746 The University of Texas Rio Grande Valley

Administrator's Statement For Fiscal Years 2018 and 2019

THE UNIVERSITY OF TEXAS RIO GRANDE VALLEY ADMINISTRATOR'S STATEMENT

The University of Texas Rio Grande Valley (UTRGV) submits the following Legislative Appropriations Request (LAR) for fiscal years 2018 and 2019 to the Governor's Office of Budget, Policy and Planning and to the Legislative Budget Board.

While the report has been prepared as requested (i. e., with the inclusion of information from the legacy institutions, UT-Brownsville and UT-Pan American), it is important to note that the three institutions are distinctly unique. Legislation passed in 2013 created UTRGV as a new institution, not simply as a merger of existing institutions. The historical UTB and UTPA patterns and performance measures are included here but have no direct relationship to UTRGV.

The formulation of this legislative appropriation request was guided by the following institutional priorities:

- Student Success
- Educational Opportunity
- Health and medical education
- Research impacting the Rio Grande Valley and beyond
- Community engagement

BACKGROUND AND CONTEXT OF THE APPROPRIATION REQUEST

On September 1, 2016, The University of Texas Rio Grande Valley will begin its second fiscal year in operation. This unique, geographically distributed university spans the four county area known as the Rio Grande Valley, with operations in each of the major metropolitan areas of Brownsville, Edinburg, Harlingen, McAllen, and Rio Grande City.

Projections by the Texas State Data Center indicate that population growth for the RGV, comprised of Cameron, Hidalgo, Starr and Willacy counties, will continue to outpace that of the state. Texas is projected to grow by 15% between 2010 and 2020 to 28.8 million, while the RGV is projected to grow by 21% during the same period. In four years, by 2020, the RGV area is expected to have a population of 1.5 million. The McAllen-Edinburg-Mission metro area very recently became the fifth largest Metropolitan Statistical Area (MSA) in the State.

In addition to its core mission of instruction, UTRGV engages in research and in public service through its centers that focus on economic development, manufacturing, nonprofit and municipal government operations, data analysis, continuing education, and health care education.

Most UTRGV undergraduates are minority first-generation students from economically disadvantaged families, with a majority (78%) receiving financial aid and with most working while attending school.

UTRGV operates on very thin margins. In terms of headcount, UTRGV is the 9th largest of the state's 37 public institutions with an enrollment of 28,584 (Fall 2015). Yet, in Fall 2015 only two institutions had a lower average total academic cost.

746 The University of Texas Rio Grande Valley

With a fiscal year 2017 operating budget of \$508 million, the university has a tremendous economic impact on the region. A study conducted in December 2015 revealed that the institution's spending was responsible for the creation of 15,653 jobs, generating \$704 million in labor income and adding \$777 million in value for a total economic impact of \$1.4 billion to the RGV economy.

This unique university is well positioned to contribute significantly toward the educational enterprise, especially in educating the increasing number of minority students in the State.

- UTRGV is 1st in total Hispanic enrollment among all 4-year public universities in Texas
- UTRGV is expected to be the top producer of Hispanic college graduates in the nation in many disciplines (as will be reflected in the May 2017 issue of Hispanic Outlook)
- UTRGV's medical school was selected to join the American Medical Association (AMA) consortium to transform undergraduate medical education to better align with the health care system of the 21st century
- UTRGV's partnership with SpaceX, with its space launch facility under construction at Boca Chica Beach near Brownsville, will help establish the university as a leader in space exploration and technologies
- UTRGV's South Texas Diabetes and Obesity Institute (STDOI) is a major research center to advance research on diabetes and obesity, develop better treatments, and ultimately improve the health of residents in South Texas and beyond

SCHOOL OF MEDICINE

Fiscal year 2016 saw the opening of the UTRGV medical school, a historic event that fulfilled long-standing dreams of Valley residents. In October 2015 the Liaison Committee on Medical Education (LCME) granted preliminary accreditation to the School of Medicine (SOM), and the school enrolled its inaugural class of 55 medical students (from a pool of 2700 applicants) in July, 2016. The SOM will admit 1st year cohorts of 50-55 students each year for the next three years for a total of 220 medical students by 2019. The SOM already has more than 4,600 applicants for next year's class. The UTRGV SOM has been supported by legislative, U.T. System, community and other investments that include:

- \$10 million from U.T. System for a smart hospital that is located in Harlingen and equipped with medical simulation technology that provides hands-on training to students and health care professionals
- \$54 million in Permanent University Fund (PUF) for the medical academic building in Edinburg
- \$100 million in PUF support over 10 years for medical education in South Texas
- A combined \$4.5 million annually for 10 years from the cities of Edinburg, McAllen, and Pharr and from Hidalgo County

The development of the medical school was preceded by the establishment, expansion and enhancement of residency programs across the Rio Grande Valley. Efforts by UTRGV and its partners are expected to result in the expansion of residency positions from 33 in 2013 to 220 by 2020. There are currently 100 residents providing care alongside faculty in partner hospitals throughout the Rio Grande Valley.

PRIORITIES

The exceptional items requested support the strengthening of the nascent university. These exceptional items are essential to the success and growth of UTRGV and support its unique academic/medical environment.

746 The University of Texas Rio Grande Valley

Exceptional Item: Additional funding for the School of Medicine (\$5.0 million annually)

UTRGV's highest exceptional item priority is additional funding necessary for the full accreditation of the SOM upon the graduation of its inaugural class in 2020. Special item funding from the 84th Legislature set the stage for success and enabled the attainment of preliminary accreditation, development of a longitudinal medical education curriculum, establishment of medical student services, and the hiring of faculty and staff necessary for years one and two of the SOM.

This request will enable continued development of the SOM leading to provisional accreditation (the second phase of accreditation) in FY 2018. The funding will also support years three and four of the School's medical education, which focuses on clinical experiences and requires funding to support clinical sites, partnerships and clinical faculty necessary for the continuation and completion of medical student education.

Exceptional Item: Restoration of 4% Reduction (\$1,838,055 annually)

The requested 4% reduction of \$3,676,111 for the 2018-19 biennium would have a considerable negative impact on UTRGV given its low tuition rates, consequent thin operating margin and fragile finances inherited from the legacy institutions (combined legacy institution operating margin of -7.6% in fiscal 2015). The latter being a result of the use of legacy resources necessary for the launch of the new university.

UTRGV inherited and is maintaining the tradition of low tuition rates. UTRGV is the 9th largest of the state's 37 public institutions with an enrollment of 28,584 (Fall 2015). Yet, at that time only two institutions had a lower average total academic cost. Importantly, the low rates come at a price as the reduced revenue stream makes maintaining and enhancing the educational services to the Rio Grande Valley citizens extremely challenging.

The proposed funding reduction would impact the ability of UTRGV to address growth and enhancements in a variety of areas of the institution, including the nascent medical school and services at the undergraduate and graduate levels. Negative impacts would be felt in new program development and enhancement of existing programs to fully meet the needs of South Texas. To put the reduction amount of \$3.7 million (\$1.8 million annually) in perspective, the amount represents twenty one associate professor positions, with benefits.

Exceptional Item: Biomedical Sciences Research: (\$4.0 million annually)

The requested funding will strengthen UTRGV's biomedical sciences research capability that supports the SOM and assists medical school students in meeting their research requirements. This research addresses health issues in South Texas and serves to attract federal funding. UTRGV faculty members are currently conducting research focusing on diabetes and obesity, infectious diseases, cancer, neuroscience, and tissue engineering and form a critical mass of a research core competency. Supporting these research efforts are facilities with capabilities in cell culture, imaging, and molecular biology. However, there is a lack of strength in critical areas which are necessary to complete the core competency base: pharmacology, biochemistry, toxicology, bioinformatics, and bioengineering. Critical instrumentation is also lacking. This item supports the development of these areas.

Exceptional Item: Coastal Studies Research Center (\$3.0 Million annually)

The requested funding will enable UTRGV to pursue coastal and marine biology research that is important for the development of the fast-growing population and economy in South Texas and that supports the management of natural resources critical to the growth of the Texas-Mexico border in a sustainable manner. Research will

Administrator's Statement

Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

focus on sustainability of the shoreline; on management of food sources related to marine biology; on the environmental and ecological health of the Gulf of Mexico; on the management of water resources, including wetlands; and on regional vulnerability to disasters such as hurricanes. The Coastal Studies Research Center will serve as an academic research hub that also educates the next generation of marine scientists, social scientists, and engineers in the Rio Grande Valley and beyond.

