Duke Engineering is committed to fostering an intellectually and demographically diverse environment that supports creativity, innovation, and community.

We welcome promising engineering students from diverse backgrounds and experience to participate in an expenses-paid bootcamp to learn more about:

- The graduate school experience
- Duke Engineering graduate programs
- Ways to strategically position yourself to maximize future success

PROGRAM FEATURES

Participants receive information on these topics, and more:

- How do I know if graduate school is for me?
- What is the difference between a master's degree and a PhD? What are the career opportunities in each path?
- An in-depth look at Duke Engineering graduate programs and research opportunities
- How the admissions process works
- How to develop a competitive application
- Duke funding and fellowship opportunities
- Summer research opportunities at Duke Engineering

Plus, participants will:

- Meet Duke faculty and students, including those who align with your research interests
- Tour our laboratories and our beautiful campus

“The day really helped answer a lot of questions I had about graduate school.”

—BLESSING TAYISEPI, BOOTCAMP ATTENDEE

LEARN MORE & APPLY

Participant criteria, application requirements, and application form are available at: pratt.duke.edu/grad/diversity/bootcamp

Application window: May 14-June 29, 2018
