THE UNIVERSITY OF TEXAS SCHOOL OF MEDICINE

The University of Texas Rio Grande Valley School of Medicine (UTRGV SOM or UT HEALTH RGV) submits the following Legislative Appropriations Request (LAR) for fiscal years 2020 and 2021 to the Governor's Office of Budget, Policy and Planning and to the Legislative Budget Board.

BACKGROUND AND OVERVIEW

The Rio Grande Valley (RGV) is one of the fastest growing areas in the country with a current population of approximately 1.5 million. This four county region is located in deep South Texas and is home to the largest share of residents living in poverty, with 1 of 3 residents living in poverty and lacking medical coverage. The average age is below 30 and Hispanics comprise 85% of the population. The RGV is one of the most medically underserved regions in the United States. While Texas lags behind the national average for physicians, the four counties that make up the RGV have even lower ratios of physicians to population. That is why realizing the 70+ year dream of acquiring a medical school in South Texas that would allow the RGV to grow its own doctors was such a major accomplishment.

UTRGV's SOM was created by the Texas Legislature in 2013. In October 2015 the Liaison Committee on Medical Education (LCME) granted preliminary accreditation to the School of Medicine (SOM), and in July, 2016, the SOM enrolled its inaugural class of 55 medical students (from a pool of 2700 applicants). The following summer, another 50 medical students were admitted (out of 3,950 applicants) and in July, 2018, the third cohort of 54 new students entered the SOM (out of over 5,000 applicants). The current number of medical students stands at 159 and the SOM will reach full enrollment levels in fiscal year 2020. UTRGV's SOM continues to recruit outstanding students and faculty from all over the state and country and is making special efforts to increase the number of medical students from the RGV. At the present time, a little over one-third of the medical students are from the RGV, with a long-term goal being to reach 50% or higher.

UTRGV's SOM is truly a regional medical school, with the first two years of instruction taught in Edinburg and the last two years of clinical instruction being taught in Harlingen at the Clinical Education Building, formerly known as the Regional Academic Health Center (RAHC), which also houses a 15,000 square foot, 20 bed simulation hospital that includes an operating room, an ICU unit and state-of-the-art mannequins that allow medical students and students from other health-related programs to conduct hands-on training and participate in team based, inter-professional care.

When UTRGV was created, the intent was that the RAHC would become an asset of UTRGV and that UTHSCSA "South Texas Track" students would continue serving their 3rd and 4th years in the Valley and would become UTRGV students. However because the accrediting agency, the LCME, dictates that a student must graduate from the school where he/she started, the students had to remain UTHSCSA students. Therefore, tuition and fees paid by the UTHSCSA students as well as Formula Funding appropriated for those students remained with UTHSCSA. UTRGV has continued paying for the education and support services of the students as well as for facilities out of the monies appropriated to UTRGV and which had previously been appropriated to UTHSCSA. UTHSCSA's 3rd and 4th year students completed their education at UTRGV in June, 2018. In July, 2018 46 UTRGV students began their clerkships, 24 at our Clinical Education Building in Harlingen and 22 in Edinburg.

GRADUATE MEDICAL EDUCATION

UTRGV's SOM understands that it is not enough to educate medical students; to truly improve access to care, it is critical to offer robust graduate medical education programs in the RGV and ultimately to keep these physicians practicing in the RGV. UTRGV currently offers 9 residency programs with 166 residents, a number that exceeds the State's 1:1.1 preferred ratio for GME slots to medical students. These residency programs are located at partner hospitals throughout the RGV, with programs existing in McAllen, Edinburg, Harlingen, Weslaco and Brownsville. Efforts by UTRGV and its partners are expected to result in the expansion of residency slots to 220 by 2020.