Exceptional Item: Business and Technology Incubator (\$450,000 annually)

The Center for Innovation and Commercialization (CIC) was established in 2013 and seeks to expand its services by instituting a business & technology incubator. The proposed incubator will help transform the region with the emergence of new programs that engage academia, entrepreneurs, investors, and industry. By providing services to individuals and businesses, the incubator will create new higher paying jobs and will help grow the economic base of the Rio Grande Valley. The City of Weslaco and the Weslaco Economic Development Corporation (EDC) have partnered with the university on this project, entering into a Memorandum of Understanding that provides for the City to offer space for the CIC and its incubator at 75 percent below market lease rates; the EDC will provide \$1.3 million for the construction phase of the project. A \$1.7 million U.S. Economic Development Administration (EDA) grant will finish-out the construction phase and provide furnishings and technology. The requested funds will support the initiative with operating revenues until the incubator becomes self-sufficient.

Exceptional Item: B3 institute (\$500,000 annually)

The Bilingual, Bicultural, and Bi-literate (B3) institute supports UTRGV's vision to be a gateway to the Americas. The B3 Institute will be organized around the Center for Translation and Interpretation, the Center for Bilingual Studies, and the Center for Mexican American Studies and will engage the higher education community and PK-12 organizations in the region in nurturing the unique regional asset of bilingualism and biculturalism. The B3 Institute is uniquely situated to facilitate the development of translation and interpretation and other related initiatives.

REQUESTED REDUCTIONS

Of critical importance to UTRGV, and the region's citizens, is the long term success and stability of the new medical school. Therefore, the School of Medicine special line item is being held harmless. Unfortunately, shielding the medical school will result in amplified negative consequences for the activities being reduced.

If a reduction in funding is imposed, visitor center activities, which introduce public school students to the university, would be curtailed. In addition, funding to educate the general public and prospective students about the need for an education and how to obtain it would also be reduced. The funding cuts would also curtail the development of new academic programs and the expansion of existing programs from one campus to another. UTRGV will also cut back the concurrent enrollment program that provides scholarships covering the cost of tuition and fees to qualified high school students who enroll in dual credit courses. Other institutionally funded scholarships would also be reduced. In addition, a strategic hiring freeze will be implemented and reductions in travel and operating expenses will be implemented and targeted activities curtailed.

The requested 4% base reduction of \$3.7 million was addressed by reducing the institutional enhancement special line item that supports a variety of activities. The institutional enhancement line was also reduced by \$4.4 million to address the first increment (5%) of the additional 10% requested reduction of \$8.8 million. The remaining 5% reduction (\$4.4 million) was proportionately spread to the remaining special line items with an additional \$1.4 million cut to the institutional enhancement line. Exempted from the reductions' calculation are general revenue amounts for debt service, formulas, and the institution's share of the comprehensive research fund.

The requested reductions would have a substantial negative impact on the institution's ability to provide services to its mostly economically disadvantaged,

Administrator's Statement

10/17/2016 7:52:58PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

746 The University of Texas Rio Grande Valley

first-generation students. In summary, low UTRGV tuition rates, state support that has not recovered from 2010-2011 biennium levels and the need to support the nascent institution, compel UTRGV to respectfully request that the proposed reductions not be implemented.

FACILITIES

UTRGV has facilities totaling 3.74 million gross square feet (GSF): 2.6 million at the Edinburg campus (70 owned facilities and four leased facilities); 890,347 at the Brownsville campus (11 owned and 18 leased facilities), 175,295 in Harlingen (3 facilities); 17,882 in Rio Grande City (one facility); and 41,228 in McAllen (3 facilities). The Medical Education Building (88,260 GSF) was completed at the Edinburg campus in FY 2016. The Science Research Building is under construction in Edinburg (115,000 GSF), and a new Academic Building is also under construction in Brownsville (102,551 GSF). Major renovations at both the Edinburg and Brownsville campuses include conversion of facilities or portions of buildings to house UT System auditors and the Information and Security department, ROTC, IT Help Desk staff, the Center for Teaching Excellence; and the relocation of the College of Education and P-16 Integration's Counseling & Training Clinic. Other ongoing renovations include the addition of portable buildings at both campuses to accommodate 49 new faculty offices and research labs. Anticipated construction in 2017 includes an Interdisciplinary Engineering & Academic Studies Building for the Edinburg campus, and a Multipurpose Academic Center for the Brownsville campus.

UTRGV leases a large portion of the E&G space used at the Brownsville campus, including 40%, from Texas Southmost College (TSC). Those leases will expire in 2019. Current leased space from TSC and private owners totals 297,728 GSF.

OTHER SIGNIFICANT PRIORITIES

HRI Formula funding for the school of medicine: Allocation of appropriations to the medical schools at UTRGV and UT Austin via the health-related institution (HRI) formulas as is done for all existing medical schools, including the Texas A&M University School of Medicine, is of the highest priority for the institution. Doing otherwise will place these schools at a severe disadvantage that would impact the quality of medical education in the RGV, an area that has now grown to be the State's fifth largest MSA in the state. Importantly, inclusion of the UTRGV medical school in the HRI formulas should not negatively impact existing medical schools; UTRGV strongly supports an increase to the HRI formula funding increase to all health-related institutions. In summary, HRI funding is essential for the UTRGV and UT Austin programs to be on equal footing with existing medical programs.

Formula funding: Although UTRGV is grateful for the higher education investments the State made in 2013, a sustained commitment to formula funding for enrollment growth and inflation is critical to maintain the significant positive educational strides being made in the RGV.

Financial Aid for Student Success: TEXAS Grants and work-study programs are cornerstones of student success. UTRGV strongly supports enhanced funding for these important programs.

Hazlewood: UTRGV also requests relief from the unexpectedly high cost of the legacy exemption of the Hazlewood Act. UTRGV believes strongly in this deserved benefit for veterans. However, the legacy allowance is placing a tremendous financial burden on paying students who must support the costs of the institution. The total impact of the Hazlewood Act to UTRGV is \$5.9 million with the majority, \$3.8 million (64%), attributable to the legacy exemption.

Research: Research investments are an important component of operations, benefit the state, and are especially critical to an institution such as UTRGV with its School of Medicine.

