Notes: Does this program have a Fitness to Practice policy? The dismissal policy will cover similar needs but will not cover behavioral practice. This suspension/dismissal policy will be monitored by the program, not the graduate college. Students must be given the opportunity to go through the applet process once they have met the requirements of suspension/dismissal. Dismissal is only at the program level, not the Graduate College level. If a student makes an "F", they are suspended from the Graduate College, and the program must request the program dismissal (or if they are suspended). This request will initiate the registration hold unless the student has pre-registered at that point.
