### Information

We are deeply focused on keeping our students, employees and community safe while working at our campuses and supporting our mission. As we continue to navigate this new normal, we have developed **Return to Campus Resources for Employees and Supervisors** that lay out processes to raise awareness of new health and well-being protocols and potentially helpful practices for cross-functional teamwork, operating discipline and training for employees. While it is not a one-size-fits-all approach, the resources include practical recommendations, based on guidelines from the Centers for Disease Control, UTRGV task force, and our own School of Medicine experts.

To maintain the health and safety of our on-campus community, we are asking that all faculty, staff, and student employees adhere to the guidelines outlined in the **Return to Campus Resources**.

We are proud of the work that has been accomplished so far and want to thank everyone for their continued effort, commitment, and support. But we can't do this alone. In the next couple of weeks and months we will rely heavily on our workforce to help our campus community stay healthy and safe.