PRACTICE PLAN

**Administrator's Statement**

10/19/2018 2:30:08PM

86th Regular Session, Agency Submission, Version 1  
Automated Budget and Evaluation System of Texas (ABEST)

---

**748 The University of Texas Rio Grande Valley School of Medicine**

---

Additionally, the SOM recently launched its practice plan under the brand of UT Health RGV. The goal of the practice plan is first and foremost, to improve access to excellent care for RGV residents close to home and secondly, to generate revenues for the SOM. As with the residency programs, the practice plan is spread throughout the RGV. At the present time, care is being provided at clinics in Edinburg, Harlingen, McAllen, Weslaco, Mercedes, Laguna Vista and in La Victoria, a small town in Starr County. Plans are also underway to establish clinics in Pharr and Brownsville. And three Area Health Education Clinics (AHECs) will soon open thanks to a grant from the National Institute of Health (NIH), one in Hidalgo County, one in Cameron County and one in Starr County. Additionally, with the assistance of another grant, UTRGV purchased a mobile van, known as the Unimóvil, that provides care in some of the most underserved communities, the colonias. There are currently 10 mobile medical clinic sites in all four RGV counties and over 4,000 patients have been served by the mobile unit. While the practice plan is growing, the low-wealth payer mix in the RGV makes it difficult to generate significant revenues, and unlike other regions of the state that have a larger insured population, the RGV still lags far behind the state average of insured residents.

**RESEARCH**

One of the goals of the UTRGV SOM is to expand the research enterprise in diseases of importance to the RGV. One of the SOM's first recruits was a team of diabetes researchers, headed by Dr. Sarah Williams-Blangero. Dr. Blangero oversees the Diabetes & Obesity Institute (STDOI) and came to the Valley with a 22-member research team and \$12 million in federal funding. The team has since grown to 52 members and over \$30 million in research funding. The STDOI team is dispersed throughout South Texas, in Brownsville, Harlingen and Edinburg and even a few in San Antonio. Additionally, an 87,000 square foot medical research building will soon open in McAllen that will include 16 full wet labs for basic science research, and plans are also underway to develop an Institute for Neurosciences in Harlingen. And, because cervical cancer and other related cancers affect Hispanic women at a higher rate than other populations, the SOM is seeking support to develop a research program in cancer immunology. Faculty and scientists would coordinate efforts with departments of obstetrics and gynecology, human genetics and microbiology and immunology. UTRGV's SOM is also seeking to operate and provide uncompensated care at the Cervical Dysplasia and Cancer Stop Clinic in McAllen. This clinic is currently operated by The University of Texas Medical Branch at Galveston, and is in agreement to transfer the operation to UTRGV's SOM. Additional funding levels will allow for expanded cervical screening services and unique educational opportunities for our graduate medical students as discussed below.

**ACCREDITATION**

In January, the UTRGV SOM underwent a site visit by the Liaison Committee on Medical Education (LCME). The LCME has indicated that while the institution's medical education program has made significant progress, the school will remain in preliminary accreditation status. The LCME identified areas that will need attention as part of the work toward provisional accreditation. The LCME will also continue to monitor other areas, such as sufficiency of resources, as the school progresses toward full accreditation. Importantly, the LCME emphasized the need "to ensure the school maintains adequate funding to sustain the medical education program and to accomplish other programmatic and institutional goals."

**FUNDING NEEDS**

Even though UTRGV's SOM is making great strides, it is still very much in its start-up phase. In the 84th legislative session, the first session in which UTRGV and its SOM were funded, the total appropriation was \$61.4 million. In the 85th legislative session, the SOM received \$54.2 million in total appropriations, an almost 12% cut, with non-formula support being at \$42 million. It is important to note that even though UTRGV's SOM was treated as an HRI, the reduction it sustained was much higher than the average 2% reduction for other HRIs. Any further reductions could threaten accreditation and require the SOM to close some existing GME programs and cancel new

**Administrator's Statement**

---

**748 The University of Texas Rio Grande Valley School of Medicine**

---

residency programs. Reductions in appropriations will also limit the SOM's ability to hire necessary faculty to train students and residents, conduct research and fully develop the clinical enterprise.

