## Plagiarism Tools

Check submissions for plagiarism using SafeAssign

Although SafeAssign officially supports only English, clients are welcome to use SafeAssign with languages other than English. SafeAssign has no technical limitations that preclude using it with other languages. See Blackboard Help for more information.

If SafeAssign is enabled with Anonymous Grading, SafeAssign Originality Reports will be hidden from Instructors until Anonymous Grading is disabled. However, Students may still be able to see SafeAssign Originality Reports depending on the state of the "Allow students to view SafeAssign originality report for their attempts" setting.

- Allow students to view SafeAssign originality report for their attempts
- Exclude submissions from the Institutional and Global References Databases
