Project Mgmt. Office reviews requests:
- Does a solution exist already?
- Are resources outside of requesting office/dept. needed to implement?
- Does solution handle sensitive data?
- Does requesting office/dept. have the funding?

Sub-committees will review and evaluate using:
- Current available solutions
- IT & Data vision and principles
- Key priorities
- Return on investment

1. Input

2. Decision

4. Execution

3. Funding

- Sub-committees will approve funding and resources.
- Operational IT and Data Committee will review and provide input/guidance as necessary.

- IT Project Management Office (PMO) will manage approved requests, or assign other PM, and report status.
