Personal Responsibility Perspectives	Synthesizes other perspectives (such as cultural, disciplinary, and ethical) when investigating subjects within natural and/or human systems.	Identifies and explores multiple perspectives (such as cultural, disciplinary, and ethical) when investigating subjects within natural and/or human systems.	Identifies multiple perspectives while maintaining a value preference for own positioning (such as cultural, disciplinary, and ethical).	Identifies one's own perspective, but is unable or unwilling to identify others' perspectives.
