, computer science, electrical engineering, manufacturing engineering, and mechanical engineering. Minor studies are also available in computer science, electrical engineering, manufacturing engineering, and mechanical engineering. All degree programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET), Inc. (111 Market Place, Suite 1050, Baltimore, MD 21202-4012 - telephone: (410) 347-7700) except the newly created civil engineering degree program, which will be reviewed for accreditation later this year.

Schweller, Robert T., Assistant Professor
Tomai, Emmett, Assistant Professor

Introduction

Computer science is the study of the structure, function and application of computers and is central to the rapidly expanding use of information technology. Computers have traditionally been used in business, engineering and scientific applications, and now applications are found in almost all human activities from art to zoology. Computer science is both an applied and theoretical discipline, supported by the principles of science, engineering and mathematics that has a direct and profound impact on the quality of life and society at large.

Mission

The department offers three degrees: Bachelor of Science in Computer Science (BSCS) as a broad-field major, Master of Science (MS) with a major in computer science, and Master of Science in Information Technology (MSIT). The BSCS degree is accredited by the *Accreditation Board for Engineering and Technology Computing Accreditation Commission (CAC/ABET). The department offers a Bachelor of Science in Computer Engineering (BSCE) in cooperation with the Department of Electrical Engineering. The
department also offers service courses to fulfill University core curriculum requirements, and computer science courses required for degree programs in engineering, science, and mathematics. Faculty conduct research in computer science, computer science education, and interdisciplinary fields, and contribute their professional service to student advising, mentoring, professional organizations, University activities, industrial interactions and to the community through professional expertise.

*ABET, Inc., 111 Market Place, Suite 1050; Baltimore, MD 21202; telephone: (410) 347-7700

Goals

The undergraduate curricula in computer science are based on the Association for Computing Machinery and the Institute of Electrical and Electronics Engineers Computer Society recommendations for curricula and reflect the goals of a liberal arts education. The graduate curricula provide advanced and specialized study in the areas of computer science and information technology. The curricula in computer science provides the student with marketable expertise to enter the computing and information technology fields, the skills and education required to adapt to the rapidly changing characteristic of the fields, and the foundation to pursue graduate study in computer science and information technology.

Educational Objectives

The educational objectives for the BSCS degree are to provide graduates with an understanding of social, professional and ethical considerations related to computing; preparedness to enter graduate programs in computing; an ability to be recruited for positions in high-technology companies that utilize their computing education; and an ability to acquire new knowledge in the computing discipline and to engage in lifelong learning.

Program Outcomes

Students graduating from the computer science program should demonstrate knowledge in the introductory core courses, the advanced core courses, and the advanced prescribed elective courses; an ability to work effectively in teams; and an ability to communicate effectively.

Departmental Admission Requirements

Students must have computer experience equivalent to CSCI 1201 or CSCI 1260 and must have completed or be concurrently enrolled in MATH 1340 before enrolling in CSCI 1370 Engineering Computer Science I and CSCI 1170 Engineering Computer Science I Laboratory.

Other Information

The department has access to the well-equipped University computing facilities. Advanced courses and research efforts are supported by departmental computer laboratories.

Degree Requirements

The Department of Computer Science offers a 125-hour Bachelor of Science in Computer Science (BSCS) degree as a 47-hour broad-field major with supporting mathematics and science requirements to meet CAC/ABET accreditation standards. The department offers two 20-hour minors in computer science. The Computer Science for Science and Engineering (CSSE) minor is designed for engineering, science, and mathematics majors, and the CSCI minor is designed for majors in any discipline. Students should seek continual advisement from the computer science faculty beginning from their freshman year to plan a timely completion of their degree. An official degree plan must be filed with the department upon completion of 60 hours of University courses.

Bachelor of Science in Computer Science (BSCS) as a Broad-Field Major

Students pursuing the (BSCS) as a broad-field major must complete the University core curriculum requirements and a computer science core. No minor is required for this degree; however, students may elect to complete a minor.

University Core Curriculum Requirements 43 hrs.

Complete the requirements shown in the University core curriculum requirements section shown on pages 105 of this catalog. PHIL 2393 (Recommended) or PHIL 2390 must be taken to meet the philosophy requirement. Courses to meet the natural science requirement must be taken from biology, chemistry or physics.

NOTE: The computer literacy and mathematics requirements of the University core curriculum requirements can be met by required courses listed below. CSCI 1260 is the recommended computer literacy course for students who need an introduction to the concepts of computer science and programming experience before taking CSCI 1370 and 1170.

Computer Science Core Courses 32 hrs.

CSCI 1101 Introduction to Computer Science
CSCI 1370 Engineering Computer Science I
CSCI 1170 Engineering Computer Science I Laboratory
CSCI 2333 Computer Organization and Assembly Language
CSCI 2344 Programming in the
Unix®/Linux Environment
CSCI 2380  Computer Science II
CSCI 3333  Algorithms and Data Structures
CSCI 3334  Systems Programming
CSCI 3336  Organization of Programming Languages
CSCI 3340  Software Engineering I
CSCI 4325  Automata, Formal Languages and Computability
CSCI 4390  Senior Project

**Designated Computer Science Electives 15 hrs.**

Select three hours from the following programming language courses:
- CSCI 3326, CSCI 3327 or CSCI 3328.

Select six hours from the following:
- CSCI 4333, CSCI 4334, CSCI 4335, CSCI 4345.
- Any six advanced CSCI courses, excluding programming language courses.

NOTE: Only CSCI 4341 may be repeated for credit when topics change.

**Mathematics/Engineering 21 hrs.**

**Lab Science 4 hrs.**

Any four-hour laboratory science course from biology, chemistry or physics. (This is in addition to the University core curriculum requirement, but need not be in the same subject as the eight hours taken for that requirement.)

**Other Electives 6-9 hrs.**

Students must select electives to complete a total of 51 advanced hours in their degree. Depending on the selection of electives, this will require from six to nine hours of advanced electives.

**Other Requirements**

Students must complete all computer science core courses with a grade of C or better.

**Total 125 hrs.**

**Bachelor of Science with a Major in Computer Engineering (BSCE)**

The computer engineering degree is a cooperative program offered jointly with the electrical engineering department. The curriculum for the degree and description of the program can be found on page 175. Courses from computer science are cross-listed as CSCI and CMPE courses. Courses from electrical engineering are cross-listed as ELEE and CMPE courses.

**Faculty**
The Computer Engineering Program is a cooperative program with the Departments of Electrical Engineering and Computer Science. The faculty associated with the Computer Engineering Program have appointments with those departments and teach computer engineering courses.

**Affiliated faculty from the Departments of Electrical Engineering and Computer Science:**
- Abraham, John, Professor
- Brazier, Pearl, Associate Professor
- Yul Chu, Assistant Professor
- Kuang, Weidong, Assistant Professor
- Kumar, Sanjeev, Associate Professor
- Patitz, Matthew, Assistant Professor
- Peng, Jun, Assistant Professor
- Reilly, Christine, Assistant Professor
- Liu, Yang, Assistant Professor

**Introduction**

Computer engineering is a discipline that embodies the science and technology of design, construction and implementation of software and hardware components of modern computing systems and computer-controlled equipment. The body of knowledge for computer engineering includes algorithms, computer architecture and organization, computer systems engineering, circuits and signals, database systems, digital logic, digital signal processing, electronics, embedded systems, computer networks, operating systems, programming, software engineering and discrete structures. The curriculum has been designed following the guidelines of ACM and IEEE model curricula for Computer Engineering in anticipation of meeting *Accreditation Board for Engineering and Technology (ABET) standards. As a new program it is not yet accredited by ABET; however, the program will seek ABET accreditation as soon as all requirements to do so are met. The program awards a Bachelor of Science in Computer Engineering (BSCE).

*ABET, Inc., 111 Market Place, Suite 1050; Baltimore, MD 21202; telephone: (410) 347-7700

**Mission/Objectives**

The Computer Engineering Program is a joint program between the Department of Computer Science and the Department of Electrical Engineering. The Computer Engineering program prepares students to pursue advanced study or to enter the dynamic and interdisciplinary field that continues to experience rapid growth and impacts many aspects of human endeavor. The program is designed to provide students with a balanced perspective of hardware and software, and the analysis, design, and implementation techniques for integrated computer systems. The program has a common core of courses from computer science and electrical engineering, and advanced elective courses to provide the student with the opportunity to support individual interests and provide further depth and breadth to their degree.

In order to provide an awareness of current and emerging industrial practice, the departments will encourage students to participate in professional student organizations, internships or co-op experiences, and scholarly activities including supervised research. Faculty will be readily accessible, will continuously strive to improve and design an up-to-date curriculum, and share their enthusiasm for enhancing their knowledge and research in the computer engineering field.

Graduates will:
- Have the necessary breadth and depth to be productive in the practice of computer engineering or to pursue advanced education in computer engineering.
- Have the skills to be lifelong learners, enabling them to adapt to the rapidly changing nature of the computer engineering field.
- Have an awareness of the technical, business, social, ethical, and human context of their engineering contributions.
Program Outcomes for Computer Engineering

Students graduating from the computer engineering program should demonstrate:

- A knowledge of mathematics and basic sciences necessary for the analysis and design of computer software, hardware and systems.
- An understanding of the principles of computer programming, software engineering, algorithms, data structures, computer organization and architecture, operating systems, and computer networking.
- An understanding of the principles of microprocessor systems, digital electronics, electrical circuits, electronics, and embedded systems, and an understanding of the applications of computer engineering principles.
- An ability to use analysis and design tools to produce integrated systems containing hardware and software.
- A depth and breadth of knowledge that goes beyond the basic skills expected of all computer engineering students with further specialization in either the software track or the hardware track.
- An ability to apply these principles and practices to a variety of computer engineering problems.
- An ability to successfully complete design projects of substantial complexity.
- An ability to understand and learn new technological developments in the field.
- An ability to work effectively in teams.
- An ability to communicate effectively in graphical, oral, and written media.
- An understanding of the professional responsibility of an engineer and how engineering solutions impact safety, economics, ethics, politics, and societal and cultural issues.

There are two distinct tracks available in the Computer Engineering Program — the hardware track and the software track. The objective of the software track is to provide additional concentrated skills in the area of software engineering, quality assurance, database design, and networks. The objective of the hardware track is to provide additional concentrated skills in interfacing, embedded control, instrumentation and networking.

Degree Requirements

Computer engineering education involves the traditional computer hardware education from electrical engineering departments and the computer software education from computer science departments. A computer engineer should have a deep understanding of both hardware and software. In addition, their education program has extensive components of mathematics and science disciplines. During the first two years of the program, students take comprehensive courses in mathematics, physics and chemistry along with introductory courses from computer science and electrical engineering. During the last two years of the program, students take an extensive set of courses in electronics, computing hardware and computing software. With a computer engineering degree, an individual has a balanced view of hardware, software, hardware-software trade-offs, analysis, design, and implementation techniques.

**Computer Engineering — Hardware**

Hardware study focuses on digital circuits and systems, microprocessor interfacing and systems design, system security and computer system architecture and design. Courses in hardware encompass many electrical engineering classes, focusing more on computer and digital systems.

- Computer networks
- Communication systems
- Computer system architecture and design
- Embedded systems
- Microcomputers
- Microprocessor interfacing and system design
- VLSI circuits and systems
- Large-scale hardware and software systems

**Computer Engineering — Software**

Software study focuses on a broad range of topics in computer engineering, including software engineering, computer security, computer networks, computer graphics, computer languages, computer organization and architecture, computer systems, parallel and distributed systems and artificial intelligence. Courses in software encompass many computer science classes, but focusing more on computer architecture, networking, operating, and database systems, and software engineering.

- Software Engineering
- Computer networks
- Computer architecture
- Computer systems
- Database Systems

Special Requirements

As part of the degree, all students must complete a two-semester capstone senior design project, represented by CMPE 4371 and CMPE 4372 or CMPE 4372 and CMPE 4374 in the degree plan. This project must be of substantial scope and complexity, demonstrate competencies from across the curriculum (in particular, the ability to design computer software, electronic hardware and integrate the two in systems) and address the social, economic and ethical consequences of the project.

Overview

Electrical engineering is a broad field with applications in almost all areas of industry including computer systems, control systems, telecommunications, semiconductors, electronics, and electric power. The Department of Electrical Engineering offers a Bachelor of Science in Electrical Engineering (BSEE) degree that is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET*).

This degree provides a broad, solid education in engineering fundamentals as well as the opportunity for in-depth study in specialized topics. Students completing the program will have rigorous foundation for engineering practice in industry as well as for graduate studies in engineering and other disciplines. The program has well-equipped, accessible laboratories and extensive computing facilities. A Master of Science in Engineering (MSE) degree is also offered. For more information, consult the graduate catalog.

Mission

The Department of Electrical Engineering will provide students a quality education to prepare them for the practice of engineering with sufficient depth to continue their education beyond the baccalaureate degree. The curriculum will provide skills that enhance the understanding of the applications of engineering sciences. In order to provide an awareness of current and emerging industrial practice, the department will provide the students the opportunity to participate in professional organization, industrial internships or co-op experiences, and scholarly activities including supervised research. The faculty will be readily accessible and will continuously strive to improve their instructional materials and the methods of dissemination. The faculty will also practice lifelong learning by keeping abreast of and participating in the latest developments in their chosen areas of expertise and interacting across disciplines. The opportunity for student success in the undergraduate programs will be enhanced by liberal access to the computational facilities and laboratories.

Degree Requirements

University Core Curriculum Requirements 43 hrs.

Students must meet the University core curriculum requirements; however, some of the requirements must be fulfilled with particular courses in order to graduate with the minimum number of hours:

English and Literature 9 hrs.
Same as University Requirements

The Arts 3 hrs.
Same as University Requirements

Philosophy 3 hrs.
PHIL 2390 or PHIL 2393

Natural Science 8 hrs.
PHYS 2401 and PHYS 2402

Mathematics 3 hrs.
MATH 1460*

Computer Literacy 2 hrs.
CSCI 1380*

History 6 hrs.
Same as University Requirements

Political Science 6 hrs.
Same as University Requirements

Other Social Science 3 hrs.

General Overview

UT Pan American offers the Bachelor of Science degree in manufacturing engineering that is equivalent in scope to engineering programs at other institutions in Texas. The bachelor's degree has accreditation from the Engineering Accreditation Commission of the *Accreditation Board for Engineering and Technology (ABET) effective May 1996. The engineering curriculum provides a rigorous foundation for engineering practice in industrial and governmental organizations as well as for graduate studies in engineering, business administration, law and medicine. In addition, a number of graduate engineering courses are offered for professional development and a Master of Science degree in engineering-concentration manufacturing.

UT Pan American is located in an industrialized region with numerous manufacturing facilities that provide an unusual opportunity for students to participate in practical applications of engineering knowledge in both the United States and Mexico.

*ABET, Inc., 111 Market Place, Suite 1050; Baltimore, MD 21202; telephone: (410) 347-7700

Mission

The UTPA Department of Manufacturing Engineering will provide a quality engineering education to prepare students for the practice of engineering. A strong laboratory component in the curriculum, with opportunities for industrial internships and research experience, will provide engineering skills that enhance the understanding of the applications of engineering sciences and the importance of lifelong learning. A strong emphasis on verbal and written communication is stressed in all aspects of the curriculum.

Degree Requirements

University Core Curriculum

Requirements 43 hrs.

(Sixteen hours of the University core curriculum requirements are satisfied as part of the basic engineering requirements.) All students must complete the University's core curriculum requirements shown on pages 105 of this catalog EXCEPT for the sections, groups and areas noted below which must be satisfied as shown.

Humanities and Visual and Performing Arts 12 hrs.

Mus select Art, Music, Dance or Theatre Appreciation 3 hrs.

PHIL 2393 3 hrs.

English Literature 3 hrs.

Science and Mathematics 11 hrs.

Computer Literacy 2 hrs.

Social Sciences 3 hrs.

U.S. History 6 hrs.

Elective Courses 9 hrs.

Select three courses from the following:

- ELEE 4303 Digital Systems Engineering II
- ELEE 4375 Introduction to VLSI Design
- ELEE 4380 Computer Architecture
- ELEE 4390 Communication Networks

NOTE: Students should not take both ELEE 4380 and CSCI 4335 or ELEE 4390 and CSCI 4345.

- MANE 4311 Quality Control
- MANE 4331 Manufacturing Planning and Control
- MANE 4352 Manufacturing Simulation

**Course Descriptions**

Courses offered by the Department of Manufacturing Engineering can be found under their respective headings in the course descriptions section beginning on page 333.
#### Mechanical Engineering

**Dr. Robert Freeman,**  
Department Chair

Engineering Building, Room 3.222A  
Telephone: (956) 665-2381  
Fax: (956) 665-3527  
E-mail: rafree@utpa.edu

**FULL-TIME FACULTY**

Ahn, Seokyoung, Assistant Professor  
Allen, David, Professor, Dean  
Caruntu, Dumitru, Assistant Professor  
Choutapalli, Isaac, Assistant Professor  
Crown, Stephen, Professor  
Freeman, Robert A., Professor  
Fuentes, Arturo, Associate Professor  
Jones, Robert E., Professor  
Kypuros, Javier, Associate Professor  
Lozano, Karen, Professor  
Mihut, Dorina, Assistant Professor  
Park, Young-Gil, Assistant Professor  
Qubbaj, Ala, Professor  
Sarkar, Kamal, Lecturer  
Tarawneh, Constantine, Associate Professor  
Vasquez, Horacio, Assistant Professor

**Mission**

The Department of Mechanical Engineering will provide students a quality education to prepare them for the practice of engineering, with sufficient depth to continue their education beyond the baccalaureate degree. The curriculum will provide skills that enhance the understanding of the applications of engineering sciences. In order to provide an awareness of current and emerging industrial practice, the department will provide the students the opportunity to participate in professional organizations, industrial internships or co-op experiences, and scholarly activities including supervised research. The faculty will be readily accessible and will continuously strive to improve their instructional materials and the methods of dissemination. The faculty will also practice lifelong learning by keeping abreast of and participating in the latest developments in their chosen areas of expertise and interacting across disciplines. The opportunity for the student success in the undergraduate programs will be enhanced by liberal access to the computational facilities and laboratories.

**General Overview**

The College of Engineering and Computer Science offers an accredited Bachelor of Science degree in mechanical engineering from the Engineering Accreditation Commission of the *Accreditation Board for Engineering and Technology (ABET) effective 1996*. The mechanical engineering curriculum provides a rigorous foundation for engineering practice in industrial and governmental organizations as well as graduate studies in engineering.

Mechanical engineers possess a broad technical background that enables them to work in virtually every industrial sector. They are concerned generally with the development of energy systems, power generation, environmental control machines and vehicles, as well as materials processing. Mechanical engineers usually work closely with engineers having other specializations.

*ABET, Inc., 111 Market Place, Suite 1050; Baltimore, MD 21202; telephone: (410) 347-7700*

The total course requirements for a Bachelor of Science in mechanical engineering consist of the following:

**Degree Requirements**

**University Core Curriculum**  

<table>
<thead>

**Humanities**  
A course in visual and performing arts.

- ENG 1301 Composition
- ENG 1302 Rhetoric
- ENG 23xx Sophomore Literature
- PHIL 2390 Professional Ethics

**Science and Math**

- MATH 1460 Calculus I
- PHYS 2401 Physics Science and Engineering I
- PHYS 2402 Physics Science and Engineering II

**Social Science**

- ECON 2301 Principles of Economics
- HIST 2313 American Heritage I
- HIST 2314 American Heritage II
- POLS 2313 U.S. and Texas Government and Politics
- POLS 2314 U.S. and Texas Government and Politics

**Other Non-Engineering Courses**

- CHEM 1107 Chemistry in Engineering Lab
- CHEM 1307 Chemistry in Engineering
- MATH 1470 Calculus II
Highly qualified students are expected to obtain advanced standing credit through acceptable test scores on ACT, CEEB (Advanced Placement Test) or CLEP. Common courses for which advanced standing credit can be obtained are:

- CHEM 1107
- HIST 2313
- CHEM 1307
- HIST 2314
- ENG 1302
- POLS 2314
- CHEM 1307
- ENG 1301
- POLS 2313
- MATH 1460
- PHYS 2401

Engineering Courses  68 hrs.

- ELEE 3307  Electrical and Electronic Systems
- MANE 3164  Manufacturing Processes Lab
- MANE 3364  Manufacturing Processes
- MECE 1101  Introduction to Mechanical Engineering
- MECE 1221  Engineering Graphics
- MECE 2303  Statics
- MECE 2304  Dynamics
- MECE 2335  Thermodynamics I
- MECE 2140  Engineering Materials Lab
- MECE 2340  Engineering Materials
- MECE 2450  Numerical Methods and Statistics
- MECE 3115  Fluid Mechanics Laboratory
- MECE 3160  Heat Transfer Laboratory
- MECE 330  4 System Dynamics
- MECE 3315  Fluid Mechanics
- MECE 3320  Measurements and Instrumentation
- MECE 3321  Mechanics of Solids
- MECE 3336  Thermodynamics II
- MECE 3449  Mechanical Engineering Analysis I
- MECE 3450  Mechanical Engineering Analysis II
- MECE 3360  Heat Transfer
- MECE 3380  Kinematics and Dynamics of Machines
- MECE 4101  Fundamentals of Engineering
- MECE 4350  Machine Elements
- MECE 4361  Senior Design Project I
- MECE 4362  Senior Design Project II

Technical Electives (choose nine hours)  9 hrs.

- MECE 3385  Mechanical Vibrations
- MECE 4304  Automatic Control Systems
- MECE 4305  Vehicle Systems Modeling and Control
- MECE 4315  Compressible Fluid Flow
- MECE 4316  Introduction to Acoustics
- MECE 4320  Introduction to Mechatronics
- MECE 4322  Introduction to the Practice of Finite Elements
- MECE 4323  Introduction to Combustion Engineering
- MECE 4324  Thermal Systems Design and Optimization

MECE 4325  Composite Material Design
MECE 4326  Introduction to Ceramics Engineering
MECE 4327  Intermediate Materials Engineering
MECE 4328  Polymer Engineering
MECE 4329  Introduction to Nanotechnology
MECE 4330  Introduction to Physical Metallurgy
MECE 4360  Solar Energy
MECE 4365  Heating, Air Conditioning and Refrigeration Design
MECE 4380  Introduction to Computational Biomechanics
MECE 4381  Orthopedic Biomechanics
MECE 4382  Nonlinear Dynamics and Chaos
MECE 4383  Modeling MEMS and NEMS

TOTAL  127 hrs.

Additional Program Requirements

Students must receive a grade of C or better in all courses that are prerequisites for mechanical engineering courses.

Minor in Mechanical Engineering/Thermal

This minor provides a background in thermal sciences, fluids and heat transfer. It is intended to support majors in chemistry, physics and mathematics. The minor requires a total of 18 hours of mechanical engineering courses, of which six must be at the advanced level. The minor requires certain support courses as prerequisites as shown below.

Required Courses

- MECE 2335  Thermodynamics I
- MECE 2140  Engineering Materials Lab
- MECE 2340  Engineering Materials
- MECE 3315  Fluid Mechanics
- MECE 3115  Fluid Mechanics Laboratory
- MECE 3160  Heat Transfer Laboratory
- MECE 3336  Thermodynamics II
- MECE 3360  Heat Transfer
- MECE 3380  Kinematics and Dynamics of Machines
- MECE 4101  Fundamentals of Engineering
- MECE 4350  Machine Elements
- MECE 4361  Senior Design Project I
- MECE 4362  Senior Design Project II

Prerequisites

- MATH 2401  Calculus III
- MATH 3349  Differential Equations
- PHYS 2401  Physics Science and Engineering I

Course Descriptions

A listing of courses offered by the Department of Mechanical Engineering can be found on page 342.
Civil Engineering

Dr. Blair J. McDonald,
Program Director

Academic Services Building, Room 1.202
1201 W. University Drive
Edinburg, Texas 78539-2999
Telephone: (956) 665-3038
Fax: (956) 665-3527
E-mail: ce@utpa.edu

Full-Time Faculty
Azarbayejani, Mohammad, Assistant Professor
Ho, Jungseok, Assistant Professor
McDonald, Blair, Associate Professor

General Overview

Civil engineers plan, design and supervise construction of facilities and systems used by our society. The wellness and convenience of our modern world is due largely to the infrastructure provided by civil engineers: water treatment plants and distribution systems, sanitary sewer collection and treatment systems, the distribution of electric power, transportation networks, high rise buildings, stadiums, dams, tunnels and bridges are all examples of civil engineering work that supports our civilization. The UTPA Civil Engineering Program began Sept. 1, 2010 with an emphasis in four areas of study: water resources, structures, geotechnical and management engineering. The program awards a Bachelor of Science in Civil Engineering. As a new program, it is not yet accredited by the Engineering Accreditation Commission (EAC) of the Accreditation Board for Engineering and Technology (ABET)*. However, an accreditation visit will be requested following graduation of the first class.

*ABET, Inc., 111 Market Place, Suite 1050; Baltimore, MD 21202; telephone: (410) 347-7700

Mission

The Civil Engineering Program prepares graduates for local, regional or worldwide employment in the engineering profession or placement in a graduate school. The program affords students opportunities to meet and interact with practicing engineers, businesses and government agencies; to participate in professional engineering organizations and in research. The faculty endeavor to be accessible, maintain state-of-the-art instruction and facilities, and to provide liberal access to laboratories and academic support.

Program Educational Objectives

Civil engineering graduates will exhibit professional development, intellectual growth and engagement in professional and community service.

Student Outcomes

At the time of graduation, students will attain:

- An ability to apply knowledge of mathematics, science, and engineering.
- An ability to design and conduct experiments, as well as to analyze and interpret data.
- An ability to design a system, component, or process to meet desired needs within realistic constraints such as economic, environmental, social, political, ethical, health and safety, manufacturability, and sustainability.
- An ability to function on multidisciplinary teams.
- An ability to identify, formulate, and solve engineering problems.
- An understanding of professional and ethical responsibility.
- An ability to communicate effectively.
- The broad education necessary to understand the impact of engineering solutions in a global, economic, environmental, and societal context.
- A recognition of the need for, and an ability to engage in lifelong learning.
- A knowledge of contemporary issues.
- An ability to use the techniques, skills, and modern engineering tools necessary for engineering practice.

Degree Requirements

Civil engineering education is founded upon physical science and mathematics. Lower-division coursework is focused upon gaining knowledge in these areas and then extending it into the realm of engineering science. Upper-division coursework applies the knowledge gained in math and science to analysis and design in specific areas of civil engineering. The course requirements for a Bachelor of Science in Civil Engineering are as follows:

University Requirements** 43 hrs.

General Overview
Recognizing the need for the University to take a leading role in the education of health care and human service professionals, the college, with the assistance and cooperation of regional facilities, is dedicated to providing educational programs necessary to meet the needs for competent health and human service professionals in the Rio Grande Valley, Texas, and the nation.

Mission
The College of Health Sciences and Human Services supports and facilitates the mission of UT Pan American through academic programs of higher education, research and community service. The college is committed to enhancing the quality of life and health care in the Lower Rio Grande Valley binational border community and region. The faculty espouse a holistic multidisciplinary approach to meeting the educational needs of students and the dynamic health and human services needs of a diverse and multicultural society.

Academic Programs
The College of Health Sciences and Human Services offers a Bachelor of Science degree in clinical laboratory science, communication sciences and disorders, dietetics, nursing, and rehabilitation services and a Bachelor of Social Work degree. The Department of Rehabilitation offers a minor in addiction studies as well as a minor in deaf studies. The Departments of Communication Sciences and Disorders, Occupational Therapy, Nursing, Physician Assistant Studies, Rehabilitation and Social Work also offer master’s degrees. A Ph.D. in Rehabilitation Counseling is also available. More information on graduate degrees is available in the Graduate Catalog.

Individual programs offered in the College of Health Sciences and Human Services have specific admissions requirements in addition to the University core curriculum requirements. Most programs also have requirements for student liability insurance, immunizations, and criminal background checks. For specific information on these requirements, see the major department, the advisement center or the college website.

The college faculty provide academic advisement and assistance to students pursuing careers in health sciences and human services. Curricula for programs within the college are structured to provide theory as well as practice-based learning experiences. In order to provide the practice-experience component of the college’s programs, the University negotiated affiliation agreements with numerous health/human service/social service facilities in South Texas and in other regions.

Full-time Faculty
Aguirre, Maria Theresa, Clinical Asst. Professor
Chandler, Karen, Associate Professor
Reyna, Maria Elena, Clinical Asst. Professor
Tijerina, Sandra L., Associate Professor
General Overview

Clinical laboratory science (medical technology) is a profession in which theoretical knowledge in the fields of biology and chemistry is applied in the analysis of various cells and body fluids. Clinical laboratory scientists or medical technologists assist in the diagnosis and treatment of disease conditions through laboratory procedures in hematology, microbiology, immunology, blood banking, clinical chemistry and urinalysis.

The pre-professional curriculum is composed of the University core curriculum requirements plus additional biology and chemistry courses. Admission to the professional portion of the Bachelor of Science in Clinical Laboratory Sciences Program is limited; therefore, students are urged to keep high standards of performance during their pre-professional years. The program is accredited by the National Accreditation Agency for Clinical Laboratory Sciences (NAACLS).*

Mission Statement

The Clinical Laboratory Science Program supports and facilitates the mission of UT Pan American by providing a quality educational experience, which prepares clinical laboratory scientists for leadership roles in a multicultural health care system. It is committed to providing an environment of academic freedom in which students learn from faculty with expertise in the profession. Excellence in teaching is enhanced by faculty engaged in research and creative activity as well as professional service to the profession, the University and the local community.

Program Goals

The Clinical Laboratory Science Program is designed to produce competent and qualified clinical laboratory practitioners to meet the needs of the Rio Grande Valley and the state. It offers the student an opportunity to obtain the knowledge, skills and attitudes necessary to function as competent clinical laboratorians. To these ends, the following goals have been established for the program:

1. Provide a quality education to students enrolled in the Clinical Laboratory Science Program, which will allow them to perform as competent career entry professionals.
2. Provide a flexible curriculum, which meets the needs of the traditional as well as the non-traditional student.
3. Provide a curriculum that presents opportunities for students to develop leadership skills and will enable them to function as an integral part of the healthcare team.
4. Prepare students to meet the unique challenges of a multicultural border health region.

Admission Requirements

The Clinical Laboratory Science Program begins in the fall semester. In order to be considered for admission, the student should submit an application by March 31. The admissions committee meets in April to consider all applications received by March 31. Applications received after March 31 are considered on a space-available basis. A completed application must include official transcripts and three letters of reference.

Successful completion of a criminal background check is also required for full admission into the Clinical Laboratory Science Program. Additional information may be found on the College of Health Sciences and Human Services website. Students will be required to submit a physical examination form once they are admitted to the program. This must document that they have the required immunizations or proof of immunity including measles, mumps, tetanus/diphtheria, rubella and the hepatitis B vaccine.

Admission Course Prerequisites

Core Curriculum Requirements  
43 hours

Complete the University core curriculum requirements EXCEPT for the sections, groups or areas listed below, which must be satisfied only as shown.

Other University Requirements

Proficiency in a language other than English will be required at the undergraduate level. The language (non-English) proficiency equivalent will be six semester credit hours. See advisors for specifics about how this requirement may be met.

Science and Mathematics

*National Accrediting Agency for Clinical Laboratory Sciences, 5600 N. River Rd, Suite 720, Rosemont, IL 60018; Phone: (773) 714-8880; Web: www.naacls.org

Applicants who plan to utilize coursework more than seven years old in the areas of general chemistry or the biological sciences will be required to demonstrate an up-to-date knowledge in these areas. This may be accomplished by either of the following:
1. Completion of at least one formal course in chemistry and one formal course in the biological sciences within the last five years with a grade of at least C.
2. One year of relevant experience in the field of clinical laboratory science within the last five years.

**Other Admission Information**

1. Students should complete all non-clinical laboratory science coursework prior to entering the professional phase of the program. Students who are lacking no more than two non-science prerequisite courses may be considered for admission if they have at least a minimum overall GPA of 3.0. Preference is given to students who have completed all prerequisite coursework.
2. Applications from international students with foreign transcripts or degrees seeking admission to the program and planning to apply for a degree in clinical laboratory science from the University will be handled in accordance with university policies and must meet all applicable degree requirements.
3. Readmission to the program is not automatic and is on a space-available basis.

**Other Requirements**

A minimum GPA of 2.0 and a minimum science GPA of 2.0 is required for admission to the program.

**Alternate Admission Pathways**

A student who does not wish to receive a degree from UT Pan American, but who wishes to attend the professional portion of the curriculum must meet one of the following requirements

1. Hold a baccalaureate degree from an accredited institution and have a minimum of 12 semester hours of chemistry including inorganic and organic or biochemistry and 16 semester hours of biology including microbiology and a college-level math course.
2. Hold a foreign baccalaureate degree from an international institution, meet all admission requirements of UT Pan American and have his or her transcript evaluated by agencies acceptable to the National Certification Agencies. This evaluation must show that his or her degree is equivalent to a baccalaureate in the United States with appropriate coursework in biology, chemistry and mathematics.

3. Have completed all pre-professional coursework at their parent institution with 16 semester hours of biology, including a course in microbiology, 12 semester hours of chemistry including inorganic and organic or biochemistry, three semester hours of college-level mathematics, and an affiliation agreement between The University of Texas-Pan American and his/her parent University.

**Certification Requirements**

Certification requires a baccalaureate degree and satisfactory completion of the accredited Clinical Laboratory Science Program.

**Degree Requirements**

**Major in Clinical Laboratory Science**

**Admission Prerequisite Requirements**

NOTE: Senior-year courses include clinical practicum work that may not necessarily conform exactly to the University calendar. Professional courses are subject to change prior to the time a student starts the program. Students should see their advisor for the most current information.
Program Standing and Academic Progression

Students are required to maintain a grade of C or better in all clinical laboratory science courses. If a student earns a grade lower than a C, he/she must repeat the course at the next regularly scheduled time that it is offered. Students who earn a grade less than a C in any prerequisite course will not be allowed to take any advanced courses, which require that course as a prerequisite. All on-campus courses must be completed with a C or better prior to beginning the clinical rotations. If a student fails to earn a C or better in any two courses, or earns a grade lower than a C in any required course two times, he/she will not be permitted to continue in the program.

Readmission

Students who are dropped from the program for academic reasons are not automatically readmitted. Students must make a formal written request for readmission. Readmission depends on space availability and the student's previous performance in CLSC courses. Students will be notified of their readmission by Aug. 1. The admission committee may require repetition of foundation clinical laboratory science courses or other remedial work in addition to the repetition of courses, which the student previously failed. Students who receive a grade of D or less in the same course twice or drop the same CLSC course twice to avoid a failing grade are ineligible for readmission into the CLSC Program.

Maximum Timeframe

Due to the nature of the practice-oriented curriculum, students admitted into the Clinical Laboratory Science Program must complete all courses in the professional portion of the curriculum within a period of four consecutive years from the date of first enrollment in the program. This maximum time frame is a deviation from the University’s seven-year time limit. Students are also advised that accreditation requirements may impact required courses if there is a delay in completing the normal sequence of courses in the expected timeframe.

TOTAL 123 hours

Course Descriptions

A listing of courses offered by the Clinical Laboratory Science Program can be found on page 263.
Students must lack no more than six courses from the core, electives, or supplemental areas on the degree plan to be eligible to apply to the COMD undergraduate program. The Math/STAT 3337 and the three science courses cannot be included as part of the six courses lacking at the time of the application.

A grade of "C" or higher is required in all of the supplemental courses. Minimum GPA of 2.8 is required to be eligible to apply.

**COMD Undergraduate Program Policies**

- Students must apply and be formally accepted to the Communication Sciences and Disorders Undergraduate Program to enroll in the following courses in the required sequenced blocks: COMD 2310, COMD 3310, COMD 3315, COMD 3320, COMD 3330, COMD 3340, COMD 3355, COMD 3360, COMD 4310, COMD 4330, COMD 4350, COMD 4360, COMD 4365, COMD 4370, COMD 4380, and COMD 4390.

- Non-admitted students may only enroll in COMD 2310, COMD 1310, & COMD 1320.

- Students must lack no more than six courses from the core, electives, or supplemental areas on the degree plan to be eligible to apply to the COMD undergraduate program. Students must complete the three sciences and MATH/STAT 3337 with a C or higher prior to applying to the COMD program. The MATH/STAT 3337 and the three science courses cannot be included as part of the six courses lacking at the time of the application. Refer to COMD for specific science courses required.

- Students must earn a minimum of a C in each of the COMD courses listed in the major on the degree plan.

- Students must earn a minimum of a C in the courses listed in the supplemental area on the degree plan.

- Once accepted, students must follow the required course block sequence. If a student drops a course or receives a D or F in one of the courses listed in the major: COMD 2310, 3310, 3315, 3320, 3330, 3340, 3355, 3360, 4310, 4330, 4350, 4360, 4365, 4370, 4380, 4390, he/she must enroll in that course the next time that it is offered. Students will not be able to progress in the COMD major course sequence should a D or F be earned in the courses aforementioned. The course in which a D or F is received will need to be retaken at the next time that the COMD course is offered.

- If a D or F is earned in a course in the supplemental area (COMD 1310, COMD 1320, PHIL 2330, MATH/STAT 3337, SOC 1313, HRP 2303, and REHS 3320, he/she will be allowed to proceed in the COMD major course sequence, however, must retake the supplemental course in which a D or F was earned the next time it is offered.

- Students must earn a C or higher in the courses listed in the COMD major and supplemental areas of the degree plan to meet requirements for an undergraduate degree in Communication Sciences and Disorders.

- Effective fall 2009, students who have previously been enrolled in COMD major courses and did not complete the degree may have the opportunity to complete the degree as long as none of the completed COMD major courses are more than five years from the re-enter date. If the COMD courses are more than five years of the date the student wishes to re-enter, he/she will have to apply to the program and retake the courses that were more than five years from the re-enter date. Admittance to the program is competitive.

Coordinated Program in Dietetics

Dr. Bahram Faraji, RD, LD
Program Coordinator

Health Sciences and Human Services West (HSHW), Room 2.226
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-5264
Fax: (956) 665-5265
E-mail: bfaraji@utpa.edu
Web: www.utpa.edu/dept/dietetics

Full-Time Faculty
Faraji, Bahram (Bob), Professor
Edionwe, Alexander, Associate Professor
Norma Beardwood, Clinical Assistant Professor

General Overview

The Coordinated Program in Dietetics prepares students to successfully complete the national Registered Dietitian (RD) Exam and be qualified for entry-level positions in administrative, clinical or community dietetics. Graduates will possess additional knowledge and skills that will enable them to work with the specific and unique needs of the local community, which is largely Mexican-American, as well as other areas of the country with large Hispanic populations.

The goals of the dietetics program are to 1) prepare competent entry-level Registered Dietitians to serve the Rio Grande Valley and southern region of the United States, 2) prepare program graduates for graduate-level study and for employment in food- and nutrition-related fields, and 3) develop professionals who are committed to lifelong education and involvement in positive wellness-oriented lifestyles.

The accelerated program combines the academic study of dietetics with the opportunity to apply knowledge in a professional setting. Qualified students complete their education in dietetics in a variety of settings during their junior and senior years. Upon successful completion, students earn a Bachelor of Science degree with a major in dietetics. Upon graduation, they are eligible to become an active member of the American Dietetic Association and take the examination to become a Registered Dietitian (RD) and Licensed Dietitian (LD).

The dietetics program is accredited by the American Dietetic Association's Commission on Accreditation for Dietetics Education (CADE).

Requirements for Admission to the Dietetics Program

A. Submission of the following:

1. Completed application for admission to the Coordinated Program in Dietetics. Call (956) 665-5264 for information.

2. Official transcript showing completion of at least 72 hours with a minimum of 2.7 grade point average to include ENG 1301, ENG 1302, and MATH 2330. Science Support Courses: BIOL 2403, BIOL 2404, CLSC 2429, CHEM 1301, CHEM 1101, CHEM 1302, and CHEM 2302 Dietetic Core: HRP 2303, DIET 2351 and DIET 2352

   NOTE: A minimum GPA of 2.7 with a minimum grade of C in each course is required in the science support courses and dietetic core courses.

3. Three letters of recommendation.

4. A letter from the applicant stating reason for interest in the dietetics program.
5. Completion of a minimum of 80 hours of work-related experience, either volunteer or paid, in the area of dietetics or food service prior to entrance into the dietetics program. This must be documented and verified by the applicant's employer.

B. Selection by the admissions committee is based upon the following:
1. Completion and submission of the required material by Monday after final exam week of Spring semester
2. Grade point average overall based on degree plan (X4) and in science courses (X6).
3. Evaluation of selected references and criteria
4. Admission interview.

Academic Progression

Students are required to maintain a grade of C or better (Grade of C is 75.0-79.9 percent of maximum possible points) in all dietetic courses and supervised practices. If a student earns a grade lower than C, he/she must repeat the course at the next regularly scheduled time that it is offered. If a student fails to earn a C or better in any two or more courses, or earn a grade lower than a C in any dietetic course twice, he/she will not be permitted to continue in the program.

Readmission

Readmission is not automatic. Students desiring readmission must notify the dietetics program in writing at least one semester (or two summer sessions) in advance. Complete information regarding readmission can be obtained in the current Coordinated Program in Dietetics Student Guidebook available from the department.

Graduation Requirements
1. Complete all courses and supervised practices with a grade of C or better. Grade of C is 75.0-79.9 percent of maximum possible points.
2. Complete all five supervised practices totaling at least 1,200 hours.
3. Complete a Junior Comprehensive Exam at the end of junior year and a RD Readiness Exam at the end of senior year before graduation with a minimum of 75 percent of possible points.
4. Complete University graduation requirements.
5. Receive Verification Statement for the RD exam.

Major in Dietetics

Core Curriculum Requirements 43 hours

Complete the University core curriculum requirements section on pages 105 of this catalog EXCEPT for the sections, groups or areas listed here, which must be satisfied only as shown below.

Section B. Science and Mathematics

Group 1. Natural Science

Students should select BIOL 2403 and BIOL 2404, CHEM 1301, CHEM 1101 and CHEM 1302. Otherwise, both sequences must be taken as part of the science support courses.

Section E. Social Sciences

Group 3. Other Social Science

Students must select Economics 1301 and Psychology 1310.

Science Support Courses 10 hours*

General Overview
The Department of Nursing offers a Bachelor of Science and a Master of Science in Nursing, both accredited by the Board of Nursing for the state of Texas and the Commission on Collegiate Nursing Education (1 Dupont Circle, NW Suite 530, Washington, D.C. 20036-1120, Phone: (202) 887-6791).

The Nursing Department supports the mission of the College of Health Sciences and Human Services through programs that educate individuals to meet the health care needs of a culturally diverse society. These programs facilitate the development of competent practitioners with critical thinking skills to provide holistic nursing care to individuals, families, groups and communities. A commitment to fostering research and service that enhance
health promotion, maintenance and restoration is integral to the mission of the nursing department.

**Bachelor of Science in Nursing Program**

The Bachelor of Science in Nursing (BSN) Program is generic in nature with an alternate pathway for registered nurses. It is designed to enable students to integrate knowledge from theory and research, high-level skills and concepts of leadership into the practice of professional nursing care of individuals, families and groups. The BSN Program provides a foundation for graduate study.

BSN graduates are eligible to apply to the Texas Board of Nursing to take the National Council Licensure Examination. After successfully completing this examination, the graduate is issued a license to practice as a registered nurse in the state of Texas.

**Dr. Sandy Sánchez,**
BSN Coordinator

Health Sciences and Human Services East (HSHE),
Room 2.190
Telephone: (956) 665-3491
E-mail: sandy@utpa.edu

**Requirements for Admission to the BSN Program**

1. Meet UTPA's admissions requirements.
2. Have a minimum 2.5 grade point average on a 4.0 scale on all prerequisite courses.
3. Complete all prerequisites with a minimum grade of C in each course (see details on the next page).
4. Pass math quiz (grade of 100).
5. Provide proof of current certification in cardiopulmonary resuscitation (CPR, health care provider).
6. Provide documentation verifying absence of active (infectious) pulmonary disease.
7. Provide documentation verifying current immunization or immunity status for specified diseases (hepatitis B, measles, mumps, rubella, tetanus/diphtheria or tetanus/diphtheria/pertussis, varicella, etc.).
8. Submit evidence of being cleared by the Texas Board of Nursing's criminal background check.
9. Alternate pathway applicants: Be a registered nurse in the state of Texas or have a temporary permit to practice professional nursing in Texas.
10. Submit application to the BSN Program by Oct. 1.
11. Be admitted by the BSN Student Development Committee. After being rank-ordered according to prerequisite GPA, students will be admitted on a space-available basis.
Advanced Placement

Alternate Pathway (RN) students may be granted credit for selected BSN courses after approval by the BSN Student Development Committee.

Computerized Background Checks/Criminal Background Checks

UTPA requires ALL BSN students to undergo a computerized criminal background check. In addition, according to the Texas Nurse Practice Act contained in the Texas Occupations Code, the Texas Board of Nursing (BON) may refuse to admit persons to its examinations.

Any individual who has reason to believe that he/she is ineligible for the license may contact the BON at (512) 305-7400 or visit www.bon.state.tx.us.

Professional Liability Insurance

All students enrolled in clinical nursing courses are required to maintain professional liability insurance. Since “blanket” student coverage is billed along with other student fees, RNs who have their own coverage and do not wish to purchase student coverage must provide appropriate documentation to the BSN coordinator.

Progression Criteria

To continue enrollment in the BSN Program, students must:
1. Maintain at least $1 million in professional liability insurance.
2. Provide annual documentation verifying absence of active (infectious) pulmonary disease.
3. Provide documentation verifying current immunization or immunity for selected diseases (hepatitis B, measles, mumps, rubella, tetanus/diphtheria or tetanus/diphtheria/pertussis, varicella, etc.).
4. Provide annual proof of current certification in CPR (health care provider).
5. Maintain a 2.0 GPA on a 4.0 scale.
6. Achieve a minimum grade of C in each required course. (Any grade below a C is a failing grade.)
7. Satisfactorily complete nursing courses in approved sequence.
8. Alternate Pathway students: Provide evidence of current licensure to practice registered nursing in the state of Texas. Students will not be permitted to continue in clinical courses if a temporary permit expires without a license being issued or if a license to practice registered nursing has expired or been suspended, canceled or revoked.
9. Seek academic advisement each semester regarding program progression.
10. Abide by and adhere to the current BSN Student Guide.

Readmission

Readmission into the BSN Program is not guaranteed. After failing (or dropping) a BSN course, the student must apply for readmission, in writing, to the BSN Student Development Committee before continuing with nursing courses. Students applying for readmission will be considered on a space-available basis pending recommendation of the BSN Student Development Committee and the consent of the course faculty. Students must apply by April 1 for summer or fall readmission or October 1 for spring readmission.

A student who has failed (or dropped) a clinical course may petition to be allowed to enroll in nonclinical courses. Being allowed to do so does not guarantee that the student will be readmitted into the program. Students being readmitted into BSN courses may be required to demonstrate proficiency in select nursing skills (e.g., psychomotor, psychosocial, cognitive, etc.), as determined by course faculty. Students are generally not allowed readmission after a year absence from the BSN Program. Students who fail the same BSN course twice are ineligible for readmission into the program.

Graduation Criteria

1. Achieve a minimum grade of C in each required course.
2. Satisfactorily complete all required courses.
3. Have a 2.0 GPA on a 4.0 scale.
4. File a degree plan approved by the BSN coordinator.
5. File an acceptable Application for Degree with the Office of the Registrar on or before the date specified in the University Calendar.
6. Meet UTPA’s core curriculum requirements for a bachelor’s degree.
7. Pass BSN Readiness Exam.

General Overview

The University of Texas-Pan American offers a Bachelor of Science degree in rehabilitative services. The program has two primary objectives:

• Preparing individuals to enter a wide range of entry-level careers involving work with people who have disabilities.
• Preparing students who have the educational background and desire to continue graduate studies in rehabilitation. Rehabilitation is defined as a comprehensive sequence of services, mutually planned by the person with a disability and the rehabilitation worker, to maximize employability, independence, integration and participation of people with disabilities in the workplace and the community. Total rehabilitation includes physical, mental, economic, familial, social, environmental, personal and vocational goals in life as part of the comprehensive process that is rehabilitation.

The rehabilitation process generally involves three identifiable stages:

1. Medical
2. Physical or technical aid and adjustment services
3. Vocational, social and independent living

In practice, it is found that improvement in the ability to work and to live independently brings about a concurrent adjustment in other areas of an individual's life. Work is a major source of self-esteem and identification.

The undergraduate program at UT Pan American focuses primarily on preparing students to assist individuals during the third phase of the process — vocational, social and independent living — although a basic understanding of the first two phases, and their interrelationships, is essential.

The rehabilitative services student will have an opportunity to learn to help people with disabilities through a series of services designed to conserve, develop or restore the ability of the individual with a disability to become independent in daily living skills and financially through employment.

The undergraduate program at UT Pan American has a special emphasis on the training of bilingual and/or bicultural individuals. The need for such personnel has been demonstrated through feasibility studies conducted since 1982, both in the Rio Grande Valley and nationally.

Career Opportunities

New career opportunities in rehabilitation counseling are emerging rapidly. A student trained in rehabilitative services might seek employment in state vocational rehabilitation agencies, correctional facilities, community mental health programs, vocational evaluation and work adjustment facilities, independent living centers, residential facilities, alcohol and substance abuse programs, private rehabilitation companies and private nonprofit rehabilitation programs. Through our deaf rehabilitation concentration students are prepared to engage in the careers above, but with a focus on individuals with hearing loss.

Other potential employers include the Veterans Administration, Social Security Administration, state employment services, public assistance, private personnel and placement companies, vocational advisory services and special disability organizations. In addition, many private industries employ rehabilitation specialists for their personnel and employee assistance programs.

Admission Requirements

Students seeking admission to the undergraduate program will declare the major as rehabilitative service prior to the year in which they take upper-division rehabilitative service courses. Students will have a minimum 2.4 GPA upon starting upper-division rehabilitative courses.

Program Standing and Academic Progression

Students are required to maintain a 2.4 GPA or better in all rehabilitative service courses. If a student has a GPA lower than 2.4 in rehabilitative services courses, he/she will have two consecutive semesters to increase the GPA to 2.4 or better in rehabilitative services courses. If a student fails to increase their GPA to 2.4 in rehabilitative services courses after two consecutive courses, they are not permitted to continue the program.

Readmission

Students must submit a written request for readmission after a one-semester suspension for not achieving a 2.4 GPA after two consecutive semesters.

**Minor in Rehabilitative Services**

18 hours in rehabilitative services, of which 6 hours must be advanced.

**Minor in Addiction Studies**

| REHS 2301 | Introduction to Rehabilitation |
| REHS 2321 | Introduction to Addiction Studies |
| REHS 3303 | Case Management I |
| REHS 3340 | Intermediate Aspects in Addiction Studies |
| REHS 4340 | Clinical Issues in Addiction Studies |
| REHS 4345 | Culture, Family and Prevention in Addictions |

**Course Descriptions**

A listing of courses offered by the Department of Rehabilitation Services can be found on page 375.
General Overview

The Department of Social Work offers a Bachelor of Social Work (BSW) degree program accredited by the Council on Social Work Education. The BSW is a professional degree built on a liberal arts foundation with supporting course content in the social and behavioral sciences. Department courses provide basic knowledge of the social welfare system, the social work profession and the knowledge necessary for generalist social work practice. The degree program prepares students to pursue graduate study in social work and related professions. The department also offers a Master of Science in Social Work, which is detailed in the Graduate Catalog. Students who complete the BSW may apply for advanced standing in the master’s program.

The overall goal of the BSW program is to impart knowledge, values and skills for beginning professional social work practice with special emphasis on the uniqueness of the bilingual/bicultural Texas-Mexico border. The student will have the opportunity to learn the competencies of the entry-level generalist practitioner. These include such functional skills as the problem-solving approach to assessing needs, intervening, evaluating responses and linking client systems to resources and opportunities for change. A student who wishes to major in social work should successfully complete SOCW 1313 Introduction to the Social Work Profession and 30 hours of University core curriculum requirements, that include English 1301, English 1302, and the MATH requirement.

The student must apply for admission into the social work program. A 2.4 GPA is required for entry into the major. Academic advisement is required for all social work majors. In addition to 43 hours of general education requirements and 39 hours of social work core courses, the student will take eight hours of advanced or non-advanced electives and 24 hours of upper-division support courses. Students must also complete a 480-hour field internship. Approval for field instruction in social work requires an official degree plan and formal approval of the department’s Office of Field Education.

Students in the social work program are eligible for membership in the Social Work Student Association and the National Association of Social Workers (NASW) – Texas Chapter, and local NASW Branch. Upon graduation, a BSW student may be licensed as a social worker (LBSW) under the Texas Professional Social Work Act after passing the Texas licensing exam.

Application Requirements and Procedures

To apply to become a (BSW) social work major, you must have the following:

- 2.5 cumulative GPA (effective Sept. 1, 2011)
- At least 30 hrs. of University core curriculum requirements with a 2.0 GPA
- SOCW 1313 Introduction to Social Work Profession with a grade of C or higher
- 6 hours of freshman English with a grade of C or higher
- 3 hours of college algebra or higher-level mathematics with a C or better

You must complete an application process that includes the following:

- Application for Admission into the BSW Program
- A 300-500-word essay on your interest in becoming a professional social worker
- Copy of unofficial UTPA transcript or degree audit

Before becoming a social work major, you can be designated as a pre-social work major using the code HSH-NON-PSOW. As a pre-social work major, you may not take upper-division social work courses, but you can enroll in any required University core curriculum courses, support courses and the following lower-division social work courses:

- SOCW 1313 Introduction to Social Work Profession
- SOCW 2314 Social Welfare Institution
- SOCW 2375 Statistical Methods for Human Services
Progression Policies

After being admitted into the program, you will be required to meet with an advisor from our faculty every semester before registering for the following semester. The advisor will explain the social work degree plan and help guide you through the program.

During the last semester, you must complete a 480-hour field internship (SOCW 4619) and a field education seminar (SOCW 4353). You must have a cumulative GPA of 2.5 and no incomplete grades. Your advisor will review your degree plan to confirm that you meet all requirements to enroll in the field practicum course. If you would like to be considered for admission into the major for summer or fall, it is best to apply before April 30, and for spring admission before Nov. 30.

Under academic progression requirements, the following courses require a grade of C or higher to progress through the course sequence requirements:

- SOCW 3323 Social Work Practice I, with a grade of C or higher.
- SOCW 4301 Social Work Practice II, with a grade of C or higher.
- SOCW 4302 Social Work Practice III, with a grade of C or higher.

The program adheres to the Student Academic Responsibilities and Appeals policy found in the current UTPA Undergraduate Catalog.

Degree Requirements

Major in Social Work

University Core Curriculum Requirements 43 hrs.

Complete the core curriculum requirements shown on pages 105 of this catalog except for the sections, groups or areas listed below, which must be satisfied only as shown below.

Social Work Core Courses 39 hrs. (30 hrs. are advanced)

SOCW 1313 Introduction to the Social Work Profession
SOCW 2314 The Social Welfare Institution
SOCW 2375 Statistical Methods
SOCW 3321 Human Behavior and the Social Environment I
SOCW 3322 Human Behavior and the Social Environment II
SOCW 3314 Social Welfare Policy and Programs
SOCW 3323 Social Work Practice I
SOCW 4301 Social Work Practice II
SOCW 4302 Social Work Practice III
SOCW 4311 Research for the Social Services
SOCW 4353 Integrative Field Seminar
SOCW 4619 Field Education Block

Support Courses 30 hrs.

Six hours of SPANISH (Non-Native or Native Speaker)

Twelve hours required from the following:

- Three hours (choose one from the following two):
  - PSY 4313 Abnormal Psychology
  - SOCI 4314 Sociology of Deviance

- Three hours (choose one from the following three):
  - PSY 3337 Developmental Psychology: Lifespan
  - PSY 3332 Developmental Psychology: Infancy and Childhood
  - PSY 3333 Psychology of Adulthood: Maturity and Old Age

- Three hours (choose one from the following two):
  - SOCI 4313 American Minorities
  - SOCI 4323 The Mexican-American People

- Three hours (required):
  - SOCI 4352 Social Inequality

Twelve hours of Upper-Division Electives:

- CRJ, REHS, SOCW, PSY, SOCI, POLS, or ANTH

General Electives 8 hrs.

Eight general elective (advanced or non-advanced) hours from any course approved by the University.

TOTAL 120 hrs.

Course Descriptions

A listing of courses offered by the Department of Social Work can be found on page 382.
Cooperative Pharmacy Program

Health Sciences and Human Services West (HSHW)
1201 W. University Drive, E-RAHC 1.100.00
Edinburg, TX 78539-2999
Telephone: (956) 665-5255
Fax: (956) 665-0663

Introduction

The University of Texas-Pan American in cooperation with The University of Texas at Austin College of Pharmacy offers a six-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. The Pharm.D. degree is the sole entry-level degree offered in the United States for those interested in becoming a licensed pharmacist. The Pharm.D. is a professional doctorate designed to prepare pharmacist practitioners to provide patient-oriented care in contemporary settings including, but not limited to, community practice, hospital environments and long-term care facilities.

The Cooperative Pharmacy Program (CPP) was developed to encourage students to consider pharmacy as a career. The CPP offers students the opportunity to complete pre-pharmacy and pharmacy curriculum at UTPA and in the surrounding Rio Grande Valley. The CPP offers two pathways, an early admissions pathway intended for graduating high school students, and a transitional pathway for students enrolled as pre-pharmacy majors at UTPA. Students admitted into the CPP have conditional admission to the UT Austin College of Pharmacy. Final admission approval is afforded by UT Austin College of Pharmacy upon successful completion of pharmacy prerequisites and other CPP requirements.

UTPA students who are not admitted into the CPP, yet are interested in pursuing pharmacy as a career, may apply directly to UT Austin College of Pharmacy upon completion of the required pharmacy prerequisites. Please visit the CPP website for additional information about the profession of pharmacy and links to the other Texas pharmacy programs.

Mission Statement

The mission of the Cooperative Pharmacy Program is to enhance the knowledge, health and well-being of the people we serve in concert with the mission, vision and values of both cooperating campuses of The University of Texas System through the recruitment, training and retention of proficient Doctor of Pharmacy trained pharmacists. The program will strive to encourage the provision of pharmaceutical care by cultivation of our graduate’s critical thinking skills and an appreciation for the need for lifelong learning. The program will foster the development of clinical and transitional research and clinical pharmacy services with other health care providers in the region, state and nation.

Accreditation

The Commission on Colleges of the Southern Association of Colleges and Schools accredits both The University of Texas-Pan American and The University of Texas at Austin. In addition, The University of Texas at Austin College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education, 20 North Clark Street, Suite 2500, Chicago, IL 60602-5109, Phone: (312) 664-3575, (800) 533-3606; fax: (312) 664-4652; Web: www.acpe-accredit.org. Only graduates of accredited programs are eligible to sit for the North American Pharmacist Licensure Examination™ (NAPLEX®) and Multistate Pharmacy Jurisprudence Examination® (MPJE®), both of which are required for licensure in the state of Texas.

Pharmacy Curriculum

The CPP is structured so that the students admitted into the program complete their first two years of pre-pharmacy requirements at UTPA, and then matriculate to UT Austin to complete their first two years of the pharmacy curriculum. Students then return to UTPA and the Rio Grande Valley to complete their third and fourth years of the pharmacy curriculum.

Pre-Pharmacy Years 1 and 2 at UTPA (see next section for details)

Years 1 and 2: Coursework in English, Mathematics and the Natural Sciences.

Pharmacy Curriculum Years 1 and 2 at UT Austin

Year 3: A broad foundation in physiology, pathology, pharmaceutical sciences and pharmacy administration.

Year 4: An interdisciplinary approach to disease management and patient care through case-based learning.

Pharmacy Curriculum Years 3 and 4 at UTPA and in the Rio Grande Valley

Year 5: Advanced coursework in disease management and patient care.

Year 6: Calendar year consisting of seven six-week experiential rotations at pharmacy practice sites around the Rio Grande Valley.

Pre-Pharmacy Course Requirements

The following is an overview of the pre-pharmacy curricular requirements for the CPP and UT Austin College of Pharmacy. Individual degree plans will be developed for students admitted into the CPP.
### Natural Sciences

General Overview

The College of Science and Mathematics provides a strong scientific and technical foundation for all students of UT Pan American. Known for its top-quality research programs, involving undergraduate and graduate students in all areas of science and mathematics, the college is also recognized for its strong teacher preparation programs. Many of our students have attended graduate school or gone on to careers in K-12 education, faculty at community colleges and universities, state and federal government agencies, and private enterprise.

The college consists of the Departments of Biology, Chemistry, Mathematics, and Physics and Geology, which supports various pre-health programs, Environmental Science Program, Center for Subtropical Studies, and the STEM Center (Science, Technology, Engineering, and Mathematics). The Coastal Studies Laboratory, located on South Padre Island, Texas, supports a diversity of research projects, provides K-12 informal education programs, and engages the community in outreach activities relevant to the semi-arid, subtropical coastal ecosystem of southern Texas.

We take pride in our students and strive to make their undergraduate experience in science and mathematics rewarding and enlightening. The College of Science and Mathematics is ranked nationally – first in the number of bachelor’s degrees awarded to Hispanics in biological and biomedical sciences and second in mathematics, and second in the number of Hispanics admitted into medical schools.

Academic Programs

The College of Science and Mathematics offers a Bachelor of Science in biology, chemistry, environmental science, mathematics, physics, and physical sciences. Minors are available in biology, chemistry, biochemistry, mathematics, statistics, geology, astronomy, physics, physical science, earth science, and geographic information system. Secondary school teacher certifications are offered in science, life science, earth science, chemistry, mathematics, and physical science. Also included in the biology and chemistry departments are pre-dental, premedical, pre-optometry, and pre-pharmacy degree curricula.

Mission

The College of Science and Mathematics is committed to excellence in all aspects of scholarship, including instruction, student performance, research, and professional service. The college continues to enhance its efforts to establish nationally recognized research programs that can serve faculty, undergraduate and graduate students in all areas of science and mathematics including a strong teacher preparation program in science and mathematics.

Special Programs in Medicine and Dentistry

The Department of Biology houses a Special Programs Office (SCIE Bldg., Room 1.352) which administers several cooperative programs in premedical and pre-dental education. These programs are designed to provide a pipeline of highly competitive South Texas students into medical and dental school. Each program requires a separate application which must be filed with the Special Programs Office. Application deadlines vary depending on the program with several programs requiring an application as a high school senior. Please contact the special programs coordinator at (956) 665-5216 or stop by the Special Programs Office for applications and additional information. Students accepted into these programs hold a guarantee of acceptance to the partner medical/dental school provided specific program requirements are met. These requirements generally include maintaining a specific overall and science grade point average and earning a specific minimal score on the required standardized test. There may be additional program opportunities and requirements depending on the specific program. The following programs are available through the Special Programs Office:

Programs in Medicine:

- Joint Admission Medical Program with the State of Texas Medical Schools
- Premedical Honors College with Baylor College of Medicine
- Early Medical School Acceptance Program with The University of Texas Medical Branch at Galveston
- Facilitated Admissions for South Texas Scholars with The University of Texas Health Science Center at San Antonio School of Medicine
Programs in Dentistry:

- Early Dental School Acceptance Program with The University of Texas Dental Branch at Houston
- Dental Early Acceptance Program with The University of Texas Health Science Center at San Antonio Dental School
- 3-4 and 4-4 Dual Degree Program with Baylor College of Dentistry

Terry, Matthew, Assistant Professor
Vitek, Christopher, Assistant Professor
Wedig, Cindy M., Lecturer
Zaidan, Frederic III, Associate Professor

General Overview

The Department of Biology offers a major leading to a Bachelor of Science degree and a minor in biology. Biology students may elect a curriculum for a major in biology or biology with certification in 8-12 life science. The department also offers study beyond the Bachelor of Science degree leading to a Master of Science in biology. A limited number of teaching assistantships are usually available. Interested persons should consult the Graduate Catalog and the chair of the Department of Biology.

NOTE: Students are typically expected to furnish their own transportation for field labs.

Degree Requirements

Major in Biology

University Core Curriculum Requirements 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog, using CHEM 1301, 1101, 1302, and 1102 to satisfy the eight hours of natural science requirement.

Core Courses 12 hrs.

BIOL 1401 General Biology or BIOL 1487 General Biology (Honors)
BIOL 1402 General Biology or BIOL 1488 General Biology (Honors)
BIOL 4100 Biology Seminar
BIOL 3302 Biological Writing

Designated Electives 22 hrs.

Select one course from each of the following areas:

Molecular Biology, Cellular Biology, Microbiology or Biotechnology

BIOL 3401 General Microbiology
BIOL 3403 Medical Microbiology and Immunology
BIOL 3412 Cell Biology
BIOL 3415 Introduction to Molecular Biology
BIOL 4404 General Virology
BIOL 4418 Electron Microscopy
BIOL 4420 Biotechnology

Genetics or Biological Evolution

BIOL 3301 Biological Evolution
BIOL 3413 Genetics
BIOL 4317 Disease Epidemiology
BIOL 4330 Molecular Evolution
BIOL 4417 Bacterial Genetics
Developmental or Morphological Biology
- BIOL 2401: Vertebrate Zoology
- BIOL 2402: Comparative Vertebrate Anatomy
- BIOL 3406: Developmental Mechanisms
- BIOL 3405: Histology
- BIOL 3407: Comparative Embryology
- BIOL 3408: Plant Morphology

Organismal or Environmental Biology
- BIOL 2406: Environmental Biology
- BIOL 3409: Ecology
- BIOL 3404: Conservation Biology
- BIOL 3414: Invertebrate Zoology
- BIOL 4303: Mammalogy
- BIOL 4304: Ichthyology
- BIOL 4409: Herpetology
- BIOL 4414: Plant Taxonomy
- BIOL 4415: Entomology
- BIOL 4416: Marine Ecology
- BIOL 4417: Ornithology
- BIOL 4418: Ethnobotany
- BIOL 4419: Medical Entomology
- BIOL 4420: Environmental Biology
- BIOL 4421: Aquatic Entomology
- BIOL 4422: Microbial Ecology
- BIOL 4423: Marine Animal Field Studies
- BIOL 4424: Ichthyology
- BIOL 4425: Plant Pathology
- BIOL 4426: Plant Taxonomy
- BIOL 4427: Plant Morphology
- BIOL 4428: Plant Pathology

Physiology
- BIOL 2403: Anatomy and Physiology
- BIOL 2404: Anatomy and Physiology
- BIOL 3310: Neurobiology
- BIOL 3411: Mammalian Physiology
- BIOL 4313: Endocrinology
- BIOL 4405: Plant Physiology
- BIOL 4411: Ecological Physiology of Animals
- BIOL 4422: Neurobiology Methods

Select additional biology courses to complete 32 hours in biology, of which 22 must be advanced.

Other Requirements

Where appropriate, the following requirements may also be used to satisfy University core curriculum requirements.

Chemistry

Complete all of the following:
CHEM 2302/2102 Organic Chemistry I, MATH 2330 Elementary Statistics and Probability or STAT 2330 Survey of Elementary Statistics

Other Science

PHYS 1401 and PHYS 1402 or GEOL 1401 and GEOL 1402 are recommended, but not required.

Minimum GPA Requirements

A minimum GPA of 2.5 in the required hours for both the major and minor fields is required. A minimum GPA of 2.5 is required for pre-dental, premedical and pre-optometry majors.

Pre-Dental/Premedical/Pre-Optometry

Biology majors interested in attending dental, medical or optometry school are advised to include the following suggested and required courses in their major to maximize their potential for success. A minor in chemistry is suggested for all pre-professional students. Students should check with the health professions adviser at (956) 665-3540 for updated requirements.

Pre-dental students are required to complete BIOL 1401, BIOL 1402, CHEM 1101/1301, CHEM 1102/1302, CHEM 2102/2302, CHEM 2130/2303, and PHYS 1401/1402. The students must complete a minimum of 90 hours and take the Dental Admissions Test (DAT) to apply to Texas dental schools. CHEM 3303 is required by UT Dental Branch in Houston and is highly suggested by the other dental schools. There is no specific mathematics requirement beyond the biology core requirements.

Premedical students are required to complete BIOL 1401, BIOL 1402, CHEM 1101/1301, CHEM 1102/1302, CHEM 2102/2302, CHEM 2130/2303, PHYS 1401 and PHYS 1402. The students must complete a minimum of 90 hours and take the Medical College Admissions Test (MCAT) in order to apply to Texas medical schools. CHEM 3303, BIOL 2402 and PSY 1310 are suggested by the medical schools. Either MATH 1401 or MATH/STAT 2330 is required for acceptance into medical school, however completion of both courses is suggested.

Pre-optometry students must complete a bachelor's degree prior to entering the University of Houston College of Optometry (some out of state schools require only 90 hours). Required coursework to enter optometry school includes: BIOL 1401, BIOL 1402, BIOL 2403, BIOL 2404, BIOL 3401, BIO 3411, CHEM 1101/1301, CHEM 1102/1302, CHEM 2102/2302, CHEM 2130/2303, PHYS 1401 and PHYS 1402. The students must complete a minimum of 90 hours and take the Medical College Admissions Test (MCAT) in order to apply to Texas medical schools. CHEM 3303, BIOL 2402 and PSY 1310 are suggested by the medical schools. Either MATH 1401 or MATH/STAT 2330 is required for acceptance into medical school, however completion of both courses is suggested.

Pre-optometry students must complete a bachelor's degree prior to entering the University of Houston College of Optometry (some out of state schools require only 90 hours). Required coursework to enter optometry school includes: BIOL 1401, BIOL 1402, BIOL 2403, BIOL 2404, BIOL 3401, BIO 3411, CHEM 1101/1301, CHEM 1102/1302, CHEM 2102/2302, CHEM 2130/2303, PHYS 1401 and PHYS 1402. Students must take the Optometry Admissions Test (OAT) in order to apply to optometry school.

Pre-dental, premedical and pre-optometry students who have completed a minimum of 90 hours and the general
core curriculum requirements at UTPA may apply for a Bachelor of Science degree after completion of two years in an accredited college of medicine, dentistry or optometry, with grades acceptable for transfer to UT Pan American. The hours accepted will be credited toward a major and minor in biology or chemistry.

**Major in Life Sciences with Teacher Certification**

Thirty-six hours are required, 21 of which must be advanced.

**Teacher Certification Programs and Requirements**

Admission to College of Education (COE) teacher education programs is required for all undergraduate students seeking teacher certification. Students following high school certification degree plans (grades 8-12) should consult with their adviser in the department in which their degree is offered. They should also seek information from the COE Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302, for admission requirements. Students may call the office at (956) 665-3420 or visit www.utpa.edu/colleges/coe/studentservices for more information.

The professional education courses for high school (8-12) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

**University Core Curriculum Requirements 43 hrs.**

Complete the University core curriculum requirements as shown on pages 105 of this catalog, using CHEM 1301, 1101, 1302, and 1102 to satisfy the eight hours of natural science requirement.

**Core Courses 12 hrs.**

| BIOL 1401 | General Biology |
| BIOL 1487 | General Biology (Honors) |
| BIOL 1402 | General Biology |
| BIOL 1488 | General Biology (Honors) |
| BIOL 4100 | Biology Seminar |
| BIOL 4315 | Inquiry-Based Science |

**Designated Electives 24 hrs.**

Select at least three hours from each of the following areas:

**Molecular biology or Cellular biology**

| BIOL 3406 | Developmental Mechanisms |
| BIOL 3412 | Cell Biology |
| BIOL 3415 | Introduction to Molecular Biology |
| BIOL 4330 | Molecular Evolution |

**Environmental Biology**

| BIOL 2305 | Environmental Biology |
| BIOL 3409 | Ecology |
| BIOL 4426 | Marine Ecology |

**Zoology**

| BIOL 3310 | Neurobiology |
| BIOL 3405 | Histology |
| BIOL 3407 | Comparative Embryology |
| BIOL 3414 | Invertebrate Zoology |
| BIOL 4303 | Mammalogy |
| BIOL 4304 | Ichthyology |
| BIOL 4318 | Medical Entomology |
| BIOL 4407 | Animal Parasitology |
| BIOL 4409 | Herpetology |

**Bachelor of Interdisciplinary Studies Science 4-8 Certification**

**Teacher Certification Programs and Requirements**

Admission to College of Education (COE) teacher education programs is required for all undergraduate students seeking teacher certification. Students following middle school
certification degree plans (grades 4-8) should consult with their adviser in the department in which their degree is offered. They should also seek information from the COE Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302, for admission requirements. Students may call the office at (956) 665-3420 or visit www.utpa.edu/colleges/coe/studentservices for more information.

The professional education courses for middle school (4-8) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 3326, and EDUC 4611.

**University Core Curriculum Requirements** 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog, using PSCI 1421 and 1422 to satisfy the eight hours of natural science requirement.

**Middle School Content** 50 hrs./24 adv.

**General Overview**

The interdisciplinary Bachelor of Science program in Environmental Science provides students with a broad foundation in the sciences and specialized knowledge in environmental biology, chemistry and geology. The program prepares students for careers in government, consulting, and industry as well as entry into graduate school. Employment opportunities include state and federal agencies charged with monitoring and managing the environment, environmental consulting firms, and industry positions in air and emissions monitoring, pollution prevention and remediation, and safety and health. An especially effective and marketable skill developed in this program is the use of geographic information systems and remote sensing techniques, which allow scientists and planners to map, analyze, and predict environmental scenarios.
Degree Requirements

Major in Environmental Science

University core Curriculum Requirements  43 hrs.

Complete the requirements shown in the core curriculum requirements section on pages 105 of this catalog EXCEPT for the following sections, groups or areas listed, which must be satisfied only as shown.

Natural Science and Mathematics

| MATH 1460  | Calculus |

Core Courses

| BIOL 1401  | General Biology I     |
| BIOL 1487  | General Biology I (Honors) |
| BIOL 1402  | General Biology II    |
| BIOL 1488  | General Biology II (Honors) |

CHEM 1301  General Chemistry I
CHEM 1101  General Chemistry I Lab
CHEM 1302  General Chemistry II
CHEM 1102  General Chemistry II Lab

GEOL 1401  Physical Geology
GEOL 1402  Historical Geology
PHYS 1401  General Physics I
PHYS 1402  General Physics II

| MATH 1460  | Calculus I       |
| MATH 2330  | Elementary Statistics and Probability |

ENSC 3400  Environmental Science and Public Policy
ENSC 3401  Environmental Regulations and Impact Analysis

Designated Electives  21 hrs.

Select a minimum of 21 hours from the following list of courses

| BIOL 2406  | Environmental Biology |
| BIOL 3409  | Ecology               |
| BIOL 4403  | Introduction to Remote Sensing Technology |
| BIOL 4416  | Environmental Toxicology |
| CHEM 2101  | Analytical Chemistry Lab |
| CHEM 2301  | Analytical Chemistry  |
| CHEM 4104  | Instrumental Analysis Lab |
| CHEM 4304  | Instrumental Analysis |
| CHEM 4401  | Environmental Chemistry |
| GEOL 3308  | Introduction to Geographic Information Systems |
| GEOL 4302  | Environmental Geology |
| GEOL 4408  | Application of Geographic Information Systems |

Students are required to select electives that will bring their total number of advanced hours to 51 and total hours for the completion of their degree to 120.

Minimum GPA Requirements

A minimum GPA of 2.5 in the required hours for the major is required.

Course Descriptions

A listing of courses can be found under the individual department listings.

General Overview

The Department of Chemistry offers a major leading to a Bachelor of Science degree, certified by the American Chemical Society, and a minor in chemistry. The department also offers programs of study for premedical and pre-dental studies, each leading to a Bachelor of Science degree in chemistry. In addition, the department offers plans of study for pre-pharmacy and teacher certification in chemistry. Through the department undergraduate research projects are offered to highly motivated chemistry majors interested in conducting individual research under the supervision of a faculty member. Such projects offer students the opportunity to obtain knowledge of research methods in a specialized area and proceed to graduate school.

All new students who intend to major in chemistry should schedule an appointment with a faculty adviser within the department. Students are encouraged to consult with their faculty adviser regarding the degree requirements needed to satisfy their professional goals.

Mission

The Department of Chemistry is committed to the mission of providing quality education in the process of preparing students for graduate work or careers in chemistry and the biomedical sciences. The department strives to fulfill its mission by offering a program that leads to an undergraduate major or minor in chemistry. In addition, the department prepares students for admission to schools of dentistry, pharmacy and medicine. The department also offers a program that leads to teacher certification. The chemical curriculum is designed to introduce students to the fundamental fields of chemistry and provides opportunities for chemical research.

The department is committed to engaging in its activities of teaching, research and professional service in an environment of academic freedom. The chemistry department at The University of Texas-Pan American provides an excellent program in helping the University fulfill its responsibility of providing high quality academic programs for the people of this region and the state of Texas.

TOTAL 120 hrs.
Students are required to select electives that will bring their total number of advanced hours to 51 and the total number of hours for the completion of their degree to 120.

NOTE: The Department of Chemistry allows students to receive credits for courses in the curriculum if proficiency is demonstrated in these courses by advanced placement exams such as CEEB or CLEP. Contact the UT Pan American Testing Center for information on advanced placement tests.

Minimum GPA Requirements

A minimum GPA of 2.0 is required for both major and minor fields.

Pre-Dental and Premedical

Chemistry majors in pre-dental and premedical programs are required to complete 18 hours of biology of which six hours must be advanced.

Teacher Certification in Chemistry

Teacher Certification Programs and Requirements

Admission to College of Education (COE) teacher education programs is required for all undergraduate students seeking teacher certification. Students following high school certification degree plans (grades 8-12) should consult with their advisor in the department in which their degree is offered. They should also seek information from the COE Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302, for admission requirements. Students may call the office at (956) 665-3420 or visit http://www.utpa.edu/colleges/coe/studentservices for more information.

The professional education courses for high school (8-12) certification include the following: EDUC 4301, EDUC 4302, EDUC 4303, EDUC 4304, READ 4351, and EDUC 4611.

Pre-Pharmacy

Students are required to complete the following courses in their freshman and sophomore years:

Freshman Year: ENG 1301, ENG 1302; CHEM 1301, CHEM 1101, CHEM 1302, CHEM 1102; BIOL 1401, BIOL 1402; MATH 1401; HIST 2313, HIST 2314;

Sophomore Year: English (sophomore literature) six hours; CHEM 2302, CHEM 2303, CHEM 2102, CHEM 2103; MATH 2330; PHYS 1401; POLS 2313, POLS 2314.

NOTE: The University of Texas at Austin requires one semester of freshman English and one of sophomore English. BIOL 3401 is required by the University of Houston and UT Austin, while Texas Southern University requires BIOL 2402.

The University of Houston also requires COMM 1303, PSY 1310, three hours of social science electives, and six hours of cultural heritage electives, while UT Austin requires six hours of electives. Texas Southern University requires one hour of medical terminology and a three-hour elective in philosophy, music, sociology or psychology. Texas Tech University offers only the Pharm.D. degree. The prerequisites include COMM 1303, ECON 1301, PHYS 1402 and a minimum of 15 hours of electives in the humanities and social sciences. See the faculty adviser in the Department of Chemistry for more information, since curricula at other institutions may vary.

Minor in Chemistry

Requires 18 hours of chemistry of which six must be advanced.

Minor in Biochemistry

Requires 21 hours of CHEM courses of which nine hours must be advanced.

Degree Programs

The Department of Mathematics offers a major in mathematics leading to a Bachelor of Science degree with six concentrations: Applied Mathematics, Pure Mathematics, Secondary Mathematics, Middle School Mathematics, Statistics, and Science and Engineering. It also offers a Bachelor of Interdisciplinary Studies degree in mathematics for certification in grades 4-8 (middle school). In addition, the department offers five minors: Mathematics, Applied Mathematics, Mathematics with Secondary Certification, Middle School Mathematics, and Statistics.

Degree Requirements

Bachelor of Science in Mathematics

University Core Curriculum Requirements 43 hrs.

Complete the requirements shown in the University core curriculum section on pages 105 of this catalog EXCEPT for the sections, groups or areas listed below, which must be satisfied only as shown.

Section B. Science and Mathematics
Group 2. Mathematics
MATH 1460 is the recommended beginning course.

Core Requirements for Mathematics Major (required for all concentrations) 30 hrs.

MATH 1460 Calculus I (grade of C or better)
MATH 1470 Calculus II (grade of C or better)
MATH 2401 Calculus III
College of Science and Mathematics

MATH 3328 Introduction to Proofs (grade of C or better)
MATH 3345 Applied Linear Algebra (grade of C or better)
MATH 4339 Probability and Statistics I
MATH 4351 Modern Algebra I (grade of C or better)
MATH 4357 Real Analysis I (grade of C or better)
MATH 4390 Mathematics Project

NOTE: The student must complete these major course requirements with a 2.25 or better GPA.

Students must also satisfy one of the five concentrations shown below.

Applied Mathematics Concentration Requirements 47 hrs.

Required Courses
- MATH 3337 Applied Statistics I
- MATH 3349 Differential Equations
- MATH 3368 Numerical Methods

Designated Advanced MATH Electives: 9 hours from MATH 3338, MATH 3355, MATH 4317, MATH 4318, MATH 4319, MATH 4329, MATH 4391, MATH 4399* (*MATH 4399 can be used only once).

Other Advanced MATH Electives: 3 hours of any advanced MATH electives other than MATH 3373.

Natural Science: 3 hours beyond core. At least one physics course with lab must be in the core or this concentration.

Computer Science: 3 hours of CSCI. At least one CSCI programming course at or above CSCI 1380 must be in the core or this concentration.

General Electives: 8 additional hours from any subject.

General Advanced Electives: 12 additional advanced hours from any subject.

Secondary Mathematics Concentration Requirements 48 hrs.

Required Courses
- MATH 3303 History of Mathematics
- MATH 3311 Organizational Structures and Processes of Mathematics
- MATH 3333 Mathematics in a Computer Environment
- MATH 3366 Discrete Mathematics
- MATH 4302 Number Theory
- MATH 4304 Modern Geometries

Advanced MATH Electives: 3 hours of any advanced MATH electives other than MATH 3373.

Natural Science: 3 hours beyond core. At least one physics course with lab must be in the core or this concentration.

Computer Science: 3 hours of CSCI. At least one CSCI programming course at or above CSCI 1380 must be in the core or this concentration.