The local community in the Rio Grande Valley has been very supportive of the SOM and of UTRGV in general. The failure of the healthcare district proposition in Hidalgo County occurred for several reasons, but should not be taken as an indication that there is a lack of support for the medical school. In fact, Hidalgo County and the cities of McAllen, Mission, Pharr and Edinburg have, to date, contributed \$13,250,000 as per a Memorandum of Understanding. Further, the University of Texas System agreed to contribute \$10 million a year for 10 years and has paid for five years. The UT System has also contributed Permanent University Funding (PUF) for capital expenditures. There have also been some private gifts, although they are tied to specific projects and cannot be used for operations. One example is a \$15 million gift from the Legacy Foundation in Harlingen to establish the UTRGV Institute for Neurosciences. Additionally, Hidalgo, Cameron and Starr Counties have provided buildings at no cost to UTRGV for use in the delivery of healthcare. One is the John Austin Pena Clinic in Edinburg where high-risk, triply diagnosed adolescents receive medical and behavioral healthcare. Another is a clinic in McAllen for nursing primary care. Cameron and Starr County likewise have donated sites such as the AHEC sites that will open in Brownsville and La Victoria and hospitals throughout the Valley have partnered with UTRGV to establish medical residencies.

Despite this support, UTRGV's SOM remains highly dependent on state support for daily operations because as noted above, it does not have a healthcare district, the practice plan is still in its infancy, there is a low-wealth payer mix, private gifts cannot be used for operations, Permanent University Funds also cannot be used for operations and formula funding is still limited. Therefore, UTRGV's SOM seeks the following funding.

**REQUESTED REDUCTIONS**

As stated elsewhere above, the UTRGV SOM is providing an invaluable service to the RGV region and the state. Therefore, UTRGV requests that current general revenue funding levels not be reduced. The requested 10% reduction of \$4.2 million would place the school's accreditation in jeopardy, stunt the establishment of the school, and negatively impact the educational services it provides. A reduction in funding would be especially detrimental to UTRGV as the institution is a key player in expanding needed educational services to one of the most economically disadvantaged, but fastest growing, regions of the state.

**Non-formula Start-up funding (\$21.0 million annually)**

UTRGV's highest priority is the continuation of the \$42 million previously appropriated in the 85th legislative session as start-up funding. These operating funds will be used to continue funding medical education for the full complement of medical students across all four years of medical education. Faculty salaries and benefits will continue to fund basic science and clinical teaching faculty required for Provisional Accreditation and to meet the curriculum requirements in all 4 years of medical school. Staff salaries and benefits will support the increase in the number of faculty and the demand for increased student support as the medical school reaches full enrollment of 205-220 medical students in 2019.

**Exceptional Item: Additional funding for the School of Medicine (\$5.0 million annually)**

The second highest exceptional Item priority is additional critical funding necessary to achieve full accreditation by the LCME upon the graduation of the inaugural class in 2020. Special Item funding from the 84th Legislature set the stage for success and enabled the attainment of preliminary accreditation, the development of a rigorous medical education curriculum, the establishment of medical student services, and the hiring of faculty and staff; this important work continues. This request will allow the University to partially restore funding lost in the 2018-19 biennium and allow the hiring of clinical educators and faculty researchers, as well as provide staffing and operating resources to sustain the medical education program and accomplish other programmatic and institutional goals leading to the second phase of accreditation. The funding will also support years three and four of the School's medical education, which focuses on clinical experiences and requires funding to support clinical sites,

**Administrator's Statement**

---

partnerships and clinical faculty. Additional staff will support the increase in the number of faculty and demand for increased student services and advising as the medical school reaches full enrollment of 205-220 medical students in fiscal year 2020.

Exceptional Item: Cervical Dysplasia and Cancer Immunology Center (\$2.2 Million annually)

The University of Texas Medical Branch at Galveston has agreed to transfer its Cervical Dysplasia and Cancer Stop Clinic operation in McAllen to UTRGV. The requested funds will allow UTRGV to build on the UTMB work by expanding cervical screening services for women in the Rio Grande Valley that provide unique educational opportunities for UTRGV graduate medical students. The research activities would investigate how cervical and related cancers affect Hispanic women in the Rio Grande Valley, in particular. Faculty and scientists would coordinate their efforts with departments of obstetrics and gynecology, human genetics, and microbiology and immunology.

