Frequently Asked Questions

Q: Where do my students purchase their access codes?
A: Your students can go to www.dawnsign.com/store to purchase their access code.

Q: How often can my students retake their assignments?
A: At the end of each 'Graded' Homework, students have the option to 'Retry' or 'Continue'.

If they click 'Continue', and their score is above 80%, that grade will post to the LMS grade book and will be their final grade for that Homework. If a student takes the Homework again and scores a higher or lower grade, no new grade will transfer into the LMS grade book.

If they click 'Continue' and their score is below 80%, that grade will post to the LMS grade book. However, until a student scores over 80%, their score will not be locked in the LMS gradebook. If they take the Homework again and get a different score, either higher or lower, their score will change.

If they click 'Retry', their grade will continue to change until they score 80% or higher and click 'Continue' from the Your Results page.

NOTE: if you want to allow them to change their grade to a score higher than 80%, they can send you a screenshot of their grade, and you can then manually change it in your gradebook.

Q: How long will my students have access to the Interactive Online Student Materials?
A: Your students will have access for the duration that their course is available to them. If you or your school deletes or archives the course, they will no longer be able to access the materials.