POLICY ON CRIMINAL HISTORY RECORDS

Administrator's Statement

10/17/2016 7:52:58PM

85th Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

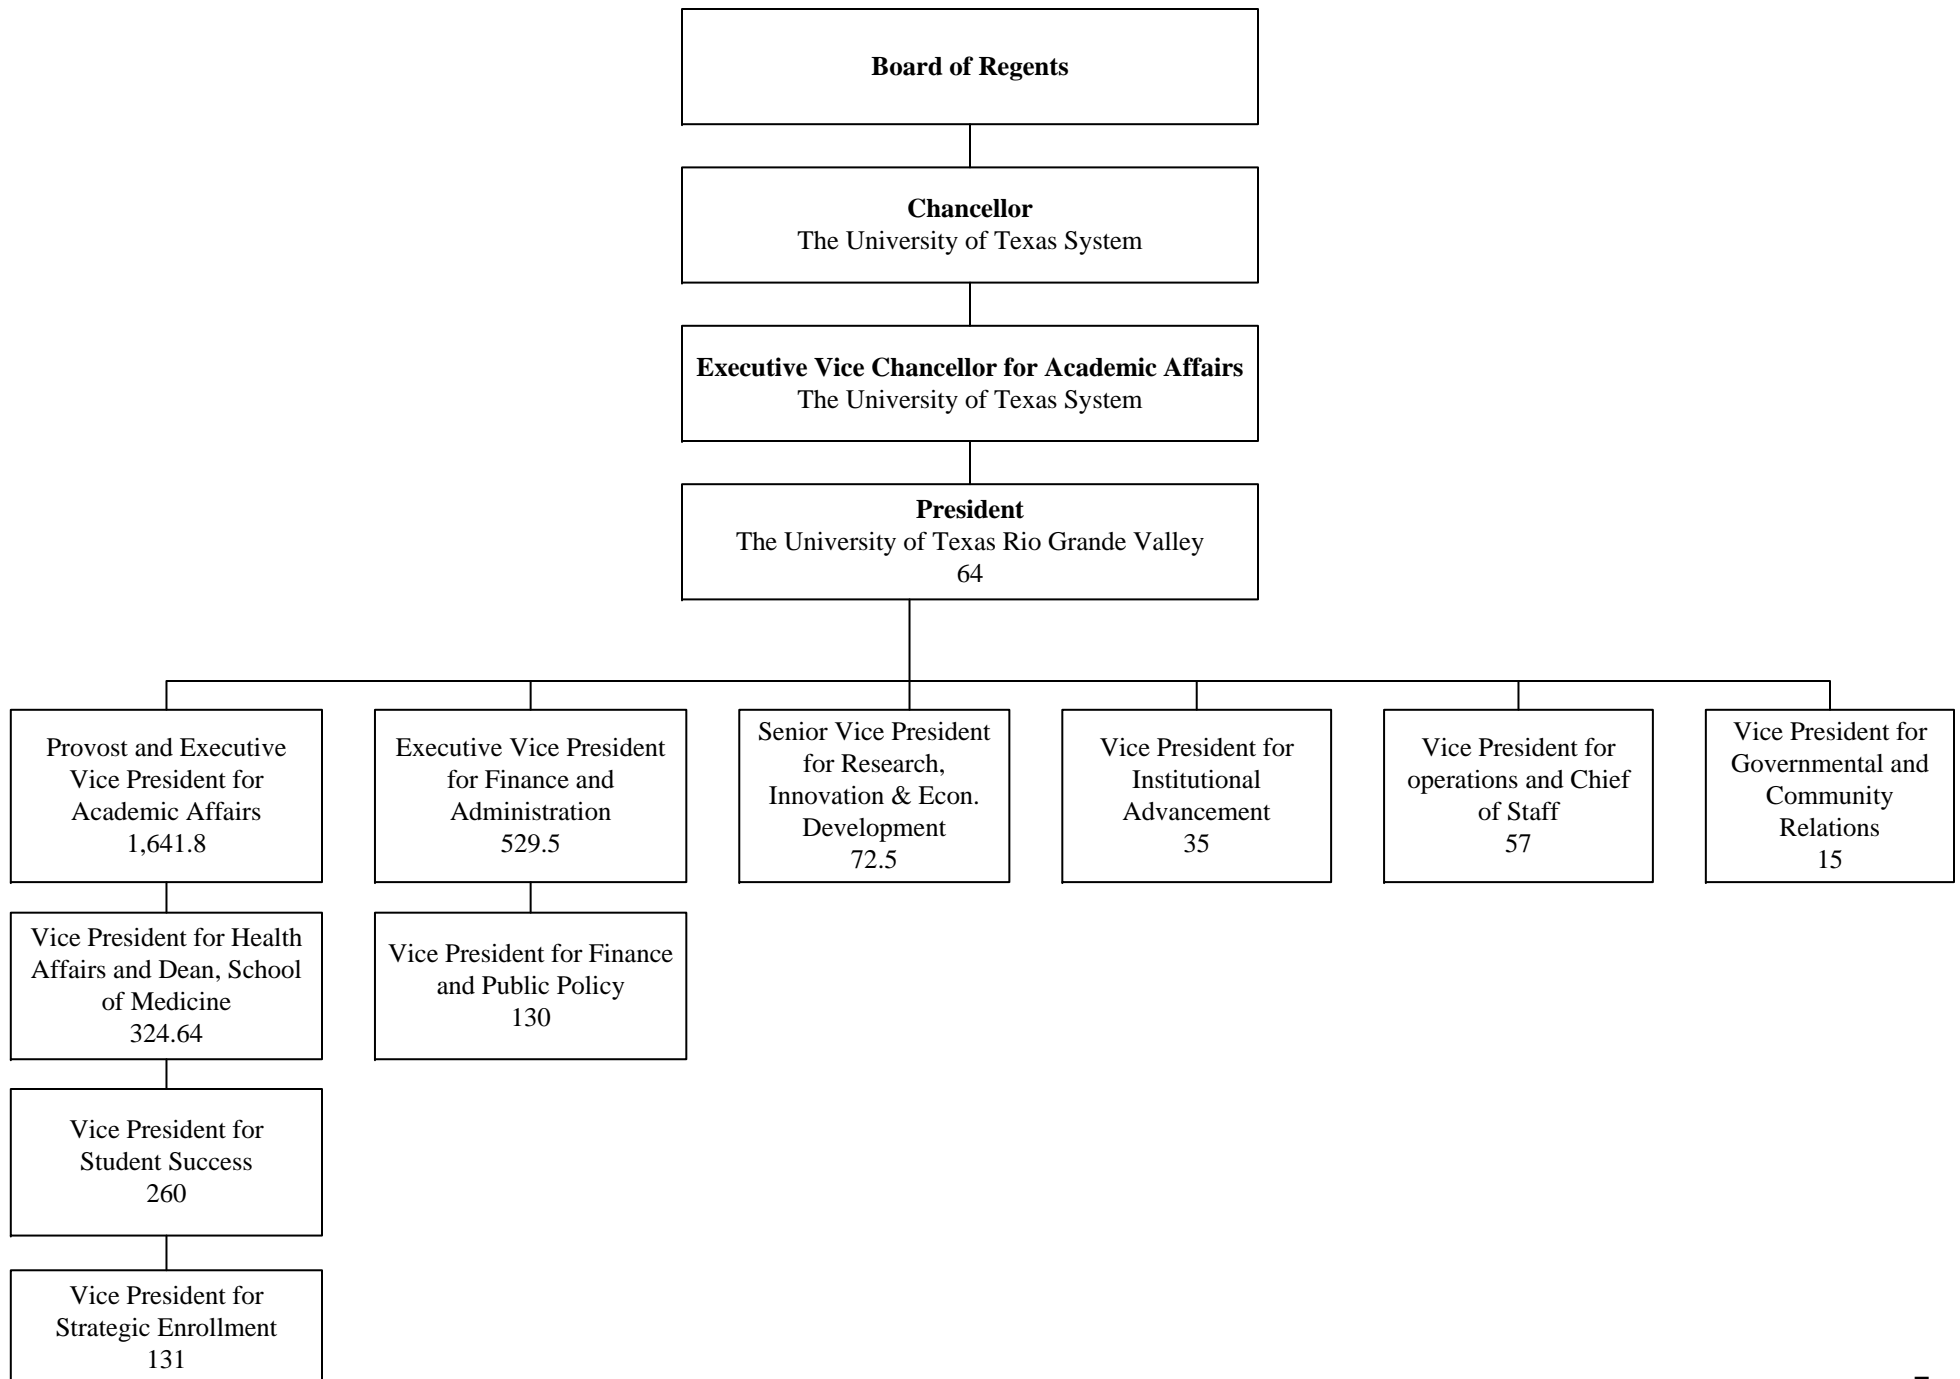

746 The University of Texas Rio Grande Valley

UTRGV conducts employment criminal background checks as required by Government Code Section 411.094 and Education Code Section 51.215. UTRGV's policy is to obtain criminal history information on finalists considered for employment in security sensitive positions.

CONCLUSION

UTRGV is committed to efforts aimed at controlling costs and improving efficiencies while providing exceptional services to its students. The efforts described above are designed to graduate well-prepared students in a timely manner and to serve the needs of the Rio Grande Valley, the State of Texas, and the nation.

THE UNIVERSITY OF TEXAS RIO GRANDE VALLEY

ORGANIZATIONAL CHART (continued)
The University of Texas Rio Grande Valley

The **President** has overall authority and responsibility for the university

The **Provost and Executive Vice President for Academic Affairs** is responsible for the administration of academic affairs, including the approval of, monitoring, and coordinating the education curricula

The **Executive Vice President for Finance and Administration** is the chief fiscal officer and provides for the management of the institution's fiscal affairs

The **Senior Vice President for Research, Innovation, and Economic Development** is responsible for research efforts as well as economic development activities

The **Vice President for Institutional Advancement** serves as the university's chief development officer, managing the university's fundraising efforts

The **Vice President for Operations and Chief of Staff** oversees legal affairs, records, marketing, strategic analysis and institutional reporting, and serves as the president's Chief of Staff

The **Vice President for Governmental and Community Relations** is responsible for community outreach programs and serves as the liaison for communications with governmental and agency officials at all levels

The **Vice President for Health Affairs and Dean of the School of Medicine** is responsible for overall management of the School of Medicine

The **Vice President for Student Success** oversees student educational outreach, student life, counseling, advising, career and writing centers, and the university college

The **Vice President for Strategic Enrollment** oversees recruitment, financial aid, undergraduate admissions, and registrar operations

The **Vice President for Finance and Public Policy** is responsible for business information systems, fiscal services, procurement, and the business service centers

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

The Instruction and Operations Formula provides funding for faculty salaries, departmental operating expense, library, instructional administration, research enhancement, student services and institutional support. The funds are distributed on a weighted semester credit hour basis. The rate per weighted semester credit hour is established by the Legislature each biennium.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Data for FY 2015 represent the historical expenditures of UT Brownsville and UT Pan American.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Infrastructure Support formula distributes funding associated with plant-related formulas and utilities. This formula is driven by the predicted square feet for universities' educational and general activities produced by the Coordinating Board Space Projection Model. The portion of the formula related to utilities is adjusted to reflect differences in unit costs for purchased utilities, including electricity, natural gas, water and wastewater, and thermal energy.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Data for FY 2015 represent the historical expenditures of UT Brownsville and UT Pan American.

(1) - Formula funded strategies are not requested in 2018-19 because amounts are not determined by institutions.

