746 The University of Texas Rio Grande Valley

Administrator's Statement

For Fiscal Years 2016 and 2017

THE UNIVERSITY OF TEXAS RIO GRANDE VALLEY ADMINISTRATOR'S STATEMENT

The University of Texas Rio Grande Valley (UTRGV) submits the following Legislative Appropriations Request (LAR) for fiscal years 2016 and 2017 to the Governor's Office of Budget, Policy and Planning and the Legislative Budget Board.

UNIVERSITY BACKGROUND

On June 14, 2013, the Governor signed Senate Bill 24 creating a new university in South Texas within The University of Texas System. The new university, which is eligible for funding from the Permanent University Fund, will also be home to a school of medicine. On December 12, 2013, the UT System Board of Regents named the new university in South Texas, The University of Texas Rio Grande Valley.

The new university spans the four county area known as The Rio Grande Valley, with operations in each of the major metropolitan areas of Brownsville, Edinburg, Harlingen, and Rio Grande City. The new university tapped the talents, assets and resources of the soon to be dissolved UT-Brownsville, UT-Pan American and the Regional Academic Health Center (RAHC), to create a new model of university excellence that will become a global leader in innovation, education, research and health care.

UTRGV will commence operations on September 1, 2015 (fiscal year 2016) and enroll its inaugural class in the fall of 2015. Students admitted to or currently enrolled at U.T. Brownsville and U.T. Pan American will be automatically admitted to the new university. The UTRGV School of Medicine will begin operations on September 1, 2016 (fiscal year 2017).

The funding sought in this legislative appropriation request is guided by the following goals and guiding principles of The University of Texas Rio Grande Valley:

- Fully integrate next generation technology and customized learning to increase affordability and maximize student success
- Promote access to postsecondary education to a diverse student body to become one of the largest and most successful Hispanic-serving institutions in the U.S.A.
- Employ the highest quality faculty members and staff who pursue global excellence in teaching, research, healthcare and service
- Streamline academic and administrative programs and re-design processes to increase productivity and promote a student- and service-centered mode of operation
- Promote arts and humanities programs to produce state, national and world leaders who are bi-cultural, bi-lingual, and bi-literate
- Develop programmatic strength in the areas of science, technology, engineering, mathematics, and health
- Develop a Medical School of the first class, with outstanding undergraduate and graduate medical education, public health, health professional degrees and clinical research, to improve the health of the community
- Become a global leader in higher education, health education, bio-medical research, emerging technology and preparing students to be lifelong learners
- Pursue applied and translational research to address critical local, state, national, and global needs
- Build on the excellent economic activity and strength of the State of Texas and benefit from the State's leadership in the world
- Provide a leadership role in fostering economic and community partnerships to help solve local, state, national, and global problems
- Promote innovation and knowledge discovery with business and industry that will lead to job growth and improvements in the quality of the region's workforce

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

- Build a hub for inventions and intellectual property that will lead to economic and community prosperity and an improved quality of life for the region, the State, the nation and our world
- Serve as a "Gateway to the Americas" by cultivating partnerships with global leaders in education, health, research and other strategic, high-growth industries
- Leverage the size, strength, and excellence of the University of Texas System and its outstanding institutions to shorten the time it takes to achieve these goals.

SCHOOL OF MEDICINE

Creation of a medical school in the Lower Rio Grande Valley (LRGV) has been a dream for many for decades. For more than a decade the legislature has supported a Regional Academic Health Center (RAHC) operated by The University of Texas Health Science Center at San Antonio (UTHSCSA) to offer health professional training and lay the groundwork for a medical school. Legislative action in 2009 and again in 2013, with the creation of the now named The University of Texas Rio Grande Valley (UTRGV), make the dream of a medical school that much closer to reality.

In addition to legislative investments in the RAHC, U.T. System investments include:

- The \$10 million Smart Hospital located in Harlingen equipped with medical simulation technology provides hands-on training to current and future health care professionals and builds upon legislatively approved tuition revenue bonds for the Academic and Clinical Research Building (ACR) in Harlingen's Medical Education Division of the RAHC. The ARC also houses the newly established Federal Veterans Administration Health Care Center, the subspecialty referral site for Valley Veterans:
- \$54 million PUF funded South Texas Medical Academic Building in Edinburg, adjacent to the medical research facility as part of the UT System funded Medical Research Divisions (E-RAHC) (A director and research team are being recruited for the new South Texas Diabetes & Obesity Institute to study the effects of these comorbidities on Valley residents); and
- \$100 million in PUF support over 10 years for medical education in South Texas.

UTHSCSA continues to educate third and fourth year medical students in the Rio Grande Valley. (Over 1,100 medical students have completed a portion of their clinical education at the RAHC since 2002.) The new UTRGV Medical School is expected to independently enroll its first class in Fall 2016. UTRGV officials, including the founding dean, Francisco Fernandez, continue to work within the local community to expand residency opportunities to make sure graduates of the new medical school will have an opportunity to complete graduate medical education training in the region. Efforts by university and hospital leaders are expected to expand the total number of residency positions from 33 to 167 by 2020.

The current (FY2014) \$36 million budget for the RAHC, supported by \$16 million in state appropriations, will steadily rise driven by costs related to the increase in medical residents, and the establishment of medical school infrastructure with the hiring of faculty (and necessary staff) to conduct research, develop curricula and pursue accreditation for the medical school.

By FY2016 the budget is projected to be \$66 million and \$73 million the following year—these increases driven by faculty and staff salary costs. While increases in non-state revenue are expected, in addition to revenue provided by the UT System, local hospital and clinical support, an additional \$20 million in State General Revenue is being requested per year.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

CONTEXT FOR APPROPRIATION REQUEST

Most UTRGV undergraduates are expected to be minority first-generation students from low-income families, a majority receiving some sort of financial aid and most working while attending school.

In addition to its core mission of instruction, UTRGV engages in public service through its centers that focus on economic development, manufacturing assistance, nonprofit and municipal government assistance, data analysis, continuing education, and health care education outreach.

Projections by the Texas State Data Center indicate that population growth for the LRGV, comprised of Cameron, Hidalgo, Starr and Willacy counties, will continue to outpace that of the state. Texas is projected to grow by 11% between 2010 and 2020, to 28 million, while the LRGV is projected to grow by 24% during the same period. By 2020, the four county RGV area is expected to have a population of 1.6 million people.

The Legislative Budget Board in consultation with the Governor's office has requested that UT System submit one comprehensive Legislative Appropriations Requests (LAR) on behalf of three institutions, U.T. Rio Grande Valley, U.T. Brownsville and U.T. Pan American.

While this Legislative Appropriations Request is being submitted as requested, it is important to note that the three institutions are separate distinct institutions, although governed by the same Board of Regents. The creation of UTRGV is not a merger of existing institutions, but the creation of a new institution. The historical spending and performance measures for UTB and UTPA have no direct relationship to UTRGV. In addition, some performance measures may not be applicable to UTRGV for 2016-2017 due to the initial start up as a new university.

With the passage of SB98, the 81st Legislature authorized the creation of a new medical school in South Texas. Amendments made in HB100/SB24 from the 83rd Legislature established this new medical school under the newly created UTRGV. SB 24 mandates the transition of the RAHC to UTRGV. UTHSCSA currently has management oversight, funding and facilities at both the Harlingen and Edinburg campuses for the RAHC. Leadership at UT System and both campuses are in full agreement for the funding transition and respectfully request that \$31,397,900 of existing direct base line Special Item general revenue (GR) appropriations for UTHSCSA (E.1.1-RAHC \$30,592,522 and E.2.1-Family Practice Residency Training Program \$805,378) be moved from the UTHSCSA bill pattern and added to UTRGV to more appropriately align funding streams with operations beginning with the 2016-2017 biennium. In addition, The UT System will redirect the portion of the RAHC tobacco endowment currently allocated to UTHSCSA from UTHSCSA to UTRGV (biennial total of approximately \$1.2 million). This reallocation of tobacco proceeds does not require a change in the respective institutions' bill patterns as the tobacco endowment appropriation should remain at UT System. Following these changes, GR and tobacco endowment appropriations of approximately \$32.6 will be made available to UTRGV during the 2016-2017 biennium to support the transition of existing operations to the new medical school. Enhanced GR appropriations to the UTRGV for 2016-17 for the RAHC operations will be necessary as it develops into a School of Medicine and to ensure the UTRGV School of Medicine is properly accredited pursuant to Liaison Committee on Medical Education (LCME) policies, procedures, and deadlines. This enhanced GR funding is the top priority exceptional item request for UTRGV.

In accordance with the instructions, UTRGV has identified the impact of a reduction of \$2.8 million to its baseline funding of 10 percent. Two revenue neutral items, the Center for Manufacturing and the Center for Border Economic Development, were exempted from the reduction. UTRGV will focus on efficiencies and cost containment strategies to be able to provide an affordable quality education to our students. State appropriations are investments in the future of Texas by allowing institutions to fulfill their mission and provide services to our students and patients, including instruction, health care, infrastructure and research. Reductions to baseline funding will negatively impact our ability to fulfill these missions.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

UTRGV PRIORITIES

Exceptional items requested support the transition to creating a totally new university that prepares students to become lifelong learners, develops programmatic strength in the areas of science, technology, engineering, mathematics, and health, that fully embraces the goal of becoming a global leader in higher education, health education, bio-medical research, and emerging technology. These exceptional items are essential to the success and future growth of UTRGV and support the uniquely different academic and medical environments that simultaneously comprise the new university.

Exceptional Item: Provide funding necessary to establish a new School of Medicine at UTRGV

Total Request: \$40.0 Million / 230 FTE

UTRGVs highest Exceptional Item priority is funding needed to establish a successful school of medicine, leveraging the efforts previously made in The Valley by UT

Health Science Center-San Antonio. This request seeks to sustain and increase funding previously appropriated to that institution to address faculty/operating needs.

Existing facilities in place or being constructed (i.e. School of Medicine at the Edinburg campus) will meet initial non-operating resource demand. The medical education component in Harlingen, under the auspices of UTHSCSA, has had 9 classes of medical students, and the number of San Antonio-based 3rd and 4th year RAHC rotational students continues to increase. Over 1,100 medical students have completed a portion of their clinical education at the RAHC since 2002. Starting with the entering class of 2014, 15 UTHSCSA students will be admitted for positions at the South Texas Clinical Education Campus (CEC), committing to complete their 3rd and 4th clinical years at the RAHC. The Internal Medicine post-graduate (residency) program has graduated 10 classes; over 80% of the physicians have remained in Texas to practice, with over 45% of those practicing in South Texas. Five new residency programs (Family Medicine, Internal Medicine, General Surgery,

Obstetrics/Gynecology, and Psychiatry) are being developed in the region. Over 200 community-based practitioners in the Valley are UTHSCSA faculty who participate in the RAHC medical education programs. Faculty development activities targeting new/existing RAHC clinical faculty are ongoing, and will continue as new community-based providers from across the 4-county region request faculty appointments. Already, a twenty two member research team has been recruited for the new South Texas Diabetes & Obesity Institute that will study the effects of these coexistent diseases on Valley residents.

Exceptional Item: Coastal Studies Research Center Total Request: \$6.3 Million / 10 FTE

The requested funding will enable UTRGV to pursue coastal and marine biology research that are important elements for the development of the fast-growing population and economy in South Texas, as management of natural resources is critical to support the growth of the Texas/Mexico border in a sustainable manner. Scientific research will focus on sustainability of the shoreline; management of food sources related to marine biology; environmental and ecological health of the Gulf of Mexico; management of water resources, including wetlands; and regional vulnerability to disasters, such as hurricanes. The Coastal Studies Research Center (CSRC) will serve as an academic research hub, which will allow us to educate and prepare the next generations of marine scientists, social scientists, and engineers in the Rio Grande Valley and beyond.

Exceptional Item: Biomedical Sciences Research Total Request: \$8.6 Million / 7 FTE

The requested funding will strengthen the Biomedical Sciences research capability, complement the efforts at the new Medical School, and assist Medical School students meet their research requirements. This research focus will also address health issues in South Texas and serve to attract federal funding. Twelve UTB and UTPA faculty members are currently conducting research in the biomedical sciences, focusing on infectious diseases, diabetes, cancer, neuroscience, and tissue engineering, and form a critical mass of a research core competency. Supporting these research efforts are research facilities with capabilities in cell culture, imaging, and molecular biology. However, there is a lack of strength in critical areas which are necessary to complete the core competency base: pharmacology, biochemistry, toxicology, bioinformatics, and bioengineering. Critical instrumentation is also lacking.

Exceptional Item: Texas Academy of Mathematics and Science Total Request: \$3.44 Million / 40 FTE

The requested funding will support the academy in its goal to increase higher-education opportunities in STEM fields to eligible students and expand the Academy's

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

enrollment from its current, limited commuter model program of 90 students into a residential program that will enroll up to 300 students. The proposed program will also provide additional enrollment opportunities to high achieving students from outside the South Texas region.

Exceptional Item: South Texas Water Research Focus

Total Request: \$8.5 Million / 9 FTE

Rapid population growth and commercial activity in South Texas is expected to place a substantial strain on the availability of water resources necessary to support its growth. Therefore, it is critical that a systematic effort be devoted to assessing the water needs and the availability of this resource within the region. We propose to extend research efforts at the Coastal Studies Research Center (CSRC) to focus on projecting water demand over the next decade and beyond and to develop and implement plans to address the needs.

Exceptional Item: Energy Research Focus Total Request: \$7.5 Million / 6 FTE

Rapid population growth and commercial activity in South Texas is expected to place a substantial strain on the availability of energy resources necessary to support its growth. Therefore, it is critical that a systematic effort be devoted to assessing the energy needs and the availability of energy resources. These efforts will complement the research activities at the Coastal Studies Research Center. The proximity to the Gulf of Mexico and windy conditions in South Texas create a unique research opportunity for UTRGV, as the harnessing of wind and ocean currents is relatively new and thus areas of research with great prospects. Existing wind farms and this industry, in general, will require technological support that can be provided by engaging existing faculty in mechanical and electrical engineering and by recruiting materials and atmospheric scientists, as well as energy forecasters and economists. In summary, interdisciplinary teams will address the needs of the wind energy industry as it relates to wind speed, direction and mapping, wind power forecasting, turbine and electrical grid performance, wind turbine design and integrity, and harnessing the energy from the ocean waves. Such an academic and research effort will also contribute to training and educating the next generation of skilled workforce for these industries in South Texas and the nation.

Exceptional Item: Center for Bilingual Studies Translation and Interpretation Initiative

Total Request: \$1 Million / 4 FTE

The Center for Bilingual Studies engages the campus community and the region's PK-12 in a mission to nurture the unique regional asset that is bilingualism and biculturalism. The requested funding will build translation and interpretation capacities within the existing Center for Bilingual Studies. Services provided will include translation, editing and writing in the area of bilingualism. The center will also establish university-wide terminology and language standards. The current Center for Bilingual Studies has led several significant initiatives, such as building the Dual Language instructional capacities of numerous elementary schools in the Rio Grande Valley. The Center has brought faculty from the Edinburg and Brownsville campuses together to build the translation and interpretation services that have been developed during the past decade.

FACILITIES FUNDING REQUESTS

The University of Texas Rio Grande Valley, in addition to the Exceptional Item funding requests outlined above, seeks funding for a series of strategic construction projects necessary to pursue the vision for a new university as outlined in S.B. 24. The facilities are an important cornerstone to building a 21st Century Academic and Medical institution in South Texas that spans the entire Rio Grande Valley.

