

Student Graduation Rate Template – Single Campus

September 2025

In order to be in compliance with the 6th edition accreditation standard A3.11i, the program must complete the **ARC-PA Student Graduation Rate TEMPLATE** below with its most current information. This completed table must be published and readily available to enrolled and prospective students.

Standard A3.11 The program *publishes* and makes *readily available* to enrolled and *prospective students* current program information, including:

- i) current annual student graduation rate information, on the table provided by the ARC-PA, no later than April 1st (4/1) of each year.

Completing the ARC-PA Student Graduation Rate Template:

- Class of: insert year class cohort will complete the program.
- Entering class size
 - Number of students newly enrolled for the admission cycle **PLUS** number of students who are reentering from a different cohort.
- Attrition rate calculation: Number of students who attritted from cohort (decelerated + withdrawals + dismissals) divided by the (entering class size + number joining class cohort).
- Graduation rate calculation: Number of cohort graduates divided by the (entering class size + number joining class cohort).
- “Comments” are not required but may provide supplemental narrative to enhance understanding of the data presented.

Publishing the ARC-PA Student Graduation Rate Template:

- The completed table must be published without any edits beyond inserting your program’s most updated data.
- You may publish the Attrition Table through ‘copy’ and ‘paste’ or by saving the table as a separate file that is attached to your program’s website.
- Some program websites will not accept an upload of the table or an image of the table. In this case, the program may recreate the table using its web design system in a manner that resembles the ARC-PA table. Contact Accreditation Services with questions.
- The ARC-PA directions for table completion are not required to be published.
- This table is the minimum information that needs to be published according to standard A3.11i. Programs may provide additional information as long as that information accurately reflects the program offered (standard A3.10)

Note: The attrition calculation for this table does not reflect the ARC-PA definition of attrition. This data is intended for public viewing to protect student identity in sensitive cases. Programs should refer to the ARC-PA glossary definition of ‘attrition’ when completing accreditation application materials.

ARC-PA Student Graduation Rate TEMPLATE

| | Graduated Classes | | |
|--|-------------------|-------------------|-------------------|
| | Class of 20 25 | Class of 20 24 | Class of 20 23 |
| Maximum entering class size (as approved by ARC-PA) | 100 | 100 | 100 |
| Entering class size | 95 | 100 | 88 |
| Graduates | 87 | 92 | 79 |
| * Attrition rate | 8% | 8% | 10% |
| **Graduation rate | 92% | 92% | 90% |

Comments:

Class of 2025

Five students took a leave of absence and joined Class of 2026.

One student was dismissed during the didactic phase for academic reasons.

Two students withdrew for non-academic reasons.

Class of 2024

Three students took a leave of absence and joined Class of 2025.

Two students were dismissed during the didactic phase for academic reasons.

Three students withdrew for academic reasons.

Class of 2023

Seven students took a leave of absence and joined Class of 2024.

Two students withdrew for non-academic reasons.

*Attrition rate calculation: Number of students who attritted from cohort (decelerated + withdrawals + dismissals) divided by the (entering class size + number joining class cohort).

**Graduation rate calculation: Number of cohort graduates divided by the (entering class size + number joining class cohort).