------	-------------	----------	----------	----------	---------	---------

STRATEGY DESCRIPTION AND JUSTIFICATION:

The University of Texas at Brownsville leases needed facilities from Texas Southmost College for the amount that is appropriated by the state legislature during the partnership. Recent negotiations between U.T. Brownsville and Texas Southmost College resulted in the acquisition of three buildings and much-needed land for the UTRGV Brownsville campus. However, even with the acquisition of new buildings, U.T. Brownsville was forced to lease additional space from Texas Southmost College to accommodate its student enrollment. It is expected that UTRGV will continue to have the need to lease facilities for its Brownsville campus until its capital needs are funded and constructed.

EXTERNAL/INTERNAL FACTORS IMPACTING STRATEGY:

Data for FY 2015 represent the historical expenditures of UT Brownsville.

FULL TIME EQUIVALENT POSITIONS:

STRATEGY DESCRIPTION AND JUSTIFICATION:

Prior to the Eighty-first Legislature, general academic institutions with enrollments of less than 5,000 received a \$750,000 annual Small Institution Supplement. However the Eighty-first Legislature increased the enrollment threshold to 10,000 students and implemented a phase-out (based on the number of students) of the supplement between 5,000 and 10,000 students. This supplement recognizes that institution have a minimum cost of operation that may not be covered by funds generated through the formulas.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of the Cooperative Pharmacy Program (CPP) is to help fill the need for pharmacists in Texas, particularly in the Rio Grande Valley. Statistics regarding the need for pharmacists, particularly in rural border areas, indicate a strong need for more pharmacists in the RGV. Additionally, there is a disproportionately low number of Hispanics enrolled in pharmacy programs in Texas. According to the American Association of Colleges of Pharmacy (AACP) July 2015 Vitalstats Report, 12.4% of students enrolled in pharmacy programs across the United States are under-represented minorities.

Most importantly the program is providing the community with pharmacists that understand the culture and the language of the residents of South Texas.

Many of the CPP students would have limited opportunities to pursue a pharmacy career without the support of the CPP. Our students include migrants, single mothers, and many other hardship cases. This program has provided an opportunity to break many social and economic barriers. It provides opportunity and hope for the community and students it serves.

The CPP has produced 101 Doctor of Pharmacy graduates, and 80 of those graduates continue to practice in the Rio Grande Valley.

STRATEGY DESCRIPTION AND JUSTIFICATION:

UTRGV serves the social, economic, research and the educational needs of South Texas. With a focus on promoting excellence in teaching, research, creative activity, and community engagement, UTRGV prepares students to be socially conscious citizens and transformative leaders who will have a significant socio-economic impact on the region.

UTRGV's McAllen Teaching Site (MTS) serves the needs of the community by providing convenient access to its academic and continuing education programs. Located at 1800 S. Main St, Suite 110, MTS offers 7 state-of-the art classrooms and a conference room with full interactive video capability.

Courses and programs offered at MTS target graduate students and community members employed in education, business, and public service fields. The Master in Business Administration, the Master in Public Administration, and Master of Education in Educational Leadership at MTS UTRGV's Language Institute offers classes to professionals in industries like the maquiladora industry as well as prospective college students.

A robust schedule of continuing education programs are offered to meet the needs for professional certification, personal growth, and academic advancement. Courses like the Certified Public Manager, Paralegal Certificate Program; Certificate in Digital Marketing, and Pharmacy Technician Programs help adults in diversified professional fields to advance in their careers. Courses on social media and branding help small business owners keep up with the latest advertising tools.

The requested funding will support the Academy in its goal to increase higher-education opportunities in the STEM fields to eligible students and continue to expand the Academy's enrollment from its current limited model program of 105 students into a program that will enroll up to 400 students. The primary beneficial factor is that the proposed program will provide for the development of a full high school with the addition of grades 9th and 10th and most certainly will provide additional enrollment opportunities to high achieving students from the South Texas region.

The formation of UTRGV enabled a broader and stronger border economic development program than previously served the region. The Texas Border Consortium and Small Business Development Center are addressed in detail below. Regional economic development is also served by two other existing special line funded center the Texas Center for Border Economic and Enterprise Development, and Trade and Technology that operate in the UTRGV Research, Innovation and Economic Dev. Division.

UTRGV Small Business Development Center promotes small business and community economic development through extension services. SBDC is a service center of the UTSA-administered, 79-county South-West Texas Border (SWTB) SBDC Network which receives Federal, U.S. SBA funds. SBDC promotes growth, expansion, innovation, increased productivity, and improved management for small business through individual advising and technical assistance, workshops, outreach, and related research. SBDC engages students through structured service-learning, public service to benefit small businesses. The SBDC is tax revenue-neutral and accredited by the Association of SBDCs.

The Border Consortium supports a network of economic and enterprise development programs and initiatives in both urban and rural settings in South Texas. The Consortium also is used to leverage and secure substantial amounts of sponsored funding for economic and enterprise development across the region.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Center's mission is to increase the global competitiveness of the Texas economy by working with the extended manufacturing enterprise, to accelerate profitable growth by developing and improving processes, products and workforce. The Center's external objectives are to provide assistance to current and prospective manufacturers through the utilization of services available from the Center as well as from academic, industrial, governmental, or private sources to assist them to improve their operations. The Center collaborates with regional Advanced Manufacturing Cluster consists of manufacturing extended enterprises from the private industries and public partners such as regional Community and Technical Colleges, regional manufacturer associations and economic development entities to create and support a Manufacturing Innovation Eco-System. The purpose of the eco-system is to create a sustainable economic growth through entrepreneurship development, technical & engineering services, and advanced skill workforce development. The Center's internal objectives are to strengthen and support the university's educational mission by facilitating faculty research, provide training, working experience, and employment opportunities for UTRGV students certified through Lean Sigma Academy. The Center interfaces with middle and high schools to develop a seamless STEP curriculum for grades K-16 in STEM education.

------	-------------	----------	----------	----------	---------	---------

The mission of the Diabetes Registry is to reduce the diabetes hardship through prevention and control of the disease and its complications throughout the Rio Grande Valley through education and health promotion.

The Diabetes Registry was established in 1996 to help decrease the burden diabetes has on individuals in the RGV and all along the Texas-Mexico border through health education and promotion for the prevention and control of this disease and its complications.

The Diabetes Registry works collaboratively with agencies such as the Rio Grande Valley Diabetes Association, the Texas Diabetes Council, the Texas School Health Association, the Texas Department of State Health Services, the Texas School Nurse Association, Migrant Health Promotion, and various school districts in the Rio Grande Valley to create awareness and encourage education on diabetes among the predominantly Hispanic population of South Texas and the state, reaching thousands of individuals each year.

Through the Diabetes Registry, the Border Health Office coordinates the School Education and Enrollment Project (SEEP), which provides diabetes education to approximately 12,000 4th grade students in the RGV. This has been found to be an optimum point to reach students about the importance of diabetes awareness. SEEP is the largest, most visible program under the Diabetes Registry. It allows for mass education and enrollment of persons with diabetes. The materials provided through this program have served as the standard lesson plan for diabetes education in the many RGV school districts.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The Texas Risk Factor Assessment for Type 2 Diabetes in Children program helps families across the state of Texas by identifying school children who are at risk of developing type 2 diabetes and its numerous associated health conditions. Through these assessments, parents are alerted if risk factors are present in children and are encouraged to seek further evaluation from a health professional. Utilizing these risk assessments as a starting point for health promotion and disease prevention in a population who is at risk to develop type 2 diabetes has merit and complements concerted efforts to prevent or reduce future health problems. Through these risk assessments, families have become more aware of the signs and risk factors of type 2 diabetes. Equipped with the knowledge and awareness of what risk factors mean, parents and schools alike, can take action to prevent this devastating disease. This program continues to support the Texas Diabetes Council's state plan for diabetes prevention and control. Risk assessment information is available to school administrators via website by state, Regional Education Service (ESC), school district, and individual schools. The risk assessment results have helped schools initiate systems changes, assist with other school health initiatives, and improve the overall school health environment.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of this initiative is to allow the Regional Advance Tooling Center and the College of Engineering and Computer Science to establish a strategic presence in the McAllen, Texas area. The vision for the center calls for the assurance of sustainable world class advanced tooling engineering knowledge and fabrication ability for the region to enhance a prosperous and innovative manufacturing sector in the Rio South Texas Region. The center will allow for UTRGV to serve a greater number of students who are seeking access to engineering education in South Texas. In addition, the enhancements provided to the Regional Advance Tooling Center and the College of Engineering and Computer Science will increase the innovation capability of the region in support of the expanding manufacturing industry. The implementation of this project will provide tremendous opportunities for innovation and technology based economic development in South Texas providing a catalyst for sustainable economic prosperity. The enhanced real world advanced manufacturing engineering environment that would be made possible through this funding will help the students to become better prepared to lead the region in addressing the technological challenges of the future.