UTRGV has facilities totaling 3.4 million gross square feet: 2.4 million at the Edinburg campus (64 facilities), 856,596 at the Brownsville campus (8 owned and 16 leased facilities), 175,343 in Harlingen (3 facilities), 17,882 in Rio Grande City (one facility), and 10,952 in McAllen (2 facilities, a teaching site and a college transfer building). Projects to be completed at the Edinburg campus in 2014 include the Student Academic Center and the Performing Arts Complex Auditorium. Major renovations include conversion of facilities to house social work, occupational therapy, and expansion of Health Sciences and Human Services faculty. Anticipated construction in 2015 includes an addition to the science building complex as well as the new medical school. The Brownsville campus has a 4,000 sq. ft. facility under

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

design with plans for completion by February 2015. The facility will house Campus Police. The Brownsville campus is reaching a critical point in facilities as it leases about 40% of its E&G space from Texas Southmost College with leases expiring in 2015.

Negotiations between U.T. Brownsville and Texas Southmost College resulted in the acquisition of three buildings and much-needed land for the UTRGV Brownsville campus. However, even with the acquisition of new buildings, U.T. Brownsville was forced to lease additional space from Texas Southmost College to accommodate its fall 2013 enrollment. The current lease agreements with TSC have a lifespan of between two and six years; therefore, there is an urgent need to begin immediately to construct new classroom, lab, and student support space to meet enrollment needs. Current leased space, from TSC and private owners, totals 294,955 GSF. Enrollment growth at the Brownsville campus is expected to increase space needs by 382,806 GSF. This number is calculated based on a 3.5% enrollment growth per year at a modest 98 GSF per student, By 2019, it is estimated that the Brownsville campus will require a total of 677,761 GSF.

Facility: Multipurpose Academic Center (Brownsville Campus)

Total Request \$50.6 Million

The University of Texas Rio Grande Valley seeks to construct a Multipurpose Academic Center with a total of 177,527 GSF. The academic center will be designed to accommodate 132,527 GSF of much needed classrooms for science, biology, chemistry, environmental sciences, and physics and 45,000 GSF of general purpose classroom space. The facility will increase student access and success, accommodate enrollment growth, and expand course and classroom availability.

Facility: Coastal Studies Research Center (CSRC)

Total Request \$45 Million

The requested 53,000 GSF CSRC facility will leverage UTRGV's proximity to the Gulf of Mexico and will dramatically enhance coastal studies and marine research as well as provide field-based education for aspiring scientists in the region and beyond. Scientific research will focus on sustainability of the shoreline; management of marine-based food sources; environmental and ecological health of the ocean; management of water resources, including wetlands; and regional vulnerability to disasters, such as hurricanes. The facility will include boat ramps for shallow and deep water vessels, seawater indoor/outdoor research space, labs, classrooms, offices, a conference room, and housing (typical for these types of research facilities) for visiting scientists and students.

Facility: Interdisciplinary Engineering & Academic Studies Building (Edinburg Campus)

Total Request \$42.5 Million

If approved, the Interdisciplinary Engineering & Academic Studies Building will create 124,304 GSF. The spaces will include a large lecture auditorium with a 250-seat capacity, several 150-seat lecture halls, 60-seat classrooms, and faculty offices. Although particular emphasis will be placed on preparation of engineering students, this flexible facility will also address space requirements for other disciplines, as needed. The project will also include an outdoor pavilion to be used as a gathering area and study space to relieve pressure on more expensive indoor space and also to support academic events. This facility will provide interdisciplinary space necessary to support enrollment growth and will enhance interdisciplinary research collaborations among faculty, leading to increased opportunities for external funding, and most importantly, will help provide a solid educational foundation for students pursuing engineering and other disciplines. The facility will increase student access and success, shorten time-to-degree, accommodate enrollment growth, attract additional research funding, and expand course and classroom availability.

Facility: Fine Arts and Classrooms Building (Brownsville Campus)

Total Request \$50.4 Million

The Fine Arts and Classroom Building will provide music education teaching space and general purpose classrooms. A total of 155,174 GSF is needed to replace space that is currently leased and to accommodate enrollment. The facility will include 30,000 of flexible learning spaces to serve not only music education but other disciplines as well. The facility will increase student access and success, accommodate enrollment growth, and expand course and classroom availability.

Facility: Student Success and Administrative Building (Brownsville Campus)

Total Request \$54.7 Million

The envisioned facility will total 181,715 GSF. Of the total, 154,282 GSF is needed to replace space that is currently being leased and to accommodate student enrollment in the areas of student support and services. 27,433 GSF is will be devoted to learning enrichment spaces that would include collaborative spaces equipped

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

with technology to interact with students located in the various locations of UTRGV. The facility will increase student access and success, accommodate enrollment growth, and expand course and classroom availability.

OTHER SIGNIFICANT PRIORITIES

Funding for the increasing cost of the Hazlewood tuition benefit: The growing cost of this benefit, provided to deserving Texas veterans and their families, is placing a tremendous financial burden on the institutions. The UT System estimates an annual increase of 16% through 2019.

Funding for Research: Research investments are an important component of operations, especially to an institution such as UTRGV with its School of Medicine.

Formula and Related Funding: Formula funding is a critical foundation for the institution's operations. UTRGV supports the Texas Higher Education Coordinating Board's advisory committee's recommendation that formula rates be restored to previous, higher levels.

Strategic Financial Aid for Student Success: TEXAS Grants, B-on-time loans and work-study programs have been tremendous cornerstones of student success. UTRGV therefore supports the requests for funding by the Texas Higher Education Coordinating Board.

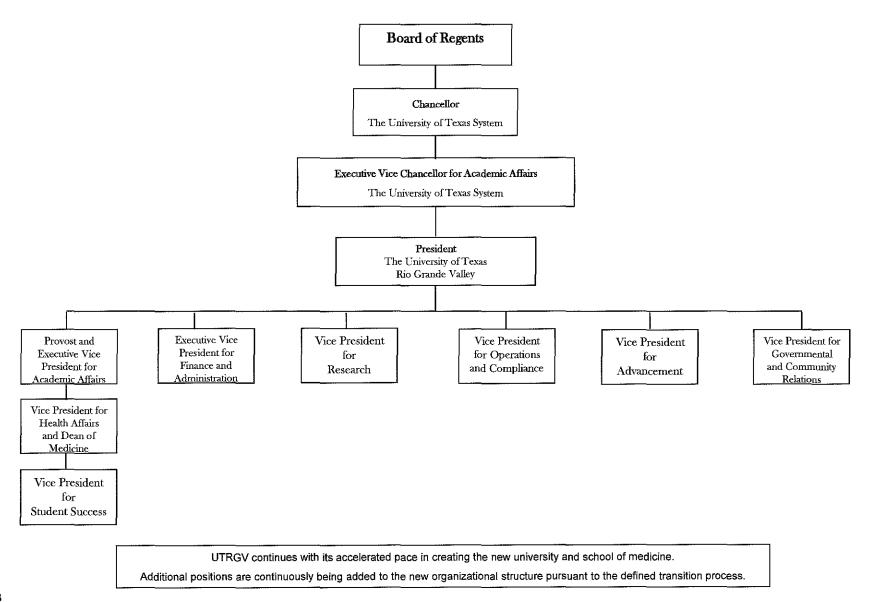

POLICY ON CRIMINAL HISTORY RECORDS

UTRGV conducts employment criminal background checks as required by Government Code Section 411.094 and Education Code Section 51.215. UTRGV's policy is to obtain criminal history information on finalists considered for employment in security sensitive positions.

CONCLUSION

UTRGV is committed to efforts aimed at controlling costs and improving efficiencies while implementing improved services for its students. The efforts described above are designed to graduate well-prepared students in a timely manner and to serve the needs of the Rio Grande Valley, the state of Texas, and the nation.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Instruction and Operation Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Data for FY 2013 to FY 2015 represent the historical expenditures of UT Brownsville and UT Pan American.

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Data for FY 2013 to FY 2015 represent the historical expenditures of UT Brownsville and UT Pan American.

(1) - Formula funded strategies are not requested in 2016-17 because amounts are not determined by institutions.

This strategy includes Revenue Bond Debt service previously authorized for UT Brownsville and UT Pan American. Appropriations for debt service assist the University in minimizing tuition and fee increases that would otherwise be needed to fund these types of construction projects.

Debt service for oustanding TRBs has been requested based on actual, known TRB debt service requirements for FY 2016 and FY 2017. For TRBs that are authorized but unissued, debt service has been estimated using 20-year level debt service at 6%. These assumptions have traditionally been used by all institutions of higher education in the legislative appropriation process and are consistent with the assumptions of the Texas Public Finance Authority.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Data for FY 2013 to FY 2015 represent the historical expenditures of UT Brownsville and UT Pan American.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The University of Texas at Brownsville leases needed facilities from Texas Southmost College for the amount that is appropriated by the state legislature during the partnership. Recent negotiations between U.T. Brownsville and Texas Southmost College resulted in the acquisition of three buildings and much-needed land for the UTRGV Brownsville campus. However, even with the acquisition of new buildings, U.T. Brownsville was forced to lease additional space from Texas Southmost College to accommodate its student enrollment. It is expected that UTRGV will continue to have the need to lease facilities for its Brownsville campus until its capital needs are funded and constructed.

STRATEGY DESCRIPTION AND JUSTIFICATION:

Prior to the Eighty-first Legislature, general academic institutions with enrollments of less than 5,000 received a \$750,000 annual Small Institution Supplement. However the Eightly-first Legislature increased the enrollment threshold to 10,000 students and implemented a phase-out (based on the number of students) of the supplement between 5,000 and 10,000 students. This supplement recognizes that institution have a minimum cost of operation that may not be covered by funds generated through the formulas.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of the Cooperative Pharmacy Program (CPP) is to help fill the need for pharmacists in Texas, particularly in the Rio Grande Valley. Statistics regarding the need for pharmacists, particularly in rural border areas, indicate a strong need for more pharmacists in the RGV. Additionally, there is a disproportionately lower enrollment of Hispanics in the majority of pharmacy schools in Texas. This latter fact is despite data that shows Hispanics will be the majority population in Texas by 2025.

Most importantly the program is providing the community with pharmacists that understand the culture and the language of the people in South Texas.

Many of the CPP students would have limited opportunities to pursue a pharmacy career without the support of the CPP. Our students include migrants, single moms, and many other hardship cases. This program has provided an opportunity to break many social and economic barriers. It provides opportunity and hope for the community and students it serves.

UTRGV serves the social, economic, research and the educational needs of South Texas. With a focus on promoting excellence in teaching, research, creative activity, and community engagement, UTRGV prepares students to be socially conscious citizens and transformative leaders who will have a significant socio-economic impact on the region.

The McAllen Teaching Site (MTS) serves the needs of the community by providing convenient access to its academic and continuing education programs. Located at 1800 S. Main St, Suite 110, offers 7 state-of-the art classrooms and a conference room with full interactive video capability.

Courses and programs offered at MTS target graduate students and community members employed in education, business, and public service fields. The Master in Business Administration and the Master in Public Administration are only taught at MTS. South Texas College utilizes classrooms for daytime instruction and the English Language Institute offers classes to professionals in industries like the maquiladora industry as well as prospective college students.

A robust schedule of continuing education programs are offered to meet the needs for professional certification, personal growth, and academic advancement. Courses like the Certified Public Manager and Medical Academic Scholar Certificate help professionals advance in their careers. Courses on social media and internet marketing help small business owners keep up with the latest advertising tools.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas Center for Border Economic Development (TCBEED) is a consortium of three Texas institutions: UTEP, Texas A&M International and UTRGV organized during the 70th legislative session. The purpose of the centers is to support the border communities in economic-development efforts.

TXBEED serves a catalyst for business and economic development, job creation, and income growth through the provision of a broad range of education and technical-assistance services for businesses, public officials, economic-development organizations and the community.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Center's mission is to increase the global competitiveness of the Texas economy by working with the extended manufacturing enterprise, to accelerate profitable growth by developing and improving processes, products and workforce. The Center's external objectives are to provide assistance to current and prospective manufacturers through the utilization of services available from the Center as well as from academic, industrial, governmental, or private sources to assist them to improve their operations. The Center collaborates with regional Advanced Manufacturing Cluster consists of manufacturing extended enterprises from the private industries and public partners such as regional Community and Technical Colleges, regional manufacturer associations and economic development entities to create and support a Manufacturing Innovation Eco-System. The purpose of the eco-system is to create a sustainable economic growth through entrepreneurship development, technical & engineering services, and advanced skill workforce development. The Center's internal objectives are to strengthen and support the university's educational mission by facilitating faculty research, provide training, working experience, and employment opportunities for UTRGV students certified through Lean Sigma Academy. The Center interfaces with middle and high schools to develop a seamless curriculum for grades K-16 in STEM education.

STRATEGY DESCRIPTION AND JUSTIFICATION:

UTRGV has identified the need to provide pre-collegiate and early intervention support programs designed to increase the college admission rates of economically disadvantaged, first generation college students. This funding would support efforts for collaborative K-16 relationships with school districts in Cameron and Willacy counties in order to provide educational opportunities for all potential students in the UTRGV service region.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of this initiative is to allow the UTPA Rapid Response Advanced Manufacturing Center and the UTPA College of Engineering and Computer Science to establish a strategic presence in the proposed area for the proposed McAllen Advanced Manufacturing Research and Education Park of the NAAMREI strategic plan. It has been determined that the optimal presence for the project will be through the establishment of a Regional Advanced Tooling Engineering Center. The vision for the center calls for the assurance of sustainable world class advanced tooling engineering knowledge and fabrication ability for the region to enhance a prosperous and innovative manufacturing sector in the Rio South Texas Region. The center will allow for UTPA to serve a greater number of students who are seeking access to engineering education in South Texas. In addition, the enhancements provided to the RRAMC and College of Engineering and Computer Science will increase the innovation capability of the region in support of the expanding manufacturing industry. The implementation of this project will provide tremendous opportunities for innovation and technology based economic development in South Texas providing a catalyst for sustainable economic prosperity. The enhanced real world advanced manufacturing engineering environment that would be made possible through this funding will help the students to become better prepared to lead the region in addressing the technological challenges of the future.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of this special item is to develop new programs, both at undergraduate and graduate level, to enhance the quality of existing programs, and to allow the organization to evolve into an institution that fully meets the higher education needs of South Texas.

Funding is used to address critical challenges and opportunities:

- Promote and encourage preparedness for the pursuit of higher education by supporting the Concurrent Enrollment program.
- Support proven scholarship initiatives for entering freshmen and transfer students, such as the four-year, renewable, merit-based University Scholars programs and others.
- Support critical academic advising and tutoring given that many area students are first generation.
- Assist in ensuring that students are successfully progressing toward graduation.
- Support emerging programs such as Master degrees in Chemistry, Engineering Management, Creative Writing, Physician Assistant Studies, and Health Sciences, as well as Bachelor degrees in Rehabilitative Services, Computer Engineering, Environmental Science, and Civil Engineering, and a PhD in Rehabilitation Counseling.
- Seed research activities, where border health issues and STEM fields are a special interest and will allow the engagement of an increasing number of students, at all levels, in research projects.
- · Support retention and graduation initiatives.