Required Teacher Preparation Courses

- READ 4351 Development Reading in Secondary Schools
- EDUC 4301 Teaching and Learning in Contemporary Schools
- EDUC 4302 Human Development and Learning Theories in the EC-12 Classroom
- EDUC 4303 Teaching Special Populations in Inclusive Classrooms
- EDUC 4304 Instructional Planning and Assessment
- EDUC 4611 Student Teaching
### Middle School Mathematics Concentration

**Requirements**

51 hrs.

3 hours of any advanced MATH electives other than MATH 3373.

#### Computer Science:

3 hours of CSCI. At least one CSCI programming course at or above CSCI 1380 must be in the core or this concentration.

#### General Electives:

8 additional hours from any subject.

### Additional Requirements:

At least one physics course with lab must be in the core or concentration.

### Science and Engineering Concentration

**Requirements**

47 hrs.

- 3 hours of any advanced MATH electives other than MATH 3373.
- 3 hours of COSE electives (excluding MATH, STAT, MMAT, EMAT).
- 18 hours of advanced COSE electives (excluding MATH, STAT, MMAT, EMAT).

#### Computer Science:

3 hours of CSCI. At least one CSCI programming course at or above CSCI 1380 must be in the core or this concentration.

#### General Electives:

8 additional hours from any subject.

### General Advanced Electives:

12 additional advanced hours from any subject.

### Bachelor of Interdisciplinary Studies - Mathematics Teacher Certification for Grades 4-8

This degree option is intended for students seeking certification in mathematics grades 4-8.

### University Core Curriculum Requirements

43 hrs.

Complete the requirements shown in the University core curriculum requirements section on pages 105 of this catalog.

### Middle School Mathematics Requirements

36 hrs.

General Electives: 1 additional hour from any subject.

Note: Grade of C or better required in all EMAT and MMAT courses. A GPA of 2.25 or greater is required for these courses.

Minors in Mathematics

The Department of Mathematics offers five minors tailored to students with various majors and career goals. Consult with the mathematics department undergraduate adviser for the minor that best fits your needs.

Minor in Mathematics

A minor in mathematics requires 23 hours of MATH courses, of which 15 hours must be advanced. This minor must include MATH 1460 or MATH 1487, MATH 1470 or MATH 1488, MATH 3328, MATH 3345, and 9 advanced hours of approved MATH courses which must include at least one of the following: MATH 4302, MATH 4351, MATH 4357, or MATH 4360. All courses in this minor must be completed with a grade of C or better.

Minor in Applied Mathematics

A minor in applied mathematics requires 23 hours of MATH courses, of which 12 hours must be advanced. This minor includes MATH 1460 or MATH 1487, MATH 1470 or MATH 1488, and 15 hours chosen from MATH 2401, MATH 3337, MATH 3338, MATH 3345, MATH 3349, MATH 3355, MATH 3368, MATH 3366, MATH 3373, MATH 4317, MATH 4318, MATH 4319, MATH 4329, MATH 4339, MATH 4340, and MATH 4377. All courses in this minor must be completed with a grade of C or better.

Minor in Mathematics with Secondary Certification

A minor in mathematics with secondary certification requires 26 hours of MATH courses, of which 18 hours must be advanced. This minor includes MATH 1460 or MATH 1487, MATH 1470 or MATH 1488, MATH 3311, MATH 3345, MATH 3337 or MATH 3339, MATH 4304 and 6 hours chosen from MATH 3303, MATH 3333, math 3366, and MATH 4302. All courses in this minor must be completed with a grade of C or better.

Minor in Middle School Mathematics

A minor in middle school mathematics requires the following 24 hours of EMAT and MMAT courses: EMAT 2306, EMAT 2307, MMAT 3309, MMAT 3312, MMAT 3313, MMAT 3315, MMAT 3316, and MMAT 3321. All courses in this minor must be completed with a grade of C or better.

Minor in Statistics

A minor in statistics requires 18 hours of MATH or STAT courses, of which at least 9 hours must be taken from the following list: MATH/STAT 2330 or MATH 2387, MATH/STAT 2335 or MATH 2388, MATH/STAT 3337, MATH/STAT 3338, MATH 4339, MATH 4340, and MATH/STAT 4336. At least 9 hours must be advanced, and the 18 hours of this minor cannot be used simultaneously to fulfill requirements in the student’s major. All courses in this minor must be completed with a grade of C or better.

Course Descriptions

A listing of courses offered by the Department of Mathematics can be found on page 337.
Physics and Geology

Dr. Steven C. Tidrow,
Department Chair

Mission

The Department of Physics and Geology serves the Rio Grande Valley Community and the state of Texas through the development and execution of education programs that provide opportunities for students and professionals to learn about the physical principles, laws of nature, in support of a broad range of disciplines, so that those students and professionals may achieve the foundation, knowledge, skills and abilities, for lifelong learning and the opportunity to earn a reasonable living throughout their lifetime by providing goods and services, as responsible citizens, to improve the standard and quality of living of people within the local, regional and global communities.

General Overview

The Department of Physics and Geology offers a Bachelor of Science degree in physical science, Bachelor of Science in physics and minors in astronomy, earth science, geographic information systems (GIS), geology, physical science and physics. The department also offers secondary and elementary teaching fields in physics, physical science and earth science as well as a Master of Science in Interdisciplinary Studies (MSIS) in physics geared toward teachers.

The departmental program includes interdisciplinary research and teaching that brings the unique perspectives of physics and geology to scientific problems at many spatial and temporal scales. Departmental areas of expertise encompass a range of physics and geology disciplines including, but not limited to astronomy with an active planetarium, atomic, biophysics, computation physics, environmental, molecular, nuclear and particle physics, material science, geophysics, earth science and physics education.

Students are encouraged to actively participate in research endeavors being conducted by faculty. Research facilities include a number of experimental laboratories: Remote Sensing and GPS, Neutron Activation Analysis, Laser Optics, Polymers including self-healing polymers, x-ray diffraction, and physics education research laboratories. Departmental computational facilities include a GIS/Remote Sensing laboratory, an S-node computer cluster for parallel computations and state-of-the-art computational biophysics software. For more information about the department and course offerings visit the departmental website at www.utpa.edu/dept/physsci/.

Degree Requirements

Major in Physical Science

The Bachelor of Science in physical science is a 120-hour degree program consisting of a 43-hour university core curriculum, 24 specified hours of physics, 24 specified hours of chemistry, 8 specified hours of mathematics, 18 specified hours of education, and 3 hours of other specified requirements.

University Core Curriculum Requirements 43 hrs.

Complete the requirements shown in the University core curriculum requirements section on pages 105 of this catalog EXCEPT for the following sections, groups or areas listed, which must satisfied only as shown.

Major Course Requirements

Physics Core Courses 24 hrs.

Physics Core Courses (Offered at least once per year.)
Major in Physics

The Bachelor of Science in physics is a 121-hour degree program consisting of a 43-hour university core curriculum, 36 specified hours of physics, 12 hours of physics electives, 18 other hours of which 6 must be advanced, and 12 hours of other specified requirements in mathematics.

University Core Curriculum Requirements 43 hrs.

Complete the requirements shown in the university core curriculum requirements section on pages 105 of this catalog EXCEPT for the following sections, groups or areas listed, which must satisfied only as shown.

** Admission to College of Education (COE) teacher education programs is required for all undergraduate students seeking teacher certification. Students following high school certification degree plans (grades 8-12) should consult with their adviser in the department in which their degree is offered. They should also seek information from the COE Office of Teacher Certification and Admission Services at the Education Complex, Room 1.302 for admission requirements. Students may call the office at (956) 665-3420 or log on to the Web site for more information at http://www.utpa.edu/colleges/coe/studentservices.
Electives offered once every two years:

### Suggested Course Sequence for Physics Majors:

**Freshman**

- Fall (14 hours): MATH 1460, PHYS 2401, plus 6 hours of core curriculum requirements
- Spring (16 hours): MATH 1470, PHYS 2402, plus 8 hours of core curriculum requirements

**Sophomore**

- Fall (16 hours): MATH 2401 PHYS 3303, plus 9 hours of core curriculum requirements
- Spring (16 hours): Math 3349, PHYS 3402, plus 9 hours of core curriculum requirements

**Junior**

- Fall (16 hours): PHYS 3305, PHYS 3311, PHYS 3101, 3 hour physics elective, plus 6 minor elective hours*
- Spring (17 hours): PHYS 3404, PHYS 4305, PHYS 3102, plus 3 hour physics elective, plus 6 minor elective hours*

**Senior**

- Fall (13 hours): PHYS 3301, PHYS 4303, PHYS 4101, 3 hour physics elective, plus 3 minor elective hours*
- Spring (13 hours): PHY 3302, PHYS 4304, PHYS 4102, 3 hour physics elective, plus 3 minor elective hours*
### Minor in Astronomy

Eighteen hours in Astronomy courses, of which six must be advanced.

Note 1: It is recommended that students fulfill their mathematics core curriculum requirement for their major before taking ASTR 2301 (by taking, for example: MATH 1340 or MATH 1450).

Note 2: For those students planning to take the elective ASTR 3302, it is recommended that they take the series PHYS 2401/2402 as their natural science core requirements for their major, prior to taking ASTR 3302.

Note 3: For those students planning to take the elective ASTR 3303, it is recommended that they fulfill their computer literacy core requirements (by taking, for example CSCI 1380) for the major before taking ASTR 3303.

**Required Courses**

<table>

</tr>
</tbody>
</table>

**Total**

18 hrs.

*NOTE: Education majors need to check with their adviser as to whether or not their natural science core requirements will also satisfy the natural science core courses within this minor.

### Minor in Earth Science

Eighteen hours in geology (GEOL) or the combination of courses in geography (GEOG) and geophysics (GEOP) of which six hours must be advanced.

*NOTE: Education majors need to check with their adviser as to whether or not their natural science core requirements will also satisfy the natural science core courses within this minor.

### Minor in Geographic Information Systems

Choose one two-course sequence from: 8 hrs.*

**TOTAL**

18 hrs.

*NOTE: Education majors need to check with their adviser as to whether or not their natural science core requirements will also satisfy the natural science core courses within this minor.
Minor in Geology

Eighteen hours of geology courses, at least 10 of which must be advanced.

Required Courses 6 hrs.

GEOL 1401 Physical Geology
GEOL 1402 Historical Geology

Choose 3 courses from:
(at least 10 hours advanced) 12 hrs.

GEOL 3401 Geomorphology
GEOL 3403 Oceanography
GEOL 3404 Sedimentology and Stratigraphy
GEOL 3412 Petrology
GEOL 4301 Exploration Geophysics
GEOL 4302 Environmental Geology

Total 18 hrs.

*NOTE: Education majors need to check with their adviser as to whether or not their natural science core requirements will also be satisfied using the natural science core courses for this minor.

Minor in Physical Science

Eighteen hours in the physical sciences of which six hours must be advanced.

Physical Science Core Courses (required) 8 hrs.*

PSCI 1421 Physical Sciences I
PSCI 1422 Physical Sciences II

Electives Courses (Choose one) 3 hrs.

GEOG 2313 Principles of Geography
PSCI 3310 Planet Earth and Its Place in the Solar System
GEOL 3308 Introduction to Geographic Information Systems

Advanced Required Courses 7 hrs.

Choose one from

PSCI 3408 Survey of Physical Science
GEOL 3401 Geomorphology
GEOL 3403 Oceanography

and choose one from

PSCI 4311 Topics in Physical Science
GEOL 4309 Undergraduate Research in Geoscience

Total: 18 hrs.

*NOTE: Education majors need to check with their adviser as to whether or not their natural science core requirements will also be satisfied using the natural science core courses for this minor.

General Overview

The College of Social and Behavioral Sciences is composed of five departments: Criminal Justice, Military Science, Political Science, Psychology and Anthropology, Sociology, and three independent programs in General Studies, Global Security Studies and Public Administration.

The goals of the College of Social and Behavioral Sciences are based on the importance for students to have a liberal arts education, the foundation for all University studies. The college endorses the "Goals of a Liberal Arts Education" found on page 105 of this catalog.

Academic Programs

The college offers the Bachelor of Arts in anthropology, political science, psychology and sociology, the Bachelor of Science in psychology and criminal justice, and the Bachelor of General Studies. Students may minor in anthropology, criminal justice, folklore, global security studies, legal studies, military science, political science, psychology, public administration or sociology.

At the graduate level, students can earn master’s degrees in criminal justice, psychology, public administration, sociology, interdisciplinary studies with a concentration in anthropology and an interdisciplinary master’s in Global Studies and Leadership. More information on master’s degrees is available in the graduate catalog.

The College of Social and Behavioral Sciences helps provide students with a liberal arts education by offering instruction in several areas. Students also can satisfy the University core curriculum requirement for social science courses (see page 105) by taking classes within the college.

Additionally, the Department of Military Science provides ROTC training that can lead to commissioning in the Army, Army Reserve or National Guard.

Bachelor of General Studies

Dr. Shelia Pozorski, Coordinator

Social and Behavioral Sciences Building, Room 329
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-3329
Fax: (956) 665-3333
E-mail: spozorski@utpa.edu

Program Description

The general studies degree consists of three minors. No major is required. Students will complete a minimum of 120 hours with at least 51 hours of advanced coursework. Students will develop their academic programs in consultation with the general studies program coordinator, and the academic advisors for the departments or disciplines involved.

Program Requirements

Core Curriculum Requirements 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog.

Required Courses: 54 hrs.

- Minor 18 hours minimum; all requirements for minor must be met (minimum of 12 advanced hours)
- Minor 18 hours minimum; all requirements for minor must be met (minimum of 12 advanced hours)
• Minor 18 hours minimum; all requirements for minor must be met (minimum of 12 advanced hours)

The three minors selected may come from any academic department within the University that offers a major or minor. Students must complete all the requirements for each minor. Some minors may require more than 18 hours per minor.

Free Electives 23 hrs.
Including a minimum of 15 advanced hours.

Other Requirements
A minimum of 51 hours of advanced coursework.

TOTAL 120 hrs.

Global Security Studies

Dr. Sandra Hansmann,
Program Director
E-mail: shansmann@utpa.edu

Nick Weimer,
Director
Lamar Building, Room 121
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-8088
Fax: (956) 665-8089
E-mail: newimer@utpa.edu

Minor in Global Security Studies (GSST)
The Global Security Studies minor is appropriate for any major. Its purpose is to prepare students for careers in intelligence, national security, and other sectors of the global economy through advanced interdisciplinary studies. The minor degree focuses on advanced research, effective cross-discipline team communication, and critical analysis. The GSST minor prepares students to work with people from different backgrounds, abilities, and knowledge bases. Students gain perspective and proficiency from multiple disciplines related to careers in the global economy.

Requirements
The GSST minor consists of 18 semester hours of study, including a foundational nine-hour Core Sequence of advanced undergraduate interdisciplinary, team-based, communication-intensive research and instruction, and a nine-hour content concentration, such as language, comparative politics, international studies, science and engineering, education, health sciences, etc. The options permit broad higher order knowledge and skill integration as required by future employers.

Advising
Students electing the Global Security Studies minor must receive advising by the minor advisor. The minor advisor must approve all minor coursework. For more information on the minor, visit www.utpa.edu/gssl.

Public Administration

Dr. William L. Turk,
Director
Social and Behavioral Sciences Building,
Room 229
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-2545
Fax: (956) 665-2139
E-mail: turk@utpa.edu

Minor in Public Administration
The College of Social and Behavioral Sciences offers both a minor and a master’s degree in public administration. The field of public administration orients one toward a career in public service in government agencies at the federal, state, regional and local levels, and in nonprofit organizations.

The public administration minor requires the completion of 18 semester hours.

Select six courses from the following list:

<table>

</tbody>
</table>
The learning objectives of the Department of Criminal Justice are:

1. Develop the knowledge of criminal justice theories and practices and professional abilities to address criminal justice issues for crime control.

2. Gain a liberal arts education to help understand human behavior and cultural diversity, and follow ethically fair practices and integrative values to serve and live in a democratic society.

3. Develop abilities and skills to analyze crime and criminal justice issues in a disciplined and critical manner for policy-making and problem solving.

Degree Requirements

Major in Criminal Justice

Upon completion of all requirements students will be awarded a Bachelor of Science in Criminal Justice (BSCJ) degree with a major in criminal justice.

University Core Curriculum Requirements 43 hrs.

Complete the core curriculum requirements as shown on pages 105 of this catalog.

NOTE: The Department of Criminal Justice strongly advises students to take Philosophy 2390 - Professional Ethics.

Criminal Justice Requirement (Core 27 + Electives 21) 48 hrs.

Criminal Justice Core 27 hrs.

Each student must complete a minor selected from a discipline other than criminal justice. The specific minor should be selected in consultation with a faculty advisor. Departments vary in the number of required total semester hours and number of required advanced hours in their respective minors. Some departments offer minors requiring only six advanced hours but allow additional advanced hours to be selected from electives.

## Minor in Criminal Justice  

The criminal justice minor requires the completion of 18 semester hours in criminal justice. Nine semester hours must be advanced. Criminal justice majors cannot minor in criminal justice.

## Course Descriptions  

A listing of courses offered by the Department of Criminal Justice can be found on page 278.
Military Science

Lt. Col. Maricela Alvarado,
ROTC Department Chair

Lamar Building B, Room 104
1201 W. University Drive
Edinburg, TX 78539-2999
Telephone: (956) 665-3600
Fax: (956) 665-3603
E-mail: rotc@utpa.edu

Full-Time Faculty
Alvarado, Maricela, Lieutenant Colonel, Professor
Wright, Kenneth E., Captain, Assistant Professor
Gonzalez, Able, CPT Assistant Professor
Petit, Kevin, 1st Lieutenant, Recruiting Operations Officer
Santos, James, Master Sergeant, Senior Instructor
Miles, Michael G., Master Sgt. (Retired), Enlisted Instructor

General Overview

The departmental objective is to develop selected men and women with potential to serve as commissioned officers in the active Army, National Guard or Army Reserve. Army ROTC will give you valuable real-world tools and leadership skills that will benefit not only your professional career but your personal life as well. Army ROTC is an elective curriculum you take along with your required college classes. It prepares you with tools, training and experiences that will help you succeed in any competitive environment. Along with great leadership training, you will have a normal college student experience like everyone else on campus, but when you graduate, you will be an officer in the Army. Students in the program have the opportunity to:

1. Enhance leadership and managerial potential.
2. Attain a basic understanding of military fundamentals and national security.
3. Attain a clear understanding of the concept of military art and science.
4. Develop a strong sense of personal honor, integrity and individual responsibility.

ROTC Faculty Advisory Committee

The ROTC Faculty Advisory Committee, composed of nine advisors from different departments, serves as liaison with the Department of Military Science and helps provide guidance on career opportunities with the Army, Army Reserve or National Guard for students of other departments at UT Pan American.

Army Scholarship Program

Students who meet prerequisites may compete for nationally or state-awarded U.S. Army scholarships that pay for tuition, books, fees and other purely educational costs and provide a tax-free monthly subsistence allowance for 10 months of each year the scholarship is in effect. Free room and board is available on campus for a limited number of students, with priority going to ROTC scholarship winners. Several application deadlines exist. Contact the Department of Military Science for details.

Veterans Assistance

Veterans who enroll in upper-level military science receive a tax-free monthly subsistence allowance for 10 months each of the two years, in addition to benefits provided by the Veterans Administration, Army Reserve or National Guard.

Simultaneous Membership Program (SMP)

Eligible students are allowed to participate with Army Reserve units or the National Guard combined with College ROTC. In addition to Reserve or National Guard pay, the student receives ROTC pay. The Simultaneous Membership Program allows you to attend Army ROTC and serve in the U.S. Army Reserve or Army National Guard at the same time. It gives you an opportunity for additional training and experience. Cadets serve as officer trainees in the Reserve or National Guard while completing college. You can earn Reserve/Guard pay and benefits in addition to your Army ROTC allowances. Upon completion of a bachelor’s degree and the ROTC program, the student may be commissioned in the active Army, Army Reserve or National Guard in the rank of second lieutenant.

Departmental Activities

The Department of Military Science sponsors several extracurricular activities such as the annual Military Ball, Dining-Out, JROTC Day, Field Training Exercises, JROTC Ranger Challenge Competition, and The Alamo Staff Ride. Additional opportunities to participate in team events are available in Color Guard, Bronc Club and Ranger Challenge.

Army Training

Selected cadets enrolled in the course may be eligible to compete for attendance to either the Airborne, Air Assault, Northern Warfare, Mountain Warfare, Study Abroad Internships, or Cadet Troop Leadership Training. Selection is based on motivation, physical condition and performance in military science.
Minor in Military Science

The Department of Military Science offers a minor in military science and a commission as an officer in the active Army, Army Reserve or National Guard through the ROTC program on the Edinburg campus.

- No commitment or obligation for lower-level courses.
- Students need not seek a career in the U.S. Army to enroll in lower-level courses such as marksmanship and first aid, survival and land navigation training, and basic leadership, which provide the opportunity to increase individual skills and knowledge in leadership and management techniques in and outside the classroom. Lower-level courses also fulfill the physical education requirement for the University core curriculum requirement.

Requirements for Advanced Military Science

Standing and Commissioning

1. Complete four semesters of lower-level ROTC courses or have advanced credit as a veteran, or from USAR/ARNG Basic Training, ROTC Basic Camp, or have JROTC credit and approval.
2. Maintain full-time student status.
3. Pass a military physical examination.
4. Pass the ROTC Physical Aptitude Examination.
5. Maintain an overall GPA of 2.0.
6. Sign an Advanced ROTC and Commissioning Agreement.
7. Successfully complete four semesters of advanced ROTC courses.
8. Successfully complete ROTC Leadership Camp.
9. Successfully complete an undergraduate degree program.
10. Complete at least one departmentally approved Professional Military Education course from each of the areas listed: written communication skills, human behavior, computer literacy, mathematics and military history.

Minor Requirements

18 hours: ROTC 3202 plus 16 hours of advanced military science courses (ROTC 3401, ROTC 3402, ROTC 4401, ROTC 4403).

Course Descriptions

A listing of courses offered by the Department of Military Science can be found on page 377.
Pre-Law

The pre-law program includes the UTPA Law School Preparation Institute (LSPI). The LSPI meets during the second summer session and focuses on developing the analytical skills (including reading, writing and speaking skills) necessary to legal education. In addition to UTPA faculty, faculty and staff from various law schools conduct the sessions. LSPI is limited to 20 full-time undergraduate UTPA students and participation is by invitation only. For more information, contact Dr. Jerry Polinard at (956) 665-3342 or at polinard@utpa.edu.

Minor in Legal Studies

Complete 18 hours from the following courses:

- BLAW 3337 Business Law I
- CRJ 4356 Law and Society
- ENG 3320 Special Topics (Legal Writing)
- HIST 3355 American Legal History
- POLS 4320 American Constitutional Law: Federalism
- POLS 4321 American Constitutional Law: Liberties
- POLS 4367 American Judicial Process
- PSY 4342 Psychology and Law
- PHIL 4309 Law and Philosophy

Degree Requirements

Major in Political Science 120 hrs.

University Core Curriculum Requirements 43 hrs.

Complete the university core curriculum requirements as shown on pages 105 of this catalog, including POLS 2313 and POLS 2314 or POLS 2387 and POLS 2388.

MATH 1340 is required by political science to fulfill the math core requirement.

Departmental Requirements 9 hrs.

Three hours of Introductory Statistics (POLS 2331 or MATH/STAT 2330, PSY/ANTH 2401, or SOCI 2301).

Six hours from two of the following three areas:

- Introduction to Political Science (POLS 1333)
- Introduction to Political Economy (POLS 2334)
- Economics (ECON 2301 or ECON 2302)

Designated Advanced Coursework 27 hrs.

- 6 hrs. in American Government and Politics
- 3 hrs. in Comparative Government
- 3 hrs. in International Relations
- 3 hrs. in Methods of Political Science Research (POLS 3331)
- 3 hrs. in Political Theory
- 3 hrs. in Public Administration
- 6 hrs. of advanced Political Science electives

Hours for Minor and Electives 41 hrs.

- 18 hrs. in approved minor
- 12 hrs. of 3000-4000 level electives
- 11 hrs. of 1000-4000 level electives

A total of 54 advance hours is required.

Minor in Political Science

Eighteen hours in political science, of which nine hours must be advanced.

Required Courses

- POLS 2313 U.S. and Texas Government and Politics
- POLS 2314 U.S. and Texas Government and Politics

Designated Electives

- POLS 1333 Introduction to Political Science or
- POLS 2334 Political Economy

Nine advanced hours in political science.

Wisener, Robert H. III, Assistant Professor

General Overview

A major is offered in psychology with either a Bachelor of Arts or a Bachelor of Science degree. A demand exists for baccalaureate psychology graduates in public and private agencies dealing with human relations.

However, the more challenging and specialized fields in psychology usually require further study beyond the bachelor’s degree. High academic standards are required of those students planning to do graduate work, and the program is designed to ensure that students planning further study acquire a background that will maximize their chances of success in graduate school. Training in research methods, statistics and theory are required of all majors. According to their own interests, majors take further courses in the areas of clinical, experimental, social and developmental psychology.

Students pursuing the Bachelor of Science degree also take further courses in the natural sciences. Whenever possible, students are involved in the many ongoing research programs of the department, giving them practical experience in the discipline. In addition, the department offers a minor in psychology.

Mission

The Department of Psychology and Anthropology is an academic administrative unit within the College of Social and Behavioral Sciences at The University of Texas-Pan American. The department has been established to facilitate accomplishing the University mission to meet the higher education needs of the citizenry of South Texas and the state of Texas. The department is committed to excellence in instruction, student performance, research, scholarly accomplishment and professional service in the disciplines constituting psychology and anthropology.

The Department of Psychology and Anthropology strives to fulfill its responsibilities by providing quality undergraduate academic programs in anthropology and psychology. At the graduate level, the department provides opportunities for students with baccalaureate degrees to pursue advanced study in clinical and experimental psychology. (More information on graduate programs is available in the Graduate Catalog.) The department is committed to providing an environment of academic freedom and responsibility so that faculty may develop and implement successful teaching activities that ensure high standards of instruction and student performance.

The Department of Psychology and Anthropology recognizes that its faculty has a commitment to those research and creative activities indicative of scholarly excellence. The department attempts to nurture and support such activities so that faculty may maintain currency in their knowledge of subject matter, vibrancy in their teaching, dedication to their respective disciplines and interest in extending the boundaries of human knowledge and understanding.

The Department of Psychology and Anthropology is also committed to providing effective instructional opportunities for all students at the University, regardless of their major area of concentration. The department attempts to meet this goal by providing students with instruction in several areas of study that ground the liberal arts tradition. To this end, the department provides instructional opportunities for all students to develop further the following characteristics indicative of a university-educated person:
1. An inquiring attitude that acknowledges the many-sided nature of most important questions, recognizes the need to examine inherited judgments, and reveals a desire for continued learning and creative expression.

2. The ability to use words accurately and effectively, and to communicate clearly in oral and written formats.

3. The ability to analyze complex problems and to synthesize facts and ideas.

4. An appreciation for the responsibilities of the individual to family and society; skill in serving as a constructive member in groups and organizations; and sensitivity to the need for informed, independent, moral and ethical decisions.

5. Knowledge of political and social systems in the United States and other nations, and their interrelationships.

6. An understanding of self, along with an empathy for the strengths, weaknesses, rights and needs of others, as well as the ability to relate to others with human understanding.

The Department of Psychology and Anthropology is also committed to sponsoring service activities that meet the intellectual and cultural interests of the University and the community the University serves.

Graham, Margaret, Associate Professor
Lovett, Bobbie, Lecturer
Hinojosa, Servando, Associate Professor
Pozorski, Shelia, Professor
Pozorski, Thomas, Professor
Skowronek, Russell, Professor
Vincentnathan, Lynn, Associate Professor

General Overview

The primary focus of both the major and minor is on anthropology as a broad-based discipline, with special emphasis on cultural anthropology, physical anthropology, archaeology and folklore. Special topic courses are also available in advanced folklore, anthropological theory and methods, and New World archaeology.

A major or minor in anthropology is particularly appropriate for professionals who plan to practice in South Texas or a comparable area made special by the meeting of different cultures. Anthropology also provides an excellent preparation for careers in international business, government, politics, criminal justice, social work and medicine or other health-related professions. The more specialized fields in anthropology usually require further study beyond the bachelor’s degree.

Mission

The Anthropology Program is an academic unit within the College of Social and Behavioral Sciences at The University of Texas-Pan American. The program has been established to facilitate accomplishing the University’s mission to meet the higher education needs of the citizenry of South Texas and the state of Texas. The program is committed to excellence in instruction, student performance, research, scholarly accomplishment and professional service in the discipline of anthropology.

The Anthropology Program strives to fulfill its responsibilities by providing quality undergraduate academic programs in anthropology. Emphasis is placed on exposing students to a holistic approach to anthropology that incorporates the three major subfields – cultural anthropology, physical anthropology and archaeology. At the graduate level, the program provides opportunities for students with baccalaureate degrees to fulfill an anthropology concentration for an interdisciplinary master’s degree and to fulfill required graduate hours outside one’s field of study to earn a master’s degree in various disciplines at the University. The Anthropology Program is committed to providing an environment of academic freedom and academic responsibility so that faculty may develop and implement successful teaching activities that ensure high standards of instruction and student performance.

The program recognizes that its faculty has a commitment to those research and creative activities indicative of scholarly excellence. The program attempts to nurture and support such activities so that faculty may maintain currency in their knowledge of subject matter, vibrancy in their teaching, dedication to their respective disciplines, and interest in extending the boundaries of human knowledge and understanding.

The Anthropology Program is also committed to providing effective instructional opportunities for all students at the University, regardless of their major area of concentration. The program attempts to meet this goal by providing students with instruction in several areas of study that ground the liberal arts tradition. To this end, the program...
provides instructional opportunities for all students to develop further the following characteristics indicative of a university-educated person:

1. Learning about anthropology fosters an inquiring attitude that acknowledges the many-sided nature of most important questions, recognizes the need to examine inherited judgments and reveals a desire for continued learning and creative expression.

2. A holistic approach to anthropology hones a person’s ability to use words accurately and effectively and to communicate clearly in oral and written formats.

3. Anthropological thinking nurtures the ability to analyze complex problems and to synthesize facts and ideas.

4. Exposure to the field of anthropology encourages an appreciation for the responsibilities of the individual to family and society; skill in serving as a constructive member in groups and organizations; and sensitivity to the need for informed, independent, moral and ethical decisions.

5. Learning about anthropology increases knowledge about political and social systems in the United States and other nations, and their interrelationships. Such multicultural perspectives can foster greater understanding, tolerance and respect for different lifestyles and viewpoints.

6. Anthropology encourages an understanding of self, along with an empathy for the strengths, weaknesses, rights and needs of others, as well as the ability to relate to others with human understanding.

The Anthropology Program is also committed to sponsoring service activities that meet the intellectual and cultural interests of the University and the community that the University serves.

**Degree Requirements**

The department offers a major in anthropology leading to the Bachelor of Arts degree.

**Major in Anthropology**

**University Core Curriculum Requirements** 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog.

A social science outside of anthropology is required to fill the core social science requirement.

---

**College of Social and Behavioral Sciences**

Three hours in a separate social science discipline outside the major and the social science taken to fill the UTPA social science core requirement.

**Designated Electives** 21 hrs.

Select 21 hours from anthropology. A substitution for one three-hour course may be chosen from the following list of related courses.

**Related courses**

ENG 3319 Descriptive Linguistics
ENG 3321 Language and Culture

**Other Requirements**

A minimum of 24 hours in anthropology must be at the advanced level.

Please be aware of the “Requirements for a bachelor’s Degree” enumerated on page 68. These include completion of a total of 120 hours of coursework, completion of a minor and completion of a minimum of 51 hours of upper-level (3000/4000) coursework.

**Minor in Anthropology**

Eighteen hours in anthropology, of which six hours must be advanced.

**Required Courses**

ANTH 1323 Introduction to Cultural Anthropology
ANTH 1324 Human Evolution
ANTH 4345 Anthropological Theory and Methodology

**Minor in Folklore**

The minor in folklore requires 18 credit hours* as delineated below:
Required Courses

ANTH 1353 Introduction to Folklore

15 hours from:

ANTH 1354 The Anthropology of Expressive Culture
or
MUS 1308 Mexican Folk Music
ANTH 3344 Archive Studies
ANTH 4353 Folklore of the Rio Grande Valley
ANTH 4355 Psychology and Mythology
or
PSY 4355 Psychology and Mythology
ANTH 4350 Mexican-American Folk Medicine

*Only six hours can be taken in courses at the 1300 level.

Full-time Faculty
Garcia, Jesse, Lecturer
Guerra, Ramon S., Associate Professor
Raajpoot, Uzzer A., Associate Professor
Rodríguez, Havidán, Professor
Ryabov, Igor, Assistant Professor
Schríst, Jori, Assistant Professor
Su, Dejun, Associate Professor
Wang, Guang-zhen, Professor

General Overview

The Department of Sociology offers a major in sociology leading to a Bachelor of Arts degree, as well as a minor in sociology. Students majoring and minoring in sociology receive excellent preparation for careers in public and private agencies dealing in human relations. The more challenging and specialized fields in sociology usually require further study beyond the bachelor’s degree. Sociology also provides an excellent background for those considering careers in such fields as education, health, law, law enforcement, business and journalism.

Degree Requirements

Major in Sociology

University Core Curriculum Requirements 43 hrs.

Complete the University core curriculum requirements as shown on pages 105 of this catalog.
Students may not count sociology toward the social science requirement in the University core curriculum.

College of Social and Behavioral Sciences 3 hrs.

Three additional hours of social science courses in a separate social science discipline outside sociology and the social science taken to fill the core curriculum requirement such as anthropology, criminal justice, economics, political science or psychology.

Core Courses 18 hrs.

SOCI 1313 Principles of Sociology
SOCI 2301 Statistics for the Behavioral Sciences
SOCI 3301 Quantitative Social Research
SOCI 4333 Social Theory

Select two from the following three courses:

SOCI 3302 Qualitative Social Research
SOCI 4334 Contemporary Social Theory
SOCI 4352 Social Inequality

Designated Electives 15 hrs.

Select 15 hours of sociology, of which at least nine hours must be upper level (3000-4999).

Other Requirements for BA in Sociology

Please be aware of the “Requirements for a Bachelor’s Degree” enumerated on page 68. These include completion of a total of 120 hours of coursework, completion of a minor, and completion of a minimum of 51 hours of upper-level (3000/4000) coursework.
Minor in Sociology

Eighteen hours in sociology, of which nine hours must be upper level. Must include the following:

Course Codes

Every course at The University of Texas-Pan American is identified by a subject code with a maximum of four letters and a four-digit number that specifies the level and the number of hours of credit for the course.

Course numbers show both the collegiate level at which they are offered and the semester hour value of the course. The first digit shows the level and the second digit shows the credit hours. The last two digits are departmental designations. For example, SPAN 1301 is a Spanish course given in the freshman year that carries three hours of credit per semester. All undergraduate courses ending in the numbers 87 and 88 are honors courses.

Contact Hours:

Regularly scheduled classes at UT Pan American have prescribed contact hours (the actual number of hours each week a student will spend in contact with teaching staff in a lecture, laboratory, and/or clinical sessions). Contact hours are shown in brackets to the right of the course title in each discipline’s course listings below. The first number denotes the number of lecture contact hours, the second number denotes the laboratory contact hours, and a third number, if included, is the number of clinical/practicum contact hours. These numbers apply to the courses as they are scheduled for the fall or spring semesters. Summer weekly contact hours will be adjusted to compensate for the shorter duration of the semester. Examples:

- **[3-0]** The class will have three hours of lecture per week.
- **[2-3]** The class will meet for two hours of lecture and three hours of laboratory per week.
- **[3-0-12]** The class will have three hours of lecture and 12 hours of clinical experience each week.
Course Descriptions

Accounting

ACC 2301 Introduction to Financial Accounting [3-0] (Texas Common Course Number is ACCT 2301) fall, spring, summer
The course discusses the accounting environment, the accounting model, business transaction analysis and financial statement preparation, financial statement analysis, accounting for assets, liabilities and owners' equity in proprietorships and corporations. Prerequisites: MATH 1340 or MATH 1341 or MATH 1440 with a grade of C or better.

ACC 2302 Fundamentals of Managerial Accounting [3-0] (Texas Common Course Number is ACCT 2302) fall, spring, summer
This course discusses the contemporary management tools and techniques consistent with the evolving role and responsibilities of the management accountant in today's manufacturing, service and merchandising enterprises. Activity-based costing, just-in-time inventory systems and quality costing along with cost classifications, mixed cost analysis and short-term decision making are among the topics covered in the course. Prerequisites: ACC 2301 with a grade of C or better.

ACC 3300 Internship in Accounting [0-0-3] fall, spring, summer
This internship is designed to give students an opportunity to gain real-world experience in their chosen career field by working with a participating employing firm or organization. The students will be supervised by a faculty member acting as a liaison between the employing organization and the academic department to assure compliance with specific learning and experience requirements for the assignment. The employment can be either paid or unpaid, and must be at least 10 hours of work each week over the period of one academic term. Prerequisites: Junior or senior standing and approval by both department chair and employer providing internship experience.

ACC 3320 Cost Accounting [3-0] fall, spring, summer
This course complements the coverage in ACC 2302 and focuses on product costing, cost allocation and budgeting techniques. Specifically, it emphasizes master and flexible budgets, and job order and process costing, joint cost allocation, and standard costing and analysis. Prerequisites: ACC 2302 with a grade of C or better.

ACC 3321 Intermediate Accounting I [3-0] fall, spring, summer
A study of the accounting process and financial statements, including a thorough examination of the procedures involved in financial statement presentation as well as the underlying theory, and detailed study of current assets and current liabilities. Prerequisites: ACC 2302 with a grade of C or better.

ACC 3322 Intermediate Accounting II [3-0] fall, spring, summer
Continuation of the examination of the accounting process with emphasis on non-current assets and liabilities including pensions and leases. Prerequisites: ACC 3321 with a grade of C or better.

ACC 3323 Individual Income Tax [3-0] fall, spring
This course provides an analysis of federal tax laws, with emphasis being placed on the determination of net taxable income and the preparation of income tax returns for individuals. Prerequisites: ACC 2302 with a grade of C or better.

ACC 3325 Fund Accounting [3-0] fall, spring
The special features of fund accounting as applied to not-for-profit entities, municipalities, school districts, and other governmental units. Prerequisites: ACC 2301 with a grade of C or better.

ACC 3326 Accounting Information Systems [3-0] fall, spring, summer
This course prepares the student to succeed in upper-level accounting and business courses that require computer use proficiency. It emphasizes the contemporary computer skills demanded of an accounting professional. It also solidifies the student's knowledge of the accounting cycle and accounting controls. Prerequisites: ACC 2302 with a grade of C or better.

ACC 3327 Fundamentals of Auditing [3-0] fall, spring, summer
A survey of auditing standards and procedures applied by public accountants and internal auditors in examining financial statements and verifying underlying data. The scope of this course includes elements of operational auditing. Prerequisites: ACC 3322 with a grade of C or better and credit or concurrent enrollment in ACC 3326 or CIS 3390.

ACC 3328 Quantitative Methods in Accounting [3-0] fall, spring
Topics include cost allocations, process costing with spoilage and scrap losses, decentralization, inventory control, mix-and-yield variance analysis and quantitative subject areas such as linear programming and regression analysis. Prerequisites: ACC 2302 and QUMT 2342 or QUMT 3343.
ACC 3329 Intermediate Accounting III [3-0]  
fall, spring  
This course continues the examination of the accounting process with emphasis on equity accounts of corporations and partnerships. Coverage also includes accounting for income taxes and comprehensive income. Prerequisites: ACC 3322 with a grade of C or better.

ACC 3350 International Accounting [3-0]  
fall, spring  
This course examines the similarities and differences between selected U.S. and international accounting standards. It also examines the effects of socioeconomic and cultural factors on the development of accounting standards in different regions of the world. Finally, this course explores the role of IASB in the international standard setting process. Prerequisites: ACC 3321 and INTB 3330.

ACC 4323 Contemporary Accounting Theory [3-0]  
fall or summer  
A study of the theory and techniques of accounting for investments in the stock of other companies with emphasis on long-term investments with consolidated financial statements. Prerequisites: ACC 3322 with a grade of C or better.

ACC 4329 Corporate and Partnership Taxation [3-0]  
fall, spring  
Comprehensive analysis of federal income tax consequences applicable to business entities. Tax law topics for regular Subchapter C and Subchapter S corporations and partnerships will be discussed. Multistate and international tax topics may also be covered. Prerequisites: ACC 3322 with a grade of C or better.

ACC 4330 Advanced Accounting I [3-0]  
fall, spring  
A study of the theory and techniques of accounting for investments in the stock of other companies with emphasis on long-term investments with consolidated financial statements. Prerequisites: ACC 3322 with a grade of C or better.

ACC 4331 Advanced Accounting II [3-0]  
fall, spring  
A study of selected accounting topics. This course will have variable content and may be repeated for credit with consent of instructor. Prerequisites: ACC 3322 with a grade of C or better.

ACC 4332 Advanced Income Tax Research [3-0]  
fall, spring  
A course to acquaint the student with the organization of the Internal Revenue Service and its relation to practice, tax research techniques and ethical tax advice and reporting. Prerequisites: ACC 3323.

Anthropology

ANTH 1323 Introduction to Cultural Anthropology [3-0]  
(Texas Common Course Number is ANTH 2346)  
fall, spring  
An introduction to cultural anthropology. Major aspects of culture (social organization, economics, religion, etc.), cultural patterns, cultural processes, cultural diversity and sociocultural change are examined in the context of historical development, contemporary societal conditions, and multiculturalism using appropriate methodological and theoretical analyses.

ANTH 1324 Human Evolution [3-0]  
fall, spring  
An introduction to human biological and cultural evolution, hominid morphology, human variation and prehistoric development, done in the context of historical development and multiculturalism using appropriate scientific methodologies and theoretical bases.

ANTH 1342 Introduction to Archaeology [3-0]  
(Texas Common Course Number is ANTH 2302)  
fall, spring  
General introduction to the field of archaeology. Emphasis on methodology of data collection and analysis plus a comprehensive review of major archaeological discoveries as they reflect understanding of diverse historical and cultural development of both ancient and modern societies.

ANTH 1353 Introduction to Folklore [3-0]  
fall, spring  
General introduction into the field of folklore. Emphasis on data collection, preservation, analysis and interpretation of such themes as folk music, narrative, drama, art, ethics, medicine and material culture, accomplished using appropriate social sciences methodologies and theories of folklore set in a historical and multicultural context.

ANTH 1354 The Anthropology of Expressive Culture [3-0]  
(Texas Common Course Number is ANTH 2351)  
fall, spring and as scheduled  
The examination of language of human expressive culture in a multicultural perspective. The course reviews such topics as human tradition, folkways, folk literature and poetry, folk drama, indigenous literature, architecture and religious expressions. The objective of this course is to expand the student’s knowledge of the human condition and human
prepare following areas: anthropology, economics, psychology, social organization of Mexican-American culture will be the family, traditions, lifestyle, kinship patterns, values and Mexican-Americans. The cultural history, organization of this course is concerned with the culture and tradition of the United States and Other World Cultures fall, spring and as scheduled This course is concerned with the many aspects of human culture including traditions, customs, folkways and religious beliefs at the local, national and worldwide levels. It explores topics ranging from roles and responsibilities within the family unit to the interaction of different cultures with their social and physical environment. As the course assesses important contributions of various past and present cultures, considerable emphasis is placed on similarities and differences between the United States and other world cultures. Prerequisite: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 3344 Archive Studies [0-0-3] fall, spring, summer Provides students with practical, hands-on experience through active participation in museum work alongside museum professionals. While performing a variety of tasks, each student will receive instruction concerning key features common to all museums such as policies and procedures, artifact cataloging, care and conservation, exhibit preparation, and education programs and publicity. May be repeated for a total of six hours credit, but no more than 12 hours credit may be earned through any combination of internship courses. Prerequisites: Six hours of anthropology or consent of instructor.

ANTH 3345 Anthropology Community Internship [0-0-3] fall, spring, summer Students have the opportunity to gain practical firsthand experience working in a community organization, government agency or business enterprise related to their career goals. Students work closely with agency staff and perform a variety of tasks essential to the mission and goals of the organization. Interns are considered professional staff and participate in staff meetings, conduct research, analyze data or other tasks deemed useful by the organization. By working closely with other professionals at the site, students learn firsthand how anthropological concepts and skills can be used to understand social problems in their community. Student evaluation by weekly journal, agency report, and meetings.
Anthropology of Borders takes border zones and issues crucial to understanding them both as its field site and point of comparative analysis. From Spanish-French Catalonia to the borderlands of Indonesia, this course investigates issues commonplace to zones of contact such as linguistic variation and innovation as well as the role of the state in construction and codifying notions of citizenship. By looking at borders from a comparative ethnographic perspective, the course seeks to contextualize issues faced by borderlanders of South Texas within a global framework. Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4307 Shipwrecks, Pirates and the Sea: An Introduction to Maritime Archaeology and History [3-0] as scheduled
Maritime archaeology is a profession combining traditional fields and extensive practical experience. Anthropology, history, archaeology, geography, and related sciences provide the theoretical and practical methodology with which maritime sites are found, tested and interpreted. This course is designed to provide students with the field’s background, range and relevant examples involving both history and archaeology. Equivalent course: HIST 4307. A student may receive credit in only one course. Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4308 Conquistadors and Indian Chiefs of the Borderlands: A Comparative Colonialism of Northern New Spain [3-0] as scheduled
This course covers Spanish and Native American interactions in what is today the Southeastern United States, Texas and California. Emphasis will be placed on how the social and natural environment was changed in these areas. Examination of these changes will be done through the documentary and archaeological records. Equivalent course: HIST 4308. A student may receive credit in only one course. Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4309 Anthropology of Women [3-0] as scheduled
This course is concerned with anthropological studies done by women and about women, and studies of gender roles and gender inequality beginning in the late 19th century. Employing a historical perspective, it encourages critical assessment of gender studies and uses cross-cultural studies to focus on gender in certain aspects of social life. Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4310 Food and Culture [3-0] as scheduled
This course examines the interaction between human culture and food from an anthropological perspective. It examines the social roles of food and how economic forces are transforming food systems in the world today. Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4311 Medical Anthropology [3-0] as scheduled
This course introduces students to the diverse field of medical anthropology. It examines the human experiences from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.
of health and disease in cross-cultural, historical, and evolutionary perspectives.
Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4312 Political and Legal Anthropology  [3-0]  
as scheduled
This course involves the anthropological analysis of political and legal institutions as revealed in relevant theoretical debates and with reference to ethnographic examples. Topics included in this course are the development of political and legal anthropology and their key concepts; studies of the state, kingship and other forms of authority; forms of knowledge and power; political competition and conflict; indigenous responses to colonialism; civil society and citizenship; nationalism, ethnicity, and genocide; theories of order and normative domain; law as command and law as rules; the legal dimensions of hierarchy and authority; dispute institutions and processes, legal pluralism; Indian, Islamic and other non-Western legal systems.
Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4313 Anthropology of Popular Music  [3-0]  
as scheduled
This course examines the roots and development of American popular music over the last 200 years. Included in class presentations are discussions and demonstrations of minstrel shows, jazz, ragtime, blues, big band swing, rock and roll and other forms of contemporary music. The impact of African, Latin American, and other musical styles on popular music, and music's reflection of contemporaneous culture will be discussed and demonstrated.
Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4314 Environmental Anthropology  [3-0]  
as scheduled
Introduction to human/environmental interactions from various anthropological perspectives. History of anthropological approaches to the environment, emphasizing the mutual interconnectedness of people and nature. Survey of evolutionary models, cultural ecology, systems approaches, indigenous knowledge, ethnoecology, nature and the state, political ecology, ecofeminism environmentalism, and environmental justice.
Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4345 Anthropological Theory and Methodology  [3-0]  
fall, spring
Instruction in the methodology (interviewing, participant observation, network analysis, etc.) and theoretical perspectives of anthropology. Prerequisites: Six hours of anthropology.

ANTH 4348 Peoples and Cultures of Mexico  [3-0]  
spring, odd years
This course provides an introduction to the diverse peoples and cultures of Mexico and Central America. The traditions, beliefs and practices of different cultures will be examined through an emphasis on the ethnography and ethnohistory of indigenous cultures of the region.

Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4350 Mexican American Folk Medicine  [3-0]  
as scheduled
This course is concerned with popular medical traditions found among Mexicans and Mexican Americans. It identifies influences from European and Native American sources, and examines ongoing changes in the folk medical landscape.
Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology or consent of instructor.

ANTH 4353 Folklore of the Lower Rio Grande Valley  [3-0]  
fall, even years on an arranged basis
Prerequisites: ANTH 1353 or ANTH 3375 and consent of instructor.

ANTH 4355 Psychology and Mythology  [3-0]  
fall, spring and as scheduled
This course will study the impact and interrelationships of psychological thought and mythological theory. The impact of the theories of Freud, Adler, Jung, Levi-Strauss and others on mythology will be studied. Equivalent course: PSY 4355. A student may receive credit in only one course.
Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4365 Archaeology of South America  [3-0]  
fall, odd years
A study of the prehistory of South America, with an emphasis on the Andean area. Cultural development will be traced from the time of the first inhabitants through the Incas. The development of complex societies leading up to the Incas will be emphasized.
Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4369 Archaeology of Mexico and Central America  [3-0]  
fall, even years
A study of the prehistory of Mexico and Central America beginning with the first cultures to inhabit the area and ending with the arrival of the Spanish. Major civilizations of the area, including the Olmecs, Mayas and Aztecs, will be emphasized.
Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.
ANTH 4373  The Archaeology of Ancient Egypt  [3-0]  
spring
A study of the prehistory and history of ancient Egypt from the time of the first inhabitants in the area to the arrival of the Romans. Emphasis will be placed on the architectural and artistic achievements of Egypt during the time of the pharaohs. Aspects of ancient Egyptian social classes and religious beliefs and practices will also be explored. Prerequisites: Three hours from any of these areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4374  Archaeology of North America  [3-0]  
spring, odd years
A study of the prehistory of North America north of Mexico. The course deals with cultural development from the time of the initial peopling of the New World until the arrival of Columbus. Major cultural developments in the southwestern and eastern United States will be emphasized. Prerequisites: Three hours from any of these following areas: anthropology, economics, psychology, sociology, or consent of instructor.

ANTH 4385  Topics in Anthropology  [3-0]  
as arranged
Topics are varied according to availability of faculty and student interest. Course can be repeated as topics change. Prerequisites: Six hours of anthropology and consent of instructor.

ANTH 4390  Directed Studies  [3-0]  
as scheduled
A study of selected topics in anthropology. Topics are varied according to availability of faculty and student interest. Course can be repeated for credit as topics change. Prerequisites: Six hours of anthropology and consent of instructor.

ANTH 4395  Fieldwork in Anthropology  [3-0]  
as arranged
Students gain practical experience by participating in anthropological research projects that involve fieldwork. Each student will work closely with one or more professionals. This will enable students to learn about the specific topic under investigation as they gain practical experience in applying appropriate field research methods. May be repeated for a total of nine hours credit as topics change. Prerequisites: Six hours of anthropology or consent of instructor.

ART 1301  Art Appreciation  [3-0]  
(Texas Common Course Number is ARTS 1301)  
fall, spring, summer
Values and meanings in the visual arts. This is a general art lecture course concentrating on development and differences in artistic style.

ART 1302  Art of Our Time  [3-0]  
fall, spring, summer
This course will function as an alternative to Art Appreciation 1301 and will offer students a grounding in issues in contemporary art and culture.

ART 1311  Drawing I  [2-4]  
(Texas Common Course Number is ARTS 1316)  
fall, spring, summer
Introduction to drawing, including work in a variety of drawing media. Basic concepts are explored. A minimum of three hours of outside assignments per week is required. $40 course fee.

ART 1332  Typography  [2-4]  
(Texas Common Course Number is ARTS 2348)  
fall, spring, summer
The fundamentals of typography and typographic design are explored in experimental and practical projects. The study of typefaces as communication vehicles will be stressed. Students will explore visual texture, pattern, hierarchy, rhythm and the emotional quality of composition, plus the development of concept, content, and execution. Prerequisites: None. $40 course fee.

ART 1333  Digital Media  [2-4]  
fall, spring, summer
This course introduces students to digital imaging processes. It covers a wide range of topics such as video, animation, image making and time-based media. Prerequisites: None. $40 course fee

ART 1334  Design I  [2-4]  
(Texas Common Course Number is ARTS 1311)  
fall, spring, summer
Principles of design and development of design structures on two-dimensional surfaces. A minimum of three hours of outside assignments per week is required. Prerequisites: None. $40 course fee

ART 1335  Design II  [2-4]  
fall, spring, summer
Three-dimensional design includes investigation into phenomena existing in the three-dimensional arts. A variety of materials handling and creative methods for the purposes of creating three-dimensional forms will be considered. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 1334. $40 course fee.
ART 2303 Jewelry/Metalworking I  [2-4]
(Texas Common Course Number is ARTS 2341)
fall, spring, summer
Instruction is given in the use of hand tools, metals handling and creative use of shop equipment. Emphasis is on creative artistic expression focusing on jewelry as a portable art form. Other materials are considered. A minimum of three hours of outside assignments per week is required. $40 course fee.

ART 2321 Painting I  [2-4]
(Texas Common Course Number is ARTS 2316)
as scheduled
Students will acquire the required fundamental skill set for the exploration of painting diverse aesthetic possibilities through study of basic techniques, color theory, media, formal design components, and historic context while attaining mastery regarding rudimentary issues and professional practices of painting at an introductory level. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 1311. $40 course fee.

ART 2332 Design II  [3-0]
(Texas Common Course Number is ARTS 1312)
spring, summer II
Three-dimensional design includes investigation into the phenomena existing in the three-dimensional arts. A variety of materials handling and creative methods for the purposes of creating a three-dimensional form are considered. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 1311. $40 course fee.

ART 2341 Sculpture I  [2-4]
(Texas Common Course Number is ARTS 2326)
fall, spring, summer
Introductory course in sculptural concepts through basic sculptural media. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 1335. $40 course fee.

ART 2351 Ancient Art of the West  [3-0]
(Texas Common Course Number is ARTS 1303)
fall, spring, summer
Historical survey of western civilization's plastic arts from Paleolithic up to 1000 A.D. Prerequisites: None. $20 course fee.

ART 2352 Western Art 1000-1840 A.D.  [3-0]
(Texas Common Course Number is ARTS 1304)
fall, spring, summer
Historical survey of western civilization's plastic arts from the Romanesque through Neo-Classicism and Romanticism. Prerequisites: None. $20 course fee.

ART 2353 Modern Art since 1840  [3-0]
fall, spring, summer
Historical survey of the plastic arts of modern western civilization from realism onward. Prerequisites: None. $20 course fee.

ART 2361 Printmaking I  [2-4]
(Texas Common Course Number is ARTS 2333)
fall, spring, summer
Introduction to printmaking as a means of personal expression and aesthetic communication. Relief printing in several forms, as well as mono-printing and silk screen printing will be emphasized. Other printmaking processes will be discussed. Prerequisites: None. $40 course fee.

ART 2371 Ceramics I  [2-4]
(Texas Common Course Number is ARTS 2346)
fall, spring, summer
Introduction to ceramic design concentrating on hand building. Some work with potter's wheel, glazing and firing. A minimum of three hours of outside assignments per week is required. $40 course fee.

ART 3302 Jewelry/Metalworking II  [2-4]
fall, spring, summer
Continuation of jewelry/metalworking processes with an emphasis on advanced techniques. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 2303 Jewelry/Metalworking I. $40 course fee.

ART 3303 Jewelry/Metalworking III  [2-4]
fall, spring, summer
Introduction of additional techniques in silversmithing such as raising and production methods. These are pursued in the production of expressive metalworks. Additional materials are considered. A minimum of three hours of outside assignments per week is required. May be repeated twice for up to nine credit hours. Prerequisites: ART 2303 and ART 3302. $40 course fee.

ART 3310 Drawing II  [2-4]
fall, spring, summer
Introduction to figure drawing, including working in a variety of drawing media. Basic concepts are explored. A minimum of three hours of outside assignments per week are required. Prerequisites: ART 1311. $40 course fee.

ART 3311 Drawing III  [2-4]
fall, spring, summer
Advanced concepts in drawing. These may include conceptual issues, spatial relationships, interpretation of source reference materials, experimental surfaces and/or other nontraditional directions and/or materials. May be repeated twice for up to nine credit hours. Prerequisites: ART 1311 and ART 3310. $40 course fee.

ART 3320 Painting II  [2-4]
fall, spring, summer
Students will acquire the required fundamental skill set for the exploration of painting diverse aesthetic possibilities through study of basic techniques, color theory, media, formal design components, and historic context, while attaining mastery regarding rudimentary issues and
Index

professional practices of painting at an introductory level. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 2321. $40 course fee.

ART 3321 Painting III [2-4] fall, spring, summer
Advanced studio problems in painting. A minimum of three hours of outside assignments per week. (May be repeated for a total of nine hours credit.) Prerequisites: ART 2321 and ART 3320. $40 course fee.

ART 3330 Image and Illustration [2-4] fall, spring, summer
This course explores coherent visual statements to illustrate problems generated by multiple media. An emphasis is placed on helping students develop an individual visual language that is then utilized in the illustration process. Assignments focus on exploration and understanding of traditional and digital media. Prerequisites: Sophomore standing. $40 course fee.

ART 3331 Visual Communications [2-4] fall, spring, summer
This course will explore the translation of verbal language into visual language through a variety of media. The course introduces basic design concepts including the use of image, symbol and color in visual communication, as well as the principles of typographic composition, message structure, and human perception. Prerequisites: Sophomore standing. $40 course fee.

ART 3332 Digital Image Processing [2-4] fall, spring, summer
In the contemporary landscape of photography, students learn approaches to techniques and methods for the production and distribution of digital images. They will gain knowledge in advanced protocol, constructions, digital concepts and state-of-the-art approaches to image making. A minimum of three hours outside work per week is required. Prerequisites: ART 1333 and ART 1334. $40 course fee.

ART 3333 Design and Production [2-4] fall, spring, summer
This course covers the terminology and process of preparing designs for commercial printing. The preparation of art and design stresses attention to detail and introduces the principles of prepress associated with the printing industry. Students complete basic to complex electronic documents that include a broad spectrum of the printing process. Prerequisites: Sophomore standing. $40 course fee.

ART 3334 Photography as an Art Form [2-4] fall, spring, summer
Advanced photography as a means of personal expression. Emphasis on black and white processes. Students must provide own 35mm camera. A minimum of three hours outside work per week is required. May be repeated twice for a total of nine credit hours. Prerequisite: ART 1331, ART 1333 and ART 3332. $40 course fee.

ART 3335 Communication Design I [2-4] fall, spring, summer
This class merges learning in digital applications with design practices. Taking conceptually based ideas from the sketch process to screen media, students will gain an understanding of the computer graphic packages currently in use. They will experience the typical workflow of a design environment, where graphic programs are used in unison, each making their contribution to resolve the complete design. Prerequisites: Sophomore standing. $40 course fee.

ART 3336 Communication Design II [2-4] fall, spring, summer
Building on the knowledge of Communication Design I, students will continue to merge graphic design skills with computer learning. Projects that emphasize an interweaving of graphic programs, including file management, collateral design and production will be stressed. Emphasis is placed on typesetting, movement and multiple page layout. Aspects of publication design are explored. Prerequisites: ART 3335. $40 course fee.

ART 3337 Type Design [2-4] fall, spring, summer
Further exploration of type as a creative medium and carrier of communication. Experimental approaches to the use of type and to various media, including movement and interactivity, will promote the development of a high level of typographic skill. Prerequisites: ART 1332 and junior standing. $20 course fee.

ART 3338 Ideas and Styles [3-0] fall, spring, summer
A theoretical course surveying design from the Pre-Industrial era (1450) to the present. Includes an exploration of the relationship of graphic design to movements in art, architecture, product design and the collective influence of these movements on Western culture. Topics include technological, conceptual, and social implications conveyed in design from early communication processes to the digital age. The study of individual designers, groups, and manifestos in collaboration with research and practical assignments will be explored. Prerequisites: Sophomore standing. $40 course fee.

ART 3339 Professional Photographic Documentation [3-0] fall, spring, summer
The professional use of photography to document laboratory, field and archival investigations in such fields as engineering, science, forensics, anthropology, archaeology, humanities, art and art history. Prerequisite(s): None

ART 3341 Sculpture II [2-4] fall, spring, summer
Emphasis on individual development. Consideration of additional media for sculptural expression. A minimum of three hours per week of outside assignments is required. Prerequisites: ART 3335 and ART 2341. $40 course fee.
ART 3350  Research Methods In Latin [3-0]  American Art and Architectural History
fall, spring, summer
The practice of effective research methods for Latin American art and architectural history
Prerequisites: Sophomore standing.

ART 3351  Pre-Hispanic Mesoamerican Art and Architecture [3-0]  fall, spring, summer
An in-depth survey of Mesoamerican art and architecture from the Olmecs to the Maya and the Aztecs, emphasizing masterpieces of high aesthetic quality. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor.
$20 course fee.

ART 3355  History of Spanish Architecture [3-0]  711 to 1825 A.D.
fall, spring, summer
A history of the greatest achievements in architecture in Spain from the Islamic conquest in 711 A.D. until 1825 and Spain's loss of control of most of its overseas colonies. Special emphasis will be placed on the profound Hispanic-Islamic and Mudejar influences on Spanish Christian architecture that distinguish it from that of the rest of Western Europe.
Prerequisites: ART 2351 and ART 2352, or permission of the instructor.

ART 3356  Arts of the West to 1400 A.D. [3-0]  fall, spring, summer
A comprehensive examination of the major artistic and architectural achievements of Western civilization, from Paleolithic through Gothic. Prerequisites: This course is recommended for certification requirements. $20 course fee.

ART 3357  Mexican and Caribbean Viceregal Art and Architecture [3-0]  fall, spring, summer
An in-depth survey of the Spanish colonial art and architecture of the North American continent from Texas and New Mexico in the north to Guatemala and the Dominican Republic in the south. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor.
$20 course fee.

ART 3358  Andean Pre-Hispanic Art and Architecture [3-0]  fall, spring, summer
An in-depth survey of the Pre-Hispanic art and architecture of Peru, Bolivia, Ecuador, and Colombia, 4000 B.C.-1530 A.D. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor.
$20 course fee.

ART 3359  South American Viceregal Art and Architecture [3-0]  fall, spring, summer
Covering the period 1530 through 1825, this course emphasizes the finest art and architectural achievements of the central Andean nations of Peru, Bolivia and Ecuador, with some material on Brazil, Colombia, Venezuela, Paraguay, Argentina, and Chile. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor.
$20 course fee.

ART 3361  Printmaking II [2-4]  fall, spring, summer
Work in the lithographic printmaking process. Emphasis on the planographic system of producing multiple images within the framework of the printmaking process. Prerequisites: ART 1334 and ART 2361. $40 course fee.

ART 3362  Printmaking III [2-4]  fall, spring, summer
Introduction to intaglio printmaking process. The student will be exposed to the etching and drypoint technique, along with the use of different ground. A minimum of three hours outside work per week is required. May be repeated twice for up to nine credit hours. Prerequisites: ART 3361. $40 course fee.

ART 3371  Ceramics II [2-4]  (Texas Common Course Number is ARTS 2347)  fall, spring, summer
Emphasis on basic wheel-thrown shapes and introduction to glaze calculation. A minimum of three hours outside assignments per week is required. Prerequisites: ART 1335 and ART 2371. $40 course fee.

ART 3372  Ceramics III [2-4]  fall, spring, summer
Advanced studio problems in ceramics. A minimum of three hours of outside assignments per week is required. May be repeated twice for a total of nine credit hours. Prerequisites: ART 3371. $40 course fee.

ART 3381  Perception and Expression in Art I [3-0]  fall, spring, summer
A course designed to strengthen visual perception and divergent thinking through visual and conceptual stimuli with primary emphasis on studio activities. Prerequisites: Junior standing. $20 course fee.

ART 3382  Perception and Expression in Art II [3-0]  spring and as scheduled
Emphasis on further in-depth studio development. Prerequisites: ART 3381 or permission of instructor. Recommended for certification requirements. $20 course fee.

ART 3383  Creative and Critical Thinking [3-0]  fall
The course offers discussion and exercises in synectics, brainstorming and analytical thinking. A topology of creative behavior development is presented along with spatial exercises. Mini-workshops dealing with studio areas not
regularly taught at this campus are offered. This may include serigraphy, fiber, textiles, photography and collograph. Prerequisite for student teaching. Prerequisites: Junior standing. $20 course fee.

ART 3396 Contemporary Art [3-0]  fall, spring, summer
Contemporary Art is a seminar that covers issues faced and presented by contemporary artists globally. The focus of the course is intended to develop advanced discourse and thought, and to give students the opportunity to develop the language and knowledge to engage in critical discussions of the material presented in class. Students will research and present artists and articles found in appropriate art journals and periodicals as well as review exhibitions. Prerequisites: None. $20 course fee.

ART 4303 Jewelry/Metalworking IV [2-4] as scheduled
Personal development in metals/jewelry. A minimum of three hours of outside assignments per week is required. This course may be repeated for a total of 12 hours credit. Prerequisite: ART 3303. $40 course fee.

ART 4311 Drawing IV [2-4] as scheduled
Topics covered include advanced problems in drawing to be determined by the instructor. A minimum of three hours outside assignments per week is required. This course may be repeated for a total of 12 hours credit. Prerequisites: ART 3311. $40 course fee.

ART 4321 Painting IV [2-4] as scheduled
Advanced study in painting with parameters to be determined by the instructor. A minimum of three hours outside work is required. This course may be repeated for a total of 12 hours credit. Prerequisites: ART 3321. $40 course fee.

ART 4333 Graphic Design I [2-4] fall, spring, summer
A systematic approach to design problem solving, with a series of studio assignments and critiques relating directly to two- and three-dimensional graphic design. Design concepts are explored in a variety of design problems including “client-designer” relationships and applied to information design strategies, environmental, product, and package design. The course offers the opportunity to develop creative and technical ability by the production of professional assignments. Prerequisites: Junior standing, ART 3335 and ART 3336. $40 course fee.

ART 4334 Graphic Design II [2-4] fall, spring, summer
A course in which alternative creative communication problem-solving strategies are investigated within a series of advanced problems and intensive critiques relating to graphic design. Shared emphasis on content driven forms and complex problems that require conceptualization and the development toward a personal methodology. Prerequisites: Junior standing, ART 3335, ART 3336 and ART 4333. $40 course fee.

ART 4336 Multimedia Production and Design [6-0] as scheduled
An introduction to basic hardware/software tools needed to design and create multimedia productions. Skills taught include program logic and problem solving techniques within the context of an authoring tool. Extensive use is made of flow charts, 2-D/3-D animation, motion graphics and storyboarding to create web and CD-ROM multimedia products. Prerequisites: ART 1332, 3336, 4337 and 4338. $40 course fee.

ART 4337 Digital Photography [2-4] fall, spring, summer
Advanced problems in photography. A minimum of three hours of outside assignments per week is required. May be repeated for a total of 12 hours credit. Prerequisites: ART 1331, 1333 and 3332. $40 course fee.

ART 4338 Interactive Design [2-4] fall, spring, summer
A studio course in which websites are designed and implemented using current software. Content and information architecture are considered while building web entities that give prominence to viewer experience. Prerequisites: Junior standing. $40 course fee.

ART 4339 Portfolio [2-4] fall, spring, summer
This course focuses on the development of a professional hard copy and online portfolio. Students will prepare and organize work into a presentable and targeted dossier for use in their career placement. A minimum of three hours of outside assignments per week is required. Prerequisites: Senior-level standing. $40 course fee.

ART 4341 Sculpture III [2-4] fall, spring
Continuation of student’s personal direction in sculpture. A minimum of three hours outside work per week is required. May be repeated for a total of 12 hours credit. Prerequisites: ART 3341. $40 course fee.

ART 4350 Modern Mexican Art, 1785-1940. [3-0] fall, spring, summer
An in-depth survey of modern Mexican art from the founding of the San Carlos Academy in Mexico City in 1785 through 1940. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor: $20 course fee.

ART 4352 Modern Mexican Art Since 1940 [3-0] fall, spring, summer
An in-depth survey of the most recent developments in Mexican art since 1940. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor: $20 course fee.
ART 4353 Arts of the West Since 1400 A.D.  [3-0]  
fall, spring, summer  
A comprehensive examination of the major artistic and architectural achievements of Western civilization from the Renaissance to the present. This course is for BFA Studio Art, BA All-Level Certification, and non-art majors only. Prerequisites: Sophomore-level standing. $20 course fee.

ART 4355 Modern Art of South America and the Caribbean  [3-0]  
fall, spring, summer  
An in-depth survey of South American and Caribbean art from the 1816 founding of the Brazilian Academy through the present. Most emphasis will be on the nations of Argentina, Brazil, Colombia, Cuba, Uruguay, and Venezuela. Prerequisites: ART 2351, ART 2352 and ART 2353, or permission of the instructor. $20 course fee.

ART 4356 History of Photography  [3-0]  
fall, spring, summer  
The history of photography as an art form throughout the world from its inception under Talbot, Niepce and Daguerre to the present. Special emphasis on photography in Mexico, Latin America and the Borderlands. Prerequisites: ART 2351, ART 2352, or permission of the instructor.

ART 4357 Art and Architecture of Asia, Africa and Oceania  [3-0]  
fall, spring, summer  
A rigorous examination of thousands of years of the finest architecture and art of China, Japan, India, Southeast Asia, Africa and Oceania. Prerequisites: ART 2351, ART 2352, or permission of the instructor.

ART 4358 Latino Art History  [3-0]  
fall, spring, summer  
The most notable artistic achievements and movements of the United States' peoples of Mexican, Cuban, Puerto Rican, or other Latin American or U.S. Hispanic Borderlands descent since 1920. Prerequisites: ART 2351, ART 2352, or ART 2353, or permission of the instructor. $20 course fee.

ART 4359 Seminar on Topics in Art History  [3-0]  
fall, spring, summer  
Variable topics on the different art historical regions, periods, or themes to be taught upon demand. (May be repeated for a total of 6 hours of credit.) Prerequisites: Junior standing and permission of the instructor. This is a required capstone course for the Bachelor of Arts in Art degree. It is open to all qualified UTPA students. $20 course fee.

ART 4361 Printmaking IV  [2-4]  
fall, spring, summer  
This course will provide the student with more advanced printmaking processes. The student may pursue previously learned processes in greater depth, or may pursue more experimental directions. This course may be repeated for 12 hours credit. A minimum of three hours of outside assignments per week is required. Prerequisite: ART 3362. $40 course fee.

ART 4371 Ceramics IV  [2-4]  
fall, spring, summer  
Continuation of Ceramics III. Students are expected to be involved in a personal direction in the use of clay/glaze. May be repeated for a total of 12 hours credit. A minimum of three hours of outside assignments per week is required. Prerequisites: ART 3372. $40 course fee.

ART 4383 Art Curriculum  [3-0]  
spring  
This course reviews structures of art curriculum at the secondary level. Students will design an art curriculum for the class. There will be an emphasis on curriculum implementation. Prerequisites: Junior standing. $20 course fee.

ART 4388 Special Topics  [2-4]  
fall, spring, summer  
For the advanced undergraduate, this course may be taken twice if the topic changes. The class is designed to immerse students within an artistic discipline with the opportunity to study a special advanced studio art topic not required in the undergraduate curriculum. Prerequisites: Junior standing or permission of the instructor. (Replaced by ART 4359). $40 course fee.

ART 4391 Individual Problems/Internship/Co-op  
fall, spring, summer  
Advanced problems in an art area of the student's choice and/or internship with an art professional in the field of interest. (May be repeated for a total of 12 hours of credit.) Prerequisites: Senior standing (for internship/co-op); all courses in the area chosen.

ART 4392 Individual Problems  
fall, spring, summer  
Advanced problems in the area of student’s choice. Prerequisites: ART 4391.

ART 4393 BFA Senior Exhibit  [3-0]  
fall, spring  
Students will be exposed to the process of how to organize and manage several elements (including promotional materials, portfolio, oral presentation, installation, and de-installation of work, and opening night preparation) related to the coordination of a professionally and highly successful art exhibition featuring their artwork. This is the culmination of their studies. Prerequisites: Senior-level standing. All upper and lower-division courses must be completed. $40 course fee.
Astronomy

ASTR 1401 Introductory Astronomy I [3-3]
(Texas Common Course Number is
ASTR 1404/PHYS 1411)
fall
This course introduces the student to basic concepts in astronomy and of the solar system. Telescopes and other instruments including the planetarium are used as an integral part of the course. This course includes three laboratory hours a week to emphasize course concepts. Course fee: $20 and Technology fee: $4.

ASTR 1402 Introductory Astronomy II [3-3]
(Texas Common Course Number is
ASTR 1403/PHYS 1412)
spring
This course exposes the student to information about the stellar universe. Telescopes and other instruments including the planetarium are used as an integral part of the course. The course includes three laboratory hours a week to emphasize course concepts. Course fee: $20 and Technology fee: $4.
Prerequisites: ASTR 1401.

ASTR 2101 Astronomy Night Lab [0-3]
fall, spring
This course is a hands-on night sky telescopes laboratory. Students will work directly with telescopes studying both solar system objects as well as stars, nebulae, clusters, and other astronomical objects. Students observe and analyze astronomical events such as the phases of Venus, retrograde motion of planets, and orbits of Jupiter’s moons, etc. Students will use sky simulation software as part of this course.
Prerequisites: ASTR 1401 and ASTR 1402.

ASTR 2301 Solar System Astronomy [3-0]
(Texas Common Course Number is ASTR 1304)
fall
This is an algebra/geometry/trigonometry/vector-based course in which students study the basic concepts in astronomy and of our solar system. Topics include current understanding of the Universe, general physics applied to astronomy, current understanding of the formation of our solar system, planetary surfaces, interiors, atmospheres and magnetospheres, and moons, asteroids and comets.
Prerequisites: ASTR 1401.

ASTR 3301 Stellar and Galactic Astronomy [3-0]
spring
This is an algebra/geometry/trigonometry/vector-based course in which students study stars and galaxies. Topics include the sun, star types, properties and evolution, our Milky Way Galaxy, galaxy types and general properties, Hubble’s Law, the expansion of the universe, and the Big Bang Model.
Prerequisites: ASTR 1402 and ASTR 2301.

ASTR 3302 Introductory Astrophysics [3-0]
fall
This is a calculus-based course that introduces the student to several topics in astrophysics including Orbital Mechanics, Radiative Transfer, Thermodynamic Equilibrium, Radiative Processes in Astrophysics, Stellar Structure, Galactic Dynamics, and Special Relativity.
Prerequisites: ASTR 3301 and Math 1460.

ASTR 3303 Introduction to Numerical Modeling in Astronomy [3-0]
spring
This course introduces the student to numerical modeling in astronomy. Students will be continuously developing simple numerical codes that represent/simulate given astronomical systems/objects.
Prerequisites: ASTR 3301 and MATH 1460.

Bible

BIBL 1310 Old Testament Survey [3-0]
as scheduled
A survey of the history and literature of the Old Testament. Particular emphasis is placed upon the teachings concerning God, man, salvation and social relations, especially those teachings that deal with the preparation for the coming of the Messiah.

BIBL 1311 New Testament Survey [3-0]
as scheduled
A brief survey of the Christian movement in the Mediterranean world during the first century, the life of Christ, the beginning of the Christian church, the life and letters of Paul, and the general development of the New Testament as considered from the historical viewpoint.
Biology

BIOL 1401 General Biology I [3-3] (Texas Common Course Number is BIOL 1406)
fall, spring, summer
A study of the basic principles of biology. Topics will include biological chemistry, cell structure and function, photosynthesis and respiration, DNA structure and function, mitosis, meiosis, Mendelian genetics and evolution. Credit Restriction: Credit may be received in only one of BIOL 1401 or BIOL 1487. Lab fees charged.

BIOL 1402 General Biology II [3-3] (Texas Common Course Number is BIOL 1407)
fall, spring, summer
A study of the basic principles of biology. Topics include evolution and diversity of prokaryotes invertebrate and vertebrate animals, mechanisms of support and movement, digestion and nutrition, respiration, circulation, homeostasis, hormonal control, nervous control, sexual reproduction, development, behavior, and ecology. Credit Restriction: Credit may be received in only one of BIOL 1402 or BIOL 1488. Lab fees charged.

BIOL 1487 Honors Biology [3-3] fall
An accelerated study of the basic principles of biology. Topics covered include cellular biology, photosynthesis, respiration, protein synthesis, cellular reproduction, genetics and microbial genetics. Open to students enrolled in the Honors Studies Program or by consent of instructor. Credit Restriction: Credit may be received in only one of BIOL 1401 or BIOL 1487. $3 laboratory fee.

BIOL 1488 Honors Biology [3-3] spring
An accelerated study of the basic concepts of biology. Topics covered include reproduction and development, digestion and nutrition, transport, homeostasis, the nervous system, ecology and evolution. Open to students enrolled in the Honors Studies Program or by consent of instructor. Credit Restriction: Credit may be received in only one of BIOL 1402 or BIOL 1488. $3 laboratory fee.

BIOL 2201 Special Problems in Biology [1-2] as scheduled
Study of special topics in biology for freshman- and sophomore-level students. The course will involve the independent study of a specific problem through conferences and activities directed by the instructor. Students must receive approval of instructor for study of specific problem prior to registration.

BIOL 2402 Comparative Vertebrate Anatomy [3-3] (Texas Common Course Number is BIOL 2428) as scheduled
Comparative studies of the morphological, embryological and physiological relationships among vertebrates with inclusion of histological and paleontological information. Prerequisites: BIOL 1401 (D or higher) and BIOL 1402 (D or higher).

BIOL 2403 Anatomy and Physiology I [3-3] (Texas Common Course Number is BIOL 2401)
fall, spring, summer
A study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous system and special senses. Prerequisites: Consent of instructor. Lab fees charged.

BIOL 2404 Anatomy and Physiology II [3-3] (Texas Common Course Number is 2402)
fall, spring, summer
A continuation of BIOL 2403. Includes endocrine, circulatory, respiratory, digestive, urinary and reproductive systems. Other topics include metabolism, acid-base balance, development and heredity. Prerequisites: BIOL 2403. Lab fees charged.

BIOL 2406 Environmental Biology [3-3] (Texas Common Course Number is BIOL 2406)
fall, spring, summer
This course will study biology with an environmental focus. Students are introduced to ecology, different environmental problems, human impact, and possible solutions. To understand the interaction of humans and the environment, topics such as ecosystems, biotic and abiotic components of the environment, population dynamics and sustainability, energy flow, toxicology, waste production, waste disposal, pollution and others are covered. Government policies and case studies are also presented. Prerequisites: None.

BIOL 3301 Biological Evolution [3-0] as scheduled
Genetic, ecological and paleontological aspects of evolution. Includes review of evolutionary history and thought, species concepts, speciation, and other evolutionary processes. Emphasis is on evolutionary mechanisms. Prerequisites: BIOL 1401 and BIOL 1402, or consent of instructor.

BIOL 3302 Biological Writing [3-0] fall, spring
Describes, analyzes, critiques and applies the biological writing styles. Writing topics include vitas, professional letters, research/laboratory reports and research proposals. Also focuses on manuscript editing, literature searches and referencing, reviewing published research papers, and data analysis and interpretation. Prerequisites: Biology or Environmental Science major of junior standing or above.

BIOL 3310 Neurobiology [3-0] as scheduled
Studies of nervous systems. Topics range from physiology of single neurons to neural bases of behavior in intact animals. This course emphasizes comparative methods with examples
BIOL 3401 General Microbiology [3-3]
fall, spring
A general survey of the field of microbiology with emphasis on bacteria. Topics will include structure, growth, reproduction, metabolism, genetics and taxonomy of bacteria. Also a general survey of fungi, algae, protozoa and viruses and microbiology of soil, water, foods and industry. Laboratory work will include staining, growing, biochemistry, characterization and control of bacteria with a general survey of other microorganisms. Prerequisites: BIOL 1401, BIOL 1402, CHEM 1301, CHEM 1101, CHEM 1302 and CHEM 1102. Lab fees charged.

BIOL 3402 Medical Microbiology and Immunology [3-3]
spring
A study of microorganisms that cause disease and immune responses of the host to these pathogens. Emphasis will be on principles of immunology and selected infectious disease processes. Laboratory exercises will include a study of basic serologic procedures and cultural characteristics of related pathogenic microorganisms. Prerequisites: BIOL 3401. Lab fees charged.

BIOL 3403 Conservation Biology [3-3]
fall, spring, summer
This course provides a scientific foundation for resource management efforts aimed at conserving, restoring, and sustaining the biological diversity in habitats. Biological diversity includes genetic variation among individuals and populations, species richness and abundance, habitat heterogeneity, and all of the interactions that determine the distribution and abundance of species. Prerequisites: BIOL 2305 and BIOL 3409. Lab fees charged.

BIOL 3404 Histology [3-3]
fall
Lectures will place major emphasis on the structure and function of major tissue types and their cellular components. The laboratory will provide an opportunity for firsthand experience in examining the microscopic structure of the major tissue types and their relationships in organ structure. Prerequisites: Twelve hours of biology including four hours from BIOL 2401, BIOL 2402 or BIOL 2403. Lab fees charged.

BIOL 3405 Developmental Mechanisms [3-2]
spring
Study of processes that lead to the diversity of animal and plant morphologies with an emphasis on mechanisms of pattern induction at the molecular level. Lectures will focus on common patterns and novel adaptations from a comparative point of view, while laboratories will give students experience in a variety of fundamental protocols using Drosophila as a model. Prerequisites: BIOL 3412 or consent of instructor. Lab fees charged.

BIOL 3407 Comparative Embryology [3-3]
as scheduled
Developmental studies from the zygote through embryological stages (chiefly concerned with amphibians, birds and mammals). Prerequisites: Nine hours of biology or consent of instructor. BIOL 3413 recommended. Lab fees charged.

BIOL 3408 Plant Morphology [3-3]
as scheduled
A study of the morphology, development and relationships of fungi, algae, liverworts, mosses, ferns, gymnosperms and angiosperms. Particular attention is given to the evolution of these groups. Prerequisites: Nine hours of biology, including BIOL 1402. Lab fees charged.

BIOL 3409 Ecology [3-3]
fall, spring
A study of the basic environmental factors affecting plants and animals and their relation to economic and conservation problems. Fieldwork. Prerequisites: Twelve hours of biology. Lab fees charged.

BIOL 3410 A Survey of the Plant Kingdom [3-3]
as scheduled
A study of the anatomy and physiology of plants, based on the study of higher plants, together with a comparative and survey of the plant kingdom. Emphasis will be placed on the development and reproduction of plants and their relationships to man. Lab fees charged.

