

**THE UNIVERSITY OF TEXAS RIO GRANDE VALLEY
REQUEST FOR UNDERGRADUATE COURSE SUBSTITUTION**

Name: Blanket Substitution **Student ID:** UTPA Legacy (2011-15 catalogs) and UTRGV (2015-16 catalog)
Major: Civil Engineering **Catalog Year:** 2011-15 (UTPA Legacy), 2015-16 (UTRGV)

The following deviation(s) from the catalog requirements are requested:

Course	Grade	substituted for	UTRGV Course
MECE 3449 Mechanical Engineering Analysis I			MATH 2415 Calculus III
MECE 3450 Mechanical Engineering Analysis II			MATH 3341 Differential Equations

Student's Justification for the Substitution Request:

Students within these specified catalog years have been advised by Civil Engineering department faculty that they could complete an alternate sequence to MECE 3449 Mechanical Engineering Analysis I and MECE 3450 Mechanical Engineering Analysis II (Mathematics Sequence 1). Since 2011, the department has permitted students to complete MATH 2415 Calculus III and MATH 3341 Differential Equations (Mathematics Sequence 2) in lieu of MECE 3349 and MECE 3350 (Mathematics Sequence 1). These have been formally approved via course substitution. Due to the high amount of students who have completed Mathematics Sequence 2 in place of Mathematics Sequence 1, the Civil Engineering Department has requested that this blanket substitution serve to notify the Office of the Registrar that both are approved sequences by the department. The department is also requesting that Mathematics Sequence 2 be formally scribed as an alternate for Mathematics Sequence 1 in DegreeWorks for catalog years 2011-2015 (UTPA Legacy) and 2015-2016 (UTRGV). Note that students may not mix these course sequences but must complete either full pair (Mathematics Sequence 1- MECE 3449/MECE3450 or Mathematics Sequence 2- MATH 2415/MATH 3341).

Department's Justification for Approval/Denial:

Advised By: Peter-James Ehimika (SAS)
