**Notes:** How many students are in the program? 20 students. How many electives do students have? There are 20 courses students can choose from. The department tries to teach these courses on a two-year rotation so they can be taught at least every other year. Do students normally only get a master's, or do they also get a doctorate? Most of our students only get master's degrees, but our students get hired in research. There are some students who do go for a doctorate, but they would have to go to other schools, as we don't currently have a PhD.