CODE	DESCRIPTION	Exp 2015	Est 2016	Bud 2017	BL 2018	BL 2019
------	-------------	----------	----------	----------	---------	---------

The Center was originally created by the 77th legislature in 2001 to assist border economic development and was managed through the University of Texas Brownsville until August 2015. The formation of UTRGV enabled a broader regional border economic development program to be created that combines resources from three other existing border development programs now within UTRGV's Research, Innovation and Economic Development Division. These programs provide a range of economic development support for Texas Border communities that include business counseling, educational programs and business seminars. The Center helps sustain and grow regional employment by directly assisting entrepreneurs to develop their business ideas to create new businesses or expand their existing business. The work involves collaboration with communities throughout the region in economic development activities in business counseling and economic research analyses. Center funding is also used to help attract and support other federal programs that may become available to further support regional economic development activities. The Center also provides support for student employment and interns that enhances their experiential learning experiences while serving area communities.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The mission of this special item is to develop new programs, both at undergraduate and graduate level, to enhance the quality of existing programs, and to allow the organization to evolve into an institution that fully meets the higher education needs of South Texas.

Funding is used to address critical challenges and opportunities:

- Promote and encourage preparedness for the pursuit of higher education by supporting the Concurrent Enrollment program.
- Support proven scholarship initiatives for entering freshmen and transfer students, such as the four-year, renewable, merit-based University Scholars programs and others.
- Support critical academic advising and tutoring given that many area students are first generation.
- Assist in ensuring that students are successfully progressing toward graduation.
- Support emerging programs such as Master degrees in Chemistry, Engineering Management, Creative Writing, Physician Assistant Studies, and Health Sciences, as well as Bachelor degrees in Rehabilitative Services, Computer Engineering, Environmental Science, and Civil Engineering, and a PhD in Rehabilitation Counseling.
- Seed research activities, where border health issues and STEM fields are a special interest and will allow the engagement of an increasing number of students, at all levels, in research projects.
- Support retention and graduation initiatives.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The funding will continue the development and sustainability of the School of Medicine's undergraduate/graduate medical education and research initiatives. The funding will be used for the infrastructure for faculty, staff, educational programs, student support services, and facilities needed for accreditation requirements. The funding will be used to support the development and expansion of the South TX Institute for Diabetes and Obesity. Clinical research will also be developed and expanded with the funds allowing the medical students to engage in research complementing their academic experience. Community outreach and public service through the development of inter-professional education will be provided using the funding. Funding will also be used to develop and support a Middle to Medical school pipeline program to increase the number and diversity of health professionals in Texas. The School of Medicine will continue to provide medical education to MS3 and MS4 students from UTHSCSA through 2019 under the South TX Clinical Education Campus (CEC) track.

The Texas Comprehensive Research Fund provides funding to promote increased research capacity at eligible general academic teaching institutions including those other than The University of Texas at Austin, Texas A&M University or any institution designated as an emerging research university under the Higher Education Coordinating Board's (THECB) accountability system.

Funding is to be expended for the support and maintenance of educational and general activities, including research and student services that promote increased research capacity.

A legislatively determined amount of funding is allocated based on the average amount of restricted research funds expended by each institution per year for the three preceding state fiscal years as reported to THECB.

STRATEGY DESCRIPTION AND JUSTIFICATION:

The funding will continue the development and sustainability of the School of Medicine's undergraduate/graduate medical education and research initiatives. The funding will be used for the infrastructure for faculty, staff, educational programs, student support services, and facilities needed for accreditation requirements. The funding will be used to support the development and expansion of the South TX Institute for Diabetes and Obesity. Clinical research will also be developed and expanded with the funds allowing the medical students to engage in research complementing their academic experience. Community outreach and public service through the development of inter-professional education will be provided using the funding. Funding will also be used to develop and support a Middle to Medical school pipeline program to increase the number and diversity of health professionals in Texas. The School of Medicine will continue to provide medical education to MS3 and MS4 students from UTHSCSA through 2019 under the South TX Clinical Education Campus (CEC) track.

3.B. Rider Revisions and Additions Request

Agency Code: 746	Agency Name: UT Rio Grande Valley	Prepared By: Richard Anderson	Date: 10/16/2016	Request Level: Base
Current Rider Number	Page Number in 2016-17 GAA	Proposed Rider Language		
6	111-77	<p>Appropriations in Support of the School of Medicine and the Regional Academic Health Center (RAHC). Included in appropriations above to The University of Texas Rio Grande Valley in Strategy C.4.1, School of Medicine, is \$305,698,950 in fiscal year 20168 and \$305,698,950 in fiscal year 20179 to support the establishment, operation, or administration of a medical school and the Regional Academic Health Center. Notwithstanding Article III, Special Provisions Relating Only to State Agencies of Higher Education, Sec. 4 Transfer Provisions of this Act, The University of Texas Rio Grande Valley may transfer appropriations to The university of Texas Health Science Center at San Antonio from Strategy C.4.1, School of Medicine in an amount not to exceed \$15,698,950 in fiscal year 20168 and \$15,698,950 in fiscal year 20179, to be used for services related to the Regional Academic Health Center or the medical school.</p> <p>For purposes of the requirements of Article IX, Sec. 6.08 Benefits Proportional by Fund of this Act, appropriations made to The University of Texas Rio Grande Valley and transferred to The University of Texas Health Science Center at San Antonio to be used for services related to the Regional Academic Health Center or the medical school shall be counted as if the transferred funds were directly appropriated to The University of Texas Health Science Center at San Antonio.</p> <p><i>UTRGV requests continuation of this rider in anticipation of the ongoing working relationship between the two institutions; the amount of the appropriation is also updated to reflect the request for an additional \$5 million in funding.</i></p>		
7	111-77	<p>Unexpended Balances Between Fiscal Years: School of Medicine. Any unexpended balances as of August 31, 20168, from the appropriations identified in Strategy C.4.1, School of Medicine, are hereby appropriated to The University of Texas Rio Grande Valley for the same purpose for the fiscal year beginning September 1, 20168. Funds expended from appropriations identified in this strategy may be used to cover student travel expenses associated with rotations between the San Antonio, Harlingen and Edinburg campuses.</p> <p><i>UTRGV requests Unexpended Balance authority between fiscal years as granted in the 2016-17 biennium.</i></p>		
11	111-78	<p>Estimated Appropriation and Unexpended Balance. Included in the amounts appropriated above are estimated appropriations of the institution's estimated allocation of amounts available for distribution out of the Permanent Health Fund for Higher Education No. 810.</p> <p>a. Amounts available for distribution or investment returns in excess of the amounts estimated above are also appropriated to the institution. In the event that amounts available for distribution or investment returns are less than the amounts estimated above, this Act may not be construed as appropriating funds to make up the difference.</p> <p>b. All balances of estimated appropriations from the institution's allocation from the amounts available for distribution out of the Permanent Health Fund for Higher Education No. 810, except for any General Revenue, at the close of the fiscal year ending August 31, 20157, and the income to said fund during the fiscal years beginning September 1, 20157, are hereby appropriated. Any unexpended appropriations made above as of August 31, 20168, are here appropriated to the institution for the same purposes for fiscal year 20179.</p> <p><i>UTRGV requests continuation of this rider as flexibility is required in the appropriation estimates. In addition, Unexpended Balance authority between fiscal years would continue as was granted in the 2016-17 biennium.</i></p>

DESCRIPTION / JUSTIFICATION:

As the UTRGV School of Medicine continues to add a class of 50-55 medical students per year, reaching a total of 205-220 medical students by the end of the 2018-2019 biennia, the demands for faculty time and efforts and student support across all departments continue to increase. The requested \$5.0M will primarily be used to support faculty, staff and provide operating funds towards achieving Provisional Accreditation and in the development of Years 3 and 4 of medical education, which will focus on clinical experiences. The funding will be used in support of clinical sites, partnerships, and the clinical faculty necessary for the continuation and completion of the integrated medical education curriculum at the UTRGV School of Medicine. In addition, the increase in the total number of UTRGV School of Medicine students up to 220 will require additional student support services and academic resources to meet demands.

Graduate medical education will continue to expand as well. It is anticipated that there will be a total of 202 residency positions by 2020 which is double the size of residency slots currently available in 2016.

Legislative funding at an appropriate level is essential in obtaining full accreditation by the Liaison Committee of Medical Education (LCME).

	TOTAL, METHOD OF FINANCING		\$1,838,055	\$1,838,055
FULL-TIME EQUIVALENT POSITIONS (FTE):			21.00	21.00

DESCRIPTION / JUSTIFICATION:

The requested 4% reduction of \$3,676,111 for the 2018-19 biennium would have a considerable negative impact on UTRGV given its low tuition rates, consequent thin operating margin and fragile finances inherited from the legacy institutions (combined legacy institution operating margin of -7.6% in fiscal 2015). The latter being a result of the use of legacy resources necessary for the launch of the new university.