N/A	NEW	SCENARIO 1 - UTHSCSA is appropriated the funds
		Appropriations in Support of Regional Academic Health Center (RAHC).
at San Antonio, and the University of Texas Ric San Antonio may transfer appropriations to The Regional Academic Health Center and the esta		At a time deemed appropriate by the University of Texas System, the University of Texas Health Science Center at San Antonio, and the University of Texas Rio Grande Valley, the University of Texas Health Science Center at San Antonio may transfer appropriations to The University of Texas Rio Grande Valley for the support of the Regional Academic Health Center and the establishment and administration of a medical school up to an amount not to exceed \$15,698,950 in 2016 and \$15,698,950 in 2017.
		Any unexpended balances as of August 31, 2016, from the appropriations transferred by the University of Texas Health Science Center at San Antonio in support of the Regional Academic Health Center are hereby appropriated to The University of Texas Rio Grande Valley for the same purpose for the fiscal year beginning September 1, 2016. Funds expended from appropriations identified in this strategy may be used to cover student travel expenses associated with rotations between the UTHSCSA and UTRGV campuses in San Antonio, Harlingen and Edinburg.
		For purposes of the requirements of Article IX, Sec. 6.08. Benefits Paid Proportional by Fund of this Act, appropriations made to The University of Texas Health Science Center at San Antonio and transferred to The University of Texas Rio Grande Valley for these purposes shall be counted as if they were directly appropriated to the institution.
		UTRGV, UTHSCSA and UT System are requesting this rider be added to allow for the continued operations of the RAHC and the development of the new South Texas medical school under the University of Texas Rio Grande Valley as intended with the passage of SB98 in the 81 st Legislature and HB100/SB24 in the 83 rd Legislature.
N/A	NEW	SCENARIO 2 - UTRGV is appropriated the funds
		Appropriations in Support of Regional Academic Health Center (RAHC). Included in appropriations above to The University of Texas Rio Grande Valley in Strategy, is \$15,698,950 in fiscal year 2016 and \$15,698,950 in fiscal year 2017 to support the Regional Academic Health Center and the establishment and administration of a medical school. Notwithstanding Article III, Special Provisions Relating Only to State Agencies of Higher Education, Sec. 4 Transfer Provisions of this Act, a portion of these appropriations not to exceed \$15,698,950 in fiscal year 2016 and \$15,698,950 in fiscal year 2017 could be used to contract with The University of Texas Health Science Center at San Antonio for services related the Regional Academic Health Center and

	.,,,,,	medical school.
		The UTRGV is requesting this rider be added to allow for the continued operations of the RAHC and the development of the new South Texas medical school under the University of Texas Rio Grande Valley as intended with the passage of SB98 in the 81 st legislature and HB100/SB24 in the 83 rd legislature.
N/A	NEW	SCENARIO 2 - UTRGV is appropriated the funds
		Unexpended Balances Between Fiscal Years: Regional Academic Health Center (RAHC). Any unexpended balances as of August 31, 2016, from the appropriations identified in Strategy
		This rider gives the UTRGV authorization to utilize unexpended appropriations in 2016 to further develop the new South Texas medical school and to directly support student travel expenses incurred from required rotations that have been incorporated into academic curriculums to achieve the intended purpose of the funds.
		The UTHSCSA is requesting this rider and the funding appropriated for the RAHC be transferred to and reflected under the bill pattern of the new University of Texas Rio Grande Valley (UTRGV) in the FY2016-17 biennium.
N/A	NEW	Transferability of Appropriations.
		Notwithstanding any other provision of this Act, the Board of Regents of The University of Texas System shall have the authority to transfer appropriations from The University of Texas Rio Grande Valley to The University of Texas at Brownsville and The University of Texas-Pan American in any amount deemed necessary to achieve maximum operating efficiency and to provide for an orderly transition of activities between institutions.
		For purposes of the requirements of Article IX, Sec. 6.08. Benefits Paid Proportional by Fund of this Act, any appropriations transferred under this provision shall be counted as if they were directly appropriated to the receiving institution.
		Senate Bill 24, 83 rd Legislature R.S. provides for UT Brownsville and UT Pan American to be "abolished on a date the board of regents of The University of Texas System determines appropriate to achieve the maximum operating efficiency of the system." This date may or may not be subsequent to the commencement of operations by UTRGV and could extend into the 2016-2017 biennium.
HEGI Rider 4.(b)	III-41	4. (b) - The Comptroller shall transfer monthly, one-twelfth of the amount appropriated from state contributions for institutions belonging to the University of Texas System, to The University of Texas System Office for use by each institution's group insurance program, except for those funds allocated in Strategy A.1.6, The University of Texas at Brownsville.

		UT Brownsville has separated from Texas Southmost College, and this rider is no longer necessary.
HEGI Rider 8	111-42	8. Contingent Appropriations, Higher Education Group Insurance Contributions.
, vide, o		Appropriations made above in Strategy A.1.6, The University of Texas at Brownsville in the amount of \$3,703,129 in fiscal year 2014 and \$3,974,568 in fiscal year 2015 and Strategy C.1.31, Texas Southmost College in the amount of \$1,663,993 in fiscal year 2014 and \$1,785,964 in fiscal year 2015 are contingent on:
		a.) The University of Texas at Brownsville and Texas Southmost College providing the Legislative Budget Board with staff group insurance data elements as of December 1, 2013 in a format prescribed by the Legislative Budget Board;
		b.) The Legislative Budget Board recalculating the Higher Education Group Insurance contributions for The University of Texas at Brownsville and Texas Southmost College for fiscal years 2014 and 2015 using the data provided in Subsection a; and
		e.) The Legislative Budget Board not issuing a written disapproval before the 15th day after the date the staff of the Legislative Budget Board concludes its review of the new staff group insurance data elements and forwards the staff's recommendations to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.
		The new contribution estimates will be provided to the Comptroller of Public Accounts to make contributions for Higher Education Group Insurance to The University of Texas System Office on behalf of The University of Texas at Brownsville and to the Employees Retirement System on behalf of Texas Southmost College for fiscal years 2014 and 2015.
		Should the total amount of contribution estimates provided to the Comptroller by the Legislative Budget Board for Higher Education Group Insurance for fiscal year 2014 and fiscal year 2015 exceed the amounts appropriated above in Strategy A.1.6, UT-Brownsville and Strategy C.1.31, Texas Southmost College for the 2014-15 biennium, the contribution estimates provided to the Comptroller by the Legislative Budget Board for Higher Education Group Insurance for fiscal year 2014 and fiscal year 2015 shall be prorated. In no event shall the recalculated allocations exceed the total amount appropriated in the 2014-15 biennium in Strategy A.1.6, UT-Brownsville and Strategy C.1.31, Texas Southmost College.
		If the total amount of contribution estimates provided to the Comptroller by the Legislative Budget Board for Higher Education Group Insurance for fiscal year 2014 and fiscal year 2015 are less than the amounts appropriated above in Strategy A.1.6, UT Brownsville and Strategy C.1.31, Texas Southmost College for the 2014-15 biennium, the remaining appropriation amount shall lapse.
		UT Brownsville has separated from Texas Southmost College, and this rider is no longer necessary.
HECB Rider 53	III-57	53. Higher Education Coordinating Board Contingent Appropriations, Formula Funding for The University of Texas at Brownsville and Texas Southmost College.

Appropriations made to the Higher Education Coordinating Board in Strategy F.1.4, UTB TSC Transition Funding in the amount of \$7,836,013 in fiscal year 2014 and \$7,836,012 in fiscal year 2015 are contingent on:

a) The University of Texas at Brownsville and Texas Southmost College providing the Higher Education Coordinating Board with updated 2014-15 base period semester data for lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual-credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual-credit hours;

b) The Legislative Budget Board calculating the lower level undergraduate formula funding amounts for The University of Texas at Brownsville, excluding dual credit hours, and non-developmental education academic contact hour formula amounts for Texas-Southmost College, excluding dual credit hours for fiscal years 2014 and 2015 using the data provided in subsection a; and

e) The Legislative Budget Board not issuing a written disapproval before the 15th day after the date the staff of the Legislative Budget Board concludes its review of the new lower level undergraduate semester credit hours at The University of Texas at Brownsville excluding dual credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual credit hours and forwards the staff's recommendations to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.

The new formula funding allocations for lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual credit hours, will be provided by the Legislative Budget Board staff to the Higher Education Coordinating Board to transfer the lower level undergraduate formula funding appropriations, excluding dual credit hours, to The University of Texas at Brownsville and the non-developmental education academic contact hour formula funding appropriations, excluding dual credit hours, to Texas Southmost College for fiscal years 2014 and 2015.

Should the total amount of formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 exceed the amounts appropriated above in F.1.4, UTB TSC Transition Funding for the 2014-15 biennium, the formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 shall be prorated and shall not exceed the total amount appropriated in the 2014-15 biennium in F.1.4, UTB TSC Transition Funding.

If the total amount of formula funding allocations provided to the Higher Education Coordinating-Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 are less than the amounts appropriated above in F.1.4. UTB-TSC Transition Funding for the 2014-15 biennium, the remaining appropriation amount shall lapse.

For purposes of the requirements of Article IX, Sec. 6.08 of this Act, appropriations made to the Higher Education Coordinating Board in Strategy F.1.4, UTB TSC Transition Funding and transferred to the University of Texas at Brownsville and Texas Southmost College shall be counted as if they were directly appropriated to the two institutions.

		UT Brownsville trusteed formula funding state appropriation calculations have been finalized for lower level undergraduate semester credit hours excluding dual and non-developmental education contact hours. As a result, this rider is no longer necessary.
UT Brownsville	III-80	4. Higher Education Coordinating Board Contingent Appropriations, Formula Funding for UT Brownsville.
Rider 4		Appropriations made to the Higher Education Coordinating Board in Strategy F.1.4, UTB-TSC Transition Funding in the amount of \$7,836,013 in fiscal year 2014 and \$7,836,012 in fiscal year 2015 are contingent on:
		a) The University of Texas at Brownsville and Texas Southmost College providing the Higher Education Coordinating Board with updated 2014-15 base period semester data for lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual-credit hours;
		b) The Legislative Budget Board calculating the lower level undergraduate formula funding amounts for The University of Texas at Brownsville, excluding dual credit hours, and the non-developmental education academic contact hour formula amounts for Texas Southmost College, excluding dual credit hours, for fiscal years 2014 and 2015 using the data provided in subsection a; and
		c) The Legislative Budget Board not issuing a written disapproval before the 15th day after the date the staff of the Legislative Budget Board concludes its review of the new lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual credit hours, and the non-developmental education academic contact hours at Texas Southmost College, excluding dual credit hours, and forwards the staff's recommendations to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.
		The new formula funding allocations for lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual credit hours, and the non-developmental education academic contact hours at Texas Southmost College, excluding dual-credit hours, will be provided by the Legislative Budget Board staff to the Higher Education Coordinating Board to transfer the lower level undergraduate formula funding appropriations, excluding dual-credit hours, to The University of Texas at Brownsville and the non-developmental education academic contact hour formula funding appropriations, excluding dual-credit hours, to Texas Southmost College for fiscal years 2014 and 2015.
		Should the total amount of formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 exceed the amounts appropriated above in F.1.4, UTB TSC Transition Funding for the 2014-15 biennium, the formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 shall be prorated and shall not exceed the total amount appropriated in the 2014-15 biennium in F.1.4, UTB TSC Transition Funding.
		If the total amount of formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 are less than the amounts appropriated above in F.1.4, UTB TSC Transition Funding for the 2014-15 biennium, the remaining appropriation amount shall lapse.

For purposes of the requirements of Article IX, Sec. 6.08 of this Act, appropriations made to the Higher Education Coordinating Board in Strategy F.1.4, UTB TSC Transition Funding and transferred to The University of Texas at Brownsville and Texas Southmost College shall be counted as if they were directly appropriated to the two institutions. UT Brownsville trusteed formula funding state appropriation calculations have been finalized for lower level undergraduate semester credit hours excluding dual and non-developmental education contact hours. As a result, this rider is no longer
necessary.
21. Higher Education Coordinating Board Contingent Appropriations, Formula Funding for Texas Southmost College.
Appropriations made to the Higher Education Coordinating Board in Strategy F-1.4, UTB TSC Transition Funding in the amount of \$7,836,013 in fiscal year 2014 and \$7,836,012 in fiscal year 2015 are contingent on:
a) The University of Texas at Brownsville and Texas Southmost College providing the Higher Education Coordinating Board with updated 2014-15 base period semester data for lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual-credit hours;
b) The Legislative Budget Board calculating the lower level undergraduate formula funding amounts for The University of Texas at Brownsville, excluding dual credit hours, and non-developmental education academic contact hour formula amounts for Texas Southmost College, excluding dual-credit hours for fiscal years 2014 and 2015 using the data provided in subsection a; and
e) The Legislative Budget Board not issuing a written disapproval before the 15th day after the date the staff of the Legislative Budget Board concludes its review of the new lower level undergraduate semester credit hours at The University of Texas at Brownsville excluding dual credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual credit hours and forwards the staff's recommendations to the Chair of the House Appropriations Committee, Chair of the Senate Finance Committee, Speaker of the House, and Lieutenant Governor.
The new formula funding allocations for lower level undergraduate semester credit hours at The University of Texas at Brownsville, excluding dual credit hours, and non-developmental education academic contact hours at Texas Southmost College, excluding dual credit hours, will be provided by the Legislative Budget Board staff to the Higher Education Coordinating Board to transfer the lower level undergraduate formula funding appropriations, excluding dual credit hours, to The University of Texas at Brownsville and the non-developmental education academic contact hour formula funding appropriations, excluding dual-credit hours, to Texas Southmost College for fiscal years 2014 and 2015.
Should the total amount of formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 exceed the amounts appropriated above in F.1.4, UTB TSC Transition Funding for the 2014-15 biennium, the formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 shall be prorated and shall not exceed the total

amount appropriated in the 2014-15 biennium in F.1.4, UTB TSC Transition Funding.

If the total amount of formula funding allocations provided to the Higher Education Coordinating Board by the Legislative Budget Board for formula funding purposes described in this rider for fiscal year 2014 and fiscal year 2015 are less than the amounts appropriated above in F.1.4, UTB TSC Transition Funding for the 2014-15 biennium, the remaining appropriation amount shall lapse.

For purposes of the requirements of Article IX, Sec. 6.08 of this Act, appropriations made to the Higher Education Coordinating Board in Strategy F.1.4, UTB TSC Transition Funding and transferred to the University of Texas at Brownsville and Texas Southmost College shall be counted as if they were directly appropriated to the two institutions.

UT Brownsville and Texas Southmost College trusteed formula funding state appropriation calculations have been finalized for lower level undergraduate semester credit hours excluding dual and non-developmental education contact hours. As a result, this rider is no longer necessary.

DESCRIPTION / JUSTIFICATION:

The 81st(SB98) established a stand-alone health science center and medical school in South TX that was subsequently incorporated into the UT Rio Grande Valley (UTRGV) during the 83rd(HB100/SB24). The intention was to establish the new medical school under UTRGV and transition the funding and facilities of the existing RAHC for the Harlingen/Edinburg campuses from UTHSCSA bill pattern to UTRGV bill pattern. Funding of \$72.6M (\$32.6M current at UTHSCSA, \$40M exceptional) is being requested to continue expansion efforts in undergraduate/graduate medical education and research; develop basic sciences and clinical curriculum for a full complement of 200 medical students and over 150 residency positions; provide an interdisciplinary approach to education, research and health services; provide programmatic and infrastructure support for the new medical school as part of UTRGV. Legislative funding at an appropriate level will be crucial to build, as outlined in UT System's road map, a new medical school that sustains current medical and basic sciences education and research, and clinical research programs; shapes the necessary infrastructure of a fully accredited medical school, including new faculty in a variety of disciplines covering all years of medical education, related support functions, maintaining accreditation requirements; and continues the regionalization/expansion of programs. Liaison Committee on Medical Education (LCME) accreditation requires evidence of firm financial support such that secured funding from the State is essential at this time. Programs may be terminated with resulting adverse reactions from local communities, their leadership, local practicing health professionals, and participating and future health professional students. Support from the UTHSC San Antonio campus will be necessary for a temporary period to ensure LCME accreditation is obtained and to appropriately matriculate existing RAHC students.

