USACS APP Postgraduate Program

LOCATION:
Saint Vincent Hospital, Erie PA

PROGRAM DESCRIPTION:
The APP postgraduate medical training program will prepare the participating advanced practice provider (APP) for practice in emergency medicine. Clinical and didactic education will focus on teaching the fundamental skills, knowledge, and humanistic qualities that are required for effective emergency medicine practice. The participant will collaborate with the emergency medicine physician residency at the site to build team experience and competency. Upon completion of the 12-month curriculum the APP will be able to practice proficiently and have an established foundation for continued professional growth.

CURRICULUM:
In conjunction with the medical residents program the APP Postgraduates will receive weekly medical lectures and case-based medical discussions as a postgraduate group.

CLINICAL ROTATIONS:  PROGRAM LENGTH:  CLASS START DATES:
Community Medicine, Rural Medicine, Trauma, Observation Medicine  12 months  March 2024