The requested funding will expand on the work already done by the ObGyn department; establishment of a residency program consisting of four residents; that number will increase to twenty residents over the next four years. The funding will also support recruitment of gynecology oncology faculty, and the establishment of human genetics and microbiology and immunology departments.

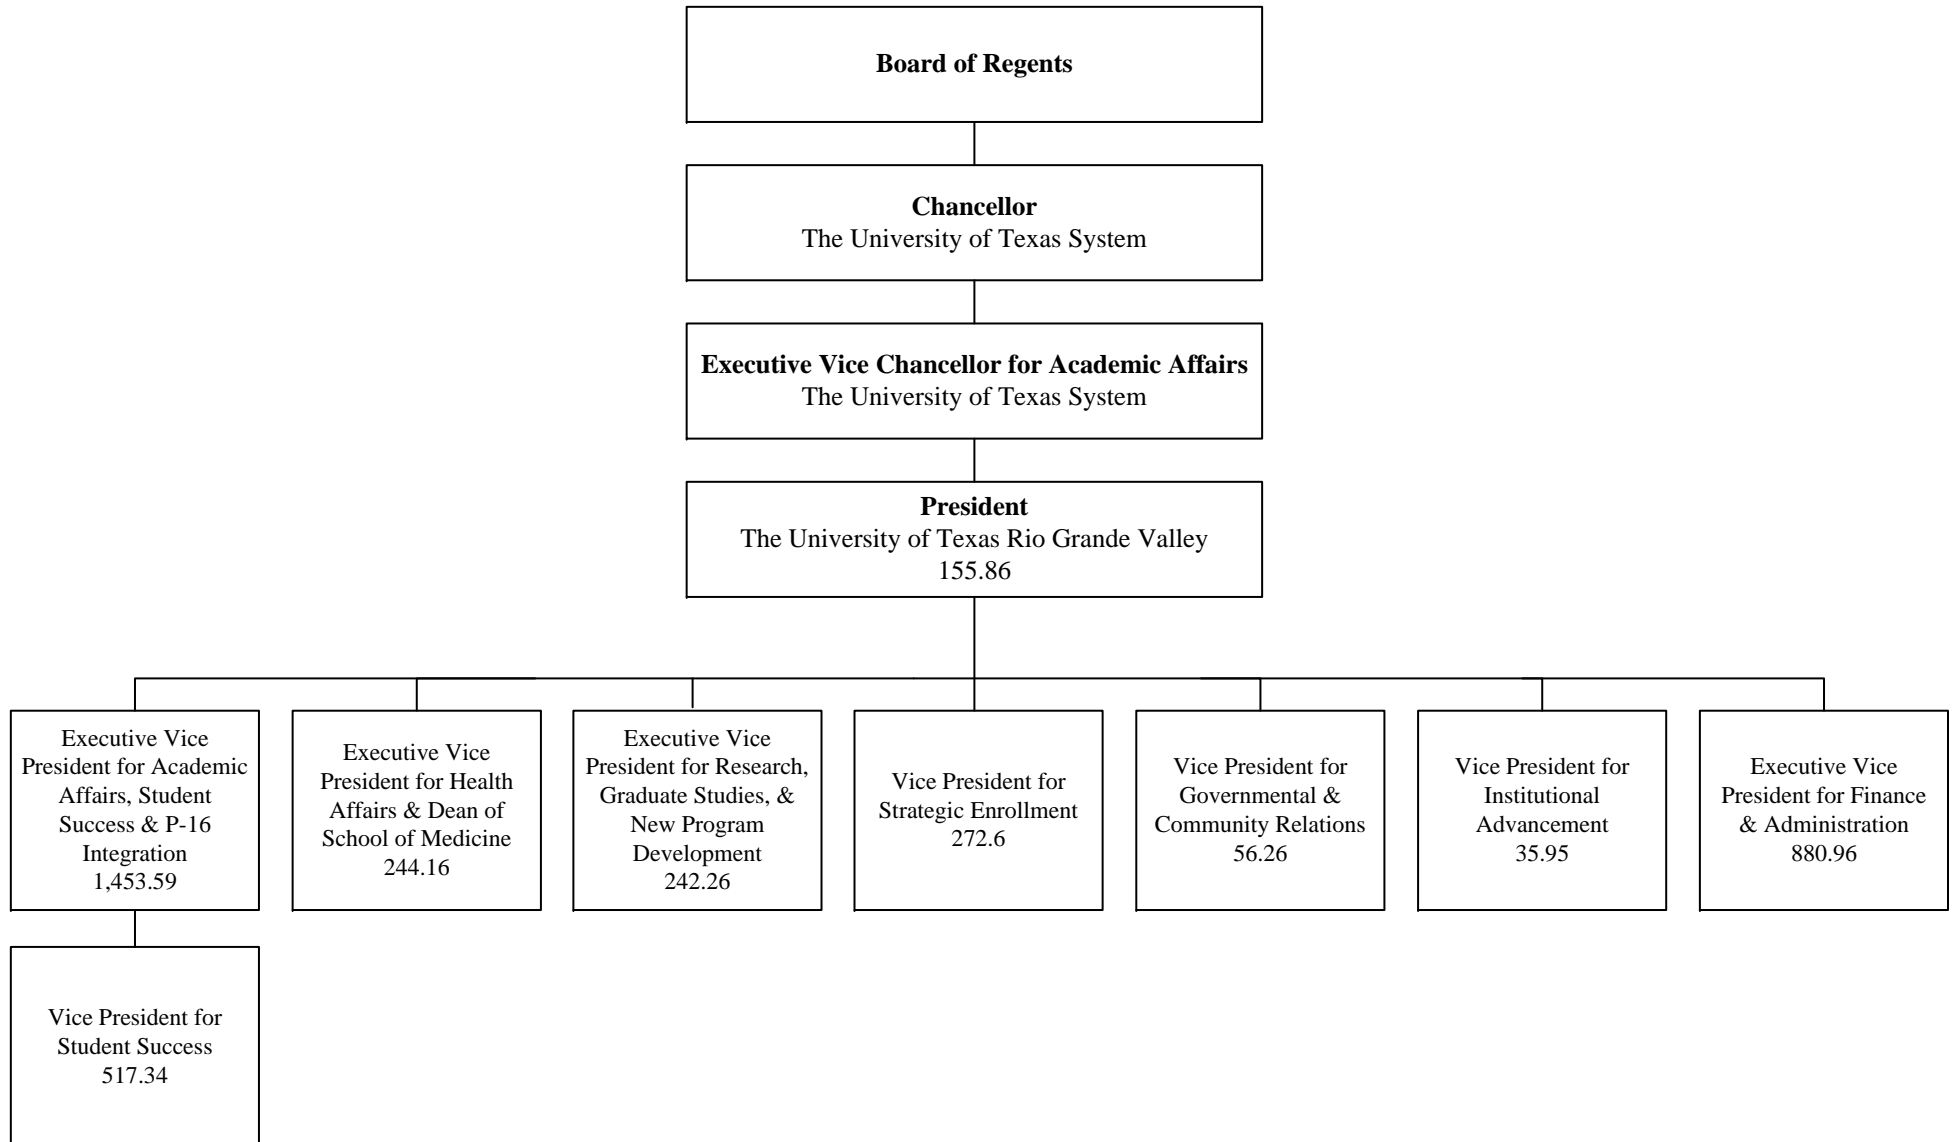

**POLICY ON CRIMINAL HISTORY RECORDS**

UTRGV conducts employment criminal background checks as required by Government Code Section 411.094 and Education Code Section 51.215. UTRGV's policy is to obtain criminal history information on finalists considered for employment in security sensitive positions.

**CONCLUSION**

The positive effects of the UTRGV SOM are just starting to be felt and the vision of a stronger, healthier, more economically vibrant RGV is now within reach. The 70+ year dream of having a medical school focused on the needs of the RGV is becoming a reality, but for it to be truly realized, it will require significant investment and collaboration with many partners, including its creator, the Texas legislature.