BIOL 3411 Mammalian Physiology [3-3]
as scheduled
A survey of the physiological mechanisms of the organs and organ systems of mammals with emphasis on man. The laboratory will provide experiences with modern techniques. Topics will include muscle, nerve, digestive, urinary, respiratory, circulatory and reproductive systems. Prerequisites: Twelve hours of biology including four hours from BIOL 2401, BIOL 2402 or BIOL 2403 and eight hours of chemistry. Lab fees charged.

BIOL 3412 Cell Biology [3-3]
fall
A study of cell structure and function with emphasis on bioenergetics, membranes, genes and genetic control, cell division and its regulation and cellular differentiation. Prerequisites: BIOL 1401, BIOL 1402, CHEM 2102 and CHEM 2302. Lab fees charged.

BIOL 3413 Genetics [3-3]
fall, spring
Introductory lectures and laboratories in classical genetics. Topics will include Mendelian genetics, cell mechanics, sex determination, sex linkage, DNA structure and function, genetic linkage, crossing over, gene mapping, mutation, regulation of gene expression, chromosomal variations, population genetics and evolution. Prerequisites: BIOL 1401, BIOL 1402, CHEM 1301, CHEM 1101, CHEM 1302 and CHEM 1102. Lab fees charged.
BIOL 3414  Invertebrate Zoology  [3-3]
fall
Study of the comparative morphology, evolution, systematics and natural history of the invertebrates. Recommended as a preparatory course for BIOL 4402, BIOL 4407, BIOL 4415 and BIOL 5316. Prerequisites: Six hours of biology and junior standing. Lab fees charged.

BIOL 3415  Molecular Biology  [3-3]
as scheduled
A study of the structure and function of biological macromolecules as they relate to the functioning of whole cells and organisms. Topics include structure and function of nucleic acids and proteins, DNA replication and repair, transcription, translation, gene regulation, genetic engineering, applications of molecular technologies and biotechnologies, bacteriophages, and mobile genetic elements. Prerequisites: BIOL 3413, BIOL 3401 or BIOL 3412, CHEM 2302 and CHEM 2102. Lab fees charged.

BIOL 4100  Biology Seminar  [1-0]
fall, spring
A study of current biological literature and the discussion of research in progress. Required of all biology majors in their senior year. Open to non-majors by permission only.

BIOL 4201  Biology Problems I  [1-2]
as scheduled
A course adapted to the study of special topics in biology. For advanced students capable of developing a problem independently through conference and activities directed by the instructor. The problem is chosen by the student with the approval of the instructor prior to registration. This course is a prerequisite for BIOL 4202. This course may be repeated up to four times.

BIOL 4202  Biology Problems II  [1-2]
as scheduled
A course adapted to the study of special topics in biology and a continuation of BIOL 4201. For advanced students capable of developing a problem independently through conference and activities directed by the instructor. The problem is chosen by the student with the approval of the instructor prior to registration. Prerequisites: BIOL 4201. This course may be repeated up to four times for credit.

BIOL 4303  Mammalogy  [2-3]
spring
A study of anatomy, evolution, distribution, systematics, ecology and physiology of mammals of North America with special emphasis on local forms. Prerequisites: Nine hours of biology. Lab fees charged.

BIOL 4304  Ichthyology  [2-3]
fall
A study of ecology, distribution, adaptations, physiology, systematics and evolution of freshwater and marine fishes with an emphasis on local forms. Laboratories will stress identification and other practical applications of modern ichthyological techniques. Prerequisites: Nine hours of biology. Lab fees charged.

BIOL 4313  Endocrinology  [3-0]
as scheduled
Advanced study of the endocrine system with emphasis on humans. Topics include hormonal control of homeostasis, feeding, stress and reproduction; functions of endocrine organs, cellular mechanisms of hormone action, animal models of endocrinology, endocrine techniques, and endocrine related diseases. Prerequisites: Twelve hours of biology including four hours from BIOL 2402, BIOL 2403 or BIOL 3411 and eight hours of chemistry.

BIOL 4315  Inquiry-Based Science and Laboratory Techniques  [2-3]
spring
Designed for students interested in teaching secondary life sciences to provide additional preparation and skills to become an effective high school life sciences teacher. The course will emphasize the inquiry-based approach to science and cover mechanisms to apply this approach in lecture, lab and in assessment of content. Prerequisites: Students should enroll in the course during the semester in which they are finishing degree plan coursework and prior to the internship. Consent of instructor required. Lab fees charged.

BIOL 4317  Disease Epidemiology  [3-0]
fall, spring, summer
An introduction to the principles of epidemiology. Emphasis on ecological and evolutionary factors affecting disease processes. Both historical and current epidemics will be examined. Prerequisites: BIOL 3301 or BIOL 3413.

BIOL 4318  Ethnobotany  [3-0]
fall, spring, summer
Surveys on the historical uses of plants and their impacts on the evolution of human civilizations, natural sciences and natural environments. Emphasis is placed on the practice of artificial selection and the exploitation of plant-based foods, medicines, stimulants, psychoactive compounds, fibers, spices, aromatics, biofuels and construction materials. The promise of new and powerful biotechnological tools will be considered in light of economic and environmental concerns.

BIOL 4319  Medical Entomology  [3-0]
fall, spring
Study of the medically important insects. The focus will be on insect vectors and the diseases that they can transmit. We will examine insect life history, population dynamics, ecology, and human impact. We will also cover some basic epidemiology and disease transmission models. Prerequisites: Eight hours of introductory biology (and recommended BIOL 3414 or BIOL 4414) or consent of instructor.
Index

BIOL 4330 Molecular Evolution [3-0] fall
An examination of recent and current techniques in phylogenetic inference, population genetics and molecular evolution. The course will focus on both the theory and practical application of these techniques through review of seminal studies and a hands-on approach to gathering, processing and analyzing data for a group of genes or organisms of each student’s choice. Prerequisites: BIOL 3301 or BIOL 3413 or consent of instructor.

BIOL 4387 Inquiry-Based Science (Honors Plan) [2-3] spring
Applications of inquiry in science and an interdisciplinary approach to problem-solving. Consent of instructor required. Lab fees charged.

BIOL 4388 Global Change Ecology [3-0] as scheduled
This course will cover different aspects of global change, emphasizing topics such as habitat alteration, species extinctions, spread of diseases, invasive species, global warming, and the impact of these factors on conservation efforts. Prerequisites: BIOL 3409 or consent of instructor.

BIOL 4398 Special Topics I [3-0] as scheduled
Topics will cover specialized areas of study in the biological sciences that tend to not be part of regular course offerings. Subjects may vary from semester to semester, depending on the faculty member teaching the course. A student may take this course up to two times for credit. Prerequisites: Biology major or minor and eight hours of introductory biology, or consent of instructor. Lab fees charged.

BIOL 4399 Special Topics II [3-0] as scheduled
Topics will cover specialized areas of study in the biological sciences that tend to not be part of regular course offerings. Subjects may vary from semester to semester depending on the faculty member teaching the course. A student may take this course up to two times for credit. Prerequisites: Biology major or minor and eight hours of introductory biology, or consent of instructor. Lab fees charged.

BIOL 4402 Marine Zoology [3-3] summer
A study of the common marine animals, especially invertebrates in coastal waters. Particular attention is given to structural and physiological relationships. Strenuous field work required. Students must provide their own transportation to and from South Padre Island or other field trip sites. Prerequisites: Nine hours of biology (BIOL 3414 recommended) and junior standing. Lab fees charged.

BIOL 4403 Introduction to Remote Sensing Technology [3-3] spring
This course provides training in the use of electromagnetic radiation for monitoring environmental conditions and resources. Emphasis will be placed on the operation of various remote sensors, collection of analog and digital data, and use of computer software for image processing, interpretation and integration of imagery into geographic information systems. Prerequisites: Consent of instructor. Lab fees charged.

BIOL 4404 General Virology [3-3] as scheduled
This is a comprehensive course covers aspects of human, animal and plant virology. The course emphasizes current research on the genome and replication of viruses, functions and regulations of viral genes, molecular mechanisms of virus-host and virus-vector interactions and novel molecular control strategies. The course will also cover prions and several sub-viral pathogens including viroids, virusoids and satellite RNA. Prerequisites: BIOL 3401. Lab fees charged.

BIOL 4405 Plant Physiology [3-3] as scheduled
An introduction of the basic principles of the physiology, growth and development of plants. Prerequisites: Six hours of biology. Lab fees charged.

BIOL 4406 Mycology [3-3] as scheduled
This course will provide training in the following areas: fungal morphology and taxonomy, structure and function relationships, physiology and genetics, molecular biology, parasitism of animals and plants, applied and environmental mycology. Prerequisites: BIOL 1401, BIOL 1402, BIOL 3401, BIOL 3412 or BIOL 3413. Lab fees charged.

BIOL 4407 Animal Parasitology [3-3] spring
Introduction to study of parasitic protozoa and worms (especially trematodes, cestodes, nematodes and acanthocephala). Prerequisites: Nine hours of biology, including four hours from BIOL 2401, BIOL 2402, BIOL 2403 or BIOL 3414, and junior standing. Lab fees charged.

BIOL 4408 Plant Pathology [3-3] as scheduled
An introductory course on the causes, nature and control of plant diseases. Emphasis will be given to diseases of plants of economic importance. Prerequisites: Six hours of biology. Lab fees charged.

BIOL 4409 Herpetology [3-3] as scheduled
A study of anatomy, evolution, distribution, systematics, ecology and physiology of amphibians and reptiles, primarily of North American species, with special emphasis on local forms. Prerequisites: BIOL 1401 (D or higher) and BIOL 1402 (D or higher). Lab fees charged.
BIOL 4410 Marine Botany [3-3]
as scheduled
A study of the common local marine flora including microscopic and macroscopic algae, seagrasses and coastal plants. Students are expected to furnish their own transportation to field laboratory sessions at South Padre Island. Prerequisites: Nine hours of biology, including BIOL 1402. Lab fees charged.

BIOL 4411 Ecological Physiology of Animals [3-3]
as scheduled
A comparative study of the physiological adaptations of vertebrate animals to their environments. Emphasis is placed on the physiological basis of animal distribution and evolution. Prerequisite: BIOL 1401 (D or higher) and BIOL 1402 (D or higher). Lab fees charged.

BIOL 4412 Ornithology [3-3]
as scheduled
Principles of avian classification, morphology and ecology, including migration, distribution and relationships to man. Fieldwork. Prerequisites: Nine hours of biology or permission of instructor. Lab fees charged.

BIOL 4414 Plant Taxonomy [2.5-2.5]fall
Identification of vascular plants based on historical and modern molecular approaches to plant classification. Prerequisites: BIOL 1401 and 1402 (or equivalents). Lab fees charged.

BIOL 4415 Entomology [3-3]spring
An introduction to the study of insects and other arthropods of agricultural, medical and veterinary importance. Includes basic insect morphology, physiology, classification and pest management. Laboratory consists of insect identification supported by field trips. Prerequisites: Consent of instructor. Lab fees charged.

BIOL 4416 Environmental Toxicology [3-3]fall
A survey of interaction of environmental pollutants with living systems. Laboratory consists of toxicological evaluation of selected environmental chemicals. Prerequisites: Four hours from BIOL 2403, BIOL 2404 or BIOL 3412 and six hours of organic chemistry or biochemistry. Lab fees charged.

BIOL 4417 Bacterial Genetics [3-3]
This course will cover bacterial genetics from both classical and molecular perspectives. Topics will include transcription, translation, mutagenesis, transduction, transformation, conjugation and transposition. The lab will include techniques related to those topics and will include northern blotting, DNA sequencing and the polymerase chain reaction. Prerequisites: BIOL 1401, BIOL 1402, CHEM 1301, CHEM 1101, CHEM 1302, CHEM 1102 and BIOL 3415. BIOL 3401 recommended. Lab fees charged.

BIOL 4418 Electron Microscopy [3-3]
This course will provide an opportunity to learn scanning and transmission electron microscopy. Topics include the principles of electron microscopes, cell ultrastructure, specimen preparation, microtomy, immunocytochemistry, operation of electron microscopes, darkroom techniques and graphic arts. Prerequisites: BIOL 1401, BIOL 1402, CHEM 1301, CHEM 1101, and two hours computer literacy.

BIOL 4419 Aquatic Entomology [3-3]
This course will cover the identification, taxonomy and ecology of aquatic insects. Emphasis will be on local aquatic environments. Laboratories will consist of field trips and identification of specimens. This course replaces BIOL 4414 and cannot be taken for credit if BIOL 4414 has already been taken. Prerequisites: Nine hours of biology including BIOL 1402. Lab fees charged.

BIOL 4420 Biotechnology [3-3]as scheduled
This course will utilize the computational methods, online databases and Internet resources present in the biological sciences and apply them to answer questions in biology ranging from organism development to human disease. The laboratory portion of the class will be computer and Internet-based. Students will explore online database resources to answer questions in a wide variety of areas relating to cellular and molecular biology. Prerequisites: CHEM 2302, CHEM 2102, BIOL 3413, BIOL 3401, BIOL 3412. Lab fees charged.

BIOL 4422 Neurobiology Methods [2-6]as scheduled
An intensive introduction for studying neural anatomy and physiology including staining, labeling and extracellular and intracellular recording. Invertebrates are used as subjects. Prerequisites: Consent of instructor and BIOL 3310. Lab fees charged.

BIOL 4424 Microbial Ecology [3-3]as scheduled
An introduction to the diversity of microbes found in nature. Emphasis is placed on the ecological significance of bacterial communities found in terrestrial, aquatic and extreme ecosystems, as well as their metabolic activities, interactions and survival strategies. The effects of microbial activities in areas such as bioremediation and biogeochemistry are also addressed. Prerequisites: BIOL 3401 or General Microbiology. Lab fees charged.

BIOL 4426 Marine Ecology [3-3]fall, spring, summer
This course is an introduction to marine ecology. It will include discussion of marine ecosystems and processes with a focus on the marine environment of South Texas. Prerequisites: Biology 3409 or Ecology. Lab fees charged.
The University of Texas-Pan American

Index

BIOL 4427  Marine Animal Field Studies  [1-9]  
as scheduled
This field course will offer students comprehensive field
based training in the local marine fauna on South Padre
Island. Students will conduct field trips to all major
habitat types on South Padre Island, identify and classify
marine organisms, and learn basic collecting techniques by
conducting observational and experimental studies in field
settings. Students are expected to stay on the facility during
the field course (Student housing will be provided).
Prerequisites: BIOL 1402 and junior standing.

BIOL 4428  Medical Genomics  [3-3]  
as scheduled
This course will examine the ever-changing field of genomics.
Specifically, the roles that genomics and population genetics
play in expanding our knowledge of human biology, disease
detection and personalized medicine will be studied.
Prerequisites: BIOL 3413, BIOL 3301, or BIOL 4330.

Business Law

BLAW 3337  Business Law I  [3-0]  
fall, spring
The study of the development and functioning of our legal
environment. The development of case law and precedents.
The application of procedural and substantive law pertaining
to civil and penal matters and the study and analysis of
cases and rules of law relating to basic business practices.
Governmental regulations of business, property rights
and business ethics. Course also includes torts, contracts,
commercial transactions and agency. Relevant ethical
considerations are included in each topic.

BLAW 3338  Business Law II  [3-0]  
fall, spring
A continuation and expansion of the study of rules of law
in a business society including sales, commercial paper
and credit transactions with emphasis on the Uniform
Commercial Code, business organizations, and government
regulations, property, wills and trusts, consumer protection
and bankruptcy. Prerequisites: BLAW 3337.

BLAW 3340  International Business Law  [3-0]  
fall, spring, summer
U.S. laws governing international business. The impact of
foreign laws on business within the host country including
U.S. companies in that country. Prerequisites: BLAW 3337.

BLAW 4331  Topics in Business Law  [3-0]  
fall
Each course will address a separate business law topic as
determined by the instructor and based on student demand.
Possible topics include real estate law, cyber law and
entrepreneurial law. This course may be repeated for credit
with different topics. Prerequisites: BLAW 3337.

Chemistry

CHEM 1101  General Chemistry Lab I  [0-3]  
(Texas Common Course Number is CHEM 1111.)
fall, spring, summer
An introduction to basic laboratory techniques using
experiments to understand chemical concepts of reactions,
stoichiometry and titrations. Prerequisite: CHEM 1301; can
be taken concurrently with CHEM 1301. $4 laboratory fee.

CHEM 1102  General Chemistry Lab II  [0-3]  
(Texas Common Course Number is CHEM 1112)
fall, spring, summer
A continuation of CHEM 1101 using more advanced
laboratory techniques such as volumetric, gravimetric and
spectrophotometric methods of analysis and qualitative
inorganic analysis to reinforce topics covered in CHEM 1302.
Prerequisites: CHEM 1302; can be taken concurrently with
CHEM 1302. $4 laboratory fee.

CHEM 1103  Chemistry in Society Lab I  [0-3]  
fall, spring, summer
This course is an introduction to basic laboratory
techniques using experiments involving chemical reactions,
stoichiometry, and titrations to understand and reinforce
chemical concepts covered in CHEM 1303. Prerequisites:
CHEM 1303; can be taken concurrently with CHEM 1303.

CHEM 1104  Chemistry in Society Lab II  [0-3]  
fall, spring, summer
This course is a continuation of CHEM 1103 using more
advanced laboratory techniques such as spectrophotometric
methods of analysis and qualitative analysis to understand
and reinforce chemical concepts covered in CHEM 1304.
Prerequisites: CHEM 1304; can be taken concurrently with
CHEM 1304.

CHEM 1107  Laboratory Chemistry  [0-3]  
for Engineers
fall, spring
This course will cover basic laboratory operations and
include qualitative analysis plus selected experiments related
to engineering. Prerequisites: CHEM 1307 concurrent or
completed.

CHEM 1300  Introductory Chemistry  [3-0]  
(Texas Common Course Number is CHEM 1305)
fall, spring
Designed for students with little or no chemistry
background. It introduces basic vocabulary, fundamentals of
chemical mathematics, scientific laws, chemical formulas and
equations. This course will not satisfy a laboratory science
requirement.
CHEM 1301  General Chemistry I  [3-0]
(Texas Common Course Number is CHEM 1311)
fall, spring, summer
Fundamentals of atomic structure, electronic structure and periodic table, nomenclature, the stoichiometry reactions, gas laws, thermochemistry, chemical bonding, and structure and geometry of molecules. Prerequisites: CHEM 1300 or one year of high school chemistry.

CHEM 1302  General Chemistry II  [3-0]
(Texas Common Course Number is CHEM 1302)
fall, spring, summer
This course presents the properties of liquids and solids, solutions-acid-base theory, chemical kinetics, equilibrium, chemical thermodynamics, electrochemistry, nuclear chemistry, and representative organic compounds. Prerequisites: CHEM 1301.

CHEM 1303  Chemistry in Society I  [3-0]
fall, spring, summer
This course is an introduction to atomic structure, electronic structure and the periodic table, nomenclature, nuclear chemistry, chemical bonding, stoichiometry, chemical reactions, and representative organic compounds, all applied within the context of society and the environment for non-science majors. Prerequisites: None.

CHEM 1304  Chemistry in Society II  [3-0]
fall, spring, summer
This course is an introduction to the properties of solids, liquids, gases, and solutions, chemical thermodynamics, biochemistry, and food chemistry, along with the application of chemistry to health and nutrition, pharmaceuticals, toxicology, and household chemicals for non-science majors. Prerequisites: CHEM 1303.

CHEM 1307  Chemistry for Engineers  [3-0]
fall, spring
This course will cover stoichiometry, structure, bonding, thermodynamics, and kinetics plus a brief survey of organic chemistry, biochemistry, and analytical chemistry. Prerequisites: High school chemistry.

CHEM 2101  Analytical Chemistry Lab  [0-3]
(Texas Common Course Number is CHEM 2101)
fall
A laboratory hands-on experience in quantitative inorganic analytical methods including gravimetric, titrimetric, colorimetric and electroanalytical methods. Prerequisites/Co-requisite: CHEM 2301.

CHEM 2102  Organic Chemistry Lab I  [0-3]
(Texas Common Course Number is CHEM 2123)
fall, spring, summer
An introduction to organic synthesis. Fundamental techniques such as crystallization, distillation, extraction and chromatography are discussed and applied to the preparation of organic compounds. Prerequisites: CHEM 2302; can be taken concurrently with CHEM 2302. $4 laboratory fee.

CHEM 2103  Organic Chemistry Lab II  [0-3]
(Texas Common Course Number is CHEM 2125)
fall, spring, summer
Syntheses are more advanced, with greater emphasis on aromatic compounds. Grignard and diazonium salt preparations are included. Compounds are characterized by spectroscopic techniques. Prerequisites: CHEM 2102. $4 laboratory fee.

CHEM 2204  Chemistry Research  [0-6]
fall, spring, summer
This course is designed to introduce the student to scientific research by joining the laboratory of a research mentor. The student works directly with their mentor on a directed individual research project to learn scientific methodology and certain basic techniques. Prerequisites: None.

CHEM 2301  Analytical Chemistry  [3-0]
(Texas Common Course Number is CHEM 2301)
fall
An introduction to principles of quantitative inorganic analytical methods including gravimetric, titrimetric, colorimetric and electroanalytical methods. Prerequisites: CHEM 1302.

CHEM 2302  Organic Chemistry I  [3-0]
(Texas Common Course Number is CHEM 2323)
fall, spring, summer
An introduction to the fundamentals of organic chemistry. Study of covalent bonding, molecular structure, acid-base theory, conformational analysis and stereochemistry, and relations between structure and reactivity: functional groups and their interconversions. Mechanistic studies with emphasis on reactive intermediates. Prerequisites: CHEM 1302.

CHEM 2303  Organic Chemistry II  [3-0]
(Texas Common Course Number is CHEM 2325)
fall, spring, summer
This course is a continuation of CHEM 2302 and includes an introduction to aromaticity and aromatic compounds. The study of functional groups and the mechanisms of their reactions are continued. Physical methods of structure determination: UV-Vis, IR and NMR. Prerequisites: CHEM 2302.

CHEM 3103  Biochemistry Lab  [0-3]
fall, spring
Introduction to the application of various techniques such as column chromatography, electrophoresis to study macromolecules such as protein estimation, enzyme kinetics and chemistry of carbohydrate, lipids and nucleic acids. Prerequisites: CHEM 3303; can be taken concurrently with CHEM 3303. $4 laboratory fee.

CHEM 3104  Physical Chemistry Lab I  [0-3]
fall
Experiments are designed to demonstrate and reinforce the concepts developed in physical chemistry lectures. Emphasis is given to error analysis and statistical treatment of data.
CHEM 3105  Physical Chemistry Lab II  [0-3]  
spring  
This course is a continuation of CHEM 3104. Experiments are performed to reinforce concepts in quantum mechanics, spectroscopy and chemical kinetics. Prerequisites: CHEM 3305; can be taken concurrently with CHEM 3304. $4 laboratory fee.

CHEM 3202  Inorganic Chemistry Lab  [1-3]  
spring  
Microscale synthesis and characterization of inorganic, organometallic, coordination and bioinorganic compounds employing advanced laboratory techniques. Prerequisites: CHEM 3301; can be taken concurrently with CHEM 3301. $4 laboratory fee.

CHEM 3206  Advanced Chemistry Research I  [0-6]  
fall, spring, summer  
This course is designed to provide students already exposed to scientific research with more chemistry or biochemistry research experience. The student will work directly with their mentors on a directed individual research project to answer specific research questions and learn more advanced techniques. Please note that this course cannot be counted toward a chemistry minor. Prerequisites: Students should have taken or be concurrently enrolled in a junior-level course and a lab in a specific area.

CHEM 3301  Inorganic Chemistry  [3-0]  
spring  
A descriptive study of modern topics in inorganic chemistry that includes periodicity, acid-base theories, structure, bonding and reactivity of inorganic compounds and chemistry of nontransition elements and their compounds. This course is writing intensive. Prerequisites: Twelve hours of chemistry including CHEM 2302.

CHEM 3303  Biochemistry  [3-0]  
fall, spring  
A discussion of the structural and functional viewpoint of biological macromolecules including proteins, carbohydrates and nucleic acids and the techniques used in their study. The course material will also include study of energy yielding metabolic pathways such as glycolysis, the Krebs cycle, fatty acid oxidation and oxidative phosphorylation. Prerequisites: CHEM 2302.

CHEM 3304  Physical Chemistry I  [3-0]  
fall  
An introduction to the properties of gases, the kinetic molecular theory and the study of thermodynamics, including an in-depth coverage of the first, second and third laws of thermodynamics and equilibrium. Statistical mechanics is used in the development of energy related concepts. Prerequisites: MATH 1401, MATH 1402, and 12 hours of chemistry.

CHEM 3305  Physical Chemistry II  [3-0]  
spring  
The second half of physical chemistry investigates concepts in quantum mechanics, group theory and symmetry and spectroscopy. Studies of chemical kinetics and electrochemistry are also included. Prerequisites: CHEM 3304.

CHEM 3306  Polymer Science and Engineering  [3-0]  
fall  
A general introduction to the theories and industrial practices for polymeric materials. The course includes synthesis, physical characterization and structure-property relationships of polymers. Emphasis is given to industrially important polymers as materials. Prerequisites: CHEM 1302.

CHEM 3401  Environmental Chemistry  [3-3]  
fall, summer I  
Environmental chemistry is an introduction to the study of the natural and anthropogenic aspects of the chemistry of the earth including the atmosphere, hydrosphere, and geosphere. This course will provide students with an understanding of field and laboratory methods of environmental chemistry in addition to a comprehensive investigation of current topics in the discipline. Students should have a strong background in general and organic chemistry. Field investigation is an important part of this course. Prerequisites: CHEM 2302 and CHEM 2102.

CHEM 4101  Chemistry Seminar  [1-0]  
fall, spring  
An introduction to the use of current chemical literature and periodicals. Each student is expected to conduct an in-depth study of a chemical topic that will serve as a basis for a presentation in a seminar. Required of all chemistry majors. Prerequisites: Chemistry major with senior standing or consent of instructor.

CHEM 4104  Instrumental Analysis Lab  [0-3]  
fall, spring  
A hands-on laboratory experience in instrumental analysis. Includes application of modern instrumentation and scientific software in solving analytical problems. Prerequisites/Co-requisites: CHEM 4304.

CHEM 4105  Chemistry Capstone  [1-0]  
fall, spring  
This course will include a review and integration of chemical concepts, assessment, job search tools, exposure to graduate school opportunities, scientific ethics and chemical education as part of the final preparation of our ACS chemistry majors. Prerequisites: Students must have a senior standing.

CHEM 4201  Chemistry Problems I  [0-2]  
fall, spring  
A course adapted to the study of special topics in chemistry through research. Students are allowed to select the research problem through individual conferences with faculty members, who develop one- or two-semester research
Chemistry

**Chemistry Problems II**  
[0-2]  
Fall, Spring

A continuation of CHEM 4201. A course adapted to the study of special topics in chemistry through research. Students are allowed to select the research problem through individual conferences with faculty members, who develop one-or two-semester research projects for the course. Students must have approval of the instructor prior to registration. Prerequisites: CHEM 4201. $4 laboratory fee.

**Advanced Biochemistry Lab**  
[0-6]  
Fall, Spring, Summer

An inquiry-based lab that exposes students to undergraduate research, experimental design, the research literature, writing and reporting results, isolation and characterization of biological molecules of selected importance from specific model systems. Students will be exposed to a variety of techniques commonly used in answering biochemistry-related questions such as spectroscopy, electrophoresis, bioassay and biotechnology tools. Prerequisites: CHEM 3303.

**Advanced Chemistry Research II**  
[0-6]  
Fall, Spring

This course is designed to provide students already exposed to scientific research with more chemistry or biochemistry research experience. Students will work directly with their mentors on a directed individual research project to answer specific research questions and learn more advanced techniques. Please note that this course cannot be counted toward a chemistry minor. Prerequisites: Students should have take or be concurrently enrolled in a senior-level course and a lab in a specific area or CHEM 3206.

**Biochemistry Writing and Seminar**  
[2-0]  
Fall, Spring

A course designed to introduce students to the use of current biochemical literature and periodicals as well as biochemical writing. Each student is expected to conduct and in-depth study of a biochemical topic that will serve as the basis for a presentation in a seminar and a term paper. Prerequisites: Chemistry, biochemistry or science major with junior standing.

**Special Topics in Chemistry I**  
[2-0]  
Fall, Spring

A course designed to cover specialized areas in the science of chemistry. It can be repeated when topic changes. However, a maximum of four credit hours is applicable to the degree requirement. Prerequisites: Chemistry major with junior standing.

**Special Topics in Chemistry II**  
[3-0]  
Fall, Spring

A course designed to cover specialized areas in the science of chemistry. It can be repeated when topic changes. However, a maximum of six credit hours is applicable to the degree requirement. Prerequisites: Chemistry major with junior standing.

**Chemistry Education**  
[3-3]  
Fall

This course is an introduction to the intersection between chemistry content, learning chemistry content, and teaching chemistry content. Topics covered in the course include inquiry in chemistry, methods of teaching and learning chemistry, assessment of learning in chemistry, the history and nature of chemistry, chemistry in society, and the use of models in chemistry. Prerequisites: CHEM 1101, CHEM 1102, and CHEM 1302.
Computer Information Systems

CIS 1101 Introduction to Office Software [1-0] fall, spring, summer
A hands-on approach to different software packages for word processing, spreadsheets, database, e-mail and Internet.

CIS 1201 Introduction to Information Systems and Technology [2-0] fall, spring, summer
This course is a study of computer-based technology in communicating, solving problems, acquiring information and conducting business. Students will be presented the history and development of computer information systems, the social implications and ramifications of these developments along with the limits, possibilities, problems and careers associated with the use of technology. Students will be introduced to the skills/tools necessary to evaluate and learn new technologies as they become available. Students with no or limited computer experience are advised to concurrently enroll in CIS 1101 or enroll in CIS 1301 instead of CIS 1201.

CIS 1301 Computer Information Systems [3-0] (Texas Common Course Number is COSC 1305) fall, spring, summer
This course serves as an introduction to the primary components of a business computer system and to the primary application software packages used to increase productivity of business professionals. These topics will be reinforced with microcomputer laboratory exercises.

CIS 2301 Business Information Technologies [3-0] fall, spring, summer
This course introduces students to the basic concepts of computing and information technology knowledge in the context of the contemporary business environment. Topics include computer architecture, traditional packaged software, open source software, operating systems and emerging information technologies and their applications.

CIS 2308 Introduction to Business Programming [3-0] fall, spring
Students will be introduced to developing business applications using modern programming languages. Topics include fundamentals logic development and implementation, user interface design, data controls and systems integration. Prerequisites: CIS 1301 or equivalent.

CIS 3198 Business Analysis and Communication [1-0] fall, spring
This course introduces students to the use of information technologies for the purpose of business analysis and communication. Students will use various software tools to extract and organize business data into useful knowledge, and share the information with others for managerial purposes in contemporary enterprises.

CIS 3300 Internship in CIS [0-0-3] fall, spring, summer
This internship is designed to give students an opportunity to gain real world experience in their chosen career field by working with a participating employing firm or organization. The students will be supervised by a faculty member acting as a liaison between the employing organization and the academic department to assure compliance with specific learning and experience requirements for the assignment. The employment can be either paid or unpaid, and must be at least 10 hours of work each week over the period of one academic term. Prerequisites: Upper-division standing and approval by both department chair and employer providing internship experience.

CIS 3308 Advanced Business Programming [3-0] fall, spring
This course is a continuation of CIS 2308 using advanced features of visual basic for business applications. Students will develop applications such as payroll, accounts receivable, inventory, point of sale and online purchases. Prerequisites: Grade of C or better in CIS 2308.

CIS 3312 Web Systems Design [3-0] fall, spring
A study of the concepts and principles of designing web-based systems and delivery of business content on the web using HTML, JavaScript, and other tools. Hands-on projects and exercises will be used to emphasize various tools and techniques used in Web systems development. Prerequisites: Grade of C or better in CIS 2308.

CIS 3320 Organizational Information Assurance [3-0] fall, spring
This course covers fundamental concepts of information assurance in enterprises. Topics include managing information risks and threat analysis, information security evaluation, planning and deploying information assurance policies, management, legal and ethical issues.

CIS 3335 Database Management [3-0] fall, spring
This course is an introduction to the foundations of database technology. Basic knowledge in data structures, normalization of data and data modeling will be included. Relational, hierarchical and network models will be covered. The student will be introduced to the rudiments of the construction of database schema via laboratory experiences stressing application development through advanced programming techniques and a database language. Prerequisites: Grade of C or better in CIS 2308.
CIS 3336 Systems Analysis [3-0] fall
This course examines the analysis of business information systems and their redesign vis-à-vis automated applications. Students will be required to initiate, plan, and analyze a real-life project within an organization. Team projects will result in a system proposal. Prerequisites: Grade of C or better in CIS 2308.

CIS 3338 Computer Networks and the Internet [3-0] fall, spring
An introduction to the characteristics, feasibility and design of networks and distributed data processing. Focus is on the business and technical aspects of distributed processing involving digital communication. The business aspects will include implementation strategies, security, control and selection of distributed data processing. The technical aspects will include data communication technology, hardware configuration and application software. Prerequisites: Six hours of CIS or CSCI above computer literacy with grade of C or better or consent of department chair.

CIS 3380 Global Information Systems [3-0] fall, spring, summer
The purpose of this course is to investigate the role of information technologies in multinational settings. This course will examine the international business environment and how information systems and technology can be effectively utilized in multinational environments. Prerequisites: MGMT 3361, computer literate and junior standing.

CIS 3390 Management Information Systems [3-0] fall, spring, summer
This course is a study of the use of current technology in strategic decision-making and operations of the modern organizations, both public and private. The course examines how organizations plan, develop, implement and maintain information systems to take advantage of recent technological advances in information technology. Prerequisites: CIS 1301 or consent of department chair.

CIS 3395 ERP Implementation [3-0] fall, spring
In this course, students apply their understanding of business processes to the configuration of enterprise resource planning (ERP) systems. Students gain hands-on experience implementing ERP systems as they develop solutions for the business problems. Topics include business process analysis and integration, configuration of business rules and policies, and testing of ERP solutions.

CIS 4308 IT Project Management [3-0] fall, spring
This course presents the specific concepts, system and technologies for managing projects effectively. IT leads the students through a complete project life cycle, from requirements analysis and project definition to start-up, reviews and phase-out. The role of the project manager as team leader is examined together with important techniques for controlling project costs, schedules and performance. Lectures, case studies, a research project and group discussions are combined to develop the skills needed by project managers in today's environment. Prerequisites: CIS 3390 or consent of department chair.

CIS 4312 Application Development for E-commerce [3-0] spring
This course introduces the development of electronic commerce applications using object-oriented programming. Students will develop business applications and applets for web-based systems using Java and/or more current object-oriented programming languages. Prerequisite: CIS 3312 with a grade of C or better.

CIS 4330 Business Intelligence [3-0] fall, spring
Overview of important concepts of business intelligence and the use of related technologies to enable organizations to function effectively in dynamic business environments. Topics include intelligence programs, processes and tools to track business, competitors, markets and trends by acquiring, creating, managing, packaging and disseminating intelligence knowledge.

CIS 4336 Systems Design and Development [3-0] spring
This course is a continuation of CIS 3336. Students will be required to design, develop and implement a real-life project from a system proposal. Students will be organized into teams and will be required to apply the concepts learned in earlier courses. Prerequisites: Grade of C or better in CIS 3335 and CIS 3336.

CIS 4391 Information Security [3-0] spring
The objective of this course is to provide students with a balanced understanding of the technical and organizational issues related to Information Security. Students will receive theoretical and practical instructions in both technical and managerial aspects of securing information in organizations. Representative topics covered in the course include key topics such as Internet and network security, Encryption, Cryptography, Symmetric and Public Key algorithms, Digital signatures, Authentication, Key database security, secure communications and industry best practices for information assurance. The course will be helpful to the students who aim to pursue Certified Information Systems Security Professional certification and/or careers in Information Security.
CIS 4395 ERP Customization [3-0]  
fall, spring  
This course covers the development and administration of enterprise resource planning (ERP) system applications. Students will study ERP systems infrastructure support requirements, and will develop customized ERP solutions, including system interfaces, web-based systems and executive information systems.

CIS 4397 Health Computer Information Systems [3-0]  

as scheduled  
This course provides the knowledge about fundamentals of Health Computer Information Systems and the role of Computer Information Systems in efficient operation of healthcare organizations. The course specifically focuses on: Evolution of HCIS components and basic HCIS functions, technology infrastructure for healthcare organizations, basic concepts such as EHR, HIE, CPOE, and CDSS, HCIS standards such as HIPPA, HL7, and DICOM, strategic information systems planning for healthcare organizations, systems analysis and project management, information security issues, and role of HCIS professionals in health organizations.

CIS 4399 Selected Topics in Health Computer Information Systems [3-0]  

as scheduled  
An in-depth analysis of contemporary health computer information systems (HCIS) topics with emphasis on electronic health records (EHR) and health information exchange (HIE). Course may be repeated twice if topic varies.

Civil Engineering

CIVE 2120 Civil Engineering Measurements [0-3]  
Principles of measurement and error analysis; introduction to plane surveying.

CIVE 2140 Materials of Construction [0-3]  
Engineering properties of construction materials, preparation and testing of concrete mixtures, chemistry and science of Portland cement, related ASTM test specifications. Prerequisites: CHEM 1307 and 1107 or CHEM 11301 and 1101.

CIVE 3324 Structural Analysis [3-0]  
Forces and deflections in structural systems; considers stationary and moving loads and exact and approximate methods; analysis of statically indeterminate structures by consistent deformation, slope-deflection, and moment distribution methods. Prerequisites: MECE 3321.

CIVE 3331 Environmental Engineering [3-0]  
Principles, analysis, and design related to environmental monitoring, protection, and remediation systems. Topics include environmental quality and legislation, modeling, water treatment, wastewater treatment, solid and hazardous waste management, air and noise pollution, and radioactive waste management. Prerequisites: PHYS 2401, CHEM 1307 and 1107, or CHEM 1301 and CHEM 1101.

CIVE 3333 Water and Wastewater Treatment [3-0]  
Theory, modeling, and design of chemical, biochemical and physical processes for water treatment, wastewater treatment, and pollution control. Prerequisites: CIVE 3331.

CIVE 3341 Structural Steel Design [3-0]  
Analysis and design of steel tension members, beams, columns, and bolted or welded connections. Emphasis on AISC structural codes and computer tools to assist the designer. Introduction to plastic design. Prerequisites: CIVE 3324.

CIVE 3352 Civil Engineering Systems Analysis [3-0]  
Systems approach to problem solving, application of operations research in civil engineering; and mathematical modeling and analysis techniques including marginal analysis, linear programming, and dynamic programming and decision analysis. Co-requisite: MANE 3337.

CIVE 3375 Geotechnical Engineering and Applications [2-1]  
Exploration, sampling, and in-situ measurements; laboratory testing; review of fundamental properties of soil and rock; flow through porous media; the effective stress principle and computation of in-situ stress distributions; shear strength of soils and one-dimensional consolidation settlement; introduction to slope stability. Emphasis in laboratory on ASTM and AASHTO testing standards. Prerequisites: MECE 3321.

CIVE 4315 Applied Hydrology [3-0]  
Hydrologic cycle, precipitation, hydrologic abstractions, surface runoff; unit hydrographs; synthetic hydrographs; peak discharge relationships; flood frequency analysis; flood and reservoir routing; and groundwater hydrology. Binomial, normal and extreme-value skewed distributions. Prerequisites: MECE 3315.

CIVE 4335 Water Resources Engineering [3-0]  
Analysis and design of surface and subsurface water resource facilities. Design of water supply, gravity flow sanitary sewers and storm water drainage systems; pumps and pump systems and stations. Prerequisites: CIVE 3331. Co-requisite: CIVE 4315.

CIVE 4346 Reinforced Concrete Design [3-0]  
Mechanics, behavior, and design of reinforced concrete members. Prerequisites: CIVE 3324.
CIVE 4347 Foundation Design [3-0]
Design of footings, mats and slab-on-grade; earth pressures and design of retaining walls, piles and drilled piers, soil improvement and ground modification; pre-stressed slab design.
Prerequisites: CIVE 3375.

CIVE 4348 Highway Engineering [3-0]
Principles of transportation engineering, traffic volume, highway capacity; general characteristics of highway design; horizontal and vertical alignment, cross-sections, earthwork, drainage, and pavement; and economic analysis.
Prerequisites: CIVE 2120, 3352.

CIVE 4349 Construction Planning and Management [3-0]
Planning, managing, scheduling and control of construction projects. Topics include management functions, network techniques, equipment selection, management and operation, construction financing, bidding strategy, risk assessment, cost control, and projection.
Prerequisites: CIVE 3352.

CIVE 4390 Civil Engineering Senior Design Project [2-3]
An overview of design, management and professional engineering; student design teams complete a comprehensive project involving several areas of civil engineering. Course to be completed in the final semester of the student’s civil engineering degree plan.
Prerequisites: Consent of CIVE adviser.

CLSC 2429 Clinical Microbiology in Health Care [3-3]
as scheduled
This course will focus on the immunology, diagnosis, treatment and prevention of infectious diseases. The major categories of microbial pathogens such as viruses, bacteria, fungi and parasites will be discussed in relationship to human disease processes. Utilization and interpretation of laboratory findings in the health care setting will be emphasized. Students will have the opportunity to acquire skills in the use of universal precautions and infection control techniques. Recommended for pre-professional students interested in health professions. Prerequisites: Eight hours of biology.

CLSC 3100 Introduction to Clinical Laboratory Science [1-0]
fall
Introduction to the clinical laboratory science profession including professional ethics, certification and licensure issues, laboratory safety, regulatory requirements and basic concepts in quality control. Open to all interested students.
Prerequisites: Eight hours of biology and eight hours of chemistry.

CLSC 3310 Hematology I [2-3]
fall
Formation, function and identifying characteristics of the cellular elements of blood. Lecture and laboratory emphasize the enumeration, morphology and staining characteristics of normal and abnormal blood cells in healthy and diseased states. Coagulation physiology and methods of detecting defects will also be introduced. Prerequisites: Admission into the Clinical Laboratory Sciences Program or special approval.

CLSC 3420 Clinical Chemistry I [3-3]
fall
Studies in clinical chemistry and urinalysis with concentration on the physiology of normal and abnormal metabolism as they relate to those techniques commonly performed in the general chemistry laboratory. Basic clinical chemistry and urinalysis instrumentation and methodology along with a discussion of diagnostic applications and clinical correlation of laboratory results will be emphasized. Prerequisites: Admission into the Clinical Laboratory Science Program or approval of the instructor.

CLSC 3513 Clinical Immunology and Immunohematology [4-3]
fall
Basic aspects of the immune response and its relationship to the diagnosis and treatment of disease. Lecture and
laboratory stress the basic concepts of the human immune system as well as clinical applications in the detection and diagnosis of disease processes by common serological tests including immunohematology applications. Prerequisites: Admission into the Clinical Laboratory Sciences Program or special approval.

CLSC 3530 Clinical Microbiology I [4-5] fall
Lecture and laboratory studies of human pathogens including common bacteria and parasites. Emphasis on staining, cultural and differential biochemical characteristics, as well as methods of isolation. Prerequisites: Admission into the Clinical Laboratory Sciences Program or special approval.

CLSC 4100 Seminar [1-0] fall
The student will be introduced to the broader role of the clinical laboratory scientist through seminars, case studies and activities designed to prepare the student for professional practice. Included in this course are review and practice examinations as well as a comprehensive exam encompassing the major areas of the clinical laboratory science field. Prerequisites: Admission to the Clinical Laboratory Sciences Program and completion of CLSC 4340 and 4341.

CLSC 4122 Method Development and Research [1-0] fall
Students will be introduced to the principles, regulatory requirements and statistical procedures used in developing and implementing new methods in the clinical laboratory. The principles of research will also be introduced to enable students to review and evaluate the medical literature related to new laboratory techniques.

CLSC 4144 Clinical Practicum V [0-0-6] fall
Clinical application of theory and techniques in affiliated institutions. Prerequisites: Admission into Clinical Laboratory Sciences Program and successful completion of on-campus coursework.

CLSC 4303 Medical Laboratory Leadership [3-0] fall
An introduction to the leadership roles and responsibilities of the clinical laboratory scientist in management, supervision and education as well as regulatory and legal aspects of laboratory medicine. Prerequisites: Admission into the Clinical Laboratory Sciences Program.

CLSC 4314 Advanced Immunohematology [2-5] spring
Lecture and laboratory stress the detection, identification and characterization of rarer and atypical antigens and antibodies, compatibility testing, blood component therapy and problem-solving techniques. Prerequisites: Admission into the Clinical Laboratory Sciences Program and CLSC 3513.

CLSC 4315 Advanced Immunology and Molecular Diagnostics [2-3] fall
This course introduces the student to advanced concepts in immunology as well as the principles of molecular diagnostics as applied to the practice of laboratory medicine. Students will be introduced to the theory and techniques used in paternity testing, autoimmune disorders, tissue transplantation, the diagnosis of infectious disease states and clinical correlation with abnormal and normal conditions.

CLSC 4340 Clinical Practicum I [0-0-13] summer I
Clinical application of theory and techniques in affiliated institutions. Prerequisites: Admission into the Clinical Laboratory Sciences Program and successful completion of on-campus coursework.

CLSC 4341 Clinical Practicum II [0-0-13] summer II
Clinical application of theory and techniques in affiliated institutions. Prerequisites: Admission into the Clinical Laboratory Sciences Program and successful completion of on-campus coursework.

CLSC 4342 Clinical Practicum III [0-0-13] fall
Clinical application of theory and techniques in affiliated institutions. Prerequisites: Admission into the Clinical Laboratory Sciences Program and successful completion of on-campus coursework.

CLSC 4343 Clinical Practicum IV [0-0-13] fall
Clinical application of theory and techniques in affiliated institutions. Prerequisites: Admission into the Clinical Laboratory Sciences Program and successful completion of on-campus coursework.

CLSC 4411 Clinical Hematology II [3-3] spring
Continuation of Hematology I with an emphasis on abnormal morphology and related disease states. Coagulation abnormalities and associated clinical correlation will also be covered as well as the more specialized techniques in hematology and coagulation. Prerequisites: CLSC 3310 or permission of the instructor.

CLSC 4521 Clinical Chemistry II [4-5] spring
Continuation of Clinical Chemistry I with an emphasis on more advanced concepts and procedures including acid base balance, endocrine testing, toxicology, therapeutic drug monitoring as well as the associated normal and abnormal physiology and the appropriate clinical correlation of results. Alternate specimen types such as body fluids and fecal samples will also be addressed. Prerequisites: CLSC 3420 or permission of the instructor.
Computer Engineering

CMPE 1101 Introduction to Computer Engineering [3-0]
as scheduled
This course is an introduction to computer engineering concepts and vision, the history of computer systems, societal and ethical issues, binary values and number systems, analog and digital data representation, gates and circuits, Boolean algebra and circuit simplification, basic computer architecture, low-level, high-level programming languages and pseudocode, and communications skills. Prerequisites: Grade of C or better in MATH 1340 or placement in a higher level Math course.

CMPE 1170 Engineering Computer Science I Laboratory [0-3]
fall, spring, summer
The course includes hands-on instruction and laboratory exercises in developing programs written in a high-level object-oriented programming language applying the principles taught in the CMPE 1170 lecture course. Co-requisite: CMPE 1178. Equivalent Course: CSCI 1170. A student may receive credit in only one course.

CMPE 1178 Engineering Computer Science I Laboratory (Honors) [3-0]
as scheduled
The course includes hands-on instruction and laboratory exercises in developing programs written in a high-level object oriented programming language applying the principles taught in the CSCI 1378 lecture course. Equivalent course: CSCI 1170. A student may receive credit in only one course. Co-requisite: CMPE 1178.

CMPE 1370 Engineering Computer Science I [3-0]
as scheduled
An introduction to computer science and computer engineering. The fundamentals of a high-level programming language will be introduced. Methods of problem solving, techniques of algorithmic development and concepts of procedural and object oriented programming will be emphasized. Prerequisites: Computer Literacy experience and enrollment or placement in Math 1340 or higher. Credit or enrollment in CMPE 1101. Co-requisite: CMPE 1178.

CMPE 1378 Engineering Computer Science I (Honors) [3-0]
The fundamentals of a high-level programming language will be introduced. Methods of problem solving, techniques of algorithmic development and concepts of procedural and object-oriented programming will be emphasized. Societal and social issues related to computer engineering will be introduced. Prerequisites: CSCI 1300 or equivalent experience and grade of C or better in MATH 1340 or placement in a higher-level math course. Co-requisite: CMPE 1170. Cannot receive credit for both CSCI 1380 and CMPE 1370. Will replace a grade received in CSCI 1380. Equivalent Course: CSCI 1370. A student may receive credit in only one course.

CMPE 2120 Electrical Circuits Laboratory [0-3]
fall, spring, summer
This course covers fundamental circuit measurement techniques and reinforces concepts from CMPE 2130, Electrical Circuits I. Topics include basic instrumentation; measurement of voltage, current, resistance, power, frequency and phase; analysis of experimental data; and reporting of technical results. Prerequisites: Credit or registration for CMPE 2120. Equivalent Course: ELEE 2120. A student may not receive credit for both CMPE 2120 and ELEE 2120.

CMPE 2130 Digital Systems Engineering I Laboratory [0-3]
fall, spring, summer
Basics of digital logic and hardware; combinational circuits, flip-flops, registers, sequential circuits and state machines. Co-requisite: Credit or registration for CMPE 2130. Equivalent Course: ELEE 2130. A student may not receive credit for both CMPE 2130 and ELEE 2130.

CMPE 2320 Electrical Circuits I [3-0]
fall, spring
This course covers fundamentals of electrical circuits, including basic definitions, Kirchoff’s laws, nodal and loop analysis, superposition, Thevenin and Norton equivalents, time-varying circuits, simple transient response, sinusoidal steady state analysis using phasors and power in sinusoidal steady state circuits. Equivalent Course: ELEE 2320. A student may not receive credit for both CMPE 2320 and ELEE 2320. Prerequisites: Credit for MATH 1470, credit or registration for PHYS 2402.
CMPE 2322  Signals and Systems  [3-0]
fall, spring, summer
Fourier and Laplace transforms with applications to circuit analysis; transfer functions and impulse response; discrete time systems including sampling and z transforms. Prerequisites: ELEE 2320 with a grade of C or better, credit or enrollment in MATH 3349.

CMPE 2330  Digital Systems Engineering I  [3-0]
fall, spring, summer
Boolean algebra; analysis and synthesis of combinational and sequential switching network; applications to computer design. Co-requisite: CMPE 2130 recommended but not required. Equivalent Course: ELEE 2330. A student may not receive credit for both CMPE 2330 and ELEE 2330. Prerequisites: CMPE 1101 and CMPE 1370 or CSCI 1370. Placement or enrollment in or credit for MATH 1460.

CMPE 2333  Computer Organization and Assembly Language  [3-0]
fall, spring, summer
An introduction to computer organization, use of assembly language programming, basic instruction sets, arithmetic and logical operations, addressing modes and macro definition. Several computer programming projects are included. Prerequisites: CMPE 1370 or CSCI 1381 or 1387. Equivalent Course: CSCI 2333. A student may receive credit in only one course.

CMPE 2380  Computer Science II  [3-0]
fall, spring, summer
A second programming course includes problem solving by structured design; provides an introduction to elementary data structures, including linked lists, stacks queues, trees and graphs and advanced programming techniques, including recursion, sorting and searching. Prerequisites: CSCI 1381 or CSCI 1388 or CSCI 1370 or CMPE 1370 or consent of instructor. Equivalent Course: CSCI 2380. A student may receive credit in only one course.

CMPE 2388  Computer Science II (Honors)  [3-0]
fall, spring, summer
as scheduled
This course problem-solving by object-oriented design and development; covers elementary data structures, including linked lists, stacks, queues and binary trees, with an introduction to graphs, advanced programming techniques, including recursion and sorting and searching algorithms. Students are required to complete problem solving projects. Prerequisites: CMPE 1370 OR CSCI 1370 or consent of instructor. Equivalent course: CSCI 2388, a student may receive credit in only one course.

CMPE 3226  Instrumentation Lab I  [0-6]
fall, spring, summer
Intermediate-level measurements, instrumentation and data acquisition; limitations of ideal models; design projects in areas of digital logic and electronics; technical communication. Prerequisites: Concurrent enrollment in or credit for MATH 3349. Credit or enrollment in CMPE 3403.

CMPE 3331  Microcontroller and Embedded Systems Lab  [1-6]
fall, spring, summer
Design projects of progressively increasing complexity including mixed signal design, computer interfacing, embedded microcontrollers and distributed systems. Prerequisites: CMPE 3226, CMPE 3403 and CMPE 3437 with a grade of C or better.

CMPE 3333  Algorithms and Data Structures  [3-0]
fall, spring, summer
This course is a continuation of data structures topics covered in CMPE 2380. Content includes theoretical topics in algorithmic efficiency and complexity, along with abstract data types, including graphs, networks, trees and priority queues. Search topics, including hashing, trees, external search trees (B-trees) and sorting algorithms including external sorting are introduced and compared. Computational complexity topics include the Class P and NP, NP-completeness and reducibility, NP-completeness proofs and NP-complete problems. Prerequisites: CMPE 2380 or CSCI 2380, and credit or enrollment in MATH 3373 or credit for MATH 3346. Equivalent Course: CSCI 3333. A student may receive credit in only one course.

CMPE 3334  Systems Programming  [3-0]
fall, spring, summer
This course covers the design and implementation of system software. It investigates the relationship between software design and machine architecture. Topics may include assemblers, macroprocessors, compilers, loaders, debugging environments, program development and archival tools, command language interpreters (shells), file systems, I/O support, processes, threads and inter-process communication. Equivalent Course: CSCI 3334. A student may receive credit in only one course. Prerequisites: CSCI 2380 or CMPE 2380 and CSCI 2333 or CMPE 2333 or ELEE 3435 or CMPE 3437.

CMPE 3340  Software Engineering  [3-0]
fall, spring, summer
A formal approach to the state-of-the-art techniques in software design and development. Emphasis will be on project planning, requirements, specification and system design and includes object design, testing and implementation. Provides the student with the opportunity to work on large projects in a group situation. Prerequisites: CMPE 2380 or CSCI 2380 and three advanced hours in CSCI courses. Equivalent Course: CSCI 3340. A student may receive credit in only one course.

CMPE 3341  Software Engineering II  [3-0]
fall, spring, summer
The course will cover the analysis of requirements and software architecture and with a major emphasis on object design, implementation, testing and validation, maintenance and software re-engineering. It will provide the student with the opportunity to work on large projects in a group.
situation. Prerequisites: CMPE 3340 or CSCI 3340. Equivalent Course: CSCI 3341. A student may receive credit in only one course.

CMPE 3342 Probability and Statistics for Computer Engineers [3-0] fall, spring, summer
Probability, random variables, distribution and density functions, statistical estimators, correlation, regression techniques, system response to random inputs. Prerequisites: ELEE 2321 or CMPE 2322. Equivalent Course: ELEE 3340. A student may not receive credit for both CMPE 3340 and CMPE 3342.

CMPE 3403 Electronics for Computer Engineering [3-1] fall, spring, summer
An intensive one-semester introduction to electronics, emphasizing topics specific to computer engineering. Basic semiconductor devices, device characteristics and models, amplifier circuits, device level design of switching and logic circuits, operational amplifiers and power supplies. Prerequisites: CMPE 2320 or ELEE 2320 and CMPE 2330 or ELEE 2330 with a grade of C or better.

CMPE 3437 Microprocessor Systems [3-3] fall, spring, summer
Basic microprocessor programming and principles of assembly language programming; microprocessor organization and interfacing; applications, including data acquisition, control and communication. Prerequisites: CMPE 2330 and CMPE 1370. Equivalent Course: ELEE 3435. A student may not receive credit for both ELEE 3435 and CMPE 3437.

CMPE 4185 Research Seminar [0-0-3] as scheduled
Students will have the opportunity to conduct faculty-sponsored research in the area of mutual interest resulting in oral and written presentation of their work to other students and faculty. May be repeated up to 6 credit hours. Up to the three credit hours can be used to meet CMPE degree requirements. Cross-listed with CSCI 4185 Research Seminar.

CMPE 4301 Digital Image Processing [3-0] fall, spring, summer
The course presents fundamental concepts and applications of digital image processing. Topics include basic color, image perception and transformation, image enhancement and compression, image analysis and computer vision. Prerequisites: CSCI 3333 or CMPE 3333. Equivalent Course: CSCI 4301. Students may receive credit for only one.

CMPE 4303 Digital Systems Engineering II [3-0] fall, spring, summer
Hardware implementation of arithmetic and other algorithmic processes; organization, design and simulation of digital systems; asynchronous sequential switching

networks. Prerequisites: CMPE 2330. Equivalent Course: ELEE 4303. A student may not receive credit for both CMPE 4303 and ELEE 4303.

CMPE 4327 Compiler Construction [3-0] fall, spring, summer
Syntax analysis and semantic processing for a block-structured language. Compilation vs. interpretation; lexical analysis based on finite automata; syntax-directed translation; symbol tables; run-time storage allocation; error detection and recovery; code generation and optimization. Students are required to write a compiler. Prerequisites: CSCI 3334 or CMPE 3334 or consent of instructor. Equivalent Course: CSCI 4327. A student may receive credit in only one course.

CMPE 4333 Database Design and Implementation [3-0] fall, spring, summer
Study of logical (hierarchical, network, relational) and physical (sequential, indexed, relative) organization of databases. Database management systems and their features, querying databases, distributed databases and data compression. Prerequisites: CSCI 3333 or CMPE 3333. Equivalent Course: CSCI 4333. A student may receive credit in only one course.

CMPE 4334 Operating Systems [3-0] fall, spring, summer
This course provides a study of the basic concepts of operating systems; process management, memory management, file systems, resource allocation and protection. Prerequisites: CMPE 3333 or CSCI 3333 and CMPE 3334 or CSCI 3334. Equivalent Course: CSCI 4334. A student may receive credit in only one course.

CMPE 4335 Computer Architecture [3-0] fall, spring, summer
A study of the operational units and their interconnections of a modern computer as well as the theory behind the design of the instruction set, control unit, registers, memory hierarchy and addressing modes, bus structures, input/output and storage units. Similarities between CISC and RISC architectures and related issues such as instruction level parallelism and superscalar processors are discussed. Prerequisites: CSCI 2333 or CMPE 2333 or CMPE 3437 and CSCI 3333 or CMPE 3333. Students may receive credit for only one of CSCI 4335, CMPE 4335, CMPE 4380 or ELEE 4380. Equivalent Course: CSCI 4335.

CMPE 4336 Parallel and Distributed Computing [3-0] fall, spring, summer
Presents principles and practices of parallel and distributed computing. Topics include parallel and distributed computation models and architectures; design, analysis and implementation of parallel algorithms; and methods of parallel and distributed programming. Prerequisites: CSCI 4335 or CMPE 4335 or CMPE 4380. Equivalent Course: CSCI 4336. A student may receive credit in only one course.
Index

CMPE 4341 Topics in Computer Engineering [3-0]
fall, spring, summer
Topics selected from current issues in computer engineering. May be repeated for credit when topics vary. Prerequisites: Consent of instructor.

CMPE 4343 Software Verification, Validation and Quality Assurance [3-0]
fall, spring, summer
Course topics include: Methods for evaluating software for correctness and reliability including code inspections and their role in software verification; program proofs and testing methodologies; formal and informal proofs of correctness; unit and system testing techniques, testing tools and limitations of testing; statistical testing; and reliability models. Prerequisites: CMPE 3340. Equivalent Course: CSCI 4343. A student may receive credit in only one course.

CMPE 4345 Computer Networks [3-0]
fall, spring, summer
An introduction to data communication topics, including data transmission, encoding, data link control, switching, network topologies, protocols, Internet working and data security. Examples of existing networks and network architectures are studied. Prerequisites: CMPE 3333. Equivalent Course: CSCI 4345. A student may receive credit in only one course.

CMPE 4350 Artificial Intelligence [3-0]
fall, spring, summer
Study of intelligent machines and machine learning. Includes problem solving and heuristic search, natural language understanding, game playing, database and expert systems. Artificial Intelligence projects will be implemented using an AI language such as Lisp, Prolog, C++ or Java. Prerequisites: CSCI 3333 or CMPE 3333. Equivalent Course: CSCI 4350. A student may receive credit in only one course.

CMPE 4363 Computer and Network Security [3-0]
fall, spring, summer
This course examines the internetworking architecture and routing, design and implementation issues related to secure and reliable networks, cryptography, firewalls, digital signatures, worms, viruses, logic bombs and spyware. Prerequisites: CMPE 4345 or CSCI 4345 or CMPE 4390. Equivalent Course: CSCI 4363. A student may receive credit in only one course.

CMPE 4365 Digital Signal Processing [3-0]
fall, spring, summer
Sampling theory, discrete processing of analog signals, discrete Fourier transforms, signal analysis, z-transforms, digital filter design, real-time digital signal processing, applications. Prerequisites: ELEE 2321 or CMPE 2322 and credit for or enrollment in MATH 3349. Equivalent Course: ELEE 4365. A student may not receive credit for both ELEE 4365 and CMPE 4365.

CMPE 4366 Introduction to Image Processing [3-0]
fall, spring, summer
This course provides an introduction to image processing topics and design of image processing software. The course covers methods for computer analysis of images, and processing of images including image formation, spatial resolution, preprocessing techniques, image filtering, image enhancement and image segmentation methods. Prerequisites: CSCI 1370 or equivalent. Equivalent Course: ELEE 4366. A student may not receive credit for both CMPE 4366 and ELEE 4366.

CMPE 4367 Fiber Optics Communication [3-0]
fall, spring, summer
Introduction to optics, photonics and optoelectronics, fiber optics devices and communication systems. Topics include ray optics, electromagnetic optics, resonator optics, dielectric waveguides and fibers, semiconductor and laser light sources and detectors, modulators, amplifiers, connectors and optical fiber communication systems. Prerequisites: CMPE 2321 or CMPE 2322. This course is equivalent to course ELEE 4367. A student will not receive credit for both.

CMPE 4371 Senior Design I [1-6]
fall, spring, summer
Software Track
Apply the knowledge and skills gained in previous courses to synthesize a solution to a significant and realistic problem, integrating software and hardware design. Participate in team project activities including project formulation and proposal, project analysis, software and hardware requirements specification, project planning and software and hardware design. Software design documentation and oral presentation are an integral part of the course. Prerequisites: CSCI 3340 or CMPE 3340 and senior standing in computer engineering. Can receive credit for only one of CSCI 4390, CMPE 4371 and CMPE 4373.

CMPE 4372 Senior Design II [1-6]
fall, spring, summer
Software Track
Continuation of CMPE 4371. Team project activities include software and hardware design reviews, implementation, quality assurance, software and hardware testing, integration, project documentation, presentations and demonstration. Also covers social and ethical implications of the computer engineering profession. Prerequisites: CMPE 4371 in the previous semester. Cannot receive credit for both CMPE 4372 and CMPE 4374.

CMPE 4373 Senior Design I [1-6]
fall, spring, summer
Hardware Track
Apply the knowledge and skills gained in previous courses to synthesize a solution to a significant and realistic problem integrating software and hardware design. Participate in team project activities including problem formulation and proposal, project analysis, software and hardware requirements, specifications, project planning and software
and hardware design. Software design documentation and oral presentation are an integral part of the course. CMPE 4373 should be taken in the last two semesters before graduating. Cannot receive credit for both CMPE 4371 and CMPE 4373.

**CMPE 4374**  
**Senior Design II**  
**Hardware Track** [1-6]  
*fall, spring, summer*  
Team project activities include software and hardware design reviews, implementation, quality assurance, software and hardware testing, integration, project documentation, presentations and demonstrations. Also covers social and ethical implications of the computer engineering profession. Prerequisites: CMPE 4373 in the previous semester. Cannot receive credit for both CMPE 4372 and CMPE 4374.

**CMPE 4375**  
**Introduction to VLSI** [3-0]  
*fall, spring, summer*  
This course provides an introduction to the area of CMOS VLSI design and design of VLSI circuits, including CMOS logic circuits, integrated circuit layout and design tools and overview of integrated circuit fabrication. Prerequisites: CMPE 2330 and CMPE 3403. Equivalent Course: ELEE 4375. A student may not receive credit for both CMPE 4375 and ELEE 4375.

**CMPE 4378**  
**Signal Integrity and Electromagnetic Compatibility** [3-0]  
*fall, spring, summer*  
Distortion of digital signals analyzed via lumped element and transmission line models, power distribution in electronic systems, printed circuit layout guidelines, basic electromagnetic principles as applied to shielding and grounding, EMI regulations. Prerequisites: ELEE 2321 or CMPE 2322. Equivalent Course: ELEE 4378. A student may not receive credit for both ELEE 4378 and CMPE 4378.

**CMPE 4380**  
**Computer Architecture** [3-0]  
*fall, spring, summer*  
This course presents an overview of digital computer architecture, including architectural issues for processors, instruction sets, microprogramming, memory hierarchy and interleaving, cache and virtual mapping, RISC principles and principles of pipelining and pipeline hazards, as well as input/output devices. Prerequisites: CMPE 3437 or ELEE 3435. Equivalent Course: ELEE 4380. A student may receive credit for only one of the following: CMPE 4380, ELEE 4380, CSCI 3335, CMPE 4335.

**CMPE 4381**  
**Interactive Systems and User Interface Design** [3-0]  
*fall, spring, summer*  
Presents principles and practice of information communication between user and system. The course examines results of past research, as well as evolving trends in interface design and implementation. Prerequisites: CSCI 3333, CMPE 3333 or consent of the instructor. Equivalent Course: CSCI 4381. A student may receive credit in only one course.

**CMPE 4390**  
**Computer Networks** [3-0]  
*fall, spring, summer*  
This course covers engineering principles of data communications, including the following topics: communication media and signal encoding schemes, point-to-point communication standards, layering concepts, data-link protocols, network protocols, transport layer protocols, error control, flow control, congestion control, routing algorithms, virtual circuits, call setup procedure, TCP/IP protocol, internetworking, switching and switching fabric, frame relays, ATM and emerging technologies. Prerequisites: CMPE 4337 or junior standing. Equivalent Course: ELEE 4390. A student may not receive credit for both CMPE 4390 and ELEE 4390.

## Communication Disorders

**NOTE:** The American Speech-Language-Hearing Association (ASHA) defines areas within Communication Disorders for the purpose of describing programs and requirements. If applicable, the corresponding ASHA area is shown following each course.

**COMD 1310**  
**Beginning Sign Language** [3-0]  
*(Texas Common Course Number is SGNL 1301)*  
*fall, spring, summer*  
This course raises awareness of basic knowledge about American Sign Language and deaf people. Emphasis in the course is upon acquisition of both comprehension and production skills and knowledge of the deaf community interaction. The students will begin with visual readiness activities and then progress through group targeted lexical items taught within meaningful contexts that stress use of questions, commands and conversational rules such as attention-getting and turn-taking and basic finger-spelling skills also will be stressed. Prerequisites: None. ASHA Standards III C, D.

**COMD 1320**  
**Intermediate Sign Language** [3-0]  
*(Texas Common Course Number is SGNL 1302)*  
*fall, spring, summer*  
This course is a continuation of Beginning Sign Language (COMD 1310) and emphasizes expansion and refinement of the fundamental comprehension and production skills covered in Beginning Sign Language, with the acquisition of additional functional grammatical structure and targeted lexical items. Spontaneous, interactive use of American Sign Language is stressed through discussion of the deaf community and other activities being held by the deaf community. The students will continue to study information related to everyday life experiences of deaf Americans and deaf people anywhere in the world. Prerequisites: COMD 1310 or departmental approval. ASHA Standards III C, D.
The course acquaints the prospective major with the profession of speech-language pathology, which will include requirements for entering the profession and professional issues. The course will also introduce students to basic types of communication disorders and their etiologies. Prerequisites: None. ASHA Standards III B, C, D, IV, G a, b.

COMD 3300 Neuroanatomy and Physiology for Speech, Language and Hearing [3-0]
spring
The course is a study of the structure and function of neuroanatomical parts that contribute to production and perception and processing of speech and language. Prerequisites: C or higher in each of the following: COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330. ASHA Standards III B, C.

COMD 4310 Behavior Management for Speech-Language Pathology [3-0]
fall
The course is a practical study of behavior management as it relates to and underlies speech and language intervention procedures. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350 and COMD 3360. ASHA Standards III C, D.

COMD 4330 Audiology (Re)Habilitation [3-0]
fall
The course presents methods and techniques utilized in the aural (re)habilitation of individuals who are hard of hearing and deaf. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350 and COMD 3360. ASHA Standards III C, D.

COMD 4350 Clinical Applications [3-0]
spring
This course is designed to provide exposure to speech-language pathology in various settings, analysis of client assessment and treatment profiles and journal research. This course may include observations, volunteer work in schools, or health care settings or assisting in the therapy process. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350, COMD 3360, COMD 4330, COMD 4360, COMD 4365 and COMD 4310. ASHA Standards III D, IV G a, b, c.

COMD 4360 Language Disorders in Children I [3-0]
fall
The course is a study of the characteristics of language development in children at risk. A sampling of three to five special populations will be presented. Students will be introduced to basic techniques for the clinical management of children with language disorders. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350, COMD 3360. ASHA Standards III C, D, IV G b, c.

COMD 4365 Speech Disorders [3-0]
fall
The course is an introduction to functional disorders of speech, which may include those that impact articulation,
fluency, and voice. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350, COMD 3360. ASHA Standards III C, D, IV G b, c.

COMD 4370 Professional Report Writing in Speech-Language Pathology [3-0] spring A study of basic writing skills, scientific writing and professional writing, particularly for assessment reports, treatment plans, progress, reports and professional correspondence in speech-language pathology and other health professions. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350, COMD 3360, COMD 4330, COMD 4360, COMD 4365 and COMD 4310. ASHA Standards III D, IV G a, b, c.

COMD 4380 Clinical Problem-Solving [3-0] spring The course is an orientation to the basic principles fundamental to clinical practice speech-language pathology. Prerequisites: C or higher in COMD 2310, COMD 3320, COMD 3310, COMD 3315, COMD 3330, COMD 3340, COMD 3350, COMD 3360, COMD 4330, COMD 4360, COMD 4365 and COMD 4310. ASHA Standards III C, D, IV G a, b, c.

COMM 1301 Cinema Appreciation (GE) [3-0] fall, spring, summer This course is an introduction to the art of cinema for the non-major. Focus will be on critical viewing of films, identification and analysis of film form, technique, and content.

COMM 1302 Introduction to Communication (CS) [3-0] (Texas Common Course Number is SPCH 1311) fall, spring, summer The course is designed to provide students with an overview of areas in communication (e.g., interpersonal, small group, and public communication). Students will develop necessary communication skills including listening, teamwork, interviewing, and public speaking that will benefit them both personally and professionally. Prerequisites: None.

COMM 1303 Presentational Speaking (CS) [3-0] (Texas Common Course Number is SPCH 1315) as scheduled Instruction and practice in speech preparation and delivery. Includes audience analysis, selecting and developing the topic, drafting the speech outline, arranging and intensifying the speech, use of visual aids and supporting materials, effective delivery techniques and speech evaluation. Stresses logical thinking as a basis for formulation of the communication message.

COMM 1305 Acting I (TH) [3-0] (Texas Common Course Number is DRAM 1351) as scheduled Improvisational acting techniques and the application of these principles to stage, television and film.

COMM 1311 Technical Production I (TH) [3-0] as scheduled This course gives instruction and practical experience in production problems, including lighting and sound.

COMM 1312 Technical Production II (TH) [3-0] as scheduled This course is a continuation of COMM 1311. It consists of instruction and practical experience in production problems, including lighting and sound.

COMM 1315 Mass Communication and Society (MC) [3-0] (Texas Common Course Number is COMM 1307) as scheduled Provides an overview of the relationship between the mass media and society from a historical perspective and will examine current trends such as the impact of media technology on society. The theories of mass communication will be examined.

COMM 1615 Summer Theatre Workshop (TH) [6-0] Designed to introduce beginning students to basic techniques of theatre staging through practical situations, this workshop requires students to participate in a series of productions for public viewing. Because of the intensive nature of this course,

</table>
The University of Texas-Pan American

**Index**

degree requirements. Credit may be received for only one course. Prerequisites: Nine hours of English.

**COMM 3324** Location Film and Video Production (TH) [3-0] as scheduled

An upper level non-studio based video and film styled production course focusing on portable equipment and the capturing of pictures and sound beyond the confines of the studio for inclusion in studio projects or for totally independent location based productions. The student will deal with natural light and/or the lack of it as well as problems of weather, and physical environment (cars, buildings, walls, windows, etc.) and/or natural sound difficulties.

**COMM 3325** History and Significance of Motion Picture (TH) [3-0] as scheduled

Historical survey of motion pictures from 1890s to the present. Students will view, study and review major motion pictures from various periods, noting important periods, styles, genres and movements in the dramatic film (including foreign films and TV). Viewing lab arranged. Equivalent Course: FILM 3325; may be counted as Communication or Film Studies course in satisfying degree requirements. Credit may be received for only one course.

**COMM 3326** American Film Genre [3-0] fall, spring, summer

This course will offer an overview of the fourteen basic American film genres. Students will study their evolution from the silent days to the present and examine how commercial considerations have influence their development in both positive and negative terms. Equivalent Course: FILM 3326 may be counted as Communication or Film Studies course in satisfying degree requirements. Credit may be received for only one course.

**COMM 3327** Reporting I (MC) [3-0] as scheduled

An introduction to reporting focusing on writing articles in journalism style for print media, the course examines information gathering, interviewing techniques and reporting skills. Classes are conducted in computer lab rooms when available. Prerequisites: COMM 3303 Writing for Mass Media or with consent of instructor.

**COMM 3329** Reporting II (MC) [3-0] as scheduled

This course focuses on analytical and investigative reporting. It outlines the quantitative and qualitative techniques required to produce accurate and comprehensive assessments of social, political and scientific issues. Prerequisites: COMM 3327 Reporting I or by consent of instructor.

**COMM 3331** Principles of Interviewing (CS) [3-0] as scheduled

Theory, application and selected practice of the interview process in a variety of situations. Students have the opportunity to develop basic skills in selection, appraisal, counseling, discipline, exit, persuasive and focus interviews; interviews in mass media contexts, in data analysis and in other important techniques. Ethical guidelines stressed throughout.

**COMM 3332** Organizational Communication (CS) [3-0] as scheduled

The study of the role of communication in organizational contexts. Previous course number: COMM 4306. A student may receive credit for only one course.

**COMM 3333** Communication Theory (CS) [3-0] as scheduled

Comprehensive overview and analysis of the various significant theories of communication, with an historical grounding but emphasizing modern themes and perspectives.

**COMM 3335** Advanced Public Speaking (CS) [3-0] as scheduled

Theory and intensive application of various public speaking situations – informative, persuasive and special occasion speeches. Critical thinking, analysis, reasoning, support for assertions, humor and clear organization are stressed. Ethical communication and an audience-centered approach are central issues. Prerequisites: COMM 1313 or COMM 1303.

**COMM 3336** Media, Race and Ethnicity (MC) [3-0] fall, spring, summer

Explores the historical and philosophical roots of the concepts of race and ethnicity, and their relation both to migration/immigration and personal/collective identity construction. It also examines the impact of mass media on racial and ethnic identity, using mass communication theory to understand the political and social dimensions on the concepts in question. Particular attention is given to racial and ethnic identity on the U.S.-Mexican border and the media's influence on conceptions and perceptions.

**COMM 3337** Global Communication (MC) [3-0] fall, spring, summer

The course looks at important issues in global communication through mass communication and media products (movies, books, advertising, music and more). How the mass media functions in other societies, the changing relationships between developed and developed countries, and examine how cultural identity, nationalism and globalization are communicated through the mass media will be covered. They will also learn the skills they need to work in with global mass communication.

**COMM 3338** Bronc Radio/TV (MC) (TH) [3-0] as scheduled

A production course that incorporates a student production team who produce radio and television programming for a semester. Students, in real time, plan, write and produce both radio and television shows that are presented over the
station’s website and local specials on the local cable system. Basic broadcast writing principles in audio, video and online formats will be used.

COMM 3339 Broadcast Audio Production (MC) [3-0] as scheduled
This is an introductory course in audio production for broadcast, field production and non-broadcast applications. This course provides an overview of digital non-linear editing and radio station operations. The theories, tools, techniques and regulatory controls of audio production are studied. Students are required to complete laboratory exercises for this course.

COMM 3341 Acting III (TH) [3-0] as scheduled
This course is a study of work with partners in scenes. It gives the students practice in the techniques of working in large and small groups, working for specificity of character and developing responsive and responsible rehearsal techniques.

COMM 3342 Acting IV (TH) [3-0] as scheduled
This course consists of working with particular acting problems, such as characterization in the musical, individuation in group scenes, commercials, supporting partners, etc.

COMM 3344 Conflict Management (CS) [3-0] as scheduled
An examination of the communication theories and processes involved with interpersonal conflict. Students develop critical thinking skills that help them frame and analyze conflict situations enhancing their ability to apply the concepts and techniques learned in class to conflict situations that occur in personal and professional contexts.

COMM 3345 Gender & Communication (CS) [3-0] as scheduled
This course is designed to provide students with an understanding of and an appreciation for the communicative and cultural differences between the sexes. Students will develop an understanding of the characteristics related to gender communication, become familiar with crucial issues and problems facing individuals of differing gender, and gain practice in applying this acquired knowledge and appreciation to improve trans-gender communication.

COMM 3346 Health Communication (CS) [3-0] as scheduled
This course offers a broad overview of both theoretical and applied approaches to health communication. Students will be exposed to a variety of health communication topics including issues in provider-recipient communication, decision making, social identity, family dynamics, the role of culture in health and disease, health care delivery, and health information campaigns. Specific attention will be paid to the process of creating and organizing health interventions tailored to a particular health threat and target audience.

COMM 3347 Family Communication (CS) [3-0] as scheduled
This course explores a variety of theoretical and applied family communication topics. Specifically, students will be exposed to multiple family interaction patterns between parents and children, romantic partners, marital partners, siblings, and extended family members. Students will also focus on several family communication constructs including secrets, narratives, traditions, and cultural expectations.

COMM 3348 Copy Writing (MC) [3-0] as scheduled
An exploration of the writer’s craft. Using a variety of literary genres, students will understand the power of words and how this applies to strategic advertising copywriting.

COMM 3349 Multimedia Storytelling (MC) [3-0] as scheduled
Gives students hands-on experiences in reporting, producing and presenting stories for the twenty-first century media environment. Focus is on creative and technical challenges involved in multi-media storytelling. Instruction in audio, video, reporting/interviewing, software, editing and photography skills necessary to produce compelling multi-media projects.

COMM 3350 Research in Communication (CS) (MC) [3-0] as scheduled
Major methods of research used in the concentration areas of communication: speech communication and journalism/mass media. Each student is responsible for the successful completion of a research project. Required of all communication majors. Previous course numbers: COMM 4324 and COMM 4325. A student may receive credit for only one course.

COMM 3351 Broadcast News Writing (MC) [3-0] as scheduled
Development of skills and practice in the art of writing news for radio and television. Scripts will be written and evaluated as related to audience, medium and structure. Prerequisites: COMM 2304 Television Production and COMM 2310 Video & Film Editing I or with permission of instructor.

COMM 3352 TV News Production and Reporting (MC) [3-0] as scheduled
Methods of gathering facts, words and images, then developing them into professional video newscasts, including audio and video recording, editing, production, delivery and transmission, within the scope of standard electronic journalistic ethics and practices. Prerequisites: COMM 2304 Television Production and COMM 2310 Video & Film Editing I or with permission of instructor.

</tbody>
</table>
COMM 4317 Children's Theatre Workshop (TH) [3-0] as scheduled
This is an intensive workshop course in which students are responsible for all aspects of the production of a major dramatic work that will be produced for children and that will embody the principles of dramatic production in forms suitable for elementary school audiences.

COMM 4318 Theory and Styles of Acting (TH) [3-0] as scheduled
This course covers techniques of period acting and exploration of major theories of acting techniques.

COMM 4319 Problems in Acting (TH) [3-0] as scheduled
This course teaches acting techniques to adapt performance to varying situations such as large and small proscenium, film and television. It also includes preparation of audition material and problems in developing range of characterization.

COMM 4321 Public Relations (MC) [3-0] as scheduled
Planning and preparation of publicity materials for media, application of public relations techniques and clinical study of current public relations campaigns. Some laboratory work in the Department of Communication.

COMM 4322 Public Relations Writing (MC) [3-0] as scheduled
This is an intensive writing course. Student will be given the opportunity to research and write for a variety of formats such as news releases, backgrounds and pitch letters. Prerequisites: COMM 3303 Writing for Media and COMM 4321 Public Relations or with permission of instructor.

COMM 4326 Photojournalism (MC) [3-0] as scheduled
Principles and practices of photojournalism. Topics include news photography and interrelationship with text. Participation in campus publications is encouraged. Students must furnish camera and equipment.

COMM 4330 Communication Training (CS) [3-0] as scheduled
Methods, techniques and practice in communication training programs and human resource development workshops will be addressed.

COMM 4332 Visual Communication (MC) [3-0] as scheduled
Computer production of a variety of print media publishing, including layout, design and writing.

COMM 4334 Communication Campaigns (MC) [3-0] as scheduled
This course will cover the development of communication campaigns from the initiation of a situation analysis, research to final execution. Students will also be given the opportunity to evaluate the effectiveness of campaigns. Prerequisites: COMM 3304 Advertising or COMM 4321 Public Relations, COMM 3350 Communication Research, COMM 4335 Creative Strategies or with permission of instructor.

COMM 4335 Creative Strategies (MC) [3-0] as scheduled
This course will focus on the development of effective creative strategies based on solid research and clear objectives. Media planning, buying and placing will also be covered. Prerequisites: COMM 3304 Advertising, or COMM 4321 Public Relations, and COMM 3350 Communication Research or with permission of instructor.

COMM 4336 Applied Leadership Communication (CS) [3-0] as scheduled
In this course theoretical models used to identify different leadership styles employed in organizations are studied. The various leadership styles and their associated communicative behaviors are closely examined.

