Agenda AY 2023-2024 Meeting Time 10:00 am – 12:00 pm

Graduate Committee Meeting February 16th, 2023

- 1) Chairs Call to Order 10 am
- 2) Roll Call

Members:	College:	Present/Absent
Wanrong Hou	Business and Entrepreneurship	Present
Dumitru Caruntu	Engineering and Computer Science	ce Present
Michelle Abrego	Education and P-16 Integration	Present
Katrina Roush	Fine Arts	Present
Lisa Salinas	Health Professions	Present
Rebecca Hernandez	School of Nursing	Present
Kimberly Selber	Liberal Arts, Chair	Present
Wei Lin	College of Science	Present
Candace Robledo	School of Medicine	Present
Denise Longoria	School of Social Work	Present
VACANT	University Library	
Can (John) Saygin	Graduate College, Ex Officio	Absent
Laura Saenz	Curriculum & Institutional Assessment Office, Ex Officio	Present

- 3) Old Business: Review of Minutes from January 19th, 2023, meeting (Please respond via Teams regarding any revisions needed to the minutes. If no revisions are requested, then the minutes will be accepted through consent.)
- 4) New Business: Review of Submissions

a. College of Science

- i. School of Mathematical and Statistical Science
 - 1. Change Course Alexey Garber

Name	Туре	Comment	Effective Year
MATH 7100 Thesis Extension	Change Course	Proposal to change the grading basis from Standard Letter to Credit/No Credit.	Fall 2024
MATH 6391 Master's Project	Change Course	Proposal to change the grading basis from Standard Letter to Credit/No Credit.	Fall 2024

Agenda AY 2023-2024

Meeting Time 10:00 am – 12:00 pm

Change	Proposal to change the grading basis from	
0		Fall 2024

Motion to approve change: Dumitru Caruntu

Second: Wanrong Hou

Motion: Passes

Notes: There is an extension course, the masters project, and the thesis II. Will the Thesis I or the masters project be changed to credit/no credit? No. Students need 30 hours of letter grades. Do you have an extension course for the master's project? No. There isn't one for it.

i. School of Earth, Environmental, and Marine Sciences

		Electives section due to being untaught:	
		MARS 5426, MARS 5452, and GEOL 5170.	
Ocean, Coastal and	Change	An MDA will be submitted for previous	
Earth Sciences (MS)	Program	catalogs to use new courses.	Fall 2024

Motion to approve change: Dumitru Caruntu

Second: Denise Longoria

Motion: passes

Notes: For the new courses, how many times have the courses been taught under special topics? At least two times with good enrollment. What is good enrollment? Between 10-30 students, but some courses are capped to 15 to ensure that other courses meet enrollment. Are these courses going to be degree appliable? The electives section has more than 10 hours for students to use these courses. How often will these be offered? These will be offered every other year so students can take them in the 2-year program. For the new courses, how do you balance new courses and delete courses? There is a set of core courses that will provide a strong base for students. The electives are meant to allow students to do more in interdisciplinary interests. As the program grows, the program wants to develop concentrations but is not at that point yet.

b. College of Health Professions

i. Department of Physicians Assistant Studies

1. Change Program – Lisa Kuhn and Frank Ambriz

Name	Туре	Comment	Effective Year
Physician Assistant	Change	Proposal to add a three "C" rule in progression	
Studies (MPAS)	Program	requirements. Students will be dismissed upon	Fall 2024

Agenda AY 2023-2024

Meeting Time 10:00 am - 12:00 pm

a surio e those O compatent become of ((C)) and doe	
earning three 9 semester hours of "C" grades	
in the program.	
Note to the committee: In AY 22 – 23,	
substantive changes to this program were	
approved by the Graduate Committee. The	
previous changes were not implemented in the	
AY 23-24 catalog due to accreditation	
regulations. The previously approved changes	
can now be implemented. The proposed three	
"C" rule change will be added to AY 24 – 25	
catalog and combined with the changes	
previously approved. Please see the <u>link</u> to the	
archived form.	