EXTERNAL/INTERNAL FACTORS:

CODE DESCRIPTION

Excp 2016

Excp 2017

Funding will sustain RAHC's educational and research initiatives in this region of the State, and will continue to support the development of research activities in Edinburg and clinical research in Harlingen. The RAHC will continue to provide medical education to MS3 and MS4 students initiating from UTHSCSA through 2019 under the South TX Clinical Education Campus (CEC) track and will cease to admit medical students under this track after 2016. The inaugural UTRGV medical school class (MS1) is expected to begin in July 2016. Current/enhanced funding will: 1) provide infrastructure for faculty, staff, educational programs, facilities, and student support services needed to maintain accreditation requirements and to function as a geographically separated clinical education campus (CEC) of the UTHSCSA; 2) provide for the continued regionalization of the RAHC programs throughout the Valley; 3) allow for continued development of academic and support faculty, staff and programs for the new medical school under the leadership of the new Founding Dean as part of UTRGV; 4) provide for the continued development of clinical research allowing students at the medical education division in Harlingen the opportunity to be engaged in an activities that complements their academic experience; and 5) support the development of the South TX Institute for Diabetes and Obesity. General Revenue appropriations are expected to transition from the UTHSCSA to UTRGV beginning in the 2016-17 biennium.

1 General Revenue Fund		4,410,000	4,410,000
TOTAL, METHOD OF FINANCING		\$4,410,000	\$4,410,000

DESCRIPTION / JUSTIFICATION:

Type: New Construction

Project description:

The University of Texas Rio Grande Valley seeks to construct a Multipurpose Academic Center with a total of 177,527 GSF. The academic center will be designed to accommodate 132,527 GSF for much needed classrooms for science, biology, chemistry, environmental sciences, and physics and 45,000 GSF will provide space for general purpose classrooms.

Key milestones:

Start Facilities Programming June 2015
Design Development Approval May 2016
Texas Higher Education Coordinating Board Approval July 2016
Notice to Proceed September 2016
Substantial Completion July 2018
Occupancy August 2018

Investment amount/sources of funding:

This project will require an investment of \$50.6 million at \$285 per GSF. The expected source of funding is through Tuition Revenue Bonds. Without state support, this project would be deferred indefinitely.

Operational costs added to institution's budget:

Total operating costs are estimated at \$414,125.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE:

CODE DESCRIPTION

Excp 2016

Excp 2017

Ability of institution to absorb operational costs:

The institution will fund incremental costs through anticipated enrollment growth and reallocation of resources as it currently leases comparable space.

Outcome measures:

- · Increase student access and success
- · Accommodate enrollment growth
- Expand course and classroom availability

Debt Service has been calculated based upon a 6% interest rate and 20 year bond life.

EXTERNAL/INTERNAL FACTORS:

Strategic implications:

Recent successful negotiations with Texas Southmost College resulted in the acquisition of three buildings and much-needed land for the Brownsville campus of UTRGV. However, even with the acquisition of new buildings, UT Brownsville was forced to lease additional space from Texas Southmost College to accommodate this fall 2013 enrollment of 8,612 students. During that term, every classroom was used from 8am-10pm Monday through Thursday, and Friday usage was scheduled at 82%. We have a wait-list for classroom space as we continue to add course sections needed for student demand. Lease agreement with TSC have a lifespan of between two and six years, therefore, UT Brownsville has an urgent need to begin immediately to construct new buildings for classroom space, science labs and student support services to meet current enrollment needs. Failure to acquire additional space will seriously curtail the future growth of the Brownsville campus of UTRGV.

We are currently leasing 294,955 GSF from TSC and other private property owners. We expect our enrollment growth to increase our need by 382,806 GSF. This number is calculated based on a 3.5% enrollment growth per year at a modest 98 GSF per student. By 2019, we estimate that the Brownsville campus of UTRGV will require a total of 677,761 GSF

Ability of institution to absorb operational costs:

The institution will fund operating costs with incremental local and state revenues generated by enrollment growth.

Outcome measures:

- Additional federal and private research funding
- Increase educational access and student success
- · Accommodate enrollment growth
- Course and classroom availability

Debt Service has been calculated based upon a 6% interest rate and 20 year bond life.

EXTERNAL/INTERNAL FACTORS:

Strategic implications:

Rapid population growth in South Texas warrants assessment of emerging challenges related to water management, the marine and coastal environments, ecology and the development of a sustainable marine biology ecosystem to support population and consequent economic growth in the US-Mexico border. The Gulf of Mexico offers UTRGV a unique opportunity for development of the needed state-of-the-art interdisciplinary research capabilities. Scientific research will focus on sustainability of the shoreline; management of marine-based food sources; environmental and ecological health of the ocean; management of water resources, including wetlands; and regional vulnerability to disasters, such as hurricanes. Specifically, the CSRC will focus on shoreline sustainability impacted by the traffic in the Gulf and human use; development and growth of a marine ecosystem to promote the sustainability of the seafood industry; Geographical Information Systems focusing on tracking and modeling shoreline integrity, and storm impacts, such as tropical storms and hurricanes, with a focus on disaster mitigation, preparedness, and response. Further, the CSRC will serve to educate and prepare the next generations of marine and social scientists, and engineers in the Rio Grande Valley and beyond.

Excp 2017

Major accomplishments to date and expected over the next two years:

This is a new exceptional item, thus no past history. However, there is a meager effort currently on leased land at South Padre Island, the Coastal Studies Lab. This laboratory is primarily focused on outreach to the community and summer programs for regional school students. The facility is not designed for research and therefor unable to attract major research faculty and funding. The proximity to the Gulf of Mexico offers UTRGV a unique opportunity to build a core competency and the research infrastructure in Coastal Studies that will help secure external research funding. It will also bring recognition for the UTRGV for research in the Gulf of Mexico. The research capability will also impact the regional economy and it can serve as a platform for partnerships with industry in this area.

Year established and funding source prior to receiving funding:

New special item.

Formula Funding:

Not applicable.

Non-general revenue sources:

None today, but can potentially attract external funding if investment is made in this initiative.

Consequences of not funding:

UTRGV will be unable to take advantage of the proximity to the Gulf of Mexico to impact the regional economy and will also be unable to attract external funding to Texas.

External/Internal Factors:

The regional industry can benefit a great deal from this initiative; it will establish a unique core competency for UTRGV that can also help support collaboration in research with universities in Mexico and Central and South America.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE:

I	General Revenue Fund	5,000,000	3,600,000
Т	TOTAL, METHOD OF FINANCING	\$5,000,000	\$3,600,000
FULL-TIME EQ	UIVALENT POSITIONS (FTE):	4.00	3.00

DESCRIPTION / JUSTIFICATION:

To strengthen the Biomedical Sciences research capability that will complement the efforts at the new Medical School and better prepare the next generation of doctors. It will also help the Medical School students to meet their research requirements as part of their medical training. This research focus will address health issues in south Texas and bring research dollars from federal agencies to South Texas.

Currently, at UT Brownsville and UT Pan American, there are 12 faculty members conducting research in the biomedical sciences focusing on infectious diseases, diabetes, cancer, neuroscience, and tissue engineering. These faculty members form a critical mass of a research core competency that can serve as a platform to advance the biomedical sciences' research agenda for the University of Texas Rio Grande Valley (UTRGV), and will also serve to support and leverage the synergy of an emerging medical school to be established as part of UTRGV in 2016. To support these research efforts, the current core research facilities are composed of capabilities in cell culture, imaging, and molecular biology. However, we lack several critical areas of expertise, which are necessary to complete the core competency base to make a significant research impact, including pharmacology, biochemistry, toxicology, bioinformatics, and bioengineering. To further enhance and strengthen this core research competency and to advance our biomedical science research efforts, we also require some critical instrumentation. The following resources are needed to complete the infrastructure to further advance and expand biomedical science research at UTRGV, which will have significant social, economic, and health impacts at the regional, national, and international levels.

CODE DESCRIPTION

Excp 2016

Excp 2017

Major accomplishments to date and expected over the next two years:

Over the past several years twelve faculty, both at UTB and UTPA were engaged in research, covering a broad spectrum of research topics related to human health. The addition of new faculty, with selected expertise, will fill the gap in the existing areas of core competencies to maximize the impact of collective research efforts. This investment will help competitively position the Biomedical Sciences research group to secure large external research grant funding. This broad core group of research faculty will offer synergy through collaboration with research faculty at the South Texas Diabetes and Obesity Institute (STDOI). Together with STDOI the collaborative research will have the potential to secure over \$10-15M in research funding over the next 2-3 yrs. These efforts are consistent with supporting the mission of the new School of Medicine and create research opportunities for students at the Medical School and afford them better training.

Year established and funding source prior to receiving funding:

This is a new exceptional item request. The existing faculty has been at the UTB and/or UTPA over the last 2-5 years. These faculty members have primarily relied on external funding to support their research through NIH or NSF.

Formula Funding:

N/A

Non-general revenue sources:

None today, but can attract external funding if investment is made in this initiative.

Consequences of not funding:

We will be unable to attract talent and funding and will not be able to strengthen the training efforts at the new Medical School. Securing appropriated funding will strengthen the ability of UTRGV to bring additional federal dollars to the state and support economic development as well.

External/Internal Factors:

There is significant competition for research dollars at NIH, thus this request will strengthen the ability of the existing faculty to be competitive in securing external funding.

DESCRIPTION / JUSTIFICATION:

Type: New Construction Project description:

The University of Texas Rio Grande Valley seeks to construct the Interdisciplinary Engineering & Academic Studies Building located in Edinburg that will create 80,798 of assignable square feet. The spaces will include a large lecture auditorium with a 250-seat capacity, several 150-seat lecture halls, 60-seat classrooms, and faculty offices. Although particular emphasis will be placed on preparation of engineering students, this flexible facility will also address space requirements for other disciplines as needed. The project will also include an outdoor pavilion to be used as a gathering area and study space to relieve pressure on more expensive indoor space and also to support academic events.

Key milestones:

Start Facilities Programming October 2015
Design Development Approval August 2016
Texas Higher Education Coordinating Board Approval September 2016
Notice to Proceed January 2017
Substantial Completion July 2018
Occupancy August 2018

TOTAL, METHOD OF FINANCING

Investment amount/sources of funding:

This project will require an investment of \$50 million, including \$1.5 million toward expansion of the institution's cooling plant capacity. The expected source of funding is through Tuition Revenue Bonds (\$42.5 million), Revenue Finance System (RFS) bonds (\$5 million), and gifts (\$2.5 million). Without state support, this project would be deferred indefinitely.

1	General Revenue Fund	1,720,031	1,720,031
Т	OTAL, METHOD OF FINANCING	\$1,720,031	\$1,720,031

DESCRIPTION / JUSTIFICATION:

FULL-TIME EQUIVALENT POSITIONS (FTE):

The requested funding will support the academy in its goal to increase higher-education opportunities in STEM fields to eligible students and expand the Academy's enrollment from its current, limited commuter model program of 90 students into a residential program that will enroll up to 300 students. The proposed program will also provide additional enrollment opportunities to high achieving students from outside the south Texas region.

Major accomplishments to date and expected over the next two years:

Since its inception five years ago, created by acts of the 79th legislature, the only source of funding for TAMS at UTRGV – Brownsville campus has been through the average daily attendance allotment from the school foundation fund. Unlike TAMS located in north Texas, TAMS at UTRGV receives no special item appropriation, limiting access to gifted and talented high school students. Special item funding comparable to the other TAMS is critical and necessary to meet increased enrollment demands and the legislative mandate to provide TAMS access to students in south and central Texas.

EXTERNAL/INTERNAL FACTORS:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE: TIME:

10/15/2014

4:05:39PM

Agency code:

746

Agency name:

The University of Texas Rio Grande Valley

CODE DESCRIPTION

Excp 2016

Excp 2017

Year established and funding source prior to receiving funding:

New special item.

Formula Funding:

Average daily attendance allotment from the school foundation fund.

Non-general revenue sources:

None

Consequences of not funding:

With limited funding, TAMS at UTRGV can only support a "commuter" model limited to 90 students. Even with limited funding and capacity, TAMS at UTRGV Brownsville campus has been highly successful: graduating more than 140 students, with each graduate completing at least 60 college credit hours; significantly accelerating their entrance into post-secondary schools and decreasing their time to graduation. One hundred percent of graduates have immediately enrolled in institutions of higher education to pursue a bachelor's degree. TAMS at UTRGV, graduates achieve a bachelor's degree sooner than their high school peers and enter the workforce sooner in STEM fields supporting economic development in Texas.

External/Internal Factors:

With special item funding, TAMS at UTRGV would provide additional state-wide enrollment opportunities to high achieving high school students who reside beyond lower south Texas to an accelerated educational model by expanding the academy's current commuter, limited enrollment model, into a full residential program that will enroll up to 300 students statewide.

TAMS at UTRGV has brought to the forefront a model of accelerated science and mathematics education to lower south Texas. Student participation in UTRGVs TAMS program has a dramatic influence on students' lives, their future and contributes to stronger economic development in Texas. Student achievement at TAMS at UTRGV for the past five years demonstrate that investment of special item funding will result in high educational yields with minimal investment risk.

OBJECTS OF EXPENSE: 2008 DEBT SERVICE		4,395,000	4,395,000
TOTAL, OBJECT OF EXP	ENSE	\$4,395,000	\$4,395,000
METHOD OF FINANCING:			
1 General Revenue Fund		4,395,000	4,395,000
TOTAL, METHOD OF FIN	ANCING	\$4,395,000	\$4,395,000

DESCRIPTION / JUSTIFICATION:

Type: New Construction

Project description:

The University of Texas Rio Grande Valley seeks to construct a Fine Arts and Classroom building. The Fine Arts and Classroom building would provide music education teaching space and general purpose classrooms. A total of 155,174 GSF is needed to replace space that is currently being leased from TSC and provide some additional space to accommodate student enrollment. The facility would also include 30,000 of flexible learning spaces to serve not only music education but other disciplines as well.

Key milestones:

Start Facilities Programming June 2015
Design Development Approval May 2016
Texas Higher Education Coordinating Board Approval July 2016
Notice to Proceed September 2016
Substantial Completion July 2018
Occupancy August 2018

Investment amount/sources of funding:

This project will require an investment of \$50.4 million at \$325per GSF. The expected source of funding is through Tuition Revenue Bonds. Without state support, this project would be deferred indefinitely.

Operational costs added to institution's budget:

Total operating costs are estimated at \$361,980.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE:

Excp 2017

Ability of institution to absorb operational costs:

The institution will fund incremental costs through anticipated enrollment growth and reallocation of resources as it currently leases comparable space.

Outcome measures:

- · Increase student access and success
- · Accommodate enrollment growth
- · Expand course and classroom availability

Debt Service has been calculated based upon a 6% interest rate and 20 year bond.