# THE UNIVERSITY OF TEXAS RIO GRANDE VALLEY

ORGANIZATIONAL CHART (continued)  
The University of Texas Rio Grande Valley

The **President** has overall authority and responsibility for the university

The **Executive Vice President for Academic Affairs, Student Success & P-16 Integration** is responsible for the administration of academic affairs, including the approval of, monitoring, and coordinating the education curricula

The **Executive Vice President for Health Affairs and Dean of School of Medicine** is responsible for overall management of the Health Affairs division, including the School of Medicine, the School of Nursing, and the College of Health Affairs

The **Executive Vice President for Research, Graduate Studies, & New Program Development** is responsible for research efforts as well as economic development activities

The **Vice President for Strategic Enrollment** oversees recruitment, financial aid, undergraduate admissions, and registrar operations

The **Vice President for Governmental & Community Relations** is responsible for community outreach programs and serves as the liaison for communications with governmental and agency officials at all levels

The **Vice President for Institutional Advancement** serves as the university's chief development officer, managing the university's fundraising efforts

The **Executive Vice President for Finance & Administration** is the chief fiscal officer and provides for the management of the institution's fiscal affairs

The **Vice President for Student Success** oversees student educational outreach, student life, counseling, advising, career and writing centers, and the university college

**STRATEGY DESCRIPTION AND JUSTIFICATION:**

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, student services and institutional support. The formula for this strategy is based on weighted medical student headcounts. The rate per weighted student headcount or full time equivalent is established by the Legislature each biennium.

As the UTRGV School of Medicine continues to add a class of 50-55 medical students per year, reaching a total of 205-220 medical students by the end of the 2018-2019 biennia, the demands for faculty time and efforts and student support across all departments continues to increase.

Legislative funding at an appropriate level is essential in obtaining full accreditation by the Liaison Committee of Medical Education (LCME).

The University of Texas Rio Grande Valley School of Medicine offers an exceptionally innovative learning experience designed to instill students with scientific, clinical and research expertise of the highest professional standards.

Our goal is to attract the best talent from the Valley, the state, the country and beyond for faculty and staff positions. We are fortunate to have laid some of this groundwork over the past 15 years through the Regional Academic Health Centers in Harlingen and Edinburg. The UTRGV School of Medicine opened in the summer of 2016 and welcomed 55 students into its charter class. Since such time, another two classes have enrolled for a total of 159 students.

Our mission is to:

- Educate the next generation of compassionate physicians and biomedical scientist who are dedicated to serving diverse populations.
- Advance research in diseases that will lead to innovative treatments that will benefit patients.
- Expand health care services with primary and specialty care clinics throughout the Rio Grande

**DESCRIPTION / JUSTIFICATION:**

The University of Texas Medical Branch at Galveston currently operates and provides uncompensated care at the Cervical Dysplasia and Cancer Stop Clinic in McAllen; UTMB has agreed to the transfer of the operation to UTRGV. The funding requested will allow for expanded cervical screening services and provide unique educational opportunities for our graduate medical students. In addition, the research activities would investigate how cervical and related cancers affect Hispanic women in the Rio Grande Valley, in particular. Faculty and scientists would coordinate their efforts with departments of obstetrics and gynecology, human genetics, and microbiology and immunology.

**EXTERNAL/INTERNAL FACTORS:**

Additional information for this strategy is available in Schedule 9, Special Item Information.

**748 The University of Texas Rio Grande Valley School of Medicine**

---

**Cervical Dysplasia and Cancer Immunology Center - Exceptional Item**

**(1) Year Non-Formula Support Item First Funded:** 2020  
Year Non-Formula Support Item Established: 2020  
Original Appropriation: \$2,200,000

**(2) Mission:**

The University of Texas Medical Branch at Galveston currently operates and provides uncompensated care at the Cervical Dysplasia and Cancer Stop Clinic in McAllen; UTMB has agreed to the transfer of the operation to UTRGV. The funding requested will allow for expanded cervical screening services and provide unique educational opportunities for our graduate medical students. In addition, the research activities would investigate how cervical and related cancers affect Hispanic women in the Rio Grande Valley, in particular. Faculty and scientists would coordinate their efforts with departments of obstetrics and gynecology, human genetics, and microbiology and immunology.

