**Degree Info** 

The multidisciplinary Bachelor of

Science degree in Environmental

Science prepares graduates for

careers at local, state and federal

government agencies, non-profit

organizations, and environmental

consulting firms. Additionally,

graduates of this program are

prepared to continue onto graduate

studies in order to pursue research

and scholarship opportunities. The

program core focuses on key

environmental issues while the

restricted electives allow the

students to choose to focus on areas

of interest to the individual student.