UTRGV inherited and is maintaining the tradition of low tuition rates. UTRGV is the 9th largest of the state's 37 public institutions with an enrollment of 28,584 (Fall 2015). Yet, at that time only two institutions had a lower average total academic cost. Importantly, the low rates come at a price as the reduced revenue stream makes maintaining and enhancing the educational services to the Rio Grande Valley citizens extremely challenging.

EXTERNAL/INTERNAL FACTORS:

Additional information for this strategy is available in Schedule 9, Special Item Information.

DESCRIPTION OF ANTICIPATED OUT-YEAR COSTS :

To continue initiatives as laid out in Exceptional Item Request.

DESCRIPTION / JUSTIFICATION:

The Biomedical Sciences research program housed in the College of Health Affairs has a substantial record of NIH funding and built a competitive research program in neuroscience, chronic diseases and infectious disease. Grant funding established core laboratories. The research program is also uniquely integrated into the undergraduate curriculum which led to the first competency- and experiential learning-based biomedical sciences program in the nation. Continued biomedical research is essential to produce breakthrough discoveries for the improvement of human health. However, a number of challenges threaten the continued existence of the program at UTRGV, which is uniquely situated to address health disparities, contribute to the diversity of the biomedical research workforce and monitor the entrance of infectious diseases such as Zika, Dengue and tuberculosis into the State. UTRGV seeks to build a collaboration that will address chronic diseases such as diabetes, cancer, cardiovascular disease, stroke, arthritis, and others. We further seek to build capacity in infectious diseases, neuroscience, tissue engineering, pharmacology, biochemistry, toxicology, bioinformatics, and bioengineering. To support these activities and enable competitive and innovative biomedical research at UTRGV will require support for facilities, faculty and staff in addition to acquisition of computational and core platforms that support “-omics”-sciences such as metabolomics and metagenomics. Biomedical research at UTRGV will significantly impact the research effort of the State of Texas and the nation and will increase the availability of well-trained personnel with biomedical expertise for employment in the region and beyond, while also contributing to the goal of diversifying the biomedical research workforce. Biomedical research at UTRGV will also critically contribute to achieving health equity in our communities and will lead to the development of unique educational pathways.

DESCRIPTION / JUSTIFICATION:

UTRGV seeks to create the Coastal Science Research Center (CSRC) on property recently purchased in Port Isabel, TX. The center will address the opportunities and challenges faced by Texas coastal communities, particularly urban development, water quality, safety, tropical storms, coastal flooding, and other disasters. The CSRC will focus on predictive modeling, place based conservation, and state of the art intelligence gathering using autonomous observing installations and vehicles to pave way for sustainable management of the shoreline, marine-based food sources to foster a resilient seafood industry, environmental and ecological health of the oceans and land water resources. Research activities and collected data will be transmitted in real time via the internet throughout the region for use in UTRGV wide research and teaching activities also available to K-12 and other institutions.

Administered through the School of the Earth, Environmental and Marine Sciences (SEEMS), the CSRC will offer undergraduate and graduate courses and research opportunities to educate and prepare the next generation of marine scientists and engineers. Funding will allow SEEMS to expand research infrastructure that will significantly increase research productivity pace of new discoveries and enable UTRGV to be more competitive in obtaining grant funding. The window for obtaining federal grants through the RESTORE ACT has opened recently, and we need to act swiftly to enhance UTRGV's competitiveness. Funding will allow SEEMS to expand its undergraduate degree programs in Marine Biology and Environmental Sciences, develop 2 new Masters degrees, and 1 doctoral program in Marine and Environmental Science.

The combination of the region's location on the U.S.-Mexico border, Rio Grande River, Gulf of Mexico, and climatological divides makes the South Texas coastal zone

DESCRIPTION / JUSTIFICATION:

UTRGV established the Center for Innovation and Commercialization (CIC) in order to expand its commitment to entrepreneurship. As part of the College of Business and Entrepreneurship (CoBE), the CIC furthers the University's mission of education, research, and economic development. The Center seeks out those in the region who have truly innovative, scalable business ideas, but need assistance in taking their projects from concept to fully developed business model, and on to launch. As the CIC employs faculty-assisted student teams who work directly with clients, it offers faculty and students the opportunity to apply classroom learning to real world new venture creation. The CIC promotes entrepreneurship and new venture creation in three ways:

- Assist local entrepreneurs with innovative ideas that are scalable and have potential for job creation;
- Assist local firms seeking to grow by offering new products or services;
- Assist UTRGV faculty, researchers, and students seeking to commercialize their ideas.

The CIC accepts clients seeking help in developing their business ideas or wish to enter an incubation program. The work of the Center is supported by students, faculty, and a network of business mentors. The CIC seeks to jointly develop projects with the entrepreneur, student teams, supporting faculty, and business mentors all playing a role, with the goal of creating sound business models for new ventures.

The CIC and its supporting incubator will serve as the hub for entrepreneurship and economic development. This innovation-focused knowledge hub will help transform the

DESCRIPTION / JUSTIFICATION:

The B3 Institute was launched during the summer of 2016 and has an essential function in providing leadership to steward UTRGV into a bilingual, bicultural, and biliterate university, the first of its kind as a public university in the United States. The Institute will work closely with the Deputy Provost, with Deans across the University, and with three Centers (CBS, CMAS, T&I Office) to fulfill the vision and mission of UTRGV; it will do so by following the goals and activities articulated in the B3 strategic plan. As the only university in South Texas, UTRGV builds on the legacies of UT Pan American and UT Brownsville as the leading intellectual voice and most important engine that drives the social, cultural, and economic development of the region. Since the founding of the legacy institutions in the late 1920s, however, higher education in South Texas has not capitalized on the bilingual and bicultural richness of this borderland region. As UTRGV forges its nascent identity, it will own its bilingual and bicultural historical realities, and it will reflect those truths as an integral part of its fabric. This will be reflected through curriculum development, by developing the bilingual capacities of current faculty, through the recruitment of more bilingual faculty, and by leveraging the linguistic and cultural capital of the community. The B3 Institute will lead the effort to build such an infrastructure.

	Total Expenditures		23.7%		\$15,597,186	\$65,845,057		29.6%		\$18,384,613	\$62,103,637

B. Assessment of Fiscal Year 2014 - 2015 Efforts to Meet HUB Procurement Goals

Attainment:

UTPA has achieved and exceeded 4 of 5 or 80% of the applicable agency HUB procurement goals in Fiscal year 2014.
UTPA has achieved and exceeded 3 of 5 or 60% of the applicable agency HUB procurement goals in Fiscal year 2015.
UTB has achieved and exceeded 3 of 5 or 60% of the applicable agency HUB procurement goals in Fiscal year 2014.
UTB has achieved and exceeded 4 of 5 or 80% of the applicable agency HUB procurement goals in Fiscal year 2015.

Applicability:

UTPA did not have any activity or participation in any Heavy Construction as per State of Texas Object Codes for either Fiscal year 2014 or 2015.
UTB did not have any activity or participation in any Heavy Construction as per State of Texas Object Codes for Fiscal year 2014.
UTB exceeded the goal in The Heavy Construction category for Fiscal year 2015.

Factors Affecting Attainment:

UTPA continues its commitment to the HUB Program. The University maintains an ambitious outreach program in the Rio Grande Valley. We assume a leadership position among other state and local agencies in promoting HUB issues in our area and encourage non-certified minority and woman owned businesses to become HUB certified. An element of this effort is to facilitate the application process as much as possible for businesses through working closely with the Texas Procurement and Support Services Office.

UTB in Fiscal year 2014 the "Other Services" and in Fiscal year 2015 the "Professional Services" and "Other Services" goals were not met. A "Good Faith Effort" was made to contract out with HUB vendor by the bidding process but the contracts were awarded to non-HUB vendor using "Best Value" Procurement procedures and

guidelines.

UTB in Fiscal year 2014 "Building Construction" goal was not met and a negative amount was reported due to a calculation error. Total expenditures were \$75,236.68 for non HUB and \$1,040.00 for HUB. A negative \$91,976.00 was reported causing an error with Treasury.

"Good-Faith" Efforts:

Hosted:

Ishop UTRGV/HUB Vendor Fair with over thirty HUB vendors and three hundred campus end users in attendance
'Meet the Buyer' in McAllen, Texas in conjunction with the UTRGV Texas Procurement and Technical Assistance Center

Participated:

The University of Texas System Supply Chain Alliance Conference in Houston, Texas
Senator Royce West Spot Bid Fair in Irving, Texas
TAMACC in McAllen, Texas
Marketed SciQuest E-Procurement System with six HUB Catalog vendors

HUB Coordinator current areas of engagement:

Current President of South Texas Universities HUB Coordinators Alliance
Advisor to the Board of Directors of the Rio Grande Valley Hispanic Chamber of Commerce for Small Business & Economic Development
HUB Coordinator Mentor to the South Texas Procurement and Technical Assistance Center

4 Distance Learning (2nd 5%)

Category: Programs - Service Reductions (Other)

Item Comment: "The center's ability to offer online teaching and learning support services will be greatly hindered, and ultimately, UTRGV students, Faculty, and staff will not receive proper support to use or access online resources and instruction affecting academic development.