EXTERNAL/INTERNAL FACTORS:

Strategic implications:

Recent successful negotiations with Texas Southmost College resulted in the acquisition of three buildings and much-needed land for the Brownsville campus of UTRGV. However, even with the acquisition of new buildings, UT Brownsville was forced to lease additional space from Texas Southmost College to accommodate this fall 2013 enrollment of 8,612 students. During that term, every classroom was used from 8am-10pm Monday through Thursday, and Friday usage was scheduled at 82%. We have a wait-list for classroom space as we continue to add course sections needed for student demand. Lease agreement with TSC have a lifespan of between two and six years, therefore, UT Brownsville has an urgent need to begin immediately to construct new buildings for classroom space, science labs and student support services to meet current enrollment needs. Failure to acquire additional space will seriously curtail the future growth of the Brownsville campus of UTRGV. We are currently leasing 294,955 GSF from TSC and other private property owners. We expect our enrollment growth to increase our need by 382,806 GSF. This number is calculated based on a 3.5% enrollment growth per year at a modest 98 GSF per student. By 2019, we estimate that the Brownsville campus of UTRGV will require a total of 677,761 GSF

FULL-TIME EQ	UIVALENT POSITIONS (FTE):	5.00	4.00

DESCRIPTION / JUSTIFICATION:

Rapid population growth and commercial activity in South Texas is expected to place a substantial strain on the availability of water resources necessary to support its growth. Therefore, it is critical that a systematic effort be devoted to assessing the water needs and the availability of this resource within the region. We propose to extend research efforts at the Coastal Studies Research Center (CSRC) at the University of Texas Rio Grande Valley (UTRGV) to focus on projecting water demand over the next decade and beyond, and develop and implement plans to address the needs.

The translation and interpretation services under the Center for Bilingual Studies will provide high-quality translation, editing and writing services to support the university's daily operations, corporate image and special developments in the area of bilingualism. The services would establish and publish university-wide terminology and language standards and would ensure high-quality language both on the university website and its official communications.

Cutting-edge research at CSRC will focus on water resource management; use of safe drinking water; agriculture and industrial use; floods and drought conditions; water storage; conservation, recycling, and purification of water, including water from fracking. Research efforts will also focus on the sustainability of wetlands and desalination of sea water. Some of the expertise needed can leverage the expertise of the research faculty at the CSRC, thus, creating efficient opportunities for cross-disciplinary collaborations. Research efforts will concentrate on water resources, recovery, and use and reuse for effective management, and on developing the necessary technologies to be deployed to support the population and economic growth in South Texas. These academic and research efforts will also contribute to training and educating the next generations of the skilled workforce.

CODE DESCRIPTION

Excp 2016

Excp 2017

Major accomplishments to date and expected over the next two years:

This is a new exceptional item with no past history. The focus is aligned with the regional need for adequate water resources and supply to support the population and economic growth in South Texas. This investment will position UTRGV to create a focus of research by leveraging the interdisciplinary collaborative platforms between faculty from various colleges using the Coastal Studies Research Center facilities. This investment will also attract external research funding over the next 2-3 years in the range \$3-6M from federal agencies and also private industry.

Year established and funding source prior to receiving funding:

New special item.

Formula Funding:

Not applicable.

Non-general revenue sources:

None today, but can potentially attract external funding if investment is made in this initiative.

Consequences of not funding:

The region will be unable to keep up with the rapid population growth, and attract businesses to the region due to lack of sufficient water supply and water management infrastructure. Thus impeding the economic growth.

External/Internal Factors:

The region is well positioned to experience a significant economic growth over the next decade or so, thus we need to be ready to support this growth with planned investment in research and the infrastructure as it relates to water management and supply proactively.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE:

10/15/2014

TIME: 4:05:39PM

Agency code: 746 Agency name:		
The University of Texas Rio Grande Valley		
CODE DESCRIPTION	Excp 2016	Excp 2017
Item Name: Energy Research Item Priority: 10		
Includes Funding for the Following Strategy or Strategies: 03-05-01 Exceptional Item Request		
OBJECTS OF EXPENSE:		
1001 SALARIES AND WAGES	100,000	100,000
2009 OTHER OPERATING EXPENSE	100,000	100,000
5000 CAPITAL EXPENDITURES	5,400,000	1,700,000

METHOD OF FINANCING:		
1 General Revenue Fund	5,600,000	1,900,000
TOTAL, METHOD OF FINANCING	\$5,600,000	\$1,900,000
FULL-TIME EQUIVALENT POSITIONS (FTE):	3.00	3.00

DESCRIPTION / JUSTIFICATION:

Rapid population growth and commercial activity in South Texas is expected to place a substantial strain on the availability of energy resources necessary to support its growth. Therefore, it is critical that a systematic effort be devoted to assessing the energy needs and the availability of energy resources. This energy research focus at UTRGV that complements the research efforts at the Coastal Studies Research Center is being proposed to address the regional and national needs for energy supply.

Sufficient energy supply will be indispensable for continued economic growth in South Texas. The proximity to the Gulf of Mexico and the abundant supply of wind in South Texas create a unique opportunity for UTRGV to leverage and support this growth. Wind and ocean currents are renewable sources of energy that need to be harnessed. Wind farms have already emerged in South Texas, and there are a number of aspects of this industry that require technological support. Thus engaging existing faculty in mechanical and electrical engineering in the College of Engineering, and recruiting materials' scientists, atmospheric scientists, and energy forecasters/economists to extend research efforts on energy is a unique opportunity for UTRGV. Consequently, interdisciplinary teams will address the needs of the wind energy industry as it relates to wind speed, direction and mapping, wind power forecasting, turbine and electrical grid performance, wind turbine design and integrity, and harnessing the energy from the ocean waves. Such an academic and research effort will also contribute to training and educating the next generation of skilled workforce for these industries in South Texas and the rest of the country.

DESCRIPTION / JUSTIFICATION:

The Center for Bilingual Studies (CBS) at the University of Texas Rio Grande Valley engages the internal higher education community and PK-12 institutions in the region in a mission to nurture the unique regional asset that is bilingualism and biculturalism. As this institution transitions to a more consequential regional entity that is UTRGV, the Center for Bilingual Studies has begun to elaborate its internal infrastructure. The purpose for this request is to build Translation and Interpretation capacities within the existing CBS.

The translation and interpretation services under the Center for Bilingual Studies will provide high-quality translation, editing and writing services to support the university's daily operations, corporate image and special developments in the area of bilingualism. The services would establish and publish university-wide terminology and language standards and would ensure high-quality language both on the university website and its official communications.

Since its inception, the Center has led several significant initiatives such as building the Dual Language instructional capacities of numerous elementary schools in the Rio Grande Valley. It is monumental work that has required great investment. Among its other initiatives, the Center has brought Edinburg-campus faculty together with Brownsville-based faculty to build the translation and interpretation services that have been developed during the past decade. The Center for Bilingual Studies is strategically situated to facilitate the development of translation and interpretation, as UTRGV is elaborated as a bilingual, bicultural, biliterate university.

EXTERNAL/INTERNAL FACTORS:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) DATE: TIME:

10/15/2014

4:05:39PM

Agency code:

746

Agency name:

The University of Texas Rio Grande Valley

CODE DESCRIPTION

Excp 2016

Excp 2017

Major accomplishments to date and expected over the next two years:

CBS has focused on building the community with internal UTPA researchers from across academic disciplines whose focus includes bilingualism, biliteracy, and in some cases biculturalism. CBS has built a network with the K-12 sector to focus on supporting and/or establishing specific bilingual education programs. CBS has also supported the Bilingual Dual Language Programs at Pharr San Juan Alamo and La Joya ISD and it helped establish the program in the McAllen and Ignite Public Schools. CBS facilitated a series of community building workshops with another dozen K-12 institutions across the Rio Grande Valley.

During the next two years, CBS will continue to cultivate the public conversation emphasizing the critical importance of bilingualism, biculturalism, and biliteracy regionally, across the state, and internationally. CBS will support faculty, staff, students, and alumni who work in the fields of bilingualism, biculturalism, and/or biliteracy. CBS will continue to support the development of effective bilingual education programs.

Year established and funding source prior to receiving funding:

CBS was established through University of Texas System approval during the spring of 2012, though faculty members and Deans from three colleges worked on producing a white paper to present to System during a period of two years before System approval. Faculty and students planned, implemented, and evaluated a conference on bilingualism that took place in 2011, almost a year before the Center was formalized.

Formula Funding: N/A

Non-general revenue sources: N/A

Consequences of not funding:

The consequence of not funding CBS through this exceptional line item would likely mean there would be no resource at UTRGV to execute translation and interpretation services for the new university, as the new institution establishes its identity as a bilingual, bicultural, and biliterate university.

B. Assessment of Fiscal Year 2012 - 2013 Efforts to Meet HUB Procurement Goals

Attainment:

Attainment:

UTPA has achieved and exceeded 3 of 5 or 60% of the applicable agency HUB procurement goals in Fiscal year 2013

UTB exceeded one of five, or 20%, of the applicable statewide HUB procurement goals in Fiscal year 2012

UTB exceeded one of five, or 20%, of the applicable statewide HUB procurement goals in Fiscal year 2013.

Applicability:

Applicability:

UTPA did not have any activity in or participate in any Heavy Construction as per State of Texas Object Codes.

UTB - The "Heavy Construction category was not applicable to agency operations for either fiscal year 2012 and fiscal year 2013 since the agency did not have expenditures at that time.

Factors Affecting Attainment:

Factors Affecting Attainment:

The University of Texas-Pan American continues its commitment to the Historically Underutilized Business (HUB) Program. Our University still maintains an ambitious outreach program in the Rio Grande Valley. We assume a leadership position among other state and local agencies in promoting HUB issues in our area and encourage non-certified minority and woman owned businesses to become HUB certified. An element of this effort is to facilitate the application process as much as possible for businesses through working closely with the Texas Procurement and Support Services Office.

UTB - In both fiscal year 2012 and 2013, the "Building Construction" goal was not met due to pre-construction services provided by a non-HUB.

6.A. Historically Underutilized Business Supporting Schedule

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST) Date: 10/15/2014 Time: 4:05:40PM

Agency Code:

746

Agency:

The University of Texas Rio Grande Valley

UTB - In both fiscal year 2012 and 2013 the "other Services" and "Special Trade Construction" goals were not met. A "Good Faith Effort" was made to contract out with HUB vendors by

the biding process but the contracts were awarded to non-HUB vendor using "Best Value" procurement procedures and guidelines.

"Good-Faith" Efforts:

Hosted:

- HUB & 8A Certification Seminar with the UTPA Small Business Development Center and U.S. Small Business Administration
- 12th Annual UTPA HUB Vendor Fair with over thirty HUB vendors and over three hundred campus participants in attendance
- "Doing Business with The State of Texas" HUB Seminar with McAllen Hispanic Chamber of Commerce and UTPA Small Business Development Center.
- "Meet the Buyer Contracting Expo" with the UTPA Rio South Texas Regional Procurement and Technical Assistance Center

Participated:

- · City of San Antonio, Bexar County Minority Business Fair.
- The South Texas HUB Coordinators Alliance
- Marketed SciQuest E-Procurement System with Six HUB Catalog vendors for the most frequently ordered items

HUB Coord current areas of engagement:

- · Current President of the South Texas Universities HUB Coordinators Alliance.
- · Advisor to the Board of Directors of the Rio Grande Valley Hispanic Chamber of Commerce for Small Business & Economic Development.
- HUB Coord Mentor to the South Texas Procurement and Technical Assistance Center.

Met with over fifty vendors on an individual basis to help with the HUB application and CMBL process.

Project Description

The University of Texas Rio Grande Valley seeks to construct a Multipurpose Academic Center with a total of 177,527 GSF. The academic center will be designed to accommodate 132,527 GSF of much needed classrooms for science, biology, chemistry, environmental sciences, and physics 45,000 GSF of general purpose classroom space. The facility will increase student access and success, accommodate enrollment growth, and expand course and classroom availability.

Annual Debt Service of \$4,410,000 has been calculated based upon a 6% interest rate and 20 year bond life.

Project Description

The University of Texas Rio Grande Valley seeks to construct the Interdisciplinary Engineering & Academic Studies Building that will create 80,798 of assignable square feet. The spaces will include a large lecture auditorium with a 250-seat capacity, several 150-seat lecture halls, 60-seat classrooms, and faculty offices. Although particular emphasis will be placed on preparation of engineering students, this flexible facility will also address space requirements for other disciplines as needed. The project will also include an outdoor pavilion to be used as a gathering area and study space to relieve pressure on more expensive indoor space and also to support academic events.

Annual Debt Service of \$3,705,000 has been calculated based upon a 6% interest rate and 20 year bond life.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 1

Professional Development/Distance Learning

(1) Year Special Item:

2000

Original Appropriations:

\$250,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

To provide support services and facilities that promote, support, and integrate best pedagogical practices and instructional technologies in teaching, learning, and research for traditional and online learning offerings. The Center for Online Learning, Teaching & Technology strives to become a center of excellence for educational technology through supporting, initiating and implementing applied research for integration of technology in the curriculum to advance online and hybrid education.

(3) (a) Major Accomplishments to Date:

- •Since inception of line item, a support unit (COLTT) was established to support online teaching and learning through web-based technology.
- •Established the necessary infrastructure to implement and support a learning management system at the institution level. This is now a mission critical application at the university.
- •Every class offered by UTPA has an online presence allowing for 100% of our students and faculty to have access to their classes through the university's learning management system.
- •Facilitated the adoption and support of different instructional technologies that impact all faculty and all students at UTPA.
- •Increased number of fully online classes every term for the past 3 years. 810 Online and Hybrid Courses were offered for AY 2012-2013.
- •Developed a process and guidelines for quality assurance of online classes through a comprehensive professional development program that will meet nationally recognized standards of quality in online education for online courses offered at UTPA.
- *Upgrade facilities at the Center for Online Learning, Teaching & Technology to deliver trainings, faculty collaboration, and student support for online education
- •Establish, deliver, and sustain four fully online graduate programs in the areas of Business Administration, Public Administration, Special Education, and Educational Leadership.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- •Four new fully-online programs will be available and supported in the next two years. These programs will be supported and developed with the availability of these funds.
- •Expand the number of online courses to fulfill the university's mission to offer at least 750 online courses by 2021.
- •Expand the professional development opportunities and resources for faculty teaching online and hybrid courses by offering more online training sessions, and expand the scope of the annual Excellence in Online Teaching conference offered by COLTT.
- •Upgrade the center's equipment to carry on with the proper support and demonstration of new instructional technologies being implemented and supported by COLLT at the university.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

Distance Learning Fees: FY 2013-2014 \$1,484,311

(7) Consequences of Not Funding:

The center's ability to offer online teaching and learning support services will be greatly hindered, and ultimately, UTRGV students, Faculty, and staff will not receive proper support to use or access online resources and instruction affecting academic development.

This burden would require COLTT to diminish travel, and other applications currently used by faculty and students, as well as forego upgrading equipment and software used by staff. Student employees, who play a critical role in the success of the operations, would be non-existent, and therefore, diminish the effectiveness of the support and services offered. Moreover, student employment at the institution would also be adversely affected.

COLTT would have to use another funding source to cover the cost of all the different licensing fees in order to continue to provide the basic tools for online teaching and learning. However, other budget reductions at different academic departments may have a ripple effect on web-based learning at UTRGV. If the number of faculty or courses being offered is decreased, the number of online classes will likely fall. This may lead to a decrease in semester credit hours and consequently a further reduction in available funds to support COLTT operations through the distance learning fees.

In short, all the necessary infrastructure and support resources to facilitate online teaching and learning at our institution would be impacted adversely.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 2 Cooperative Pharmacy Doctorate

(1) Year Special Item:

2002

Original Appropriations:

\$300,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The mission of the Cooperative Pharmacy Program (CPP) is to help fill the need for pharmacists in Texas, particularly in the Rio Grande Valley. Statistics regarding the need for pharmacists, particularly in rural border areas, indicate a strong need for more pharmacists in the RGV. Additionally, there is a disproportionately lower enrollment of Hispanics in the majority of pharmacy schools in Texas. This latter fact is despite data that shows Hispanics will be the majority population in Texas by 2025.