COMM 4337 Professional Internship Cooperative Education-Communication [1-0]
A planned program of work (10 hours per week), for a minimum of one semester or two continuous summer sessions, related to the field. Enrollment must be completed prior to the work period. Students should be classified as seniors. Credit will be determined on the basis of satisfactory employer’s evaluation and the student’s written report. Students have to have adviser approval to enroll. May be repeated for credit up to three times when the program varies.

COMM 4615 Summer Theatre Workshop (TH) [3-0] for the advanced undergraduate, experience in all areas of theatrical presentation. Students assume responsibility for one or more of the following areas: technical theatre production problems in acting and directing, or theatre business management. Because of the intensive nature of this course, students are not allowed to take other studies or outside employment during the workshop enrollment period without permission of the instructor.

COMM 4616 Summer Film and Television Workshop (TH) [6-0]
For the advanced undergraduate, an intensive workshop in which students are responsible for the production of a major dramatic work that will be produced for television and that will embody the principles of dramatic production in television form. Journalism students taking the course will produce a documentary concerning the production.

COMM 4624 Education - Communication Studies Professional Internship Cooperative Education-Communication [2-0]
A planned program of half-time (20 hours per week) work, for a minimum of one semester or two continuous summer sessions, related to the field. Enrollment must be completed...
prior to the work period. Students should be classified as seniors. Credit will be determined on the basis of satisfactory employer’s evaluation and the student’s written report. Students have to have adviser approval to enroll. Course may be repeated for credit once when the program varies.

Criminal Justice

NOTE: The entire course inventory is not offered each semester. Students are advised to plan ahead when making decisions about their semester schedules.

CRIJ 1301 Introduction to the Criminal Justice System [3-0]
(Texas Common Course Number is CRIJ 1301)
The history, development and philosophy of the criminal justice system; an overview of law enforcement, courts and corrections subsystems.

CRIJ 1306 Court Systems and Practices [3-0]
(Texas Common Course Number is CRIJ 1306)
The judiciary in the criminal justice system; right to counsel; pre-trial release; grand juries; adjudication process; types and rules of evidence; sentencing. Previous course number: CRIJ 2333. A student may receive credit in only one course.

CRIJ 1307 Crime in America [3-0]
(Texas Common Course Number is CRIJ 1307)
American crime problems in historical perspective; social and public policy factors affecting crime; crime impact and trends; social characteristics of specific crimes; prevention of crime. Previous course numbers: CRIJ 2301 and CRIJ 3361. A student may receive credit in only one course.

CRIJ 2313 Correctional Systems and Practices [3-0]
(Texas Common Course Number is CRIJ 2313)
Corrections in the criminal justice systems; correctional role; institutional operations, alternatives to institutionalization; treatment and rehabilitation; current and future issues. Previous course number: CRIJ 2342. A student may receive credit in only one course.

CRIJ 2328 Police Systems and Practices [3-0]
(Texas Common Course Number is CRIJ 2328)
The police profession; organization of law enforcement systems; the police role; police discretion; current and future issues. Previous course number: CRIJ 1313. A student may receive credit in only one course.

CRIJ 2335 Legal Aspects of Corrections [3-0]
Legal problems and principles from conviction to release, to include consideration of convictions, imprisonment, sentencing, conditional release, post-conviction procedures, prisoner rights, probationer rights and validity of conviction. Previous course number: CRIJ 3331. A student may receive credit in only one course.

CRIJ 3303 Criminology [3-0]
Provides an overall perspective of the crime problem with special emphasis given to philosophical and theoretical ideas pertaining to crime causation and its control. Includes victimology and criminal typologies.

CRIJ 3304 Criminal Justice Research Methods [3-0]
A review of current literature and examination of selected problems affecting the criminal justice system; instruction of steps involved in the scientific approach to problem solving. Discussion of research techniques and paper writing; applications of research in criminal justice. Previous course number: CRIJ 3402. A student may receive credit in only one course.

CRIJ 3305 Statistical Applications in Criminal Justice [3-0]
The course focuses on use and application of statistics in Criminal Justice: the study of crime, policing, courts and sentencing, corrections, and crime control; students learn from criminal justice research to do projects using parametric and non-parametric statistics; they learn frequency distribution, central tendency, dispersion, probability theory, chi-square, correlation; regression, hypothesis testing, decision-making and impact evaluations relevant to aforementioned criminal justice areas. Prerequisites: MATH 1340, MATH/STAT 2330, or equivalent, or higher level mathematics (MATH) or statistics (STAT) course, except MATH 1348; and advanced sophomore standing. CRIJ 3304-Criminal Justice Research Methods is highly recommended.

CRIJ 3310 The Constitution and Criminal Law [3-0]
Relationship between the U.S. and Texas constitutions and criminal law; constitutional foundations of criminal law and procedural rights of the accused; rights of the accused from police intervention through criminal processing of cases and trial; examination of prisoners’ rights and post-conviction remedies. Prerequisites: Advanced sophomore standing.

CRIJ 3320 Juvenile Delinquency and Justice [3-0]
Examination of causes of delinquency; distribution and patterns in delinquency over time and space, by age, gender, and ethnicity; individual and collective forms of delinquency in community and school contexts; history, development and philosophy of juvenile courts; legal rights of juveniles, and the judicial processing of juveniles; critical evaluation of the current juvenile justice practices, and punishment, rehabilitation and prevention programs. Prerequisites: Advanced sophomore standing.

CRIJ 3325 Violent Crime [3-0]
Genesis of violence and its expression in criminal and noncriminal forms; theories of violence; subculture of violence; victim-offender interactions; types of violent crimes, such as homicide, assault, robbery, and rape; domestic abuse and violence; distribution of violent
prepare emphasis on preventing retail theft, or loss prevention. This course analyzes critical issues in the administration of established scientific knowledge with practical police service delivery and the changing police role. Integration with particular attention to current developments, analysis and discussion of contemporary issues in policing subject area.

CRIJ 3341 Probation and Parole [3-0]
The philosophy, history and principles of probation, parole and other community-based treatment programs; philosophy of punishment and rehabilitation; trends, practices and current research in probation and parole, including methods of analysis, selection and prediction.

CRIJ 3344 Gender, Crime and Criminal Justice [3-0]
The course will focus on female criminality, gendered victimization; punishment, treatment, correction of female offenders; female inmate subculture and women workers in the criminal justice system. Social ideologies about race, class and gender will be examined as to their relevance in shaping and defining crime, criminology and the sociolegal treatment of offenders, victims and professionals.

CRIJ 3355 Criminal Evidence and Proof [3-0]
This course explores how the legal system has developed a complicated yet effective process for controlling the production of relevant evidence in making decisions in forensic proceedings. Study of the balance of competing interests in presenting information in court, whether in pretrial motions, in camera proceedings or public trial.

CRIJ 4311 Criminal Justice Administration [3-0]
Study of organizational and administrative theory and its application to police departments, court systems and correctional settings. Looks at how philosophies used in business can be applied to not-for-profit and public agencies for better management of physical and human resources. Covers social trends and recent issues affecting criminal justice administration.

CRIJ 4312 Civil Liability in Criminal Justice [3-0]
Study of statutes, case law and research in areas of civil rights and civil liability particular to employees and supervisors in the criminal justice system. Examination of legal issues, litigation trends and patterns in the federal courts, policy and procedure issues, failure to train liability, and individual officer and administrative responsibilities in this contentious subject area.

CRIJ 4313 Current Issues in Law Enforcement [3-0]
Analysis and discussion of contemporary issues in policing with particular attention to current developments, service delivery and the changing police role. Integration of established scientific knowledge with practical police experiences in various areas of policing.

CRIJ 4314 Private Security and Loss Prevention [3-0]
This course analyzes critical issues in the administration and supervision of private security organizations, with an emphasis on preventing retail theft, or loss prevention.

Examination of legal and ethical issues in public surveillance for private benefit, detecting employee malfeasance, cost-benefit analysis, inventory control and audit systems and cutting-edge technologies for use in crime prevention.

CRIJ 4316 Environmental Crime and Justice [3-0]
Examines environmental problems, crimes, and justice; bodily and property harms and crimes from local, regional, and global environmental problems; point source and non-point source pollution; structural violence; environmental victimology; governmental and non-governmental responses; environmental laws and regulations; environmental justice and racism, at risk populations (poor, minorities, women, working, men); anti-environmental backlash to regulations and laws. Prerequisites: Junior standing.

CRIJ 4321 White-Collar and Organized Crime [3-0]
This course surveys sociological, criminological and criminal justice theories and approaches to classifying white-collar, corporate and organized crime and deviance. Beginning with classic articles and continuing with case studies of corporate and organized criminality and irresponsibility, this course examines social, legal and ethical issues surrounding racketeering, crime in the suites, and their punishment.

CRIJ 4322 Terrorism [3-0]
Causes and forms of terrorism at the domestic and international levels; political, economic, religious, social and national differences among people and their implications for terrorism; a review of major terroristic incidents and groups; their underpinning meanings and what can be done to contain terrorism. Prerequisites: Junior standing.

CRIJ 4335 Restorative and Community Justice [3-0]
Principles and ideas of restorative justice and community justice, in comparison with the current system of justice; promoting justice and reducing crime by restoring relationship between victims and offenders. Rebuilding communities and creating community sentiments in favor of doing justice in the community, in cooperation with and support of the Official justice system; making altruistic, reconciling and peace-making individuals and community through restorative and community justice efforts to reduce crime. Prerequisites: Junior standing.

CRIJ 4343 Current Issues in Corrections [3-0]
Analysis and evaluation of contemporary correctional systems; discussion of recent research concerning correctional institutions and various corrections field services. Emphasis is given to both administrative and treatment concerns in corrections.

CRIJ 4350 Peace, Nonviolence, and Justice [3-0]
Theories and conceptions of peace, nonviolence, and justice; peace as harmony among self, society, and humanity; and
among offenders, victims, and society: achieving peace without the violence found in crimes, revolts, revolutions, terrorism and punishments; proactive and reactive ways of nonviolent justice, practices needed for personal, social, and global peace.

CRIJ 4355 Current Issues in the Courts [3-0]
Analysis and discussion of contemporary issues in the courts, with particular emphasis on trends, service delivery to victims, defendants and the community, and the changing role of courts in society. In-depth study of drug courts, juvenile courts, community courts and prosecution, tribal justice and other specialized means of adjudication and disposition of criminal and delinquency cases.

CRIJ 4356 Law and Society [3-0]
This course emphasizes the complexity and interrelationship of legal, social and ethical issues in their historical and comparative contexts. By examining the role of the legal system in society and specific legal issues from the perspectives of the social sciences and the humanities, students will be able to analyze and understand the legal implications and ramifications of policy and decision making.

CRIJ 4357 Crime Prevention Techniques [3-0]
This course examines the theories and techniques of mobilizing community resources for crime prevention. Implementation and evaluation of crime reduction efforts through crime prevention through environmental design, routine activities and situational crime prevention case studies, and physical planning of the built environment will be studied. The conceptual framework will draw from principles of community psychology and environmental criminology.

CRIJ 4361 Comparative Criminal Justice Systems [3-0]
This is an upper-division course elective. The course’s primary goal is to introduce students to the idea of a world criminal justice system. Several countries will be selected each semester. A survey of the criminal justice systems (government, police, judiciary, laws, corrections and juvenile justice) will be conducted of each of the countries.

CRIJ 4362 Special Topics in Criminal Justice [3-0]
Designed to give advanced undergraduate students academic flexibility and the opportunity to study contemporary issues in crime and criminal justice.

CRIJ 4363 Independent Studies in Criminal Justice [3-0]
Designed for advanced students who are capable of independent study and research to examine an issue or project of specific interest. Registration upon approval of the Chair of the Department of Criminal Justice and the professor directing the course.

CRIJ 4364 Field Internship [3-0]
Three hours per week studying job interview techniques. Placement in a criminal justice agency or related experience for on-the-job training for a minimum of 120 hours. Evaluation of student and agency critiques, daily logs and a weekly meeting with the intern coordinator. Previous course number: CRIJ 4401, CRIJ 4464; a student may receive credit in only one course.

## Computer Science

CSCI 1101 Introduction to Computer Science [1-0]
fall, spring, summer
An introduction to the breadth of the field of computer science. Topics include an introduction to computer science as a career, overviews of various computer science areas and topics, and foundations of computational problem solving.

CSCI 1170 Engineering Computer Science I Laboratory [1-0]
fall, spring, summer
The course includes hands-on instruction and laboratory exercises in developing programs written in a high-level object-oriented programming language applying the principles taught in the CSCI 1370 lecture course. Co-requisite: CSCI 1370. Equivalent course: CMPE 1170. A student may receive credit in only one course.

CSCI 1178 Engineering Computer Science I Laboratory (Honors) [1-0]
as scheduled
The course includes hands-on instruction and laboratory exercises in developing programs written in a high-level object-oriented programming language applying the principles taught in the CSCI 1378 lecture course. Equivalent course: CSCI 1170. A student may receive credit in only one course. Co-requisite: CMPE 1378.

CSCI 1201 Introduction to Computer and Information Technology [2-0]
fall, spring, summer
A computer literacy course to develop awareness of the expanding role of computer and information technology and to provide knowledge and skills related to personal and social uses of computers. Topics include applications of computers, societal and ethical issues involving computers, history, the Internet, packaged software and hardware and software terminology. Assignments will be given to provide hands-on experience in personal software packages and information networks.

CSCI 1202 Computer and Information Technology for Education [2-0]
fall, spring, summer
A computer literacy course targeted to education majors to develop awareness of the expanding role of computer and information technology and to provide knowledge and skills related to personal, professional, and social uses of computers. Topics include applications of computers and...
information technology, societal, and ethical consequences of technological innovation, history, the impact of the Internet on learning and information access. Course will include hands-on experience in personal and professional software packages, and information networks. Fulfills Computer Literacy Core Requirements. Equivalent course: CSCI 1201. Students can receive credit for only one of CSCI 1201 and CSCI 1202. Will replace a grade received in CSCI 1201.

CSCI 1260   Introductory Computer Science Concepts [2-0] as scheduled
The course is highly recommended for those students who do not have any programming experience in high school before taking CSCI 1370. Topics include hardware and system software terminology and concepts, web page development and an overview of programming concepts. The fundamentals of algorithm development and programming will be introduced through hand-on problem solving using a robot or visual programming platform. Students will complete assignments relating to simple web page implementation, Internet research, and computing application areas. Prerequisites: Student with computer experience. This course fulfills the core curriculum requirements.

CSCI 1360   Introductory Computer Science Concepts [3-0] fall, spring, summer
This course is recommended for students who need an introduction to the concepts of computer science and programming experience before taking CSCI 1380. Topics include concepts of computer hardware, software and networks; Internet services; and computer programming. Focuses on basic problem-solving techniques and algorithms development. Assignments will be given to provide hands-on experience in a high-level language programming. Prerequisites: Student with computer experience. This course fulfills the core curriculum requirements.

CSCI 1370   Engineering Computer Science I [3-0] fall, spring, summer
An introduction to computer science and computer engineering. The fundamentals of a high-level programming language will be introduced. Methods of problem solving, techniques of algorithmic development and concepts of procedural and object-oriented programming will be emphasized. Fulfills Computer Literacy Core Requirement. Societal and social issues related to computer engineering will be introduced. Co-requisite: CSCI 1170. Equivalent course: CMPE 1370. Cannot receive credit for both CSCI 1380 and CSCI 1370. Will replace a grade received in CSCI 1380. Prerequisites: C or better in MATH 1340 or placement in higher-level math course.

CSCI 1378   Engineering Computer Science I (Honors) [3-0] fall, spring, summer
The fundamentals of a high-level programming language will be introduced. Methods of problem solving, techniques of algorithmic development and concepts of procedural and object oriented programming will be emphasized. Fulfills Computer Literacy Core Requirement. Can receive credit for one of CSCI 1378, CSCI 1370, CMPE 1378 or CMPE 1370. Prerequisites: Credit or enrollment in CSCI 1101 and C or better in MATH 1340 or placement in higher-level math course. Co-requisite: CM 1178.

CSCI 1380   Computer Science I [3-0] (Texas Common Course Number is COSC 1330/1336) fall, spring, summer
An introduction to computer science and computer programming is given, in which the fundamentals of a high-level programming language will be introduced. Methods of problem solving, techniques of algorithmic development and concepts of structured object-oriented programming will be emphasized. For degree programs requiring a three hour course in computer science. Two hours will fulfill Computer Literacy Core requirement. Equivalent courses: CSCI 1370 or CMPE 1370. A student may receive credit for only one course from CSCI 1380, CSCI 1370 or CMPE 1370. Will replace a grade received in CSCI 1370 or CMPE 1370. Prerequisites: Concurrent enrollment in MATH 1340 or credit for MATH 1340 or higher level mathematics course.

CSCI 1387   Computer Science I (Honors) [3-0] fall, spring, summer
This course introduces a high-level programming language. Methods of problem solving, techniques of algorithmic development and concepts of structured object-oriented programming will be emphasized. Students are required to complete an integrated project entailing the development and implementation of a program for solving a given problem. Equivalent course: CSCI 1380. Prerequisites: Concurrent enrollment in MATH 1340 or credit for MATH 1340 or higher level mathematics course.

CSCI 2302   Web Graphics and Animation [3-0] as scheduled
This course introduces modern 2-D graphics and animation techniques and methods on the web. Basic image processing techniques, image formats and client side scripting for web use will be discussed. Current software tools for developing graphical dynamic websites will be presented. Students are required to develop and implement active web pages.

CSCI 2320   Computer Programming in a Second Language [3-0] as scheduled
Computer programming in a high-level programming language such as Ada, Modula-2, Java, LISP and PROLOG. May also cover two different languages, such as both LISP and PROLOG. Designed for students who already know how to program in another high-level language. May be repeated when languages change. Prerequisites: CSCI 1380 or CSCI 1370 or CMPE 1370.
The University of Texas-Pan American

CSCI 2333 Computer Organization and Assembly Language [3-0]
(Texas Common Course Number is COSC 1319.)
fall, spring, summer
An introduction to computer organization, use of assembly language programming, basic instruction sets, arithmetic and logical operations, addressing modes and macro definition. Several computer programming projects are included. Prerequisites: CSCI 1370 or CMPE 1370. Equivalent course: CMPE 2333. A student may receive credit in only one course.

CSCI 2344 Programming in the UNIX®/Linux Environment [3-0]
fall, spring, summer
The course presents the UNIX file system, the commonly used utilities, editors, shell programming and scripting. It includes instruction in software development in the UNIX/Linux environment. In addition, a brief overview of the internal components of the operating system will be covered. Prerequisites: CSCI 1370 or CSCI 1380 or CSCI 1387 or consent of instructor.

CSCI 2380 Computer Science II [3-0]
(Texas Common Course Number is COSC 2318.)
fall, spring, summer
A second programming course includes problem solving by structured design; provides an introduction to elementary data structures, including linked lists, stacks, queues, trees and graphs, and advanced programming techniques, including recursion, sorting and searching. Prerequisites: CSCI 1381 or CSCI 1388 or CSCI 1370 or consent of instructor. Equivalent course: CMPE 2380. A student may receive credit in only one course.

CSCI 2388 Computer Science II (Honors) [3-0]
fall, spring, summer
This course problem-solving by object-oriented design and development; covers elementary data structures, including linked lists, stacks, queues and binary trees, with an introduction to graphs, advanced programming techniques, including recursion and sorting and searching algorithms. Students are required to complete problem-solving projects. Prerequisites: CSCI 1370 or CMPE 1370 or consent of instructor.

CSCI 3300 Internship in Computer Science [3-0]
fall, spring, summer
This course is designed to give students an opportunity to gain practical experience in the computer science career field by working with a participating employing firm or organization. The student will be supervised by a faculty member acting as a liaison between the University and the employing organization to ensure compliance with specific learning and experience requirements. The employment can be either paid or unpaid, and normally would include practical experience spread over one academic term or summer. May be repeated once. A maximum of three hours of credit from CSCI 3300 can be used toward the computer science major. Prerequisites: Upper-division standing, minimum 12 hours of computer science completed and approved by both the department and employer providing the practicum/internship experience.

CSCI 3326 Object-Oriented Programming in Java [3-0]
fall, spring, summer
The Java programming language and environment will be introduced with an emphasis on object-oriented programming. Application areas will include Internet-based programming, applets, and HTML, and topics will include control structures, classes, methods, inheritance, Java libraries and packages. Objected-oriented aspects will include graphics, GUI, exception handling, multithreads, multimedia and networking. Prerequisites: CSCI 1380 or CSCI 1370 or CMPE 1370 or consent of instructor.

CSCI 3327 Object-Oriented Programming in Visual Basic [3-0]
fall, spring, summer
The Visual Basic programming language and environment will be introduced with an emphasis on window-based programming and the use of objects in Visual Basic. Topics will include control structures, graphical user interface concepts, classes, methods, inheritance and the Visual Basic interface and libraries. Prerequisites: CSCI 1380 or CSCI 1370 or CMPE 1370 or consent of instructor.

CSCI 3328 Object-Oriented Programming in C# [3-0]
fall, spring
The C# programming language and .NET environment will be introduced with an emphasis on widows-based, event driven programming and the use of objects, LINQ and XML. Topics may include UML, generic collections, database connections, XML, inheritance and polymorphism, exception handling, event driven programming, concurrent programming, windows forms, files and streams, databases, and web services. Prerequisites: CSCI 1380 or CSCI 1370 or CMPE 1370 or consent of instructor.

CSCI 3333 Algorithms and Data Structures [3-0]
fall, spring, summer
This course is a continuation of data structures topics covered in CSCI 2380. Content includes theoretical topics in algorithmic efficiency and complexity, along with abstract data types, including graphs, networks, trees and priority queues. Search topics, including hashing, trees, external search trees (B-trees) and sorting algorithms including external sorting are introduced and compared. Computational complexity topics include the class P and NP, NP-completeness and reducibility, NP-completeness proofs and NP-complete problems. Prerequisites: CMPE or CSCI 2380 and credit or enrollment in MATH 3373 or credit for MATH 2346. Equivalent course: CMPE 3333. A student may receive credit in only one course.

CSCI 3334 Systems Programming [3-0]
fall, spring
This course covers the design and implementation of system software. It investigates the relationship between
software design and machine architecture. Topics may include assemblers, macroprocessors, compilers, loaders, debugging environments, program development and archival tools, command language interpreters (shells), file systems, I/O support, processes, threads and inter-process communication. Prerequisites: CSCI 2380, or CMPE 2380 and CSCI 2333 or CMPE 2333 or ELEE 3435 or CMPE 3437. Equivalent course: CMPE 3334. A student may receive credit in only one course.

CSCI 3336 Organization of Programming Languages [3-0] fall, spring, summer
This course describes the fundamental concepts of programming languages by discussing the design of the various language constructs, examining the design choices for these constructs, critically comparing design alternatives and discussing implementation techniques. The underlying theory and formal modes of describing the syntax and semantics including finite automata and regular expressions, context-free grammars, context-sensitive languages and the Chomsky Hierarchy are included. Prerequisites: CSCI 2380 or CMPE 2380.

CSCI 3340 Software Engineering I [3-0] fall, spring, summer
A formal approach to the state-of-the-art techniques in software design and development. Emphasis will be on project planning, requirements, specification and system design and includes object design, testing and implementation. Provides the student with the opportunity to work on large projects in a group situation. Prerequisites: CSCI 2380 or CMPE 2380, and three advanced hours in CSCI courses. Equivalent course: CMPE 3340. A student may receive credit in only one course.

CSCI 3341 Software Engineering II [3-0] fall, spring, summer
The course will cover the analysis of requirements and software architecture and with a major emphasis on object design, implementation, testing and validation, maintenance and software re-engineering. It will provide the student with the opportunity to work on large projects in a group situation. Prerequisites: CSCI 3340 or CMPE 3340. Equivalent course: CMPE 3341. A student may receive credit in only one course.

CSCI 3342 Internet Programming [3-0] fall, spring, summer
Introduction to web application programming. Covers the fundamentals of developing applications for web browsers, within the dominant HTTP-based client/server model. A wide range of technologies and development methodologies are covered, including database and server architectures, server-side frameworks, client-side languages/libraries, remote invocation models and web application security. Specific topics in web development change rapidly, but some examples include SQL, HTML, TLS, PHP, Java EE (servlets, JSP, etc), ASP.NET. Prerequisites: CSCI 2380 or CMPE 2380 and CSCI 3326 or CSCI 3327 or CSCI 3328.

CSCI 3350 Numerical Methods [3-0] as scheduled
This course studies the numerical solutions to various problems occurring in engineering, science and mathematics. These problems include finding solutions to nonlinear equations, solutions to linear and nonlinear systems of equations, interpolation of data, approximation of functions, numerical integration and solutions to differential equations. It also studies the influence of data representation and computer architecture on the choice and development of algorithms. Equivalent course: MATH 3368, a student may receive credit in only one course. Prerequisites: MATH 1460 and CSCI 1380 or CSCI 1370 or CMPE 1370.

CSCI 4185 Research Seminar [0-0-1] fall, spring, summer
Students will have the opportunity to conduct faculty-sponsored research in the area of mutual interest resulting in oral and written presentation of their work to other students and faculty. May be repeated up to 6 credit hours. Up to three credit hours can be used to meet CSCI degree requirements. Cross-listed with CMPE 4185 Research Seminar.

CSCI 4301 Digital Image Processing [3-0] fall, spring, summer
The course presents fundamental concepts and applications of digital image processing. Topics include basic color, image perception and transformation, image enhancement and compression and image analysis and computer vision. Prerequisites: CSCI 3333 or CMPE 3333. Equivalent course: CMPE 4301. Students may receive credit for only one course.

CSCI 4302 Multimedia Systems [3-0] as scheduled
This course presents the broad field of multimedia systems. Topics include the digital interactive multimedia, creation of multimedia, and various issues involving technology, design and effectiveness of multimedia applications. Students will have the opportunity to learn programming techniques for integrating video, sound, animation and graphics for multimedia systems. Prerequisites: CSCI 3333 or CMPE 3333 or consent of instructor.

CSCI 4310 Design and Analysis of Algorithms [3-0] fall, spring, summer
The course presents elements of the design and analysis of computer algorithms. Topics include in-depth study of algorithms' design strategies such as dynamic programming, divide-and-conquer and greedy methods; algorithms for graph problems, geometric problems and other selected problems; and computational complexity. Prerequisites: CSCI 3333 or consent of instructor.

CSCI 4318 Cyber Security and Forensics [3-0] fall, spring
Computer security fundamentals, standards of good practice, and incident response strategies are presented. Topics
include volatile and nonvolatile data analysis, network based
evidence collection, forensic analysis techniques, web, email,
and registry activity reconstruction and study of available
tools. Prerequisites: CSCI 1370 or CMPE 1370.

CSCI 4325 Automata, Formal Languages
and Computability [3-0]
fall, spring, summer
The course presents formal computation models. Topics
include finite state machine, pushdown state machine,
Turing machine, halting problem, definition and properties of
formal grammars and their languages as well as theory of
computability and complexity including the complexity of
optimization and approximation problems. Prerequisites:
CSCI 3333 or CMPE 3333 and CSCI 3336.

CSCI 4327 Compiler Construction [3-0]
fall, spring, summer
Syntax analysis and semantic processing for a block-
structured language. Compilation vs. interpretation;
lexical analysis based on finite automata; syntax-directed
translation; symbol tables; run-time storage allocation; error
detection and recovery; code generation and optimization.
Students are required to write a compiler. Prerequisites: CSCI
3334 or CMPE 3334 or consent of the instructor. Equivalent
course: CMPE 4327. A student may receive credit in only one
course.

CSCI 4333 Database Design and
Implementation [3-0]
fall, spring, summer
Study of logical (hierarchical, network, relational) and
physical (sequential, indexed, relative) organization of
databases. Database management systems and their
features, querying databases, distributed databases and
data compression. Prerequisites: CSCI 3333 or CMPE 3333.
Equivalent course: CMPE 4333. A student may receive credit
in only one course.

CSCI 4334 Operating Systems [3-0]
fall, spring, summer
This course provides a study of the basic concepts of
operating systems: process management, memory
management, file systems, resource allocation and
protection. Prerequisites: CSCI 3333 or CMPE 3333, and CSCI
3334 or consent of the instructor. Equivalent course: CMPE
4334.

CSCI 4335 Computer Architecture [3-0]
fall, spring, summer
A study of the operational units and their interconnections
of a modern computer as well as the theory behind the
design of the instruction set, control unit, registers, memory
hierarchy and addressing modes, bus structures, input/
output and storage units. Similarities between CISC and
RISC architectures and related issues such as instruction
level parallelism and superscalar processors are discussed.
Prerequisites: CSCI 2333 or CMPE 2333 or CMPE 3437, and
CSCI 3333 or CMPE 3333. Students may receive credit for
only one of CSCI 4335, CMPE 4335, CMPE 4380 or ELEE
4380. Equivalent course: CMPE 4335.

CSCI 4336 Parallel and Distributed
Computing [3-0]
fall, spring, summer
Presents principles and practices of parallel and distributed
computing. Topics include parallel and distributed
computation models and architectures; design, analysis
and implementation of parallel algorithms; and methods of
parallel and distributed programming. Prerequisites: CSCI
4335 or CMPE 4335 or CMPE 4380. Equivalent course: CMPE
4336. A student may receive credit in only one course.

CSCI 4341 Topics in Computer Science [3-0]
as scheduled
Topics or problems in computer science; subject matter
changes from semester to semester. May be repeated for
credit as topic varies. Prerequisites: Consent of instructor.

CSCI 4343 Software Verification, Validation
and Quality Assurance [3-0]
fall, spring, summer
Course topics include methods for evaluating software
for correctness and reliability including code inspections
and their role in software verification; program proofs
and testing methodologies; formal and informal proofs of
correctness; unit and system testing techniques, testing tools
and limitations of testing; statistical testing; and reliability
models. Prerequisites: CSCI 3340 or CMPE 3340.

CSCI 4345 Computer Networks [3-0]
fall, spring, summer
An introduction to data communication topics, including data
transmission, encoding, data link control, switching, network
topologies, protocols, internet working and data security.
Examples of existing networks and network architectures are
studied. Prerequisites: CSCI 3333 or CMPE 3333. Equivalent
course: CMPE 4345. A student may receive credit in only one
course.

CSCI 4346 Advanced Operating Systems [3-0]
as scheduled
This course provides a survey of the design and
implementation of distributed operating systems, both
by introducing basic concepts and considering examples
of current systems. Topics include communication,
synchronization, processor allocation and distributed file
systems. Prerequisites: CSCI 3444 or CSCI 3434 or consent of
instructor.

CSCI 4350 Artificial Intelligence [3-0]
fall, spring, summer
Study of intelligent machines and machine learning. Includes
problem solving and heuristic search, natural language
understanding, game playing, database and expert systems.
Artificial intelligence projects will be implemented using an
AI language such as Lisp, Prolog, C++ or Java. Prerequisites:
CSCI 3333 or CMPE 3333. Equivalent course: CMPE 4350. A
student may receive credit in only one course.
CSCI 4360 Computer Graphics and Interactive Systems [3-0]
fall, spring, summer
Prepares fundamental concepts of computer graphics. Topics include display hardware, transformations, geometric modeling, shading two- and three-dimensional display algorithms and graphics software systems. Prerequisites: CSCI 3333 or CMPE 3333 or consent of instructor.

CSCI 4363 Advanced Computer Networks and Network Security [3-0]
fall, spring, summer
This course examines the internetworking architecture and routing, design and implementation issues related to secure and reliable networks, cryptography, firewalls, digital signatures, worms, viruses, logic bombs and spyware. Prerequisites: CSCI 4345 or CMPE 4345. Equivalent Course: CMPE 4363. A student may receive credit in only one course.

CSCI 4381 Interactive Systems and User Interface Design [3-0]
fall, spring, summer
Prepares principles and practice of information communication between user and system. The course examines results of past research, as well as evolving trends in interface design and implementation. Prerequisites: CSCI 3333 or CMPE 3333 or consent of instructor. Equivalent course: CMPE 4381. A student may receive credit in only one course.

CSCI 4382 Computer Visualization [3-0]
fall, spring, summer
Focuses on design and implementation of computer graphics systems to provide visual representation of large data sets. Presents current theory and practice of computer visualization systems and advanced display techniques. Prerequisites: CSCI 3333 or CMPE 3333 or consent of instructor.

CSCI 4390 Senior Project 3-0]
fall, spring, summer
Students will construct a software product, following it through the stages from initial specification to the final completed project, including user manual. Prerequisites: CSCI 3340 or CMPE 3340 and consent of instructor.

DAN 1222 Folk and Square Dance [0-3]
(Texas Common Course Number is DANC 1222)
Introduction to folk and square dance technique and styles. There is a $6 activity fee.

DANC 1228 Ballroom Dance [0-3]
(Texas Common Course Number is DANC 1228)
Introduction to ballroom dance technique and styles. There is a $6 activity fee.

DANC 1230 Yoga [0-3]
Introduction to yoga practice. There is a $6 activity fee.

DANC 1240 Pilates [0-3]
Introduction of Pilates mat work. There is a $6 activity fee.

DANC 1241 Ballet I: Primary [0-4.5]
(Texas Common Course Number is DANC 1241)
Introduction to Ballet technique and styles. There is a $6 activity fee.

DANC 1242 Ballet I: Secondary [0-3]
Introduction to Ballet technique and styles. There is a $6 activity fee.

DANC 1245 Modern Dance: Primary [0-4.5]
(Texas Common Course Number is DANC 1245)
Introduction to modern technique and styles. There is $6 activity fee.

DANC 1246 Modern Dance: Secondary [0-3]
Introduction to modern technique and styles. There is a $6 activity fee.

DANC 1249 Folklorico I: Primary [0-4.5]
(Texas Common Course Number is DANC 1249)
Introduction to folklorico dance technique and styles. There is a $6 activity fee.

DANC 1250 Folklorico I: Secondary [0-3]
as scheduled
Introduction to folklorico dance technique and styles. There is a $6 activity fee.

DANC 1253 Flamenco I: Primary [0-4.5]
Introduction of flamenco dance technique and styles. There is a $6 activity fee.

DANC 1254 Flamenco I: Secondary [0-3]
Introduction to flamenco dance technique and styles. There is a $6 activity fee.

DANC 1351 Introduction to Dance [3-0]
fall
Introduction to dance as a profession; with activities that prepare the student for dance major course work with an
emphais on dance conditioning/somatic practices. There is a $6 activity fee.

**DANC 2101 Dance Improvisation** [0-3]
Spring, even years
Exploration of dance elements and design through creative problem solving and guided experiences. Must be registered concurrently in any DANC modern dance technique class. There is a $6 activity fee.

**DANC 2110 Tap Dance I** [0-3]
(Texas Common Course Number is DANC 1110.)
Introduction to tap dance technique and styles. Prerequisites: Permission of instructor. There is a $6 activity fee.

**DANC 2112 Dance Performance: Beginning/Intermediate** [0-3]
(Texas Common Course Number is DANC 1112)
Introduction to dance performance participation and techniques. Must be registered concurrently in any dance technique course. Prerequisites: Permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 2120 Jazz Dance I** [0-3]
Introduction to jazz dance technique and styles. Prerequisites: Permission of instructor. There is a $6 activity fee.

**DANC 2130 Dance Technique: Special Topics I** [0-3]
Intensive study in dance technique; study with guest artists. Prerequisites: Permission of instructor. May be repeated for credit as topics change. There is a $6 activity fee.

**DANC 2144 Ballet Technique: Pointe I** [0-3]
(Texas Common Course Number is DANC 1141)
Instruction in Pointe technique. Prerequisites: Grade of B or better in DANC 2241 or 2242 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 2210 Tap Dance I** [0-3]
(Texas Common Course Number is DANC 1147)
Introduction to tap dance technique and styles. There is a $6 activity fee.

**DANC 2220 Jazz Dance I** [0-3]
Introduction to jazz dance technique and styles. There is a $6 activity fee.

**DANC 2241 Ballet I: Primary** [0-4.5]
Study of fundamentals of ballet technique. Prerequisites: Permission of instructor and credit for or concurrent enrollment in DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2242 Ballet I: Secondary** [0-3]
Study of fundamentals of ballet technique. Prerequisites: Permission of instructor and credit for or concurrent enrollment in DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2245 Modern Dance I: Primary** [0-4.5]
Study of fundamentals of modern dance technique. Prerequisites: Permission of instructor and credit for or concurrent enrollment in DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2246 Modern Dance I: Secondary** [0-3]
Study of fundamentals of modern technique. Prerequisites: Permission of instructor and credit for or concurrent enrollment in DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2249 Folklorico I: Primary** [0-4.5]
Study of fundamentals of Folklorico dance technique. Prerequisites: Permission of instructor and credit for or concurrent enrollment in DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2250 Folklorico I: Secondary** [0-3]
Study of fundamentals of Folklorico dance technique. Prerequisites: Permission of instructor and credit for or concurrent enrollment in DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2253 Flamenco I: Primary** [0-4.5]
Study of fundamentals of Flamenco dance technique. Prerequisites: Permission of instructor and credit or concurrent enrollment of DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2254 Flamenco I: Secondary** [0-3]
Study of fundamentals of Flamenco dance technique. Prerequisites: Permission of instructor and credit or concurrent enrollment of DANC 1351. May be repeated for credit. There is a $6 activity fee.

**DANC 2303 Music for Dancers** [3-0]
Introduction to musical elements as they relate to dance technique, performance, and instruction.

**DANC 2323 Dance Appreciation** [3-0]
(Texas Common Course Number is DANC 2303) as scheduled
An introduction to theatrical dance, including ballet, modern dance, post-modern dance and Spanish dance. How to understand and enjoy dance, an appreciation and understanding of Western dance performance forms. (Fulfills University core curriculum requirements for fine arts; see pages 105 for details.) There is a $6 activity fee.

**DANC 3110 Tap Dance II** [0-3]
Continuation of DANC 2110. Prerequisites: Grade of B or better in DANC 2110 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 3112 Dance Performance: Intermediate/Advanced** [0-3]
Intermediate/advanced dance performance techniques. Must be registered concurrently in any dance technique course.
Prerequisites: Permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3120 Jazz Dance II [0-3] Continuation of DANC 2120. Prerequisites: Grade of B or better in DANC 2120 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3121 Dance Science Lab [0-1.5] This course is designed to provide a deeper understanding of the concepts taught in the DANC 3320 Dance Science lecture course through the application of several means of assessment with the integration of conditioning activities geared toward injury prevention. There is a $6 activity fee. Prerequisites: BIOL 2403 and 2404; concurrent enrollment in DANC 3320.

DANC 3130 Dance Technique: Special Topics II [0-3] Intensive study in advanced dance technique; study with guest artists. Prerequisites: Permission of instructor. May be repeated for credit as topics change. There is a $6 activity fee.

DANC 3143 Ballet Technique: Variations [0-3] Focus on ballet repertory, including classical variations and contemporary styles and dance works. Prerequisites: Grade of B or better in DANC 2241 or 2242 or permission of instructor. May be repeated for credit as repertory changes. There is a $6 activity fee.

DANC 3144 Ballet Technique: Pointe II [0-3] Instruction in advanced Pointe technique. Prerequisites: Grade of B or better in DANC 2144 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3202 Choreography I [0-3] Investigation of compositional structures, motif and motif development; space, dynamics and rhythm as choreographic tools in dance making, leading to production of original dance work for formal/informal presentation. Prerequisites: DANC 2101 (Dance Improvisation). There is a $6 activity fee.

DANC 3210 Tap Dance II [0-3] Continuation of tap dance technique and styles. There is a $6 activity fee.

DANC 3220 Jazz Dance II [0-3] Continuation of jazz dance technique and styles. There is a $6 activity fee.

DANC 3241 Ballet II [0-4.5] Continuation of study of fundamentals of ballet technique. Prerequisites: Grade of B or better in DANC 2241 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3242 Ballet II [0-3] Continuation of study of fundamentals of ballet technique. Prerequisites: Grade of B or better in DANC 2242 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3245 Modern Dance II [0-4.5] Continuing study of fundamentals of modern dance technique. Prerequisites: Grade of B or better in DANC 2245 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3246 Modern Dance II [0-3] Continuing study of fundamentals of modern dance technique. Prerequisites: Grade of B or better in DANC 2246 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3249 Folklorico II: Primary [0-4.5] Continuing study of fundamentals of Folklorico dance technique. Prerequisites: Grade of B or better in DANC 2249 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3250 Folklorico II: Secondary [0-3] Continuing study of fundamentals of Folklorico dance technique. Prerequisites: Grade of B or better in DANC 2250 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3253 Flamenco II: Primary [0-4.5] Continuing study of fundamentals of Flamenco dance technique. Prerequisites: Grade of B or better in DANC 2253 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3254 Flamenco II: Secondary [0-3] Continuing study of Flamenco dance. Prerequisites: Grade of B or better in DANC 2254 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

DANC 3308 Dance History [3-0] fall, odd years History of dance as an art form viewed in its cultural and societal contexts.

DANC 3309 Dance History I [3-0] Introduction to history of dance as an art form; examination of the role of dance in early world cultures and the evolution of dance forms through the 1800s, viewed in their cultural and societal contexts.

DANC 3310 Dance History II [3-0] Continuing study of evolution of dance forms viewed in their cultural and societal contexts from the 1800s to the present. Prerequisites: DANC 3309.

DANC 3311 Dance Production [3-0] Theory and practice of technical production for dance, including lighting design, costume design and construction, set design, sound and props.
### Index

**DANC 3312** Dance Philosophy and Criticism [3-0]
Orientation to historical and contemporary dance philosophies; critical analysis of choreography and dance performance. Prerequisites: DANC 3310.

**DANC 3313** World Dance [3-0]
Inquiry into dance forms and cultural contexts in diverse world cultures. Prerequisites: DANC 3308. There is a $6 activity fee.

**DANC 3320** Dance Science [3-0]
Fundamentals of physiology, kinesiology, biomechanics, physical conditioning and injury prevention as they apply to dance techniques and training. Prerequisites: BIOL 2403 and BIOL 2404; concurrent enrollment in DANC 3121.

**DANC 4102** Senior Project [0-3]
The production of senior choreographic work or research project for formal presentation. Prerequisites: Permission of instructor and DANC 4202. There is a $6 activity fee.

**DANC 4202** Choreography II [0-3]
Study of space use, group design and emotional content in dance-making, leading to the production of original dance work for formal/informal presentation. Prerequisites: DANC 3202.

**DANC 4211** Ballet III [0-4.5]
Continuing study of ballet technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3241 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4212** Ballet III [0-3]
Continuing study of ballet technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3242 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4241** Modern Dance III [0-4.5]
Continuing study of modern dance technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3245 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4246** Modern Dance III [0-3]
Continuing study of modern dance technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3246 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4249** Folklorico III: Primary [0-4.5]
Continuing study of Folkloric dance technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3249 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4250** Folklorico III: Secondary [0-3]
Continuing study of Folkloric dance technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3250 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4253** Flamenco III: Primary [0-4.5]
Continuing study of Flamenco dance technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3253 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4254** Flamenco III: Secondary [0-3]
Continuing study of Flamenco dance technique with a strong emphasis on performing skills and styles. Prerequisites: Grade of B or better in DANC 3253 or permission of instructor. May be repeated for credit. There is a $6 activity fee.

**DANC 4309** Dance Theory [3-0]
as scheduled
Technical and aesthetic theories and practices related to the training of dancers. Prerequisites: Grade of B or better in DANC 3241 and DANC 3245.

**DANC 4313** Dance in the Public Schools [3-0]
Field-based experiences in program planning for dance in secondary schools, including unit instruction, lesson planning, class organization and materials sources. Laboratory experiences to be arranged. Prerequisites: DANC 4310, DANC 4311, DANC 4312, EDUC 4301 and EDUC 4302.

### Dietetics

**DIET 2351** Introduction to Clinical Nutrition [3-0]
fall, spring, summer I
Basic principles of human nutrition with emphasis on the nutrients and factors that affect their utilization in the human body; nutritional requirements of the body at all age levels; modern concept of an adequate diet; cultural influences on food selection; principles of diet modification and its importance in the prevention and treatment of disease.

**DIET 2352** Food Preparation [2-3]
spring
Application of scientific principles in food selection and preparation (conventional and microwave cooking). Consideration is given to the composition and properties of food, nutritional value, desirability standards, simple menu service and food economics.
DIET 3252 Quantity Foods Production [2-0] fall
Principles and methods of buying, preparing and serving foods for various types of quantity food facilities are considered. Standardization of recipes and cost controls. Use and care of institutional equipment. Safety and sanitation. Two hours of lecture/discussion per week. Requires concurrent enrollment in DIET 3253, DIET 3353, and DIET 3356. Prerequisites: Diet 2352 and admission to the Coordinated Program in Dietetics.

DIET 3253 Quantity Foods Practicum [9-0] fall
Students will be assigned to a practicum site in order to develop skills related to the principles and methods of buying, preparing and serving foods for various types of quantity food facilities. Standardization of recipes and cost controls are considered. Use and care of institutional equipment. Safety and sanitation. 6 hours of practicum per week. Concurrent enrollment in DIET 3252, DIET 3353, and DIET 3356. Prerequisites: DIET 2352 and admission to the Coordinated Program in Dietetics.

DIET 3257 Junior Seminar in Dietetics [2-0] spring
Review and discussion of all topics related to Food Service and Clinical Nutrition. Extensive exam preparation for the Junior Comprehensive Exam will be emphasized.

DIET 3353 Advanced Nutrition [3-0] fall
Study of advanced nutrition and human metabolism; cells and their nourishment; digestive system; energy transformations; macronutrients (carbohydrates, lipids, and proteins) and their metabolism; regulatory nutrients (vitamins and minerals) and their metabolism; body fluids and electrolyte balance; body composition and energy expenditure. Prerequisites: CHEM 2302, DIET 2351, BIOL 2403, BIOL 2404 and admission to the Coordinated Program in Dietetics.

DIET 3354 Food Systems Management [3-0] spring
Organization and management of a food service system and basic operational subsystems (procurement, inventory, production, distribution, sanitation and fiscal control). Prerequisites: DIET 3252, DIET 3253 DIET 3353 and DIET 3356.

DIET 3356 Experimental Foods [2-3] fall
Investigation of chemical, physical and nutritional properties of foods and additives during food preparation. Study of food modifications necessary for diet therapy; consideration of cultural preferences. Prerequisites: DIET 2352, CHEM 2302 and admission to the Coordinated Program in Dietetics.

DIET 3357 Medical Nutrition Therapy I [2-3] fall
Introduction to the concepts of providing nutritional care to individuals and medical nutrition therapy. Topics include nutritional assessment procedures (anthropometrics, biochemical, clinical and dietary) and nutrition care process, basic principles of interviewing and counseling, diabetic and renal calculations, total parenteral nutrition (TPN) and tube feeding methods, and use of computer software for dietary analysis of intakes. Prerequisites: DIET 3353 and admission to the Coordinated Program in Dietetics.

DIET 3358 Medical Nutrition Therapy II [3-0] spring
Pathophysiological effect of disease on humans and rationale for medical nutrition therapy and nutrition care process. Development of ability to translate dietary prescription into meal plans that will satisfy nutritional, emotional and cultural needs of people. Prerequisites: DIET 3357 and admission to the Coordinated Program in Dietetics.

DIET 3655 Food Systems Management Practicum [0-18] spring
Selected problems and clinical experiences directly correlated to DIET 3354. Supervised practice in organization and management of a food service system and basic operational subsystems (procurement, inventory, production, distribution, sanitation and fiscal control). Eighteen hours clinical experience per week. Prerequisites: DIET 3252 DIET 3253, DIET 3353 and DIET 3356 and concurrent enrollment in DIET 3354.

DIET 4252 Integrative Seminar in Dietetics [2-0] fall
Integration of theory and practice on the basis of practicum experience and nutrition care process and model. Two lecture/discussion hours a week for one semester. Prerequisites: DIET 3357, DIET 3358 and admission to the Coordinated Program in Dietetics.

DIET 4257 Research Methods in Dietetics [2-0] spring
The study of principles of research and research design. Introduction, interpretation and evaluation of dietetics-related professional literature. Study of planning techniques and instructional strategies for professional presentations. Students are provided preliminary directions in the development of a research proposal. Prerequisites: DIET 4359, DIET 4752 and admission to the Coordinated Program in Dietetics

DIET 4258 Communication Skills in Dietetics [2-0] fall
The study of the major components of communication, interviewing, counseling, behavior modification, group process, delivery of oral presentations and workshops, learning and motivation. Prerequisites: DIET 4359, DIET
Index

4752 and admission to the Coordinated Program in Dietetics

**DIET 4259 Seminar in Dietetics [2-0]**
**spring**
Review and discussion of all topics related to National Registration Examination for dietitians including Food Service, Clinical, and Community Nutrition. Extensive exam preparation for the National Registration Examination will be emphasized. Prerequisites: DIET 4359, DIET 4752 and admission to the Coordinated Program in Dietetics.

**DIET 4356 General Dietetics Practicum [12-0]**
**spring**
Integration of nutritional care and dietetic services into various systems of health care, food systems management or clinical nutrition. Under close supervision, students will assume the role of the generalist dietitian. Students will be assigned to a practicum experience for 12 hours per week. Prerequisites: DIET 4359, DIET 4752 and admission to the Coordinated Program in Dietetics.

**DIET 4359 Community and Life Cycle Nutrition [3-0]**
**fall**
The study of community assessment, planning, education and implementation of community programs. Also includes the study of physiological changes and nutritional requirements in infancy, childhood, adolescence and adulthood, including the elderly, and the food and nutrition programs geared toward these groups. Prerequisites: DIET 3358 and admission to the Coordinated Program in Dietetics.

**DIET 4455 Community Nutrition Practicum [0-0-16]**
**spring**
Clinical experience includes observation and participation with selected community agencies and schools. Techniques for teaching effective nutrition groups. Survey of major problems arising from food habits of population groups, including the study of Mexican American culture. Prerequisites: DIET 4359, DIET 4752 and admission to the Coordinated Program in Dietetics.

**DIET 4752 Clinical Nutrition Practicum [0-0-21]**
**fall**
An introduction to the role of the clinical dietitian in the health care environment. Selected problems and clinical experiences directly correlated to DIET 3357 and DIET 3358. Twenty-five hours clinical experience per week. Prerequisites: DIET 3357, DIET 3358 and admission to the Coordinated Program in Dietetics.

---

**Economics**

**ECON 1301 Introduction to Economics [3-0]**
(Texas Common Course Number is ECON 1301)
**fall, spring, summer**
Uses economic analysis to examine a variety of past and current economic, social and political issues/problems. While the focus will be on the United States, international issues will also be considered. In particular, the student will have the opportunity to develop an understanding of how economic, social and political systems, through their institutions and structures, affect a variety of issues related to the economy and society.

**ECON 2301 Principles of Macroeconomics [3-0]**
(Texas Common Course Number is ECON 2301)
**fall, spring, summer**
Provides an introduction to the economy as a whole. Topics include national income and output, unemployment, inflation, market forces and economic growth, international linkages (such as trade deficits), and economic, social and political structures and institutions (such as fiscal and monetary policies and the Federal Reserve System).

**ECON 2302 Principles of Microeconomics [3-0]**
(Texas Common Course Number is ECON 2302)
**fall, spring, summer**
Introduction to the economic problem and the fundamentals of microeconomics. Analysis of the market system (including market failure), consumer demand, the firm’s supply decision, product and resource markets, resource allocation and efficiency and international linkages (such as comparative advantage). Prerequisites: ECON 2301 with a grade of C or better.

**ECON 3300 Internship in Economics [0-0-3]**
as scheduled
This internship is designed to give students an opportunity to gain real world experience in their chosen economics career field by working with a participating employer or organization. The students will be supervised by a faculty member acting as a liaison between the employing organization and the academic department to assure compliance with specific learning and experience requirements for the assignment. The employment can be either paid or unpaid, and must include at least 10 hours of work each week over the period of one academic term. Prerequisites: ECON 2301 and ECON 2302, upper-division standing and approval by both department chair and employer providing internship experience.

**ECON 3336 The Political Economy of Mexico [3-0]**
as scheduled
This course surveys the growth of the Mexican economy, its institutions and problems. Emphasis is placed on the relative roles of government and private enterprise in the development process. Prerequisites: ECON 2301 and ECON 2302 (or equivalent).
ECON 3341 Econometrics [3-0] fall
This course studies standard regression procedures of parameter estimation and hypothesis testing in economics. This course covers basic probability concepts, the linear regression model, the properties of the least squares estimators, hypothesis testing, functional form, heteroskedasticity, autocorrelation and the basics of panel data estimation and simultaneous equation. Prerequisites: ECON 2301, ECON 2302, and MATH 1342 or QUMT 2342.

ECON 3342 Business and Economics Forecasting [3-0] spring
This course studies forecasting techniques as they apply to finance and economics. The course covers graphical analysis, modeling and forecasting trends, seasonality adjustment, stationarity, MA, AR, ARMA, ARIMA, unit roots, forecasting with regression models and forecast evaluation. Prerequisites: ECON 2301 and ECON 2302, MATH 1342 or QUMT 2342.

ECON 3343 Economics of the Government Sector [3-0] as scheduled
Economic roles of the government, public sector economic decision making, and the effects of government expenditures and taxation on resource allocation, income distribution and economic growth. Also includes topics such as pollution control, education, deregulation and income security programs. Prerequisites: ECON 2301 and ECON 2302 (or equivalent).

ECON 3351 Macroeconomic Theory [3-0] fall,
Provides an analysis of the construction, character and operational uses of the macroeconomic models of classical, Keynesian, Monetarist and Neoclassical schools of thought. Applications of the foregoing models to such issues as inflation, unemployment, economic growth, interest rates and investment in the U.S. economy are emphasized. Prerequisites: ECON 2301 and ECON 2302.

ECON 3352 Microeconomic Theory [3-0] spring
Provides an in-depth study of the theory of consumer demand and the theory of the firm. Supply and demand analysis and different market structures are also discussed. Prerequisites: ECON 2301 and ECON 2302.

ECON 3353 International Trade [3-0] fall, spring
Provides an analysis of the mechanism of international trade and its effects on the domestic economy. Emphasis is placed on the issues of comparative advantage, trade barriers, international factor mobility (including foreign direct investment) and trade agreements. Prerequisites: ECON 2301 and ECON 2302.

ECON 3354 Health Economics [3-0] as scheduled
This course examines the economics of health and health care, the production of health services, the markets for hospital and physician services and the health insurance market. Other major topics include managed care, the pharmaceutical industry, the role of government in the health care sector and health care reform. Prerequisites: ECON 1301 or ECON 2302 (or equivalent).

ECON 3355 Economic Development [3-0] as scheduled
This course is designed to provide students with contemporary concepts, analytical approaches, policies and practices that foster the technology-based economic development of regional and local economies. The course provides evidence on how factors such as knowledge, place, time, capital, institutional relationships, learning and policy promote technology-based economic development. Worldwide and regional comparative perspectives and alternative strategies are also examined in the course. Prerequisites: Three hours of economics and junior standing.

ECON 3357 Economics of Poverty [3-0] as scheduled
Provides an analysis of the causes and socioeconomic consequences of poverty. Discussions will involve such topics as income transfer programs, welfare reform, Social Security, national health programs and income tax structures. Prerequisites: ECON 2301 and ECON 2302.

ECON 3358 Labor Economics [3-0] as scheduled
Provides an in-depth analysis of labor market structures and processes, patterns and determinants of employment and wages, labor force participation, unemployment, discrimination and human capital. Prerequisites: ECON 2301 and ECON 2302 with a grade of C or better and may not be taken concurrently.

ECON 3360 Managerial Economics [3-0] as scheduled
This course applies economic reasoning to entrepreneurial decision making. The course covers topics such as personnel economics, production theory, pricing policies and investment planning. Prerequisites: ECON 2301 and ECON 2302 (or equivalent).

ECON 3381 Money and Banking [3-0] fall, spring, summer
The components, nature, functions, creation and destruction of money and credit are surveyed in this course. Other topics include financial institutions and their functions and an introduction to monetary theory and policy. Prerequisites: ECON 2301 and ECON 2302 (or equivalent).
Index

ECON 4340 Introduction to Mathematical Economics [3-0]
Introduction to quantitative methods used to analyze a variety of macroeconomic and microeconomic issues, including the role of fiscal and monetary policies in the macroeconomy, markets, production costs, profit maximization and utility maximization. Methods discussed include the use of structural models, matrix algebra, comparative statics and un constrained and constrained optimization. Prerequisites: ECON 2301, ECON 2302 and MATH 1342 (or equivalent).

ECON 4359 History of Economic Thought [3-0]
Provides a survey of the field of economics. Pre-scientific, classical and contemporary works will be studied to offer knowledge of the development of economic theory and view of current direction and scope. Prerequisites: ECON 2301 and ECON 2302

ECON 4361 Studies in Economics [3-0]
Provides an in-depth analysis of a special economics topic selected by the instructor. The topic will be established a priori, such that interested students should contact the instructor or department chair before registration. This course will have variable content and may be repeated for credit with consent of instructor. Prerequisites: ECON 2301 and ECON 2302

Education

ED 3350 Information Technology [3-0]
fall, spring, summer
Operational skills in computer applications to educational word processing, database, worksheet, desktop publishing, testing, graphics and communication. Emphasis will be given to a critical review of methodology for instruction and management of instruction. Prerequisite: CSCI 1300 or consent of instructor.

ED 4313 Directed Teaching Generic Special Education [3-0]
fall, spring
Course consists of observation, limited participation in teaching, then full teaching responsibility in a public school (TEA-accredited) special education classroom to which the student is assigned. This work is done under the guidance of the teacher of the class to which the student is assigned and the supervision of a college professor who makes periodic observations and evaluations of the student’s progress. Seminars and individual conferences are required. Students are assigned to the public school classroom for a minimum number of hours as mandated by TEA. The number of hours per day and the number of days per week are regulated by TEA, UTPA Student Teaching Manual and local school districts. Prerequisites: Approval of UTPA Teacher Education Committee. For additional prerequisites, refer to Directed Student Teaching Requirements for Generic Special Education.

EDUC 3301 Foundations of American Education [3-0]
fall, spring, summer
Examination of historical and philosophical foundations of education as related to social, political, technological, and economic forces of diverse classrooms of the 21st century with special emphasis on the legal and ethical requirements of the teaching profession. May not receive credit for either EDHS 4301 and EDUC 3301, or EDAL 3301 and EDUC 3301. Prerequisites: Must be core complete or permission of the instructor.

EDUC 4301 Teaching and Learning in Contemporary Schools [3-0]
fall, spring, summer
Examination of historical and philosophical foundations of education as related to social, political, technological, and economic forces and diverse classrooms of the 21st century. Includes emphasis on teachers’ code of ethics, state curriculum and assessments, parental involvement, and instructional technology. Prerequisites: Must be core complete or by permission of the instructor.

EDUC 4302 Human Development and Learning Theories in the EC-12 Classroom [3-0]
fall, spring, summer
Examination of major theories in the areas of human growth and development, cognitive and social learning theories, and motivation as they apply to the instruction and assessment of all learners in EC-12 schools. Includes emphasis on creating a productive learning environment, the integration of technology, and state requirements for state certification. This course may require field experience hours. Prerequisites: Admission to COE Teacher Preparation Programs.

EDUC 4303 Teaching Special Populations In Inclusive Classrooms [3-0]
fall, spring, summer
Examination of contemporary first and second language acquisition theories, research, instructional methods, and assessment of English Learners (ELs), gifted and talented students, and students with disabilities in inclusive content area classrooms. Emphasis will be placed on the use of instructional and assistive technologies. This course may require field experience hours. Prerequisites: Admission to COE Teacher Preparation Programs.

EDUC 4304 Instructional Planning and Assessment [3-0]
fall, spring
Examination of curriculum organization and development, instructional planning, assessment, motivation, and
classroom management. Emphasis will be placed on designing learning goals and objectives with attention to student diversity and integration of technology in EC-12 settings. This course requires 30 hours of field experience in a public school. Prerequisites: Admission to COE Teacher Preparation Program.

EDUC 4305 Teaching English Learners and Students with Disabilities in Inclusive Classrooms [3-0]
fall, spring, summer
Examines the role of literacy in learning content as it emphasizes how learners use literacy strategies and technology to support learning in the content areas; specifically, how educators use teaching and assessment tools to support content learning for all learners. Emphasis is placed on student learning through integrated curriculum models. Prerequisite(s): Admission to COE Teacher Preparation Program.

EDUC 4611 Student Teaching [3-0-3]
fall, spring
This course is designed for students in specific content areas seeking middle school, high school or all level teacher certifications. Interns will be placed in a state-accredited public school all day under the guidance of an experienced classroom teacher (mentor) and a university supervisor for a minimum of 12 weeks. The course includes a seminar that facilitates the intern's integration of the supervised internship experience with a focus on integrating educational theories with professional practice in the classroom and special emphasis on the implementation of effective instruction, assessment, and classroom management. Prerequisites: Admission to COE Teacher Preparation Program and admission to Student Teaching by the Office of Field Experiences.

Alternative Certification Program

EDAC 4320 Internship [3-0-30] as scheduled
Will consist of on-site supervision. Seminars will meet weekly during the semester and for a minimum of 12 hours. This course is required to meet elementary and secondary requirements for teacher certification. May not be substituted for student teaching. Prerequisites: Baccalaureate degree and acceptance into the UT Pan American Alternative Certification Program.

EDAC 4321 Internship [3-0-30] as scheduled
Will consist of on-site supervision. Seminars will meet weekly during the semester and for a minimum of 12 hours. This course is required to meet elementary and secondary requirements for teacher certification. May not be substituted for student teaching. Prerequisites: Baccalaureate degree and acceptance into the UT Pan American Alternative Certification Program.

EDAC 4340 Introduction to the Teaching Profession [3-0-4]
fall, spring, summer
This course, designed for both elementary and secondary alternative certification candidates, will orient students to the teaching profession, the lesson cycle, the teaching process and real-life requirements of teaching in a modern public school. Following instruction in observation skills, students will spend 45 clock hours, including three full consecutive days, in a public school setting where they will have the opportunity to prepare lessons and teach them in small and large group settings. ACP students will be evaluated in both the University and public school setting.

EDAC 4342 Introduction to Early Childhood Education [3-0]
as scheduled
Teachers of young children (birth to age eight) must understand how children develop socially, emotionally, physically and cognitively so that they can plan developmentally appropriate experiences for each child. The major purpose of this course is to present current theories, knowledge and research about children that underlie decision making in early childhood programs. A second purpose is to illustrate how theories and research findings evolve into curriculum organization, teaching strategies and activities that are developmentally appropriate for young children.

EDAC 4343 The Process of Reading [3-0] as scheduled
The reading process and its correlates as they pertain to emergent literacy through the acquisition of comprehension processes; focus on the directed reading process for grades Pre-K through fourth grade; connections among the processes of language, writing and reading; basic diagnosis techniques and assessment procedures as they relate to the reading/writing process.

EDAC 4345 Theory and Methodology of Instruction Planning in the Elementary Schools [3-0]
as scheduled
This course will present principles of curriculum organization and planning based on learner needs. Students will design instruction to enable elementary students to achieve educational goals and objectives. Implementation of the lesson cycle with utilization of instructional media will be stressed. The scope, sequence and materials for teaching the elementary school curriculum will be studied. The course will include basic principles and procedures of instruction and classroom management, with emphasis on discipline and effective teaching strategies. Skills needed to meet the
requirements of the Texas Teacher Appraisal System will also be addressed. Microteaching with appropriate instructional media and technology for the elementary learner will be included.

EDAC 4348 Instructional Planning Methodology and Classroom Management in the Secondary Schools [3-0]
as scheduled
This course focuses on the practical application of Texas curriculum requirements incorporating the lesson cycle for planning, implementing and evaluating the teaching-learning process in secondary schools within legal and ethical guidelines. It includes basic principles and procedures of instruction and classroom management, with emphasis on discipline and effective teaching strategies. Skills needed to meet the requirements of the Texas Teacher Appraisal System will also be addressed. Microteaching with appropriate instructional media and technology for the secondary learner will be included.

EDAC 4620 Internship 4621 [6-0-30]
as scheduled
Internship will consist of on-site supervision. Seminars will meet weekly during the fall semester and for a minimum of 12 hours during the spring semester. Courses are designed to meet elementary or secondary requirements for teacher certification. May not be substituted for student teaching. Prerequisites: Baccalaureate degree and acceptance into the UT Pan American Alternative Certification Program.

Kinesiology Education

EDAK 3370 Internship I: Kinesiology in Elementary Schools [3-0]
fall, spring
Instruction and practice with methods and materials necessary to design and implement developmentally appropriate instruction for elementary school physical education. It is aligned with the EC-4 Texas Essential Knowledge and Skills (TEKS). This is a field-based course, which requires a minimum of 25 hours in a field setting. Prerequisites: KIN 3340, kinesiology major and admission to teacher education.

EDAK 3380 Internship I: Kinesiology in Middle Schools [3-0]
fall, spring
Instruction and practice with methods and materials necessary to design and implement developmentally appropriate instruction for middle school physical education. It is aligned with the 4-8 Texas Essential Knowledge and Skills (TEKS). This is a field-based course which requires a minimum of 25 hours in a field setting. Prerequisites: KIN 3340, kinesiology major and admission to teacher education.

EDAK 4390 Internship I: Kinesiology in High Schools [3-0]
as scheduled
Instruction and practice with methods and materials necessary to design and implement developmentally appropriate instruction for high school physical education students. It is aligned with the 8-12 Texas Essential Knowledge and Skills (TEKS). This is a field-based course which requires a minimum of 25 hours in a school setting. Prerequisites: KIN 3370 and 3380.

EDAK 4399 Supervised Internship II: All-Level in Kinesiology [3-0]
fall, spring
This course is designed for students in kinesiology seeking all-level certification. The intern will be placed in a state accredited public school all day under the guidance of an experienced classroom teacher (mentor) and a university supervisor for a minimum of 12 weeks. This course must be taken concurrently with EDAL 4398.

All-Level Education

EDAL 3301 Foundations of All-Level Education [3-0]
as scheduled
This course is designed for the student who is preparing to teach in a specific content-area at all levels in public education. Research issues and trends regarding all-level education will be examined including the historical and philosophical systems affecting the current state of schools. The course will analyze the professional roles and responsibilities as well as the legal and ethical requirements of the teaching profession. This course requires a minimum of 25 hours in the public school setting. Prerequisites: Admission to the College of Education.

EDAL 3302 Human Development, Learning Theory and Assessment [3-0]
as scheduled
This course examines the human developmental processes as they apply to planning instruction and assessment for learners at all levels. It also emphasizes the role of learning theory in the instructional process, including varied learning styles and developmental characteristics and needs. This course also focuses on the role of formal and informal assessment in guiding instructional planning and creating assessments congruent with instructional goals and outcomes at the EC-4 and 8-12 levels. This course requires a minimum of 25 hours in the public school setting. Prerequisites: Admission to the College of Education.
EDAL 3303  Instructional Methods for English Language Learners and Learners with Exceptionalities at All Levels  [3-0]  
as scheduled  

This course is designed for the prospective all-level teacher, this course explores contemporary first and second language acquisition theories and theories of instruction as they relate to the special needs of English language learners (ELLs) and learners with exceptionalities in content-area classrooms for all level (EC-12) instruction. Students will have the opportunity to learn to assess the special needs of students whose first language is not English and students who have exceptionalities (i.e., mild learning disabilities). They will also learn to integrate research-based best practices for promoting literacy and language development in their teaching. This course requires a minimum of 25 hours in the public school setting. Prerequisites: EDAL 3301, EDAL 3302 and EDAL 3303.

EDAL 4301  Internship I: Elementary (EC-4) Classroom Management, Planning and Curriculum  [3-0]  
as scheduled  

This course is designed for the prospective all-level teacher emphasizing principles of curricular organization, planning and classroom management based on elementary school learner needs. Development of lessons and utilization of instructional media will be stressed. Students will also learn the scope, sequence and materials used in the elementary (EC-4) school curriculum. The course will also focus on the basic principles and procedures of instruction and classroom management. The development of appropriate goals, objectives and lesson plan for grades EC-4 is introduced. This course requires a minimum of 25 hours in the public school setting. Prerequisites: EDAL 3301, EDAL 3302 and EDAL 3303.

EDAL 4302  Internship I: Principles of Learning and Classroom Management Grades 4-8  [3-0]  
as scheduled  

This course is designed for the prospective all-level teacher and addresses the intellectual, physical, social, emotional and moral implications for teaching, learning and school curricular organization at the middle school level. It also focuses on the interdisciplinary nature of knowledge, including how the middle school curriculum should be relevant, challenging, integrative and exploratory. The development of appropriate goals, objectives and lesson plans for middle school is introduced. This course requires a minimum of 25 hours in the public school setting. Prerequisites: EDAL 3301, EDAL 3302 and EDAL 3303.

EDAL 4303  Internship I: Planning and Curriculum Development for Grades 8-12  [3-0]  
as scheduled  

This course is designed for students preparing to teach at all levels. It focuses on methods that emphasize curriculum, classroom organization and management. The development of appropriate goals, objectives and lesson planning for grades 8-12 will be introduced. The prospective teacher will have the opportunity to identify needs and plan instruction using technology and other resources. A particular emphasis will be for students to demonstrate lessons in respective content areas utilizing appropriate instructional techniques. This course requires a minimum of 25 hours in the public school setting. Prerequisites: EDAL 3301, EDAL 3302 and EDAL 3303.

EDAL 4396  Supervised Internship II: All-Level in Music  [3-0]  
as scheduled  

This course is designed for students in music seeking all-level teacher certification. Intern will be placed in a state-accredited public school all day under the guidance of an experienced classroom teacher (mentor) and a university supervisor for a minimum of 12 weeks. This course must be taken concurrently with EDAL 4398.

EDAL 4397  Supervised Internship II: All-Level in Special Education  [3-0]  
as scheduled  

This course is designed for students in special education seeking all-level teacher certification. Intern will be placed in a state-accredited public school all day under the guidance of an experienced classroom teacher (mentor) and a university supervisor for a minimum of 12 weeks. This course must be taken concurrently with EDAL 4398.

EDAL 4398  Integrated Internship All-Level (EC-12) Teacher Certification Programs Seminar  [3-0]  
as scheduled  

A seminar format facilitates the intern's integration of the supervised internship experience and the program's professional curriculum for All-Level (EC-12) teacher certification programs. Emphasis is placed on linking classroom learning with practice in the field and integrating theory with professional practice. Internship situations and experiences will be used for discussion and analysis. This course must be taken concurrently with EDAL 4399 (art, Spanish, health) or EDAL 4396 (music) or EDAK (kinesiology). Prerequisites: Admission to COE Teacher Preparation Programs: EDUC 4301, EDAL 4302, EDUC 3305, EDAL 4304, READ 4351.

EDAL 4399  Supervised Internship: All-Level (EC-12) Programs  [3-0]  
as scheduled  

This course is designed for students who are seeking a degree in a content area with All-Level (EC-12) teacher certification. Interns will be placed in a state-accredited public school, and they will be mentored by an experienced classroom teacher and a university supervisor for a minimum of twelve (12) weeks. This course must be taken concurrently with EDAL 4398. Prerequisites: Admission to
Bilingual Education

EDBE 3315  The Bilingual Curriculum in the Content Areas  [3-0]
fall, spring, summer
This is a course in which the learner-centered curriculum for the content area will be studied, focusing on the Texas Essential Knowledge and Skills (TEKS) of science, mathematics, social studies and health in a dual language classroom. Field experiences may be required. Prerequisites: Admission to COE Teacher Preparation Programs.

EDBE 3316  The Development of Biliteracy  [3-0]
fall, spring, summer
This course will examine the transfer of Spanish literacy to English literacy. The course will also emphasize the current perspective of the social nature of the biliteracy process in order to provide relevant and meaningful learning experiences for all learners. Field experiences may be required. Prerequisites: Admission to COE Teacher Preparation Programs.

EDBE 3322  Foundations of Bilingual Education  [3-0]
fall, spring, summer
The study of cultural, psychological, socioeconomic, linguistic, cognitive and curricular factors affecting the academic achievement of bilingual students. This course also will investigate the philosophical, legal and sociological aspects of bilingual education in the American public school system. National, state and local guidelines designed to meet the needs of multilingual and multicultural student populations will be reviewed. Field experiences may be required. Prerequisites: Admission to COE Teacher Preparation Programs.

EDBE 3324  English as a Second Language  [3-0]
fall, spring, summer
The rationale, theories, goals and practical applications of a comprehensive learner-centered ESL curriculum will be studied. The integration of a learner-centered ESL curriculum in biliteracy development will also be examined as an integral component of a bilingual education program. Field experiences may be required. Prerequisites: Admission to COE Teacher Preparation Programs.

EDCI 1301  Introduction to the Teaching Profession  [3-0]
(Texas Common Course Number is EDUC 1301.)
as scheduled
This course, designed for elementary, middle school and secondary candidates, will orient students to the teaching profession, the teaching process and real-life requirements of teaching in a modern public school. Students will spend 45 clock hours, including three full consecutive days, in a public school setting where they will have the opportunity to prepare lessons and teach them in small and large group settings. Students will be evaluated in both the university and public school setting. This course will also address college success skills needed by entering freshman.

EDCI 3301 Principles of Learning  [3-0]
as scheduled
This course provides an introduction to the behavioral, cognitive, social and constructivist concepts of learning at the elementary school level. The course will examine the principles and theories of classroom management, organization, motivation, behavior modification, emotional, intellectual, physical and social implications related to the education of young children. This course requires a minimum of 25 hours in the public school setting.

EDCI 3305  Social, Cultural, Historical and Political Foundations of Education  [3-0]
fll, spring
This course is designed for the student who is preparing to teach in grades EC-4. The course focuses on the social, cultural, historical and political issues impacting the current state of education in the United States. Research, issues and trends in these areas with regard to early childhood through fourth grade (EC-4) education will be discussed. This is a field-based approved course.

EDCI 3330  Foundations of Education and Teaching as a Profession  [3-0]
fall, spring, summer
This course examines the philosophical, historical, legal, political, including accountability and assessment, and social/cultural aspects of education in the United States and language development in a bilingual setting, beginning with early childhood through the sixth grade. Special emphasis is placed on first and second language development and transference of skills and concepts resulting in balanced biliteracy. Field experiences may be required. Prerequisites: Admission to COE Teacher Preparation Programs.
its effect on culturally and linguistically-diverse populations including students with exceptionalities. It explores how schools and classrooms function as academic organizations and how the school structure affects the general community and can open the lines of communication with students’ families. It also discusses legal and ethical issues related to the teaching profession. Teacher preparation, selecting teaching as a profession, teachers’ professional expectations, teacher certification and effective teaching will be explored. Prerequisites: Course must be taken prior to admission into College of Education for all EC-6 Teacher Preparation programs.

EDCI 3331 Child Development and Teaching in the Elementary School [3-0]
fall, spring, summer
This field-based course focuses on applications of child development from birth to preadolescence in children from culturally and linguistically-diverse populations including students with exceptionalities to designing instruction. Learning, intelligence and motivation as they apply to the development of teaching-knowledge in learner centered environments will be discussed. This course explores the relationship between teaching, learning and development and factors, such as an understanding of development as occurring within multiple contexts, including children's social relationships (peer, family, and teacher relationships), and how children develop with respect to their identities as learners. Students will be exposed to self-analysis (reflective teaching) skills that can improve teaching/learning behaviors. Prerequisites: Admission to COE Teacher Preparation Programs.

EDCI 3332 Learning, Motivation and Technology Integration in Elementary School [3-0]
fall, spring, summer
This course introduces students to the types and uses of educational technology to support and enhance the K-6 learning experience. It addresses learning theory and the integration of technology into the curriculum, as well as theories of motivation in order to actively engage students in the learning process. Participants will gain practical experience designing various types of technology-based instructional materials based on particular theoretical frameworks. In addition, students will be required to articulate the learning and/or motivational theory underlying created artifacts as part of the design process. State academic standards and state/national technology standards will be used to make decisions about curriculum content and to plan technology-based activities. Prerequisites: Admission to COE Teacher Preparation Programs.

EDCI 3333 Principles of Curriculum, Management and Assessment in the Elementary School [3-0]
fall, spring, summer
This field-based course examines the design, implementation, communication, management and evaluation of curricula, including the use of learner-centered environments. The focus will be on assessment, procedures for setting up a classroom climate conducive to learning, practices for managing student behavior, conflict resolution, and classroom management models and strategies appropriate for culturally and linguistically diverse populations, including students with exceptionalities. Prerequisites: Admission to the College of Education EC-6 Teacher Preparation Program.

EDCI 3334 Teaching Language Arts and Social Studies in the Elementary School [3-0]
fall, spring, summer
This field-based course focuses on the current research and practice of teaching and assessment of language arts and social studies in the elementary school curriculum for culturally and linguistically-diverse populations, including student with exceptionalities. The use of several pedagogical approaches (direct, indirect, and cooperative) in conjunction with lesson planning and questioning techniques will be discussed within the context of these content areas. Additionally, students will be provided with learning opportunities to facilitate their conceptual understanding of the language arts and social studies curricula, especially within the context of the state mandated curriculum and its connections to Texas’ statewide accountability system. Prerequisites: Admission to the College of Education EC-6 Teacher Preparation Program.

EDCI 3335 Teaching Science and Mathematics in the Elementary School [3-0]
fall, spring, summer
This course focuses on the current research and practice of teaching and assessment of science and mathematics in the elementary school curriculum for culturally and linguistically-diverse populations, including students with exceptionalities. The use of several pedagogical approaches (direct, indirect, and cooperative) in conjunction with lesson planning and questioning techniques will be discussed within the context of these content areas. Additionally, students will be provided with learning opportunities to facilitate their conceptual understanding of the language arts and social studies curricula, especially within the context of the state mandated curriculum and its connections to Texas’ statewide accountability system. Prerequisites: Admission to the College of Education EC-6 Teacher Preparation Program.

EDCI 4302 Educational Psychology [3-0-11/2]
fall, spring, summer
In this course, the prospective teacher will examine the development of children, with emphasis on the development of students in middle and secondary school. The importance of understanding and demonstrating how to work with diverse groups of learners will be stressed (e.g., SES, exceptionalities, race, ethnicity, gender equity, language), and students will be involved in field-based experiences in
the schools and/or the community. The importance of the interrelationship between students, educators, parents and the community will be stressed.

EDCI 4305 Instructional Technology and Curriculum Development [3-0-1]
fall, spring
This course will present principles of curriculum organization, planning and technology applications that provide relevant and meaningful learning experiences for all students. The infusion of instructional technology across content areas will be emphasized.

EDCI 4306 Instructional Methods and Classroom Management [3-0-2]
fall, spring
This course focuses on instructional methods that emphasize practical applications of a learner-centered curriculum and classroom organization and management. Teaching strategies for delivering learner-centered instruction will be stressed. (Field-Based Approved Course.)

EDCI 4310 Directed Teaching ó ESL: Internship II [3-0-15]
fall, spring
(Student must also be enrolled in EDCI 4311-elementary or EDCI 4398-secondary.)
This course must be taken by all undergraduate student teachers working toward an English as a Second Language endorsement for teaching in ESL programs. Course requires observation and teaching experiences in a public school ESL classroom for one-half day, Monday through Friday, for half a semester. This work is done under the direction of a fully certified teacher of the class to which the student is assigned. Periodic observations and evaluations will be done by the course instructor. Weekly seminars and individual conferences are a required part of the course. Prerequisite: Approval by the UT Pan American Teacher Education Committee. Elementary Prerequisites: EDCI 3305 and EDCI 4306. High school Prerequisites: EDCI 4301, EDCI 4302, EDCI 4307, EDCI 4308 and READ 4351.

EDCI 4316 Principles of Teaching Workshop for Elementary/Secondary Teachers Advanced [3-0]
as scheduled
A workshop course designed for the person entering the teaching profession to study classroom management and to give the student the opportunity to develop instructional skills needed in the area of the instructional assignment. Prerequisites: Special permission must be given to each participant before enrollment in the course.

EDCI 4390 Development and Learning [3-0]
as scheduled
This course focuses on the cognitive and affective development of children in early childhood through fourth grade (EC-4) education. The emphasis of this course is on using research and trends on the cognitive and emotional development of children to establish a positive and challenging learning environment. The course will also provide a better understanding of the different factors that impact the teaching and learning process. This course requires a minimum of 25 hours in the public school setting.

EDCI 4398 Integrated Internship II (Seminar-Elementary EC-6) [3-0]
fall, spring
A seminar format facilitates the intern's integration of the supervised internship experience and the program's professional curriculum for elementary (EC-6) teacher certification. Emphasis is placed on linking classroom learning with practice in the field and integrating theory with professional practice. Internship situations and experiences will be used for discussion and analysis. This course must be taken concurrently with EDCI 4399.

EDCI 4399 Supervised Internship II EC-6 [3-0]
fall, spring
This course is designed for students seeking elementary (EC-6) teacher certification. Intern will be placed in a state-accredited public school all day under the guidance of an experienced classroom teacher (mentor) and a university supervisor for a minimum of 12 weeks. This course must be taken concurrently with EDCI 4398.

Early Childhood

EDEC 4314 Dynamics of Play & Play Environments in Childhood (PK-6) [3-0-11/2]
fall, spring, summer I
This course provides an overview of play theories as they apply to the total development of the child. Examines the art and science of critical thinking, including analysis, synthesis, and evaluation in the fields of play, play theories, and outdoor environments through a variety of pedagogies. Special attention is given to organized play experiences through arranging and scheduling developmentally appropriate learning centers for children in the public school setting. Field experiences may be required. Prerequisites: Admission to the COE Teacher Preparation Program.

EDEC 4391 Foundations of Early Childhood Education [3-0-11/2]
fall, spring, summer
This course addresses the theory of education of young children, issues and trends in early childhood education, including changing beliefs regarding pre-kindergarten and kindergarten programs, and relevant state and federal mandates regarding programs for young children. Field experiences may be required. Prerequisites: Admission to the COE Teacher Preparation Program.
EDEC 4392  Guidance of Young Children  [3-0-2]  as scheduled  
This course examines theoretical approaches to guidance practices appropriate to early childhood settings pre-kindergarten through third grade. Age-appropriate intervention strategies, observation techniques, and group management skills will be studied. Emphasis is on the positive development of a child’s self esteem and positive communications with families. Field experiences may be required. Prerequisites: Admission to the COE Teacher Preparation Program.

EDEC 4393  Cross-Cultural Perspectives in Elementary School Settings  [3-0-2]  fall, spring (and summer for endorsement only)  
This course develops awareness of cultural and ethnic issues as they relate to the early childhood and elementary classroom. It addresses the contributions of diverse cultures within the society of the United States. Students will examine and analyze racism, sexism, ageism, and ability levels with the schools and the community. It also focuses on diversity among groups of people and individuals based on ethnicity, socioeconomic status, family structure, exceptionalities, language, religion, sexual orientation, and geographical area. Field experiences may be required. Prerequisites: Admission to the COE Teacher Preparation Program.