This burden would require COLTT to diminish professional development, and other applications currently used by faculty and students, as well as forego upgrading equipment and software used by COLTT staff. Research assistant, who play a critical role in the success of research and innovation in online would be non-existent, and therefore, diminish the effectiveness of the proof of concept will be diminished. Moreover, student employment at the institution would also be adversely affected.

COLTT would have to use another funding source to cover the cost of all the licensing fees in order to continue to provide the basic tools for online teaching to all faculty, students and staff. However, other budget reductions at different academic departments may have a ripple effect on online education. If the number of faculty or courses being offered is decreased, the number of online classes will likely fall. This may lead to a decrease in semester credit hours and consequently a further reduction in available funds to support COLTT operations. Online learning would be negatively affected.

All the necessary infrastructure and support resources to facilitate online education at our institution would be impacted adversely.

5 Ctr for Entrepreneurship and Economic Development (2nd 5%)

Category: Programs - Service Reductions (Other)

Item Comment: Without these funds for the SBDC program and the Border Consortium, entrepreneurs throughout the region would not receive much needed business technical assistance to start and/or grow their businesses. Consequences could include a larger number of business failures and the resulting higher unemployment in South Texas. Regional economic development and sales tax revenues would be negatively impacted. The line-item funding provides direct community outreach for business technical assistance that leads to economic development employment growth. These funds are leveraged to support access additional federal and state economic development dollars. Should funding not occur, UTRGV would not effectively leverage additional federal funds nor offer the extent of business and economic development services to the communities in our region.

Item Comment: UTRGV has a legislative mandate to expand and develop education programs to serve the rapidly growing and economically disadvantage population in the region. Loss of center funding would result in the reduction or elimination of existing small business and technology commercialization program delivered in communities across the Rio Grande Valley region for over fifteen years. Not continuing center funding would also significantly reduce the opportunity to leverage other resources federal, state and corporate sources that support the education and job creation programs at UTRGV.

9 Regional Advanced Tooling Center (2nd 5%)

Category: Programs - Service Reductions (Other)

Item Comment: Not funding the proposed activity will limit the regional ability to compete in the advanced manufacturing sector and enhance a dependence on other regions for the advanced tooling needs of the region. It will reduce the potential for the region to succeed in its quest to become a leading international advanced manufacturing and innovation hub that will provide opportunities for the young people of the region to have economically viable careers in the region without having to venture elsewhere. We believe with proper training in the fastest growing region in population – the Rio Grande Valley, and application of rapid response tools and logistics, combined with our proposed low costs of transportation of goods, and a ready workforce, we can bring manufacturing back to the USA.

10 Texas-Mexico Border Health (2nd 5%)							
Category: Programs - Service Reductions (Other)							
Item Comment: This program has been vital in early identification of children who may be at risk to develop this devastating disease, while at the same time allowing parents the opportunity to seek health intervention for their children. Although leadership and momentum for type 2 diabetes in children has been gained through this program, childhood obesity and its related conditions continues to be a major public health concern for our children and youth. Lack of funding would result in termination of the state's only large-scale public health model that identifies at-risk children for type 2 diabetes and other metabolic conditions. The Texas Risk Factor Assessment for Type 2 Diabetes in Children program provides public schools with technical expertise and termination of the program would end this valuable resource. The leadership and momentum the risk factor assessments have generated for a state that suffers from extremely high rates of diabetes and obesity would be lost. Early intervention is crucial to eliminate not only the costs associated with type 2 diabetes but also the human suffering associated with it. The potential cost-savings on diabetes health care expenditures from the children who are identified at-risk to develop diabetes through this program would be lost.

Item Priority and Name/ Method of Financing	REVENUE LOSS			REDUCTION AMOUNT			TARGET																								
	2018	2019	Biennial Total	2018	2019	Biennial Total																									
<p>Item Comment: Through health education and health promotion activities, the Diabetes Registry has played a crucial role in helping adults and children in the Rio Grande Valley understand the risks factors for developing diabetes and understand the importance of engaging in healthy lifestyles. With many of its activities focusing on children, the Diabetes Registry has also played a role in supporting coordinated school health education programs and public health policy for the prevention of diabetes and has helped schools initiate systems changes to improve the school health environment. Not funding the Diabetes Registry would result in the cessation of all of its activities, which means that the dissemination of diabetes and wellness information would not occur among those at highest risk to develop the disease. As a consequence of not funding the Diabetes Registry, the diabetes epidemic in the Rio Grande Valley would receive less attention, and the focus on prevention and delay of new cases of diabetes would diminish. The surveillance, service and research opportunities that the Diabetes Registry provides to the Rio Grande Valley and South Texas will be lost as well as the ongoing collaboration with other higher learning institutions and community organizations.</p> <p>Strategy: 1-1-1 Operations Support</p> <p><u>General Revenue Funds</u></p> <table> <tr> <td>1 General Revenue Fund</td><td>\$0</td><td>\$0</td><td>\$0</td><td>\$37,763</td><td>\$37,763</td><td>\$75,526</td><td></td></tr> <tr> <td>General Revenue Funds Total</td><td>\$0</td><td>\$0</td><td>\$0</td><td>\$37,763</td><td>\$37,763</td><td>\$75,526</td><td></td></tr> <tr> <td>Item Total</td><td>\$0</td><td>\$0</td><td>\$0</td><td>\$37,763</td><td>\$37,763</td><td>\$75,526</td><td></td></tr> </table>								1 General Revenue Fund	\$0	\$0	\$0	\$37,763	\$37,763	\$75,526		General Revenue Funds Total	\$0	\$0	\$0	\$37,763	\$37,763	\$75,526		Item Total	\$0	\$0	\$0	\$37,763	\$37,763	\$75,526

12 Academy of Mathematics and Science (2nd 5%)

Category: Programs - Service Reductions (Other)

Item Comment: With limited funding, TAMS at UTRGV can only support a model limited to 157 students. Even with limited funding and capacity, TAMS at UTRGV Brownsville campus has been highly successful: graduating more than 321 students, with each graduate completing at least 60 college credit hours; significantly accelerating their entrance into post-secondary schools and decreasing their time to graduation. One hundred percent of graduates have immediately enrolled in institutions of higher education to pursue a bachelor's degree. TAMS at UTRGV graduates achieve a bachelor's degree sooner than their high school peers and enter the workforce sooner in STEM fields supporting economic development in Texas. With special funding, TAMS at UTRGV would provide additional enrollment opportunities for high achieving high school students, to include 9th and 10th graders, who reside in South Texas so that they may enroll in a high school alternative that is an accelerated educational model.

TAMS at UTRGV has brought to the forefront a model of accelerated science and mathematics education to lower South Texas. Student participation in UTRGV's TAMS program has a dramatic influence on student's lives, their future and contributes to stronger economic development in Texas. Student achievement at TAMS at UTRGV for the past nine years demonstrates that the investment of the special item funding results in high educational yields with minimal investment risk.

<p>Item Comment: Although the Cooperative Pharmacy Doctoral Program (CPP) does not generate tuition and fees for UTRGV, and the cost of faculty salaries is being absorbed by the University, an economic impact analysis of the CPP conducted by the Data and Information Center at UTPA in November of 2013 indicated that at 12 students per year, the economic impact to the Rio Grande Valley was 6.1 million dollars annually. Further, the Program helps alleviate hardships for the students seeking to break educational barriers. Moreover, the program provides the community with knowledgeable and culturally sensitive health professionals. Given the significant positive impact of this program, UTPA and now UTRGV, decided to absorb these costs of the same. However, in order to maintain and strengthen the program, we need additional financial support through the LAR. The consequences of not funding is the potential elimination of the program that provides excellent education for many of the students that would not otherwise have access to a doctoral pharmacy program. It would also adversely impact the community healthcare benefits that are generated through this program.</p> <p>Strategy: 1-1-1 Operations Support</p> <p><u>General Revenue Funds</u></p> <table> <tr> <td>1 General Revenue Fund</td><td>\$0</td><td>\$0</td><td>\$0</td><td>\$44,877</td><td>\$44,877</td><td>\$89,754</td><td></td></tr> <tr> <td>General Revenue Funds Total</td><td>\$0</td><td>\$0</td><td>\$0</td><td>\$44,877</td><td>\$44,877</td><td>\$89,754</td><td></td></tr> <tr> <td>Item Total</td><td>\$0</td><td>\$0</td><td>\$0</td><td>\$44,877</td><td>\$44,877</td><td>\$89,754</td><td></td></tr> </table> <p>FTE Reductions (From FY 2018 and FY 2019 Base Request)</p> <p>17 McAllen Teaching Site (2nd 5%)</p> <p>Category: Programs - Service Reductions (Other)</p> <p>Item Comment: Loss of funding for this item will result in the inability of UTRGV to improve and expand services at McAllen Teaching Site (MTS). 18 Starr County Upper Level Ctr (2nd 5%)							
Category: Programs - Service Reductions (Other)							
Item Comment: Ceasing or reducing funding for this item will result in the inability to materially improve and maintain the momentum of this initiative. Failure to respond to the continued need for certified teachers and other professional employment in the western region of the Rio Grande Valley. Failure to respond to the educational and economic needs of the area, characterized by high poverty, high unemployment, low levels of educational attainment, and high illiteracy. Unless other sources of funding are identified, this initiative will continue to provide funding that fuel the instruction of the University of Texas Rio Grande Valley at Starr County Center. However, this appropriation is not sufficient to operate and run the 30,000 sq ft facility that was inaugurated in Fall 2010. The supplemental award from Institutional Enhancement funding is necessary to cover instructional and day-to-day operating costs, such as telephone and computer lines. Failure to establish collaborative partnerships with the public school and South Texas College.