Motion to approve change: Dumitru Caruntu

Second: Lisa Salinas Motion: Passes

Notes: There is a correction to the comments for the program, it's 9 semester hours, as the program has a variety of credit hour courses. Correction can be seen in red above. How many hours is the program? It's 100 hours. How did you come up with three "Cs", it's not three, it is 9 hours. But students often have difficulty getting their GPA up and pass board exams. How many hours do students enroll in every semester? 17 – 18 hours. What percentage of students fall under 9 hours' worth of "Cs"? We have about a cohort of 100 students enroll per semester, and about 3% fall under the low GPA. What background does the department see in students making these "Cs"? The department doesn't see any pattern with students' background. The GPA issue can arise even if a student comes in with a high GPA. We have a diverse group of applicants. Do you already have language in place for an "F"? Yes. The department follows the Graduate College policy. Are these students being caught early in the program for dismissal? Yes. They are caught within the first two semesters. Does this program have anything in place for getting the first "C" or formal process for students? The department currently doesn't have anything in place, but there is a coordinator that tries to follow students and develop a remedial plan. The program also has remedial plans for three months prior to starting the program to set them up for it, and there is a faculty member who has 5-6 students they follow throughout the program's progression. There are also module exams that help assess students to see if they are retaining the information they are getting. There are about 3-5 resources for students to ensure they have the tools needed to progress in the program.

c. College of Liberal Arts

i. Proposal GRE Removal for College of Liberal Arts – Pamela Anderson-Mejias

Program Catalog Page	Current Admission Requirements	
Communication (MA)	1. Bachelor's degree from a regionally accredited institution in the	
	United States or a recognized international equivalent in	
	Communication, Business, Social Science, or related field.	

Agenda AY 2023-2024

Wiceting Time 10:00 am	12.0	1
	2.	Undergraduate GPA of at least 3.0 in the last 60 semester credit
	0	hours.
	3.	GRE General Test. GRE test scores are valid for 5 years. A
		waiver of the GRE requirement will be granted to applicants
		who show proof of completing a graduate degree (master's or
		doctoral).
	4.	Three letters of recommendation from professional or academic
		sources.
	5.	Personal statement (500 words) detailing professional goals and
		reasons for pursuing the graduate degree.
History (MA)	1.	Bachelor's degree from a regionally accredited institution in the
		United States or a recognized international equivalent in a similar
		or related field.
	2.	Undergraduate GPA of at least 3.0 in the last 60 semester credit
		hours.
	3.	Minimum of 12 hours of upper-division and 9 hours of lower-
	٥.	division History course work.
	4.	Personal statement detailing professional goals and reasons for
		pursuing the graduate degree.
	5	Two letters of recommendation from professional or academic
	٥.	sources.
	6	GRE General Test. GRE test scores are valid for 5 years. A
	0.	waiver will be granted to applicants who show proof of
		completing a graduate degree (Master's or doctoral).
	7	Writing sample of at least five pages with citations and

Agenda AY 2023-2024

Meeting Time 10:00 am - 12:00 pm

		Verbal, and 4.0 Analytical are required for conditional admission
	3.	Letter of intent demonstrating interest in the program and articulation of goals
	4.	Resume including education and work experience
	5.	English language ability will be judged on the resume and submitted
		letter of intent; therefore, applications should be certain to use appropriate, formal academic English
	6.	Non-native English speakers who did not graduate from an English- medium high school and university must meet the minimum
		language proficiency requirements
Spanish Translation	1.	Bachelor's degree from a regionally accredited institution in the
and Interpreting (MA) -		United States or a recognized international equivalent in a similar or related field.
Online Program	2.	Undergraduate GPA of at least 3.0 in the last 60 semester credit hours.
	3.	GRE general test. Minimum scores: 146 Verbal and 4.0
		Analytical Writing.
	4.	Three letters of recommendation from professional or academic sources.
	5.	Satisfactory performance on the translation of a document from
		English to Spanish and from Spanish to English.
	6.	Personal interview (online or in person).

Motion to approve change: Michelle Abrego

Second: Katrina Roush

Motion: Passes

Notes: Did the programs look at GPA for these? Yes, they looked at the first semester and last semester. There is no significate difference between those who took the GRE and those who did not. Reminder to the committee that this is only an endorsement not an approval. UTS needs to approve this before it can be applied. This only needs UTS approval, there is no approval from THECB.