EDEC 4394  Principles of Curriculum Design In Early Childhood (Pk-3)  [3-0-2]  fall, spring (and summer for endorsement only)  
This course combines a theoretical and experiential investigation of curriculum for children from birth through 8 years, with primary emphasis on prekindergarten through elementary grades. Curriculum planning and implementation; overview of research and theory related to teaching and learning of specific content areas with an emphasis on integrated approaches to early childhood curriculum will be addressed. Field experiences may be required. Prerequisites: Admission to the COE Teacher Preparation Program.

High School 8-12

EDHS 3305  Instructional Methods for English Language Learners and Learners with Exceptionalities in High School  [3-0]  as scheduled  
Designed for prospective high school teachers, this field-based course explores contemporary first and second language acquisition theories and theories of instruction as they relate to the special needs of English language learners (ELLs) and learners with exceptionalities in content-area classrooms in high schools. Students will have the opportunity to learn to assess the special needs of students whose first language is not English and students who have exceptionalities (i.e., mild learning disabilities). They will also have the opportunity to learn to integrate research-based best practices for promoting literacy and language development in their teaching.

EDHS 4301  Foundations of Education  [3-0]  as scheduled  
This course is designed for the student who is preparing to teach in high school (8-12 level). Students will investigate the teaching profession as it relates to social, political and economic forces in a global society. The historical and philosophical systems that have influenced contemporary schools will be studied. Research, issues and trends in these areas will be examined through both classroom instruction and field-based experiences in high schools. Ethics and personal integrity will be examined within the context of ethical and legal standards for teachers. Instructional use of technology is emphasized. This course requires a minimum of 25 hours in the public school setting.

EDHS 4302  Instructional Planning and Assessment in the High School Classroom  [3-0]  as scheduled  
Prepares students who plan to teach at the high school level (grades 8-12). This course addresses human development processes, social and cognitive theories of development, current learning theories, adolescent development, and other factors that impact student learning and provides support for instructional planning and assessments in the classroom including instructional technology. Consideration is given to cultural, socioeconomic, and individual differences among learners in secondary classrooms. Prerequisites: Admission to the COE Teacher Preparation Program.

EDHS 4303  Curriculum Planning, Instructional Strategies, and Classroom Management  [3-0]  as scheduled  
Designed for the student who is preparing to teach at the high school level (grades 8-12). A major focus of this course is on establishing a positive learning environment for all students. The prospective teacher will examine different curriculum models, instructional technologies, a variety of teaching styles, and theories and strategies of classroom management from both a theoretical and practical perspective. Integration of the student’s content areas, techniques on establishing and maintaining a positive relationship with parents, and strategies to incorporate the community culture will be addressed. This course requires admission to the COE Teacher Education Program and a minimum of 30 field hours in a public school setting. Prerequisites: Admission to the COE Teacher Preparation Program.
as scheduled
Facilitates the intern’s integration of the supervised internship experience and the professional curriculum for Texas high school teacher certification. Emphasis is placed on linking theory with professional practice. Students’ internship situations and experiences will be used for discussion and analysis. Topics vary and may include attention to school-community relations, students’ special needs, curriculum development, teaching strategies, certification requirements, and integration of technology. Prerequisites: Admission to the COE Teacher Preparation Program. This course must be taken concurrently with EDHS 4399.

EDMS 3354 Middle School Curriculum Development and Assessment [3-0]
as scheduled
This course examines major concepts, principles, theories and research related to middle school curriculum development, including how the middle level curriculum should be relevant, challenging, integrative and exploratory. It focuses on the interdisciplinary nature of knowledge making connections among subject areas when planning curriculum. It also addresses how to incorporate all young adolescents’ ideas, interests and experiences into the curriculum, and how to implement a variety of developmentally responsive assessment measures (e.g., portfolios, authentic assessments, student self-evaluation). This course also describes the role of assessment in guiding instructional planning and the importance of creating assessments that are congruent with instructional goals and objectives. Specifically, it will address formal and informal assessment strategies used (advantages and limitations) to evaluate learning and teaching that ensure the continuous intellectual, social and physical development of all young adolescents. Finally, the course also focuses on the connection between the Texas statewide assessment programs, the TEKS, instruction and illustrates examples on how to use common statistical measures to analyze assessment data and maintain useful records to communicate such information knowledgeably. Prerequisites: Admission to the College of Education.
resources and integration strategies for several different content areas. Also, course focuses on practical applications of a learner-centered curriculum, classroom organization and management. This course requires field experiences. Prerequisites: Admission to the College of Education.

EDMS 4398 Integrated Internship II: Seminar-Middle School [3-0]
as scheduled
A seminar format facilitates the intern's integration of the supervised internship experience and the program's professional curriculum for middle school teacher certification. Emphasis is placed on linking classroom learning with practice in the field and integrating theory with professional practice. Internship situations and experiences will be used for discussion and analysis. This course must be taken concurrently with EDMS 4399.

EDMS 4399 Supervised Internship II: Middle School [3-0]
as scheduled
This course is designed for students seeking middle school teacher certification. Intern will be placed in a state-accredited public school all day under the guidance of an experienced classroom teacher (mentor) and a university supervisor for a minimum of 12 weeks. This course must be taken concurrently with EDMS 4398. (Field-Based Approved Course.)

Electrical Engineering

ELEE 1101 Introduction to Electrical Engineering [0-3]
fall, spring
Introduction to electrical engineering as a career, fundamentals of analysis and graphical presentation of data using software tools, approaches to problem solving, and a basic design project.

ELEE 2120 Electrical Circuits I Laboratory [0-3]
fall, spring, summer
This course covers fundamental circuit measurement techniques and reinforces concepts from ELEE 2320, Electrical Circuits I. Topics include basic instrumentation; measurement of voltage, current, resistance, power, frequency and phase; analysis of experimental data; and reporting of technical results. Prerequisites: Credit or registration for ELEE 2320. Equivalent Course: CMPE 2120. A student may not receive credit for both CMPE 2120 and ELEE 2120.

ELEE 2130 Digital Systems Engineering I Laboratory [0-3]
fall, spring, summer
Basics of digital logic and hardware combinational circuits, flip-flops, resistors, sequential circuits and state machines. Co-requisite: Credit or registration for ELEE 2330. Equivalent Course: CMPE 2130. A student may not receive credit for both CMPE 2130 and ELEE 2130.

ELEE 2319 Numerical Computation and Data Visualization [2-3]
Topics in this course include performing engineering numeric calculations using computation tools, introduction to mathematics software languages, writing programs to solve scalar and multivariable problems using matrix algebra, numerical solution of linear equations, relational and logical operators, and plotting and visualization of data. Prerequisites: CSCI 1380 and MATH 2346, both with a grade of C or better.

ELEE 2320 Electrical Circuits I [3-0]
(Texas Common Course Number is ELEE 2305.)
fall, spring
This course covers fundamentals of electrical circuits, including basic definitions, Kirchoff's laws, nodal and loop analysis, superposition, Thevenin and Norton equivalents, time-varying circuits, simple transient response, sinusoidal steady-state analysis using phasors and power in sinusoidal steady-state circuits. Equivalent Course: CMPE 2320. A student may not receive credit for both CMPE 2320 and ELEE 2320. Prerequisites: Credit for MATH 1470, credit or registration for PHYS 2402.

ELEE 2321 Signals and Systems [3-0]
fall, spring
Response of LTI networks by Fourier and Laplace transform methods, frequency-domain techniques and time-domain techniques, discrete signal representation and z-transforms. Prerequisites: ELEE 2320 and credit for or enrollment in MATH 3349.

ELEE 2330 Digital Systems Engineering I [3-0]
fall, spring, summer
Boolean algebra; analysis and synthesis of combinational and sequential switching network; applications to computer design. Co-requisite: Credit or registration in MATH 1460 is recommended but not required. Equivalent Course: CMPE 2330. A student may not receive credit for both CMPE 2330 and ELEE 2330.

ELEE 2420 Electrical Circuits I [3-3]
fall, spring
Basic network principles, steady-state response to signals, simple transient response, and nodal and loop analysis. Prerequisites: Credit for or concurrent enrollment in MATH 2401.
ELEE 3100 Projects in Electrical Engineering [3-0] Special projects, research activities or supervised engineering studies. May be repeated for credit. Prerequisites: Consent of instructor.

ELEE 3225 Electrical Engineering Laboratory I [0-6] fall, spring This course covers basic measurement and instrumentation techniques, limitations of theoretical models, design of basic analog and digital circuits, and reporting of technical results. Prerequisites: Credit for ELEE 2330 and ELEE 2130 with a grade of C or better, credit or registration for ELEE 2319, ELEE 2321 and ELEE 3301.

ELEE 3301 Electronics I [3-0] fall A course in the physical principles of electronic devices with emphasis on semiconductor electronics. Includes the analysis and design of electronic circuits such as rectifiers, amplifiers and switching circuits using diodes, bipolar transistors, field effect transistors and operational amplifiers. Prerequisites: ELEE 2420 with a grade of C or better, credit for or enrollment in ELEE 2321.

ELEE 3302 Electronics II [3-0] spring Provides further study in electronic circuits. Includes analysis and design of differential and multistage amplifiers, feedback and frequency response techniques in amplifier design. Prerequisites: ELEE 2321 and ELEE 3301 with a grade of C or better.

ELEE 3305 Electrical Systems [2-3] fall, spring Introduction to electric circuits and machines. Circuit elements; voltage, current and power; DC circuits; AC circuits in the steady state; elementary circuits; polyphase circuits. Types and characteristics of DC motors, AC motors and transformers. This course may not be counted toward the Bachelor of Science in electrical engineering degree. Prerequisites for engineering majors: MATH 1402 and PHYS 2302. Prerequisites for other majors: MATH 1402 and PHYS 1402.

ELEE 3306 Electronic Systems [2-3] spring Electronic devices and circuits with applications in modern industrial control systems; electronic circuits for signal processing and wave shaping and analog computing; basic digital computer circuits; transducers and sensors; electronic instruments; measurements; basic feedback control systems. Prerequisites: ELEE 3305.

ELEE 3307 Electrical and Electronic Systems [2-3] fall, spring, summer II An introductory survey of electrical engineering topics including principles of DC and AC circuits; electric motor types and characteristics; basic operation of diodes, transistors, and operational amplifiers; logic circuits; and electrical measurements. This course is intended for non-majors and may not be counted for credit toward a degree in electrical engineering. Prerequisites: PHYS 2402.

ELEE 3315 Electromagnetic Engineering [3-0] fall Introduction to electrostatics and magnetostatics; properties of conductive, dielectric, and magnetic materials; time varying-fields; Maxwell’s equations; transmission lines and transmission line circuits; fundamentals of electromagnetic radiation. Prerequisites: ELEE 2320 and MATH 2401, and PHYS 2402.

ELEE 3330 Electrical Engineering Laboratory II [1-6] spring Experimental solution of engineering problems, including design, optimization, evaluation and simulation; advanced measurement techniques in electrical, electronic and digital systems. Prerequisites: ELEE 3301 and ELEE 3225 with a grade of C or better; credit for or enrollment in ELEE 3302.

ELEE 3340 Probability and Statistics for Electrical Engineers [3-0] fall, spring, summer Probability, random variables, distribution and density functions, statistical estimators, correlation, regression techniques, system response to random inputs. Prerequisites: ELEE 2321 or CMPE 2322. Equivalent Course: CMPE 3342. A student may not receive credit for both ELEE 3340 and CMPE 3342.

ELEE 3371 Electrical Power Systems Design and Application [3-0] spring This course covers practical design of electrical power and lighting distribution for commercial, industrial and residential buildings, based on National Electrical Code (NEC) standards. The NEC, regulatory considerations, industry standards and the Texas Engineering Practice Act are discussed. Current commercial, industrial and residential projects are analyzed, and students will have the opportunity to complete designs for sample residential and office buildings. Prerequisites: ELEE 2420 or ELEE 3305.

ELEE 3435 Microprocessor Systems [3-3] fall, spring, summer Basic microprocessor programming and principles of assembly language programming; microprocessor organization and interfacing; applications, including data acquisition, control and communication. Prerequisites: CSCI 1380 and ELEE 2330. Equivalent Course: CMPE 3437. A student may not receive credit for both ELEE 3435 and CMPE 3437.

ELEE 4303 Digital Systems Engineering II [3-0] fall, spring, summer Hardware implementation of arithmetic and other algorithmic processes; organization, design and simulation
of digital systems; asynchronous sequential switching networks. Prerequisites: ELEE 2330. Equivalent Course: CMPE 4303. A student may not receive credit for both CMPE 4303 and ELEE 4303.

ELEE 4321 Automatic Control Systems [3-0] fall
Dynamic system modeling; system stability; time-domain analysis; root-locus technique; frequency-domain analysis; control system design. Prerequisites: ELEE 2321 and MATH 3349 with a grade of C or better.

ELEE 4323 Rapid Control Prototyping [2-3] as scheduled
This course introduces students to the design and implementation of control software using rapid control prototyping technology. The course discusses the requirements for real-time control of systems, and focuses on the methodology of computer-aided software development for real-time control and hardware interfacing using data acquisition systems. Students will acquire skills, through laboratory activities, in the use of an integrated environment for designing, simulating, and real-time testing of control strategies on a number of physical systems. Examples of laboratory projects include: temperature control, motor position control, motor speed control, and trajectory tracking of an industrial robot manipulator. Prerequisites: Junior standing in Electrical Engineering.

ELEE 4325 Introduction to Robotics [2-3] spring
This course uses a system engineering approach to introduce students to robotic science and technology. Topics include the fundamentals of robot manipulators, sensors, actuators, effectors, Denavit-Hartenberg parameterization of robot kinematics, motion planning in the joint space and in the Cartesian space, and programming of manipulators. The laboratory will provide experiences with computer simulation and animation of robot manipulators, and developing and testing motion and manipulation applications on an actual six degree-of-freedom (6DOF) robot arm. Prerequisites: ELEE 2319 and ELEE 3225.

ELEE 4328 Solid State Electronic Devices [3-0] fall
Semiconductor materials and carrier transport; p-n junctions and Schottky barriers; bipolar and field effect transistors; integrated circuits. Prerequisites: CHEM 1301, CHEM 1101, ELEE 3315 and ELEE 3301 with a grade of C or better.

ELEE 4351 Communication Theory [3-0] fall
Signals, systems and analog modulation techniques; effects of noise in modulation systems, signal-to-noise ratio; digital data transmission; probability of error. Prerequisites: ELEE 3340 with a grade of C or better.

ELEE 4360 Microwave Systems Engineering [2-3] as scheduled
Ideal and lossy transmission lines; s-parameters; couplers, isolators, circulators and filters; basic active circuits; systems and component specifications; antenna and radiation specifications. Prerequisites: ELEE 3315 and ELEE 3301 with a grade of C or better.

ELEE 4361 Senior Design Project I [0-9] fall, spring
This is the first semester of a capstone design experience, drawing from previous engineering, science, and general education coursework. The first semester includes project selection, definition, and specification; background research; periodic written and oral reports; and preparation of a detailed proposal including a preliminary design. Prerequisites: ELEE 3330, ELEE 3435, and credit for or enrollment in at least 9 hours of 4000-level electrical engineering coursework.

ELEE 4362 Senior Design Project II [0-9] fall, spring
This is the second semester of a capstone design experience, drawing from previous engineering, science, and general education coursework. The second semester includes preliminary test and evaluation, design optimization and revision, and final test and evaluation. Periodic written and oral reports, and a final demonstration of a working project are required. Prerequisites: ELEE 4361.

ELEE 4365 Digital Signal Processing [3-0] fall, spring, summer
Sampling theory, discrete processing of analog signals, discrete Fourier transforms, signal analysis, z-transforms, digital filter design, real-time digital signal processing and applications. Prerequisites: ELEE 2321 or CMPE 2322 and credit for or concurrent enrollment in MATH 3349. Equivalent Course: CMPE 4365. A student may not receive credit for both ELEE 4365 and CMPE 4365.

ELEE 4366 Introduction to Image Processing [3-0] fall, spring, summer
This course provides an introduction to image processing topics and design of image processing software. It covers methods for computer analysis of images, and processing of images including image formation, spatial resolution, preprocessing techniques, image filtering, image enhancement and image segmentation methods. Prerequisites: ELEE 2319 or equivalent. Equivalent Course: CMPE 4366. A student may not receive credit for both CMPE 4366 and ELEE 4366.

ELEE 4367 Fiber Optic Communications [2-3] fall, spring, summer
Introduction to optics, photonics, and optoelectronics; fiber optic devices; and communication systems. Topics include ray optics, electromagnetic optics, resonator optics, dielectric waveguides and filters, semiconductor and laser light sources and detectors, modulators, amplifiers, connectors and optical
The University of Texas-Pan American

Index

ELEE 4372 Electrical Machinery and Power Systems Fundamentals [3-0]
as scheduled
This course covers principles of electrical machines & power systems; including AC and DC rotating machinery and transformers, with emphasis on their losses and energy conversion characteristics. It includes basic modeling of power systems components, using traditional analytical tools of electrical engineering. Laboratory projects are included outside of scheduled class hours. Prerequisites: PHYS 2402 and ELEE 2320.

ELEE 4373 Renewable Energy [3-0]
as scheduled
This course covers principles of electric generation focusing on (a) the efficient utilization of electric energy, and (b) renewable energy sources. The course concentrates on the study of wind energy and solar photovoltaics. It covers the analytical methods used to evaluate the available resources, and the technologies used today to integrate distributed generation to electric grids and energy storage systems. Laboratory projects and simulations are included. Performance evaluation of campus photovoltaic resources will be included. Prerequisites: One of the following: ELEE 2320, CMPE 2320, or ELEE 3307.

ELEE 4375 Introduction to VLSI [3-0]
fall, spring, summer
This course provides an introduction to the area of CMOS VLSI design and design of VLSI circuits, including CMOS logic circuits, integrated circuit layout and design tools and overview of integrated circuit fabrication. Prerequisites: ELEE 2330 and ELEE 3301. Equivalent Course: CMPE 4375. A student may not receive credit for both CMPE 4375 and ELEE 4375.

ELEE 4378 Signal Integrity and Electromagnetic Compatibility [3-0]
fall, spring, summer
Distortion of digital signals analyzed via lumped element and transmission line models, power distribution in electronic systems, printed circuit layout guidelines, basic electromagnetic principles as applied to shielding and grounding, EMI regulations. Prerequisites: ELEE 2321 or CMPE 2322. Equivalent Course: CMPE 4378. A student may not receive credit for both ELEE 4378 and CMPE 4378.

ELEE 4380 Computer Architecture [3-0]
fall, spring, summer
This course presents an overview of digital computer architecture, including architectural issues for processors, instruction sets, microprogramming, memory hierarchy and interleaving, cache and virtual memory mapping, RISC principles, and principles of pipelining and pipeline hazards, as well as input/output devices. Prerequisites: One of the following: ELEE 3435 or CMPE 3437. Equivalent Course: CMPE 4380. A student may receive credit for only one of the following: CMPE 4380, ELEE 4380, CSCI 4335, CMPE 4335.

ELEE 4390 Communication Networks [3-0]
fall, spring, summer
This course covers engineering principles of data communications, including the following topics: communication media and signal encoding schemes, point-to-point communication standards, layering concepts, data-link protocols, network protocols, transport layer protocols, error control, flow control, congestion control, routing algorithms, virtual circuits, call setup procedure, TCP/IP protocol, internetworking, switching and switching fabric, frame relays, ATM and emerging technologies. Prerequisites: ELEE 3435 or junior standing. Equivalent Course: CMPE 4390. A student may not receive credit for both CMPE 4390 and ELEE 4390.

ELEE 4461 Senior Design Project I [1-9]
as scheduled
This is the first semester of a capstone design experience, drawing from previous engineering, science and general education coursework. Activities will include project selection, definition and specification; background research; periodic written and oral reports, and preparation of a detailed proposal including a preliminary design. Prerequisites: ELEE 3330, 3435, and credit for or enrollment in at least nine hours of 4000-level electrical engineering coursework.

ELEE 4462 Senior Design Project II [1-9]
as scheduled
This is the second semester of a capstone design experience, drawing from previous engineering, science and general education coursework. Activities include preliminary test and evaluation, design optimization and revision, and final test and evaluation. Periodic written and oral reports, and final demonstration of a working project are required. Prerequisites: ELEE 4461.

Mathematics - Foundations

EMAT 2306 Foundations of Mathematics I [3-0]
as scheduled
Students will have the opportunity to study the mathematical background of meaningful learning of number concepts, precise definitions, fundamental operations and problem-solving mathematics. The structure of the real number system is developed through the use of elementary logic and set theory. Prerequisites: MATH 1340 with grade of C or better.
EMAT 2307  Foundations of Mathematics II  [3-0] as scheduled
This course is a continuation of EMAT 2306. Topics include measurement, geometry, probability and statistics, elementary algebra and problem solving. Prerequisites: MATH 1340 and EMAT 2306, both with grade of C or better.

EMAT 3308  Foundation of Mathematics III - Elementary  [3-0] as scheduled
This course advances knowledge and skills from EMAT 2306 and EMAT 2307 and involves analyses of elementary mathematical structures, their construction, and synchronous mappings into multiple embodiments (e.g., symbolic, situational, technological, geometric, and others). Clinical, laboratory and field experiences provide opportunities to construct and assess selected structures according to established theories. Prerequisites: EMAT 2306 with a grade of C or better and EMAT 2307 with a grade of C or better.

English

ENG 1301  Rhetoric & Composition I  [3-0] (Texas Common Course Number is ENGL 1301) as scheduled
English 1301 is designed to help students become more effective and confident writers as well as more active and engaged readers of complex texts. To do this, students will engage in a variety of writing projects which will help them become more reflective writers who are better able to revise their work to meet the needs of a given writing situation. (Credit for this course may be obtained by qualified students through advanced placement or advanced standing examinations.) Prerequisites: Satisfactory scores on English portion of ACT test and THEA examination or ENG 1320.

ENG 1302  Rhetoric and Composition II  [3-0] (Texas Common Course Number is ENGL 1302) as scheduled
English 1302 is designed to teach students how to initiate inquiry, engage in meaningful research, and produce effective researched arguments. To do this, students will get experience with primary and secondary research methods, engage in a variety of writing projects, and create at least one major research project. (Credit for this course may be obtained by qualified students through advanced placement or advanced standing examinations.) Prerequisites: A grade of C or better in ENG 1301 or ENGL 1307.

ENG 1310  Reading-Vocabulary  [3-0] as scheduled
This course offers students the opportunity to develop their ability to read college-level materials. Emphasis on vocabulary and word recognition skills, comprehension skills, study skills and efficiency in content area reading. Required of students with reading skills below college level. Course does not satisfy University core curriculum requirements.

ENG 1320  Basic Writing  [3-0] as scheduled
Intensive study and practice in basic grammar and fundamentals of composition. Emphasis on punctuation, sentence combining, sentence construction, correct language use and other basic writing skills. Does not count toward hours for graduation or in the computation of hours attempted or earned. A course grade will be recorded as Pass (P) or No Pass (NP). (There will be special sections for foreign-born students. A minimum score of 500 on TOEFL or minimum score of 60 on MTEL is required for entrance.)

ENG 1387  Rhetoric and Composition (Honors Plan)  [3-0] as scheduled
Study and practice of writing effectively, with emphasis on expository writing and the research paper. Prerequisites: Admission to the Honors Studies Program or by invitation.

ENG 1388  Rhetoric and Literature (Honors Plan)  [3-0] as scheduled
Study and practice of writing effectively/interpreting literature. Emphasis on critical analysis of essays, fiction and poetry. Prerequisites: ENGL 1387 or by invitation.

ENG 2300  Introduction to Literature  [3-0] (Texas Common Course Number is ENGL 2341.) as scheduled
An introduction to literary genres, with special emphasis on the short story, novel or novella, drama and poetry. Requires careful reading and the writing of critical essays about individual works. Prerequisites: Minimum grade of C in six hours of required freshman English.

ENG 2303  Introduction to American Literature  [3-0] (Texas Common Course Number is ENGL 2326.) as scheduled
Emphasis on critical methods of reading, writing and thinking; at least three genres and three authors considered. Prerequisites: Minimum grade of C in six hours of required freshman English.

ENG 2305  Introduction to British Literature  [3-0] (Texas Common Course Number is ENGL 2321.) as scheduled
Emphasis on critical methods of reading, writing and thinking; at least three genres and three authors considered. Prerequisites: Minimum grade of C in six hours of required freshman English.

ENG 2307  Introduction to World Literature  [3-0] (Texas Common Course Number is ENGL 2331.) as scheduled
Emphasis on critical methods of reading, writing and thinking; at least three genres and three authors considered.
Index

Prerequisites: Minimum grade C in six hours of required freshman English.

ENG 2308  Readings in Special Topics [3-0]
as scheduled
A study of the literature associated with a special group, area, movement or technique. The topic to vary with each section. Special topics to be announced in the class schedule. Credit Restriction: May be taken only once to satisfy University core curriculum requirements but may be repeated for elective credit when the topic varies. Prerequisites: Minimum grade of C in six hours of required freshman English.

ENG 2313  Readings in Dramatic Literature [3-0]
as scheduled
Critical review and analysis of selected plays from Greek antiquity to the present time. Designed to clarify the nature and major achievements of Western dramatic art. Equivalent Course: COMM 2313 may be counted as a English or communication course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: Admission to Honors Studies or by invitation.

ENG 2387  Readings in World Literature (Honors Plan) [3-0]
as scheduled
A study of selected works from the literature of Greece, Rome and Medieval Europe. Prerequisites: Admission to Honors Studies or by invitation.

ENG 2388  Readings in World Literature (Honors Plan) [3-0]
as scheduled
A study of selected works of Western literature from Renaissance through modern writers. Prerequisites: Admission to Honors Studies or by invitation.

ENG 3300  Introduction to Language Studies [3-0]
as scheduled
Provides an overview of the cross-disciplinary nature of language issues from the theoretical contexts of linguistics to political interactions among languages in contact, to applications of language study for various disciplines including education, psychology, sociology, acquisition, learning, literacy, law, medicine, computer technology, etc. Prerequisites: Nine hours of English.

ENG 3301  Medieval Literature [3-0]
as scheduled
A study of various types of medieval literature including the epic, the romance and the allegory, with special attention to Middle English writers. Prerequisites: Nine hours of English.

ENG 3304  The Eighteenth Century [3-0]
as scheduled
A study of the major works of English writers of the Neo-classical period, including Dryden, Congreve, Pope, Swift, Sterne and Samuel Johnson. Prerequisites: Nine hours of English.

ENG 3305  The Romantic Period [3-0]
as scheduled
A study of the development of romanticism in France, Germany and England, with the main emphasis on English writers. Prerequisites: Nine hours of English.

ENG 3306  The English Novel to 1850 [3-0]
as scheduled
A study of the origins and development of the English novel with emphasis on the major novelists. Prerequisites: Nine hours of English.

ENG 3307  The English Novel from 1850 to Present [3-0]
as scheduled
A study of the continuing development and techniques of the English novel with emphasis on the major novelists. Prerequisites: Nine hours of English.

ENG 3309  Development of the American Novel [3-0]
as scheduled
A study of the American novel from its beginnings to the present with emphasis on the major novelists. Prerequisites: Nine hours of English.

ENG 3310  Twentieth Century English and American Poetry [3-0]
as scheduled
A study of the trends and movements in contemporary poetry, with emphasis on the works of the major writers. Prerequisites: Nine hours of English.

ENG 3311  Contemporary Drama [3-0]
as scheduled
A study of trends and movements in 20th century American, British and European drama, with emphasis on works of major playwrights. Equivalent Course: COMM 3311 may be counted as a English or communication course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: Nine hours of English.

ENG 3312  Survey of American Literature [3-0]
as scheduled
A chronological study of the principal authors, works and trends in American literature from the colonial period through the Civil War. Prerequisites: Nine hours of English.

ENG 3313  Survey of American Literature [3-0]
as scheduled
A chronological study of the principal authors, works and trends in American literature from the Civil War to the present. Prerequisites: Nine hours of English.
ENG 3314 Hemingway
as scheduled
A study of Hemingway's novels and short stories, especially those about Spain and Cuba. Prerequisites: Nine hours of English.

ENG 3315 Introduction to Film Studies [3-0]
as scheduled
An introduction to the study of film as a particular literary genre with special emphasis on fictional film, technical film analysis and cinematic interpretation. Equivalent Course: FILM 3315 may be counted as a English or Film course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

ENG 3316 Literature and Film Adaptation [3-0]
as scheduled
A study of film adaptations of literary works with a special focus on the different types of adaptations, the levels of fidelity, and the historical and technical differences between the two artistic media. Equivalent Course: FILM 3316 may be counted as a English or Film Studies course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

ENG 3317 The Short Story and the Novella [3-0]
as scheduled
A study of the development and technique of the short story and novella with emphasis on literary analysis. Prerequisites: Nine hours of English.

ENG 3319 Introduction to Descriptive Linguistics [3-0]
as scheduled
An introduction to the methods of linguistic science with emphasis on problem-solving techniques and their application to specific problems. Prerequisites: Nine hours of English.

ENG 3320 Advanced Topics in English [3-0]
as scheduled
A course adapted to the study of advanced special topics in English. Course may be offered for open enrollment when topic is selected by the instructor, or course may be conducted as independent/conference study when topic is selected by student and approved by the instructor. May be repeated for credit when topics vary. Prerequisites: Nine hours of English.

ENG 3321 Language and Culture [3-0]
as scheduled
Systematic exploration of social aspects of language and language use, including language attitudes, sociolinguistic dynamics of language contact situations, language learning, and the social and linguistic nature of dialects, language variation and language change. Prerequisites: Nine hours of English.

ENG 3322 Poetry [3-0]
as scheduled
An in-depth study of the art and nature of poetry, with emphasis on sounds, forms, language and modes of poetry. Prerequisites: Nine hours of English.

ENG 3323 World Drama [3-0]
as scheduled
A study of trends and movements in dramatic literature from ancient Greece through the present. Emphasis on the works of major playwrights. Equivalent Course: COMM 3323 may be counted as a English or communication course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: Nine hours of English.

ENG 3324 The Victorian Period [3-0]
as scheduled
A study of the literature of Victorian England, from 1832 to the end of the 19th century. Prerequisites: Nine hours of English.

ENG 3325 Children's/Adolescent Literature [3-0]
as scheduled
A study of selected children's and adolescent literary works. Discussion and demonstration of pedagogical strategies. Emphasis on important representative examples and related criticism. Prerequisites: Nine hours of English.

ENG 3326 Writing and Culture [3-0]
as scheduled
Course provides students the opportunity to analyze and explore the complex ways in which culture shapes and is shaped by writing and other forms of textual representation. Prerequisites: Nine hours of English.

ENG 3330 English Grammar [3-0]
as scheduled
A study of grammatical concepts with concentration on basic sentence structure, principles of punctuation and functional grammar. Course designed for, but not limited to, prospective teachers of students with limited English speaking/writing ability and/or ESL students. Prerequisite: Nine hours of English.

ENG 3331 Survey of English Literature [3-0]
as scheduled
A chronological study of the principle authors, works and trends in English literature from the Anglo-Saxon period to the beginning of the Romantic movement. Prerequisites: Nine hours of English.

ENG 3332 Survey of English Literature [3-0]
as scheduled
A chronological study of the principle authors, works and trends in English literature from pre-Romantic poetry to the 20th century. Prerequisites: Nine hours of English.

<tr>
<td></td>
<td>Both feminism and women's writing in Latin America has grown out of unique histories, social conditions, and geographical diversity constituting a thinking rooted in Marxism, socialism, and grassroots movements. This course will discuss a number of literary texts by Latin American women as well as some films and historical and theoretical essays. The course is designed to explore how Latin American women's literature and feminism (generally marginalized by Women's Studies courses in the U.S.) challenges the tradition of women's literature and Feminisms in the West and makes us rethink the approaches to gender prioritized in the U.S. Prerequisites: Nine hours of English.</td>

</tbody>
</table>
ENG 4302 Modern English Syntax [3-0]  
as scheduled  
Studies in modern English syntax with attention given to investigative methods and findings of contemporary linguistic analysis. Prerequisites: ENG 3319.

ENG 4304 Introduction to Cultural Studies [3-0]  
as scheduled  
Historical and textual study of the discipline of cultural studies, with emphasis on major figures and schools in cultural studies and their relation to textural analysis. Prerequisites: Nine hours of English.

ENG 4305 Survey of Literary Theory [3-0]  
as scheduled  
Introduces students to the general principles of literary theory and provides opportunities for practical application of theoretical models to literary texts. Prerequisites: Nine hours of English.

ENG 4306 Applied Literary Theory [3-0]  
as scheduled  
Practical application of theoretical models to literary texts. Particular focus on major figures, schools and movements in contemporary literary theory. Prerequisites: ENG 4305.

ENG 4307 Applied Discourse Studies [3-0]  
as scheduled  
Offers students experience in the practice and methods of rhetorical and discourse analysis applied to specific topics by the instructor. Prerequisites: Nine hours of English.

ENG 4308 History of the English Language [3-0]  
as scheduled  
A history of the English language from the Anglo-Saxon period to the present. Prerequisites: Nine hours of English.

ENG 4309 Chaucer [3-0]  
as scheduled  
A study of selected works of the 14th century English poet. Prerequisites: Nine hours of English.

ENG 4310 American Literature of the South [3-0]  
as scheduled  
A study of the works of representative writers of the south. Prerequisites: Nine hours of English.

ENG 4311 Topics in Single Author [3-0]  
as scheduled  
A study of the representative literary works of a single author. Topic to be chosen by instructor. Course may be repeated when topic varies. Prerequisites: Nine hours of English.

ENG 4312 Milton [3-0]  
as scheduled  
A study of the major poems and selected prose and minor poetry. Prerequisites: Nine hours of English.

ENG 4313 Topics in International Film [3-0]  
as scheduled  
Investigates the cultural, political, aesthetic, ideological, historical, and theoretical issues of international cinema. May be repeated once when the topic varies. Equivalent course: FILM 4313 may be counted as an English or Film Studies course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

ENG 4314 Contrastive Grammar [3-0]  
as scheduled  
A comparison of English and Spanish grammatical systems with emphasis on substantive and descriptive problems arising from the differences in the systems. Course open only to students with proficiency in both English and Spanish. Prerequisites: Nine hours of English.

ENG 4315 Mexican American Literature [3-0]  
as scheduled  
A study of the literature by and about Mexican Americans, with emphasis on the literary techniques and the cultural reflections in this literature. Prerequisites: Nine hours of English.

ENG 4316 Film Theory [3-0]  
as scheduled  
A study of film critics’ and theorists’ responses to film and the various theories that have been developed, including formalism, realism, auteurism, ideology critique, feminism, psychoanalysis, and cultural studies. Equivalent course: FILM 4317 may be counted as an English or Film Studies course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

ENG 4317 Teaching Secondary School Literature [3-0]  
as scheduled  
A study of the characteristics of poetry, drama and fiction and of the major approaches to these genres with some attention to works encountered in secondary schools. Prerequisites: Nine hours of English.

ENG 4318 South Texas Literature [3-0]  
as scheduled  
A survey of the literary history of South Texas. This course will emphasize, but is not limited to, history, culture, borderlands aesthetics and canon formation. Prerequisites: Nine hours of English.

ENG 4319 Topics in Border Studies [3-0]  
as scheduled  
Intensive exploration of selected literary, theoretical and rhetorical topics in border studies. Particular focus on issues
index

relevant to the intercultural interactions endemic to border sites and transnational borders. Prerequisites: Nine hours of English.

ENG 4321 Fundamentals of Language Development [3-0] as scheduled
A study of how children develop language skills from age five through adolescence. Covers all systems of language from basic sounds through competence in oral and written communication. Prerequisites: Nine hours of English.

ENG 4323 Studies in Literacy [3-0] as scheduled
Course examines the history and theories of literacy, including the critical ways literacy is connected to personal, political and social forces and ramifications. Prerequisites: Nine hours of English.

ENG 4324 Survey of Rhetorical Theory [3-0] as scheduled
Course surveys important rhetorical movements from classical to contemporary theories in order to demonstrate the significant influence theories of rhetoric have and continue to have in the social and political functions of discourse. Prerequisites: Nine hours of English.

ENG 4325 Composition Techniques [3-0] as scheduled
A study of advanced composition techniques, including theories and methods of teaching composition skills. Prerequisites: Nine hours of English.

ENG 4326 Language Acquisition [3-0] as scheduled
An analysis of the process of language learning, the normal development of speech and language, and the relationship of language to cognitive and social development. Prerequisites: Nine hours of English.

ENG 4328 Introduction to English as a Second Language [3-0] as scheduled
A study of the process of learning English as a second language. Special attention given to theories, variables and second language acquisition. Prerequisites: Nine hours of English.

ENG 4330 Alternative Rhetorics [3-0] as scheduled
Course considers important contributions to rhetorical and discourse theories that have been overlooked or have been traditionally marginalized in dominant studies of discourse theory. Topic varies, determined by instructor. Prerequisites: Nine hours of English.

ENG 4331 Introduction to Border Language [3-0] as scheduled
This course provides an introduction to language use along the US-Mexico border with special attention given to Texas and Valley speech. Topics to be discussed include bilingualism; English and Spanish varieties of speech; language and literacy acquisition education; social, cultural and historical influences on the border and Valley speech; language attitudes; maintenance/shift; and language planning (policy). Prerequisites: Nine hours of English.

ENG 4332 Writing for Lawyers [3-0] as scheduled
This course is designed as a practical introduction to the types of writing students will encounter in a law school and the legal profession. Students will be exposed to the various audiences that they will face in the legal profession: clients, opponents, other lawyers, law professors, judges and the general public. They will also learn the basic genres that lawyers write in: case briefs, client letters, inter-office memoranda, contracts and trial briefs. Prerequisites Nine hours of English.

ENG 4335 Workshop in Playwriting [3-0] as scheduled
An undergraduate course in creative writing, specifically writing plays. Students may learn to write monologues, scenes, 10-minute plays, and one act plays, critique each other’s work, read 10-minute plays written by professional playwrights, and produce their own plays on campus. Prerequisites: ENG 3336 or permission of instructor.

ENG 4336 Advanced Creative Writing [3-0] as scheduled
A workshop course devoted to the crafts of poetry and/or prose. Prerequisites: ENG 3336 or permission of instructor.

ENG 4337 Forms and Techniques in Creative Writing [3-0] as scheduled
Studies and practice in poetics, figurative language, metrics, narrative arc, symbol and other formal aspects of poetry and prose. Prerequisites: Nine hours of English.

ENG 4340 Special Topics in Creative Writing [3-0] as scheduled
Offers students the opportunity to explore and practice various genres and subgenres of creative writing as specified by the instructor. Prerequisites: Nine hours of English.
ENG 4343  Assessment and Response to Writing  [3-0]

as scheduled
Study of writing assessment theory and practice with a focus on how to respond to and evaluate student writing and design meaningful assessment strategies for the classroom. Prerequisites: Nine hours of English.

ENG 4390  Special Topics in Film Studies  [3-0]

as scheduled
Study of film from the perspective of a particular movement, genre, director, theme, or stylistic technique. May be repeated once when the topic varies. Equivalent Course: ENG 4390 may be counted as a Film Studies or English course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

ENG 4399  Independent Study  [3-0]

as scheduled
Designed for advanced students who are capable of independent study and research to examine an issue or project of specific interest. Registration upon approval of the professor directing the courses. Prerequisites: Nine hours of English.

General Engineering

ENGR 1101  Introduction to Engineering  [1-0]
(Texas Common Course Number is ENGR 1101.)

fall, spring, summer
Introduction to engineering as a career, the requirements for registration as a professional engineer and the fields of specialization within engineering. Approaches to engineering problem solving and the graphical presentation of data. Prerequisites: Computer literacy.

ENGR 1211  Undergraduate Research  [0-6]

fall, spring, summer
Active engineering or material science laboratory or computational research under the supervision of a College of Engineering and Computer Science faculty member. Prerequisites: Approval of the supervising faculty member.

ENGR 1311  Expanded Undergraduate Research  [0-9]

fall, spring, summer
Active engineering or material science laboratory or computational research under the supervision of a college of science and engineering faculty member. Prerequisites: Approval of the supervising faculty member.

ENGR 2101  Engineering Technology Laboratory  [0-3]

fall, spring, summer
Introduction to machine shop tool operations, metrology, advanced laboratory skills and data analysis. Prerequisites: Sophomore standing and completion of ENGR 1221. $4 laboratory fee.

ENGR 3101  Engineering Projects Laboratory  [0-3]

as scheduled
Special construction projects, research activities or supervised engineering studies. May be repeated once for credit. Prerequisites: Junior standing or consent of instructor. $4 laboratory fee.

ENGR 3300  Internship/Co-op in Engineering  [4-0]

as scheduled
This course is designed to give students in engineering an opportunity to gain practical work experience by working in an engineering trainee or related position with a participating employer. The student will be advised and mentored by a faculty member or staff person who will also serve as a liaison between the university and the employer. The employment period may be during the summer or an academic semester. Each student will be required to write a report on his/her work experience. The course may be repeated for each continuous work period and may count toward the International Endorsement if the work assignment is outside the United States. Prerequisites: Must be an engineering major in good academic standing.

ENGR 3333  Topics in Engineering  [3-0]

as scheduled
The topic will be changed by demand. May be repeated for credit. Intermediate topics in the engineering disciplines will be presented. Prerequisites: Junior standing in engineering or consent of instructor.

ENGR 4161  Senior Design Project I  [1-0]

fall, spring
This course is a preparation for a capstone design experience drawing from all previous coursework, and involves analysis of engineering methods problem definition, assumptions, methods of analysis and testing and reporting results. Classroom discussions will consider professional responsibility, ethics, technology and society, entrepreneurship, team building and lifelong learning. The project to be undertaken in Senior Design Project II (ENGR 4362) will be selected. Prerequisites: Senior standing in engineering.

ENGR 4261  Senior Design Lab  [0-6]

fall, spring
This laboratory involves implementation of design methodologies and engineering science into a real-world design. $30 lab fee. Prerequisite: Senior standing in engineering. Co-requisite: ENGR 4161.
Environmental Science

ENSC 3300 Environmental Ethics [3-0]
as scheduled
This course considers the moral relationship of humans to
the environment through an examination of different ethical
frameworks and case studies. Students will examine the
role of personal and societal attitudes and values toward
the environment as they apply to perceptions of land, water,
biodiversity, natural resources, and pollution.

ENSC 3301 Environmental Approaches to
Sustainable Development [3-0]
as scheduled
This course considers environmental approaches to issues
of preserving renewable and non-renewable resources
for future generations. Students will examine the roles
of scientists, government, non-government agencies, and
local people in sustainable development. Topics covered
include land, subsistence and cultural rights, environmental
cooporation, relationships between technology, environment
and economy, water wildlife, and forestry resources.

ENSC 3400 Environmental Science and Public
Policy [3-3]
as scheduled
A study of populations, communities and ecosystems and
how these are affected by human perturbations such as
pollution of air, water, and soil, deforestation, global warming
and energy consumption. Critical examination of federal
and state policies that affect the environment and "quality
of life" is included. Prerequisites: 8 hrs of freshman biology,
chemistry, geology, and physics. Lab fees charged.

ENSC 3401 Environmental Regulations
and Environmental Impact
Analysis [3-3]
as scheduled
This course includes an overview of state and federal
environmental agencies, laws, and regulations. The practical
consequences of these laws and regulations are demonstrated
through case studies. Students gain experience in preparing
environmental impact statements. Prerequisites: ENSC 3400.
Lab Fees charged.

Film Studies

FILM 3301 Movies and Politics [3-0]
as scheduled
This course analyzes the way movies have examined the
political and social impacts of various issues. The course
includes such topics as the relationship between politics,
corruption and power; the bases of discrimination; the
idea of community; and the tension between institutional
authority and individual autonomy. Equivalent Course: POLS
3301 may be counted as a Film Studies or Political Science
course in satisfying degree requirements. Credit may be
received for only one course. Prerequisites: POLS 2313 and
POLS 2314.

FILM 3315 Introduction to Film Studies [3-0]
as scheduled
An introduction to the study of film as a particular literary
gene with special emphasis on fictional film, technical film
analysis and cinematic interpretation. Equivalent Course:
ENG 3315 may be counted as a Film Studies or English
course in satisfying degree requirements. Credit may be
received for only one course. Prerequisites: None.

FILM 3316 Literature and Film Adaptation [3-0]
as scheduled
A study of film adaptations of literary works with a special
focus on the different types of adaptations, the levels of
fidelity, and the historical and technical differences between
the two artistic media. Equivalent Course: ENG 3316 may
be counted as a Film Studies or English course in satisfying
degree requirements. Credit may be received for only one
course. Prerequisites: None.

FILM 3325 History and Significance of the
Motion Picture [3-0]
as scheduled
Historical survey of motion pictures from 1890s to the
present. Students will view, study and review major motion
pictures from various periods, noting important periods,
styles, genres and movements in the dramatic film (including
foreign films and TV). Viewing lab arranged. Equivalent
Course: COMM 3325 may be counted as a Film Studies or
Communication course in satisfying degree requirements.
Credit may be received for only one course. Prerequisites: None.

FILM 3326 American Film Genre [3-0]
as scheduled
This course will offer an overview of the fourteen
basic American film genres. Students will study their
evolution from the silent days to the present and examine
how commercial considerations have influenced their
development in positive and negative terms. Equivalent
Course: COMM 3326 may be counted as a Film Studies or
Communication course in satisfying degree requirements.
Credit may be received for only one course. Prerequisites: None.
FILM 3331 Philosophy of Film [3-0]
as scheduled
Examines philosophical issues through the lens of film. Possible topics include image and reality, representation and culture, beauty politics, morality and aesthetic theory. Equivalent Course: PHIL 3331 may be counted as a Film Studies or Philosophy course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

FILM 4313 Topics on International Film [3-0]
as scheduled
Investigates the cultural, political, aesthetic, ideological, historical, and theoretical issues of international cinema. May be repeated once when the topic varies. Equivalent Course: ENG 4313 may be counted as a Film Studies or English course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

FILM 4317 Film Theory [3-0]
as scheduled
A study of film critics' and theorists' responses to film and the various theories that have been developed, including formalism, realism, auteurism, ideology critique, feminism, psychoanalysis, and cultural studies. Equivalent Course: ENG 4317 may be counted as a Film Studies or English course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

FILM 4357 History of Mexican Cinema [3-0]
from 1896 to the Present
as scheduled
This course examines the cultural and commercial development of the Mexican film industry. Both texts as well as films are used to understand this art and the extent to which it reflects values and issues of importance to Mexicans. Equivalent Course: HIST 4357 may be counted as a Film Studies or History course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

FILM 4390 Special Topics in Film [3-0]
as scheduled
Study of film from the perspective of a particular movement, genre, director, theme, or stylistic technique. May be repeated once when the topic varies. Equivalent Course: ENG 4390 may be counted as a Film Studies or English course in satisfying degree requirements. Credit may be received for only one course. Prerequisites: None.

FINA 3382 Investment Principles [3-0]
fall, spring, summer
This course provides an overview of the valuation of investment securities of corporations and governmental agencies. The purchase and sale of securities through brokerage houses and investment banking firms are also studied.

FINA 3383 Managerial Finance [3-0]
fall, spring summer
The finance function in the firm and the specific responsibilities of the firm's financial manager are studied in this course. Emphasis is placed on financial decisions using managerial information systems as an integrating force to deliver planned results. This study includes, but is not limited to, decisions affecting the internal management of the firm and the acquisition of new assets and funds. Prerequisites: ACCT 2301, ACCT 2302 and ECON 2301.

FINA 3384 Fundamentals of Real Estate [3-0]
fall
This course studies the physical and economic characteristics of real estate, particularly as they relate to law, taxation, appraisal, marketing and finance.

FINA 3385 Principles of Insurance [3-0]
as scheduled
The identification and control of risks facing the individual and the business firm, as well as the use of insurance and other mechanisms in dealing with them, are studied. Other topics include risk analysis, loss prevention, personal and property insurance, insurance programs and estate plans.

FINA 3386 Financial Institutions and Markets [3-0]
fall, spring
The dynamics of financial markets and their interaction with the suppliers of funds, particularly financial intermediaries, are studied in this course. Prerequisites: ECON 3381 with a grade of D or better and may not be taken concurrently.

FINA 3387 Real Estate Finance [3-0]
spring
This course provides an analysis of the nature and problems of developing the financing of real estate. Also, it covers a study of financial markets and instruments that are used to solve the financial needs of various real estate activities. Prerequisites: FINA 3383 with a grade of D or better and may not be taken concurrently or consent of instructor.

FINA 3388 Financial Planning [3-0]
as scheduled
Financial planning process; client/planner interactions; time value of money applications; personal financial statements development and assessment; cash flow and debt management; asset acquisition; education planning;
planning elements of risk management; investment planning; and retirement planning; special needs planning review; integrating planning recommendations; financial planning ethics review; overview of practice management concepts. Prerequisites: FINA 3383.

FINA 3389 Retirement Planning [3-0] as scheduled
Retirement planning focuses on preparation for retirement. The course will include the importance of retirement planning, an evaluation of the client’s needs, an understanding of Social Security and Medicare, and qualified and non-qualified retirement plans. Prerequisites: FINA 3383.

FINA 3391 Small Business Financial Management [3-0] fall
This course covers three important aspects of financial management for the small business: 1) sources of financing; 2) financial planning; and 3) valuation of the small business. Students will be required to complete a term project involving at least one of these aspects in a real business situation. Prerequisites: ACC 2301 MGMT 3361 and three hours of economics.

FINA 3393 Entrepreneurial Finance [3-0] spring
This course provides an in-depth analysis of venture financing and techniques to manage entrepreneurial risk. Prerequisites: ACC 2301, MGMT 3361 and three hours of economics.

FINA 4300 Topics in Finance [3-0] as scheduled
A special finance topic will be selected by the instructor. Total course content and requirements will be established on an individual basis by the instructor. Prerequisites: Consent of instructor.

FINA 4381 International Finance [3-0] fall, spring
The application of finance principles in the international environment are discussed in this course, including the nature of the balance of payment mechanism, the factors affecting the foreign exchange market, defensive techniques to protect the business against foreign exchange risk and the investing, financing and working capital management within a multinational firm. Prerequisites: FINA 3383.

FINA 4382 Portfolio Management [3-0] as scheduled
This course provides the theoretical framework, techniques and applications of investment management. It also develops models for performance evaluation emphasizing optimum combination of risk and return. Prerequisites: FINA 3382.

FINA 4383 Advanced Managerial Finance [3-0] fall, spring, summer
This finance major capstone course focuses on the major decision areas of managerial finance. This course builds on the theoretical concepts and empirical evidence presented in introductory courses of corporate finance, investments and financial markets. It uses a case-based approach to apply these concepts to real or simulated business situations. Some of the topics covered in this course include the cost of capital, the capital structure of the firm, capital budgeting, financial analysis and planning and working capital management. Prerequisites: ECON 3381 or FINA 3386, FINA 3382 and FINA 3383.

FINA 4389 Commercial Banking [3-0] as scheduled
The principles and policies affecting the services, organization and management of funds in the commercial bank are studied in this course. Policy formulation is emphasized. Coordination with general economic and money market conditions are covered. Prerequisites: ECON 3381 or FINA 3386.

Foreign Languages

FORL 1391 Elementary Studies in Foreign Languages I [3-0] fall
Beginning studies in critical languages of importance to the region. May be repeated for credit up to two times as the language of study varies.

FORL 1392 Elementary Studies in Foreign Languages II [3-0] fall
Continuation of beginning studies in critical languages of importance to the region. May be repeated for credit up to two times as the language of study varies.
French

FREN 1321  Beginning French I  [3-0]
(Texas Common Course Number is FREN 1311.)
fall, spring
A study of the essentials of French grammar, pronunciation, elementary conversation and prose reading. Credit Restriction: A student may receive credit for only one of FREN 1321 or FREN 1387.

FREN 1322  Beginning French II  [3-0]
(Texas Common Course Number is FREN 1312.)
fall, spring
A continuation of FREN 1321. Credit Restriction: A student may receive credit for only one of FREN 1322 or FREN 1388. Prerequisites: FREN 1321.

FREN 2321  Intermediate French I  [3-0]
(Texas Common Course Number is FREN 2311.)
as scheduled
Grammar review, conversation and writing practice based on selected literary and cultural readings. An emphasis on usage of different modes and tenses, as well as complex syntax. Prerequisites: FREN 1322.

FREN 2322  Intermediate French II  [3-0]
(Texas Common Course Number is FREN 2312.)
as scheduled
Grammar review, conversation and writing practice based on selected literary and cultural readings. An emphasis on usage of different modes and tenses, as well as complex syntax. Prerequisites: FREN 2321.

FREN 3321  French Composition I  [3-0]
as scheduled
Practice in writing expository, narrative and descriptive prose. Prerequisites: FREN 2322.

FREN 3322  French Composition II  [3-0]
as scheduled
Practice in writing critical appreciations of selected literary works. Prerequisites: FREN 3321.

FREN 3323  Business French  [3-0]
as scheduled
French for international business majors. A French practice in all areas: procedures, job and business cultures from French and Francophone countries. Prerequisites: FREN 3321.

FREN 4120  Practicum on Location  [3-0]
as scheduled
Special programs designed by UTPA French faculty and taught in France or a French-speaking country. The course will familiarize students with specific aspects of the host country’s culture. Students will be immersed in a French-speaking environment and will partake in numerous activities such as lectures, visits to museums and monuments, etc., to strengthen their language skills and develop their knowledge of Francophone culture. The course may be repeated if the location and topic changes. Prerequisites: Four semesters of French or the equivalent.

FREN 4321  French Literature Through Genres  [3-0]
fall, spring, summer
This course introduces literature through literary genres (drama, poetry, novels or essays). Students will have the opportunity to study in depth the evolution of a genre as well as the literary devices used by writers in the production of that genre. This course can be repeated according to the genre for study. Course taught in French. Prerequisites: FREN 3321 or equivalent.

FREN 4322  Survey of French Literature  [3-0]
fall, spring, summer
This course covers a survey of French literature from the medieval period until the Enlightenment. It introduces students to the foundations of French and European thought and literatures. Course taught in French. Cannot be repeated. Prerequisites: FREN 3321 or equivalent.

FREN 4324  French Civilization I  [3-0]
as scheduled
A study of French culture and civilization from the Roman conquest of Gaul by Julius Caesar to the French Revolution of 1789. Prerequisites: FREN 3321.

FREN 4325  French Civilization II  [3-0]
as scheduled
A study of French culture and civilization from the French Revolution of 1789 to the present. Prerequisites: FREN 3321.

FREN 4326  Survey of French Literature II  [3-0]
fall, spring, summer
This course offers an overview of French Literature. It introduces students to some masterpieces of the 19th, 20th and 21st centuries. Course taught in French. Cannot be repeated. Prerequisites: FREN 3321 or equivalent.

FREN 4331  Theater Practice in French  [3-0]
fall, spring, summer
This course will cover a brief history of French and European theater from its classic origins in today’s international trends. Students will read several excerpts of French theater and discuss different possibilities of interpretations and performance techniques (phonetics, tongue twisters, breathing techniques, etc.) This course familiarizes students with an important cultural component of French and European tradition and increases their listening and speaking skills to a nearer native speaking fluency. Students will also stage, perform and present their work. Prerequisites: FREN 2322 or equivalent.

FREN 4339  Special Topics  [3-0]
as scheduled
Special topics from the field of French language and literature. Prerequisites: FREN 3321.
**Geography**

GEOG 2313  Principles of Physical Geography  [3-0]  
(Texas Common Course Number is GEOG 1300.)  
fall, spring, summer  
An introduction to physical geography with emphasis on weather, ocean currents and climates. Soils and vegetation types and distributions are also studied. Can be counted in the supporting areas of elementary education curriculum.

**Geology**

GEOL 1401  Physical Geology  [3-3]  
(Texas Common Course Number is GEOL 1403.)  
fall, spring, summer  
Physical geology introduces the student to the nature, properties, and distribution of crustal materials; surficial processes, internal processes; origin of continents, oceans, and ocean basins; mineral and fuel resources. This course includes a three hour per week laboratory that reinforces through experiments concepts discussed in lecture. Fees: $4 laboratory and $4 technology.

GEOL 1402  Historical Geology  [3-3]  
(Texas Common Course Number is GEOL 1404.)  
fall, spring, summer  
A course dealing with the geological history of the earth and its inhabitants as revealed by the fossil record with emphasis on North America. $4 laboratory fee. Prerequisites: GEOL 1401.

GEOL 3308  Introduction to Geographic Information Systems  [3-3]  
as scheduled  
A study of the input, management, manipulation and output of georeferenced information using digital computers. Methods of layering geologic, geographic, meteorological, electromagnetic, biologic and political knowledge will be presented. Computer data structures including relational databases will be examined. The spatial analysis potential of a GIS will be compared with traditional manual (cartographic) methods. Fees: $4 technology.

GEOL 3310  Hydrologic Systems  [3-0]  
as scheduled  
This course is an introduction to surface and subsurface hydrologic systems which emphasizes physical hydrological processes. The course focuses on surface and near surface processes and introduces deeper, groundwater-hydrology. A broad range of specific topics is covered, e.g., the hydrologic cycle, watershed hydrology, runoff-rainfall relationship, erosion and sediment transport, occurrence and movement of groundwater and aquifer characteristics. The hydrological systems will be explained by using examples from the Rio Grande Valley. Prerequisites: GEOL 1401.

GEOL 3401  Geomorphology  [3-3]  
as scheduled  
A course designed for students interested in surface geological processes including the study of landforms of the Earth and processes by which they are formed. This course includes a three hour per week laboratory that reinforces through experiments concepts discussed in lecture. Fees: $4 laboratory and $4 technology. Prerequisites: GEOL 1401 or advanced standing in any of the related sciences or consent of instructor.

GEOL 3403  Oceanography  [3-3]  
as scheduled  
This course exposes the student to physical oceanography and is designed for geology minors, biology majors and pre-service earth science teachers. The origin, motion and the physical and chemical properties of marine waters are discussed. This course includes three laboratory hours per week for reinforcing through experiment, the concepts taught in the lecture. The student is expected to attend field-trip(s). Fees: $4 laboratory and $4 technology.

GEOL 3404  Sedimentology & Stratigraphy  [3-3]  
as scheduled  
This course is designed to provide the student with knowledge about sediments, sedimentary processes and principles of stratigraphy, including sedimentary structures, depositional environments, and diagenesis. This course includes sedimentary rock identification, description and interpretation as well as provides an introduction to sequence stratigraphy. This course includes a three hour per week laboratory that reinforces through experiments concepts discussed in lecture. Fees: Laboratory $4, Technology $4. Prerequisites: GEOL 1401 or advanced standing in any of the related sciences or consent of instructor.

GEOL 3412  Petrology  [3-3]  
as scheduled  
This course introduces the student to basic properties, modes of origin, and methods of identifying, classifying and describing the rock-forming minerals and the three classes of rocks. This course includes three laboratory hours per week with emphasis on identifying, describing and interpreting samples in hand specimens and outcrops; thin section examination with the polarizing microscope will be introduced and practiced. Field trips required. Fees: Laboratory $4, Technology $4. Prerequisites: GEOL 1401 and a high school or college chemistry course, or permission of instructor.

GEOL 4301  Exploration Geophysics  [3-0]  
as scheduled  
An introductory course on seismic refraction and reflection imaging of the subsurface of the Earth, including methods of data acquisition, processing and interpretation in two and three dimensions. Designed for students with basic geology and/or engineering backgrounds. Prerequisites: PHYS 1401.
or equivalent and GEOL 1401 or equivalent. $4 laboratory fee. Course is cross-listed as PHYS 4311 and GEOP 4301.

GEOL 4302 Environmental Geology [3-0]  
This course explores the human-planet relationship how Earth processes influence human lives, and how human actions, in turn, alter the interactions of Earth systems. Hazardous geologic processes, use and care of energy resources and the human impacts on the environment are the focus of this course.

GEOL 4309 Undergraduate Research in Geoscience [3-0]  
Independent work in geosciences and/or environmental geosciences under the direction of a faculty member. Open only to students who have completed at least eight hours in geology or by approval of the instructor.

GEOL 4385 Special Topics in Geology [3-0]  
Selected topics in geology. Topics are varied according to student interest and availability of faculty. Course may be repeated once for different topics for a maximum of six credit hours. Prerequisite: Junior or senior standing and permission of instructor.

GEOL 4408 Applications of Geographic Information Systems [3-3]  
This course is designed to provide the student with knowledge in new methods of using georeferenced data. Integration of information from multiple sources is used to analyze interdependencies of both human and physical systems in a rapidly changing rural to urban environment. Examples are provided to illustrate uses in evaluating resource capability units, analyzing hazardous radiation areas, mineral exploration, land management, flood prediction and control, earthquake prediction and hurricane preparation. Attention is given to problems with data. Prerequisites: GEOL 3308.

German

GERM 1331 Beginning German I [3-0]  
(Texas Common Course Number is GERM 1311.)  
fall, spring  
A study of the essentials of German grammar, pronunciation, elementary conversation and prose reading.

GERM 1332 Beginning German II [3-0]  
(Texas Common Course Number is GERM 1312.)  
fall, spring  
A continuation of German 1331, focusing on German grammar, pronunciation, elementary conversation and prose reading. Prerequisites: GERM 1331.

GERM 2331 Intermediate German I [3-0]  
(Texas Common Course Number is GERM 2311.)  
fall, spring  
A study of more complex patterns of German grammar and prose reading to facilitate written and oral communications. Prerequisites: GERM 1332.

GERM 2332 Intermediate German II [3-0]  
(Texas Common Course Number is GERM 2312.)  
fall, spring  
A study of more complex patterns of German grammar and prose reading to facilitate written and oral communication. Prerequisites: GERM 2331.

Global Security Studies

GSST 3300 Global Security [3-0]  
as scheduled  
As a comprehensive introduction of the politics of global security, this course explores the evolution of security concepts worldwide, addresses a wide range of major international issues with global implications, as well as identifies and debates about possible measures to address and prevent these problems. Prerequisites: None.

GSST 3320 Interdisciplinary Research and Analysis [3-0]  
as scheduled  
This course provides basic knowledge and skills needed to undertake research-based problem solving. It is an introduction to empirical research and analysis as used in behavioral, intelligence, and security settings. How to pose research questions, apply theoretical framework, identify and use valid and reliable measures, and gather data, emphasizing the preliminary process of research design.
will be covered. Students will become critical consumers of research products as they are exposed to the basic skills of evaluating and applying research results. Students will also consider ethical dilemmas and conflicts of interest in research. Prerequisites: None.

GSST 3397 Internship in Global Security Studies [0-0-3]
as scheduled
The practical national security experience through an arranged internship in a government agency for one semester. The student will work with a participating employer under the supervision of an undergraduate faculty member. Periodic seminars and supervisor-intern consultations will be held with a required final administrative report. Prerequisites: Consent of instructor and faculty advisor.

GSST 3398 Independent Study [3-0]
as scheduled
Individualized study and research in a substantive area not normally covered within standard courses. The student will study under the direct supervision of a faculty member. Research projects or advanced readings will vary according to student interest and faculty availability. Prerequisites: Consent of instructor.

GSST 4300 Practicum in Global Security [3-0]
as scheduled
This course integrates the broad and specialty knowledge covered in the interdisciplinary courses and the preceding core courses by working in teams to an applied case problem involving a current security issue. The course culminates in an event attended by invited guests from the faculty administration and working professionals, at which each group will present case outcomes. Prerequisites: GSST 3310 or GSST 3320.

History

HIST 2313 American Heritage I [3-0]
(Texas Common Course Number is HIST 1301.)
fall, spring, summer
An integration of social, political and economic history of the United States with attention directed to geography and its influences. The approach is by problems that move chronologically from the earliest colonial period through the Civil War. Open to freshmen who enter with a credit in American history from high school. Credit Restriction: Credit may be received in only one of HIST 2313 and HIST 2387.

HIST 2314 American Heritage II [3-0]
(Texas Common Course Number is HIST 1302.)
fall, spring, summer
An integration of social, economic and political history of the United States with attention to geographical influences.

HIST 2331 Civilization Through the Centuries [3-0]
(Texas Common Course Number is HIST 2311.)
fall, spring, summer
This course will introduce the students to the major developments in the history of the world from early man to the Congress of Vienna in 1815. Emphasis is placed on the political, social and cultural achievements of the civilizations of Asia, Africa, Europe, and the Americas, as well as the contacts among them through trade diffusion, conquest, and migration.

HIST 2332 Civilization Through the Centuries [3-0]
(Texas Common Course Number is HIST 2312.)
fall, spring, summer
A continuation of HIST 2331, this course will cover world history from 1815 to the present. Emphasis is placed on the industrial revolution, imperialism, world conflict, the rise and fall of communism, and the post-colonial world. Historical context will be provided for current issues such as globalization, nationalism, and the role of culture.

HIST 2387 American Heritage I (Honors Plan) [3-0]
fall
An integration of social, political and economic history of the United States with attention directed to geography and its influences. The approach is by problems which move chronologically from the earliest colonial period through the Civil War. Credit Restriction: Credit may be received in only one of HIST 2313 and HIST 2387. Prerequisites: Admission to Honors Studies or by invitation.

HIST 2388 American Heritage II (Honors Plan) [3-0]
spring
An integration of social, economic and political history of the United States with attention to the geographical influences. The approach is by problems that move chronologically from Reconstruction to the present. Credit Restriction: Credit may be received in only one of HIST 2314 and HIST 2388. Prerequisites: Admission to Honors Studies or by invitation.

HIST 3301 The History of Ideas [3-0]
as scheduled
A study of major beliefs and patterns of thought in Western culture, emphasizing the development of the arts and sciences, social thought and religion. Prerequisites: Six hours of history.
HIST 3302 World History Studies [3-0]  
fall, spring, summer  
A comprehensive survey of social, economic, political, cultural and geographical factors influencing the course of world history. Emphasis will be on thematic and content material. Prerequisites: Six hours of history with HIST 2331 recommended.

HIST 3303 Geography and the Environment in History [3-0]  
as scheduled  
This class examines the effects of the environment and geography on history. The course will focus on how humanity has reacted to the environment and influenced ecosystems, and how different cultures have interacted with similar environments. The course will also examine trade routes, the effects of disease, the connections between resources and the rise of civilizations and empires. Prerequisites: Six hours of history.

HIST 3304 Indians North America [3-0]  
as scheduled  
To explore the diverse nature of Native American cultures at the time of European contact. In this class students will see how ethnographers, ethno historians, and historians have recorded the lifeways of contemporary aboriginal societies and have reconstructed their prehistoric past. Consideration will be given to the impact of European contact and how that has altered “Western” images of the North American Indian. Women and men will be equally considered in order to give a balanced view of the richness of these cultures. Equivalent course: ANTH 3304, a student may receive credit in only one course. Prerequisites: Six hours of history or ANTH 1323 or ANTH 1342

HIST 3305 Great Discoveries in Archaeology [3-0]  
as scheduled  
This course examines many of the most famous archaeological discoveries of the past century that have shed light on humans and their culture, human origins, world history and the development of human behavior. “Popular” assumptions about these finds will be evaluated in light of current anthropological theories and within the historical, context of the era in which they were found in order to discern a more accurate knowledge of the past. Equivalent course: ANTH 3305; a student may receive credit in only one course. Prerequisites: Six hours of History or ANTH 1323 or ANTH 1342

HIST 3310 Atlantic World to 1763 [3-0]  
fall, spring, summer  
This course situates British colonization in a circum- Atlantic context that allows for comparison and contrast with Spanish, French, Dutch, and Portuguese colonies. Key topics covered will include the European background to colonization, motives for Atlantic exploration and development, relations with non-European peoples, the rise of slavery and the plantation complex, Atlantic trading networks, and conflict and warfare in an Atlantic context. The course end with the Seven Years War and its consequences for Atlantic America. Prerequisites: HIST 3332 or instructor permission.

HIST 3313 Atlantic America, 1763-1815 [3-0]  
as scheduled  
The course deals with relations between the British New World colonies and then the United States and the Atlantic trading world from the Treaty of Paris in 1763 through the Treaty of Ghent in 1814 and its direct aftermath. A key focus will be on the development of the Independence movement in the British mainland colonies, the War for Independence, and then the formation of the United States as an independent nation. Prerequisites: HIST 3332 or instructor permission.

HIST 3324 Rise of the American Nation, 1814-1850 [3-0]  
as scheduled  
A study of the early years of the American nation from the establishing of American economic independence following the War of 1812 through the Great Transformation of American society in the form of initial industrialization, urbanization, the transportation revolution, and increasing participatory democracy, to the rise of Manifest Destiny and the attainment; of continental mastery. Prerequisites: HIST 3313 or instructor permission.

HIST 3330 A General Survey of the History of Texas [3-0]  
as scheduled  
A survey of the history of Texas from indigenous period to present. Previous course number: HIST 2333; a student may receive credit for only one course. Prerequisites: Six hours of history.

HIST 3331 Mexico from the Pre-Conquest To the Present [3-0]  
as scheduled  
This course examines the broad themes and major events of Mexican history from the first settled communities of the indigenous peoples to the present. Four areas will be studied: pre-conquest, colonial, national and modern. Primary emphasis will be placed on the modern period.

HIST 3332 Historiography and Methodology [3-0]  
as scheduled  
This course will acquaint students with the various schools of history, famous scholars and common debates in the field of history. The class will also provide instruction in the various tools and research methods that are utilized by historians. This class includes a substantial historiographical writing assessment. Prerequisites: Nine hours of history, including either 2331 or 2332.

<tr>
<td>HIST 3343</td>
<td>Era of Sectional Conflict in U.S. History, 1848-1877</td>
<td>[3-0]</td>
<td>United States history from 1848 to 1877 with emphasis upon the development of sectionalism, Southern nationalism, the breakdown of American political parties, Civil War and Reconstruction, and the further extension of industrialization. Prerequisites: HIST 3334 or instructor permission.</td>
</tr>
<tr>
<td>HIST 3345</td>
<td>Introduction to East Asian History I: To 1600</td>
<td>[3-0]</td>
<td>A survey of the political and cultural history of East Asia through 1600. We will examine the historical development of the states and cultures of the modern nations of China, Korea and Japan, as well as the interactions between these cultures from the emergence of agricultural societies through the 17th century and the first contacts with Western European societies.</td>
</tr>
<tr>
<td>HIST 3346</td>
<td>Introduction to East Asian History II: 1600 to the Present</td>
<td>[3-0]</td>
<td>A survey of the history of East Asia from the early modern foundation of &quot;traditional&quot; East Asian society, through the formation of the modern nation-states of China, Korea and Japan and their integration into a world political and economic system dominated by Western imperialism, to the reemergence of East Asia as one of the most dynamic regions in contemporary world culture and political-economy.</td>
</tr>
<tr>
<td>HIST 3350</td>
<td>The American Military Experience</td>
<td>[3-0]</td>
<td>The American military experience will be examined from the colonial period to the present. The course will examine not only the operational history of the American military but also the causes and consequences of war and the role of the military in American society. Prerequisites: Six hours of history.</td>
</tr>
<tr>
<td>HIST 3353</td>
<td>History of the American Presidency, 1789-1994</td>
<td>[3-0]</td>
<td>This course will examine the evolution of the presidency and executive power from Washington's inauguration until the present. In addition to surveying the evolution of presidential authority, it will also examine how certain figures have reshaped executive power; how the media has transformed the role of the presidency and presidential accountability; and how information technology has altered the relationship between the president and her/his constituents. Individual instructors may choose to focus a portion of the course on one or more individual presidents while retaining an overall comparative, analytical element. Prerequisites: HIST 2313 and HIST 2314.</td>
</tr>
<tr>
<td>HIST 3355</td>
<td>American Legal History</td>
<td>[3-0]</td>
<td>Relation of law to main currents in political, social, and economic thought in the United States from the establishment of colonial legislatures to the present; appraisal of the social function of constitution-making processes, the legislature, the courts, the bar, and the executive branch in U.S. society; and exploration of the interactions between common and statute law and exceptional constitutional issues like those relating to Native Americans. Prerequisites: HIST 2313 and HIST 2314.</td>
</tr>
</tbody>
</table>
HIST 3360 History of American Family & Childhood [3-0] fall, spring, summer
A synthesis of American history focusing on the changing role of family and the transitional stages of childhood. This class will discuss immigration, family economy and consumption, and the dynamic forms of social welfare that grew in response to family and childhood need. Additionally students will participate in learning about personal family history and how their own family may confirm or diverge from trends. Material culture, race, and gender are vital aspects of this course. Major events in American history and in the life cycle of families, such as but not limited to birth, death, marriage, and divorce will all be discussed in their historical contexts. Prerequisites: HIST 2313 and HIST 2314.

HIST 3367 The U.S. as a World Power [3-0] fall, spring, summer
This course is designed for students seeking a certification in teaching. It focuses on the diplomatic history of the United States from the rise of imperialism through two World wars and the Cold War. America’s role in international conflicts and the relationship between individuals and specific events and will be a major focus of the class. The history of trade and cultural exchanges during this period will also receive attention. Prerequisites: HIST 2313 and 2314.

HIST 3370 History of American Religious Traditions [3-0] fall, spring, summer
This course traces the diversity of religious traditions in North America from the colonial era to the present. Specific topics will include Native American religious, immigrant religious traditions, new and syncretic traditions in the United States, American secularization, and political and constitutional issues relating to religions. Emphasis will be on the history of religious development and not on specific theologies. Prerequisites: HIST 2313 and HIST 2314.

HIST 3373 Mexican-American Heritage [3-0] as scheduled
An interpretation of the historical heritage of the Mexican-American in the United States. Prerequisites: Six hours of history.

HIST 3375 Women in History Topics [3-0] as scheduled
This course will introduce students to the growing and diverse field of women’s and gender history. It will examine the experiences, roles and contributions of women in politics, economics, labor and culture. The time period, the focus and the geographical area will change according to the instructor. Suggested topics include Mexican-American/Chicana history and Latina history.

HIST 3377 Latin American Women in the Modern Era [3-0] as scheduled
In this course, students will examine the changes that have taken place in the conceptualization, gendered roles, and overall status of women in Latin American societies from 1910 to the present. Major focuses will include the heritage of gender within both Hispanic and Indigenous cultural milieus, the factors contributing to changes in traditional roles during the early and middle twentieth century, and the changes still in progress. In addition to traditional texts, the course would include work by major women authors such as Isabel Allende and Elena Poniatowska. May be repeated twice for credit.

HIST 3378 Women in Colonial Latin America [3-0] as scheduled
This course will introduce key texts in the history of women in Latin America from pre-conquest times to the independence period. The aim of this course is to study the presence and participation of women in history and to provide the tools for analyzing primary sources, posing important questions in the field and critically thinking about historiographical issues. The focus and geographical area will change according to the specialty of the instructor. May be repeated twice for credit.

HIST 3380 Early Middle Eastern History [3-0] fall, spring, summer
This course concentrates on the history of the Middle East from the 7th century to 1789. Topics covered include the basic tenets of Islam and its spread up to the 19th century including the Muslim kingdoms of Spain and Africa and the Umayyad, Abbasid, and Ottoman Empires. Islamic approaches to modern concept such as human rights, nationalism, and democracy will also be covered. Prerequisites: None.

HIST 3381 History of American West [3-0] fall, spring, summer
This course is an interdisciplinary survey of racial, ethnic, class and gender relations in American Western history. Questions examined include: How have different groups shaped the historical development of the West? What role has nations of race, ethnicity, class and gender played in this development? How does contemporary scholarship challenge idealized perceptions of the West? What has been the role of the media-journalism, booster sheets, literature, art, and film-in shaping past and present views of the West? Prerequisites: HIST 2313 and HIST 2314.

HIST 3385 Gender in American West [3-0] fall, spring, summer
This course is an interdisciplinary survey of women and gender relations in American Western history. The course focuses on the experiences of both women and men in the American West from the initial contact of Europeans with Native Americans to the twentieth century. We will read primary and secondary materials related to the subject of gender construction in this highly contested region. A number of key themes will be explored including gender ideologies, race, class, multi-cultural interaction, ethnicities, work roles and community building, politics, moral reform, and oral history. Prerequisites: HIST 2313 and HIST 2314.
HIST 3390 History of the Ottoman Empire [3-0] as scheduled
The course will focus on the history, civilization, and historiography of the Ottoman Empire. Along with its key economic, political and social developments, the course will cover the structure of this multi-ethnic and multi-religious empire, its various systems over the centuries, and the Ottoman cultural and political influence on Europe.

HIST 3391 History of Modern Japan [3-0] as scheduled
A political, economic and cultural history of Japan from the early modern period to the present. Topics of emphasis include the modern legacy of Japanese cultural traditions, the creation of the modern Japanese state, the history of Japanese imperialism and Japan’s relations with the rest of Asia, and the post-WWII relationship with the United States.

HIST 3392 History of Modern China [3-0] as scheduled
A political, economic and cultural history of China from the late imperial period to the present. Topics of emphasis include the Opium War and the impact of Western Imperialism, the history of the Chinese revolution, the People’s Republic of China in the Cold War, Chinese economic reform and the contemporary “Rise of China.”

HIST 4303 The Emergence of Modern America, 1877-1929 [3-0] as scheduled
A detailed study of the process and effects of industrialization, immigration, and social reforms during the Progressive Era. The course will highlight government policy toward business and society during this pivotal period in American history, ending with the advent of mass consumerism in the 1920s. Prerequisites: HIST 2313; HIST 2314

HIST 4307 Shipwrecks, Pirates and the Sea: An Introduction to Maritime Archaeology and History [3-0] as scheduled
Maritime archaeology is a profession combining traditional fields and extensive practical experience. Anthropology, history, archaeology, geography and related sciences provide the theoretical and practical methodology with which maritime sites are found, tested and interpreted. This course is designed to provide students with the field’s background, range and relevant examples involving both history and archaeology.
Equivalent course: ANTH 4307; a student may receive credit in only one course. Prerequisites: Three hours from any of the following areas: anthropology, economics, psychology or sociology, or consent of instructor.

HIST 4308 Conquistadors and Indian Chiefs of the Borderlands: A Comparative Colonialism of northern New Spain [3-0] as scheduled
This course covers Spanish and Native American interactions in what is today the Southeastern United States, Texas and California. Emphasis will be placed on how the social and natural environment was changed in these areas. Examination of these changes will be done through the documentary and archaeological records. Equivalent course: ANTH 4308; a student may receive credit in only one course. Prerequisites: Three hours from any of the following areas: anthropology, economics, psychology or sociology, or consent of instructor.

HIST 4313 Twentieth Century America 1917 to the Present [3-0] as scheduled
A study of the history of the United States from World War I to the present with emphasis on domestic and foreign affairs and in their relationship to and effect on each other. Prerequisite: Six hours of history.

HIST 4322 The Spanish Southwest to 1821 [3-0] as scheduled
A study of the northward colonization of Mexico with emphasis on institutions and the settlement of the interior provinces of Texas, New Mexico, Arizona and California. Prerequisite: Six hours of history.

HIST 4325 The American Southwest After 1821 [3-0] as scheduled
The American penetration of Texas and the war with Mexico; subjugation of the Indians; extension of mining, railroad, cattle industry and farming across the Southwest; and the transition from raw frontier to modern states of the Southwest. Prerequisites: Six hours of history.

HIST 4326 Ancient Greek History fall, spring, summer [3-0]
This course will explore the major political, social, economic, and cultural developments of Ancient Greece up to its absorption into the Roman Empire. Emphasis will be placed on the differences and similarities between the Archaic, Classical and Hellenistic Ages. Using primary documents, the class will develop reasonable criteria for the acceptability of this evidence and explore alternative theories used to explain this period. Prerequisites: None.

HIST 4327 Ancient Roman History fall, spring, summer [3-0]
This course will explore the major political, social, economic, and cultural developments of Republican and Imperial Rome. Using primary documents, the class will develop reasonable criteria for the acceptability of this evidence and explore alternative theories used to explain the history of this empire. Emphasis will be placed on the reinterpretations of the “Fall” of Rome. Prerequisites: None.
HIST 4328  Medieval History  [3-0]
fall, spring, summer
This course will introduce students to the major developments in European History from the late antique period of Rome until 1300. Emphasis is placed on key political, social, economic, and cultural events of medieval Europe such as the rise of the Carolingian Empire, external attacks, feudalism and manorialism, the Crusades, and the rise of European states. The class will also cover the importance of contacts with the non-European world through trade, migration, and diffusion. Prerequisites: None.

HIST 4330  Black History and Thought Since 1863  [3-0]
fall, spring, summer
This course focuses on black history and thought from Emancipation through the conservative backlash of the 1970s. It addresses issues such as suffrage, racist and sexual violence, Jim Crow, black images, science and medicine, resistance, class division, and cultural expression. Although focusing on social history, the course interweaves the intellectual thought of black thinkers from the nineteenth and twentieth century. Finally, it stresses geography, comparing black experiences in rural and urban areas, and throughout the country. Prerequisites: HIST 2314; HIST 2313.

HIST 4333  Race & Ethnicity in American History  [3-0]
fall, spring, summer
This course examines racial and ethnic formation and competition in the U.S. from the mid-nineteenth century until the 1960s, focusing on overlapping Asian American, black, white, Hispanic, and Native histories. The course addresses issues such as scientific racism, ethnic cooperation and conflict, inter-racial sexuality, labor competition, immigration policies, popular images and representations, and grassroots and organized resistance. In addition, it focuses on geography, examining distinctions between urban and rural contexts and across regions. Prerequisites: HIST 2313; HIST 2314.

HIST 4334  History of the Old South  [3-0]
as scheduled
This course covers the history of the American South from the period prior to European exploration/colonization through the Secession Crisis and the beginning of the Civil War. Themes include the interaction of Native American and European societies; competition between European empires for territory; the introduction of unfree labor; the development of African American slavery; the role of women in southern society; the economics of staple-crop agriculture; and the participation of southerners in politics.

HIST 4335  History of the New South since 1877  [3-0]
fall, spring, summer
This course investigates the competing and contradictory meanings of the “New South,” a concept coined by southern boosters in the 1800s to describe efforts to develop an industrial economy, and one subsequently applied to successive periods of southern history. Students will grapple with the major ideas, leaders, events, and social movements which shaped this period. Specifically, they will familiarize themselves with such issues as sharecropping industrialization, class conflict, racial violence, political movements, Jim Crow, reform, urbanization, and rural-urban conflict. Prerequisites: HIST 2313; HIST 2314.

