This program leads to a profession which requires an occupational license as defined under Texas Occupations Code 58.001. This requires that all applicants seeking to become licensed must undergo a criminal background check prior to licensure.

Accountants and auditors prepare, analyze, and examine financial reports to ensure their fairness and reliability. Some accountants provide taxation advice and other consulting services to individuals and organizations or work in various capacities in not-for-profit organizations. Others serve as controllers, internal auditors, chief financial officers, and budget analysts. Demand for accountants is independent of the state of the economy and accounting graduates earn a very high salary.