<u>Graduate</u>		clarify process and other information related to a	
Registration and	Policy	master or doctorate student when applying to get	
<u>Enrollment</u>	Update	a leave of absence.	AY 24 - 25

Motion to approve change: Dumitru Carantu

Second: Wei Lin Motion: Passes

Notes: Graduate Standing Policy: For appeals, are those communicated to students through letters or emails? Students do not get individual letters or emails. Students are recommended to check their status. How does a GPC look at students who are going into academic suspension? Could there be a letter or an email with the GPC included? No, students are not notified individually, but when a student goes into suspension ASSIST will have a notification. The Graduate College will send reports on students who have F's or incomplete grades, but there is no other form of notification. GPCs would have to manage those on their end. The registrar does not have any dashboard or any way to notify GPCs. These questions are good so a process can be developed later. There are some things that are monitored by Graduate College and others are managed by the department. Those include department level are "C" rules, needing to make Bs in coursework. Things like academic standing and F's. There are many moving parts for the department level rules that must be done actively. On the undergraduate side, students are notified they are on suspension. This may be needed on the graduate side. It is important to note that graduate students only have one transcript, so if a student took courses from another graduate program, it would impact the GPA of the current program. Do students have access to the library or other resources? Yes, the only time the student can't access resources is when they are not active students (meaning they have not enrolled for one academic year). How long does a suspension appeal take? It depends on the steps. There are several levels of review, and some programs have other steps so it can take a little longer. For clarification, do students on probation do not have a process for appealing but they can keep assistantships? No. Students on probation do not have an appeal process and are handled on a case-by-case basis. It's concerning that these are handled on a case basis and there is no process for them. Some students depend on these assistantships. The Graduate College has aligned with the UTS policy on assistantships. How does the Graduate College communicate these policies with the other colleges and departments? These are not changes, these are clarifications to match what happens in the current process. This is to not have individual interpretations. Will we need to set up a procedure for this or does that still need to happen? The procedure is already in place. Faculty in the Department of Communication were not aware of this policy or did not have a clear understanding of this policy. The faculty did not know about repeated courses not replacing gradings and other important policies. Since this is just clarification, this doesn't need approval. This is only a notification to the committee of the update. Since the registrar has a role in this, there is a request to have a meeting over the policy. Voting is only for endorsement and the policy can still be revised.

Agenda AY 2023-2024

Leave of Absence: At one point there was a graduate handbook that has now become a website. In looking at the website under current students, would it be helpful to label some of this as graduate handbook or faculty/staff policies to put these together for faculty? Yes. The Graduate College is working on getting a handbook together for masters, doctoral, assistantships, and faculty cheat sheets for policy information. These projects should be wrapped up by May for publication in the summer. Will there be any links to program specific policies? Dr. Saenz's office is heading the project of getting those policies into the catalog. The Graduate College would link to those as to not have the same information in two places. Students who have a Leave of Absence are still considered as active students and there is no way to monitor or stop a student from using resources through registrar. The Graduate College sends information to the swipe access with specific lists to prevent these students from using resources. For example, doctoral students who have specific labs, students who are approved to use them will have swipe access. The registrar clarified there is no way for this to be enforced. Is there anything in place to monitor these students? There is for doctoral level, but currently there isn't anything in place for master level students. There is a plan to eventually develop one for master level students. Is there a tag for any student on a LOA? There isn't a tag currently for these students, but it would be desired. If a student doesn't enroll in a course and did not have an LOA, does a GPC have to reach out to submit an LOA? Students remain active for one year, so currently a way to monitor this for GPCs. Some programs are based on cohorts, so those students are on top of submitting LOA's, but not all programs are set up this way so not all students would need an LOA. If a student lets the GPC know they are taking a semester break, should the GPC have the student submit the LOA? Yes. They should.

5. Announcements or Other Informational Items

a. Next meeting - March 22nd

6. **Adjournment**

Motion: Dumitru Caruntu Second: Denise Longoria