HIST 4343  Era of Sectional Conflict 1840-1877  [3-0]
as scheduled
United States history from 1840 to 1877 with emphasis upon the development of sectionalism, Southern nationalism, the breakdown of American political parties, Civil War and Reconstruction. Prerequisites: Six hours of history.

HIST 4345  Mexico’s First Century as an Independent Republic  [3-0]
as scheduled
A study of the political, social and economic development of Mexico from the independence movement to the Revolution of 1910. A study of the problems of Mexico and the various distinct eras of its first century as a republic. Prerequisites: Six hours of history.

HIST 4352  Brazil After Independence  [3-0]
as scheduled
A study of Brazil as an empire and a republic with emphasis on the social, geographic and political factors that make it a unique nation in the Western hemisphere. Prerequisites: Six hours of history.

HIST 4353  History of Mexican Culture  [3-0]
as scheduled
A study of the Mexican people, including development of their social institutions, thinking, concepts, attitudes, values, reactions and sensitivities. Prerequisites: Six hours of history.

HIST 4354  Contemporary Mexico  [3-0]
as scheduled
A study of the nature and impact of the social, political and economic transformations since the revolutionary epoch of 1910-1917; greatest emphasis on the contemporary factors that have made Mexico’s experience unique. Prerequisites: Six hours of history.

HIST 4355  Spanish South America Since Independence  [3-0]
as scheduled
The historical development of the major Hispanic South American republics; general trends in their social, economic and political growth. Prerequisites: Six hours of history with HIST 3333 recommended.

HIST 4357  History of Mexican Cinema from 1896 to the Present  [3-0]
as scheduled
This course examines the cultural and commercial development of the Mexican film industry. Both texts as well...
as films are used to understand this art and the extent to which it reflects values and issues of importance to Mexicans. Equivalent Course: FILM 4357; may be counted as History or Film Studies course in satisfying degree requirements. Credit may be received for only one course.

Prerequisite(s): None

HIST 4360 Public Health Americas [3-0]
fall, spring, summer
This course increases students’ understanding of health and society within the Americas. The course examines the social, cultural, and institutional history of the construction of disease, medical practice, public health, and policy in the Americas in a comparative framework with the United States. As an upper-level history class, students will gain and practice skills in writing, reading, and critical thinking. Prerequisite: None

HIST 4361 Mexican American Civil Rights [3-0]
fall, spring, summer
This course will examine the history of Mexican-American civil rights from the Wagner Act (1935) to the Civil Rights Act (1964). Students will evaluate the institutions, organizations, and people who fought for the equality and integration of Mexican Americans in the American Southwest. We will assess the different roles that these historical actors played in the struggle for citizenship rights against the larger backdrop of the Great Depression, World War II and Cold War eras. Prerequisite: None

HIST 4363 U.S.-Latin American Relations [3-0]
as scheduled
The development of a distinctive system of international relations ó economic, cultural and political ó between the nations of Latin America and the United States. Prerequisite: Six hours of history.

HIST 4370 The Renaissance and the Reformation, 1300-1650 [3-0]
as scheduled
A study of the political, social and cultural developments of Western Europe from the decline of the medieval system, through the age of the new monarchies, with emphasis on France, Germany and Italy. Prerequisite: Six hours of history with HIST 2331 recommended.

HIST 4371 Russia Since 1905 [3-0]
as scheduled
Russia from the precursors of the Revolution through the Revolutions of 1905 and 1917 and the development of the Soviet regime to current trends. Prerequisites: Six hours of history with HIST 2332 recommended.

HIST 4374 The Caribbean and Central America [3-0]
as scheduled
A study of the 19th century efforts of these nations to emerge as separate entities and an evaluation of their 20th century experiences. Prerequisites: Six hours of history with HIST 3333 recommended.

HIST 4375 Absolutism and Enlightenment in Europe, 1650-1789 [3-0]
as scheduled
Traces the development of the absolutist state, benevolent despotism and the intellectual and scientific trends of the Enlightenment. Prerequisites: Six hours of history with HIST 2332 recommended.

HIST 4376 Revolutionary Europe 1789-1850 [3-0]
as scheduled
A study of Europe of this period with emphasis on the growth of democratic institutions from the beginning of the French Revolution through the Revolution of 1848. Prerequisites: Six hours of history with HIST 2332 recommended.

HIST 4377 Chicano Movement [3-0]
fall, spring, summer
This course will trace the history of Chicano student activism from the 1960s antiwar movement to the 1970s and 1980s movements to create Chicano studies majors and departments in universities and colleges. Students will examine the ideas and strategies adopted by grassroots activists and bureaucratic leaders in their struggles to integrate the Chicano community into American society and politics. Prerequisites: None.

HIST 4380 Modern Middle Eastern History [3-0]
fall, spring, summer
This course concentrates on the history of the Middle East from 1789 to present. The course focuses on the historical origins of modern socio-political issues in the Middle East such as the Arab-Israeli Conflict, the “Kurdish Problem”, oil and water issues, nationalism, the rise of political Islam and other regional issues. Prerequisites: None

HIST 4381 History of the Cold War [3-0]
fall, spring, summer
This course will focus on the global struggle between super powers and nations drawn into the conflict from 1945-1991. Ideological differences, proxy wars, economic relations, and attempts to negotiate a peaceful resolutions to conflicts will all be addressed in the class. Students will be exposed to these issues from a multicultural and multinational perspective. Prerequisites: None.

HIST 4383 Europe’s Age of Imperialism, 1850-1919 [3-0]
as scheduled
A study of European history through the period of growing nationalism and imperialism leading to World War I. Prerequisite: Six hours of history with HIST 2332 recommended.
HIST 4393 Contemporary Europe, 1919 to Present [3-0]
as scheduled
A study of the causes of World War II, its resulting problems and current trends. Prerequisite: Six hours of history with HIST 2332 recommended.

HIST 4395 Special Topics in History Studies [3-0]
fall, spring, summer
A study of selected topics in history, including comparative history, philosophies of history, and regions outside of Europe and the Americas. Topics are varied according to availability of faculty and student interest. Course can be repeated once for credit as topics change. Prerequisite: None

HIST 4396 Special Topics in European History [3-0]
as scheduled
A study of selected topics in European history. Topics are varied according to availability of faculty and student interest. Course can be repeated once for credit as topics change. Prerequisites: Nine hours of history, including either 2331 or 2332.

HIST 4397 Special Topics in U.S. History [3-0]
as scheduled
A study of selected topics in the history of the United States. Topics are varied according to availability of faculty and student interest. Course can be repeated once for credit as topics change. Prerequisites: Nine hours of history, including either 2331 or 2332.

HIST 4398 Special Topics in Latin American History [3-0]
as scheduled
A study of selected topics in Latin American history. Topics are varied according to availability of faculty and student interest. Course can be repeated once for credit as topics change. Prerequisites: Nine hours of history, including either 2331 or 2332.

HIST 4399 Senior Research Seminar [3-0]
as scheduled
Students enrolled in HIST 4399 will undertake in-depth research and analysis into a specific historical period or issue, including a study of the relevant historiography. Students enrolled in HIST 4399 will produce a formal research paper, with at least one major revision, and will assist other students in the class to revise and refine their papers. Prerequisites: 18 hours of advanced (3000/4000 level) history, which must include HIST 3332.

HLTH 1352 Community and Environmental Health [3-0]
as scheduled
Basic community health waste disposal, safe water, food and drug control and the improvement of community health.

HLTH 1354 Safety and First Aid [3-0]
(Texas Common Course Number is PHED 1306.)
as scheduled
Basic knowledge for safe and effective living. The essential aspects of home, work, motor vehicle and public safety. Includes both theoretical and practical aspects of emergency care. Standard First Aid and Personal Safety and Cardiopulmonary Resuscitation (CPR) certification upon completion of specific requirements. Equivalent Course: KIN 1354; a student may receive credit for only one course.

HLTH 2352 Personal Health and Wellness [3-0]
as scheduled
A survey of factors involved in human physical and psychological wellness. Disorders arising from mutagenic, teratogenic infections, environment and lifestyle behaviors will be studied. May not be used to satisfy Health Secondary Option II Teacher Certification.

HLTH 2373 Growth, Development and Fitness [3-0]
as scheduled
A study of the growth process and systemic development of the human organism. The concept of physical fitness is analyzed and related to organismic function and well being.

HLTH 3370 Concepts for Health Lifestyle Promotion [3-0]
fall, spring, summer I
This course explores the scientific study of concepts that promote healthy behavior. The course framework investigates factors of health promotion including elements of individual, group and organizational behavior that affect health choices, current research findings, and methods about personal behavior. Techniques, strategies and methodologies that influence personal lifestyles, enhance health and avoid negative health consequences will be examined. The influence of corporations, economic standing, educational attainment and poverty levels to population health status will be considered. Students are expected to apply critical thinking with solutions in their research assignments. Prerequisite(s): Junior class standing

HLTH 3371 Health Problems in Alcohol, Tobacco and Narcotics [3-0]
fall
This course examines the psychological, physiological and social effects of substance use, abuse and dependency. Special emphasis is placed on prevention with in-depth study of the contribution of intervention models and informed
The University of Texas-Pan American

HLTH 3372 Nutrition and Health [3-0]
spring
Analysis of food constituents relating to human nutritive needs and sources throughout the life span will be studied. Its emphasis will be on prevention of nutrition-related health problems through study of health-promoting dietary and lifestyle practices, contributing risk factors and mechanism of development.

HLTH 3373 Human Sexuality [3-0]
as scheduled
Adjustment of the individual to life in the social group with emphasis upon problems occurring in mental and emotional health, aging, family living and human sexuality.

HLTH 3374 Chronic and Degenerative Disease [3-0]
as scheduled
A study of chronic and degenerative disease with respect to the nature, source, incidence, control and treatment of diseases such as cancer, cardiovascular anomalies, neurological disorders, mental retardation and genetic disorders. Emphasis is upon providing sufficient and usable information that will provide the basis for responsible action in matters of personal health.

HLTH 3375 Consumer Health [3-0]
as scheduled
Selection, evaluation and understanding of health information, medical services, health products and advertising and sociocultural factors in consumer health protection.

HLTH 4350 Organization of the Health Program [3-0]
as scheduled
The organization and management of the health program in school, community and clinical settings with special emphasis on program phases, responsibilities, evaluation and functional relationships with local, state and federal agencies. Prerequisite: 15 hours of health.

HLTH 4353 Principles of Public Health [3-0]
as scheduled
Examination of the role and practice of official or voluntary health agencies. Content includes study of health needs, assessment, models for health promotion, program evaluation, basic issues and management/funding methods achieved. University classroom and field-based experiences.

HLTH 4357 Health Seminar [3-0]
summer, odd years
For teachers, nurses, principals, superintendents and community leaders to gain perspective and insight into essential cooperative efforts of home, school and community to meet the growing health needs of our society.

HLTH 4358 Current Health Readings and Reported Research [3-0]
as scheduled
Research and analysis of the latest concepts and findings relating to the school health program. This will be conducted through review of the literature, written reports and independent study in a health-substantive area.

Honors

HONR 2387 Humanities I [3-0]
An interdisciplinary course that emphasizes cultural roots from ancient Greece through the Middle Ages. The course stresses the integration of the humanities (philosophy, painting, sculpture, architecture, literature, music) into the Western civilization framework.

HONR 2388 Humanities II [3-0]
An interdisciplinary course that emphasizes cultural roots from the Renaissance to the present. The course stresses the integration of the humanities (philosophy, painting, sculpture, architecture, literature, music) into the Western civilization framework.

HONR 3187 Problems in Independent Study [3-0]
This course is an introduction to basic problems encountered in independent study. It aids the student in choosing a topic for independent study, in setting up objectives for the study and preparing a research proposal or project.

HONR 3387 Independent Study [3-0]
Supervised independent research in student's topic, with periodic meetings for coordination, instruction in methodology and discussion.

HONR 3388 Study Abroad Independent Study [3-0]
fall, spring, summer
This course promotes opportunities for Honors Program students to develop attendance of and participation in study abroad as well as service learning in order to promote interdisciplinary learning, contextual insight, cultural appreciation, and critical thinking skills for outstanding future contributions to society and the world. Students taking this course will arrange a topic and appropriate academic work with a faculty member and/or the Director of the Honors Program. Students may repeat once for credit.

HONR 4387 Independent Study [3-0]
Supervised completion of research and writing of thesis or creative project, with periodic meetings for coordination, instruction in methodology and discussion.

HONR 4388 Study Abroad Independent Study [3-0]
fall, spring, summer
This course promotes opportunities for Honors Program students to develop attendance of and participation in study abroad as well as service learning in order to promote
interdisciplinary learning, contextual insight, cultural appreciation, and critical thinking skills for outstanding future contributions to society and the world. Students taking this course will arrange a topic and appropriate academic work with a faculty member and/or the Director of the Honors Program. Students may repeat once for credit.

</table>
export licenses, packaging, terms of sales, payments, transportation and border crossing. Prerequisite: INTB 3330 with a grade of C or better.

INTB 4362 Global Entrepreneurship [3-0]
Spring
This course involves the study of global entrepreneurship and the opportunities available to startups and small businesses pursuing value creation activities across national borders. Special attention is paid to entrepreneurial activity taking place on the US-Mexico border. The class examines global opportunity recognition, the challenges global entrepreneurs encounter, and the ways in which they create value when conducting business across political and cultural boundaries. Prerequisite: INTB 3330 with a grade of C or better.

INTB 4363 Import Management [3-0]
Fall
Practices and processes of import management operations. Include government control and compliance, source of supply, currency, regulations, government regulations, and current issues affecting the importing process. In addition, this course examines appropriate import documentations and selected regulations from 19 Code of Federal Regulations (19 CFR). Prerequisite: INTB 3330 with a grade of C or better.

to selected cultures and practices to include Asia, Western Europe and Latin America. Prerequisite: INTB 3330.

INTB 4365 International Competitiveness [3-0]
Fall, Spring
International dimensions of competition for global markets, with emphasis on manufacturing, production and operations management as tools of international competitive strategy. Prerequisite: INTB 3330.

INTB 4366 Mexican Import Customs Regulations [3-0]
Spring
Analyze the customs procedures in order to make imports into Mexico. Topics include understanding of Mexican import customs regulations, Customs Laws, agencies in charge of controlling temporary and permanent imports, certificate of origin, invoice and NAFTA preferential tariff rates. Selected regulations from Customs Laws and other Federal Codes. Spanish language proficiency is recommended. Prerequisite: INTB 3330 with a grade of C or better.

INTB 4367 Multimodal Transportation [3-0]
Fall, Spring
This course provides background, understanding and current technical information about the techniques of international transportation and distribution. It deals with intermediate agencies such as freight forwarding agencies and transportation brokers, warehousing, material handling and utilization devices. Prerequisite: INTB 3330 with a grade of C or better.

INTB 4368 Cross-Cultural Behavioral Management [3-0]
Fall, Spring
This course provides the knowledge required for proficiency in cross-cultural interactions. The emphasis is in conducting an in-depth examination of the organizational behavioral aspects of management in the international context. Prerequisites: MGMT 3361, INTB 3330.

INTB 4372 Business Logistics [3-0]
Spring
A system approach to managerial decisions related to movement and storage of supplies, work-in-progress and finished goods. Examine the trade-offs encountered by managers in relation to cost and service level, levels and modes of transportation used, warehousing and control of inventory levels. Additional topics include material handling within warehouses, distribution of finished goods to customers, industrial packaging, and importance of logistics to the overall productivity of a firm. Just-in-time and material resource planning (MRP) are investigated. Prerequisite: INTB 3330 with a grade of C or better.

INTB 4373 U.S. Imports Customs Regulations [3-0]
Spring
Examine the duties and responsibilities of the licensed custom broker. Topics include process for customs clearance including appraisement, bonded warehouse entry, examination of goods, harmonized tariff, fees, bonding, penalties, quotas, immediate delivery, consumption, liquidation, computerized systems, laws and regulations. Students will take sample exams of the United States Customs Broker examination and solve complex problems involving customs regulations and processes. Prerequisite: INTB 3330, INTB 4363.

INTB 4379 Topics in International Business [3-0]
Fall, Spring
Special topics in international business as selected by the instructor. Course can be repeated as topics change. Prerequisite: INTB 3330 or consent of chair of the department.
Interdisciplinary Studies

INTS 4300 Discovering the Rio Grande Valley: The Natural and Cultural History Of South Texas [3-0]
as scheduled
This course will be taught by a team of faculty in Anthropology, History, Geology, and Biology who will cover in-depth content of the Rio Grande Valley from various disciplinary points of view. This class is part of the CHAPS (Community Historic Archeology Project with the Schools) program that focuses on primary field research. Students will examine land titles/abstracts, study the geology of the region, conduct oral histories, and research the flora and fauna of this area. The course can be repeated once for credit.
Prerequisite(s): None

Kinesiology

Activity/Wellness Courses:
Students may select an activity/wellness course that emphasizes movement arts, lifetime skills or sports skills to satisfy the two hours of kinesiology wellness listed in the University core curriculum requirements. Each course includes a minimum of a two-week wellness component with continuing emphasis throughout the semester. There is a $6 activity fee for each class unless otherwise indicated.

Movement Arts: Fundamental motor skills and knowledge appropriate for various movement forms to enhance cultural awareness and total well-being.

Behavioral considerations related to establishing and maintaining personal, commercial, corporate, or clinically-based exercise programs. Emphasis on strategies for tailoring physical activity, increasing adherence, and reducing attrition through incorporation of psychological models. Prerequisite: None

An introduction to the theories, strategies, terminology, rules and applications of officiating for various sports. Directed officiating experiences may be required. Prerequisite: None

A study of the structural and mechanical factors that interact with human movement. Prerequisites: BIOL 2403 and BIOL 2404.

Scientific foundations of health related fitness, a life-span approach with specific attention to physical fitness assessment. Prerequisites: Kinesiology major and KIN 3345, 3352, and 3353

Scientific foundations of conditioning, a life-span approach with specific attention to exercise prescription. Includes an overview of therapeutic exercises and fitness components for at-risk populations with emphasis on preventive and corrective programming. Prerequisite: KIN 3346

An analysis and study of management and financial principles used in health, fitness, and sport programs. An overview of program design, and leadership skills needed to teach individual and group-led exercise programs. Prerequisite: Kinesiology major

Prevention and correction of accidents in physical education and athletic activities. The use of proper personal and field equipment, support methods, conditioning exercises, therapeutic aids, medical examinations and massage.

Basic systemic adaptations to exercise with specific emphasis on teaching kinesiology and on training and conditioning athletes. Prerequisites: BIOL 2403 and BIOL 2404.

Knowledge and skills necessary to provide care in respiratory and cardiac emergencies. The skills include performing two-rescuer CPR and techniques for special rescue situations, using resuscitation masks and bag-value masks for ventilating victims, and the proper use of an Automated External Defibrillator (AED). Prerequisites: KIN 1354 or the equivalent certifications.

The use, interpretation, evaluation and administration of valid tests in kinesiology. Also involves the application of elementary statistical procedures.

A study of human behavior in exercise and sport. Emphasis is placed on understanding the psychological principles underlying group process, performance enhancement, and health and well-being. Prerequisites: Kinesiology major and admission to the program.

Designed to focus on the principles of resistance training and program development, encompassing both theoretical and practical applications as outlined by the National Strength and Conditioning Association (NSCA). Prerequisites: Kinesiology major, and KIN 3345, KIN 3353, and admission to the program.

This course is designed to help prospective and current coaches develop and enhance their coaching ability. Sport skills necessary for athletes to perform at their best will be presented. Students will be exposed to a broad range of teaching techniques, instructional methods and a practical approach to enhance sport skill development and athletic performance. Students will develop a research paper on the latest coaching styles and their impact on student athletes. Prerequisite(s): Junior class standing

A study of applications of principles of psychology to learning situations involved in motor skill acquisitions. Emphasis will be given both to general learning situations involved in the mastery of motor skills and to special situations involved with individual and group problems of motivation and response.

This course is designed to give a student experience in research or in-depth study/readings in a substantive area not
Index

normally covered within standard courses. Course topics will vary according to student interest. May be repeated for credit with different topics.

KIN 4321 Advanced Athletic Training [3-0] summer
Designed to provide the prospective student athletic trainer with a clinical approach to the various aspects of an athletic training environment including the prevention, care, and treatment of athletic related injuries. Prerequisites: KIN 3345, 3352, and 3353 plus permission of the Head Athletic Trainer.

KIN 4322 Rehabilitation/Therapeutic Modalities In Athletic Training [3-0] summer
Designed to enable the student athletic trainer to assess, measure, and document various degrees of athletic related injuries; and subsequently, develop appropriate progressive rehabilitation/therapeutic modalities including strengthening, conditioning, flexibility, and neuromuscular development designed to enhance the repair and recovery of athletic injuries. Prerequisites: KIN 4421

KIN 4351 Adapted Kinesiology [3-0] as scheduled
The selection and planning of kinesiology for students whose activity must be adapted due to demands by gravity, trauma, injury, congenital defect, illness or disease. Pedagogy labs and field experiences are required. Prerequisites: KIN or GESE major and admission to teacher education.

KIN 4360 Physical Education for All-Level Kinesiology [3-0] as scheduled
This course is designed for students in all-level Kinesiology to learn strategies and practice with materials necessary to design and implement developmentally appropriate physical education curriculum. It is aligned with EC-12 Texas Essential Knowledge and Skills (TEKS) and English Language Proficiency Standards (ELPS). Prerequisite(s): KIN 3340

KIN 4368 Kinesiology Practicum [3-0] fall, spring
University work and field placement in a public and/or private setting where the student applies the combination of theory and practice in various disciplines of the field of kinesiology. Ten hours of field work per week are required. This is the capstone course and should be taken the last semester before graduating. Prerequisite: None

KIN 4664 Kinesiology Practicum [3-0] as scheduled
University work and field placement in a public and/or private setting involving the theory and practice of operating a wellness establishment. Twenty hours of field work per week are required. This is the capstone course for the non-certified program. Prerequisites: Admission to the kinesiology non-certified program and the final semester of coursework.

Latin American Studies

LAMS 2301 Introduction to Inter-American Studies [3-0] fall, spring, summer
This course provides an introduction to major themes in Latin American and border studies through the study of history, literature, music and other kinds of expressive culture. These themes may include colonialism, ethnic diversity and conflict, national development, political economy, struggles for democracy, migration, artistic and popular cultures, and gender and sexuality.

LAMS 3377 Latin American Women In the Modern Era [3-0] as scheduled
In this course, students will examine the changes that have taken place in the conceptualization, gendered roles, and overall status of women in Latin American societies from 1910 to the present. Major focuses will include the heritage of gender within both Hispanic and Indigenous cultural milieus, the factors contributing to changes in traditional roles during the early and middle twentieth century, and the changes still in progress. In addition to traditional texts, the course would include work by major women authors such as Isabel Allende and Elena Poniatowska. May be repeated twice for credit.

LAMS 3378 Women in Colonial Latin America [3-0] as scheduled
This course will introduce key texts in the history of women in Latin America from pre-conquest times to the independence period. The aim of this course is to study the presence and participation of women in history and to provide the tools for analyzing primary sources, posing important questions in the field and critically thinking about historiographical issues. The focus and geographical area will change according to the specialty of the instructor. May be repeated twice for credit.

LAMS 4301 Seminar on Latin American Studies [3-0] fall, spring, summer
An interdisciplinary course that reviews and integrates major themes and ideas that have guided Latin American studies since the mid-20th century and pursues analyses of problems that affect the region, such as inequality, violence, migration, environmental change, health care and international relations. Prerequisite: LAMS 2301.
LAMS 4391 Latin American Philosophy: Special Topics [3-0]

as scheduled
This course will study different issues, themes, or figures in the field of Latin American Philosophy. Content will vary according to instructor expertise and student interest. It may be repeated twice for a total of nine credit hours as long as the content of the course is significantly different.
Prerequisite(s): None

Leadership

LEAD 1310 Introduction to Leadership Theory [3-0]

as scheduled
This is an overview of the history and theory of leadership. This interdisciplinary course is designed to introduce the student to the tasks, strategies and skills of effective leadership. Topics will include historical and contemporary theories, modern organizational theory, goal-setting, decision-making and other leadership topics. The format of the course will involve lecture, group activities and hands-on exercises.

LEAD 2310 Ethics in Leadership [3-0]

as scheduled
This course will critically examine the issues of authenticity, self-interest, self-discipline and the moral obligations leaders face in pursuing justice, duty and the greatest good. Additionally, this course will investigate and analyze the ethical obligations of constituents and how the ethical commitments of both leaders and constituents are interconnected. The format of the course will include case studies, written papers and class debates.

LEAD 3310 Community Leadership [3-0]

as scheduled
This course will help students apply leadership theory to community service. A number of guest lecturers, solicited and scheduled by students, will introduce students to public service opportunities in their own backyard. The guest lecturers will be presented by local community and university leaders. Students will be required to interview these leaders and write and present a biographical introduction for them. Students will also be required to participate in a community service organization and write a paper on the experience. Students in this class will also partner with the local leadership programs. Prerequisites: POLS 2313 and POLS 2314.

LEAD 4310 Survey of Texas and U.S. Leadership Models and Practices [3-0]

as scheduled
The course examines leadership on a macro-level. Starting at the state level and moving on to a national scope, this class will explore case studies in both government and organizational leadership. Students will have the opportunity to explore leadership styles, both successful and not, of a number of famous (or infamous) state and national leaders. In addition, students will examine a number of complex social issues that affect us on a state and/or national level. They will have the opportunity to apply leadership theory, community building strategies and interdisciplinary approaches to propose a variety of solutions. Prerequisite: POLS 2313 and 2314.

LEAD 4320 Survey of World Leadership Models And Practice [3-0]

as scheduled
This course examines leadership on a global level. Students will explore world leadership through case studies, examine the differences between leadership styles and models in Latin America, Europe, the Middle East, Asia, etc. In addition, students will have the opportunity to examine a number of complex social issues that affect society on a global level. They will apply leadership theory, community building strategies and interdisciplinary approaches to propose a variety of solutions. Prerequisite: POLS 2313 and POLS 2314.

Manufacturing Engineering

MANE 1101 Introduction to Manufacturing Engineering [0-3]

as scheduled
This course provides an introduction to Manufacturing Engineering as a career, and the requirements for registration as a professional engineer. Topics include approaches to engineering problem solving and engineering design with teams.
Prerequisite: None.

MANE 1221 Manufacturing Engineering Graphics [1-3]

as scheduled
This course provides an introduction to computer-aided modeling of solid objects. Students will start to use industrial software to make computer models of solids and assemblies. Topics will also include graphical communication using engineering drawings and geometric dimensioning and tolerancing.
Prerequisite: None.

MANE 2332 Engineering Statistics [3-0]

spring
Fundamentals of probability, commonly encountered density functions, distribution functions, statistical tests and experimental designs as used in manufacturing and product design. Includes use of microcomputer-based statistical analysis software. Prerequisite: MATH 1460. Previous Course Number: MANE 3332.
This course deals with statics and dynamics. Topics in statics include vectors, free body diagrams, equilibrium, centroids and moments of inertia. Topics in dynamics include kinematics and kinetics applied to particles and rigid bodies. Applications to problems in Manufacturing Engineering will be emphasized.

Prerequisites: Grade of C or better in PHYS 2401

MANE 3300 Computer-Aided Design [2-3] fall
Curve and surface definition, geometric transformation and solid modeling, projections and visualization and numerical analysis, introduction to finite element analysis. Prerequisite: MECE 1221.

MANE 3301 Projects in Manufacturing Engineering [0-9] as scheduled
Special construction projects, research activities or supervised manufacturing engineering studies. May be repeated once for credit. Prerequisite: Junior standing or consent of instructor.

Programmable logic controllers, sensors, robotics, computer control of manufacturing processes and integration. Prerequisite: Credit for or enrollment in MANE 3364.

MANE 3337 Engineering Economics [3-0] fall
Application of economics and decision theory to engineering alternatives in planning, developing, constructing and managing engineering projects. Discounted cash flow mechanics, economic analysis, management of money and economic decisions including inflation and utility theory. Prerequisite: MANE 2332.

MANE 3340 Fundamentals of Industrial Engineering [3-0] spring
Introduction to economic analysis, industrial and project management, ergonomics, human factors, work recording techniques, time and motion study and line balancing. Prerequisite: MANE 2332. Previous Course Number: MANE 2340.

MANE 3351 Manufacturing Engineering Analysis [2-3] fall
Topics include linear algebra, numerical methods and programming with engineering analysis software. Prerequisites: MATH 1470, CSCI 1380.

MANE 3364 Manufacturing Processes [3-0] fall and spring
An introduction to manufacturing processes including metal cutting, non-traditional machining, force analysis, casting, deformation and joining processes, plastics, composites, manufacturing of ceramics and electronics devices. Prerequisite: MECE 2440.

MANE 3437 Thermal & Fluid Sciences [3-3] as scheduled
Topics include the thermodynamic properties of materials, the first and second law of thermodynamics; one dimensional steady state and lumped mass unsteady heat transfer; hydrostatics, the Bernoulli equation, and pipe flow. Prerequisite(s): PHYS 2402

MANE 4173 Product Design and Mass Customization [0-3] as scheduled
Students will participate in international engineering design projects emphasizing principles of team-work, communication and collaboration. They will investigate strategies to improve competitiveness of manufacturing in a global economy.

MANE 4311 Quality Control [3-0] fall
Study of statistical methods applied to the assurance of product quality. Foundational principles developed by Juran, Deming and others will be applied. Sampling techniques and control charts will be applied. Concepts of statistical process control will be emphasized throughout. Design of experiments and Taguchi-type methodologies will be introduced. Prerequisite: MANE 2332.

MANE 4321 Automation Systems [3-0] fall
Modeling of mechanical, thermal, fluid, electrical and electromechanical systems; time response analysis, block diagram and signal flow representation; stability analysis and design of compensators. Prerequisite: Credit for or enrollment in MATH 3349.

MANE 4331 Manufacturing Planning and Control [3-0] spring
A capstone course covering the principles of manufacturing process and plant design and control emphasizing the interrelationship between product design, process design...
and the firm's operating plan. Computer models will be used extensively. Prerequisite: Consent of instructor.

MANE 4333  Topics in Manufacturing Engineering  [3-0]
as scheduled
Topics selected from current issues of concern in manufacturing industries. May be repeated for credit when topics change. Prerequisite: Consent of instructor.

MANE 4340  Operations Research  [3-0]
spring
An introduction to basic concepts in mathematical modeling, stochastic processes, linear programming and optimization. Applications include inventory system and control, plant location and network analysis. Prerequisite: MANE 3351.

MANE 4352  Manufacturing Simulation  [2-3]
spring
This course develops skills in applying discrete computer simulation and modeling techniques for facility layout design and production planning. Topics include data collection, input analysis, distribution fitting, model development, verification and output analysis. Prerequisite: MANE 2332.

MANE 4361  Senior Design I  [1-6]
as scheduled
This course is a preparation for a capstone design experience drawing from all previous coursework, and involves problem definition, assumptions, methods of analysis, testing, and reporting of results. Classroom discussions will consider professional responsibility, technology and society, entrepreneurship, team building and lifelong learning. The project to be undertaken in the Senior Design II class will be selected. Prerequisites: MECE 3304 and MECE 3320, and credit or enrollment in MECE 3380, MECE 3360 and MECE 4350 or consent of instructor.

MANE 4362  Senior Design II  [0-9]
as scheduled
This course is a continuation of ENGR 4361. Students will conduct a comprehensive engineering design of a project related to their major and report on the results. Synthesis using past coursework and outside reference material will be expected. Periodic progress reports and final oral and written reports will be required. Prerequisites: MANE 4361 or MECE 4361.

Marketing

MARK 3300  Marketing Internship  [0-0-3]
fall, spring, summer
This internship is designed to give students an opportunity to gain real-world experience in their chosen career field by working with a participating employing firm or organization. The students will be supervised by a faculty member acting as a liaison between the employing organization and the academic department to assure compliance with specific learning and experience requirements for the assignment. The employment can be either paid or unpaid, and must be at least 10 hours of work each week over the period of one academic term. Prerequisites: Junior or Senior standing and approval by both department chair and employer providing internship experience.

MARK 3310  Personal Branding and Communication  [3-0]
as scheduled
This course encourages and empowers students to see and carry themselves as personal brands. The concepts, theories, and skills covered in this course enable students to develop a professional disposition toward their careers, communicate effectively in written and oral forms, work successfully in teams, and acquire leadership qualities. The course is highly experiential and students are exposed to several hands-on skill development assignments. Prerequisite(s): Junior Standing

MARK 3371  Principles of Marketing  [3-0]
fall, spring, summer
The marketing structure as it operates in our economic system, with emphasis on improving the flow of goods and services from producer to consumer. Practical application of principles and techniques. Designed as a beginning course in marketing. Prerequisites: Admission to the College of Business Administration or junior standing plus departmental approval.

MARK 3372  Consumer Behavior  [3-0]
fall, spring
An overall view of the basic perspectives of consumer behavior. An interdisciplinary approach is utilized by studying the fields of economics, psychology, sociology and anthropology as they relate to marketing. Emphasis is placed on the fundamental process of motivation, perception and learning, as well as analysis of individual predispositions and group influences in marketing. Prerequisite: MARK 3371.

MARK 3373  Business-to-Business Marketing  [3-0]
fall, spring
A comprehensive study of marketing in non-retailing markets. This course addresses the competitive realities of the global marketplace, customer relationship management, cross-functional decision-making processes, basics of supply chain management, e-commerce and related areas, cases and special projects. Prerequisite: MARK 3371.
The purposes of the course are to help students learn an integrative framework for making pricing decisions. The course is required for the major. Prerequisite: MARK 3371.

**MARK 3395 Music Marketing [3-0]**  
fall, spring, summer  
This course surveys music publishing, live entertainment, recording companies, production and A&R, and marketing, with an eye on both practical and theoretical issues. It will examine major organizational players and provides a general overview of the industry. Prerequisite: Junior standing.

**MARK 4330 International Marketing [3-0]**  
fall, spring, summer  
The development of the international marketing mix for the multinational organization, and an in-depth look at global versus domestic marketing management. Prerequisite: MARK 3371.

**MARK 4340 Channels of Distribution [3-0]**  
fall, spring, summer  
Starting with a review of physical distribution of tangible and intangible products, this course also covers select inter-organizational and individual customers. It reviews the behavioral and structural aspects of exchange relationships, the broadened perspective and emerging practices in marketing channels, and the relevance of the multi-level environments. Prerequisite: MARK 3371.

**MARK 4350 New Product Development [3-0]**  
fall, spring, summer  
New Product Development covers in detail the new product development (NPD) process that is widely used by companies of varying sizes and industries. Many important issues often encountered in new product development such as strategic planning for new products will be examined and discussed. A variety of cutting-edge techniques and useful methods for creativity stimulation and innovation management will be studied as well. The course material is essential to business success for companies interested in innovation. Prerequisite: MARK 3371.

**MARK 4372 Integrated Marketing Communications [3-0]**  
fall, spring, summer  
This course focuses on all organizational and marketing issues that help ensure messages received by customers are consistent across time, media channel, and communication source with special attention to online (i.e., e-marketing campaigns or programs) and offline communications (e.g., print, mail order, public relations, industry relations, billboard, radio, and television). This course is required for the major. Prerequisite: MARK 3371.

**MARK 4373 Sales Management [3-0]**  
fall, spring  
Decision making of the sales manager and how it affects the sales force. Emphasis is placed on sales planning, staffing, training and directing of the sales force including sales force analysis and evaluation. Prerequisite: MARK 3371.
MARK 4379  Topics in Marketing  [3-0]  
fall, spring
Special topics in marketing will be covered as selected by the instructor. Course can be repeated for credits as topics change. Prerequisite: MARK 3371 or consent of the chair of the department.

MARK 4382  Marketing Research Analysis  [3-0]  
fall, spring
This course covers quantitative research procedures and techniques used in business today. These include problem definition, sources of research data, survey methods, questionnaire design and sampling techniques. Prerequisites: QUMT 3343 and MARK 3371.

MARK 4383  Marketing Research Applications  [3-0]  
fall, spring
Required for all marketing majors. It is designed as a research application course whereby students are assigned a real-world marketing problem to solve. Students would be required to identify the research question, develop a plan for study, implement the research study, analyze the results and present the results in a professional, realistic situation. Prerequisite: QUMT 3343 and MARK 4382.

MARK 4385  Hispanic Marketing  [3-0]  
as scheduled
This is an interdisciplinary review of economic, psychological, social, and cultural characteristics of Hispanic consumers and markets. Emphasis will be on processes of motivation, perception, and learning, as well as strategies appropriate in Hispanic markets. May not receive credit for both MARK 3385 & MARK 4385. Prerequisite(s): MARK 3371

MARK 4389  Marketing Strategy  [3-0]  
fall, spring, summer
This is the capstone marketing course and must be taken in your last semester. Emphasis on integrating knowledge of various marketing tools and models that may be useful in assisting the marketing manager in the decision-making process. All areas of marketing are discussed within the decision-making framework, with practical applications of techniques emphasized. Prerequisites: MARK 3371.

Mathematics

MATH 1300  Elementary Algebra  [3-0]  
as scheduled
A course in elementary algebra designed for the student with a background in numerical skills. Students have the opportunity to prepare for intermediate algebra and other mathematics coursework recommended in education, fine arts, the humanities or social sciences. Topics include basic operations on real numbers, elementary geometry, introduction to algebra, linear equations and graphs, linear equations with applications, exponent properties, systems of linear equations in two unknowns, polynomials and factoring methods. This course does not count toward a student's hours for graduation or in the determination of hours attempted or earned. This course may not be used to satisfy any University core curriculum requirements.

MATH 1334  Intermediate Algebra  [3-0]  
as scheduled
A course in algebra designed to prepare the student for College Algebra or the equivalent. Topics include factors of polynomials; rational expressions; radical expressions; an introduction to complex numbers, quadratic equations, rational equations, radical equations and elementary inequalities. Prerequisite: MATH 1300 with a grade of C or better or satisfactory score on the ACT or placement exam. This course does not count toward a student's hours for graduation or in the determination of hours attempted or earned.

MATH 1340  College Algebra  [3-0]  
(Texas Common Course Number is MATH 1314.)  
as scheduled
Topics include nonlinear and absolute value inequalities, functions, complex numbers, polynomial and rational functions, exponential and logarithmic functions, and systems of linear and nonlinear equations. Credit may be received in only one of MATH 1340 and MATH 1440. Prerequisite: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam.

MATH 1341  Business Algebra  [3-0]  
(Texas Common Course Number is MATH 1324.)  
as scheduled
Topics include inequalities, quadratic functions, logarithmic and exponential functions, sequences and series, mathematics of finance, systems of linear equations, matrices and an introduction to linear programming. Use of technology to perform numerical computations is emphasized. Prerequisite: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam.

MATH 1342  Business Calculus  [3-0]  
(Texas Common Course Number is MATH 1325.)  
as scheduled
Topics include differential calculus with business optimization applications, multivariable calculus including optimization techniques and applications and an introduction to integral calculus. Prerequisite: MATH 1340 or MATH 1341 with a grade of C or better.

MATH 1348  Contemporary Mathematics  [3-0]  
(Texas Common Course Number is MATH 1332.)  
fall, spring, summer
Topics include real-world problem-solving and critical thinking; mathematical logic; graphs and graphical representations; statistics and probability; voting and apportionment methods, and financial mathematics. This course is designed to meet the THECB Exemplary Educational Objectives and will satisfy the core requirement

Prepare ▲ Discover ▲ Transform ▲
in mathematics. Prerequisite: MATH 1334 with a grade of C or better, and/or satisfactory placement scores.

MATH 1389 Contemporary Mathematics Honors [3-0]
fall, spring
Topics include real-world problem-solving and critical thinking; mathematical logic; graphs and graphical representations; statistics and probability; voting and apportionment methods, and financial mathematics. This course is designed to meet the THECB Exemplary Educational Objectives and will satisfy the core requirement in mathematics. Prerequisite: MATH 1334 with a grade of C or better, and/or satisfactory placement scores.

MATH 1440 College Algebra: [4-0]
fall, spring, summer
This course offers an extended-time format which provides for a more in-depth treatment of traditional college algebra topics. Innovative instructional activities designed to improve success and retention rate will be implemented. Included are group learning activities, frequent evaluation, increased interaction with teachers and peers, item analysis with reassignments for mastery, and activities to increase student confidence and reduce anxiety. Topics include nonlinear and absolute-value inequalities; complex numbers; polynomial, rational, exponential, and logarithmic functions; systems of linear and nonlinear equations; and real-world applications. Prerequisites: MATH 1334 with a grade of "C" or better or satisfactory score on the Math ACT or placement exam. Credit may be received in only one of MATH 1340 or MATH 1440.

MATH 1450 Pre-calculus with Trigonometry [4-0]
(Texas Common Course Number is MATH 2412.)
fall, spring, summer
Topics include trigonometric functions, applications, graphs, equations and identities; inverse trigonometric functions; vectors; sequences and series; the binomial theorem; conic sections; and parametric and polar equations. A student may use MATH 1450 to replace a grade received in MATH 1357; however, one may not receive credit for both MATH 1357 and MATH 1450. Prerequisite: MATH 1340 with a grade of C or better or appropriate high school background and/or placement exam.

MATH 1460 Calculus I [4-0]
(Texas Common Course Number is MATH 2413.)
fall, spring, summer
Topics include limits, the derivative and its applications, antiderivatives, definite integrals and the derivatives and integrals of transcendental functions. A student may use MATH 1460 to replace a grade received in MATH 1401; however, one may not receive credit for both MATH 1401 and MATH 1460. Prerequisite: MATH 1450 with a grade of C or better or appropriate high school background and/or placement scores.

MATH 1470 Calculus II [4-0]
(Texas Common Course Number is MATH 2414.)
fall, spring, summer
Topics include methods and applications of integration, parametrized curves, integration in polar coordinates and infinite sequences and series. A student may use MATH 1470 to replace a grade received in MATH 1402; however, one may not receive credit for both MATH 1402 and MATH 1470. Prerequisites: MATH 1460 with a grade of C or better.

MATH 1487 Calculus I (Honors) [4-0]
as scheduled
Topics of derivatives, definite integrals, limits are studied taking examples from algebraic and transcendental functions. Emphasis is placed on calculus as a discipline and calculus as a tool in modeling. Prerequisites: MATH 1450 with a grade of C or better or appropriate high school background and placement scores, together with admissions to the honors program or consent of instructor.

MATH 1488 Calculus II (Honors) [4-0]
as scheduled
Topics include methods and applications of integration, alternative coordinate systems, parameterizations, infinite sequences and series. Topics are viewed as useful tools and are studied in the context of calculus as a discipline. Prerequisites: MATH 1487 (or MATH 1460) with a grade of C or better or appropriate high school background and/or placement scores, together with admission to the honors program or consent of instructor.

MATH 2330 Elementary Statistics and Probability [3-0]
(Texas Common Course Number is MATH 1342.)
as scheduled
This course is intended to provide the student with an elementary overview of the mathematical nature and uses of descriptive statistics and inferential statistics. Topics include the definitions and fundamental theorems concerning measures of central tendency and dispersion, empirical and theoretical concepts of probability, the central limit theorem, tests of hypotheses, interval estimation, chi-square tests and regression and correlation. Equivalent Course: STAT 2330. Credit may be received in only one of MATH 2330 or STAT 2330. Prerequisite: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam.

MATH 2335 Introduction to Biostatistics [3-0]
fall, spring, summer
Topics include introduction to biostatistics; biological and health studies and designs; probability and statistical inferences; one- and two-sample inferences for means and proportions; one-way ANOVA and nonparametric procedures. Equivalent course: STAT 2335. Credit may be received in only one of MATH 2335 and STAT 2335. Prerequisites: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam.
MATH 2346  Mathematics for Electrical and Computer Engineering  [3-0]
as scheduled
This course covers the essentials of matrix theory, graph theory, numerical methods and introduction to proofs for majors in Electrical and Computer Engineering. Topics include Gauss-Jordan elimination, matrix algebra, determinants, graphs, trees, root finding algorithms, numerical differentiation, numerical integration, and numerical matrix methods propositional and predicate logic, and formal logic proofs. Prerequisites: CSCI 1380 or CMPE 1370 or CSCI 1370 with a grade of C or better and MATH 1460 with a grade of C or better.

MATH 2387  Probability and Statistics - Honors  [3-0]
as scheduled
An enriched introductory probability and statistics course with topics chosen from descriptive statistics, probability, and inferential statistics. Special emphasis will be given to problem solving using statistical calculators and software. Credit Restriction: Credit may be received for only one of MATH 2330, STAT 2330 and MATH 2387. Prerequisites: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam, together with admission to the honors program or by permission.

MATH 2388  Introduction to Biostatistics (Honors)  [3-0]
as scheduled
Topics include introduction to biostatistics; biological and health studies and designs; probability and statistical inference; one- and two-sample inferences for means and proportions; one-way ANOVA and nonparametric procedures. Credit Restriction: Credit may be received for only one of MATH 2335, STAT 2335, and MATH 2388. Prerequisites: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam, together with admissions to the honors program or consent of instructor.

MATH 2401  Calculus III  [4-0]
(Texas Common Course Number is MATH 2415.)
as scheduled
Topics include vectors, calculus of several variables, partial derivatives, multiple integrals and vector calculus including the Divergence Theorem and Stoke’s Theorem. Prerequisite: MATH 1470 with a grade of C or better.

MATH 3303  History of Mathematics  [3-0]
as scheduled
This course is a study of the historical development of ideas that shape modern mathematical thinking. Although mathematicians are studied, emphasis is placed on mathematical development. Prerequisite: MATH 1470 with a grade of C or better.

MATH 3311  The Organizational Structures and Processes of Mathematics  [3-0]
as scheduled
This course examines the content and organization of logical, axiomatic and algorithmic structures and the corresponding networks of concepts, principles and skills in the field of mathematics. It includes the analysis, justification and application of such mathematical processes as those for proofs, algorithms, problem solving and applications of mathematics. This course aims at developing an advanced level of understanding of mathematics (content and method) up through integral calculus. Prerequisite: MATH 1470 with a grade of C or better.

MATH 3328  Introduction to Mathematical Proof  [3-0]
fall, spring, summer
This course is intended to prepare the student for advanced mathematics courses that require the writing of proofs. It reviews the elementary proof methods and the logical structure underlying them. It examines the formal definitions and basic properties of the mathematical structures that one encounters when constructing proofs, and it recounts famous theorems concerning these structures that every mathematician needs to know. Students are expected to construct, independently, non-routine mathematical proofs and to present their work in written form. Substantial written work is required. Prerequisites: MATH 1460 with a grade of C or better.

MATH 3333  Mathematics in a Computer Environment  [3-0]
fall, spring, summer
This course studies mathematics that can be developed and explored in an environment that includes the computer as the primary investigate tool. Prerequisite: MATH 1470 with a grade of C or better.

MATH 3337  Applied Statistics I  [3-0]
as scheduled
This course concerns itself with probabilistic models, regression analysis, nonparametric statistics and the basics of experimental design. Computer laboratory experience will be an important part of the class. Equivalent Course STAT 3337. One may receive credit for only one of MATH 3337 and STAT 3337. Prerequisites: Junior standing and either MATH 1340 or MATH 1341. It is highly recommended that the student have some knowledge of statistics such as is offered in MATH 2330.

MATH 3338  Applied Statistics II  [3-0]
as scheduled
This course is a continuation of MATH 3337 and includes special designs, analysis of variance and covariance, multiple comparisons and coding. Equivalent course: STAT 3338. Credit can be received for only one of MATH 3338 and STAT 3338. Prerequisite: MATH 3337 or STAT 3337.
The course covers basic theory of linear programming, an introduction to the simplex method, path-following interior-point methods, and applications of linear programming. Examples will be presented through visualization and computational methods. Programming will be done in MATLAB. Prerequisite: MATH 3345 with a grade of "C" or better.

MATH 3366 Discrete Mathematics [3-0]
as scheduled
The course addresses mathematical topics readily used in computer science, including formal logic, mathematical proof, counting techniques, functions and relations, an introduction to compatibility, the Church-Turing thesis. Prerequisites: MATH 1460 or MATH 1342, and CSCI/CMPE 1370 or higher, all with a grade of C or better.

MATH 4302 Number Theory [3-0]
as scheduled
This course surveys the basic elements of sampling including concept of population and sample, the organization of a sample survey, coverage content error, questionnaire design, basic survey designs, and computation of estimates and variances. Equivalent course: STAT 4336. Credit may be received in only one of MATH 4336 and STAT 4336. Prerequisites: MATH/STAT 2330 with a grade of C or better.
and moment generating functions, functions of random variables and limiting distributions. Prerequisite: MATH 1470 with a grade of C or better.

MATH 4340 Probability and Statistics II [3-0] as scheduled
This course covers special undergraduate topics in mathematics that are not taught elsewhere in the University. Prerequisites: Math 4351 and Math 4352 with grades of "C" or better.

MATH 4348 Advanced Linear Algebra [3-0] as scheduled
This is a proof-based course of linear algebra topics chosen from vector spaces, linear transformations, determinants, matrices, equivalence relations, canonical forms, inner product spaces, linear functionals, and applications. Prerequisite(s): MATH 3328 and MATH 3345, both with a grade of "C" or better.

MATH 4351 Modern Algebra I [3-0] as scheduled
This course provides an introduction to algebraic structures. Topics are to be taken from groups, rings and fields. Prerequisites: MATH 3328 and MATH 3345, both with a grade of C or better.

MATH 4352 Modern Algebra 2 [3-0] as scheduled
This course continues the study of algebraic structures from Math 4351. Topics include groups, rings, and fields, with applications to geometric constructability and solvability by radicals. Prerequisites: Math 4351 with grade C or better.

MATH 4357 Real Analysis I [3-0] as scheduled
This course presents a rigorous introduction to the elements of real analysis. Topics include sequences, series, functions, limits, continuity and derivatives. Prerequisites: MATH 1470 and MATH 3328, both with a grade of C or better.

MATH 4358 Real Analysis 2 [3-0] as scheduled
This course is a continuation of MATH 4357. Topics include Riemann integration of a single variable function; continuity, differentiation and integration of multivariable functions; the mean value theorem; the implicit and inverse function theorems; Green's theorem; and the convergence of sequences and series of functions. Prerequisites: MATH 4357 with grade C or better.

MATH 4360 Topology [3-0] as scheduled
This course presents a rigorous introduction to the elements of topology. Topics include a study of metric spaces, separation axioms, topological spaces and topological properties of point sets and mappings. Prerequisite: MATH 1470 and MATH 3328, both with a grade of C or better.

MATH 4363 Algebraic Geometry [3-0] as scheduled
This course is a first introduction to the ideas behind Algebraic Geometry: Nullstellensatz, the definition of varieties, and mappings between them. To illustrate key ideas and motivate theorems, this course focuses its attention on concrete examples, often making use of mathematical software for visualization. Additionally, students may learn about computational techniques and how to use them. Prerequisites: MATH 3328 with grade of C or better.

MATH 4366 Differential Geometry [3-0] as scheduled
Starting with multi-variable calculus, this course will develop the theme of invariants attached to the geometry of curves and surfaces. The various notations of curvature of surfaces are related to curvature and torsion of curves. The contrast between local and global phenomena is also emphasized. Topics will include Gauss' "Theorema Egregium" and the Gauss-Bonnet Theorem. Visualization of ideas with mathematical software will be regularly present. Prerequisites: MATH 3328, MATH 3345, and MATH 2401, all with grade of C or better.

MATH 4377 Applied Regression [3-0] as scheduled
This course discusses applications of Regression in the areas of science and engineering, business, and economics, health science and humanities, education and psychology. The topics include: simple and multiple linear regression, ordinary and weighted least square techniques, outliers detection, multicollinearity, variable selection, dummy variables, logistic regression etc. Prerequisites: MATH/STAT 2330 (Elementary Statistics and Probability) and either MATH 1460 (Calculus I) or MATH 1342 (Business Calculus).

MATH 4390 Mathematics Project [3-0] as scheduled
This course is designed to give students experience in research not normally covered within standard courses. Research projects will vary according to student interest and faculty availability. Students will complete a major mathematical research project communicating its results in oral and written form. Prerequisites: 12 advanced MATH hours with grades of C or better, and consent of instructor.

MATH 4391 Mathematics Research [3-0] as scheduled
This course is designed to give students experience in research not normally covered within standard courses. Research projects will vary according to student interest and faculty availability. Students will complete a major mathematical research project communicating its results both in oral and written forms to the department faculty and students. Prerequisites: 12 advanced MATH hours with grades of C or better, and consent of instructor.

MATH 4399 Special Topics in Mathematics [3-0] as scheduled
This course covers special undergraduate topics in mathematics that are not taught elsewhere in the
Modern/Classical Literature

MCLL 2301 Special Topics in Modern/Classical Literature [3-0]
This special topics course explores the literary manifestations of the classical and modern world. Using a historical approach to the study of literature, the students examine the evolution of literary genres or movements in classical and modern cultures. The objective of this course is to expand the student’s knowledge of the human condition and human cultures, especially in relation to behaviors, ideas and values expressed in literary works.

Mechanical Engineering

MECE 1101 Introduction to Mechanical Engineering [0-3]
fall, spring, summer
Introduction to mechanical engineering as a career, the requirements for registration as a professional engineer and the fields of specialization within mechanical engineering. Approaches to engineering problem solving and the graphical presentation of data. Introduction to the main software packages used in engineering. Engineering design stages and implementation within design teams.

MECE 1221 Engineering Graphics [1-3]
fall, spring, summer
This course provides an introduction to computer-aided drafting techniques. Topics include methods of graphical communication, two- and three-dimensional drawing presentation, working drawing, data analysis, design synthesis and production methods.

MECE 2140 Engineering Materials Laboratory [0-3]
fall, spring, summer
This lab is an introduction to the characterization of crystallographic and microstructural properties of solids and the relationship of these characteristics to the mechanical behavior of metallic, polymeric, and composite materials.

Course focus is on the use of industrial and research grade instrumentation to solve realistic problems in materials selection and materials engineering. Prerequisite: A grade of “C” or better in CHEM 1307 and CHEM 1107 or CHEM 1301 and CHEM 1101, and credit for or enrollment in MECE 2340.

MECE 2303 Statics [3-0]
(Texas Common Course Number is ENGR 2301.)
fall, spring, summer
The study of forces, moments, friction, centers of mass, gravity and pressure using the equations of equilibrium in vector algebraic and calculus forms. Prerequisites: A grade of “C” or better in PHYS 2401, and credit for or enrollment in MATH 1470.

MECE 2304 Dynamics [3-0]
(Texas Common Course Number is ENGR 2302.)
fall, spring, summer
Kinematics, dynamics, work-energy and impulse-momentum methods applied to engineering problems involving particles and rigid bodies. Prerequisite: A grade of “C” or better in MECE 2303 and MATH 1470.

MECE 2335 Thermodynamics I [3-0]
fall, spring, summer
Classical thermodynamics with primary emphasis on application of the first and second laws of thermal systems. Introduction to physical and chemical equilibria. Prerequisite: A grade of “C” or better in CHEM 1307 or CHEM 1301, MATH 1470, and PHYS 2401.

MECE 2405 Engineering Mechanics [3-3]
fall, spring, summer
Force vectors; free body diagrams; engineering applications of equilibrium; centroids; moment of inertia; kinematics and kinetics applied to engineering problems involving particles and rigid bodies. Prerequisite: A grade of “C” or better in PHYS 2401 and MATH 1470.

MECE 2450 Numerical Methods and Statistics for Engineers [3-3]
fall, spring, summer
This course offers students an in-depth exposure to the use of numerical methods and programming to solve engineering problems in addition to teaching them the basics of probability theory and statistics in Engineering. It covers the following topics: basic programming (including data
structure, if-then-else statements, loops, etc.), numerical solutions to linear and nonlinear equations, systems of linear equations, optimization, curve fitting, numerical calculus, probability theory, and statistics. The course content assumes only an introductory previous exposure to engineering concepts and focuses on exposing students to the programming skills commonly used in later engineering courses to solve problems numerically. Prerequisite: A grade of "C" or better in MATH 1470.

MECE 3100 Undergraduate Research [3-0] fall, spring, summer
This course is adapted to technological research with an emphasis in mechanical engineering. For advanced students capable of developing a problem independently through conference and activities directed by the instructor. The topic of research is chosen by the student with the approval of the instructor prior to registration. This course may be repeated for credit up to eight times. Prerequisite: Engineering major and consent of faculty advisor.

MECE 3115 Fluid Mechanics Laboratory [0-3] fall, spring, summer
Introduction to basic fluid mechanics instrumentation, computerized data acquisition and analysis. Experimental verification and reinforcement of analytical concepts introduced in MECE 3315. Prerequisite: Credit for or enrollment in MECE 3315.

MECE 3160 Heat Transfer Laboratory [0-3] fall, spring, summer
Measurements in basic heat transfer design and heat exchangers; computerized data acquisition and analysis, experimental verification on the theoretical and semiempirical results developed in MECE 3360. Prerequisite: Credit for or enrollment in MECE 3360.

MECE 3304 System Dynamics [3-0] fall, spring, summer
The course covers lumped-parameter modeling of mechanical, electrical, fluid and thermal systems. An energetic approach based on bond graph techniques, invented in 1959 by Henry M. Paytner, is introduced. Primary focus is on analysis of linear first- and second-order systems with some exposure to analysis of higher-order systems. Transient and steady-state responses are examined. Time- and frequency-domain analysis methods are covered. Advanced topics include state-space modeling and feedback control of dynamic systems. Prerequisites: A grade of C or better in MECE 2304 and MECE 3450.

MECE 3315 Fluid Mechanics [3-0] fall, spring, summer
Laws and theory relative to incompressible fluids, continuity, momentum and energy relations; internal and external flow in laminar and turbulent regimes; design of piping systems and aircraft parameters. Prerequisites: A grade of C or better in MECE 2335, MATH 2401 or MECE 3449, and MATH 3349 or MECE 3450.

MECE 3320 Measurements and Instrumentation [2-3] fall, spring, summer
Fundamentals of measurement systems; standards; treatment of data; statistics; uncertainty analysis; data acquisition; transducers; strain; force; acceleration; pressure; temperature; and fluid flow. Prerequisites: A grade of C or better in PHYS 2402 and MECE 3450.

MECE 3321 Mechanics of Solids [3-0] fall, spring, summer
This course covers internal forces and deformation in solids, concepts of stress and strain, formulas for stress and deflection for elastic bars, shafts, and beams, stress and strain transformation and theories of failure. Prerequisites: A grade of C or better in MATH 1470 and MECE 2303 or MECE 2405.

MECE 3336 Thermodynamics II [3-0] fall, spring, summer
Gas and two-phase power and refrigeration cycles, gas mixtures, chemical reactions, chemical equilibrium. The basic laws and concepts of thermodynamics are viewed as their use is encountered in the course. Prerequisite: A grade of C or better in MECE 2335.

MECE 3360 Heat Transfer [3-0] fall, spring, summer
Steady and unsteady one- and two-dimensional heat conduction. Forced and free convection, radiation and heat exchangers. Prerequisites: A grade of C or better in MECE 3315.

MECE 3380 Kinematics and Dynamics of Machines [3-0] fall, spring, summer
Kinematic and dynamic modeling and analysis of mechanisms and machines; study of machine components such as linkages, cams, gears, gear trains and differentials. Prerequisites: A grade of C or better in MECE 2304.

MECE 3385 Mechanical Vibrations [3-0] fall, spring, summer
Undamped and damped, free and forced vibrations of single degree of freedom systems with design applications to base excitation, unbalance, rotating shafts, isolation and absorption; multi-degree of freedom systems, continuous systems; transient response; numerical techniques used to analyze alternate designs and propose optimum solutions. Prerequisites: A grade of C or better in MECE 2304 and MATH 3349 or MECE 3450.

MECE 3449 Mechanical Engineering Analysis I [3-3] fall, spring, summer
The course offers engineering students an in-depth look into the following topics: linear algebra including matrices, vectors, determinants, linear systems and matrix eigenvalue problems; vector differential calculus and vector integral calculus including integral theorems; complex numbers and...
functions including complex integration; power series and Taylor series; numeric linear algebra; and probability and statistics. Prerequisites: A grade of C or better in MATH 1470 and credit for or enrollment in MECE 2450.

MECE 3450 Mechanical Engineering Analysis II [3-3] fall, spring, summer
The course offers engineering students an in-depth look into the following topics: first-order ODEs, second-order linear ODEs, higher-order ODEs and systems of ODEs; series solutions of ODEs and special functions; Laplace transforms; Fourier series, integrals and transforms; partial differential equations (PDEs); and numerics for ODEs and PDEs. Prerequisite: A grade of C or better in MECE 2450 and MECE 3449.

MECE 4101 Fundamentals of Engineering [0-3] fall, spring, summer
This course is a review of major engineering topics to prepare students for the Fundamentals of Engineering (FE) exam. Assignments are given to each topic covered, and students are required to take a practice exam. Prerequisite: Junior standing in engineering but within two semesters of graduation.

MECE 4304 Automatic Control Systems [3-0] fall, spring, summer
Classical control methods for linear-time-invariant systems are investigated including lead-lag, PID and state-feedback controllers. Time- and frequency-domain methods including transfer functions, stability analysis, time and frequency response, root locus and Bode plots are used to design and analyze automatic controllers for mechanical systems. The course also includes an introduction to modern control theory. Prerequisites: A grade of C or better in MECE 3304.

MECE 4305 Vehicle Systems Modeling and Control [2-3] fall, spring, summer
This course teaches the essentials of modeling and control principles needed to enable students to apply basic mathematics and physics concepts to derive models for numerical simulation of ground vehicle systems and to virtually prototype automatic controls for automotive applications. Prerequisites: A grade of C or better in MECE 3304.

MECE 4315 Compressible Fluid Flow [3-0] fall, spring, summer
Analysis of the flow of compressible fluids by means of the momentum equation, continuity equation and the laws of thermodynamics and some application of thermodynamic laws to incompressible fluids. Prerequisite: A grade of C or better in MECE 3315.

MECE 4316 Introduction to Acoustics [3-0] fall, spring, summer
Course is designed to develop an understanding of the fundamentals of acoustics, such as traveling waves in one-and two-dimensions, the derivation and nature of the fundamental fluid acoustic equations, the phenomena associated with reflection, transmission, radiation, reception, absorption and attenuation of sound, and the phenomena associated with cavities and waveguides, including sound propagation in pipes, resonators and filters. Prerequisites: A grade of C or better in MECE 3315.

MECE 4320 Introduction to Mechatronics [2-3] fall, spring, summer
This course will introduce students to the analysis, design and implementation of mechatronics systems. Mechatronics is an interdisciplinary engineering area that comprises the integration of mechanical engineering, electronics, control systems and computer science, which together contribute to design smart products and processes. Different topics in mechatronics, such as DC motors, stepper motors, H-bridges, PIC microcontrollers and others will be covered in class and complementary experiments will be performed in the laboratory. Prerequisites: A grade of C or better in ELEE 3307.

MECE 4322 Practice of Finite Elements [3-0] fall, spring, summer
This course is an introduction to finite element theory, and truss, beam and plate element formulation for linear static analysis. Application of boundary conditions, element convergence, isoparametric formulation and gauss quadrature are also examined. This course is design-oriented, with a substantial component involving the use of a commercial software package. Prerequisites: A grade of C or better in MECE 3321 and MATH 3349 or MECE 3450.

MECE 4323 Introduction to Combustion Engineering [3-0] fall, spring, summer
The topics covered in this course include: role of combustion in energy, environment and fire problems, thermodynamics of combustion (thermochemistry), fuels (gas, liquid, and solid), chemical kinetics, combustion of gaseous and vaporized fuels (flames), pollutant emissions, and modern measurements. Prerequisite: A grade of C or better in MECE 3315.

MECE 4324 Thermal Systems Design and Optimization [3-0] fall, spring, summer
This course combines the fundamental theories of thermodynamics, fluid mechanics, and heat transfer to model various thermal-fluid and energy systems, with a particular focus on design optimization. Topics covered by the course are: component selection under system performance requirements; computational modeling; system simulation; optimization techniques; and investment economics and statistical combinations of operating conditions. Prerequisite: Credit for or enrollment in MECE 3360.
MECE 4325 Composite Material Design [3-0]  
fall, spring, summer  
An introduction to the theory of mechanics of solids for elastic and viscoelastic composite materials. Emphasis on analysis and design of structural laminate composite including failure mechanism, e.g., fatigue, delamination and dynamics of composites including effective moduli and material damping. Students may not receive credit for both MECE 4325 and MECE 4345. Prerequisites: A grade of C or better in MECE 2340 and MECE 3321.

MECE 4326 Introduction to Ceramics Engineering [3-0]  
fall, spring, summer  
An introduction to the science and engineering of ceramic materials. Basic chemistry, structure and properties of engineering ceramics are covered. The unique, probability-based, design rules for engineering with these brittle materials are a special focus. Extensive time is devoted to special topics including electronic ceramics, distinctives of ceramic applications and bioceramics. Prerequisites: A grade of C or better in MECE 2340 and MECE 3321.

MECE 4327 Intermediate Materials Engineering [3-0]  
fall, spring, summer  
The course explores advanced topics in materials science and engineering. Coverage includes ceramic materials, electronic and electrical properties of materials and the newest nanoscale materials. Prerequisites: A grade of C or better in MECE 2340 and MECE 3321.

MECE 4328 Polymer Engineering [3-0]  
spring, spring, summer  
Introductory course designed to provide engineering students with a polymer materials science background that will enable them to design polymer components. Prerequisite: A grade of C or better in MECE 2340.

MECE 4329 Introduction to Nanotechnology [3-0]  
fall, spring, summer  
Course designed to introduce nanotechnology and nanoscience as well as to study the wide variety of technologies and potential applications that fall under the nanotech umbrella. This course provides an opportunity for the students to foster creative thinking given the vast potential in the area. Prerequisite: A grade of C or better in MECE 2340.

MECE 4330 Intro to Phys Metallurgy [3-0]  
fall, spring, summer  
Structure, properties, and selection of alloys; Significance of heat treatments and the effect on mechanical and other properties of materials; steel, phase transformation in steel (equilibrium, non-equilibrium), heat treatment of steel; Surface hardening: Aluminum alloys (heat treatable and non-heat treatable), Titanium, Magnesium, Zinc, Copper Alloys. Prerequisite: A grade of C or better in MECE 2340 and PHYS 2402.

MECE 4350 Machine Elements [3-0]  
fall, spring, summer  
Stress and deflection analysis, failure theories, design of machine elements for static and fatigue strength, design of welded and bonded connections and computer modeling applications. Prerequisites: A grade of C or better in MECE 2304, MECE 2340 and MECE 3321.

MECE 4360 Solar Energy [2-3]  
fall, spring, summer  
Fundamentals of solar energy system modeling, analysis, design and testing. Solar radiation, design and analysis of low and high temperature applications, passive and active solar thermal engineering, solar properties of materials, design of solar collectors, experimental testing of collector performance, energy storage systems. Prerequisites: A grade of "C" or better in ELEE 3307 and credit for or enrollment in MECE 3360.

MECE 4361 Senior Design Project I [1-6]  
fall, spring, summer  
This course is a preparation for a capstone design experience drawing from all previous coursework and involves engineering analysis methods, problem definition, assumptions and testing and reporting results. Classroom discussions will consider professional responsibility, ethics, technology and society, team building and lifelong learning. The project to be undertaken in Senior Design Project II (MECE 4362) will be selected, and a final design concept generated. The laboratory associated with this course will involve implementation of design methodologies and engineering science into a real-world design. Periodic progress reports and final oral and written reports will be required. Students may not receive credit for both MECE 4361 and ENGR 4161 and ENGR 4261. Prerequisite: Credit for MECE 3304 and MECE 3320, and credit for or enrollment in MECE 3360, MECE 3380, and, MECE 4350.

MECE 4362 Senior Design Project II [0-9]  
fall, spring, summer  
This course is a continuation of MECE 4361. Students will have the opportunity to conduct a comprehensive engineering design of the concept generated in MECE 4361 and report on the results. Synthesis using past coursework and outside reference material will be expected. Periodic progress reports and final oral and written reports will be required. Student may not receive credit for both MECE 4362 and ENGR 4362. Prerequisite: MECE 4361.

MECE 4365 Heating, Air Conditioning and Refrigeration Design [3-0]  
fall, spring, summer  
Heating, ventilation and air conditioning of buildings for human comfort or industrial processes; design selection, construction equipment and refrigeration systems. Prerequisites: Credit for or enrollment in MECE 3360.
This course is designed to provide an introduction to the anatomy and functional anatomy of the human upper and lower extremities. The material is covered in a modular, challenge-based format in which the investigation of the musculoskeletal mechanics of the various joints comprising the upper and lower extremities follows a specific sequence of learning activities designed to answer a challenge(s) concerning the joint(s). Challenges include: What strength is required to hold the iron cross position in gymnastics? How do your leg muscles activate when you walk? How high can you jump? Can you tear your ACL in a voluntary knee extension exercise? Prerequisite: A grade of C or better in MECE 2304.

Course designed to study loads and motion in the musculoskeletal system, tissue mechanics, structural analysis, bone implant systems, total knee replacements, articulating surfaces, introduction to computational packages in orthopedic biomechanics, computer aided design of implants, and finite element analysis. Prerequisites: A grade of C or better in MECE 2304 and MATH 3349 or MECE 3450.

This course covers the essentials of nonlinear dynamics and chaos in mechanical engineering. Topics include: Principles of dynamics, principle of virtual work, Hamilton principle, Lagrange equations, continuous systems applications. Nonlinear models and nonlinear phenomena. One-degree-of-freedom systems, qualitative analysis, equilibrium, stability, limit cycles, bifurcation, chaos, strange attractors and fractals; quantitative analysis, approximate asymptotic techniques; conservative systems, nonconservative systems, forced systems, subharmonic and superharmonic resonances, parametrically excited systems. Finite-degree-of-freedom systems, free oscillations of gyroscopic systems, forced oscillations of quadratic or cubic nonlinear systems, parametrically excited systems. Nonlinear continuous systems, beams, strings, plates. Experimental nonlinear dynamics and chaotic vibrations. Utilization of MATLAB in mechanical engineering applications related to nonlinear dynamics and chaos. Prerequisites: A grade of C or better in MECE 2304 and MECE 3450 or MATH 3349.

MGMT 3364 Organizational Theory [3-0] fall, spring
This course studies the theory and process of designing, utilizing and evaluating organizational structures. It includes the design of appropriate jobs which will fit into the organizational structure as well as adapting the organizational design to the operational and environmental demands of the organization. Prerequisite: MGMT 3361.

MGMT 3365 Compensation [3-0] fall, spring
This course presents the principles and practices of the determination of relative values of jobs and their applications to basic wage and salary structure. The class includes the formulation of a job evaluation plan and its accompanying wage structure. Prerequisites: ECON 2302, MGMT 3361 or consent of instructor.

MGMT 3366 Recruitment and Selection [3-0] fall, spring
This course is designed to provide an understanding of the process of recruitment and selection in organizations. It will cover the basic aspects of these areas (e.g. job analysis, legal issues, selection devices) as well as current issues such as global staffing, downsizing and contingent workers. While the focus of the course is from an organization's point of reference, a significant portion of the requirements will aid students in developing the tools, resources and awareness to get placed and promoted in organizations. Prerequisite: MGMT 3361 or consent of instructor.

MGMT 3367 Organizational Training and Development [3-0] as scheduled
This course is designed to provide students with the fundamental aspects of training as well as hands-on practical experience in developing training programs for organizations. The primary focus of this course deals with aiding students in developing the skills necessary to deliver training and development sessions that can be applied in organizations in order to meet the needs of the fast-paced, information-generating corporate environments that are necessary in firms today. A major emphasis will be on skill development in regard to the design and delivery of training that is both efficient and cost effective to the organization. Prerequisite: Junior or senior standing.

MGMT 4300 Topics in Management [3-0] as scheduled
Special topics in management as selected by the instructor.
Index

MGMT 4366 Foundations of Entrepreneurship and Small Business [3-0]
as scheduled
This course focuses on the special characteristics of entrepreneurial venture and small businesses. Emphasis will be placed on the identification of entrepreneurial opportunities and the essential function of management in the first year of operation of a new, growth-oriented business.

MGMT 4367 Purchasing and Supply Chain Management [3-0]
as scheduled
A study of the integration and coordination of activities, such as purchasing, outsourcing, materials management, logistics, supplier selection, global sourcing and international distribution, to create an effective flow of materials and information from suppliers to customers.

MGMT 4369 Strategic Management [3-0]
as scheduled
This capstone course for all Business Administration majors requires the broad integration of knowledge contained in functional, core and specialty areas, and focuses on the formulation, implementation and evaluation of strategy in both business and nonprofit organizations in a global environment. Cases, projects and practical applications in the course require in-depth analysis of competitive, economic, regulatory, cultural, technological, demographic and environmental variables as they influence strategy formulation. Prerequisites: MGMT 3361, MARK 3371, FINA 3383, completion of the business core analytical course requirement and completion of the business core international course requirement. This course must be taken in the semester in which the student is graduating.

MGMT 4370 Project Management [3-0]
as scheduled
This course focuses on the organizational function of managing projects process. It uses cases and applications in service sectors to enhance student understanding about the issues and challenges of managing workflow. Prerequisite: Junior level standing

MGMT 4371 International Management [3-0]
as scheduled
Course focuses on organizational issues including planning, organizing, staffing, communicating and controlling in an international environment and how these functions of management are affected by, and may need to be adapted for, the social/ cultural, economic, legal and political environments. The process of individual negotiation and the impact of culture and business practices may also be included. Various cultures and practices will be referenced. Prerequisite(s): Junior Level standing

MGMT 4399 Business Consulting [3-0]
as scheduled
This course is an on-site evaluation of an operating business by a student or students serving in the role of a consultant or consulting team. Course emphasis will be directed toward an analysis of the basic business functions of accounting, finance, production, marketing and management as they pertain to the successful operation of a business. Prerequisite: Upper division standing and consent of the department.

Mathematics - Other

MMAT 3309 Foundations of Mathematics III - Intermediate [3-0]
as scheduled
This course advances knowledge and skills from EMAT 2306 and EMAT 2307 and involves analyses of intermediate mathematical structures, their construction and synchronous mappings into multiple embodiments (e.g., symbolic, situational, technological, geometric, and others). Clinical, laboratory, and field experiences provide opportunities to construct and assess selected structures according to established theories. Prerequisites: EMAT 2306 and EMAT 2307, both with a grade of C or better.

MMAT 3312 Measurement and Geometry [3-0]
as scheduled
This course is an in-depth study of measurement and geometry. Topics include length, area, volume, the metric system, transformations, symmetry, congruency, similarity, proof and coordinate systems, using technology and the van Hiele model of geometry instruction. Prerequisite: EMAT 2307 with a grade of C or better.

MMAT 3313 Algebraic Structures [3-0]
as scheduled
This course is an in-depth study of algebraic structures. Topics include meaningful learning of concepts and properties of relations, functions, binary operations, groups, rings and fields, using technology when appropriate. Prerequisite: EMAT 2307 with a grade of C or better.

MMAT 3314 Basics of the History of Mathematics [3-0]
fall, spring, summer
An introductory study of the history of mathematics. The mathematics of various civilizations will be studied and will include topics from number systems, Euclidean geometry, number theory, algebra, analytic geometry, calculus, non-Euclidean geometries, and set theory. Equivalent course: EMAT 3314 Prerequisite: EMAT 2307 with a grade of C or better

MMAT 3315 Probability and Statistics [3-0]
as scheduled
This course is an in-depth study of probability and statistics. Topics include descriptive statistics, probability and inferential statistics, using calculator and computer technology. Prerequisite: EMAT 2307 with a grade of C or better.
MMAT 3316  Mathematics in a Computer Environment  [3-0]
as scheduled
This course studies mathematics that can be developed and explored in an environment that includes the computer as the primary investigative tool. Prerequisite: EMAT 2307 with a grade of C or better.

MMAT 3317  Basics of Discrete Mathematics  [3-0]
as scheduled
This course is an introductory study of discrete mathematics. Topics include uses of mathematical notation, concepts, principles, proofs applied to combinatorics, relations, graph theory, recursion and generating functions. Prerequisite: EMAT 2307 with a grade of C or better.

MMAT 3318  Basics of Number Theory  [3-0]
as scheduled
This course is an introductory course of number theory. Topics include uses of mathematical notion, concepts, factorization, gcd, lcm, modular theory, Diophantine equations, multiplicative functions, Pythagorean triples, Fibonacci sequences and applications to cryptography. Prerequisite: EMAT 2307 with a grade of C or better.

MMAT 3319  Mathematical Structures and Processes  [3-0]
as scheduled
An in-depth study in mathematical structures and processes. Topics include concepts, principles, skills, proofs, applications of logical, axiomatic, and algorithmic mathematical structures and processes. Prerequisites: EMAT 2307 with a grade of C or better.

MMAT 3320  Basics of Mathematical Modeling  [3-0]
as scheduled
An introductory study of mathematical modeling. Topics include the exploration of real world and mathematical situations using Algebra, Geometry, Probability and Statistics, and elementary Calculus using calculator and computer technology when appropriate. Prerequisites: EMAT 2307 and MATH 1450 with grades of C or better.

MMAT 3321  Mathematical Problem Solving  [3-0]
as scheduled
This course is a study of mathematical problem solving using heuristics to investigate problems drawn from algebra, geometry, probability, statistics and calculus with the aid of calculator and computer technology, when appropriate. Topics include Polya’s problem solving model, teaching for, about and via problem solving and problem posing. Prerequisite: MMAT 3309 with a grade of C or better.

MMAT 4322  Capstone Research Project  [3-0]
as scheduled
Students will have the opportunity to design, construct and evaluate research-based units and technologically enhanced materials for use in teaching mathematics in the middle school. The units will be composed of mathematical content selected from the history of mathematics, algebraic structures, measurement, geometric, probability, statistics, mathematical structures and processes, discrete mathematics, number theory, mathematical modeling and problem solving. Classroom discussions will address mathematical content, mathematical education research and research methodology. Oral presentations and written reports will be required. Prerequisites: MMAT 3315, MMAT 3320, and at least two of MMAT 3312, 3313, 3317, 3318. All with grades of C or better.

**Music**

MUS 1100  Rudiments of Music  [1-0]
fall, spring, summer
This course will be a study of the basic visual and aural skills of music and their application to music comprehension. Written concepts to be covered in the class include naming and identifying notes, major and minor scales and key signatures, simple and compound meters, intervals and triads. The class will also include introduction to aural dictation and keyboard skills.

MUS 1101  Guitar Ensemble  [1-0]
3102  [1-0]
fall, spring
Instrumental music ensemble open by audition to students who play guitar. Each course may be repeated any number of times; however, only four hours of each course will count toward a degree.

MUS 1103  University Choir  [1-0]
3104  [1-0]
fall, spring
Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times; however, only four hours of each course will count toward a degree.

MUS 1104  University Band  [1-0]
3105  [1-0]
fall, spring
Instrumental music ensemble open by audition to all University students who play appropriate instruments. Each course may be repeated any number of times; however, only four hours of each course will count toward a degree.

MUS 1105  Symphony Orchestra  [1-0]
3106  [1-0]
fall, spring
Instrumental music ensemble open by audition to students who play appropriate instruments. Each course may be repeated any number of times; however, only four hours of each course will count toward a degree.

Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times.

MUS 1106 Men's Chorus

Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times.

MUS 1107 Women's Chorus

Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times.

MUS 1109 Opera Workshop

An ensemble that stages scenes or complete works from opera and Broadway theater, open by audition to all University students. Each course may be repeated any number of times.

MUS 1111 Chamber Music

A course designated to promote collaborations within various chamber ensembles which include vocal and instrumental groups.

MUS 1112 Class Piano I

This class will provide a basis of keyboard musicianship with the objective of learning to read and play piano music and introduce the student to fundamentals of theory, musical structure and beginning piano literature. Block I of the Piano Proficiency Exam will be covered including scales, arpeggios, chord progressions and harmonization. (For music majors and minors only.)

MUS 1113 Class Piano II

This class will provide a basis of keyboard musicianship with the objective of learning to read and play piano music and introduce the student to fundamentals of theory, musical structure and beginning piano literature. Block II of the Piano Proficiency Exam will be covered including scales, arpeggios, chord progressions, harmonization and memorization of selected pieces. Prerequisite: Class Piano I. (For music majors and minors only.)

MUS 1114 Class Piano III

This class will provide a basis of keyboard musicianship with the objective of learning to read and play piano music and introduce the student to fundamentals of theory, musical structure and beginning piano literature. Block III of the Piano Proficiency Exam will be covered including scales, arpeggios, transposition, reading an a cappella open score and sight reading. Prerequisite: Class Piano II. (For music majors and minors only.)

MUS 1115 Voice Class

Vocal instruction for non-vocal music majors to include a foundation in healthy vocal technique, stage presence, an introduction to the elements of music and preparation of assigned songs. (For music majors and minors only.)

MUS 1181 Applied Music Composition

This course consists of private instruction in the concentration of the student's area of expertise (instrumental, vocal or composition). Credit for the course is earned on the basis of one weekly half-hour applied lesson and the minimum expectation for the student to practice this skill one hour every day. Each course may be repeated four times for credit. Prerequisite(s): None

MUS 1183 Applied Recital Collaboration

This course consists of private instruction with a collaborative pianist in preparation for a recital presentation. Credit for the course is earned on the basis of one weekly half-hour applied recital collaboration lesson and the minimum expectation for the student to practice this skill one hour every day. Each course may be repeated four times for credit. Prerequisites: Student must be a Music Major or a Music Minor.

MUS 1207 Jazz Ensemble

An instrumental music organization open to all college students who have an ability to play an appropriate instrument. Membership is determined by audition. Organization rehearses and performs popular, rock and jazz music for its own musical development and to satisfy requests on and off the campus. Each course may be repeated any number of times.

MUS 1208 Mariachi Ensemble

Instrumental and vocal music organization open by audition to all college students who have the ability to sing or play an appropriate instrument. The organization rehearse and performs traditional mariachi music at numerous on- and off-campus occasions. Each course may be repeated any number of times.

MUS 1221 Class Piano

Piano instruction for students who have no previous training in piano. Three class hours a week. Instructional fee: $10. (For students not majoring or minoring in music.)