Most importantly the program is providing the community with pharmacists that understand the culture and the language of the people in South Texas.

Many of the CPP students would have limited opportunities to pursue a pharmacy career without the support of the CPP. Our students include migrants, single moms, and many other hardship cases. This program has provided an opportunity to break many social and economic barriers. It provides opportunity and hope for the community and students it serves.

(3) (a) Major Accomplishments to Date:

- 84 graduates thus far have obtained their degree; 80% employment retention in South Texas.
- 7 of the 84 graduates earned post-graduate residencies and 4 of these are now practicing in South Texas.
- 68 students enrolled for 2013-2014 in the Cooperative Pharmacy Program (CPP); 76% Hispanic.
- · Dr. Tasnif, faculty member, research accepted for presentation at World Transplant Congress.
- Student, Stephanie Martinez, received UT Austin Leadership Award.
- Student, Joey Barrera, received UT Austin Outstanding Research Award. He was also named as the Texas RX State Distinguished Rx Student for 2013.
- Student, Carolina Rodriguez, received UT Austin Outstanding Research Award. She was also named as the Texas RX State Distinguished Rx Student for 2014.
- All P3 Students and all faculty have peer-reviewed abstracts accepted to ASHSP Annual Midyear Meeting. Research topics include diabetes, hypertension, cholesterol, medication therapy management.
- CPP received the 7th Annual Exelencia in Education Award in Washington, DC.
- CPP hosted 4th RX Month Health Fair in La Blanca, TX. Rx students screen for BP, glucose, cholesterol, and administered 100 flu shots to community.
- 100% of the Spring 2013 Class passed National Boards and State Law Exam.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

During the next two years we expect to:

- Increase faculty to a total of six in an effort to better serve an increased number of students. The high school cohorts have almost doubled from 12 to 20, and to fulfill teaching opportunities with UTRGV medical school.
- Seek and secure external funding for faculty positions with co-funded arrangements and grants.
- Increase faculty and student research endeavors in order to provide experience and opportunities for students and to fulfill publishing goals. These research endeavors will concentrate on major health issues that affect the Rio Grande Valley (RGV) such as diabetes, asthma, hypertension and hyperlipidemia.
- Increase and expand recruitment activities to include middle school career days and presentations in order to capture students before they enter high school programs.
- Involve students at every level of the program in all recruitment activities including presentation of research endeavors in order to ignite their interest in solving
 the health problems of the community.
- Solicit funding from alumni for an endowment to benefit aspiring Pharmacy students.
- Work with Development Office to solidify an endowment from alumni.
- Establish a Medication Therapy Management Service that will provide educational opportunities for students, clinical experiences for faculty and a revenue stream for the program.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Ň

(6) Non-general Revenue Sources of Funding:

Target: FY 2013 \$2,500 JP Sanchez: FY 2013 232.63 John Villarreal: FY 2012 531.01

(7) Consequences of Not Funding:

- The UTRGV CPP was developed to encourage students from the Rio Grande Valley and Laredo regions to pursue pharmacy as a professional career. The program has served to provide recruitment, training and retention of proficient Doctor of Pharmacy trained pharmacists. Currently more than 80% of graduates are actively practicing in the Rio Grande Valley and Laredo. Thus, the growing need for pharmacists particularly in rural border areas is being addressed by the CPP. Ending this program would negatively impact the number of pharmacists available to South Texas that understand the language and culture of the community.
- There has always been a disproportionately low enrollment of Hispanics in the majority of pharmacy schools in Texas. The opportunities afforded to the students in South Texas by the CPP are critical. The students who have matriculated to UT-Austin College of Pharmacy and graduated from the program have greatly benefited from the UTRGV CPP. This program made available a field of study that most of them could only dream of pursuing. The demise of this program would also be the demise of hope for many students that aspire to serve their community as pharmacy professionals in the RGV.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 3 Starr County Upper Level Center

(1) Year Special Item:

2002

Original Appropriations:

\$150,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The mission of the University of Texas-Pan American at Starr County is to provide higher education opportunities to the western region of the Rio Grande Valley served by the University of Texas-Pan American through a center designed to meet the educational needs of the area.

The existing appropriation for the Center is for operating the instructional portion and day-to-day functions.

(3) (a) Major Accomplishments to Date:

The greatest accomplishment noted is that since the inception of the Center in Fall 2000, 455 students transferred from South Texas College into UTPA at Starr County of which 452 (as of Spring 2014) completed a Bachelor of Interdisciplinary Studies degree in EC-4/6 teacher certification.

Secondly, at the inception of the BIS program at the Center in Fall 2000, a great number of classrooms in the Rio Grande City and Roma Independent School Districts began every school year with uncertified teachers on Emergency Permits as the teacher of record. The Center was initiated in response to the need for highly qualified teachers expressed by the area superintendents. Since Fall 2008, all classrooms in Starr County were staffed by fully-certified teachers.

In September 2010, a new, state-of-the-art, permanent facility was inaugurated for the UTPA at Starr County Center. The new facility provides greater opportunities for the residents of Starr County to access post-secondary education and to pursue undergraduate and graduate degrees in a variety of fields.

Specific data for course offering and student enrollment for academic years 2011-2013 is as follows:

- Offered 55 courses during AY 2011-2012 and AY 2012-2013
- Enrolled 162 students in AY 2011-2012 and AY 2012-2013 (unduplicated).
- Generated 2,238 semester credit hours in AY 2011-2012 and AY 2012-2013
- Graduated 47 students in AY 2011-2012 and AY 2012-2013.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- In FY14, we will begin offering upper-level courses in Social Sciences for students pursuing a Bachelors in General Studies. We will be working over the next 2 years to promote this degree program and double the number of students graduating from the Starr County Campus.
- We will work towards expansion of course offerings in other majors such as the new Bachelor of Science in Early Care and Early Childhood Studies and in the Bachelor of Interdisciplinary Studies Secondary Education and Special Education to maximize number of certified teachers in the area.
- We will work to increase the number of graduate courses leading to a master's degree offered at the Starr County Center.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

	4)	Funding Source	e Prior to	Receiving S	Special Item	Funding:
--	----	----------------	------------	-------------	--------------	----------

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

- Ceasing or reducing funding for this item will result in the inability to materially improve and maintain the momentum of this initiative.
- Failure to respond to the continued need for certified teachers and other professional employment in the western region of the Rio Grande Valley.
- Failure to respond to the educational and economic needs of the area, characterized by high poverty, high unemployment, low levels of educational attainment, and high illiteracy.
- Unless other sources of funding are identified, this initiative will continue to provide funding that fuels the instruction of the UT Rio Grande Valley at Starr County Center. However this appropriation is not sufficient to operate and run the new 30,000 square foot facility that was inaugurated in Fall 2010. The supplemental award from Institutional Enhancement funding is necessary to cover instructional and day-to-day operating costs, such as telephone and computer lines.
- Failure to establish collaborative partnerships with the public schools and South Texas College in trying to meet the "Closing the Gaps" initiative of the Texas Higher Education Coordinating Board and the State's P-16 initiatives.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 4 McAllen Teaching Site

(1) Year Special Item:

2012

Original Appropriations:

\$400,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

With a focus on promoting excellence in teaching, research, creative activity, and community engagement, UTPA prepares students to be socially conscious citizens and transformative leaders who will have a significant socio-economic impact on the region.

UTPA's McAllen Teaching Site (MTS) serves the needs of the community by providing convenient access to its academic and continuing education programs. Located at 1800 S. Main St, Suite 110, it offers 7 state-of-the art classrooms and a conference room with full interactive video capability.

Courses and programs offered at MTS target graduate students and community members employed in education, business, and public service fields. The Master in Business Administration and the Master in Public Administration are only taught at MTS. South Texas College utilizes classrooms for daytime instruction and the English Language Institute offers classes to professionals in industries like the maquiladora industry as well as prospective college students.

A robust schedule of continuing education programs are offered to meet the needs for professional certification, personal growth, and academic advancement. Courses like the Certified Public Manager and Medical Academic Scholar Certificate help professionals advance in their careers. Courses on social media and internet marketing help small business owners keep up with the latest advertising tools.

(3) (a) Major Accomplishments to Date:

Classroom utilization increases each year as new programs are offered at MTS, underscoring the importance of providing expanded learning options to the community. In FY 2013, UTPA held 70 academic classes at MTS with a total enrollment of 1,201 students. The numbers of courses and students enrolled have increased steadily since the opening of MTS in 2009 with a 3% increase in FY 2013 over FY 2012. The continuing education program offered 18 new programs at MTS in addition to its established courses in order to meet the community's needs and served 529 individuals in FY 2013. STC offered 10 academic courses at MTS in FY 2013.

UTPA also engages the community at MTS as non-profit organizations and others utilize the facility for their meetings and training sessions. For example, in FY 2013 Congressman Henry Cuellar held a video conference on grant writing for local agencies and others interested in seeking federal grant funding. The Rio Grande Valley Teen Pregnancy Coalition, a non-profit organization, holds its quarterly meetings at MTS under the sponsorship of UTPA's Department of Social Work. The Community Advisory Board to College of Health Science and Human Services holds their regular meetings at MTS.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Future plans for MTS include the addition of graduate programs that are in high demand by working professionals in the education, business, and public service field. Programs that may be partly or fully offered at the location include the Master of Education in Educational Administration (MED-EA), Master of Nursing (MSN), and Master of Accountancy (MACC).

Additionally, the continuing education program will continue to expand its offerings in order to meet the community needs for professional and personal growth. New programs such as the Certificate in Event Planning and Global Hospitality Management Program will be offered along with numerous other established programs including Certificate in Web Design, Grant Writing, Information Technology, and test preparation courses such as GMAT, GRE and LSAT.

Strong collaborative partnerships with organizations like STC will be maintained and promoted for the benefit of the community.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

Loss of funding for this item will result in the inability of UTRGV to improve and expand services at the McAllen Teaching Site (MTS). For example, the plans to offer more graduate and continuing education programs there will require additional resources, such as additional support staff and additional instructional technology for the classrooms.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 5 Center for Entrepreneurship and Economic Development

(1) Year Special Item:

1988

Original Appropriations:

\$150,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

Includes funding for:

- 1. Texas Centers for Border Entrepreneurship and Economic Development (TCBEED)/three Texas institutions: UTEP, TAMIU, & UTPA organized during the 70th legislative session to support border communities in economic-development efforts;
- 2. UTPA Small Business Development Center that promotes small business and community economic development through extension services as part of the UTSA administered, 79-county South-West Texas Border Region SBDC cooperating with the U.S. SBA. SBDC promotes growth, expansion, innovation, increased productivity, and improved management for small business through individual counseling and technical assistance, group trainings and workshops, advocacy, and research. SBDC involves students and faculty through structured service learning and applied research activities to benefit small businesses through public service. The request includes a 10% increase to expand SBDC small business services to technology commercialization utilizing university students and technology programs. The SBDC is tax revenue-neutral certified by the Texas Comptroller and accredited by the Association of SBDCs.

TCBEED & SBDC serve as catalysts for business and economic development, job creation, and income growth, providing a broad range of education and technical assistance services for businesses, public officials, economic-development organizations, and communities.

(3) (a) Major Accomplishments to Date:

Since inception, UTPA TCBEED and the UTPA SBDC have provided management and technical assistance to more than 21,079 entrepreneurs, conducted over 1,979 business development training sessions attended by more than 28,683 participants, and provided 550 public officials with economic development training. The net result of these efforts has been the creation of more than 18,820 new jobs and the generation of more than \$299 million in capital formation for businesses in the Rio Grande Valley.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

With continued funding, the University will continue to provide consecutive and uninterrupted assistance to the community in the Rio Grande Valley for the creation of jobs by helping entrepreneurs and public officials with business development trainings, serving as a catalyst to business and economic development entities.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Ň

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(6) Non-general Revenue Sources of Funding:

U.S. Small Business Administration: 2013-2014 \$242,103

UT San Antonio SBDC: 2013-2014 \$168,241 Various Federal Grants: 2013-2014 \$1,514,316

(7) Consequences of Not Funding:

Without these special line items, the entrepreneurs of this region would not receive the much needed technical assistance to start or expand or grow their businesses. This would result in a larger number of business failures and higher unemployment in South Texas. The loss would also negatively impact economic development in the region. The University of Texas Rio Grande Valley depends heavily on line-item funding to provide community outreach in business training and technical assistance. This line-item is highly leveraged with federal dollars. Without these line items, UTRGV would not be able to effectively leverage federal funds for business and economic development.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 6 Center For Manufacturing

(1) Year Special Item:

1994

Original Appropriations:

\$250,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The Center's mission is to increase the global competitiveness of the Texas economy by working with the extended manufacturing enterprise, to accelerate profitable growth by developing and improving processes, products and workforce. The Center's external objectives are to provide assistance to current and prospective manufacturers through the utilization of services available from the Center as well as from academic, industrial, governmental, or private sources to assist them to improve their operations. The Center collaborates with regional Advanced Manufacturing Cluster consists of manufacturing extended enterprises from the private industries and public partners such as regional Community and Technical Colleges, regional manufacturer associations and economic development entities to create and support a Manufacturing Innovation Eco-System. The purpose of the eco-system is to create a sustainable economic growth through entrepreneurship development, technical & engineering services, and advanced skill workforce development. The Center's internal objectives are to strengthen and support the university's educational mission by facilitating faculty research, provide training, working experience, and employment opportunities for UTPA students certified through Lean Sigma Academy. The Center interfaces with middle and high schools to develop a seamless curriculum for grades K-16 in STEM education.

(3) (a) Major Accomplishments to Date:

In FY '12 and FY'13, the Center provided advanced manufacturing training and technical assistance to 162 manufacturing and manufacturing extended companies, completing 50 projects on-site and 27 group projects. The financial impact (i.e., sales increase, costs savings and investment leverage) reported by the Center's customers in an external survey conducted by the Department of Commerce's National Institute for Standards and Technology (NIST) was \$85,415,859. The customers served by the Center also reported adding 396 new jobs in their operations plus retaining 819 jobs in their existing businesses. Through the public and private partnership program, the Center has billed and collected approximately \$581,088 from the services rendered. The special line item is also used as a match to draw down about \$508,303 in federal funding from NIST's Manufacturing Extension Partnership (MEP) Program.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

20% increase in the projected economic impact:

- Financial Impact created by project implementations
- Project revenues collected through services rendered
- Jobs retained and created as a result from project implementation

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

The loss of state funding would lead to the loss of the additional \$1,089,325 that the Center receives from federal grants and revenues from private companies. The Center will be forced to close and manufacturers in the Rio South Texas Region will not have access to affordable technical and research assistance needed to maintain their competitiveness at the national and global levels.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 7 U.T. System K-12 Collaboration Initiative

(1) Year Special Item:

1996

Original Appropriations:

\$178,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The K-12 Collaboration initiative promotes and prepares South Texas high school students for success in higher education,

(3) (a) Major Accomplishments to Date:

The UTPA Concurrent Enrollment program has seen an increase in enrollments from 167 in 1998 to 1,625 in 2009.

UTPA ranked 7th in the state (3rd in UT System) among institutions that received Advanced Placement (AP) scores in 2009 with 4,548 exams reported. In addition, UTPA offered 19 Advanced Placement (AP) Summer Institutes to 398 teachers in summer 2009.

The percentage of first-time students entering UTPA with college credit earned while in high school has increased from 28% in Fall 2001 to 43% in Fall 2009.