**(3) (a) Major Accomplishments to Date:**

- Establishment of ObGyn residency program at DHR with 4 residents beginning in July of 2015 and increasing to 20 residents over the 4-year program period in July 2018
- Recruitment of Gynecology Oncology faculty member
- Approval and establishment of Human Genetics and Microbiology and Immunology departments

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

- 1) Expansion of clinical practice across the Rio Grande Valley to provide specialty care to the RGV community
- 2) Recruitment of additional Gynecology Oncology faculty
- 3) Recruitment of Chair for Microbiology and Immunology department
- 4) Transfer of the Cervical Dysplasia and Cancer Stop Clinic operation in McAllen from UTMB

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

None

**(6) Category:**

Healthcare Support

**(7) Transitional Funding:**

N

---

**748 The University of Texas Rio Grande Valley School of Medicine**

---

**(8) Non-General Revenue Sources of Funding:**

The City of McAllen is allowing a portion of the \$2 million that it contributed over the last two years to be used for recruitment of faculty and researchers associated with this clinic.

**(9) Impact of Not Funding:**

Inability of local faculty to provide care to patients and to offer adequate educational and training opportunities to UTRGV medical students and residents. Also, inability to conduct research in area of cancer immunology, specifically in the area of cervical cancer. This is a disease that disproportionately impacts women in the Rio Grande Valley, where they are twice more likely to die for cervical cancer compared to the rest of the country.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuu**

Yes – the cancer clinic will continue to be dependent on state funding to continue operations. The cancer immunology program that will complement the clinic will utilize state funds to fund faculty and research investigations focused on how cervical and related cancers affect Hispanic women in the Rio Grande Valley, in particular. Faculty and scientists would coordinate their efforts with departments of obstetrics and gynecology, human genetics, and microbiology and immunology.

**(11) Non-Formula Support Associated with Time Frame:**

N/A

**(12) Benchmarks:**

N/A

**(13) Performance Reviews:**

Metrics below would be measured on a quarterly basis:

Number of outpatient visits

Total Uncompensated Care Provided by Faculty in the Cervical Cancer and Dysplasia Clinic

Total External and Sponsored Research Funds for Cancer Immunology Program

---

---

**748 The University of Texas Rio Grande Valley School of Medicine**

---

**School of Medicine**

<b>(1) Year Non-Formula Support Item First Funded:</b>	2015
Year Non-Formula Support Item Established:	2015
Original Appropriation:	\$30,698,950

**(2) Mission:**

As the UTRGV School of Medicine continues to add a class of 50-55 medical students per year, reaching a total of 205-220 medical students by the end of the 2018-2019 biennia, the demands for faculty time and efforts and student support across all departments continues to increase. Legislative funding at an appropriate level is essential in obtaining full accreditation by the Liaison Committee of Medical Education (LCME).

The University of Texas Rio Grande Valley School of Medicine offers an exceptionally innovative learning experience designed to instill students with scientific, clinical and research expertise of the highest professional standards.

Our goal is to attract the best talent from the Valley, the state, the country and beyond for faculty and staff positions. We are fortunate to have laid some of this groundwork over the past 15 years through the Regional Academic Health Centers in Harlingen and Edinburg. The UTRGV School of Medicine opened in the summer of 2016 and welcomed 55 students into its charter class. Since such time, another two classes have enrolled for a total of 159 students.

Our mission is to:

- Educate the next generation of compassionate physicians and biomedical scientist who are dedicated to serving diverse populations.
- Advance research in diseases that will lead to innovative treatments that will benefit patients.
- Expand health care services with primary and specialty care clinics throughout the Rio Grande

