All graduates continue their clinical training in residency programs at hospitals in the Rio Grande Valley, across Texas, and throughout the United States. UT Health RGV, the clinical practice of the UTRGV School of Medicine, continues to transform the health of the Rio Grande Valley and proudly provides high-quality patient care in over 25 clinical sites across the Rio Grande Valley.

NEW CANCER AND SURGERY CENTER

UT Health RGV is expanding its healthcare offerings in South Texas with a new Cancer and Surgery Center. UT Health RGV Cancer and Surgery Center is part of UT Health RGV's commitment to bringing the highest level of care to every patient in South Texas.

The UT Health RGV Cancer and Surgery Center will open in February 2025.

Dear
**CLASS
OF 2024,**

On behalf of everyone at the university, congratulations on your graduation!

Earning a university degree is a significant milestone. When reflecting upon this achievement, it is critical to recognize that a UTRGV degree represents more than just academic attainment — it symbolizes a dedication to excellence that extends far beyond you, me, or the institution itself. After all, your success is ultimately a testament to the support and influence of the people you have in your life. Your diploma and accomplishment are also for them.

But what makes this moment even more remarkable is that you started your journey during the most disruptive period ever in the history of American higher education. Along the way, you learned some important life lessons in resilience and determination that will serve you well as you embark on your professional career. All the hard work and sacrifices you made have paid off. Though the homework and late-night study sessions are over, the memories and the friendships you made at UTRGV will remain with you, always.

You are now a UTRGV graduate and join a growing network of successful alumni around the World. Last Fall Commencement, UTRGV celebrated surpassing 50,000 UTRGV graduates since its inception. As a member of this graduating class, you are now helping to write the next chapter of our institution's proud history. Like those who came before you, you have paved the way for students who will follow in your footsteps. As you begin the next chapter of your life, remember that your success will enhance UTRGV's stature, as well as the prospects and opportunities of future students.

The Office of Alumni Relations invites you to stay connected with your alma mater and share your accomplishments. Follow the Office of Alumni Relations on Facebook, LinkedIn, and X (formerly Twitter) at UTRGV Alumni and Legacy or email them at alumni@utrgv.edu.

Again, congratulations on your graduation. We wish you continued success and remind you that UTRGV will always be your home. You will forever be part of our Vaqueros family. Your friends, family, and everyone at UTRGV salute you — V's Up!

Sincerely,

Guy Bailey

UTRGV **Mathematics & Science Academy**

MATHEMATICS & SCIENCE ACADEMY

The Mathematics and Science Academy (MSA) is an accelerated and innovative concurrent enrollment program for bright, motivated high school juniors and seniors interested in mathematics, science, and engineering careers.

Students enrolled in the MSA wear two hats - as high school upperclassmen and university undergraduates. They take classes alongside UTRGV students and are taught by university professors. By the time they graduate, they earn between 60 and 80 college credits.

The goal of the MSA is to educate the whole person. Caring faculty and staff mentor students to develop their creativity, curiosity, reasoning ability, independence, and self-discipline. Graduates of the academy are prepared for college-level mathematics, science, and engineering courses but also in other areas of higher-level studies. MSA students are also encouraged to serve their community, society, and humanity.

MSA students are part of the university and engage in many of the same campus activities as traditional students. At the same time, they form close bonds with their MSA peers as they work and study together in a collaborative learning environment. Many MSA students form friendships and memories they will cherish for the rest of their lives.

The 79th Texas Legislature established the MSA in May 2005 to meet the growing national need for students who are well prepared in mathematical and scientific problem solving, and who can compete in an increasingly technological world.

It opened to students in fall 2007 at UTRGV's legacy institution, UT Brownsville/Texas Southmost College and graduated its first cohort in 2009. In August 2016, MSA expanded to the UTRGV Edinburg Campus. It is the only program of its kind within The University of Texas System.

COSTUMES AND CUSTOMS OF COMMENCEMENT

The colorful costumes and traditional customs of college commencements trace their beginnings back to the origins of the contemporary university in medieval Europe. Modern American colleges and universities carry on many traditions that began at Oxford and Cambridge to demonstrate the continuity of learning over the centuries and to emphasize the importance attached to commencement exercises. Academic regalia refer to the distinctive attire worn by students, faculty, and other university officials at commencement. The origins of academic dress date back to the 12th and 13th centuries, when universities were taking form. The ordinary dress of the scholar, whether student or teacher, was the dress of a cleric. Though the custom of wearing academic dress was brought to America in colonial times, it was not until 1895 that a standardized code of academic dress was established and followed by most colleges and universities. The gown, hood, cap, and additional ornaments are the main categories of academic regalia and are distinctive for each degree.