Students entering UTPA with prior college credit are driving improved retention and graduation rates. The fall 2010 entering freshmen retention rate of students who participated in the UTPA Concurrent Enrollment program was 80.3% compared to the overall entering freshmen retention rate of 72.6%. In addition, students who participated in the UTPA Concurrent Enrollment program also had a four-year graduation rate of 44.2% compared to our overall four-year graduation rate of 16.2% (fall 2009 cohort) and a six-year graduation rate of 72.8% compared to 38.2% (fall 2007 cohort).

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continue to increase the number of first-time students with Advanced Placement or college credit. Increase the number of concurrent enrollment students who matriculate at UTRGV. Improve retention rates and graduation rates.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

(6) Non-general Revenue Sources of Funding:

None

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(7) Consequences of Not Funding:

Formula dollars are generated via the classes taken by concurrent enrollment students. However, the formula appropriation only minimally subsidizes the cost of instruction. Promotion of the program and delivery of services is dependent on funding through this line item.

The University would be forced to discontinue successful access programs serving South Texas high school students that encourage students to take more rigorous courses to prepare for college. This would decrease the number of students prepared for college and increase time to graduation.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 8 K-16 Collaboration

(1) Year Special Item:

2002

Original Appropriations:

\$250,000

(2) Mission of Special Item:

Funding is being transferred from UTB bill pattern to UTRGV bill pattern.

UTB has identified the need to provide pre-collegiate and early intervention support programs designed to increase the college admission rates of economically disadvantaged, first generation college students. This funding would support efforts for collaborative K-16 relationships with school districts in Cameron and Willacy counties in order to provide educational opportunities for all potential students in the UTB service region.

(3) (a) Major Accomplishments to Date:

Funding from the K-16 initiative has provided salary support for faculty as well as the Coordinator of the South Texas Engineering, Math and Science (STEMS). The STEMS Coordinator is responsible for organizing and coordinating higher education programs that involve professionals, college student, staff, faculty, administrators and science and math programs with pre-college students, teachers and administrators from local school districts in surrounding communities. The STEMS program serves as an education outreach program, liaison with NASA programs and promotion of higher education to schools, families and communities in South Texas. STEMS is the coordinator of UTB annual events such as NASA Space Science Days, UTB Science and Engineering Competition, UTB Outdoor Expo, and UTB 5K and 1K Run Walk. The coordinator also coordinates the Rio Grande Valley Regional Science and Engineering Fair. About 90 college mentors assist in coordinating events, which serve over 1,000 students annually.

Funding also provides salary support for faculty collaborating with the local school districts to Identify:

- -curriculum gaps and align curriculum from high school to college
- -Develop criteria and learning standards that must be met by high school students prior to entering UTB
- -Develop resources for faculty to use in teaching core classes
- -Develop and implement a summer institute to provide training for the implementation and delivery of the newly aligned curriculum.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

During the next two years, UTRGV must continue to grow and develop programs and relationships with the local school boards and community at large. The collaboration which has been developed will continue to be enhanced to directly and successfully increase school success with college graduation as a destination.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

UTRGV would not be able to meet the legislative intent to expand and develop educational programs designed to serve the rapidly growing and economically disadvantaged population of the region. This would further decrease accessibility and educational opportunity for the students in the region that has the third lowest per capita income in the nation and is the fastest growing in Texas. The quickest and most efficient way to impact educational success is through a K-16 collaborative effort led by the University in partnership with local districts and all other stakeholders.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 9 Trade and Technology/Telecommunications

(1) Year Special Item:

1996

Original Appropriations:

\$133,500

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The mission of this Special Item is to provide international trade and technology related assistance services to Lower Rio Grande businesses and residents in order to foster economic growth as well as to create jobs and practical learning opportunities for students in the area.

(3) (a) Major Accomplishments to Date:

This Special Item is currently used to leverage public and private funds for technology oriented business and economic development. This funding has been used in collaboration with local communities to increase the number of foreign companies locating in the area. In order to promote technology development in South Texas, the Center has provided over 3,401 computer and Internet training sessions to over 16,444 participants. Additionally, the special item provides technical support for over 15 business- and economic-development projects per year and has helped support annual, federally-sponsored funding of over \$4 million. Through technology support, this funding allows the leveraging of federally-sponsored funding for economic development in the South Texas region.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

This funding will allow continued community engagement in the Rio Grande Valley for the creation of jobs by providing entrepreneurs and public officials with business development trainings, and by serving as a catalyst to business and economic development entities.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Ň

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

If the special item is not funded, the visibility of Rio Grande Valley businesses in the global market place will be significantly reduced, and these businesses will not have a resource for assistance in international trade and technology. Great progress has been made. However, there is more that is needed to raise South Texas to the level of the rest of the state and to eliminate the low income levels in the region.

Without this special line item, the entrepreneurs of this region would not receive the much needed technical assistance to start or expand their businesses. This loss would result in a larger number of business failures and higher unemployment in South Texas. The loss would also negatively impact trade and technology in the region. The University of Texas Rio Grande Valley depends heavily on this funding to provide community outreach in business training and technical assistance. Without this Special Item, UTRGV would not be able to effectively leverage for federal funds for trade and technology.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 10 Diabetes Registry

(1) Year Special Item:

1996

Original Appropriations: \$139

\$139,805

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The mission of the Diabetes Registry is to reduce the diabetes hardship through prevention and control of the disease and its complications along the Texas-Mexico border through education and health promotion.

(3) (a) Major Accomplishments to Date:

- Developed a report on diabetes prevalence, demographic information, and its complications in the four-county Rio Grande Valley Area;
- Increased awareness of the diabetes problem by conducting media campaigns and seminars throughout the region;
- Maintained a system of surveillance and education through a registrant database;
- Provided literature, published newsletters, and produced educational materials;
- Collaborated with school districts and have developed wellness camps to promote the importance of good nutrition and physical fitness in the prevention of diabetes and obesity;
- Collaborated with South, West, and Panhandle Plains Geriatric Education Centers Vision Station grant project to provide eye care services and diabetes education to low income families;
- Developed and coordinated the School Education and Enrollment Project (SEEP), which provides diabetes education to 4th grade students;
- In 2012-2013, 15,740 4th grade students were educated on diabetes signs, symptoms, risk factors, and prevention through SEEP;
- In 2013-2014, 14,500 4th grade students were educated on diabetes signs, symptoms, risk factors, and prevention through SEEP;
- Through community engagement, the Diabetes Registry participated in 136 events during 2012-2013 which provided diabetes education to 5,215 adults and children:
- Through community engagement, the Diabetes Registry participated in 82 events during 2013-2014 providing diabetes education to 6,471 adults and children.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

- Continue to increase awareness of the diabetes problem by conducting media campaigns and seminars throughout the region;
- Continue to maintain and increase the Diabetes Registry database;
- Continue to provide literature, publish newsletters, and produce educational materials;
- Continue to provide internship-like practices for UTPA nursing, dietetic and physician assistant students;
- Establish new partnerships and collaborative efforts with agencies such as the newly formed Rio Grande Valley Diabetes Association and the Children of the Valley Foundation, as well as area doctors and schools in the RGV;
- Collaborate with faculty/researchers to conduct research using data from the Diabetes Registry;
- Continue with School Education and Enrollment Project (SEEP), which provides diabetes education to 4th graders in the RGV;
- Write and produce videos with health messages (fitness, healthy eating) and distribute to schools to air on school networks throughout the Rio Grande Valley;
- Work with the South Texas Diabetes Institute and UT Rio Grande Valley to generate research and programs to reduce the burden of diabetes in the state of Texas;
- Continue to sponsor events (conferences/symposiums) that will bring awareness to issues regarding diabetes;
- Develop an animated video using dinosaurs to teach children about diabetes and proper nutrition and exercise.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Ν

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

Through health education and health promotion activities, the Diabetes Registry has played a crucial role in helping adults and children in the Rio Grande Valley understand the risks factors for developing diabetes and understand the importance of engaging in healthy lifestyles. With many of its activities focusing on children, the Diabetes Registry has also played a role in supporting coordinated school health education programs and public health policy for the prevention of diabetes and has helped schools initiate system changes to improve the school health environment. Not funding the Diabetes Registry would result in the cessation of all of its activities, which means that the dissemination of diabetes and wellness information would not occur among those at highest risk to develop the disease. As a consequence of not funding, the Diabetes Registry, the diabetes epidemic in the Rio Grande Valley would receive less attention, and the focus on prevention and delay of new cases of diabetes would diminish. The surveillance, service and research opportunities that the Diabetes Registry provides to the Rio Grande Valley and South Texas will be lost as well as the ongoing collaboration with other higher learning institutions and community organizations.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 11 Texas Mexico Border Health

(1) Year Special Item: 2002 Original Appropriations:

\$350,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The Texas Risk Factor Assessment for Type 2 Diabetes in Children program identifies school children who are at risk of developing Type 2 Diabetes and its numerous associated health conditions.

(3) (a) Major Accomplishments to Date:

- Recognized as pioneers and leaders in diabetes risk factor assessments for the state of Texas
- Assessed over 1.1 and 1.08 million children in public and private schools for diabetes risk factors for the 12-13 and 13-14 respectively
- 8,833 children in 2013 and 8,466 children in 2014 followed up their diabetes risk assessment with a health professional, with a potential cost-sayings of \$38 million (2013) and \$37 million (2014) in diabetes-related health care cost expenditures
- Increased awareness about Acanthosis Nigricans, body mass index, elevated blood pressure and its associated health consequences
- Developed a tool kit to assist school nurses with assessments
- Provided risk assessment and outcome data to the Texas Diabetes Council Strategic Plan
- Provided schools with annual summary compilations of risk assessments results via web-based fact sheet with data that can be accessed for current and previous years
- Created an online training certification module for school nurses. 1300 were certified during 13-14 school year.
- Created the Risk Factor Electronic System (RFES), a web-based electronic reporting system for data
- Provided support and technical assistance to over 6,000 school nurses annually
- Created and distribute education for the TRAT2DC program
- Provided faculty/researchers with risk assessment data to yield peer-reviewed articles
- Risk assessment data has allowed schools to apply for grants to improve their school health environment

(3) (b) Major Accomplishments Expected During the Next 2 Years:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

- Continue to increase awareness about Acanthosis Nigricans, body mass index, elevated blood pressure and health consequences
- Provide risk assessment and outcome data to the Texas Diabetes Council Strategic Plan
- · Provide schools with annual summary compilations of risk assessments results via web-based fact sheet
- Continue to train and certify school nurses on conducting risk factor assessments through video conferencing and in-person trainings;
- Continue to train and certify school nurses through the TRAT2DC Online Certification
- Continue to provide faculty/researchers with risk assessment data to yield peer-reviewed articles
- Create educational materials (online tutorials, training packets, printed brochures and posters) that will assist school nurses with risk assessments
- Update tool kit to assist school nurses with assessments to include anatomical models of Acanthosis Nigricans;
- Maintain and improve the Risk Factor Electronic System (RFES)
- Disseminate literature to physicians, school administrators, school nurses, teachers, parents, and other health-related organizations on Acanthosis Nigricans and other risk factors
- Meet annually with The Texas Risk Factor Assessment for Type 2 Diabetes in Children Advisory Committee
- Maintain and improve the online training certification for school nurses
- Work with the South Texas Diabetes Institute and UTRGV to generate research and programs to reduce the burden of diabetes in the state of Texas.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

This program has been vital in early identification of children who may be at risk to develop this devastating disease, while at the same time allowing parents the opportunity to seek health intervention for their children. Although leadership and momentum for type 2 diabetes in children has been gained through this program, childhood obesity and its related conditions continues to be a major public health concern for our children and youth. Lack of funding would result in termination of the state's only large-scale public health model that identifies at-risk children for type 2 diabetes and other metabolic conditions. The Texas Risk Factor Assessment for Type 2 Diabetes in Children program provides public schools with technical expertise and termination of the program would end this valuable resource. The leadership and momentum the risk factor assessments have generated for a state that suffers from extremely high rates of diabetes and obesity would be lost. Early intervention is crucial to eliminate not only the costs associated with type 2 diabetes but also the human suffering associated with it. The potential cost-savings on diabetes health care expenditures from the children who are identified at-risk to develop diabetes through this program would be lost.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 12 Regional Advanced Tooling Center

(1) Year Special Item: 2014 Original Appropriations: \$500,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The mission of this initiative is to allow the UTPA Rapid Response Advanced Manufacturing Center and the UTPA College of Engineering and Computer Science to establish a strategic presence in the proposed area for the proposed McAllen Advanced Manufacturing Research and Education Park of the NAAMREI strategic plan. The vision for the center calls for the assurance of sustainable world class advanced tooling engineering knowledge and fabrication ability for the region to enhance a prosperous and innovative manufacturing sector in the Rio South Texas Region. The center will allow for UTPA to serve a greater number of students who are seeking access to engineering education in South Texas. In addition, the enhancements provided to the RRAMC and College of Engineering and Computer Science will increase the innovation capability of the region in support of the expanding manufacturing industry. The implementation of this project will provide tremendous opportunities for innovation and technology based economic development in South Texas providing a catalyst for sustainable economic prosperity. The enhanced real world advanced manufacturing engineering environment that would be made possible through this funding will help the students to become better prepared to lead the region in addressing the technological challenges of the future.

(3) (a) Major Accomplishments to Date:

The major accomplishments in this project to date have been as follows:

- 1) The hiring of four UTPA RGV STAR faculty members who will lead the activities of the RRAMC and the Regional Advanced Tooling Engineering Center including Dr. Anil Srivastava who will lead the effort. The funding, provided by UT System's Faculty STARs Program, included with these hires will provide for not only human capital but for the purchase of the base equipment for the implementation of the Regional Advanced Tooling Engineering Center.
- 2) The identification of an existing building for the establishment of the physical facilities for the center. An agreement is currently being negotiated after which the Center will be immediately established.
- 3) Curriculum and academic pathways for the implementation of the center has been delineated in a joint effort between South Texas College and other NAAMREI partners.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The major accomplishments expected during the next two years are as follows:

- 1) The establishment of a fully functional and sustainable Regional Advanced Tooling Engineering Center that will be a one stop shop for the tooling needs of the region providing state of the art advanced tooling engineering, technology, R&D, Fabrication, Maintenance, and Education and Training including credentialing programs and advanced degrees.
- 2) Establish an environment in which students and professionals can interact to generate wealth in the region by facilitating the rapid deployment of new advanced manufacturing processes and/or products. This will lead to enhanced competitive capabilities and to sustainable economic prosperity for the region through the creation of new enterprises that are geographically rooted in the community.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

UT System - Rio Grande Valley STARs Program (3 year commitment) for STARs faculty salaries: FY 2014 - \$1,639,500

(7) Consequences of Not Funding:

Not funding the proposed activity will limit the regional ability to compete in the advanced manufacturing sector and enhance a dependence on other regions mostly overseas (China and India) for the advanced tooling needs of the region. It will reduce the potential for the region to succeed in its quest to become a leading international advanced manufacturing and innovation hub that will provide opportunities for the young people of the region to have economically viable careers in the region without having to venture elsewhere.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 13 Texas Center for Border Economic Development

(1) Year Special Item:

2002

Original Appropriations: \$25

\$250,000

(2) Mission of Special Item:

Funding is being transferred from UTB bill pattern to UTRGV bill pattern.

A Texas Center for Border Economic Development at UTB will support the economic development of one of the country's most dynamic regions. The center will provide technical assistance and support in the areas of Economic Development, Entrepreneurism, Innovation, Commercialization, Business Incubation, and Continuing Education Professional Development. The Texas Center will compliment and cooperate with similar centers on the border.

