BLACKBOARD ALLY

Blackboard Ally is a tool to help make your course content more accessible. Download alternative accessible formats of your course files - choose from semantic HTML, audio, electronic braille and more.

Accessible files include readable text for screen readers, pictures with captions, and easy-to-navigate content. Ally creates multiple accessible alternatives from the original documents in your course. You can download accessible formats anywhere that files are used.

Accessible Formats	
Ally generates alternative formats for these file types: ■ PDF ■ Word ■ Powerpoint ■ OpenOffice/LibreOffice ■ HTML	Ally creates these alternative accessible formats: ■ OCR version for scanned documents ■ Tagged PDF version of Word, Powerpoint, and OpenOffice/LibreOffice files ■ Semantic HTML ■ ePub ■ Electronic braille

Find Accessible Files

In your Blackboard course, locate a file's menu and select "**Accessible versions**".

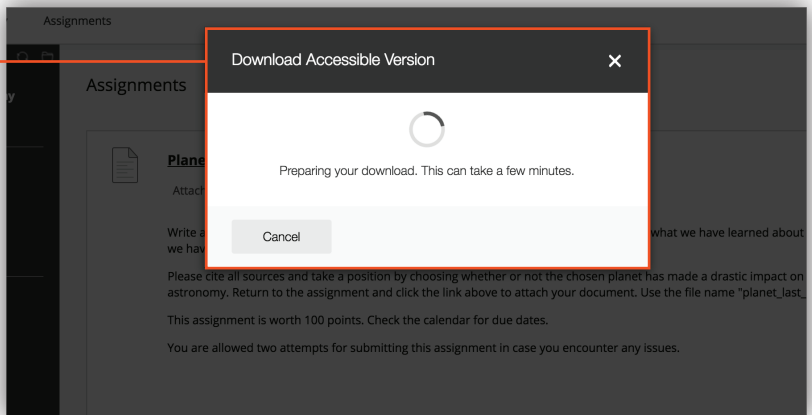

Download Accessible Files

Once you found your course file, select the file dropdown and select Accessible versions.

A pop-up window lists accessible file options. Accessible versions may vary depending on the file type. Choose a version and select "**Download**".

If this is your first download of a specific file type, a Preparing download notification appears. The download may take multiple minutes to complete.

Once your file downloads, you can open or save the accessible version. You can also return to the original file to get different versions. The instructor's original file will always remain in your course, regardless of which alternatives you select.