CAPS

Headwear is an important component of the cap and gown, and the academic costume is not complete without it. The standard commencement headwear is the Oxford cap: a skullcap topped by a square cloth covered board - the reason for its "mortarboard" nickname. Some doctoral faculty members wear a softer Cambridge version of the cap that is a velvet tam with four, six, or eight corners. Usually, the color of the cap matches the color of the gown. Caps are worn throughout academic processions and during the ceremony of conferring degrees.

TASSEL

The tassel is attached to a button on the top of the cap and hangs down to the right for bachelor's candidates until their degree is conferred. Many universities ceremoniously have graduates move their tassel from the right to the left. Both master's and doctoral candidates' tassels often begin and remain on the left.

GOWNS

The gown is the most basic of academic regalia. The Costume Code calls for three types of gowns: doctoral, master's and bachelor's. Most gowns are black, but some universities have adopted distinctive colors. The bachelor's gown is the simplest of the three, a plain gown with long, pointed sleeves. The master's gown is distinctive for its extremely long, closed sleeves (originally used as a place to carry small books or other materials), the arms protruding through a slit at the elbow. The doctoral gown is the most elaborate, with front-facing velvet and three velvet bars on each of the full, billowing sleeves. The velvet can be black, Ph.D. blue, or the academic color to which the degree corresponds.

HOODS

The hood is derived from the cowls worn by clerics in the Middle Ages for warmth. Today, they are worn symbolically, hanging down the back. Master's hoods are 3 1/2 feet in length and have a velvet trim along the edge. Doctoral hoods are 4 feet in length and have a wider velvet trim. The satin lining of the hood, worn so that it can be seen, reflects the colors of the degree-granting institution. The color of the velvet trim signifies the academic discipline of the wearer's degree.

ADDITIONAL ORNAMENTS

Some participants in the commencement ceremony will wear additional ornaments such as colored cords, medallions or stoles. These ornaments signify the wearer's membership in an honor society or special group.

CHAIN OF OFFICE AND PRESIDENTIAL MEDALLION

The presidential medallion is the official insignia of the university president and is worn at commencement and other ceremonial occasions. Like many academic traditions, the display of a heavy “chain of office” comes from medieval regalia and represents the weight of responsibility for the wearer.

The UTRGV medallion and chain were designed in 2015 and executed by the jewelry students, jewelry faculty, and craftsman Lino Guiza in the UTRGV College of Fine Arts. The medallion is made up of two parts: the seal of The University of Texas Rio Grande Valley surrounded by an abstract sunburst created with a brick and mortar design. The cactus flowers on the outer edges of the seal are placed at the four cardinal points with the largest flower pointing south. The counter weight to the medallion is a representation of the native sabal palm. The Chain of Office is a circlet of art deco-inspired links representing the past, while revealing an infrastructure of bridges, aqueducts, and gears that speak to the importance of our solid foundation, water, and movement into the future. The chain features many aspects of the Rio Grande Valley that aid our growth and commitment to higher education:

Arches
Water
Turbine
Neuron Tree
Circuit Board

Abacus
Bone
Binary Code
Leaves/Quills

Butterfly
Tortoise
Finger Print
Road Junction
Satellite

BELL

Our stately bronze bell, circa 1850 is rung during commencement to symbolize a rite of passage and proclaims that a worthy and well-qualified individual has passed from one station in their life to a loftier one. Our bell is also the icon for the Bell Scholarship Endowment. Two to three outstanding students are selected to ring the bell at each commencement.

MEMORY STOLE

When students graduate from UTRGV they know they did not make the journey alone. The Memory Stole, a symbol of appreciation, is worn by graduates during the commencement ceremony. Following the ceremony they are encouraged to present the stole to a special family member, professor, or friend as a symbol of gratitude and appreciation for their support, inspiration, or mentorship.

CEREMONIAL MACE

In medieval times, the mace was a symbol of authority and carried before or set near a high official when ceremonies or sessions were being conducted. Today, the mace symbolizes the university’s governing authority and signifies the proceedings are officially sanctioned. Traditionally, the chair of the Faculty Senate acting as the Grand Marshal carries the mace to lead the academic procession at commencement and other special ceremonies.

The UTRGV 47” ceremonial mace was designed in 2016 by students in the College of Fine Arts and a committee of faculty from anthropology, archeology, geology, history, communication, and art. The head and seals of the mace were 3D printed and cast at the UTRGV College of Fine Arts. The mace is intricately imbued with historical, cultural, and architectural meaning.

