

## UTRGV Nonprofit Workshop Series

### Spring 2020, Session 2: Project Management

As part of the Spring 2020 Nonprofit Workshop Series sponsored by The University of Texas Rio Grande Valley Nonprofit Resource Center, the second session of this series presented Project Management for Nonprofits.

On March 5, Jesus Cano and Hector Ramirez from the UTRGV Texas Manufacturing Assistance Center (TMAC) taught this workshop to 10 nonprofits at the UTRGV Center for Innovation and Commercialization in Weslaco. These nonprofits learned the role of project managers and the key phases of effective project management. This session also allowed nonprofits to learn about the tools and resources available to them as Project Managers and helped them identify key components of effectively managing projects for nonprofits.
