

## CREATE YOUR OWN WILL ONLINE

How can you have peace of mind that in the event of your death, your property will be distributed according to your wishes? Or your children will be cared for by those you choose? The answer is by having a will.

Online will preparation is an enhanced product service available with your group life insurance coverage from Dearborn National®. The service provides you the ability to simply and quickly create a standard will that meets your needs and is valid in all states—free of charge. Known as the EstateGuidance® program,<sup>1</sup> the service can be accessed online at your convenience.

### WHY IS IT IMPORTANT TO HAVE A WILL?

A will is one of the most important legal documents you will ever sign. Upon your death, it controls who gets your property, who will be the guardian of your children and who will manage your estate.

A poll by Bankrate, Inc., found that 69% of parents with children under the age of 18 don't have a will—yet 88% of them said they believe a will is important in order to appoint guardians.<sup>2</sup>

Without a will, state laws will determine who gets your property. In most states, your property may be divided among your spouse and children. If you do not have immediate family, your property may be distributed to other family members or next of kin. If the court cannot find your next of kin, then the property goes to the state. A will is a legal document that states how you want your property to be distributed rather than having a court decide for you.

### EASE THE COSTLY AND TIME-CONSUMING BURDEN OF PROBATE

Probate is a required legal proceeding in which a court determines how property will be divided. If you do not have a will, the court will appoint an administrator and charge a fee for doing so. This may take a long time and cost a significant amount of money. While a will does not preclude probate, it can reduce time, expense and undue stress upon your loved ones.
