Dear Manager,

I believe that by hiring me, you will be adding a valuable and powerful member to your team as a skilled digital artist. Adobe InDesign, Adobe Illustrator, Adobe XD, Adobe Animate, Photoshop and Maya are among the company-standard programs I am proficient with. My ideas are adaptable enough to fit into any form, like water filling a variety of unusually shaped vases. As a graphic designer and concept artist, I create life from ideas and art from words.

I've held fast-paced jobs at businesses like Chick-fil-A, Parking Enforcement, and Cheddars in the past. I had to handle problems on my own a number of times when others were too busy with their own responsibilities. Understand that while others are unavailable, I will continue to produce material. If others are unable to complete their duties, I'm willing to take over. Because of my strong work ethic, quick thinking, and collaborative abilities, I believe we'll generate some of the best work in this industry.

I think I'm what your business has been lacking. Let me share my light and my range of thoughts with you. Having me by your side will bring you security and tranquility. I'll be waiting for your response. My number is (956) 458-0960. May God shower you with his kindness and goodness regardless of the choice you make. I appreciate your time. Thank you.

Sincerely,

Jacob Rodriguez
