

47th Annual TSAHP Conference

UTRGV proudly hosted the Texas Society for the Advancement of Health Professions (TSAHP) Conference.

The event welcomed students, faculty, and healthcare professionals from across the state. It served as a valuable platform to showcase student research, encourage professional development, and highlight healthcare innovation. Attendees participated in a range of sessions, workshops, and poster presentations.

A major highlight was the announcement of the 2025 TSAHP Executive Board election winners. Congratulations to the newly elected members!

Thank you to all who contributed to making the conference a meaningful and successful event.