**(3) (a) Major Accomplishments to Date:**

- 1) Received Preliminary Accreditation October 2015
- 2) Enrolled inaugural class of 55 in July 2016, a second class of 50 in July, 201 and a third class of 54 in July, 2018.
- 3) Infrastructure established for Years 1 through 3 of Medical Education: Faculty, Staff, Student Services, Academic Resources, Facilities, Technology
- 4) 168 Residency slots across the Rio Grande Valley with hospital partners at DHR, VBMC, MMC and Knapp.
- 5) Development of the South Texas Institute for Diabetes and Obesity and continued development of clinical research allowing students the opportunity to engage in research activities
- 6) Development of the Neurosciences Institute
- 7) Establishment of Faculty practice plan, UT Health RGV

**(3) (b) Major Accomplishments Expected During the Next 2 Years:**

- 1) Attain Provisional Accreditation in FY19
- 2) Admission of up to 220 medical students by FY19
- 3) Additional Infrastructure for Years 3 and 4: Faculty, Staff, Student Services, Academic Resources, Clinical Sites and Partnerships, Technology
- 4) Expand graduate medical education providing up to 196 residency positions by 2020 across the Rio Grande Valley with hospital partners at DHR, VBMC, MMC and Knapp Medical.

---

**748 The University of Texas Rio Grande Valley School of Medicine**

---

**(4) Funding Source Prior to Receiving Non-Formula Support Funding:**

None

**(5) Formula Funding:**

AY18-19 medical students will generate an estimated \$4,258,482 per year in incremental formula in the 20-21 biennium.

**(6) Category:**

Start-Up

**(7) Transitional Funding:**

Y

**(8) Non-General Revenue Sources of Funding:**

- Funding from UT System - \$10 million a year for 10 years; UT System has paid 5 years.
- Funds received from Hidalgo County and cities of Edinburg, Pharr, Mission and McAllen as per a Memorandum of Understanding; total paid from 2015 to date is \$13,250.00 million. Payments received per year are up to \$4.5 million. McAllen's obligation is up to \$2 million per year and Mission opted out of the MOU, so payments vary yearly.
- Grants and private gifts

**(9) Impact of Not Funding:**

Provisional Accreditation at Risk. The LCME requires that the UTRGV SOM have sufficient resources and faculty to sustain the medical educational program and to accomplish programmatic and institutional goals.

Inability to hire necessary faculty in order to teach students and build practice plan.

Lack of funding may require closing current residency programs and cancelling or delaying the start of new residency programs.

SOM's ability to recruit researchers will be limited.

SOM's ability to recruit researchers will be limited.

**(10) Non-Formula Support Needed on Permanent Basis/Discontinuation:**

---

**748 The University of Texas Rio Grande Valley School of Medicine**

---

The same level of funding is not needed on a permanent basis, however, adequate support is needed throughout the start-up horizon of the UTRGV SOM.

These operating funds will be used to continue funding the medical education program for the full complement of medical students across all four years of medical education. Faculty salaries and benefits will continue to fund basic science and clinical teaching faculty required for Provisional Accreditation in FY 19 and while the school progresses to full accreditation in order to meet the curriculum requirements in all 4 years of medical school. Staff salaries and benefits will support the increase in the number of faculty and demand for increased student support as the medical school reaches full enrollment of 205-220 medical students in 2019.

**(11) Non-Formula Support Associated with Time Frame:**

The same level of funding is not needed on a permanent basis, however, adequate support is needed to cover start-up costs for UTRGV SOM. Start-up funds are estimated to be needed through 2025. The school needs sufficient time and resources to reach its full capacity with 220 students in 2019, increase enrollment to 110 students per year starting in 2021, and build a robust practice plan that can generate sufficient revenue to help offset costs associate with the medical education program and research goals.

**(12) Benchmarks:**

The primary benchmark associated with this item is LCME Provisional Accreditation.

**(13) Performance Reviews:**

Metrics will be as follows:

- Number of medical school students enrolled
- Percentage of enrolled students who are from the Rio Grande Valley
- Number of medical degrees awarded (FY 2020-21)
- Dollar amount of external or sponsored research funds
- Number of full-time basic science and clinical faculty
- Percent of medical school students passing Part 1 and Part 2 of the US Medical Education Licensing Exam on the first attempt
- Total number of outpatient visits
- Total number of inpatient days

All metrics will be reviewed at least quarterly, and monitored on an on-going basis.

---