<tr>
<td>MUS 2113</td>
<td>Aural Skills I</td>
<td>[1-0]</td>
<td>A lab developing ear-training skills, including sight-singing and music dictation. Prerequisite: None</td>
<td></td>
</tr>
</tbody>
</table>
MUS 2115  Aural Skills II  [1-0]  
spring, summer  
A lab developing ear-training skills, including sight-singing and music dictation. This course is a continuation of MUS 2113. Prerequisite: MUS 2113 with a C or higher

MUS 2120  Diction  [1-0]  
spring of alternate (even-numbered) years  
This course will undertake in-depth study of the International Phonetic Alphabet, formancy and placement of vowel and consonant sounds, and principles of pronunciation in Italian, German, French and English through readings and standard art song literature.

MUS 2122  Class Percussion  [1-0]  
(Texas Common Course Number is MUSI 1188.)  
spring  
Class instruction in the rudiments of performance on and care of a variety of basic percussion instruments.

MUS 2123  Class Brass  [1-0]  
(Texas Common Course Number is MUSI 2168.)  
fall  
Class instruction in the rudiments of performance and care of brass instruments.

MUS 2124  Class Woodwinds  [1-0]  
(Texas Common Course Number is MUSI 2166.)  
fall  
Class instruction in the rudiments of performance and care of woodwind instruments.

MUS 2125  Class Strings  [1-0]  
(Texas Common Course Number is MUS 1190.)  
spring  
Class instruction in the rudiments of performance and care of standard orchestral string instruments.

MUS 2127  Song Literature  [1-0]  
spring of alternate (odd-numbered) years  
This course covers two topics, a half semester each and may be team taught. The first involves song literature appropriate to young students in grades seven through 12, how to select a song for each grade level and how to select the proper key for individual students, including the male adolescent unchanged and changing voice. The second topic is a traditional brief survey of art songs in Italian, German and French. Students will be expected to make class presentations. Knowledge of diction and the International Phonetic Alphabet is recommended.

MUS 2128  Instrumental Literature  [1-0]  
fall, spring  
Study of instrumental literature for all performance levels: solos, chamber music, large ensembles, orchestral excerpts, and related materials.

MUS 2201  Music Literature  [2-0]  
fall, spring  
A survey of the literature of music for all media from earliest Greek music to contemporary works. A chronological study of the principal composers, their works and the development of music in relation to simultaneous historical developments. A course designed specifically for music majors and minors.

MUS 2212  Music Theory I  [2-0]  
(Texas Common Course Number is MUS 1311.)  
fall, spring  
This course will include a study of standard notation, meter types, conducting gestures, tonality, intervals, scales, modes, key signatures, immoveable do solfege, species counterpoint in quasi-16th century style, figured bass procedures, triads, seventh chord types and chord inversions. Prerequisite: MUS 1100 Rudiments of Music.

MUS 2214  Music Theory II  [2-0]  
(Texas Common Course Number is MUS 1312.)  
spring, summer  
This course will include a study of resolving dominant sevenths, cadence types, embellishing tones, four-part (SATB) scoring, figured bass realization, chorale harmonization, dominant substitutions, predominant chords, six-four chord types, submedian and median triads, phrase and harmonic period structure and sequence types. Prerequisite: Music Theory I.

MUS 2281  Applied Music Composition  [1-0]  
as scheduled  
This course consists of private instruction in the area of Music Composition. Credit for the course is earned on the basis of one weekly one-hour applied lesson and the minimum expectation for the student to practice this skill two hours every day. The principles of composition will be approached through traditional forms (variation, sonata) and through the imitation of specific 20th-century styles. Prerequisites: MUS 2214 and MUS 2115.

MUS 3102  Guitar Ensemble  [1-0]  
1101  
fall, spring  
Instrumental music ensemble open by audition to students who play guitar. Each course may be repeated any number of times; however, only four hours of each course will count toward a degree.

MUS 3104  University Choir  [1-0]  
1103  
fall, spring  
Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times; however, only four hours of each course will count toward a degree.

</tbody>
</table>
MUS 3186  Applied Junior Recital  [5-0]  as scheduled
This course consists of private instruction with the specific Intent to prepare a “junior recital”. A junior recital is a departmental requirement for the bachelor of music degree for students majoring in music performance/applied music. Credit for the course is earned on the basis of one weekly half-hour applied recital preparation lesson, the minimum expectation for the student to practice this skill one hour every day, and a successful presentation of a music recital. Prerequisite: Student must be Music Major or a Music Minor.

MUS 3207  Instrumental Conducting  [2-0]  fall, spring
This course is designed to develop the student’s ability to conduct rehearsals and performances of instrumental ensembles. Topics of study include empathetic gestural communication, effective rehearsal techniques, ability to perceive and correct errors in ensemble performance, ability to deal with advanced literature and conducting problems, develop analytical techniques and musicianship. Prerequisite: Theory IV and successful completion of Block III of the Piano Proficiency Exam.

MUS 3208  Jazz Ensemble  [2-0]  1207  [2-0]  fall, spring
An instrumental music organization open to all college students who have an ability to play an appropriate instrument. Membership is determined by audition. Organization rehearses and performs popular, rock and jazz music for its own musical development and to satisfy requests on and off the campus. Each course may be repeated any number of times.

MUS 3209  Choral Conducting  [2-0]  fall, odd-numbered years
This course is designed to develop the student’s ability to conduct rehearsals and performances of choral ensembles. Topics of study include empathetic gestural communications, effective rehearsal techniques, ability to perceive and correct errors in ensemble performance, ability to deal with advanced literature and conducting problems, develop analytical techniques and musicianship. Prerequisite: Theory IV and successful completion of Block II of the Piano Proficiency Exam.

MUS 3210  Mariachi Ensemble  [2-0]  1208  [2-0]  fall, spring
Instrumental and vocal music organization open by audition to all college students who have the ability to sing or play an appropriate instrument. The organization rehearses and performs traditional mariachi music at numerous on- and off-campus occasions. Each course may be repeated any number of times.

MUS 3212  Music Theory III  [2-0]  fall, spring
This course will include a study of secondary functions, four-two chords, phrase rhythmic and motivic analysis, compound melody, modulation methods, binary and ternary forms, modal mixture, altered chords, Neapolitan sixth and augmented sixth chord types and composition projects. Prerequisite: Music Theory II.

MUS 3214  Music Theory IV  [2-0]  fall, spring
This course is a study of extended tonal techniques including sets and set classes, serialism, 12-tone row matrix, chromatic modulation, 20th century techniques: modes, scales (whole-tone, pentatonic, octotonic, blues) and composition projects. Also included is a study of formal organization of variation forms, rondo, sonata forms, song form and concerto form. Prerequisite: Music Theory III.

MUS 3216  Elementary Music  [2-0]  spring
Designed for music education majors planning to teach music in elementary schools, this course provides knowledge and experiences aimed at improving the student’s understanding, skills and confidence as a teacher and musician. A major component of this course is the development of methods vital to the educator as a manager of classroom discipline and primary agent of learning in the music environment. Prerequisite: Junior standing.

MUS 3217  Secondary Music  [2-0]  fall, spring, summer
Designed for music education majors planning to teach music in secondary schools, this course provides knowledge and experiences aimed at improving the student’s understanding, skills and confidence as a teacher, musician and conductor. A major component of this course is the development of methods vital to the educator as a manager of classroom discipline and primary agent of learning in the music environment. Prerequisite: Junior standing.

MUS 3221  Secondary Choral Methods  [2-0]  fall, even-numbered years
This course is required for all choral and keyboard majors and is designed to prepare the student for successful entry-level teaching. Topics for study include the organization and administration of the secondary choral program, the male and female adolescent voice and techniques and materials for the teaching of music reading. Also included will be strategies for preparing students for University Interscholastic League sight reading contests. Teaching presentations require keyboard ability. Prerequisites: Completed Second-Year Theory (Theory IV) and Block III of the Piano Proficiency Examination.

MUS 3282  Applied Music Composition  [1-0]  as scheduled
This course consists of private instruction in the area of Music Composition. Credit for the course is earned on the basis of one weekly one-hour applied lesson and the
minimum expectation for the student to practice this skill two hours every day. The principles of composition will be approached through traditional forms (variation, sonata) and through the imitation of specific 20th-century styles.

Prerequisite(s): MUS 2281

MUS 3301 History of Music I [3-0]  
fall
Advanced study of the evolution of musical art from its beginnings through the Baroque era. Prerequisite: MUS 2201 with a grade of C or higher.

MUS 3302 History of Music II [3-0]  
spring
Continuation of MUS 3301. Prerequisite: MUS 3301 with a grade of C or higher.

MUS 3307 Women in Music [3-0]  
as scheduled
The course introduces students to women composers in Western culture from Hildegard von Bingen (1098-1179) to the present. Course content includes biographical information, contributions to music and listening. This course provides an opportunity for students to learn about artistically creative women as well as the elements, structure and appreciation of music and musical styles.

MUS 3311 Essential Elements of Music I [3-0]  
fall, spring, summer
Basic elements of music with appropriate techniques and principles of singing, playing, moving and listening to music. Not for music majors. This course meets the Other Humanities option (Group 4) of the University core curriculum requirements in Humanities. Prerequisite: Junior standing.

MUS 4107 Men's Chorus [1-0]  
1106  [1-0]
fall, spring
Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times.

MUS 4108 Women's Chorus [1-0]  
1107  [1-0]
fall, spring
Vocal music ensemble open by audition to all University students who qualify. Each course may be repeated any number of times.

MUS 4110 Opera Workshop [1-0]  
1109  [1-0]
fall, spring
An ensemble that stages scenes or complete works from opera and Broadway theater, open by audition to all University students. Each course may be repeated any number of times.

MUS 4112 Chamber Music [1-0]  
1111  [1-0]
fall, spring
A course designated to promote collaborations within various chamber ensembles which include vocal and instrumental groups.

MUS 4186 Applied Senior Recital [5-0]  
as scheduled
This course consists of private instruction with the specific intent to prepare a "senior recital". A senior recital is a departmental requirement for the bachelor of music degree for students majoring in music education or music performance/applied music. Credit for the course is earned on the basis of one weekly half-hour applied recital preparation lesson, the minimum expectation for the student to practice this skill one hour every day, and a successful presentation of a music recital.
Prerequisite(s): Student must be a Music Major or a Music Minor.

MUS 4201 Form and Analysis [2-0]  
spring
Historical development of form and consideration of balance, symmetry and the principles of musical structure, analysis of phrase structure, simple part forms, variation forms and contrapuntal forms. Special consideration of the sonata-allegro form as found in the symphony, concerto and sonata. Prerequisite: MUS 2314.

MUS 4203 Orchestration and Arranging [2-0]  
fall
Techniques of scoring and editing music for band, orchestra and instrumental ensembles, ranges, timbres, voicings and limitations of the instruments. Prerequisite: MUS 2314.

MUS 4208 Conducting II [3-0]  
fall
Advanced baton technique. Continuation of instruction begun in MUS 3207, with emphasis on gestural communication and score study. Prerequisites: MUS 3207 and junior standing in music.

MUS 4212 Choral Arranging [2-0]  
fall
Students learn homophonic and contrapuntal techniques for arranging choral music in two to eight voice parts, and study the characteristics of male and female voices in grades six through 12. Prerequisites: MUS 2314 and junior standing in music.

MUS 4309 Counterpoint [3-0]  
A study of tonal counterpoint in the eighteenth-century Baroque style. The main emphasis is on writing, though there is analysis. Most classes are conducted as workshops, with students and instructor working on exercises in eighteenth-century Baroque counterpoint. Prerequisite: MUS 3214 with a grade of C or higher.
Index

Nursing

NURS 2301 Wellness [2-4]
This course is designed to introduce the student to theories, concepts and practices related to wellness, with an emphasis on self-care. The student will have an opportunity to practice and demonstrate competency in selected self-care skills in a simulated situation. Prerequisite: None.

NURS 3202 Pharmacology [2-0]
This course introduces the student to pharmacological concepts and nursing responsibilities for drug therapy. Dosage calculations, safe administration and the use of the nursing process in the various methods of medication therapy are emphasized. Prerequisite: Consent of the BSN faculty.

NURS 3209 Research [2-0]
This course enables the student to be a knowledgeable nursing research consumer. An orientation to the research process, various methods of inquiry and ethical considerations are presented to assist the student in critical evaluation and appropriate applications of research findings to practice. Prerequisites: Statistics; consent of the BSN faculty.

NURS 3307 Special Topics in Nursing [3-0]
This course is designed to provide students the academic flexibility to study contemporary issues and practices in the nursing profession. The course may be repeated for credit when the topics vary. Prerequisite: Consent of the department.

NURS 3308 Clinical Concentration [1-8]
This course provides an opportunity to study a selected area of clinical nursing. The student will utilize the nursing process while caring for clients in a supervised clinical site. Prerequisite: Consent of the BSN faculty.

NURS 3309 Women’s Health Issues [3-0]
This course is designed to introduce the student to theories, concepts, practices and issues related to women’s health, with an emphasis on self care. Psychosociocultural, political and ethicolegal factors will be addressed and analyzed. Prerequisites: None Cross-listed as WMST 3309 Women’s Health Issues.

NURS 3403 Client Assessment [3-4]
This course allows the student to have an opportunity to apply psychological, social, and cultural concepts conjointly with anatomy/physiology and assessment skills used in evaluating the health status of clients. The student will also have an opportunity to use laboratory settings to practice cognitive, affective, and psychomotor skills in the systematic assessment of clients and their environment. Prerequisite:

NURS 3405 Mental Health Nursing [3-0]
This course provides continued use of nursing concepts in the care of clients experiencing alterations in mental health. The nursing process is emphasized as it relates to altered psychosocial integrity. Prerequisites: NURS 3202, NURS 3403, NURS 3408, NURS 3604 and/or consent of the BSN faculty.

NURS 3407 Professional Mobility [4-0]
This course is designed to assist the learner in developing a personal philosophy of professional nursing. Changes in the health care delivery system (sociocultural, economic, political, ethicolegal, technological) and their impact on nursing will be described. Emphasis will be placed on the nursing process. Prerequisite: Admission to the BSN Program or consent of the BSN faculty.

NURS 3408 Health Promotion and Maintenance Across the Life Span [2.5-6]
summer
This course expands on the concepts of wellness, health promotion, health maintenance, health restoration and disease prevention across the life span. The nursing process and critical thinking skills will be applied as they relate to selected health alterations. Students will demonstrate competency in performing nursing skills in a variety of health care settings. Emphasis is placed on the application of the theoretical components to the teaching-learning process as it relates to health promotion activities. Prerequisites: NURS 3202, NURS 3403 and NURS 3604.

NURS 3604 Nursing Fundamentals [3-12]
This course introduces the student to fundamental health care concepts. The student will demonstrate competency in performing skills in a simulated situation prior to their application in a secondary health care setting. Prerequisites: NURS 2301 and admission to the BSN Program.

NURS 3608 Adult Health I [3-12]
This course provides for continued use of nursing concepts in providing care for two or more adults in a secondary health care setting. The nursing process is emphasized as it relates to alterations of selected body systems/functions. Prerequisites: NURS 3202, NURS 3403, NURS 3604 and NURS 3408.

NURS 4203 Issues in Nursing [2-0]
This course will enable the student to analyze issues, trends and problems in the delivery of nursing care. The student will identify an issue, trend or problem and evaluate its impact on the health care delivery system. Prerequisite: Consent of the BSN faculty.

NURS 4404 Community Health Nursing [2-8]
This course focuses on the role of the nurse in planning and providing primary care to individuals and groups in a community or rural setting. The course will emphasize complex socio-cultural, political, economic and health issues
Philosophy

PHIL 1305 Critical Thinking [3-0]
fall, spring, summer
This class will investigate what it is to think critically. Strong emphasis will be placed on the following: reading critically, analyzing texts, identifying and systematically representing arguments, recognizing formal and informal fallacies and rationally evaluating what is heard and read.

PHIL 1310 Introduction to Philosophy [3-0]
(Texas Common Course Number is PHIL 1301.)
as scheduled
An introduction to some of the major philosophical questions that have intrigued mankind over the centuries. This will be done through an examination of the thought of some of the most important figures in the history of philosophy from the early Greeks to modern times. Credit Restriction: Credit may be received in only one of PHIL 1310 or PHIL 1387.

PHIL 1321 Introduction to Formal Logic [3-0]
fall, spring, summer
This class is an introduction to some of the formal techniques available for evaluating the correctness or incorrectness of arguments. Formal techniques likely to be discussed include: symbolization in propositional logic, parsing trees, truth tables or truth trees, natural deduction in propositional logic, Venn diagrams and the probability calculus. Restriction: Credit may be received in only one of PHIL 1320 or PHIL 1321. Prerequisite(s): MATH 1334 with a grade of C or better, or ACT math score 20 or better, or THEA math score 260 or better, or ACCUPLACER College Level Mathematics part score 70 or better.

PHIL 1330 World Religions [3-0]
as scheduled
Religion is intimately involved in the ways that people come to know themselves, each other, and the world around them. World Religions examines topics such as: how sacred stories provide people with a worldview; how religious claims and values shape and legitimize social structures and behavior, how various types of rituals function; and how, ultimately, religion serves as a reality-defining institution. These topics are studied in the light of religions such as Judaism, Christianity, Islam, Hinduism, Buddhism, and the traditional religions of Africa and North America.

PHIL 1387 Introduction to Philosophy (Honors Plan) [3-0]
as scheduled
An introduction to philosophical questions through an examination of major figures and themes in the history of philosophy from ancient to modern times. Credit Restriction: Credit may be received in only one of PHIL 1310 or PHIL 1387. Prerequisite: Admission to Honors Studies Program or by permission of the program director.

PHIL 1388 Introduction to Logic (Honors Plan) [3-0]
as scheduled
An introduction to the fundamentals of clear and effective thinking through an examination of the principles of correct reasoning, the structure of knowledge and common obstacles to rational thought. Credit Restriction: Credit may be received in only one of PHIL 1320 or PHIL 1388. Prerequisite: Admission to Honors Studies Program or by permission of the program director.

PHIL 2330 Ethics [3-0]
(Texas Common Course Number is PHIL 2306.)
as scheduled
This course will be concerned with human values: our own and those of other people. It will ask where those values come from and how we can know they are worth something, and it will examine several related questions such as personal freedom and the meaningfulness of human life.

PHIL 2350 Introduction to Social and Political Philosophy [3-0]
(Texas Common Course Number is PHIL 2307.)
fall, spring, summer
A critical introduction to the current and historical relationships that define contemporary society and politics. Topics may include democracy, capitalism, communism,
anarchism, political authority, norms, justices, rights, pluralism and rights.

PHIL 2360 Introduction to Religious Literature [3-0]
as scheduled
This course is a survey of literary and historical narrative texts from the Hebrew and Christian scriptures, the Koran, Hindu Vedas, mystical and devotional literature, the Book of Mormon and the other sacred writings. An emphasis will be placed on discussions of the art of religious narrative, the major themes of sacred stories, and the historical setting of the various texts. This will include analysis of cultural frameworks within which such religious literature emerged, and the way the religious texts have influenced cultural practices and beliefs.
Prerequisite(s): None

PHIL 2370 Introduction to Asian Philosophy [3-0]
as scheduled
An analysis of the major movements in Eastern philosophy and religion and their relationship to basic philosophical developments in the West. This course will examine systems of thought and culture such as Buddhism, Hinduism, Confucianism, Taoism and Shinto.
Prerequisite(s): None

PHIL 2371 Introduction to Christianity [3-0]
as scheduled
Whether you are a skeptic or a believer, an insider or an outsider to the tradition, Christianity is a powerful influence in your world. Chances are, though, that you don’t know much about how it got to be that way. What are Christianity’s leading ideas, what has shaped its history, and what are the continuing controversies in which it is involved? This course will explore these questions through primary source readings, discussion, and films. The evolution of doctrine, worship and social thought will be examined in a variety of traditions—Roman Catholic, Orthodox, and Protestant—and in a variety of historical contexts, ranging from the world of the earliest followers of Jesus to contemporary theological trends.
Prerequisite(s): None

PHIL 2372 Introduction to Judaism [3-0]
as scheduled
Judaism is not just Christianity without Christ, but a vital religious tradition in its own right. Grounded in the Hebrew Bible and the ongoing interpretation of sacred texts, Judaism has continued to grow. This introductory course covers some basics of religious practice (prayer, Torah study, observing the Sabbath and holy days, keeping kosher, etc.) while considering issues about Jewish identity in changing contexts. Judaism encompasses the spiritual aspirations and intellectual challenges of people who claim to be covenantal as they have spread out across the globe and as they have returned to the land of Israel.
Prerequisite(s): None

PHIL 2373 Introduction to Islam [3-0]
as scheduled
This course will examine the religion of Islam: from its faith, practices, and sectarian splintering, through its expansion outside its original home to a status as a world religion, and consideration of its contemporary institutions and position in world societies throughout Asia, Europe, and the Americas.

PHIL 2380 Introduction to Latin American Philosophy [3-0]
as scheduled
An examination of some of the most important and influential contributions to Latin American thought. Material to be studied will be drawn from both past and contemporary sources. Topics may include Mayan and Aztec Philosophy, Iberian Scholasticism, Latin American Positivism, Liberation Theology and/or Philosophy, Latin American Feminism, and Hispanic/Latino/a Identity.
Prerequisite(s): None

PHIL 2390 Professional Ethics: Engineering [3-0]
as scheduled
This course will employ the tools of ethical theory to examine moral issues and problems facing professionals in such fields as business, industry and technology, medicine, social work, criminal justice and law. The content of individual sections of this course may be derived from any of the fields listed above or from a combination of them, depending on student need.

PHIL 2391 Professional Ethics: Biomedical [3-0]
fall, spring, summer
This course will address the application of moral theories, ethical principles and professional codes to ethical dilemmas faced by professionals in health care or research. Topics covered may include, but are not limited to, euthanasia, conflicts of interest, physicians as researchers, distribution of scarce resources and the impact of theories like moral relativism and psychological egoism on the application of ethical theory.

PHIL 2392 Professional Ethics: Business [3-0]
fall, spring, summer
This course will address the application of moral theories, ethical principles and professional codes to ethical dilemmas faced by business professionals, employers and employees. Topics covered may include, but are not limited to, conflicts of interest, globalization, duties to future generations, stakeholder theory, the value of labor and the impact of theories like moral relativism and psychological egoism on the application of ethical theory.

PHIL 2393 Professional Ethics: Engineering [3-0]
fall, spring, summer
This course will address the application of moral theories, ethical principles and professional codes to ethical dilemmas faced by business professionals, employers and employees. Topics covered may include, but are not limited to, whistleblowing, integrity, honesty, liability and the impact of theories like moral relativism and psychological egoism on
the application of ethical theory.

PHIL 2395 Environmental Ethics [3-0]
as scheduled
This course will address the application of moral theories and ethical principles to environmental issues and problems. Topics covered may include the nature and extent of human responsibility for the environment, philosophical analysis of the concepts of "nature" and "natural", whether nature and the environment is intrinsically or merely instrumentally valuable, the nature and extent of our responsibilities to future generations, and whether entities other than humans have moral rights. Prerequisite(s): None

PHIL 3305 Philosophical Methods [3-0]
fall, spring, summer
This class will teach the sophisticated critical thinking and reasoning skills, research and writing methods that are expected of advanced students of philosophy. Particular emphasis will be placed on how to construct undergraduate research papers in philosophy using online and other professional resources.

PHIL 3310 Research Ethics: Biology [3-0]
fall, spring, summer
A survey of ethical issues involving research methods for students in pre-Med, biomedical or bioengineering programs, or students who intend to pursue graduate study in these areas. The course will examine the professional practices of medicine and biomedical research, review the variety of ethical concerns that can arise in these practices, and offer ethically appropriate strategies for resolving those concerns. A research paper, analysis of relevant case studies, and classroom presentations form part of the expectations for students who take this course. Prerequisite: Consent of Instructor.

PHIL 3320 Symbolic Logic [3-0]
fall, spring, summer
This class will be a continuation of Philosophy 1321, Introduction to Formal Logic, and will be concerned with the principles and methods used in symbolic logic to distinguish between valid and invalid arguments. Prerequisite: PHIL 1321 or consent of instructor.

PHIL 3330 Aesthetics [3-0]
fall, spring, summer
This course will address classic issues in the philosophy of art and beauty and the philosophy of art and art criticism. These issues will be illustrated from the fine arts and contemporary media ó literature, drama, music, painting, film and television. Course may focus on a specific genre of art.

PHIL 3331 Philosophy of Film [3-0]
fall, spring, summer
Examines philosophical issues through the lens of film. Possible topics include image and reality, representation and culture, beauty, politics, morality and aesthetic theory. Equivalent Course: FILM 3331; may be counted as Philosophy or Film Studies course in satisfying degree requirements. Credit may be received for only one course. Prerequisite(s): None

PHIL 3359 History of Philosophy: Ancient [3-0]
fall, spring, summer
This course will discuss the development of Western philosophy (primarily in Ancient Greece) from the pre-Socratics through to Aristotle. Emphasis is likely to be placed on Plato and Aristotle.

PHIL 3360 History of Philosophy: Medieval [3-0]
fall, spring, summer
This course will survey the major figures and issues of medieval philosophy in their historical context. Philosophers from the Christian, Jewish and Islamic traditions will be examined. Possible topics include realism, nominalism, Augustinianism and scholasticism.

PHIL 3361 History of Philosophy: Modern [3-0]
as scheduled
A study of the history of philosophy from the Renaissance through the 18th century, with particular emphasis on Descartes, Spinoza, Leibniz, Hobbes, Locke, Berkeley, Hume and Kant. Prerequisite: Three hours of philosophy or consent of instructor.

PHIL 3362 From Kant to Nietzsche [3-0]
fall, spring, summer
This course will address major trends and figures in the development of philosophy in the 19th century. Topics likely to be discussed are German Idealism, Romanticism, dialectical materialism, existentialism and pragmatism as manifest in the thought of Hegel, Kierkegaard, Marx, Pierce and James.

PHIL 3363 Existentialism and Phenomenology [3-0]
fall, spring, summer
This course will address major figures and issues in existentialism and phenomenology. Potential topics to be covered are the historicity of values, the nature of the subject/object distinctions, life, death, meaning and authenticity. Some possible figures for study are Husserl, Bataille, Nietzsche, Sartre, Heidegger, Merleau-Ponty.

PHIL 3364 Contemporary Continental Philosophy: Deconstruction, Postmodernism and Critical Theory [3-0]
fall, spring, summer
This course addresses topics in post-Heideggerian continental philosophy. Some potential movements and thinkers include deconstruction (Derrida), genealogy (Foucault), postmodernism (Lyotard, Agamben, Ranciere, Balibar), hermeneutics (Gadamer) and critical theory and contemporary Marxism (Benjamin, Adorno, Courdieu, Hardt, Negri, Laclau, Moushe).

</thead>
<tbody>
<tr>
<td>PHIL 3365</td>
<td>Contemporary Analytic Philosophy</td>
<td>[3-0]</td>
<td>fall, spring, summer</td>
<td>This class is a study of the development of analytic philosophy during the 20th century. Authors whose work might be discussed include Frege, Russell, Carnap, Quine, Putnam, Davidson, Strawson, Grice, Dummett, Lewis, Kripke, Moore, Chisholm, Rawls, Williams, Austin and Sellars.</td>
</tr>
<tr>
<td>PHIL 3370</td>
<td>Philosophy of Religion</td>
<td>[3-0]</td>
<td>as scheduled</td>
<td>A philosophic study of the nature and varieties of religious experience, the meaning and validation of religious belief, the act of faith, the nature and existence of God, the problem of evil, mysticism, immortality, religious belief and moral conduct, religion and myth, and religion and culture. Prerequisite: Three hours of philosophy.</td>
</tr>
<tr>
<td>PHIL 3376</td>
<td>Feminist Theories</td>
<td>[3-0]</td>
<td>as scheduled</td>
<td>This course is designed to examine the variety of existing feminist theories and their roots in diverse modes of philosophical analysis. It will explore how various feminist theories are consonant with or diverge from their base theories and from each other and whether such theories are still cogent. Methodology will incorporate both feminist pedagogy and traditional philosophical analysis, including feminist critique of the tradition. Prerequisite: PHIL 1310.</td>
</tr>
<tr>
<td>PHIL 3379</td>
<td>Chicana and Latin American Feminisms</td>
<td>[3-0]</td>
<td>as scheduled</td>
<td>This course is designed to explore Chicana and Latin American forms of feminisms, including their philosophies, history, and social movements. May be repeated twice for credit.</td>
</tr>
<tr>
<td>PHIL 3381</td>
<td>Latin American Positivism</td>
<td>[3-0]</td>
<td>fall, spring, summer</td>
<td>This course will study the main philosophic movement in Latin America from the early 1800’s to the 1900’s, Latin American Positivism. The course will focus on Positivism as developed in Argentina, Brazil, Chile, México, and Perú. The course may include discussion of Francisco Bilbao, Manuel González Prada, Víctor Raúl Hay de la Torre, Eugenio María de Hostos, José Victoriano Lastarria, José Ingenieros, José Carlos Mariátegui, José Martí, and Justo Méndez Sierra. Prerequisite: None</td>
</tr>
<tr>
<td>PHIL 3390</td>
<td>Philosophy of Law</td>
<td>[3-0]</td>
<td>fall, spring, summer</td>
<td>Examination of the institution of law, legal concepts, legal reasoning, and the legal process. Topics may include the nature of law; the moral limits of the criminal law; legal rights; liberty, justice, and equality; punishment; responsibility; the private law (property, contract, and tort); constitutional law; and feminist jurisprudence. Prerequisite: None</td>
</tr>
<tr>
<td>PHIL 4310</td>
<td>Epistemology</td>
<td>[3-0]</td>
<td>fall, spring, summer</td>
<td>This course will consider questions about the nature, criteria and sources of (epistemic) justification and knowledge. For example, under what circumstances do perception, memory, consciousness, reason and testimony endow us with justified beliefs? How is context relevant to justification and knowledge? Is there such a thing as religious knowledge? Is skepticism about the external world a serious threat? Does knowledge have a foundation?</td>
</tr>
<tr>
<td>PHIL 4320</td>
<td>Philosophy of Science</td>
<td>[3-0]</td>
<td>as scheduled</td>
<td>A philosophical examination of the assumptions and methodology of scientific inquiry, with examples drawn from the natural sciences. This course will consider the structure, meaning, confirmation and use of scientific theories, as well as the philosophical implications of current theories in science. Previous course number: PHIL 3325; a student may receive credit in only one course. Prerequisite: Three hours of philosophy or consent of instructor.</td>
</tr>
<tr>
<td>PHIL 4321</td>
<td>Topics in Religion and Science</td>
<td>[3-0]</td>
<td>as scheduled</td>
<td>This course seeks to survey the main issues in the interaction between science and religion, beginning with a comparison of the tasks of scientific and theological investigation and discourse, and looking at models of the interaction between the two, with concrete historical examples of each. In addition, the course will explore in further detail some of the major points of intersection between religion and science, including: physics, metaphysics and cosmology, biological evolution and the assessment of its religious significance by different traditions; models of God popular among scientists and those living in a scientific age (theism, pantheism, panentheism); and ethical issues raised by developments in science and technology. Prerequisite(s): None</td>
</tr>
<tr>
<td>PHIL 4330</td>
<td>Metaphysics</td>
<td>[3-0]</td>
<td>fall, spring, summer</td>
<td>Metaphysics investigates the nature, constitution and structure of reality. In this class we shall discuss some of the major problems in metaphysics. Topics might include existence, modalities and possible worlds, universals and particulars, the structure of concrete particulars, space and time, events, identity across time and realism and anti-realism.</td>
</tr>
<tr>
<td>PHIL 4340</td>
<td>Philosophy of Mind</td>
<td>[3-0]</td>
<td>as scheduled</td>
<td>A study of consciousness, emphasizing the nature of awareness and experience. Topics concerning the capacities and creative powers of mind will be examined in theories based on physical, functional and metaphysical arguments. Previous course number: PHIL 3341; a student may receive credit in only one course. Prerequisite: Three hours of philosophy or consent of instructor.</td>
</tr>
</tbody>
</table>
PHIL 4350  Moral Theory  [3-0]
fall, spring, summer
This course will consider questions about the foundations of moral justification, the nature of moral reasons and whether a convincing case can be made for objectivity in moral judgments. A number of options in ethical theory might be discussed, including moral realism, metaethical relativism, noncognitivism, naturalism, sensibility theories, constructivism and practical reasoning theories.

PHIL 4351  Topics in Applied Ethics  [3-0]
fall, spring, summer
This course will address the application of ethical theory to contemporary moral problems and the types of issues that arise in such applications. The particular field of applied ethics may vary between areas such as business ethics, biomedical ethics, environmental ethics, research ethics, etc. May be repeated for up to nine credit hours with the consent of the instructor.

PHIL 4355  Social Political Philosophy  [3-0]
fall, spring, summer
A critical examination of the current and historical relationships that define contemporary society and politics. Topics may include democracy, capitalism, communism, anarchism, political authority, rights, justice, power, pluralism, and tyranny. Prerequisite: None

PHIL 4380  American Philosophy  [3-0]
fall, spring, summer
This course will explore the diverse traditions, ideas, and thinkers that have shaped American culture in the past and today. Important works from Native American, African American, Latin American, and Puritan sources may be examined, as well as works from such intellectual movements as Transcendentalism and Pragmatism. Prerequisite(s): None

PHIL 4390  Special Topics in Philosophy  [3-0]
as scheduled
A study of selected issues or figures in philosophy; content will vary. May be repeated for up to nine hours credit as content changes. Prerequisite: Three hours of philosophy or consent of instructor.

PHIL 4391  Latin American Philosophy: Special Topics  [3-0]
as scheduled
This course will study different issues, themes, or figures in the field of Latin American Philosophy. Content will vary according to instructor expertise and student interest. May be repeated for a total of nine credit hours as long as the content of the courses is significantly different. Prerequisite(s): None

PHYS 1401  General Physics I  [3-3]
(Texas Common Course Number is PHYS 1401.)
fall, spring, summer
An algebra-based introduction to the principles of mechanics, fluids, heat, waves and sound for students fulfilling a natural science requirement and premedical students. The course includes three laboratory hours a week to emphasize course concepts. Prerequisite: MATH 1340. Recommended: Credit for or concurrent enrollment in MATH 1356. $4 laboratory fee.

PHYS 1402  General Physics II  [3-3]
(Texas Common Course Number is PHYS 1402.)
fall, spring, summer
A continuation of PHYS 1401 covering the principles of electricity, magnetism, light and modern physics. The course includes three laboratory hours a week to emphasize course concepts. Prerequisite: PHYS 1401. $4 laboratory fee.

PHYS 2401  Physics for Scientists and Engineers I  [3-3]
(Texas Common Course Number is PHYS 2425.)
as scheduled
At the calculus-based level, this course introduces the student to the principles of mechanics, fluids, heat, waves and sound for majors in physics and engineering. The course includes three laboratory hours a week for reinforcing, through experiment, the concepts taught in the lecture. Prerequisite: MATH 1460
Fees: $20 laboratory; $4 technology.

PHYS 2402  Physics for Scientists and Engineers II  [3-3]
(Texas Common Course Number is PHYS 2426.)
fall, spring, summer
A continuation of PHYS 2401 covering the principles of electricity, magnetism, electromagnetic wave phenomena and optics. The course includes three laboratory hours a week to emphasize course concepts. Prerequisite: PHYS 2401. $4 laboratory fee.

PHYS 2411  Physics for Teachers I  [3-3]
as scheduled
This course is primarily designed for students pursuing a degree in teaching physics. It involves a calculus-based study of mechanics, wave motion, sound, and fluids. The course is primarily taught using inquiry-based approach to provide students with solid content preparation. This course includes three laboratory hours a week to develop students' ability to gather, organize, analyze, and interpret experimental data. Laboratory, technology, and course fees...
362

The course acquaints students with models and equations of state for various systems. Prerequisites: PHYS 2402 and MATH 2401.

PHYS 3305 Classical Mechanics [3-0]  
fall even years  
This course is designed to provide a rigorous understanding of classical dynamics. Concepts covered include the motion of a particle to a system of particles in one, two and three dimensions; detailed treatment of the conservation laws, rigid body motion and rotating systems. It introduces students to Lagrange and Hamiltonian dynamics and noninertial reference frames. Prerequisites: PHYS 2402 and MATH 2401.

PHYS 3306 Introduction to BioPhysics [3-0]  
fall odd years  
Topics include the levels of organization within biological systems, flow of energy in living things including an introduction to the thermodynamic systems utilized in biological research, and an introduction to the physical techniques used in the study of biological systems. Prerequisites: PHYS 1401 and 1402.

PHYS 3307 Introduction to Solid State Physics [3-0]  
spring even years  
An introduction to the field of solid state physics. Topics include crystal structure, bonding in condensed matter, X-ray diffraction, crystal binding energies, free electron theory of solids, energy bands, boundaries and interfaces, and mechanical, electronic, optical, magnetic and superconducting properties of materials. Prerequisite: PHYS 2402.

PHYS 3308 Introduction to Nanotechnology [3-0]  
spring  
This course is an introduction to nanoscale physics in order to understand nanoscience and nanotechnology. It will investigate size effects and fabrication methods of nanoscale systems. Topics covered in the course include the role of size effects on the physical, chemical and biological properties of nanoparticles, nanotubes and catalysts and self-assembly approaches for nanoparticle-biомaterials hybrid systems in nanobiotechnology and medical treatment. The course will also examine the uses of nanotechnology and the impact it has on our society. Prerequisites: MATH 1340 and either one of the following courses: PHYS 1402, PHYS 2402, PSCI 1422, CHEM 1302, BIOL 1402.

PHYS 3309 Introduction to Medical Imaging [3-0]  
spring  
This course will look at the wide range of techniques used for medical imaging and the underlying physical principles they are based on. This course is an introduction to medical diagnosis imaging techniques, e.g. magnetic resonance imaging, scanning tomography and general imaging by x-rays. Topics covered also include the interaction of light on living cells and use of ionizing radiation in diagnosis and therapy. Prerequisites: MATH 1340 and either one of the
following courses: PHYS 1402, PSCI 1422, CHEM 1302 or BIOL 1402.

PHYS 3310 Radiation Biophysics [3-0] spring
This is an advanced course in radiation biophysics. It will cover radiation chemistry, radiation carcinogenesis, genetic effect of ionizing radiation, metabolism and biological effects of deposited radionuclides, radiation inactivation of enzymes, nucleic acids and viruses, biological effects of ultraviolet radiation, photosensitization, radiation protection and sensitization, radiation effects in vivo, cancer radiation therapy and phototherapy. Prerequisites: PHYS 1402 or PHYS 2402.

PHYS 3311 Mathematical Methods in Physics [3-0] fall
This course provides an introduction to the mathematical tools used to describe physical systems and techniques for solving the resulting systems of equations. Topics may include vector analysis, complex analysis, Fourier series and linear algebra. Prerequisite: MATH 3349

PHYS 3402 Modern Physics [3-3] spring odd years
Prerequisite: PHYS 2402. $4 laboratory fee.
This course provides an introduction to 21st century physics. Topics may include a wide range of modern physics subjects such as atoms, molecules, clusters and nanomaterials, theory of solids. Also described will be the rudiments of quantum mechanics with simple applications, relativity, radioactive decay, particle physics, modern optics, and other recent research areas. Laboratory exercises illustrate key course principles and reproduce historic experiments.

PHYS 3404 Optics [3-3] spring odd years
This course is designed to provide a basic understanding of physical optics. Concepts covered include diffraction, interference, polarization, geometrical optics and spectroscopy. The course includes three laboratory hours a week to emphasize course concepts. Prerequisites: PHYS 2402 and MATH 2401. $4 laboratory fee.

PHYS 4101 Senior Laboratory Research [0-3] fall, spring, summer
The course is designed to acquaint the student with advanced research techniques. The student will have the opportunity to perform experiments of greater complexity and difficulty than those in Junior Laboratory. Students work directly with faculty on a directed individual research project. Prerequisites: PHYS 3101 and consent of instructor. $4 laboratory fee.

PHYS 4102 Senior Laboratory Research [0-3] fall, spring, summer
A continuation of PHYS 4101. Prerequisites: PHYS 4101 and consent of instructor. $4 laboratory fee.

PHYS 4103 Senior Laboratory Research [0-3] fall, spring, summer
A continuation of PHYS 4102. Prerequisites: PHYS 4102 and consent of instructor. $4 laboratory fee.

PHYS 4104 Research Laboratory in Physics Education [0-3] fall, spring, summer
This course is designed to acquaint students with elements of the research field. It includes the study, understanding and the design of modern topics in physics and classroom demonstrations. The methodology of effective presentations will also be developed and emphasized. The student will have the opportunity to learn to develop a project which will be presented in a designated UTPA course or conference for student appeal and its ability to convey a principle of physics. Prerequisite: PHYS 1402 or equivalent.

PHYS 4303 Quantum Mechanics I [3-0] spring even years
This course provides an introduction to the basic ideas of quantum mechanics. Concepts to be covered include wave functions, operator-eigenvalue formalism, bound states of the potential well and the harmonic oscillators. Selected examples such as the solutions of the hydrogen atom, angular momentum and spin will also be discussed. Prerequisites: PHYS 3305 and PHYS 3311.

PHYS 4304 Quantum Mechanics II [3-0] spring
This course explores more advanced concepts in Quantum Mechanics. Topics to be covered include time-dependent and time-independent Schrodinger equations, addition of angular momenta, perturbation theory, relativistic quantum theory and group theory and quantum mechanics. Applications to physics and chemistry will also be explored. Prerequisite: PHYS 4303

PHYS 4305 Statistical Mechanics [3-0] spring
This course explores the development of the macroscopic thermodynamical properties of physical systems from the behavior of their microscopic constituents. Topics include the partition function and its applications: entropy of an ideal gas, Maxwell velocity distributions and heat capacities of solids. Other topics will include blackbody radiation, Fermi-Dirac and Bose-Einstein statistics. Prerequisite: PHYS 3303 and PHYS 3311

PHYS 4308 Seminar in Physics [3-0] spring even years
Investigations of problems and progress in contemporary physics will be undertaken, based on the expertise of the instructor. Course may be repeated once for credit. Prerequisites: One year of physics and consent of instructor.

PHYS 4309 Nuclear and Particle Physics [3-0] fall even years
A study of atomic nuclei and the fundamental constituents of matter. Topics include nuclear structure, natural and artificial
Index

radioactivity, nuclear reactions, fission, fusion, particles, and their interactions, standard model of particle physics, particle accelerators, cosmic rays, experimental methods and examples from current research topics. Prerequisite: PHYS 3402.

PHYS 4310 Introduction to Atomic Physics [3-0]
fall odd years
This elective course will introduce to the undergraduate students a variety of topics in atomic and nuclear physics such as properties of atoms, atomic models, the periodic system of elements, modern atomic spectroscopy, quantum mechanical probabilities, properties of stable nuclei, nuclear decays and excitations, nuclear reactions, nuclear models, particles, applications of nuclear techniques and nuclear and atomic energy. Prerequisite: PHYS 4303.

PHYS 4401 Physics Education [3-3]
as scheduled
This course is a capstone course primarily designed for students intending to become high school teachers. It provides these pre-service teachers with strong pedagogical content knowledge. Through the use of research-based teaching strategies and assessments, students develop improved understanding of difficult-to-grasp concepts in mechanics, electricity, magnetism, heat, thermodynamics, optics, and modern physics. Students will develop teaching/learning materials appropriate for high school students.

The course is taught in an integrated lecture and laboratory format. Laboratory, technology, and course fees charged.
Prerequisite(s): PHYS 2411, PHYS 2412, PHYS 3303, PHYS 3402, PHYS 3404

Political Science

POLS 1333 Introduction to Political Science [3-0]
(Texas Common Course Number is GOVT 2304.)
fall, spring
Emphasis on political fundamentals, public law, theory and organization of the modern state, political dynamics and institutions. Open to freshmen. (Does not meet University core curriculum or state-mandated American and Texas government requirement.)

POLS 2313 U.S. and Texas Government and Politics [3-0]
(Texas Common Course Number is GOVT 2301.)
fall, spring, summer
The origins and development of the American governmental system; U.S. and Texas constitutions; federal, state and interstate relations; the individual as a citizen, person and voter; political parties; civil rights and the judicial system. Fulfills three hours of the legislative requirements of six hours of American and Texas government. Open to freshmen.

Credit Restriction: Credit may be received in only one of POLS 2313 or POLS 2387.

POLS 2314 U.S. and Texas Government and Politics [3-0]
(Texas Common Course Number is GOVT 2302.)
fall, spring, summer
A functional study of the U.S. and Texas constitutions and governments in relation to the legislative, executive and administrative processes; and a study of the policy process, including domestic and foreign policy areas. Fulfills three hours of the legislative requirements of six hours of American and Texas government. Open to freshmen. Credit Restriction: Credit may be received in only one of POLS 2314 or POLS 2388.

POLS 2331 Statistics in Political Science [3-0]
fall, spring, summer
Descriptive and inferential statistical methods as applied to the study of political issues and phenomena will be examined. Topics to be covered include data gathering, probability theory, hypothesis testing, and the linear regression model, with an emphasis on both parametric and non-parametric statistical methods. At the conclusion of the course, students will be able to conduct a statistical analysis of a research question in Political Science. Prerequisite: POLS 2313 and 2314, MATH 1340.

POLS 2334 Political Economy [3-0]
as scheduled
This course examines various economic models including private enterprise, capitalism, state capitalism and socialism; the impact of monetary and fiscal policy on the economy; and alternative viewpoints as to the appropriate extent of government regulation of the economy. Prerequisites: POLS 2313 AND POLS 2314.

POLS 2387 U.S. and Texas Government and Politics (Honors Plan) [3-0]
fall
The origins and development of the American governmental system; U.S. and Texas constitutions; federal-state and interstate relations; the individual as a citizen, person and voter; political parties; civil rights and the judicial system. Fulfills three hours of the legislative requirements of six hours of American and Texas government. Credit Restriction: Credit may be received in only one of POLS 2313 or POLS 2387. Prerequisite: Admission to Honors Studies or by invitation.

POLS 2388 U.S. and Texas Government and Politics (Honors Plan) [3-0]
spring
A functional study of the U.S. and Texas constitutions and governments in relation to the legislative, executive and administrative processes; and a study of the policy process, including domestic and foreign policy areas. Fulfills three hours of the legislative requirement of six hours of American and Texas government. Credit Restriction: Credit may be received in only one of POLS 2314 or POLS 2388.
Prerequisite: Admission to Honors Studies or by invitation.

POLS 3185 Internship [1-0]
as scheduled
This course is designed for students seeking credit through an internship placement. The internship must be closely related to government; the student must be under direct academic supervision and must complete written assignments to be evaluated by the supervising teacher. The course may be repeated for credit with a maximum of four hours counted as an elective toward fulfillment of the requirements for a major in political science. (Must receive approval of political science department chair.) Prerequisites: POLS 2313 and POLS 2314.

POLS 3300 Independent Studies in Political Science [0-0-3]
fall, spring, summer
A professor will work with students on an individual basis to develop an independent study or research program on a critical issue on Political Science. Prerequisites: POLS 2313 and 2314.

POLS 3301 Movies and Politics [3-0]
as scheduled
This course analyzes the way movies have examined the political and social impacts of various issues. The course includes such topics as the relationship between politics, corruption and power; the bases of discrimination; the idea of community; and the tension between institutional authority and individual autonomy. Equivalent Course: FILM 3301; may be counted as Political Science or Film Studies course in satisfying degree requirements. Credit may be received for only one course. Prerequisite(s): None

POLS 3302 Media and Politics [3-0]
fall, spring, summer
This course examines the way mass media have altered the dynamics of politics in both democratic and non-democratic societies. An introduction of various theories related to the media and politics will be followed by several case studies of the United States and other countries; e.g., France, China, Egypt. Prerequisites: POLS 2313 and 2314.

POLS 3313 Urban Politics [3-0]
fall, spring, summer
This course examines the politics of U.S. cities, focusing on the urban political process and institutions that will be considered in the light of changing social and economic conditions. Specifically, the course will examine the connections between increasing racial segregation, urban deindustrialization and urban inequality, along with the federal and state governments’ role in precipitating and perpetuating urban decline. Prerequisites: POLS 2313 and 2314.

POLS 3314 American State and Local Government [3-0]
as scheduled
A study of the basic functions, structure, procedures and problems of American state and local government, with an emphasis upon intergovernmental relations. Prerequisites: POLS 2313 and POLS 2314.

POLS 3316 American Public Policy [3-0]
as scheduled
An analysis of rationales underlying selected governmental programs and assessments of the effectiveness of these programs. Prerequisites: POLS 2313 and POLS 2314.

POLS 3317 Problems in American Public Policy [3-0]
fall, spring, summer
This course will analyze the salient domestic policy issues facing the United States today. Students will be introduced to the source of policy selected problems such as Education, Health Care, the Environment, and Entitlement Programs. They then will examine prominent theories and policy initiatives being developed and implemented to address these policy problems, and will evaluate selected issues in US public policy. Prerequisites: POLS 2313 and 2314, POLS 3316 recommended.

POLS 3318 Special Topics [3-0]
as scheduled
Significant issues and problems in politics and political systems. Course may be repeated for credit provided different topics are the focus of each class. (Does not count toward fulfillment of any of the six political science fields.) Prerequisites: POLS 2313 and POLS 2314.

POLS 3319 Environmental Policy [3-0]
as scheduled
An examination of the public debate over environmental issues will be coupled with an exploration of the development and formation of environmental policy. Additionally, specific environmental policies will be examined to include the politics and processes of regulatory decision making and their consequences for the environment. Prerequisites: POLS 2313, POLS 2314

POLS 3323 Introduction to Public Administration [3-0]
as scheduled
A survey of public administration in the United States, highlighting a wide variety of topics in the discipline, but with emphasis upon the general machinery of the national bureaucracy and on the powers, problems and control of its agencies. Prerequisites: POLS 2313 and POLS 2314.

POLS 3324 Government Organizations and Administration Theory [3-0]
as scheduled
An analysis of the various theories of public administration and government organization. The contribution of such theorists as Weber, Taylor, Mayo, McGregor, Maslow, Simon and others will be studied. The development of public administration will be surveyed. Prerequisites: POLS 2313 and POLS 2314.
The University of Texas-Pan American

POLS 3331 Methods of Political Science Research [3-0]
as scheduled
This course examines models of inquiry, research methods, and introduction to the use of computers in political research. Emphasis will be given to the background and development of research designs appropriate to both qualitative and quantitative methods of political science research. Prerequisites: POLS 2313, 2314, and 2331 (or approved statistics course).

POLS 3332 Advanced Quantitative Research Methods [3-0]
fall, spring, summer
Students will study the theory and application of quantitative methods to data in Political Science, enabling them to investigate Political Science topics using original/primary sources data and methods such as regression analysis and limited dependent variable analysis. This course is especially recommended for students who intend to pursue graduate studies in the Social Sciences. Prerequisites: POLS 2313 and 2314, POLS 2331 (or approved statistics course), and POLS 3331 (or approved Research Methods course).

POLS 3333 Classical Political Theory [3-0]
as scheduled
A study of classical political philosophy from Socrates to Machiavelli. Prerequisites: POLS 2313 and POLS 2314.

POLS 3334 Modern Political Theory [3-0]
as scheduled
A study of political philosophy from Machiavelli to the end of the 19th century. Prerequisites: POLS 2313 and POLS 2314.

POLS 3343 International Politics [3-0]
as scheduled
A study of the political principles, problems and factors involved in the foreign policies and relations of the nation-state with particular emphasis on the sources and uses of national power and the difficulties in limiting the use of such power. Prerequisites: POLS 2313 and POLS 2314.

POLS 3344 Contemporary Political Theory [3-0]
as scheduled
A study of 20th century political philosophy. Prerequisites: POLS 2313 and POLS 2314.

POLS 3363 Latinos and Latinas in U.S. Politics [3-0]
as scheduled
The political issues facing various Latino groups in the United States will be examined by focusing on the histories, socialization, culture, participation and policy issues relevant to the selected groups. Prerequisites: POLS 2313 and POLS 2314.

POLS 3364 U.S.-Mexico Border Relations [3-0]
as scheduled
The politics of the U.S.-Mexican border are examined, with foci on border relationships between the U.S. and Mexico, and the political economy and administration of the borderlands. Prerequisites: POLS 2313 and POLS 2314.

POLS 3365 Politics of Race, Immigration and Citizenship [3-0]
as scheduled
The relationship between immigration, citizenship policy and the social constructions of race and ethnicity are examined. The course analyzes the historical experiences of different racial/ethnic groups in the immigrant process and the evolution of the concept of U.S. citizenship viewed through the lens of race relations. Prerequisites: POLS 2313 and POLS 2314.

POLS 3367 Race and Ethnicity in U.S. Politics [3-0]
as scheduled
This course analyzes the political experiences of racial and ethnic groups in U.S. politics. Both traditional (e.g., voting) and non-traditional (e.g., protest movements) strategies of political empowerment are explored. Prerequisites: POLS 2313 and POLS 2314.

POLS 3375 Politics of Germany [3-0]
as scheduled
A study of the politics and government of Germany in the context of German history and culture. Examines the leading role of Germany within the European Union. Prerequisites: POLS 2313 and POLS 2314.

POLS 3376 Politics of Global Security [3-0]
as scheduled
This course is designed to: 1) Explore the evolution of security concepts worldwide; 2) Address a wide range of major international issues with global implications such as conventional security, terrorism, gender and age, environmental problems, migrations, international law, intra-state conflicts, mass destruction weapons; and 3) Identify and debate possible measures to address and present these problems. Prerequisites: POLS 2313 and POLS 2314.

POLS 3380 Gender in U.S. Politics [3-0]
as scheduled
This course examines multidimensional aspects of gender and political life in the U.S. It analyzes the relationship between gender, culture, political behavior and public policy, and explores the historical evolution of the role of women in the United States political system. Prerequisites: POLS 2313 and POLS 2314.

POLS 3381 Women in World Politics [3-0]
as scheduled
This course analyzes women's social and political movements in a global context. Prerequisites: POLS 2313 and POLS 2314.

POLS 3382 Politics of Women of Color [3-0]
as scheduled
This course will examine the politics of women of “color”
in the United States. The two primary foci will be: 1.
Theoretical issues related to feminism and how they relate
to women of "color;" 2. Political Policy, organizations, and
institutions that impact the lives of women of "color.
Material is presented in a comparative focus to include
examining similarities and differences between and among
women, and variations among them. Prerequisites: POLS
2313 and POLS 2314

POLS 3390 Democracy and Democratization [3-0]
as scheduled
This course examines how 1) democracy is conceptualized
and 2) democratization processes develop from a historical
and comparative perspective. Key questions center on the
implications, challenges and future prospects for democracy
and democratization around the world. Prerequisites: POLS
2313, POLS 2314, and Statistics (ANTH 2430, PSY 2401, SOC
2301, or MATH 2330)

POLS 3396 Community Leadership [3-0]
fall, spring
This course will help students apply leadership theory to
community service. A number of guest lectures, solicited
and scheduled by students, will introduce students to public
service opportunities in their own backyard. The guest
lectures will be presented by local community and university
leaders. Students will be required to interview these
leaders and write and present a biographical introduction
for them. Students will also be required to participate in a
community service organization and write a paper on the
experience. Students in this class will also partner with the
local leadership programs. Prerequisites: POLS 2313 and
POLS 2314.

POLS 3397 Archer Center Policy
Making Process [0-0-3]
fall, spring
This course provides an overview of how policy is made at
the federal level. Through various readings you will become
familiar with the process as it is designed. Through in-class
discussions, on-the-job experiences and meeting Washington
powerbrokers who help craft policy, you will see how the
process actually works. The course will be interactive, with
a strong focus on in-class discussion and guest speakers
who will challenge your views and provide an insider's
perspective on Washington. One policy area will be focused
on per semester to provide a thought provoking issue to
study, discuss, and analyze. Prerequisites: POLS 2313 and
2314, and acceptance into the Archer Center program.

POLS 3398 Archer Center Beyond
Congress and the White House [0-0-3]
fall, spring
This course will enable students to understand power in our
nation's capital, especially what lies beyond Congress and
the White House. Students will study in Washington, D.C.
provides unique opportunities, using locations such as the
National Mall, Arlington Cemetery, and the National Archives
as a textbook. Each week, students will visit different
places to examine complex issues such as the relationship
between democracy and war, or the future of the Internet.
Class will be conducted as a graduate seminar, emphasizing
discussion and other forms of participation. Work will relate
to student's internships and to headline-making events.
Prerequisites: POLS 2313 and 2314, and acceptance into the
Archer Center program.

POLS 3399 Archer Center Internship [0-0-3]
fall, spring
Students secure full time internships in Washington, D.C.
with organizations ranging from the Supreme Court to
the United Nations Information Center. Participation in
the internship for at least 32 hours a week is required
throughout the duration of the semester in Washington.
Students will be evaluated regularly via supervisor surveys,
and will be required to submit a final report on their
experience. Additionally, students will be encouraged to
bring their internship experiences into their other classes for
discussion and contribution. Prerequisites: POLS 2313 and
2314, and acceptance into the Archer Center program.

POLS 3488 Politics of Opera [3-0]
as scheduled
This course is a study of selected operas from the baroque,
classical, and romantic eras. These works are analyzed
in terms of the absolutist, enlightened, and nationalistic
theories and practices of their respective eras. Prerequisites:
POLS 2313 and POLS 2314

POLS 4300 Legal Research and Writing I [3-0]
as scheduled
An introduction to the techniques and skills involved in
conducting legal research. Special attention is given to
translating research into different forms of legal writing (i.e.,
memorandums and briefs).

POLS 4301 Legal Research and Writing II [3-0]
as scheduled
Continued development of legal research and writing skills,
with special attention paid to reading comprehension and
logical reasoning relating to legal issues. Prerequisites: POLS
2313 and POLS 2314.

POLS 4309 Public Fiscal Administration [3-0]
as scheduled
Scheduled survey and analysis of governmental budgeting
and public finance, emphasizing theories, techniques,
procedures and implementation. Prerequisites: POLS 2313
and POLS 2314.

POLS 4313 Politics of Western Europe [3-0]
as scheduled
A study of the major democracies of Europe ó Great
Britain, France, Germany, Italy, low countries, Scandinavian
countries, Switzerland and Austria. A comparative study of
peoples and their institutions. Prerequisites: POLS 2313 and
POLS 2314.
The University of Texas-Pan American

Index

POLS 4314 Politics of the Middle East [3-0]
as scheduled
A comparative examination of the social, economic and theological components of Middle Eastern politics. Prerequisites: POLS 2313 and POLS 2314.

POLS 4320 American Constitutional Law: Federalism [3-0]
as scheduled
A study of national-state relations by use of court cases, with special emphasis on the impacts of the commerce and taxation clauses; a study of Congressional-presidential relationships by use of court cases. Prerequisites: POLS 2313 and POLS 2314.

POLS 4321 American Constitutional Law: Liberties [3-0]
as scheduled
A study of the limitations of governmental powers in the United States by use of court cases, with primary emphasis on civil and political rights. Prerequisites: POLS 2313 and POLS 2314.

POLS 4332 American Political Theory [3-0]
as scheduled
An analysis of American political theory and values from the Colonial period to the present. The work of Jefferson, Jackson, Calhoun, Bellamy, Hoover and Galbraith are included. Prerequisites: POLS 2313 and POLS 2314.

POLS 4353 International Organization [3-0]
as scheduled
An analysis of the judicial-political foundations. Actual machinery and activities of the principal international organizations, particularly the United Nations and related bodies. An appreciation of their achievements toward international peace. Prerequisites: POLS 2313 and POLS 2314.

POLS 4355 Intelligence Agencies in U.S. Politics [3-0]
as scheduled
This course examines the origins, structures, purposes, functions, and activities of intelligence agencies in the U.S. political system, and how intelligence agencies are used as instruments of both international and domestic government policy. Prerequisites: POLS 2313 and POLS 2314.

POLS 4360 American Executive Process [3-0]
as scheduled
Advanced study of the development of the power and influence of the president and other American executives; procedures and politics of the executive process; executive policy outputs; the relation of the executive to the other elements of the political system. Prerequisites: POLS 2313 and POLS 2314.

POLS 4363 American Legislative Process [3-0]
as scheduled
Advanced study of the legislative process; structure, powers, organization, political control and procedures of Congress, state legislatures and local legislative bodies in the rest of the political system. Prerequisites: POLS 2313 and POLS 2314.

POLS 4365 American Administration Process [3-0]
as scheduled
An advance study is made of law and procedures of national, state and local administrative agencies and their behavior, to include problems in administrative management, theory of complex organizations, and policy outcomes of the administrative process. Prerequisites: POLS 2313 and POLS 2314.

POLS 4367 American Judicial Process [3-0]
as scheduled
Advanced study of the structure, functions and procedures of the national, state and local judicial systems; the interrelationship between the American judiciary and other components of the political system; the impact of judicial decision-making on public policy; jurisprudence. Prerequisites: POLS 2313 and POLS 2314.

POLS 4370 Political Socialization and Civic Engagement [3-0]
as scheduled
This course analyzes the relationships between political culture, social characteristics and demography, and their impact on political values, attitudes and participation. Prerequisites: POLS 2313 and POLS 2314.

POLS 4371 Interest Groups and Political Movements in U.S. Politics [3-0]
as scheduled
This course analyzes the relationships between the role of collective action in the U.S. political system and its impact on the democratic process. Particular attention is paid to the role of organized interest groups and their influence on the political process. Prerequisites: POLS 2313 and POLS 2314.

POLS 4372 Voting Behavior, Campaigns and Elections in U.S. Politics [3-0]
as scheduled
This course examines voting behavior and political campaigns in U.S. politics, including analysis of the effects of political parties, issues, interest groups, campaign finances, media and campaign strategies on election and policy outcomes. Prerequisites: POLS 2313 and POLS 2314.

POLS 4373 Political Parties in the United States [3-0]
as scheduled
The history, organization, function and leadership of political parties and the role they play in the operation of national, state and local governments are examined. Prerequisites: POLS 2313 and POLS 2314.
POLS 4374 Public Opinion and Political Behavior [3-0] as scheduled
An analysis of public opinion and political behavior, with emphasis on the nature, origins, distribution and measurement of public opinion, as well as its impact on citizen participation in the U.S. political system. Prerequisites: POLS 2313 and 2314.

POLS 4375 American Foreign Policy [3-0] as scheduled
Study of the politics, formulation, conduct and consequences of U.S. foreign policy. The roles of the president, Congress, interest groups, political parties, the military and intelligence agencies and public opinion are examined. Specific cases of major foreign policy decisions to be examined. Prerequisites: POLS 2313 and POLS 2314.

POLS 4381 Contemporary Chinese Politics [3-0] as scheduled
By focusing on Chinese politics in the reform era, this course examines a wide range of critical issues in contemporary Chinese politics. Topics will include various political, social and economic problems resulting from the country's unparalleled economic and political reform. Prerequisites: POLS 2313 and POLS 2314.

POLS 4382 Asian Politics [3-0] as scheduled
This course examines the politics of China, Japan, and the Koreas, including topics such as the respective state institutions, political culture, state-society relations, foreign policy, regional cooperation, interactions, as well as conflicts. Through comparison and contrast, the course will further student's understating of this fast developing region of the world, and expand their knowledge of world politics. Prerequisites: POLS 2313 and POLS 2314.

POLS 4383 Politics of Central America and the Caribbean [3-0] as scheduled
A survey of governmental structures and politics in Central America and the Caribbean. Examines competing ideologies, group developments, party interests, influence of revolution, relationships among political, social and economic structures and Latin America's role in the world political arena. Prerequisites: POLS 2313 and POLS 2314.

POLS 4386 South American Politics [3-0] as scheduled
A survey of governmental structures and politics in South America. Examines competing ideologies, group developments, party interests, influence of revolution, relationship between political, social and economic structures and South America's role in the world political arena. Prerequisites: POLS 2313 and POLS 2314.

POLS 4387 Politics of Mexico [3-0] as scheduled
A study of the politics and government of Mexico focusing on the political system in the context of history and culture. Study of Mexico's relations with the United States and other nations. Prerequisites: POLS 2313 and POLS 2314.

POLS 4396 Survey of Texas and U.S. Leadership Models and Practices [3-0] fall, spring
This course examines leadership on a macro-level. Starting at the state level and moving on to a national scope, this class will explore case studies in both government and organizational leadership. Students will explore leadership styles, both successful and not, of a number of famous (or infamous) state and national leaders. In addition, students will examine a number of complex social issues that affect us on a state and/or national level. They will apply leadership theory, community building strategies and interdisciplinary approaches to propose a variety of solutions. Prerequisites: POLS 2313 and POLS 2314.

POLS 4397 Survey of World Leadership Models and Practices [3-0] fall, spring
This course examines leadership on a global level. Students will explore world leadership through case studies; examine the differences between leadership styles and models in Latin America, Europe, the Middle East, Asia and/or Africa. In addition, students will examine a number of complex social issues that affect society on a global level. They will apply leadership theory, community building strategies and interdisciplinary approaches to propose a variety of solutions. Prerequisites: POLS 2313 and POLS 2314.

Portuguese

PORT 1341 Beginning Portuguese I [3-0] (Texas Common Course Number is PORT 1311.) fall, spring, summer I
A study of the essentials of Portuguese grammar, punctuation, elementary conversation and prose reading. Prerequisite(s): None

PORT 1342 Beginning Portuguese II [3-0] (Texas Common Course Number is PORT 1312.) fall, spring, summer I
A continuation of PORT 1341, elementary conversation and prose reading. Prerequisite(s): PORT 1341

PORT 3301 Portuguese for Spanish Speakers [3-0] fall, spring
Intensive and accelerated study of the Portuguese language. Emphasis on similarities and differences between Spanish and Portuguese. Introduction to Portuguese and Brazilian
Physical Science

PSCI 1421  Physical Science I  [3-3]
(Texas Common Course Number is PHYS 1415)
fall, spring, summer
This course is designed to introduce the student to the concepts and principles of physical science for non-science and elementary school teacher majors. The topics include: mechanics, energy, astronomy, and meteorology. This course includes three laboratory hours per week for reinforcing, through experiment, the concepts taught in the lecture. Fees: $20 laboratory; $4 technology. Prerequisites: None.

PSCI 1422  Physical Science II  [3-3]
(Texas Common Course Number is PHYS 1417)
fall, spring, summer
This course is a continuation of PSCI 1421 and is designed to introduce the student to the concepts and principles of physical science for non-science and elementary school teacher majors. The topics include: waves, the nature of matter, chemistry, and earth science. This course includes three laboratory hours per week for reinforcing, through experiment, the concepts taught in lecture. Prerequisite: PSCI 1421.

PSCI 3310  Planet Earth and its Place in the Solar System  [3-0]
as scheduled
Through this course the student is exposed to information about the formation and interaction of the solar system and the Earth. The evolution of the Earth’s atmosphere and surface are discussed as well as the impact that these have had on the origin of life. Fees: $4 technology. Prerequisites: PSCI 1421, PSCI 1422 and GEOG 2313.

PSCI 3408  Survey of Physical Science  [3-3]
as scheduled
Introduction to topics of the physical sciences drawn from physics, chemistry and geology. Basic concepts from mechanics, electricity, magnetism, light, atomic structure, the elements and compounds, and simple reactions will be covered. The study of rocks, minerals and geological processes will be included. $4 laboratory fee.

PSCI 4311  Topics in Physical Science  [3-0]
as scheduled
A course that incorporates many different topics in physical science. Guest lecturers, student participation and basic concept presentation will be utilized for each topic. The course may be taken more than one semester for different topics. Prerequisites: MATH 1334 and eight hours of a physical science, or consent of instructor.

Psychology

PSY 1310  Introduction to Psychology  [3-0]
(Texas Common Course Number is PSYC 2301.)
fall, spring
An introduction to the discipline of psychology as a natural science and as an applied social science. This course includes topics such as the biological bases of behavior, sensation and perception, learning and memory, emotions, personality, abnormal psychology, therapy, developmental and social psychology. Previous course numbers: PSY 1310 replaces the previous PSY 1313/1323 sequence. PSY 1310 may be repeated to replace a grade for PSY 1313.

PSY 2401  Basic Statistics for Psychologists  [3-3]
(Texas Common Course Number is PSYC 2317.)
fall, spring
A practical study of the procedures used in handling psychological data including descriptive statistics, central tendency, variation, correlation and inference. Equivalent Course: May be counted as ANTH 2401; a student may receive credit in only one course. Prerequisites: MATH 1340 or higher (except EMAT 2306) and three hours of the following: PSY 1310, ANTH 1323, ANTH 1324 or ANTH 1342.

PSY 3324  Social Psychology  [3-0]
as scheduled
An overview of how groups and society influence behavior and thinking. The main topics include conformity, obedience, prosocial behavior (cooperation and helping others), the behavior of groups, attitudes and prejudice, as well as research on interpersonal attraction, including physical attractiveness and romantic love. The course also examines how everyday people are implicit psychologists, trying to explain and understand the behavior of others as well as their own. Prerequisite: Three hours of social science credit.

PSY 3325  Research Methods in Psychology  [3-0]
fall, spring
This course provides a lecture-laboratory approach to learning the scientific methodology of empirical psychological research. Basic principles and methods of research design, hypothesis testing, data collection and analysis and result interpretation are covered in this course. Prerequisites: PSY 1310 and PSY 2401.

PSY 3332  Developmental Psychology: Infancy Through Adolescence  [3-0]
fall, spring
An overview of human development from conception through adolescence. Topics include biological foundations, physical growth, language and cognition, social and personality development and important environmental/contextual factors which affect development. Traditional and recent theoretical perspectives are reviewed.
PSY 3333 Psychology of Adulthood: Maturity and Old Age [3-0] as scheduled
A study of such aspects of adulthood as job selection, marriage, child rearing and old age. Prerequisite: Six hours of psychology.

PSY 3337 Developmental Psychology: Lifespan [3-0] fall, spring
The field of developmental psychology is an overview of the physical, cognitive, social, emotional and personality domains of the changes that occur over time. The course focuses on normal development from conception through death. Traditional and theoretical perspectives are reviewed. Prerequisites: PSY 1310.

PSY 3338 Psychology of Gender [3-0] fall, spring, summer
This course reviews psychological perspectives on sex differences and in development of gender identity. Theoretical explanations of differences in female and male attitudes and behaviors will be addressed. Sex and gender will be discussed as they influenced social relations, including achievement, communication, friendship patterns, romantic relations and work roles, as well as mental and physical health. Cross cultural perspectives will be included. May be counted as PSY 3338 or WMST 3338; a student may receive credit in only one course. Prerequisite: Junior standing.

PSY 3340 Stress Management [3-0] as scheduled
This course introduces the student to a wide variety of stress reduction techniques and their implications for health. Practical experiences as well as research in such areas as biofeedback, relaxation training and meditation are provided. Prerequisite: PSY 1310.

PSY 3343 Tests and Measurements in Psychology [3-0] fall, spring
Concentrates on the theoretical aspects of test construction and on extensive survey of the major types of standardized tests used in industry, schools and mental health settings. Prerequisites: PSY 1310 and PSY 2401.

PSY 3345 Psychology of Learning [3-0] as scheduled
An introduction to the methods, results and interpretations of experimental studies of learning, including both animal conditioning and human memory. Emphasis will be placed on classical and instrumental conditioning procedures.

PSY 3353 Physiological Psychology [3-0] fall, spring
An analysis of the basic physiological mechanisms underlying behavior with emphasis on the role of the central nervous system in sensation, emotion, motivation, learning and memory. A knowledge of biology is helpful but not necessary.

PSY 3373 Sensation and Perception [3-0] as scheduled
A study of the basic mechanisms underlying sensation and perception. Experimental methods, research findings and theory are emphasized. Prerequisite: PSY 1310.

PSY 3383 Animal Behavior [3-0] as scheduled
An introduction to the methods, results and interpretation of studies of animal behavior from the perspectives of comparative psychology and ethology. An emphasis will be placed on social and communicative behavior. Prerequisite: PSY 1310.

PSY 4182 Directed Readings [1-0] as scheduled
Students will complete individually assigned readings on a selected topic under the supervision of a faculty member with whom specific arrangements have been made. May be repeated for up to two hours credit. Prerequisite(s): Nine hours of psychology and consent of instructor

PSY 4302 Primate Behavior [3-0] as scheduled
A review of the behavior of selected representatives of the order primates, based upon research conducted both in the laboratory and in the field. In addition, students will collect data on a representative primate group at the Gladys Porter Zoo in Brownsville. Equivalent Course: ANTH 4302; a student may receive credit for either PSY 4302 or ANTH 4302. Prerequisites: PSY 1310 and PSY 3383, or ANTH 1324, or consent of instructor.

PSY 4312 Female and Male [3-0] as scheduled
An examination of the physiological and psychological influences of sex role development, including such topics as human liberation, sexual behavior, child rearing practices and career opportunities. Prerequisite: Nine hours of psychology or consent of instructor.

PSY 4313 Abnormal Psychology [3-0] fall, spring
A comprehensive analysis of various emotional disorders, neuroses and psychoses, their symptoms, etiologies and treatment and approaches. Prerequisite: PSY 1310.

<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>PSY 4318</td>
<td>Theories of Learning</td>
<td>[3-0]</td>
<td>A historical review of major theoretical positions in the field of animal and human learning. Prerequisite: PSY 1310 or consent of instructor.</td>
</tr>
<tr>
<td>PSY 4319</td>
<td>Cognitive Psychology</td>
<td>[3-0]</td>
<td>The study of intellectual activities. Topics include attention, perception, pattern recognition, memory, concept formation, language processing, reasoning, judgment, decision making, problem solving, and creativity. Prerequisite: PSY 1310.</td>
</tr>
<tr>
<td>PSY 4320</td>
<td>Memory</td>
<td>[3-0]</td>
<td>The experimental study of the acquisition, storage, retrieval and forgetting of verbal information. Emphasis is on basic research and theory about adult processes, and little consideration is given to either applications or development of the processes in children. Prerequisite: PSY 1310.</td>
</tr>
<tr>
<td>PSY 4326</td>
<td>Cross-Cultural Psychology</td>
<td>[3-0]</td>
<td>The course examines how culture shapes our cognition and behavior. In addition to exploring intercultural contact and cross-cultural research methods, the following areas in psychology are analyzed from a cross-national perspective: perception, cognition, human development, attitudes and interpersonal relations. Prerequisite: PSY 1310.</td>
</tr>
</tbody>
</table>
| PSY 4327    | Personal Relationships                           | [3-0]   | fall, spring, summer I  
Theories and research findings on a variety of close relationships are explored, including friendships and romantic love. Although the course focuses on everyday dynamics, clinical issues such as shyness, loneliness and jealousy are also covered. In addition to analyzing how personal relationships are developed and maintained, the course also examines the process of breakup and dissolution. Prerequisite(s): Nine hours of psychology. |
| PSY 4328    | Psychological Issues in the Mexican American Community | [3-0]   | Mexican American personality development and assessment, ethnic identity and acculturation are examined in the course, as are Chicano perceptions of abnormal conduct and the use of alternative therapists. Selected community issues, such as immigration and prosocial behavior, are also explored from a psychological perspective. Prerequisite: PSY 1310. |
| PSY 4333    | Theories of Personality                          | [3-0]   | Emphasis is placed on the major theories of personality that attempt to explain the psychological nature and behavior of people. Some consideration is given to the process involved in developing a theory of personality. Prerequisite: PSY 1310. |
| PSY 4342    | Psychology and Law                               | [3-0]   | This course is designed to give students an appreciation of behavioral phenomena as they apply to our legal system. A general survey of related topics such as the trial process, the psychology of evidence and the psychology of juries will be covered. |
| PSY 4343    | Human Factors                                    | [3-0]   | Human factors is concerned with the optimal interaction between humans and their working environments, including machines, instruments, computers, and physical environments. The course draws from several areas of psychology, including sensation, perception, memory, cognition, physiology, learning, and motivation. The goal is to optimize the design of operation systems by considering human capabilities and limitations. Prerequisites: PSY 1310 and a course in perception or memory. |
| PSY 4355    | Psychology and Mythology                         | [3-0]   | This course will study the impact and interrelationships of psychological thought and mythological theory. The impact of the theories of Freud, Adler, Jung, Levi-Strauss and others on mythology will be studied. Equivalent Course: ANTH 4355; a student may receive credit for only one course. Prerequisite: PSY 1323 or ANTH 1323 or ANTH 1353 or instructor's consent. |
| PSY 4356    | Mind-Body Interactions                           | [3-0]   | The course is designed to demonstrate the inseparability of mind and body. Although our Western approach to medicine still focuses on illness and treatment as biologically-based, there is increasing evidence that psychological and social factors play a part in the healing process. The course is divided into three areas of content – examination of how alterations of the body can affect the mind, examination of how the mind can affect the body, especially as a result of stress and, lastly, an evaluation of complementary/alternative medicine. |
| PSY 4363    | Systems and Theories in Psychology                | [3-0]   | A history of the development of psychology and a study of theories in contemporary psychology. Prerequisite: Twelve hours of psychology. |
| PSY 4380    | Directed Research                                | [3-0]   | Students will have the opportunity to conduct faculty-supervised research in an area of mutual interest resulting in oral and written presentations of their work to other students and faculty. The course will provide an opportunity to obtain hands-on research experience for undergraduate students who intend to pursue graduate degrees. May be repeated for up to six hours credit. Prerequisites: PSY 2401, PSY 3325 and consent of instructor. |
Public Administration

**PSY 4381** Psychology Internship [3-0] as scheduled
An extensive application of psychological concepts and skills within a community organization, government agency, mental health setting or business enterprise related to the student’s career goals. Specific assignments will vary by instructor and internship site. Prerequisites: Nine hours of psychology and consent of instructor.

**PSY 4382** Directed Readings [3-0] as scheduled
Students will complete individually assigned readings on a selected topic under the supervision of a faculty member with whom specific arrangements have been made. Prerequisites: Nine hours of psychology and consent of instructor.

**PSY 4383** Special Problems [3-0] as scheduled
Selected topics assigned according to the interest of the class and/or student. Sequential registration for up to nine hours is permitted as topics vary. Prerequisites: Nine hours of psychology and consent of instructor.

**PUBA 3323** Introduction to Public Administration [3-0] fall
A survey of public administration in the United States, highlighting a wide variety of topics in the discipline, but with emphasis on the general machinery of the national bureaucracy and on the powers, problems and control of its agencies. Prerequisites: POLS 2313 and POLS 2314.

**PUBA 4309** Public Fiscal Administration [3-0] fall
Survey and analysis of governmental budgeting and public finance, emphasizing theories, procedures and implementation. Prerequisites: POLS 2313 and POLS 2314.

**PUBA 4310** Comparative Public Administration [3-0] fall
This course is a comparative analysis of the administrative systems of different governments. Particular attention is focused on the relationship of administrative practices and decision-making processes in the various states. Prerequisites: POLS 2313 and POLS 2314.

**PUBA 4324** Government Organization and Administrative Theory [3-0] fall
An analysis of the various theories of public administration and government organization. The contribution of such theorists as Weber, Taylor, Mayo, McGregor, Maslow, Simon and others will be studied. The development of public administration will be surveyed. Prerequisites: POLS 2313 and POLS 2314.

**PUBA 4325** Public Personnel Administration [3-0] fall
Fundamental concepts of public personnel management with analysis and evaluation of employee-employer relations at the national, state and local levels. Topics such as environmental influences on the personnel function, career systems, human resources planning and management, performance evaluation, ethics in public service and collective bargaining. Prerequisites: POLS 2313 and POLS 2314.

**PUBA 4362** Independent Study [3-0] as scheduled
Requires the approval of the supervising faculty member. Allows student to work independently on a specialized area. The student will submit a written plan, with outcomes and timelines which must be approved by the supervising faculty. Prerequisites: POLS 2313 and POLS 2314.

**PUBA 4363** Special Topics [3-0] fall
Intensive study of a specialized area of public administration or a selected topic in contemporary public management. Prerequisite: POLS 2313 and POLS 2314.

**PUBA 4378** Management of Nonprofit Organizations [3-0] fall
This course is a survey of the field of management practices in nonprofit organizations (sometimes called Nongovernmental organizations (NGOs or the third sector). This class will introduce students to the service, volunteerism, philanthropy and the basic concepts and foundational theories relating to the practice of the administrative sciences and management. The course content addresses two major dimensions: professionalism and effective management. This course covers the foundations of administration and management. Prerequisites: None.
Quantitative Methods

QUMT 2341 Elementary Business and Economic Statistics [3-0] fall, spring, summer
An analysis of descriptive statistics and statistical inference. Topics include collection, organization and presentation of numerical data; central tendency, variation, skewness, probability, probability distribution, sampling distributions, estimation theory and hypothesis testing. Computer laboratory assignments covering the above topics will be assigned. Prerequisites: MATH 1341 or 1340; CIS 1301 or CIS 1101.

QUMT 2342 Computational Methods in Business [3-0] fall, spring, summer
In this course, students gain higher level quantitative skills using computational techniques and models applicable to business decision making that are needed to succeed in courses within the Bachelor of Business Administration degree programs. Prerequisite: MATH 1340, MATH 1341 or equivalent with C or better.

QUMT 3342 Intermediate Business and Economic Statistics [3-0] fall, spring, summer
A continuation of elementary statistics, including regression and correlation, index numbers, time series, nonparametric statistics and other decision-making tools. Computer laboratory assignments covering the above topics will be assigned. Prerequisites: QUMT 2341 and MATH 1322 or QUMT 2340.

QUMT 3343 Statistical Methods for Business [3-0] fall, spring, summer
Students will study descriptive and inferential statistical techniques used to solve business-related problems. Topics include descriptive techniques, probability, confidence intervals, tests of hypotheses, analysis of variance, chi-square tests, correlation and regression. Prerequisites: MATH 1342 or QUMT 2340.

QUMT 4343 Quantitative Methods for Decision-Making in Business [3-0] fall, spring, summer
This course provides students with the methodologies to approach problems in a rational and logical manner by developing their analytical maturity, their ability to identify alternative actions and their ability to select a solution from viable alternatives. Different problem-solving techniques will be implemented along with software applicable to decision making in business. Prerequisite: QUMT 3343.

Reading

READ 3310 Narrative and Expository Analysis-Elementary/Secondary [3-0] as scheduled
Examines the processes utilized to provide clues to understanding text: identification of relevant information of text and how events in the text are related; utilizing information of text to determine that which is not stated; evaluating and judging text; monitoring what is read for the purpose of clarifying text.

READ 3323 Reading Acquisition [3-0] as scheduled
Psychological, sociological, cultural, physical and linguistic factors related to reading acquisition; analysis of scope and sequence of word recognition processes: sight word vocabulary, phonics, structural, morphemic and contextual analysis; analysis of organizational and management parameters of learner-centered reading instruction at the primary levels; diagnostic and prescriptive processes as they pertain to readiness, structural and phonetic analysis, vocabulary skills and classification skills. Prerequisite(s): Admission of COE Teacher Preparation Programs.

