Notes – if the 25 hours can't be enforced, why place it on the prerequisites? The department can manage that. It was an informational note to ensure that the committee and the department know what can be enforced. OCIA wants to ensure that the committee knows what can and can't be enforced in the systems.

Notes – Expired Course Work: For the 7-year timeline for master's level, will all courses expire? Students have 7 academic years from the time they start. If the student has been continuously enrolled, one year will automatically be given to the student. If a student stopped out, the student would have to apply to get the courses re-validated and they would have to start on the new catalog they entered.

Graduate Student Standing and Probation: In academic suspension portion the GPA should be 3.25 not 3.0. OCIA will correct.

Based on March 1, 2023, feedback from UT System regarding request to removal the GRE or GMAT as an admission requirement:

Programs working through the formal process to remove the GRE/GMAT from their admissions requirements can be granted an extension of the waiver implemented during the pandemic as they complete the proposal to permanently remove the requirement. The proposal must be reviewed by institutional leadership prior to submission to UT System. Removal of the GRE/GMAT requirement must be approved by the UTS Board of Regents. The waiver will expire according to the following timeline below. For those programs that have determined that the GRE/GMAT is predictive, and do not wish to change their admissions standards, the GRE/GMAT will not be removed. (**This was added during the meeting at 10:58. It was mistakenly omitted**)

Notes: The paragraph in the above was added during the meeting. For Biomedical Engineering program set to start in the Fall, would the department be able to submit as well? Since the program is brand new the institution will have to have more concentrations for this one. since the program doesn't have any data to show that it isn't needed so it makes it a bit more difficult. Is there anything else that a department can do to assist in the data gathering, aside from letting OCIA know they would like to remove the GRE? OCIA will reach out to the department once the institution has come up with a plan for data gathering.

MUAP 6279 & MUAP 6243	In February these two courses were approved to be removed from the inventory.
	There are students who need to take these two courses in the fall, so we are re-
	activating them.
