MATHEMATICS

Hosted on South Padre Island

February 15-17, 2023

Building Interdisciplinary Collaborations in STEM Education: STEM Toward Transformative Practices

This Conference brings together researchers and educators to discuss STEM Education research and how they are applied in P-20 learning environments. With an overarching focus on diversity, equality, and inclusion in STEM, the goals of this conference include:

- Share current research within disciplinary and interdisciplinary STEM contexts.
- Facilitate discussions between researchers, educators, and students.
- Promote collaborations and partnerships from local to international.

Early Bird (before January 3, 2023)

Student Rate: \$65

Others: \$100

Registration after January 3, 2023

Student Rate: \$100

Others: \$150

REGISTER TODAY!