READ 3325 Cognitive Development and Reading Comprehension [3-0] as scheduled
Examination of principles of comprehension; factors that affect comprehension of text; cognition and reading comprehension; components of the learner-centered instructional program of reading comprehension and the correlation of reading processes to the writing processes; analysis of comprehension processes as they apply to various text structures; extending and enriching reading comprehension through literature; diagnostic and prescriptive processes as they pertain to literal, interpretive and evaluative comprehension processes. Prerequisite(s): Admission to COE Teacher Preparation Programs.

READ 3326 Reading Across the Curriculum Content Areas [3-0] as scheduled
Analysis of research, study and library skills; examination of reading as applied to the various content areas with focus on effective reading processes across text types and subject-specific vocabulary. Prerequisites: READ 3323 and READ 3325.

READ 3327 Assessment/Diagnosis of Special Needs Students [3-0] as scheduled
Examination of the affective, cognitive, cultural and linguistic correlates of reading disabilities; examination of the characteristics of gifted readers; analysis of learner reading styles across the modalities of auditory, visual, kinesthetic
and tactile; analysis of the principles of assessment and relationships to both remediation and enrichment. Prerequisite: READ 3323.

READ 3329 Language Arts Curriculum [3-0] as scheduled
Reading as an integral part of the language arts process; study of the relationships between listening, speaking, reading and writing. Prerequisite: READ 3323.

READ 4351 Learning through Literacy in the Content Areas [3-0] as scheduled
Examines the role of literacy in learning content as it emphasizes how learners use literacy strategies and technology to support learning in the content areas; specifically, how educators use teaching and assessment tools to support content learning for all learners. Emphasis is placed on student learning through integrated curriculum models. Prerequisite(s): Admission to COE Teacher Preparation Program.

Rehabilitation Services

REHS 2301 Introduction to Rehabilitation [3-0] as scheduled
Introduction to the field of rehabilitation and rehabilitation professions and specialties (e.g., rehabilitation counseling, vocational evaluation, job placement). The course addresses theory and practice of rehabilitation as well as the history, philosophy and legislative basis for the programs and professions. Includes an overview of the needs of individuals with disabilities and the effects disabilities have upon personal, social and vocational adjustment. The independent living rehabilitation movement and the vocational rehabilitation process are discussed, along with the impact individuals with disabilities have upon the nation’s economy. Community resources and agencies that provide services to people who have disabilities are explored. May include field trips, guest lectures and community-oriented assignments.

REHS 2311 Disability Policy and Independent Living [3-0] as scheduled
This course provides an in-depth review and analysis of legislation and policies (both federal and state) that impact people with disabilities and the rehabilitation professional. Major legislation that will be covered includes The Americans with Disabilities Act, Rehabilitation Act of 1973, Social Security, The Ticket to Work and Work Incentives Improvement Act of 1999, Individuals with Disabilities Education Act and state workers compensation laws. The independent living and disability rights movements will be studied in context to their influence on changes in disability policy. The consumer focus of empowerment and control over one’s life will also be covered.

REHS 2321 Introduction to Addiction Studies [3-0] as scheduled
Provides an introduction to the antecedents and the rehabilitation of the disability of substance abuse in the areas of vocational, social, familial, personal and physical areas. Includes information about multiple disabilities (e.g., physical and emotional disability and substance abuse).

REHS 2331 Psychology of Disability [3-0] as scheduled
Provides a survey of psychological aspects of disability with an emphasis on physical disability. Includes an overview of research areas and findings. Describes major disability groups, and their psychological processes that are observed in consumers and their families as they react and adjust to their disabilities. Equivalent Course: PSY 2331; a student may receive credit for only one course.

REHS 3303 Case Management I [3-3] as scheduled
Introduction to case management skills and techniques including interviewing will be taught. Applied and supervised learning experiences will be emphasized. Prerequisites: REHS 2301, REHS 2331 and formal admission.

REHS 3311 Disability Policy and Independent Living [3-0] as scheduled
This course provides an in-depth review and analysis of legislation and policies (both federal and state) that impact people with disabilities and the rehabilitation professional. Major legislation that will be covered includes The Americans with Disabilities Act, Rehabilitation Act of 1973, Social Security, The Ticket to Work and Work Incentives Improvement Act of 1999, Individuals with Disabilities Education Act and state workers compensation laws. The independent living and disability rights movements will be studied in context to their influence on changes in disability policy. The consumer focus of empowerment and control over one’s life will also be covered.

REHS 3315 Hearing Disorders and Assistive Technology [3-0] as scheduled
The seminar course includes a basic orientation to sound, anatomy and physiology of the human hearing mechanism, pathology of hearing, impact of age of onset, with an emphasis in pure tone and speech discrimination. Extensive training in types of hearing losses, techniques and technology used in aural rehabilitation and other aspects of vocational rehabilitation for the deaf and hard of hearing are provided.

REHS 3320 Family and Disability [3-0] as scheduled
Covers relevant issues concerning the family of a person with a disability. Topics such as family dynamics, family support systems and the role of the family in adjustment to disability will be explored. Particular attention will be given to the Mexican-American family. Prerequisites: REHS 2301, REHS 2331 and consent of instructor.

REHS 3325 Medical Aspects of Rehabilitation I [3-0] as scheduled
This course provides information on human anatomy as it relates to disability. The student will have the opportunity to review and learn to understand general and specialty medical reports and integrate medical information with vocational potential using functional capacity evaluations. Information on comprehensive medical rehabilitation
including service delivery and payment systems will be presented. Allied health and related medical professions will be described to provide a comprehensive understanding of their involvement in the treatment team. Alternative medicine and its relationship to rehabilitation will be presented.

REHS 3330 Medical Aspects of Rehabilitation II [3-0] as scheduled
This course will provide extensive medical information on etiology, prognosis, treatment procedures and vocational implications of various disabilities. The major disabilities to be covered are diabetes, spinal cord injury, traumatic brain injury, visual impairments, hearing impairments, neuromuscular disorders, cardiovascular disorders, cerebral palsy, mental retardation, HIV/AIDS, epilepsy and neurological disorders. An overview of other disabilities will be covered. Prerequisite: REHS 3325 with a grade of C or better.

REHS 3335 Sign Language III [3-0] as scheduled
This course is a continuation of intermediate sign language (COMD 1320), and emphasizes expansion and refinement of functional grammatical structure while focusing on medically-related vocabulary and situations. The spontaneous use of American Sign Language is stressed through discussion of the deaf community and other activities being held by the deaf community. Prerequisite: COMD 1320.

REHS 3340 Intermediate Aspects in Addiction Studies [3-0] as scheduled
Examines the addictions process from the molecular to the social level. This course focuses on the familial, social, cultural, ethical, legal, biological, neurological and psychopharmacological aspects of addiction. Principles of drug action, drug classification, variable of drug responses, and psychiatric issues, including dual diagnosis, will be addressed. An overview of harm reduction principles will be presented.

REHS 4100 Independent Study [1-0] as scheduled
Individualized study and investigation of rehabilitation topic under the direct supervision of a faculty member. A minimum of 25 clock hours per credit hour is required. May be repeated a total of four times. Prerequisite: Consent of instructor.

REHS 4301 Vocational Assessment [3-0] as scheduled
This course will focus on the vocational assessment of people within the rehabilitation process. Students will have the opportunity to be oriented to vocational evaluation, psychometrics, behavioral observations, work samples, situational assessments as well as modifications in assessment techniques needed to effectively evaluate people with disabilities. Prerequisites: REHS 2301, REHS 2331 and formal admission.

REHS 4302 Job Placement [3-0] as scheduled
A study of job placement theories, approaches and techniques will occur. The student will be having the opportunity to be introduced to the vocational implications of disability. Job-seeking skills, labor market surveys, job analysis, résumé writing and transferable skills analysis are some of the skills that are taught. Prerequisites: REHS 4301 with a grade of C or better and formal admission.

REHS 4303 Case Management II [3-0] as scheduled
Advanced case management skills and techniques such as interviewing, case history development and program planning within the rehabilitation process will be taught. IWRP development and reviews of client case records will occur in an applied, supervised environment. Legal and ethical issues in service delivery will be addressed. Prerequisites: REHS 3303 with a grade of C or better and formal admission.

REHS 4310 Rehabilitation Research [3-0] as scheduled
This course provides an examination of research methods, designs and statistical analysis as it applies to the field of rehabilitation. The application of research information and literature to guide effective practice for the rehabilitation professional will be covered. The course will address research with a conceptual rather than a statistical approach.

REHS 4315 Psychological and Social Aspects of Deafness [3-0] as scheduled
This course provides an applied psychological perspective to the field of deafness. Psychological processes: sensory, perceptual, cognitive and linguistics will be reviewed. Current issues and topics: demographic trends, culture, human rights, literacy, communication methods, bilingual/bicultural, mental health, multiple disabilities, low-functioning deafness, accessibility and impact of technology will be reviewed.

REHS 4330 Clinical Topics in Rehabilitation [3-0] as scheduled
This course will focus on priority clinical issues and provide concentrated study in specific areas in rehabilitative services that appear timely. The focus will be placed on independent projects, presentation of papers and group discussion. A field-based clinical study project will be required. Prerequisites: REHS 2301 and REHS 2331 or consent of instructor.

REHS 4335 Sign Language IV [3-0] as scheduled
Sign Language IV is a continuation of Sign Language III and emphasizes expansion and refinement of functional grammatical structure while focusing on vocational and
job placement related vocabulary and situations. The spontaneous use of American Sign Language is stressed through discussion of the deaf community and other activities being held by the deaf community. Prerequisite: REHS/COMD 3335.

REHS 4340 Clinical Issues in Addiction Studies [3-0] as scheduled
The course focuses on treatment, prevention and intervention approaches as these relate to addictions. Therapeutic rehabilitation approaches (group, individual, family, conjoint) are addressed in relation to the various populations. Evaluation, assessment, consultation and referral are processed in the therapeutic approaches that are covered. Crisis intervention is an essential area when working with the addictive populations and is included in the therapeutic approaches. Prerequisite: REHS 2321 or consent of instructor.

REHS 4345 Culture, Family and Prevention in Addictions [3-0] as scheduled
This course overviews diverse populations in order to present the impact of family, culture and society upon substance use and abuse. Evaluation, treatment, prevention and intervention techniques and practices will be addressed. Legal and ethical aspects related to diverse populations who have addictions will be explored. Prerequisite: REHS 2321 or consent of the instructor.

REHS 4350 Special Topics in Rehabilitation [3-0] as scheduled
Selected topics in rehabilitation. May be repeated for up to six hours credit when topic varies. Prerequisites: REHS 2301 and REHS 2331 or consent of instructor.

REHS 4355 Multicultural Issues in Human Services [3-0] as scheduled
This is a multidisciplinary course with the purpose of providing students with an overview of the complex relationship between culture and values. Students will have the opportunity to explore their personal values, the roles of education and language as transmitters of culture and values and how that interrelationship is reflected in the human services. Students will develop an awareness of and the ability to articulate cross-cultural perspectives on social, psychological, educational, cultural and interpersonal issues. The course includes conceptual models for resolving cross-cultural conflicts.

REHS 4360 Assistive Technology [3-0] as scheduled
Issues related to technology and people with disabilities will be examined. Types of technology, service delivery models, funding, training and technology abandonment will be covered. Examples of technology will be brought into the classroom. Prerequisites: REHS 2301 and REHS 2331 or consent of instructor.

REHS 4602 Clinical Practicum in Rehabilitation as scheduled
Supervised, field-based clinical experience in a public or private setting serving the disabled. The practicum setting must meet specific program requirements and be approved by the University practicum supervisor. Weekly assignments will focus on daily components within the rehabilitation process and will be treated in a weekly group session. Three hundred twenty clock hours, 20 field hours weekly plus two hours of regularly scheduled group supervision per week. Prerequisites: Completion of all REHS concentration courses and program approval.

ROTTC (Military Science)

ROTTC 1201 CPR/First Aid and Marksmanship [2-1.25] as scheduled
Course will examine basic first aid procedures to include evaluation of victims/casualties, cardiopulmonary resuscitation, clearing the airway and administering first aid. The course studies healthy lifestyle habits (diet, exercise, stress reduction) promoting health and wellness. Course includes studies in the fundamentals of rifle and pistol marksmanship along with practical experience on an outdoor range. Students have the opportunity to earn both CPR and first aid certification through national organizations. Students are encouraged to participate in the ROTTC early morning fitness program and leadership laboratories.

ROTTC 1202 Survival and Land Navigation Training [2-1.25] as scheduled
An introduction to basic military science. Studies in basic military skills. Emphasis is placed on methods and techniques of survival and land navigation, but the course is also designed to enhance self-confidence and physical fitness through active participation in adventure training. Includes a leadership laboratory to teach these principles. An optional weekend field training exercise is offered.

ROTTC 2201 Applied Leadership and Management [2-1.5] as scheduled
An application of basic leadership and management principles. The course ethics apply based on leadership skills that develop individual abilities and contribute to the building of effective teams. Study the role of the U.S. Army and Army communication skills such as oral presentations, writing concisely, planning of events, coordination of group efforts and fundamentals of ROTTC’s Leadership Development program. Two hours and a required leadership lab. Optional weekend field training exercises are offered.
INDEX

ROTC 2202 Intermediate Leadership and Management Techniques [2-1.5] as scheduled
Learn techniques for training others as an aspect of continued leadership development. Supervisory personnel and motivational techniques are studied through placement of students in positions of small unit leaders given assigned tasks. Introduction to basic tactical mission applications and principles. Two hours and a required leadership lab. Optional weekend field training exercises are offered.

ROTC 3201 Basic Army Physical Development [3-1.25] as scheduled
An in-depth study of the Army’s physical fitness program. From this curriculum, a student can develop a physical fitness program that best suits one’s ability or physical desire. One can learn to perform individual physical assessments. Other topics include nutrition, stress management, mental fitness/performance enhancement and physical training. Includes limited outdoor physical conditioning and a leadership laboratory.

ROTC 3202 Advanced Army Physical Development [3-1.25] as scheduled
A practicum in physical development where a student applies the physical development skills learned in Basic Army Physical Development and applies them to a program that best suits the individual. The student will be tested in accordance to FM 21-20 and The Army Physical Fitness Test to determine his or her ability and AR 600-9 in attainment of a physical goal. Includes extensive outdoor physical conditioning and a leadership laboratory.

ROTC 3401 Advanced Military Leadership [2-3] as scheduled
This course introduces the student to the responsibilities, character and uniqueness of the commissioned officer as a professional. Topics include the role of the small unit leader, radio communications, advanced military leadership, tactical operations and oral communications. Weekend field training exercises are mandatory. Prerequisite: Advanced ROTC standing.

ROTC 3402 Small Unit Tactics [2-3] as scheduled
Analysis of the leader’s role in directing and coordinating the efforts of individuals and platoon-sized units in the execution of offensive and defensive tactical missions, make-up and preparation of the five paragraph field order, land navigation and patrolling. Prerequisite: Advanced ROTC standing.

ROTC 3604 Internship in Military Science as scheduled
The purpose of the Advanced Camp is to train leadership and evaluate officer potential. Technical/tactical proficiency and leadership skills will be put to the test in a carefully planned and stressful training sequence. Light infantry tactics are the individual training vehicle. Prerequisite: ROTC 3402.

ROTC 4401 Staff Management and Responsibilities [2-3] as scheduled
An examination of the garrison and administrative responsibilities of the commissioned officer. An in-depth analysis of staff procedures, the military writing program, advanced leadership assessment and the decision-making process. Precommissioning actions will also be conducted. Weekend field training exercises are mandatory. Prerequisites: Advanced standing, ROTC 3401 and ROTC 3402.

ROTC 4403 Advanced Military Science [2-3] as scheduled
This course includes the ethical and professional responsibilities of the commissioned officer and studies the military justice system as well as the Army training system and customs and traditions of the Army from the perspective of a newly commissioned second lieutenant. Weekend field training exercises. Prerequisites: Advanced ROTC standing, ROTC 3401 and ROTC 3402.

Science - Teacher Certification

SCIE 1201 Undergraduate Research [0-6] fall, spring, summer
Active laboratory, statistical, or computational research of a scientific nature under the supervision of a college of science and engineering faculty member. Prerequisites: Approval of the supervising faculty member. $4 Lab Fee.

SCIE 1301 Undergraduate Research Expanded [0-9] fall, spring, summer
Active laboratory, statistical, or computational research of a scientific nature under the supervision of a college of science and engineering faculty member. Prerequisites: Approval of the supervising faculty member. $4 Lab Fee.

SCIE 4240 Capstone Course [1-3] as scheduled
This course will be designed to review TEKS requirements for the grades 4-8 certification in science. Students will have the opportunity to conduct science education research, and learn how to present and evaluate various investigative techniques used in biology, chemistry and the physical sciences. Students will be assigned laboratory topics that they will have to present and teach to other students in the class. The presenter will be expected to evaluate the students participating in his/her lab, and the students will have the opportunity to evaluate the presenter. Prerequisites: Students enrolled in SCIE 4240 are expected to be in their final semester of on-campus instruction, and should either be enrolled in or have completed all requirements for the interdisciplinary science major.
as scheduled
The course is designed to integrate concepts of life sciences and chemistry and apply them to both local and global environmental issues. Important local topics include water quality of the Rio Grande and Arroyo Colorado Rivers, atmospheric transport of pollutants and aerosols, effects of chronic exposure to hydrocarbons, Lower Laguna Madre seagrass decline, brown tides, and local recycling programs. Important global issues include global warming, ozone depletion, deforestation, ocean dumping, fisheries sustainability, atmospheric pollutant loading, acid rain and habitat restoration. Prerequisites: CHEM 1301 and BIOL 2305.

SCIE 4360 Forensics: Applications of the Natural Sciences for Teachers [2-3]
as scheduled
This is an integrated course designed to introduce middle school and secondary teachers to the science of forensics used in investigating and solving crimes. Principles of physics will be utilized to show how crime scenes and accidents can be reconstructed. Students will study how chemistry and spectroscopy are used to investigate crimes involving drugs, detection of explosives, fiber analysis, arson investigations and detection of contraband in airports and harbors. Some time will be given to DNA analysis and genetic testing. Prerequisites: BIOL 1401, CHEM 1301 and 1101, PSCI 1421 and 1422.

SCIE 4370 Planet Earth and Its Inhabitants [2-3]
as scheduled
This course is designed to cover the history of the earth from the various theories of origin, to the beginning of life, and through various evolutionary processes and extinctions that have resulted in the planet as we know it today. Students will be exposed to the topic of continental drift and the role of environmental forces in evolution, and why there are different species in different climates. Students will study about ecosystems and the roles of the various components of an ecosystem. Prerequisites: BIOL 1402 and 2305, PSCI 1421 and 1422.

SCIE 4480 Applications of Chemistry and Physics in Society [2-3]
as scheduled
This course will involve a detailed study of industries and technologies that involve principles of physics and chemistry. Examples of topics that will be included in the course are: electronics in society, the physics of medical imaging, radiation in microwaves and other types of conduction used in industry and in everyday life, the role of ultraviolet radiation in health, applications of chemistry in the food industry and a look at the physics and chemistry involved in the petroleum industry. Prerequisites: CHEM 1301 and 1101, PSCI 1421 and 1422.
these issues, especially in relation to their relevance to the Rio Grande Valley and the U.S. Mexico Borderlands. Prerequisite: none.

SOCI 3301 Quantitative Social Research [3-0]
as scheduled
This course introduces students to the basic survey methods used in social sciences. Emphasis is on the logic of social science and the implications of the major forms of quantitative research methodology. Allows students to recognize and analyze merits of research in the social sciences.

SOCI 3302 Qualitative Social Research [3-0]
as scheduled
Logic and philosophy of qualitative methodology in sociology. The process of research design, data collection, analysis and interpretation of results and final write-up is elaborated with specific reference to research conducted in the Rio Grande Valley and elsewhere. Discussion of the politics and ethics of fieldwork, including protection of the rights of human participants in research projects.

SOCI 3310 Sports and Society [3-0]
fall, spring
This course investigates the relationship between sports and society by examining the role and impact of agents of socialization such as the family, the peer group and the mass media on athletes and their personalities. This course also explores the issues of racism, sexism and violence in various sports. The assumption that participation in sports builds character will be examined along with cultural issues such as deviance, retirement and competition.

SOCI 3324 Sociology of Health [3-0]
as scheduled
Analysis of basic problems in the maintenance and preservation of health and delivery of health care services by social class. Focus is on environmental causes of disease; social-psychological response to illness; and family cohesion, strain and resources as affected by illness.

SOCI 3325 Social Psychology [3-0]
fall
This course examines the sociological perspective of symbolic interactionism. Topics include the development of social psychology and symbolic interactionism, participant observation, the differences between animals and humans, symbolic language, the instinct controversy and Goffman.

SOCI 3333 Urban Sociology [3-0]
as scheduled
The culture, history and growth patterns of cities; demographic, ecological patterns and trends. Problems of housing and community organization.

SOCI 3344 Societies in Global Perspective [3-0]
as scheduled
The course examines the cultures of Asia, Africa and Latin America, with one of these regions as the focus of study in any particular semester. The course looks into cultures of various societies in terms of their social institutions such as language, religion, education, family, customs, traditions, etc., in contemporary and historical perspective and how such institutions provide the value system that is subsequently internalized in the socialization process and become part of the personality.

SOCI 3345 Issues in Societal Change [3-0]
fall, spring, summer
The course examines and analyses selected social issues related to changing such as globalization, migration, nationalism, conflict and multi-national military alignment from diverse sociological perspectives. Prerequisites: None.

SOCI 3363 Sociology of Religion [3-0]
As scheduled
The sociological study of religion has traditionally been an important part of sociology since the beginning of sociology as an academic discipline. This course will focus on the way religion functions in society and its various forms throughout the world.

SOCI 3393 Sociology of Aging [3-0]
as scheduled
Analysis of the basic problems faced by the aged within a social context. Within an institutional framework, focus is on health, income, work, religion, leisure and interpersonal relationships of the aged.

SOCI 4310 Gender in a Global Perspective [3-0]
as scheduled
An exploration of the sociological meaning of gender and gender roles in contemporary society. The focus is on the status of women vis-à-vis that of men in the institutional structure: family, marketplace, school and political-legal arena. The nature and causes of sex role differentiation, of changing sex roles and the future of sexual equality will be discussed.

SOCI 4313 American Minorities [3-0]
as scheduled
An analysis of intergroup relations among minority groups and the dominant group with special focus on patterns of conflict, change, adjustment, power and inequality among such groups. Some in-depth description of the problems and characteristics of major American minorities.

SOCI 4314 Sociology of Deviance [3-0]
as scheduled
The nature and extent of deviancy examined through a review of theory and research on deviant behavior. Selective examination of particular types of individual and subcultural deviance (e.g., homosexuality, physical handicaps, prostitution).
SOCI 4320 The Sociology of the Family [3-0] as scheduled
A comparative historical approach will be used to examine sociological issues concerning the family in contemporary America. An in-depth analysis will focus on many of the social problems that affect the most important social institution in society.

SOCI 4323 The Mexican American People [3-0] as scheduled
Presents an examination of the Mexican American’s economic status, cultural values, style of life, educational attainment, family status and political participation as affected by current socioeconomic conditions and their historical antecedents.

SOCI 4324 Contemporary Research in Social Psychology as scheduled
This course is a review of selected topics from the empirical literature in social psychology such as gender, ethnicity, attitudes, prejudice and discrimination, persuasion and helping behavior with emphasis on research from professional articles.

SOCI 4325 Cultural Sociology [3-0] as scheduled
The rise of cultural sociology has been one of the most important developments in recent American social science. This course will introduce the student to one of the most popular and important new areas within sociology. The major lines of inquiry i.e., text, code, production, reception and culture in action, which have made cultural sociology flourish in the past 10 years i.e., will be examined. This will be accomplished by relying on the mass media as a concrete and shared mechanism through which culture is produced, received and put into action. This class will use movies, television, magazines, newspapers and the recording industry extensively as sources for examination and analysis of major and timely cultural themes.

SOCI 4326 Population and Society [3-0] as scheduled
This course focuses on the sociology of population. Through lectures, discussions, examination, and a group project, students are expected to gain an understanding of a series of key demographic issues, including Global Population trends in mortality and fertility transition, aging, migration, and the transition of families and households. Students are also expected to develop the theoretical perspectives to explain regional demographic transformation in the U.S.-Mexico border area. Prior knowledge of demography is not required to take this course.

SOCI 4330 Gender Research in Social Psychology [3-0] as scheduled
The course examines gender in research taken from articles found within the peer-reviewed professional journals in social psychology.

SOCI 4333 Classical Social Theory [3-0] as scheduled
The nature and function of social theory and its development, especially from the Enlightenment to the early 20th century. Emphasis on the cumulative insights and ideas which have contributed to sociology and on the role of social theory in understanding modern society.

SOCI 4334 Contemporary Social Theory [3-0] as scheduled
The main trends, basic problems and unresolved issues of modern and post-modern sociological thought. Essential aspects of the logic of scientific inquiry focusing on contemporary theories as model building in sociology.

SOCI 4352 Social Inequality [3-0] as scheduled
A discussion of research, concepts and theory related to inequality in social life, its causes and consequences. The social order of relations between the affluent and the poor and how inequality among the social classes is built into the culture and institutions of society (e.g., government, economics, religion, family).

SOCI 4360 Sociology of Education [3-0] as scheduled
Social and institutional organization of education and the profession of teaching. Class, ethnic and social factors affecting the educational process and the effect of educational institutions and practices on the community and society.

SOCI 4373 Latin American Society [3-0] as scheduled
The aim of this course is to present a general perspective of social change in Latin America and how the United States is being affected by this change. A better understanding of the growing complexity of the relationship between the United States and Latin America requires paying careful attention to a number of key issues and problems, such as how this relationship cuts across differing national histories, gender and ethnic issues, industrialization, democratization, the illicit drug trade, economic and political integration and the growing northbound tide of Latin American unskilled migrant workers. The course will contribute to a growing understanding of the paradox of fragmentation and shared cultural identity in the subcontinent as well as the strikingly different views each country has about U.S. policy, society and culture.

SOCI 4380 Social Protest and Social Movements [3-0] as scheduled
An investigation of the careers of protest and movement organizations. Special attention is directed to the structure of these organizations and the dilemmas and problems they encounter. Case studies are included.
SOCW 3314 Social Welfare Policy and Programs [3-0]
as scheduled
This course examines economic, political, intellectual, socio cultural, leadership, values and ideologies and other such factors that shape social welfare policy, programs and services. Addresses various frameworks for studying social policy and examines the roles of policy-makers, process of social change and the role of the social worker as a facilitator of change. Prerequisites: SOCW 1313 and SOCW 2314.

SOCW 3321 Human Behavior and the Social Environment I [3-0]
as scheduled
This course presents an overview of theories that form social work practice with individuals and families. There is an emphasis on application of theory to practice. Prerequisite: SOCW 1313.

SOCW 3322 Human Behavior and the Social Environment II [3-0]
as scheduled
This course presents an overview of theories that form social work practice with groups and communities. There is an emphasis on application of theory to practice. Prerequisite: SOCW 1313.

SOCW 3323 Social Work Practice I [3-0]
fall, spring
Through classroom and skills lab, the student will have the opportunity to examine some of the necessary knowledge, values, and skills upon which problem-solving is based. The student will also have the opportunity to learn the generalist approach to practice. Prerequisites: SOCW 1313, SOCW 2314 and admission to BSW Program.

SOCW 3333 Special Topics in Social Work Issues [3-0]
as scheduled
An analysis of conceptual frameworks, content, laboratory experiences and research opportunities in current social issues with particular relevance to our community, requiring the social worker's intervention, problem-solving knowledge, values and skills, and preparing the social work student and other helping professionals for interdisciplinary collaboration in achieving effective social change objectives. Sequential registration for up to six hours is permitted as topics vary. Topics will vary according to timeliness of issues, student demand and availability of faculty.

SOCW 3334 Social Work Practice with the Aging Family [3-0]
as scheduled
Students will have the opportunity to study interviewing, assessment and intervention, demographics of an aging population in America, roles and functions of families, the quality of life of the elderly, societal and cultural issues for older adults, supportive resources and networks as well as services for the aged and their family members. The generalist approach is applied to work with older clients.
through case examples and community assignments.

**SOCW 3342 Substance Abuse and the Family** [3-0]
as scheduled
Provides an introduction to the basic dynamic nature of the substance-abusing family, including structures, relationships and development in the process of its societal evolution. The function of the family as a socialization agent will be studied. Focus will be given to value transmission, learning patterns of interaction, impact on varieties of relationships and coping styles. Prerequisite: Junior standing or consent of the instructor.

**SOCW 3351 School Social Work** [3-0]
as scheduled
Examines the major social issues confronting education, as well as how school social workers can interface with educators to address the problems of student absenteeism and underachievement, and the violence, racism and discrimination that are perpetuated by and against students. The roles and functions of school social workers are described. Prerequisite: Junior standing or consent of instructor.

**SOCW 3360 Child Welfare** [3-0]
as scheduled
Examines child welfare history, policies, programs and practices. Best practices in child risk assessment, foster care and adoption and prevention of child abuse and neglect are highlighted. Prerequisites: SOCW 1313 and SOCW 2314.

**SOCW 3370 Interviewing Culturally Diverse Spanish-Speaking Clients** [4.5-0]
fall
This course is designed to increase the student’s ability to culturally relate to Spanish-speaking ethnic groups and to be able to distinguish between formal and informal colloquial terminologies. Students will have the opportunity to be able to understand various cultural considerations such as folklore, customs, beliefs, diversity of Latinos and their Spanish-speaking variations that impact the interviewing process. Additionally, this course is designed to improve the student’s comfort level to communicate effectively with native Spanish-speaking clients and/or patients.

**SOCW 4301 Social Work Practice II** [3-0]
fall, spring
Designed to provide social work students with knowledge of direct practice with families and small groups using the problem-solving approach. Students will have the opportunity to selectively use concepts and techniques from various models, e.g., systems perspective, psychosocial theory, behavior modification and family-focused work as frameworks to develop strategies in clinical and cross-cultural intervention. Prerequisite: SOCW 3323.

**SOCW 4302 Social Work Practice III** [3-0]
fall, spring
This course provides students with knowledge of direct practice with communities and large organizational systems. Students will have the opportunity to learn how to apply the problem-solving process to bring about social and economic justice. Prerequisite: SOCW 3323.

**SOCW 4311 Research for the Social Services** [3-0]
as scheduled
This course introduces students to the scientific method and how it is used by social workers to effect social change, improve the delivery of social services and to evaluate practice. Prerequisite: SOCW 2375 or equivalent.

**SOCW 4320 Social Work in Health Care** [3-0]
as scheduled
This course focuses on the health care system, clients as consumers of health and health care issues as they relate to social work practice. An examination of health-related settings and the diverse skills, roles and functions of social workers will be studied within a team intervention approach with emphasis on gender, ethnic and cultural aspects of health care. Prerequisite: Junior standing or consent of instructor.

**SOCW 4321 Domestic Violence in Society** [3-0]
fall, spring, summer
This course will examine the phenomenon of domestic violence. Students will have the opportunity to study family structure in which violence occurs, the range of abuse (from verbal to homicide) and its extent in society and the various attitudes toward it. Understanding of the basic theories, identification of support services and systems for victims of domestic violence and development of basic communication skills for assisting the victims will be expected of the student. Prerequisite: Junior standing or consent of instructor.

**SOCW 4352 Substance Abuse Counseling in the Community** [3-0]
as scheduled
Patterns of street substance abuse, community education and agency consultation, resource evaluation of such support systems as AA, halfway houses, networking, divergency programs, therapy with the abuser and family are emphasized as follow-up and outreach social work intervention at the community level. Counseling processes studied will include vocational rehabilitation. Cultural assessment, evaluation of treatment effectiveness and legal-ethical issues will be examined in the context of social service delivery. Prerequisite: Junior standing or consent of instructor.

**SOCW 4353 Integrative Field Seminar** [3-0]
as scheduled
This course is taken concurrently with SOCW 4619 Field Education. A seminar format facilitates the intern’s integration of the field education experience and the program’s generalist curriculum. Emphasis is placed on linking classroom learning with practice in the field and
integrating theory with professional practice. Field practicum situations and issues are used for discussion and analysis.

**SOCW 4354  Field Education I  [0-0-16]**

fall
This course is the first half of the social work practicum requirement for undergraduate social work students who choose to complete their practicum in two consecutive semesters. The course requires a minimum of 240 hours in the first semester of in-the-field experience in established social agencies or community settings under joint supervision of the agency social worker and a Department of Social Work faculty member. The course is taken concurrently with SOCW 4353 Integrative Seminar. Prerequisites: Completion of all social work core courses and approval by the Office of Field Education.

**SOCW 4355  Field Education II  [0-0-16]**

spring
This course is the second half of the social work practicum requirement for undergraduate social work students who have successfully completed Field Education I and have chosen to complete their practicum in two consecutive semesters. The course requires a minimum of 240 hours in the first semester of in-the-field experience in established social agencies or community settings under joint supervision of the agency social worker and a Department of Social Work faculty member. Prerequisite: SOCW 4354; Completion of all social work core courses and approval by the Office of Field Education.

**SOCW 4370  Mexican American Mental Health  [3-0]**

as scheduled
This course examines cultural and systematic barriers which limit access to mental health services by Mexican Americans. Attention also given to the development of strategies for improving service delivery. Prerequisites: None.

**SOCW 4399  Independent Studies  [3-0]**

as scheduled
Designed to give students experience in research or in-depth theoretical/empirical in a substantive area not normally covered within standard courses. Research projects or advanced readings will vary according to student interest and faculty availability. Prerequisite: Consent of instructor.

**SOCW 4619  Field Education Block  [0-0-32]**

fall, spring, summer I
This course requires a minimum of 480 hours (four days a week for one semester) of in-the-field experiences in established social agencies or community settings under joint supervision of the agency social worker and a Department of Social Work faculty member. SOCW 4619 is taken concurrently with SOCW 4353. Prerequisite: Completion of all social work core courses and approval by the Office of Field Instruction.

**Spanish**

**SPAN 1301  Beginning Spanish  [3-0]**

(Texas Common Course Number is SPAN 1313.)
fall, spring, summer
A course designed to develop the ability to understand, speak, read and write the Spanish language. Open only to persons who are monolingual. Credit Restriction: A student may receive credit in only one of SPAN 1301, SPAN 1303 or SPAN 1387.

**SPAN 1302  Beginning Spanish  [3-0]**

(Texas Common Course Number is SPAN 1312.)
fall, spring, summer
A continuation of SPAN 1301. Credit Restriction: A student may receive credit in only one of SPAN 1302, SPAN 1304 or SPAN 1388. Prerequisite: SPAN 1301.

**SPAN 1303  Beginning Spanish  [3-0]**

(Texas Common Course Number is SPAN 2313.)
fall, spring, summer
A course designed to develop the ability to read and to write the Spanish language. For students who are bilingual. Credit Restriction: A student may receive credit in only one of SPAN 1301, SPAN 1303 or SPAN 1387.

**SPAN 1304  Beginning Spanish  [3-0]**

(Texas Common Course Number is SPAN 2315.)
fall, spring, summer
A continuation of SPAN 1303. Credit Restriction: A student may receive credit in only one of SPAN 1302, SPAN 1304 or SPAN 1388. Prerequisite: SPAN 1303.

**SPAN 1387  Beginning Spanish  [3-0]**

(Honors Plan)
as scheduled
A beginning Spanish course designed to meet the needs of Honors students interested in learning to read and write Spanish fluently at an accelerated pace. Some readings and culture will be introduced. Open to students needing systematic introduction to the Spanish language. Credit Restriction: A student may receive credit in only one of SPAN 1301, SPAN 1303 or SPAN 1387.

**SPAN 1388  Beginning Spanish  [3-0]**

(Honors Plan)
as scheduled
A beginning Spanish course designed to meet the needs of Honors students interested in learning to read and write Spanish fluently at an accelerated pace. Some readings and culture will be introduced. Open to students needing systematic introduction to the Spanish language. Credit Restriction: A student may receive credit in only one of SPAN 1302, SPAN 1304 or SPAN 1388.

**SPAN 2301  Technical Spanish I  [3-0]**

In this course we will review grammatical structures and introduce the student to technical terminology in Spanish.
The student will have the opportunity to read and translate technical texts. We will discuss cultural aspects affecting technology in the Hispanic world. Prerequisite: SPAN 1302 or 1303.

SPAN 2302 Technical Spanish II [3-0]
This course is a continuation of SPAN 2301. The student will have the opportunity to apply the knowledge acquired in Spanish technical terminology to the writing of technical and business reports related to engineering and science. Prerequisite: SPAN 2301.

SPAN 2307 Intermediate Spanish for Native Speakers [3-0]
(Texas Common Course Number is SPAN 2311.)
fall, spring, summer
A comprehensive review of Spanish grammar with special emphasis on writing. Prerequisite: SPAN 1304.

SPAN 2308 Intermediate Spanish for Native Speakers [3-0]
(Texas Common Course Number is SPAN 2312.)
fall, spring, summer
A continuation of SPAN 2307. Prerequisite: SPAN 2307.

SPAN 2317 Intermediate Spanish for the Health Professions I [3-0]
Fall, spring
Development of medical terminology in Spanish, interpreting from English to Spanish in clinical contexts, and development of patient interviewing skills in Spanish with a focus on infectious disease.

SPAN 2318 Intermediate Spanish for the Health Professions II [3-0]
fall, spring
Continued development of medical terminology in Spanish, interpreting from English to Spanish in clinical contexts and development of patient interviewing skills in Spanish. Prerequisite: SPAN 2317.

SPAN 3199 Spanish Internship [0-0-1]
as scheduled
Practicum in a community-based organization or agency to develop advanced use of Spanish language skills. Prerequisite: Span 2308.

SPAN 3301 Spanish Literature (from 1100 to 1750) [3-0]
as scheduled
A survey of the literature of Spain from El Cid to the middle of the 18th century. Prerequisite: SPAN 2308.

SPAN 3302 Spanish Literature (1750 to the present) [3-0]
as scheduled
A survey of the literature of Spain from Romanticism to the Modern period. Prerequisite: SPAN 2308.

SPAN 3303 Advanced Spanish Composition [3-0]
as scheduled
Intensive training in Spanish composition. Prerequisite: SPAN 2308.

SPAN 3304 Advanced Spanish Composition [3-0]
as scheduled
Additional work in composition. Prerequisite: SPAN 2308.

SPAN 3306 Basic Concepts of Spanish Phonetics and Phonology [3-0]
as scheduled
An analysis of the phonetic and phonological system of Spanish with special emphasis on the relationship between the phonetic system and writing. Prerequisite: SPAN 2308.

SPAN 3309 Techniques of Literary Analysis [3-0]
as scheduled
A study and practical application of the fundamentals of literary criticism. Several different approaches to literary analysis will be presented in order to construct a solid basis for the interpretation of literature. Prerequisite: SPAN 2308.

SPAN 3310 Masterpieces of Spanish-American Literature I [3-0]
as scheduled
An investigation of the literary works of the principal narrators, poets and dramatists of Spanish America from the beginnings of Spanish colonialism to modernism. Analysis of form and content and study of the historical background and literary currents in each work. Prerequisite: SPAN 2308.

SPAN 3311 Masterpieces of Spanish-American Literature II [3-0]
as scheduled
An investigation of the literary works of the principal narrators, poets and dramatists of Spanish America from modernism to the present. Analysis of form and content and study of the historical background and literary currents in each work. Prerequisite: SPAN 2308.

SPAN 3316 The Mexican Novel [3-0]
as scheduled
The study of the major novels of Mexico. Prerequisite: SPAN 2308.

SPAN 3319 Introduction to Hispanic Linguistics [3-0]
fall, spring, summer
An overview of the scientific study of the Spanish language. A general introduction to linguistic theories followed by application to the phonology, morphology, syntax and language variation and change in Spanish. Prerequisite: SPAN 2308.

SPAN 3330 Spanish Grammar [3-0]
as scheduled
A study of grammatical concepts with concentration on basic sentence structure, the paragraph, principles of punctuation and functional grammar. Course designed for Spanish
majors and minors as well as those interested in bilingual endorsement. Prerequisite: SPAN 2308. Prerequisites for aspirants to bilingual/bicultural endorsement: SPAN 2308 and ENG 3319.

</table>
|             | An overview of the application of linguistic theories to the acquisition and development of the Spanish language as
a first language, as a second language and as a heritage
glanguage. Prerequisite: SPAN 3330

SPAN 4316 Problems and Issues Related to Language [3-0]
as scheduled
Concentrated study of language theory, language acquisition, functions and role of language in society, and current trends and problems related to the topic. Prerequisite: SPAN 2308.

SPAN 4317 Golden Age Prose [3-0]all, spring
A critical study of the most representative works of Golden Age Spain. Given in Spanish. Prerequisite: SPAN 2308.

SPAN 4318 Theater and Poetry of the Golden Age [3-0]
as scheduled
Study of the principal dramatists and poets of the Golden Age such as Lope de Vega, Tirso de Molina, Juan Ruiz de Alarcón, Garcilaso de la Vega, Fernando de Herrera, Luis de Góngora and others. Prerequisite: SPAN 2308.

SPAN 4325 Caribbean Literature [3-0]
as scheduled
A critical review and analysis of Caribbean literature with emphasis on the literary techniques and the cultural reflection in the literature.

SPAN 4329 Mexico’s Contemporary Literature [3-0]
as scheduled
An investigation of Mexico’s latest literature taking into account the psychological effects stemming from the industrial surge, the problems of the migration of the poor, the rebirth of the malinchista spirit, the new identity and the erosion of old traditions in the last two decades. Prerequisite: SPAN 2308.

SPAN 4330 Spanish Sociolinguistics [3-0]
fall, spring
An overview of the study of the Spanish language in its social context. Topics include language variation, language maintenance and shift, language mixing, and language policy. Prerequisite: SPAN 2308

SPAN 4335 Spanish-English Legal Translation [3-0]
fall, spring
Intensive practice in the translation from Spanish to English and English to Spanish of selected documents from legal, business and medical fields.

SPAN 4336 Grammar and Composition [3-0]
as scheduled
The study of the Spanish language applicable to the concerns of secondary school classroom teachers and the acquisition of skills and knowledge essential to testing and teaching advanced grammar and composition are the goals of this course. Prerequisite: SPAN 2308.

SPAN 4337 Eighteenth Century Spanish Literature [3-0]
fall, spring
A survey of the literature of Spain covering the neoclassic from Feijoo to Fernández de Moratín. Prerequisites: SPAN 2308.

SPAN 4338 Nineteenth Century Spanish Literature [3-0]
as scheduled
A survey of the literature of Spain covering the two main literary movements: Romanticism and Realism. Prerequisites: SPAN 2308.

SPAN 4339 The Spanish-American Short Story [3-0]
as scheduled
A study of the evolution of this genre in Spanish-American literature themes, techniques and literary movements will be investigated. The writers studied in this course will include: Echeverría, Palma, Gutiérrez, Nájera, Quiroga, Borges, García Márquez, Fuentes and others.

SPAN 4340 The Spanish-American Essay [3-0]
fall, spring
A study of this genre in Spanish-American literature. Themes, content, style and literary movements will be studied.

SPAN 4343 Literature and Journalism in the Spanish Speaking World [3-0]
as scheduled
This is a Spanish undergraduate advanced course for communications and Spanish majors, but specially geared toward those students minoring in Hispanic media. Its contents pertain to the rich interaction between literature and journalism in the Spanish speaking world for the last three centuries. Students will analyze and work with journalistic pieces by well-known Spanish speaking authors from both sides of the Atlantic. Prerequisites: SPAN 2308.

SPAN 4348 Sociolinguistics and Latino Health [3-0]
spring
An overview of language barriers in healthcare and their effects on Spanish speaking populations in the U.S. Review of language in health care policy. Analysis of language access measures to eliminate language barriers including medical interpreting and language concordant providers. Prerequisites: SPAN 2308.

SPAN 4370 Methods and Techniques of Translation [3-0]
as scheduled
Introduction to the theoretical skills necessary to translate specialized and technical documents from English to Spanish and Spanish to English. Prerequisites: SPAN 2308.
Special Education

SPED 1305  Introduction to the Exceptionalities [3-0]  
fall, summer  
Focus of this course will include the identification and analysis of characteristics of exceptional individuals. This includes various characteristics of the exceptionalities and the educational and treatment needs through the lifespan. Historical and current social, cultural, legal, educational and professional topics related to the development of special education will be covered. Course may be taken without admission into the College of Education.

SPED 2304  Adaptations for Individuals with Disabilities [3-0]  
spring, summer  
The focus of this course will be assistive technology on software and equipment to meet the educational needs of individuals with disabilities. Course may be taken without admission into the College of Education.

SPED 3302  Theories of Learning Disabilities [3-0]  
spring, summer  
This course surveys the theories basic to the study of learning disabilities. The course emphasizes the inactive learner theory and related cognitive and metacognitive learning strategies. Prerequisite: SPED 1305 or consent of the instructor.

SPED 3320  Survey of Exceptionalities [3-0]  
fall, spring, summer  
This course provides an overview of the nature of disabilities and special education services. The content of the course will primarily focus on the definitions and characteristics of exceptionalities. This course provides an introduction to individual differences among children and youth who have been determined to differ significantly from their peers in terms of mental, physical, and emotional characteristics. It is also a brief introduction to those educational and related programs and services that are collectively known as special education in contemporary public schools. Prerequisite: None.

SPED 3321  Inclusion Issues [3-0]  
fall, spring, summer  
The content of this course includes modifications, adaptations, strategies, and materials for including individuals with exceptionalities into the regular education classroom. An emphasis will be placed on the role of the general education teacher in the special education process. Prerequisite: Admission to the College Education.

SPED 3322  Literacy Intervention for Students with Disabilities [3-0]  
fall, spring, summer  
The content of this course will include an in depth study of strategies for improving the reading and written language skills of students with disabilities. The course will emphasize knowledge and skills related word identification, word recognition, vocabulary development, written composition, and writing mechanic instruction. Prerequisite: Admission to College of Education.

SPED 3323  Behavioral Interventions [3-0]  
fall, spring, summer  
The emotional and behavioral problems of exceptional children and youth are considered in the context of normal child development. A survey of the major categories of emotional and behavioral disabilities includes identification, description, and etiology, with material drawn from clinical, theoretical, and research sources. Approaches to remediation cover both community resources and the roles of various professional personnel. These include basic principles of applied behavior analysis and modification, which employ social learning theory, and operant conditioning models are taught. Emphasis is placed on designing individual environments selecting and implementing behavior. Prerequisite: Admission to the College of Education.

SPED 3324  Related Services [3-0]  
fall, spring, summer  
This course is designed to prepare students to become interpreters of medical information concerning major disabilities and to provide an understanding of the psychosocial and postsecondary (transition) factors encountered by students with disabilities. Focus will be
on how these factors affect postsecondary adjustment to a disability, and U.S. legal requirements related to students with disabilities. Topics include concepts of medical and psychosocial aspects of disability and how assistive technology, legal issues, and postsecondary issues can help the child with disabilities. Prerequisite: Admission to the College of Education.

SPED 3325 Curriculum Based Evaluation [3-0]
fall, spring, summer
This course focuses on knowledge and skills in assessing learners with exceptionalities. It provides a survey of the knowledge base related to appraisal in special education, including formal, norm-referenced testing and comprehensive coverage of informal, curriculum-based assessment. Assessment procedures will focus on academic areas which comprise the primary general education curriculum. Prerequisite: Admission to the College of Education.

SPED 4300 Testing and Assessment of Exceptional Individuals [3-0]
fall, summer
The content of this course will include norm and criterion referenced measures, systematic observational procedures and clinical observation techniques. There will be an emphasis on the assessment of individuals with disabilities who are at variance linguistically and socioculturally. Field experiences are required. (Field-Based Approved Course) Prerequisite: SPED 1305.

SPED 4301 Strategies, Methods and Materials for Teaching Individuals with Mild to Moderate Disabilities [3-0]
fall, spring
This course will include topics such as learning styles, cooperative learning, whole language, manipulatives, materials and strategies for teaching individuals with disabilities. Field-based experiences are required. Prerequisites: SPED 1305 or consent of instructor.

SPED 4303 Theories of Social Competence and Behavioral Interventions [3-0]
fall, summer
The content of this course includes the diverse intervention processes and theories in social skills intervention, behavior modification, cognitive-behavioral strategies and crisis prevention intervention. Field experiences are required. Prerequisites: SPED 1305 or consent of instructor.

SPED 4309 Program Planning of Secondary Special Education [3-0]
fall, spring
This course will address the needs of secondary special education students, including vocational and career assessment, vocational programming and transitional planning. Field experiences are required. (Field-Based Approved Course.) Prerequisites: SPED 1305 or consent of instructor.

STAT 2330 Elementary Statistics and Probability [3-0] as scheduled
This course is intended to provide students with an elementary overview of the mathematical nature and uses of descriptive and inferential statistics. Topics include the definition and fundamental theorems concerning measures of central tendency and dispersion, empirical and theoretical concepts of probability, the central limit theorem, tests of hypotheses, interval estimation, chi-square tests, and regression and correlation. Equivalent Course: MATH 2330; credit may be received for only one course. Prerequisite: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam.

STAT 2335 Introduction to Biostatistics [3-0] as scheduled
Topics include introduction to biostatistics; biological and health studies and designs; probability and statistical inferences; one- and two-sample inferences for means and proportions; one-way ANOVA and nonparametric procedures. Equivalent course: MATH 2335. Credit may be received in only one of MATH 2335 and STAT 2335. Prerequisites: MATH 1334 with a grade of C or better or satisfactory score on ACT or placement exam.

STAT 3337 Applied Statistics I [3-0] as scheduled
This course concerns itself with probabilistic models, regression analysis, nonparametric statistics and the basics of experimental design. Computer laboratory experience will be an important part of the course. Equivalent Course: MATH 3337; credit may be received for only one course. Prerequisites: Junior standing and either MATH 1340 or MATH 1341. It is highly recommended that the student have some knowledge of statistics such as is offered in STAT 2330.

STAT 3338 Applied Statistics II [3-0] as scheduled
This course is the continuation of MATH/STAT 3337 and includes special designs, multiple comparisons, analysis of variance and covariance, multiple regression, and coding. Equivalent course: MATH 3338. Credit may be received in only one of MATH 3338 or STAT 3338. Prerequisite: MATH 3337 or STAT 3337.

STAT 4336 Sampling [3-0] as scheduled
This course surveys the basic elements of sampling, including concepts of population and sample, the organization of a sample survey, coverage content error, questionnaire design, basic survey designs and computation of estimates and variances. Equivalent course: MATH 4336. Credit can be received for only one of MATH 4336 and STAT 4336. Prerequisite: MATH/STAT 2330 with a grade of C or better. General
The purpose of the course is to provide an opportunity for students to understand the psychology of learning and its application to their own university experience and to their chosen major/profession. The course will focus on the assessment, understanding and application of the psychology of learning, cognition and motivation.

**Women’s Studies**

WMST 3307 Women in Music [3-0]
as scheduled
The course introduces students to women composers in Western culture from Hildegard von Bingen (1098-1179) to the present. Course content includes biographical information, contributions to music and listening. This course provides an opportunity for students to learn about artistically creative women as well as the elements, structure and appreciation of music and musical styles.

WMST 3308 Emerging Female Identity [3-0]
as scheduled
This course will focus on the emerging identity of women in the literary works of the American South and Southwest since 1960. Although several themes, such as family life, geography and migration will be examined, the development of the female individual and the quest for identity as represented in works of different generations and regions will be emphasized.

WMST 3309 Women’s Health Issues [3-0]
as scheduled
This course is designed to introduce the student to theories, concepts, practices and issues related to women’s health, with an emphasis on self care. Psychosociocultural, political and ethicolegal factors will be addressed and analyzed. Prerequisites: None. Cross-listed as NURS 3309 Women’s Health Issues.

WMST 3310 Latin American Women's Studies Special Topics [3-0]
fall
This course will introduce students to the growing and diverse field of women’s and gender history as it pertains to Latin America. It will examine the experiences, roles, and contributions of women in politics, economics, labor and culture, and it will also examine the construction of gender within the Latin American context. The time period, focus, and geographical area will change according to the specialty of the instructor. Prerequisites: None.

WMST 3338 Psychology of Gender [3-0]
fall, spring, summer
This course reviews psychological perspectives on sex differences and in development of gender identity. Theoretical explanations of differences in female and male attitudes and behaviors will be addressed. Sex and gender will be discussed as they influenced social relations, including achievement, communication, friendship patterns, romantic relations and work roles, as well as mental and physical health. Cross-cultural perspectives will be included. May be counted as PSY 3338 or WMST 3338; a student may receive credit in only one course. Prerequisite: Junior standing.

WMST 3341 Women's Rhetoric and Language [3-0]
spring
This course provides a focus on rhetoric and language in women’s experiences. Related topics will include the contributions women have made to the Western rhetorical tradition as well as the consideration of the differences in actual language uses and conventions by and about women.

WMST 3342 Ethnic Women Writers [3-0]
spring
This course provides a focus on women’s writing from a multicultural perspective. Centered on the study of literary works and literary theory either by or about women, this course offers a global perspective and pursues insights about various approaches to the question of ethnic women and their representation.

WMST 3343 Women's Literature [3-0]
spring
This course provides a focus on literature by women and the contributions that such literature has made to a variety of cultural and social contexts. The focus will be on feminist perspectives and theories in critical analysis.

WMST 3344 Gender, Crime and Criminal Justice [3-0]
as scheduled
The course will focus on female criminality, gendered victimization, punishment/treatment/correction of female offenders, female inmate subculture and women workers in the criminal justice system. Social ideologies about race, class and gender will be examined as to their relevance in shaping and defining crime, criminology and the socio-legal treatment of offenders, victims and professionals.

WMST 3375 Women in History Topics [3-0]
as scheduled
This course will introduce students to the growing and diverse field of women’s and gender history. It will examine the experiences, roles and contributions of women in politics, economics, labor and culture. The time period, focus and geographical area will change according to the instructor. Suggested topics include Mexican American/Chicana History and Latina History.
This course is designed to examine the variety of existing feminist theories and their roots in diverse modes of philosophical analysis. It will explore how various feminist theories are consonant with or diverge from their base theories and from each other and whether such theories are still cogent. Methodology will incorporate both feminist pedagogy and traditional philosophical analysis, including feminist critique of the tradition. Prerequisites: PHIL 1310.

This course will introduce key texts in the history of feminism, including their philosophies, structure family, marketplace, school and political-legal arena. The nature and the causes of sex role differentiation, the factors contributing to changes in traditional roles during the early and middle twentieth century, and the changes still in progress. In addition to traditional texts, the course would include work by major women authors such as Isabel Allende and Elena Poniatowska. May be repeated twice for credit. Prerequisites: None

This course will introduce key texts in the history of women in Latin America from pre-conquest times to the independence period. The aim of this course is to study the presence and participation of women in history and to provide the tools for analyzing primary sources, posing important questions in the field and critically thinking about historiographical issues. The focus and geographical area will change according to the specialty of the instructor. May be repeated twice for credit. Prerequisites: None

This course is designed to explore Chicana and Latin American forms of feminisms, including their philosophies, history, and social movements. May be repeated twice for credit.

This seminar course is designed to emphasize the various intersections of women's opportunities and constraints across social variables, categories and institutions. Students will discuss, design, research, construct and present a project on topics relevant to issues addressed in women's studies. Topics and assignment particulars may vary by instructor. Prerequisites: At least two cross-listed WMST advanced electives

This course is concerned with anthropological studies done by women and about women, and studies of gender roles and gender inequality beginning in the late 19th century. Employing a historical perspective, it encourages critical assessment of gender studies and uses cross-cultural studies to focus on gender in certain aspects of social life. Prerequisites: ANTH 1323 or consent of instructor.

This course is concerned with anthropological studies done by women and about women, and studies of gender roles and gender inequality beginning in the late 19th century. Employing a historical perspective, it encourages critical assessment of gender studies and uses cross-cultural studies to focus on gender in certain aspects of social life. Prerequisites: ANTH 1323 or consent of instructor.

This course examines multidimensional aspects of gender and political life in the United States. The course analyzes the relationship among gender, culture, political behavior and public policy, and explores the historical evolution of the role of women in the U.S. political system.

This course analyzes women's social and political movements in a global context. The course provides a comparative examination of women's political and social participation and development.

Abebe, Michael Alemayehu, Assistant Professor, Department of Management; Management, Ph.D., Southern Illinois University Carvondale, 2008.

Abraham, John P., Professor, Department of Computer Science; Networking; Ed.D., University of Houston, 1986.

Acevedo Jr., Baltazar A., Professor, Department of Educational Leadership; Director, Center for Applied Research in Education; Southwest Texas State University, 1969; MA, Western Michigan University, 1974; Ph.D., The University of Texas at Austin, 1979.

Adair, Penelope A., Associate Professor, Department of History and Philosophy; History, Ph.D., University of California-Santa Barbara, 1993.

Agbese, Aje-Ori, Assistant Professor, Department of Communication; Writing for the Mass Media, Copy Editing, Mass Media Law and Ethics, Intercultural Communication; Ph.D., Bowling Green State, 2004.

Aguilera, Lydia, Clinical Assistant Professor, Cooperative Program in Pharmacy; Pharm. D., University of Florida, 2008.

Aguirre, Maria Teresa, Clinical Assistant Professor, Department of Clinical Lab Science; MS, Biology, The University of Texas-Brownsville, 2008.

Akindayomi, Akinloye, Assistant Professor, Department of Accounting and Business Law; Ph.D., University of Calgary, 2006.

Ahlulwalia, Punit, Assistant Professor, Department of Computer Information Systems and Quantitative Methods, Ph.D., Georgia State University, 2006.

Ahmad, Hassan, Professor, Department of Chemistry; Biochemistry, Ph.D., Aligarh Muslim University, 1983.

Ahn, Seokyoung, Assistant Professor, Department of Mechanical Engineering; Mechanics of Solids, Motion Element Design, Modern Control Systems, Introduction to Laser Material Processing, Optimal Control; Ph.D., The University of Texas at Austin, 2005.

Aldridge, James W., Jr., Professor, Department of Psychology and Anthropology; Psychology, Perception, Cognition, Memory; Ph.D., State University of New York at Binghamton, 1976.

Allen, David, Dean, College of Engineering and Computer Science and Professor; Ph.D., Aerospace Engineering, Texas A&M University, 1980.

Alfaro, Edna Crystal, Assistant Professor, Department of Psychology and Anthropology, Ph.D., The University of Texas-Pan American, 2009.

Alianak, Sonia, Associate Professor, Department of Political Science; Comparative Government, International Relations, American Government; Ph.D., The University of Texas at Austin, 1987.

Almaguer, Isela, Associate Professor, Department of Curriculum and Instruction; Curriculum and Instruction, Emphasis on Teacher Education; Ed.D., University of Houston, 2003.

Alvarado, Sylvia Michelle, Lecturer, Department of Undergraduate Studies, MS, Texas A&M University, College Station, 1997.

Alvarado, Victor, Professor, Department of Educational Psychology; Educational Leadership, Guidance and Counseling; Ed.D., Western Michigan University, 1976.

Alvarez Martinez, Stephanie, Assistant Professor, Department of Modern Languages and Literature; Spanish, Literature, Ph.D., University of Oklahoma, 2006.

Ambriz, Frank, Program Chair and Assistant Professor, Physician Assistant Studies Program; Pediatrics, Pulmonology, Internal Medicine; BS, The University of Texas Medical Branch-Galveston, 1979.

Amorim, George Jaques, Lecturer, Department of Music and Dance, Doctoral of Music and Dance, University of North Texas, Master of Music in Double Bass Performance, 2003.

Anabila, Andrew A., Assistant Professor, Department of Accounting and Business Law, Ph.D., Columbia University, 2003.

Andaverdi, Saul, Lecturer, Department of Mathematics, Mathematics, Master in Mathematics, The University of Texas-Pan American, 2007.

Anderson, Erik Ryan, Lecturer, Department of History and Philosophy; Philosophy, MA in Philosophy, A&M University, 2001.

Anderson-Mejias, Pamela, Professor and Department Chair, Department of English; Applied Linguistics, Second Language Acquisition; Ph.D., Indiana University, 1980.

Andoh-Baidoo, Francis, Assistant Professor, Department of Computer Information Systems and Quantitative Methods, Ph.D., Virginia Commonwealth University, 2006. Ann, Eun, Lecturer, Department of Math; M.S., Iowa State University, 2006.

Anshen, David W., Assistant Professor, Department of English; Ph.D., State University of New York at Stony Brook, 2004.
Appiahene-Gyamfi, Joseph, Associate Professor, Department of Criminal Justice; Criminology, International Criminal Justice, Corrections; Ph.D., Simon Fraser University, 1999.

Ardalani, Elvia G., Associate Professor, Department of Modern Languages and Literature; Spanish; Ed.D., Texas A&I University-Kingsville, 1990.

Arizmendi, Lydia González, Associate Professor, Department of Social Work; Generalist Social Work Practice and Marco Practice; J.D., University of California-Davis, 1978; MSW, University of Michigan-Ann Arbor, 1973.

Arredondo, Sonja L., Lecturer, Department of Social Work; MAS, Our Lady of the Lake University, 1974. Asgharian, Laleh, Lecturer, Department of Science and Engineering; MS, The University of Texas Pan-American, 2006.

Atamian, Rubik, Associate Professor, Department of Accounting and Business Law; Accounting; Ph.D., The University of Texas at Austin, 1984.

Ayala, Kara J., Assistant Professor, Department of Communication Sciences and Disorders, Ph.D., Northwestern University, 2005. Ayala, Marion, Lecturer, Department of Business Administration; MSA, The University of Texas-Pan American, 2006.

Azarbeyjani, Mohammad, Assistant Professor, Department of Mechanical Engineering, Ph.D., University of New Mexico, 2009.

Baik, Ellen R., Assistant Professor, Department of Political Science, Ph.D., State University of New York at Stony Brook, 2004.

Balci, Tamer, Assistant Professor, Department of History and Philosophy; History, Ph.D. in History, Claremont Graduate University, 2007.

Balogh, Andra’s, Associate Professor; Department of Mathematics; Mathematics; Ph.D., Texas Tech University, 1997.

Banatoski, Edward, Lecturer, Department of Electrical Engineering; Ph.D., The University of Texas at Arlington, 2000.

Banik, Bimal K., Professor; Department of Chemistry; Organic Chemistry; Ph.D., Jadavpur University-India.

Barrera, Iran, Assistant Professor, Department of Social Work, Ph.D., The University of Texas at Arlington, 2008

Bautista, Beatriz (Betty), Assistant Professor, Department of Nursing; MSN, University of South Carolina-Columbia, 1990.

Becker-Chambless, Amy, Lecturer, Department of English, Ph.D. Texas Tech University, 2006.

Behar, Stella, Professor, Department of Modern Languages and Literature; French; Ph.D., University of California at Los Angeles, 1991.

Belau, Linda, Associate Professor; Department of English; Philosophy, Literature, and the Theory of Criticism; Ph.D., State University of New York at Binghamton, 2000.

Ben Ghali, Mounir, Associate Professor, Department of Electrical Engineering; Systems Modeling and Robust Control, Robotics, Neural Networks, Knowledge-Based Systems; Ph.D., Tennessee Technological University, 1995.

Benham, Grant, Assistant Dean, College of Social and Behavioral Sciences and Associate Professor; Department of Psychology and Anthropology; Psychology; Ph.D., The University of Tennessee-Knoxville, 2000.

Bernal, John E., Professor, Department of Mathematics; Mathematics Education; Ph.D., The University of Texas at Austin, 1978.

Bhat, Narayan, Professor and Chair; Department of Chemistry; Organic Chemistry; Ph.D., University of Poona-India, 1982.

Bhatta, Dambaru D., Associate Professor; Department of Mathematics; Ph.D., Dalhousie University-Canada, 1995.

Bhatti, Muhammad Idrees, Professor, Department of Physics and Geology; Atomic Physics; Ph.D., University of Notre Dame, 1987.

Birk, Megan Elizabeth, Assistant Professor; Department of History and Philosophy; History, Ph.D., Purdue University, 2008.

Blankenship, Charlene J., Associate Professor; Department of Rehabilitation Services; Ph.D., Southern Illinois University.

Borrero, Espiridion A., Associate Professor, Public Administration Program; Ph.D., University of Southern California.

Bose, Ramendra, Assistant Professor, Department of Mathematics, Applied Mathematics, Ph.D., State University of New York, 1973.

Bose, Subhash C., Beecherl Endowed Professor, Manufacturing Engineering Department; Process and Product Design, Computer-Aided Manufacturing, Robotics and Control; Ph.D., The University of Wisconsin-Madison,

Guetzow, Judith, Lecturer, Department of Rehabilitation; MS, The University of Texas-Pan American, 2001.

Guinn, Robert, Professor and Program Coordinator, Department of Health and Kinesiology; Health; Ph.D., Texas A&M University, 1974.

Guinn, Bonnie, Lecturer, Department of Biology; M.S., The University of Texas-Pan American, 1997.

Guinn, Scott J., Professor, Department of Biology; Genetics, Vertebrate Zoology; Ph.D., Texas A&M University, 1986.

Guo, Chiquan, Associate Professor, Department of Marketing; Marketing; Ph.D., Southern Illinois University-Carbondale, 2001.

Guzmán, Isabel (Penny), Clinical Specialist, Department of Nursing; MSN, University of Puerto Rico, 1972; MS, Texas A&M University-Corpus Christi, 1995.

Hamilton, Lee, Associate Professor, Department of English; 19th Century British Literature, Bibliography; Ph.D., Louisiana State University, 1982.

Hamilton, Rebekah, Visiting Professor and Interim Director of Writing Center.

Han, Aijie, Assistant Professor, Department of Chemistry, Ph.D., Fudan University, 2005.

Hannan, Mohammad Abdul, Associate Professor, Department of Physics and Geology; Solar Energy; Ph.D., University of London-United Kingdom, 1976.

Hansmann, Sandra E., Associate Professor, Department of Rehabilitation; Ph.D., The University of Texas at Austin, 2000.

Harai, Michiyo, Assistant Professor, Department of Psychology and Anthropology, Ph.D., Virginia Tech, 2002.

Haraway, Claude, Lecturer, Department of English; Ph.D., The University of Southern Mississippi, 2006.

Hay, Amy M., Assistant Professor, Department of History and Philosophy; Ph.D., Michigan State University, 2005.

Hays, Robert L., Lecturer, Department of Political Science; M.A., University of Missouri-Columbia, 1986.

Heckler, Edward, Associate Professor, Department of English; Linguistics, ESL; Ph.D., Michigan State University, 1975.

Heller, William, Associate Professor, Department of Mathematics; Ph.D., University of Maryland, 1991.

Hernandez, Jose E., Associate Professor, Department of Modern Languages and Literature; Spanish, Linguistics; Ph.D., University of New Mexico-Albuquerque, 2004.
Hernandez, Leila M., Associate Professor, Department of Art; Graphic Design; MFA, University of Florida, 1999.

Hernandez, Rosalinda, Assistant Professor, Department of Educational Leadership; Ph.D., University of Texas at Austin, 1996.

Hernandez, Sonia, Assistant Professor, Department of History and Philosophy; Ph.D., University of Houston, 2006.

Hinojosa, Servando Z., Associate Professor, Department of Psychology and Anthropology; Anthropology, Maya of Guatemala, Chicano Culture, Medical Anthropology, Latin America; Ph.D., Tulane University, 1999.

Hinthorne, James, Senior Lecturer, Department of Physics and Geology; Geology, Ph.D., University of California, Santa Barbara, 1974.

Hirai, Michiyo, Assistant Professor, Department of Psychology and Anthropology; Ph.D., Virginia Polytechnic Institute and State University, Blacksburg, Va., 2002.

Ho, Jungseok, Assistant Professor, Department of Mechanical Engineering; Ph.D., University of New Mexico, 2006.

Hoppens, Robert James, Assistant Professor, Department of History and Philosophy; Ph.D., University of Washington, 2009.

Huber, Timothy J., Assistant Professor, Department of Mathematics; Ph.D., University of Illinois, 2007.

Huerta, Carolina, Professor and Chair, Department of Nursing; Adult Education; Ed.D., Texas A&M University, 1990.

Hughes, Jerald K., Assistant Professor, Department of Computer Information Systems and Quantitative Methods; Ph.D., Graduate Center CUNY, 2006.

Hurt, Kevin, Lecturer, Department of Computer Information Systems and Quantitative Methods; MS, Texas Tech University, 1990.

Huq, Hasina, Assistant Professor, Department of Electrical Engineering, Ph.D., University of Tennessee, 2006.

Hyslin, Richard P., Professor, Department of Art; Ceramics, Sculpture, Drawing; MA, The University of New Mexico, 1968.

Ibrahim, Elamin, Associate Professor, Department of Chemistry; Analytical Chemistry; Ph.D., Mississippi State University, 1995.

Ignizio, James, Professor, Department of Manufacturing Engineering; Ph.D., Virginia Polytechnic Institute Infante, 1971.

I'm sorry, but the information you've provided seems to be incomplete or incorrect as it seems to contain references to various professors and their affiliations. It might be a part of a larger document or a list of faculty members. If you need more specific information or help with a different part of the document, please let me know! 😊
Jou, Jerwen, Professor, Department of Psychology and Anthropology; Psychology, Cognitive Psychology; Ph.D., Kansas State University, 1990.

Jung, Joo Young, Associate Professor, Department of Management; Mechanical Engineering; Ph.D., University of Connecticut, 1992; MBA, 2002.

Kaynak, Hale, Professor, Department of Management; Management, Production and Operation; Ph.D., University of North Texas, 1996.

Keller, Christopher, Associate Professor, Department of English; Ph.D., University of Florida, 2001.

Kim, Min, Assistant Professor, Department of Music and Dance; MFA, Arizona State University, 2005.

Kinsella, Brendan, Assistant Professor, Department of Music and Dance; DMA, University of Missouri-Kansas City, 2008.

Knight, Thomas D., Assistant Professor, Department of History and Philosophy; Early American History; Ph.D., University of Oxford, 2004.

Knobel Jr., Roger A., Associate Professor, Department of Mathematics; Differential Equations, Applied Mathematics; Ph.D., Rensselaer Polytechnic Institute, 1991.

Koo, Felix Chong Wah, Clinical Coordinator and Assistant Clinical Professor, Physician Assistant Studies Program; Pediatrics; Ph.D., The University of Texas Medical Branch-Galveston, 1981; M.D., The University of Texas Health Science Center at San Antonio, 1990.

Koon, Kai S., Professor and Chair, Department of Computer Systems and Quantitative Methods; Ph.D., Mississippi State University, 1987.

Kranz, Peter, Associate Professor, Department of Educational Psychology; Child Psychology; Ph.D., Utah State University, 1969.

Kuang, Anxiu, Professor, Department of Biology; Plant Development, Plant Physiology, Cell Ultrastructur; Ph.D., Auburn University, 1991.

Kuang, Weidong, Associate Professor, Department of Electrical and Computer Engineering; Ph.D., University of Central Florida, 2003.

Kuhn, Lisa L., Assistant Professor, Physician Assistant Studies Program; Family Practice, Obstetrics and Gynecology; MMS, Nova Southeastern University-Florida, 2004.

Kumar, Sanjeev, Associate Professor, Department of Electrical Engineering; Communications Networks, Protocols, Computer Architecture; Ph.D., North Carolina State University, 1995.

Kypuros, Javier A., Associate Professor, Department of Mechanical Engineering; Ph.D., The University of Texas at Austin, 2001.

Lang, Yong, Associate Professor, Department of English; Linguistics, ESL; Ph.D., The Ohio State University, 1998.

Lantz, Keith W., Professor, Department of Accounting and Business Law; Ph.D., The University of Iowa, 1975.

LaPrade, Douglas E., Professor, Department of English; 20th Century American Literature; Ph.D., University of Illinois, 1988.

Lavariega-Monforti, Jessica, Associate Professor, Department of Political Science; Ph.D., The Ohio State University, 2001.

Lawrence-Fowler, Wendy A., Vice Provost for Research; Professor, Department of Computer Science; Databases, Large Open Information Systems, Information Retrieval, Artificial Intelligence; Ph.D., The Ohio State University, 1983.

Lawton, Sean Dodd, Assistant Professor, Department of Mathematics, Ph.D., University of Maryland, 2006.

Leach, Stephen, Associate Professor, Department of History and Philosophy; Ph.D., University of New Mexico-Albuquerque, 1999.

Lee, Hyun-Chul, Lecturer, Department of Physics and Geology; Ph.D., Yonsei University, South Korea, 2001.

Lee, Kye-Hwan, Associate Professor, Department of Manufacturing Engineering; CAD, Plastics Processing and Product Design, Mold Design and Analysis; Ph.D., University of Massachusetts-Lowell, 1997.

Lee, Kyoung, Lecturer, Department of History and Philosophy; Ph.D., University of Texas at Austin, 1998.

Lemanski, Jennifer, Assistant Professor, Department of Communication, Journalism; Ph.D., University of Florida College of Journalism and Communications, 2007.

Levinson, Irving W., Assistant Professor, Department of History and Philosophy; Ph.D. in History, University of Houston, 2003.

Li, Jianzhi (James), Associate Professor, Department of Manufacturing Engineering Industrial Engineering; Ph.D., Texas Tech University, 2003.

Li, Junfei, Associate Professor, Department of Electrical Engineering; Electrical and Computer Engineering; Ph.D., The University of Texas at Austin, 2002.

Whitacre, Michael, Assistant Professor; Department of Curriculum and Instruction; Ph.D., Texas A&M University-Kingsville, 2007.

White, Thomas G., Assistant Professor; Department of Criminal Justice; Ph.D., Texas A&M University, 2003.

Wiener, Bella, Lecturer; Department of Mathematics; Mathematics Education, European Methods; MS, Vitebsk State University, USSR, 1968.

Wiley, Eric, Associate Professor; Department of Communication; Theatre/TV/Film; Ph.D., Louisiana State University, 1999.

Williams, Jacquelyn, Clinical Specialist; Department of Nursing; MS, University of Southern California, 1998; MSN, The University of Texas-Pan American, 2003.

Williamson, Eric M., Professor; Department of English; English and American Literature, Creative Writing; Ph.D., New York University, 1998.

Wimberly, Cory M., Assistant Professor; Department of History and Philosophy; Ph.D., Pennsylvania State University, 2006.

Winkel, Mark H., Associate Professor; Department of Psychology and Anthropology; Psychology, Cognitive Social Psychology, Law and Psychology; Ph.D., Oklahoma State University, 1982.

Wirts, Kristine, Associate Professor; Department of History and Philosophy; Ph.D., Auburn University, 2003.

Wrinkle, Robert, Professor; Department of Political Science; Public Policy, Urban Politics, Methodology; Ph.D., University of Arizona, 1967.

Writer, Justin Edward, Assistant Professor; Department of Music and Dance; Ph.D. of Musical Arts, University of Oklahoma, 2007.

Wu, Sibin, Associate Professor; Department of Management; Strategic Management and Organizational Theory; ABD, Ph.D., University of Wisconsin-Madison, 2004.

Yagdjian, Karen, Associate Professor; Department of Mathematics; Ph.D., Moscow State University, 1990.

Yanev, George P., Assistant Professor; Department of Mathematics; Ph.D., University of South Florida, 2001.

Yoon, Ann Eun, Lecturer; Department of Mathematics; MS, Iowa State University, 2006.

Yoon, Jasang, Assistant Professor; Department of Mathematics; Ph.D., Iowa State University, 2003.

Young, Randall Frederick, Assistant Professor; Department of Accounting and Business Law; Ph.D., University of North Texas, 2008.

Zaidan, Frederic, Associate Professor; Department of Biology; Biological Sciences; Ph.D., University of Arkansas, 2001.

Zarate, Arnoldo, Lecturer; Department of History and Philosophy; Ph.D., University of Texas-Austin, 1989.

Zemrani, Aziza, Assistant Professor; Public Administration Program; Ph.D., Southern University and A&M College.

Zeng, Liang, Associate Professor; Department of Physics and Geology; Ph.D., Zhejiang University, 1998.

Zents, Jeffrey W., Lecturer; Department of History and Philosophy; MA, Washington University in St. Louis, 1994.

Zhou, Haiyan, Associate Professor; Department of Accounting and Business Law; Ph.D., Temple University, 2003.

Zolfagharian, Mohammadali, Assistant Professor and Chair; Department Marketing; Marketing; Ph.D., University of North Texas, 2007.
Glossary of Terms

[3-0] or [3-0-12] (for example)
Regularly scheduled classes at UT Pan American have prescribed contact hours (the actual number of hours each week a student will spend in lecture, laboratory and/or clinical sessions for that class) that are shown in brackets to the right of the course title in each department’s course listings. The first number denotes the number of lecture contact hours, the second number denotes the laboratory contact hours, and a third number, if included, is the number of clinical contact hours. These numbers apply to the courses as they are scheduled for the fall or spring semester. Summer weekly contact hours will be adjusted to compensate for the shorter duration of the semester. Examples:

[3-0] The class will have three hours of lecture per week.
[2-3] The class will meet for two hours of lecture and three hours of laboratory per week.
[3-0-12] The class will have three hours of lecture and 12 hours of clinical experience each week.

Accreditation — College or University
A college or university in the United States is considered accredited if it is recognized by one of the following regional accrediting agencies:

- Middle States Association of Colleges and Schools
- New England Association of Schools and Colleges
- North Central Association of Colleges and Schools
- Northwest Association of Schools and Colleges
- Southern Association of Colleges and Schools
- Western Association of Schools and Colleges

Accreditation — High School
A high school in Texas is considered accredited if it is recognized by the Texas Education Agency (TEA). High schools outside of Texas are considered accredited if they are recognized by their state accreditation agency.

Advanced-level Work
Courses numbered 3000-4000 are advanced or upper-division courses. Courses numbered 3000 are designated as junior level, and 4000-numbered courses are designated as senior level. Approval of the department chair or dean of the college is required for enrollment in advanced-level courses by students who have not reached junior standing. Students who have not passed all portions of the TASP exam may not enroll in any advanced-level coursework if, upon completion of the work, the student would have completed 60 or more hours.

Attempted Hours
Attempted hours are the total number of hours for courses that a student has attempted, including failing grades such as “F,” “DF” and “WF.” Repeated courses, failing grades over seven years old, incomplete grades and credit (CR) grades are not included in attempted hours at the undergraduate level.

Census Date
The official census date for The University of Texas-Pan American is the 12th class day for regular fall and spring semesters or the fourth class day for summer sessions.

Common Course Number
If the course is generally equivalent to other lower-division courses taught at universities and community colleges within the state, the Texas Common Course Number is shown in the course description for informational purposes. See page 27 for further information.

Contact Hours
Number of regularly scheduled hours per week that a lecture, laboratory or clinical experience is scheduled to meet during a long semester. (See [3-0] above.)

Coursework in Residence
Coursework in residence refers to coursework actually completed on the UT Pan American campus. Extension, credit by examination, and transfer credit may not be used to complete the residency requirement for graduation.

Dean’s List
After each regular semester, a dean’s list is published listing the names of all undergraduate students enrolled in a minimum of 12 college-level hours who have a grade point average of 3.5 or better for courses taken that semester. A dean’s list is not produced during the summer sessions.

Designated Electives
Students have choices within the category of designated electives but must complete the required number of courses or hours from those specified.

Elective Hours
Required semester hours for which specific courses are not prescribed are listed as elective hours.

Entering Freshman
A student admitted as an entering freshman has not attended any accredited college or university.

Full-time Graduate
A graduate student who is enrolled for at least nine hours of credit during a regular semester, or a total of six hours of credit during the summer sessions, is considered fulltime.
Full-time Undergraduate
An undergraduate student who is enrolled for at least 12 semester hours during a regular semester, or at least six hours of credit during a summer session, is considered fulltime.

Half-time Graduate
A half-time graduate student is one who is enrolled for six to eight hours of credit during the regular semester or three hours of graduate credit during a summer session.

Half-time Undergraduate
A half-time undergraduate student is one who is enrolled for six to 11 semester hours during the regular semester or three hours of credit during a summer session.

Three-Quarter Time Undergraduate
A three-quarter time undergraduate student is one who is enrolled for nine to 11 semester hours during the regular semester.

Hours
College credit at UT Pan American is measured in terms of semester credit hours. Ordinarily, a class that meets one 50-minute period per week for a regular semester will carry a credit of one hour. The majority of classes meet three periods or their equivalent each week and carry three hours of credit. Two or three laboratory hours per week are usually required for one hour of laboratory credit.

Leveling Work
Coursework designed to eliminate deficiencies in educational background of students admitted or being considered for admission to a graduate program is called leveling work. (Graduate programs are designed on the assumption that students have a common body of knowledge.)

Maximum Course Load
The maximum load for a full-time undergraduate student is 18 hours in a regular semester and 15 for each summer session. Students may be permitted to enroll for additional hours with the approval of his or her undergraduate advisor and the dean of the college.

MTEL
The MTEL (Michigan Test of English Language) is one of the two major English-language proficiency tests for non-native speakers of English. The other exam is the TOEFL (Test of English as a Foreign Language). Only the TOEFL is administered at UT Pan American.

Prerequisite
A course listed with a prerequisite means that specified requirements must be met before one can enroll in the course. Specific prerequisites are listed in course descriptions.

Probation
Students are placed on scholastic probation when they fail to achieve the required overall grade point average. Students may be placed on disciplinary probation for infraction of any University regulation. In either case, they must satisfy specific requirements before they can return to a non-probationary status. For further information, refer to the section in this catalog on scholastic probation and suspension on page 65 for undergraduate students and to the Graduate Catalog for graduate students. The Student Conduct and Disciplinary Code is discussed on page 86.

Regular Semester
A regular semester is any 15-week fall or spring semester.

Returning Student
A student whose last institution attended was UT Pan American is admitted as a returning student after an absence of at least one regular semester.

Semester (see Regular Semester)

Special Student
A student holding at least a bachelor’s degree from an accredited institution who does not wish to enter the graduate school may be permitted to register as a special student in one of the undergraduate colleges and is subject to all rules and regulations of that college.

Special Graduate Student
Special graduate students are those holding a master’s degree from an accredited institution who do not wish to enter a graduate program but wish to attend courses.

Summer Session
As part of its regular program, the University offers two summer sessions, each five-and-one-half weeks long.

Three-Quarter Time Undergraduate
A three-quarter time undergraduate student is one who is enrolled for nine-11 semester hours during the regular semester.

Transfer Students
Students admitted as transfer students have last attended an accredited college or university other than, or in addition to, UT Pan American.

Upper Division (see Advanced-level Work)