The handles of the mace are made of mesquite wood locally sourced in the Rio Grande Valley and engraved with a decorative pattern of the state’s official turtle, the Ridley, and wind turbines.

The helix, between the handles, represents the coming together of the legacy institutions. The helix is made of petrified palm, the official stone of Texas.

The base is crafted from mesquite and inlaid with blue selenite, thought to be associated with mental clarity, truth and honesty, and to represent the Rio Grande River.

The tip of the mace is made of El Sauz chert excavated and donated by Dr. Juan L. Gonzalez.

UTRGV COLLEGE GONFALONS

The college gonfalon—or banner—with roots in the Middle Ages, was a symbol of units or family groups. Today, gonfalons are used at official university ceremonies as heraldic devices and are frequently carried during processions at commencement.

COLLEGE OF EDUCATION & P-16 INTEGRATION

Symbols:

The torch represents the guiding light – the ability for graduates to serve as a beacon for others and for the college to serve as a light that will lead the way for others.

The multicolored flame symbolizes the forward-thinking nature of the college, bringing power to ideas.

Colors:

Light blue for education, wisdom, intelligence and integrity.

COLLEGE OF ENGINEERING & COMPUTER SCIENCE

Symbols:

The dominant image is an interpretation of Moore's Law: Every year, computer chips and components are able to compute twice as much data.

The eye of providence symbolizes the grand architect. In this case, the engineer takes all things into consideration.

Colors:

Orange for engineering and the metals involved in the processing and development of technology. Deep blue for social ethics.

COLLEGE OF FINE ARTS

Symbols:

The waves represent the flow of the mind, freedom, imagination and knowledge. The three waves symbolize creativity, imagination, and motivation.

The interlocking shapes represent unity and strength between the arts and sciences.

The hummingbird stands for joy, beauty, strength, movement and independence.

Colors:

Wineberry for writing, khaki for fine arts, gold for art, and pink for music.

COLLEGE OF HEALTH PROFESSIONS

Symbols:

The dominant image is the peony flower, symbolizing health and medicine in Greek mythology; Paeon was turned into the flower by Zeus because Asclepius was threatened by his pursuit of knowledge.

The two snakes are Asclepius representing health and Hygeia representing wellness.

Colors:

Blue for the caring nature of the health professions and green for health and medicine.

COLLEGE OF LIBERAL ARTS

Symbols:

The trivium is derived from the medieval symbol for the seven liberal arts and sciences.

The symbols of the lion and the scales of justice represent the dialogue between the value of the emotions, power, and creativity within the rational, law, and historical institutions.

Colors:

Crimson, gold, silver and blue represent the disciplines within the college.

COLLEGE OF SCIENCES

Symbols:

The infinity symbol for math and physics also represents perfection, unity, and balance.

The atom represents the sciences and the vertical pillars represent the foundation of all life and biology, while the vertical lines signify energy.

Colors:

Golden yellow is the color of science, mathematics, and physics, while gold represents wisdom, understanding, and enlightenment.

At UTRGV, each college has a custom-designed banner signifying its academic unit. Each flag is rich in unique symbolism while also showing unity through size, shape, and color. The swoop at the bottom of each gonfalon represents the border of Texas, and the field of blue with gold stars of Texas represents the distributed nature of UTRGV—from Rio Grande City to South Padre Island.

ROBERT C. VACKAR COLLEGE OF BUSINESS & ENTREPRENEURSHIP

Symbols:

The two-headed eagle represents power and authority, while also symbolizing collaboration. Both heads are facing north, signifying innovation, looking forward, and success. Their wings are open, ready to fly and discover new horizons, and being open to new ideas. Wheat symbolizes wealth.

Colors:

Blue for healing, green for earth, and white for air.

SCHOOL OF NURSING

Symbols:

A thousand petal lotus is the highest depiction of soul. Seven chakras symbolize the connection between mind, body, and spirit. Metatron's cube is for the profession's feminine and masculine side. The serpent (Rod of Asclepius) signifies healing and tradition; the book symbolizes knowledge; the mortar and pestle represent pharmaceutical practice; fire/light reflects passion and innovation; and the RX symbolizes prescription medicine.

Colors:

Green is the primary color, symbolizing the pharmacy profession. The use of orange, yellow, and grey mirrors the colors found in the lattice symbol of the university logo. These warm tones honor the lively color palette of the Rio Grande Valley. Orange is incorporated to represent institutional pride and identity.

SCHOOL OF PODIATRIC MEDICINE

Symbols:

Enclosed within a circular frame, the foot accompanied by a snake—an emblem associated with Asclepius, the ancient Greek God of medicine—creates the impression of a blood cell moving through vein-like structures that resemble a DNA strand.
