

# EXPRESSIVE ARTS THERAPY CERTIFICATE

## 100% ONLINE

The Expressive Arts Therapy Certificate is a fully online, 9-hour certificate program designed to provide students from different mental health educational backgrounds with the opportunity to broaden their scope of practice. This increases counseling skills and job opportunities by helping practitioners become more competitive in the job market. This program is for master's or doctoral level mental health providers as well as current graduate level counseling/mental health students. Students who complete this master's level, online certificate will be able to provide enhanced expressive arts therapies.