(3) (a) Major Accomplishments to Date:

Staff worked under the umbrella of CBED to: I) Provided small business technical assistance, in the areas of marketing, finance and planning; 2) Provided business incubator services to local entrepreneurs; creating the environment and support mechanisms necessary for them to survive and grow; 3) Worked with faculty, staff, students, and private interest, assisting in the development of intellectual property and commercialization; 4) Worked with area economic development agencies to provide support in the recruitment of new industries, and the sustainability of existing businesses; 5) Participated in regional efforts related to economic development in small cities; 6) Provided workshops and seminars related to trade, importing and exporting; 7) Promoted activities and networked business opportunities in area of Green Building; 8) Worked cooperatively with the Brownsville local manufacturing companies, Texas Workforce Commission and Local Workforce Solutions office to assist in training for new and incumbent employees; 9) Facilitated Continuing Education Trainings.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1) Continue to provide small business technical assistance in the areas of Marketing Research, Finance, and Planning; 2) Provide business incubator services to local entrepreneurs that helps create a support environment for their business development; 3) Work with the UTRGV School of Business in the areas of entrepreneurship and

Innovation; 4) Provide Kauffman FastTrac® entrepreneurship training as an enhancement to current business support services; 5) Continue working with faculty, staff and private interest, assisting in the development of intellectual property and commercialization; 6) Continue working with economic development agencies to support new industry recruitment, and existing industry retention 7) participate in regional efforts related to small cities economic development; 8) Provide technical support related to international trade; 9) look for opportunities in the "Green" industries such as energy efficient housing, and renewable energy; 8) Continue Continuing Education and Professional Development course offerings related to regional demand.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Ň

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

UTRGV has a legislative mandate to expand and develop educational programs designed to serve the rapidly growing and economically disadvantaged population of the region. The Texas Center at UTRGV will further enhance UTRGV's ability to support the economic development of the region. Reductions in funding would limit UTRGV's ability to address the major economic, social and political issues of the cross-border region and how this region impacts the economic and social future of Texas as a whole.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 14

Institutional Enhancement

(1) Year Special Item:

2000

Original Appropriations:

\$10,031,798

(2) Mission of Special Item:

Funding is being transferred from UTB & UTPA bill pattern to UTRGV bill pattern.

The mission is to develop new programs, both at undergraduate and graduate level, to enhance the quality of existing programs, and to allow the organization to evolve into an institution that fully meets the higher education needs of South Texas.

Funding is used to address critical challenges and opportunities:

- Promote and encourage preparedness for the pursuit of higher education by supporting the Concurrent Enrollment program.
- Support proven scholarship initiatives for entering freshmen and transfer students, such as the four-year, renewable, merit-based University Scholars programs and others.
- Support critical academic advising and tutoring given that many area students are first generation.
- Assist in ensuring that students are successfully progressing toward graduation.
- Support emerging programs such as Master degrees in Chemistry, Engineering Management, Creative Writing, Physician Assistant Studies, and Health Sciences, as well as Bachelor degrees in Rehabilitative Services, Computer Engineering, Environmental Science, and Civil Engineering, and a PhD in Rehabilitation Counseling.
- Seed research activities, where border health issues and STEM fields are a special interest and will allow the engagement of an increasing number of students, at all levels, in research projects.
- · Support retention and graduation initiatives.

(3) (a) Major Accomplishments to Date:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

At UTB:

- Developed new degrees -13 graduate and 16 undergraduate: Masters in History, Psychology, Spanish Translation and Interpreting, Music Education, Public Policy and Management, Biology, Computer Science, Mathematics, Physics, Exercise Science, Bilingual Educ., Nursing and doctoral in Curriculum and Instruction with an Emphasis in Bilingual Educ. Bachelor in Spanish Translation and Interpreting, Communication, Law and Judicial Studies, Computational Science, Engineering Tech., Engineering Physics, Exercise Science, Early Childhood Studies, Biomedicine, Nursing, applied Tech. in CIS, Workforce Leadership
- Collaborated with UTSA for Ph.D. in Biology and Physics.

At UTPA:

- Developed new degrees: Creative writing, Educ leadership, Pharmacy, Physician assistant, Rehab (bachelor's and doctorate), Computer engineering, Civil engineering, Engineering management, Early Care and Early Childhood, and an online M.S. in Health Sciences.
- Established the Center for Bilingual Studies and Counseling Assessment Prep Clinic.
- Supports MCAT/EMSAP preparation to increase admittance rates to medical school.
- Established student mentoring program; retention rate for these students is 92.3%
- Provided start-up funds to new faculty to increase faculty recruitment and retention.
- Funded Scholarships that helped improve retention and graduation rates: for Housing, Merit based, Entering Freshman, Transfer students, and specific disciplines.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Degree programs are being evaluated and several have been submitted for approval within the last years. The programs are planned to be aligned with Chancellor Cigarroa's "Framework for Advancing Excellence throughout the University of Texas System." The action plan includes nine focus areas, with one being to expand the educational and health opportunities in South Texas.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

Institutional Enhancement is today a mixture of funding categories begun for a start-up university on the lower Texas border in the early 1990's funded by the "Texas Border Initiative." When the Initiative was discontinued the funding was rolled into Institutional Enhancement and continues to be essential to the operation and foundation to the institution.

The University would not be able to meet legislative intent to expand and develop programs to serve the rapidly growing and economically disadvantaged population of the region. This would further decrease accessibility and educational opportunity for the students in a region that has the third lowest per capita income in the nation and is the fastest growing in Texas.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 15 Successful Transition to College

(1) Year Special Item:

2000

Original Appropriations: \$250,000

(2) Mission of Special Item:

Funding is being transferred from UTPA bill pattern to UTRGV bill pattern.

The mission of the Transition to College initiative is to provide incentives for students to take more rigorous high school coursework including Advanced Placement and Concurrent Enrollment courses at UTPA and to provide leadership/mentoring programs for first-year at-risk students with the goal of improving retention and graduation rates.

(3) (a) Major Accomplishments to Date:

The University Scholars program is a renewable 4-year scholarship awarded to students who successfully earned college credit through Advanced Placement and/or Concurrent Enrollment at UTPA or graduated in the top 10% of their high school graduating class. It is designed to encourage high school students to enroll in rigorous academic courses that will prepare them for success at the college level and recognize the potential for high level academic achievement. The entering freshman retention rate for University Scholars is 93.3% compared to the university rate of 76.3% (Fall 2012 cohort).

In Fall 2011, UTPA established a holistic approach to admission by creating an auto review program for students not meeting general admission requirements. The Bronc Mentoring Experience (BME) is a joint program between Student and Academic Affairs where students admitted through the auto review for AY 2013-2014 are paired with student mentors for support and guidance (n=264). The Fall 2013 to Spring 2014 retention rate for protégés was 92.3% and of those retained, 98.4% were in good standing at the conclusion of the fall semester.

In Fall 2013, the First Year Mentoring Program was implemented to support a successful transition for first year students. Of those who responded, 100% of mentees reported that the mentoring experience assisted in their successful transition to the University. The fall 2013 to spring 2014 retention rate for protégés was 98.2% and the average GPA 2.9.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued funding of the University Scholars program and Transition to College initiatives will:

- Attract high quality students that raise the level of academic engagement of students at the university.
- Continue to increase retention and graduation rates.
- The First Year Mentoring program is being scaled up in Fall 2014, to support over 1,000 entering freshmen.
- Placing a peer mentor in twenty sections of University 1301: Learning Frameworks to provide support.
- By working with entering freshmen and providing different levels of support, the University will be able to provide timely intervention and employ high engagement strategies both in and outside of the classroom to increase first year student retention and support timely graduation.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746	The	University	of Texas	Rio Gra	nde Vallev

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

None

(7) Consequences of Not Funding:

Without this special line item funding, UTRGV would have to discontinue the university's premier merit scholarship that has been so successful in improving retention rates and lessening time to graduation. High school students would not have the same incentives to enroll in rigorous academic courses that better prepare them for success in college. UTRGV would not be able to attract the high achieving students that help raise the level of undergraduate education in the Rio Grande Valley, resulting in a negative lasting economic impact on the economy of the Valley and its residents.

The University would have to reduce scholarships and discontinue the successful transition to college initiatives supported by this special line item funding which have improved university retention rates and time to graduation.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 16 Regional Academic Health Center / UTRGV School of Medicine

(1) Year Special Item:

2000

Original Appropriations:

\$2,000,000

(2) Mission of Special Item:

The 75th(SB606) authorized UT System to establish medical education and research programs serving deep South TX. The Board assigned management of these programs at the RAHC to the UTHSCSA with the exception of public health (to UTHSCH). Ambulatory education programs are conducted at numerous community-based healthcare facilities in Cameron, Hidalgo, Starr, and Willacy counties. Basic clinical research targets diabetes and emerging, infectious, and other chronic diseases that disproportionately affect populations along the US/Mexico border.

The 81st(SB98) established a stand-alone health science center and medical school in South TX that was subsequently incorporated into the UT Rio Grande Valley (UTRGV) during the 83rd(HB100/SB24). The intention was to establish the new medical school under UTRGV and transition the funding and facilities of the existing RAHC for the Harlingen/Edinburg campuses from UTHSCSA to UTRGV. UT System, UTHSCSA and UTRGV are in full agreement and request \$31.4M of current GR (E.1.1-RAHC \$30.6M and E.2.1-FamilyPracticeResidency \$0.8M) be moved from the UTHSCSA bill pattern and added to UTRGV beginning with the 2016-17 biennium. Tobacco funds appropriated to UT System and designated for the RAHC (\$1.2M) will be reallocated by UT System to UTRGV so that \$32.6M of GR will be available to UTRGV to support existing operations. Enhanced GR to UTRGV for 16-17 will be necessary as it develops the medical school and to ensure proper LCME accreditation.

(3) (a) Major Accomplishments to Date:

The RAHC opened the initial medical education campus in Harlingen in June 2002, the basic research building in Edinburg in April 2006, and a 2nd building in Harlingen in November 2007. The med ed component in Harlingen has had over 1,000 medical students complete a portion of their clinical education and 10 groups of med students graduate since 2002. Internal Medicine has graduated 11 classes; over 80% have remained in TX to practice with over 45% practicing in South TX. Over 250 community-based practitioners in the Valley are UTHSCSA faculty participating in RAHC programs. Activities targeting clinical faculty are ongoing as new community-based providers seek faculty appointments. The Academic & Clinical Research (ACR) building houses the Clinical Research Unit (CRU), the newly dedicated 15,000 sqft state of the art simulation teaching hospital, and the established Federal VA Health Care Center (VA), the subspecialty referral site for Valley Veterans. At the VA, students/residents have access to patients with unique sets of health challenges that create opportunities for developing med ed programs. The development of residency programs across the RGV is currently underway. New residency programs in Internal Medicine and Family Medicine will start on 7/2015, while existing programs in these areas are in expansion stages. Two residency programs are awaiting accreditation and 3 are in planning stages. A Founding Dean of the new medical school was recruited in April 2014.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Funding will sustain RAHC's educational and research initiatives in this region of the State, and will continue to support the development of research activities in Edinburg and clinical research in Harlingen. The RAHC will continue to provide medical education to MS3 and MS4 students initiating from UTHSCSA through 2019 under the South TX Clinical Education Campus (CEC) track and will cease to admit medical students under this track after 2016. The inaugural UTRGV medical school class (MS1) is expected to begin in July 2016. Current/enhanced funding will: 1) provide infrastructure for faculty, staff, educational programs, facilities, and student support services needed to maintain accreditation requirements and to function as a geographically separated clinical education campus (CEC) of the UTHSCSA; 2) provide for the continued regionalization of the RAHC programs throughout the Valley; 3) allow for continued development of academic and support faculty, staff and programs for the new medical school under the leadership of the new Founding Dean as part of UTRGV; 4) provide for the continued development of clinical research allowing students at the medical education division in Harlingen the opportunity to be engaged in an activities that complements their academic experience; and 5) support the development of the South TX Institute for Diabetes and Obesity. General Revenue appropriations are expected to transition from the UTHSCSA to UTRGV beginning in the 2016-17 biennium.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Non-general Revenue Sources of Funding:

The UT System Board of Regents have allocated \$54 million in Permanent University Funds (PUF) for an academic building currently being constructed on the RAHC campus at Edinburg and have committed an additional \$10 million per year for operations of the new UTRGV medical school for the next 10 years. Hidalgo county and surrounding cities have also pledged funds to support this endeavor.

(7) Consequences of Not Funding:

Funding of \$72.6M (\$32.6M current, \$40M exceptional) is being requested to continue expansion efforts in undergraduate/graduate medical education and research; develop basic sciences and clinical curriculum for a full complement of 200 medical students and over 150 residency positions; provide an interdisciplinary approach to education, research and health services; provide programmatic and infrastructure support for the new medical school as part of UTRGV. Legislative funding at an appropriate level will be crucial to build, as outlined in UT System's road map, a new medical school that sustains current medical and basic sciences education and research, and clinical research programs; shapes the necessary infrastructure of a fully accredited medical school, including new faculty in a variety of disciplines covering all years of medical education, related support functions, maintaining accreditation requirements; and continues the regionalization/expansion of programs. LCME accreditation requires evidence of firm financial support such that secured funding from the State is essential at this time. Programs may be terminated with resulting adverse reactions from local communities, their leadership, local practicing health professionals, and participating and future health professional students. Support from the UTHSC San Antonio campus will be necessary for a temporary period to ensure LCME accreditation is obtained and to appropriately matriculate existing RAHC students.

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Special Item: 17 Family Practice Residency Training Program

(1) Year Special Item:

2000

Original Appropriations:

\$645,908

(2) Mission of Special Item:

Funding is currently in UTHSCSA, requesting that funding be transferred to UTRGV bill pattern.

The purpose of the Family Practice Residency Training Program is to provide training to family practice resident physicians, as well as third and fourth year medical students in order to address the shortage of primary care physicians in San Antonio and throughout South Texas.

(3) (a) Major Accomplishments to Date:

Many of the residents who train in the South Texas/Border Region remain in the region after their residencies, providing primary care services to this medically underserved area of the State. With greater access to primary care physicians, the health care needs of the population of South Texas are better served.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

It is essential that the training of medical students & residents be continued in order to increase the quality and level of primary care patient services in the South Texas/Border Region. It is expected that several of the family practice residents who complete their training in the region will remain in the region and open their own practices there.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Ň

(6) Non-general Revenue Sources of Funding:

The program receives nominal support from the Texas Higher Education Coordinating Board (THECB).

(7) Consequences of Not Funding:

84th Regular Session, Agency Submission, Version 1 Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

Because much of the efforts associated with this residency training program are conducted in close proximity to and in conjunction with the Regional Academic Health Center (RAHC) activities, namely at the McAllen Medical Center, the current base appropriation funding levels have been incorporated into the overall budget needs for the new medical school at the University of Texas Rio Grande Valley (UTRGV). Thus, biennial base appropriations for this special item in the amount of \$805,378 will be consolidated with RAHC funding and transferred from UTHSCSA to UTRGV and reflected in the 2016-2017 bill pattern structure for UTRGV to support the new medical school initiatives.

It is critical that adequate financial support be provided for the family medicine residency training program to ensure that the supply of primary care providers in the South Texas/Border Region continues to improve. Inadequate funding will impair the access of the South Texas/Border Region population to primary care services and impede the development of the new medical school at UTRGV, as initially set forth in SB98 from the 81st Legislature to create a new medical school in South Texas and subsequently amended by HB100/SB24 from the 83rd Legislature.