746 The University of Texas Rio Grande Valley

Special Item: 1 **Prof Development/Distance Learning**

(1) Year Special Item: 2000
Original Appropriations: \$250,000

(2) Mission of Special Item:

To provide support services and facilities that promote, support and integrate best pedagogical practices and instructional technologies in teaching, learning, and research for traditional and online learning offerings. The Center for Online Learning and Teaching Technology strives to become a center of excellence for educational technology through supporting, initiating and implementing applied research for integration of technology in the curriculum to advance online and hybrid education.

(3) (a) Major Accomplishments to Date:

- Assisted in the establishment of a unit (COLTT) that supports Online Education at UTRGV
- Established the necessary infrastructure to implement and support our learning management system and other campus wide software license. This is now a mission critical application at the university
- Facilitated the adoption and support of different instructional technologies that impact all faculty and students at UTRGV
- Increased online education. 455 Online Courses were offered and 9,976 Students taking at least one online course during Fall 2015
- Repared a process and guidelines for quality assurance of online classes through a comprehensive professional development program that will meet nationally recognized standards of quality in online education offered at UTRGV
- Upgrade facilities at the Center for Online Learning, Teaching & Technology to deliver trainings, faculty collaboration, and student support for online education
- Establish, deliver, and sustain 28 fully online graduate programs in the areas of Business, Education, Health, and Liberal Arts

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- 8-10 new fully-online programs will be available and supported in the next two years. These programs will be supported and developed with the availability of these funds.
- Expand the number of online courses to fulfill the university's mission to offer at least 500 online courses within the next 2 years.
- Expand the professional development opportunities and resources for COLTT staff and for faculty teaching online courses by offering more online training sessions.
- Launch the Academy for Teaching Hybrid that will provide best practices to faculty in designing, developing and delivering hybrid courses
- Increase support services for online students by providing 24X7 Technical Support and Online Tutoring
- Upgrade the center's equipment to carry on with the proper support and demonstration of new instructional technologies being implemented and supported by COLTT at the university.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

746 The University of Texas Rio Grande Valley

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

Center for Online Learning and Teaching Technology account – 210000099 -\$1,687,340

(9) Consequences of Not Funding:

The center's ability to offer online teaching and learning support services will be greatly hindered, and ultimately, students, faculty, and staff will not receive proper support to use or access online resources and instruction affecting academic development.

This burden would require COLTT to diminish professional development, and other applications currently used by faculty and students, as well as forego upgrading equipment and software used by COLTT staff. Research assistants, who play a critical role in the success of research and innovation in online would be non-existent, and therefore, diminish the effectiveness of the proof of concept will be diminished. Moreover, student employment at the institution would also be adversely affected.

COLTT would have to use another funding source to cover the cost of the licensing fees in order to continue to provide the basic tools for online teaching to all faculty, students and staff. However, other budget reductions at different academic departments may have a ripple effect on online education. If the number of faculty or courses being offered is decreased, the number of online classes will likely fall. This may lead to a decrease in semester credit hours and consequently a further reduction in available funds to support COLTT operations. Online learning would be negatively affected.

All the necessary infrastructure and support resources to facilitate online education at our institution would be impacted adversely.

746 The University of Texas Rio Grande Valley

Special Item: 2 **Cooperative Pharmacy Doctorate**

(1) Year Special Item: 2002

Original Appropriations: \$300,000

(2) Mission of Special Item:

The mission of the Cooperative Pharmacy Program (CPP) is to help fill the need for pharmacists in Texas, particularly in the Rio Grande Valley. Statistics regarding the need for pharmacists, particularly in rural border areas, indicate a strong need for more pharmacists in the RGV. Additionally, there is a disproportionately low number of Hispanics enrolled in pharmacy programs in Texas. According to the American Association of Colleges of Pharmacy (AACP) July 2015 Vitalstats Report, 12.4% of students enrolled in pharmacy programs across the United States are under-represented minorities.

Most importantly the program is providing the community with pharmacists that understand the culture and the language of the residents of South Texas.

Many of the CPP students would have limited opportunities to pursue a pharmacy career without the support of the CPP. Our students include migrants, single mothers, and many other hardship cases. This program has provided an opportunity to break many social and economic barriers. It provides opportunity and hope for the community and students it serves.

The CPP has produced 101 Doctor of Pharmacy graduates, and 80 of those graduates continue to practice in the Rio Grande Valley.

(3) (a) Major Accomplishments to Date:

- 101 graduates; 80% employment retention in South Texas
- 97.7% Pass rate for First attempt on National Licensing Exam (all time)
- 100% Pass rate for First attempt on state jurisprudence exam (all time)
- International Faculty Presentation on Integrated Healthcare via a Community Health Fair along an International Border. Presented at International Conference on Integrated Care, Edinburgh, Scotland March 2015
- Faculty Focused on student participation in research: 2 year data showed 45 local, state and national conference poster presentations by cumulative work of 50 students; Faculty Poster Presentation reflecting this work accepted at Ken Shine 2015 Innovations in Health Science Education Annual Conference in Austin, Texas 2/19/15
- 2014 Faculty UTPA COHSHS Research Award
- 2015 Faculty UTPA COHSHS Mentorship Award
- 2014 Distinguished Texas State Association Pharmacy Student Award (one selected from all Schools of Pharmacy) Carolina Rodriguez –now practicing in Laredo, Texas
- 2013 Distinguished Texas State Association Pharmacy Student Award (one selected from all Schools of Pharmacy) Joey Barrera, now practicing in Mission, Texas
- 2013 National 1st place Winner of Doctoral Exelencia in Education Award

(3) (b) Major Accomplishments Expected During the Next 2 Years:

746 The University of Texas Rio Grande Valley

Increase the number of successful admissions into the Pharmacy Program.

Expand research capabilities of the unit to enhance student experience.

Establish the necessary foundation for Stand Alone Pharmacy Status and increase enrollment to better serve the RGV community.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

Y

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

The John Villarreal Endowed Scholarship \$573.00

The Jose P. Sanchez Endowment for the UTPA/UTA Cooperative Pharmacy Program \$240.00

Rios Pharmaceuticals, LTD Endowed Scholarship \$500.00

(9) Consequences of Not Funding:

Although the Cooperative Pharmacy Doctoral Program (CPP) does not generate tuition and fees for UTRGV, and the cost of faculty salaries is being absorbed by the University, an economic impact analysis of the CPP conducted by the Data and Information Center at UTPA in November of 2013 indicated that at 12 students per year, the economic impact to the Rio Grande Valley was 6.1 million dollars annually. Further, the Program helps alleviate hardships for the students seeking to break educational barriers. Moreover, the program provides the community with knowledgeable and culturally sensitive health professionals. Given the significant positive impact of this program, UTPA and now UTRGV, decided to absorb these costs of the same. However, in order to maintain and strengthen the program, we need additional financial support through the LAR. The consequences of not funding is the potential elimination of the program that provides excellent education for many of the students that would not otherwise have access to a doctoral pharmacy program. It would also adversely impact the community healthcare benefits that are generated through this program.

746 The University of Texas Rio Grande Valley

Special Item: 3 **Starr County Upper Level Center**

(1) Year Special Item: 2002
Original Appropriations: \$150,000

(2) Mission of Special Item:

The mission of the University of Texas Rio Grande Valley at Starr County is to provide higher education opportunities to the western region of the Rio Grande Valley with an instructional site designed to meet the educational needs of the area.

The existing appropriation for the Center is for operating the instructional portion and day-to-day functions.

(3) (a) Major Accomplishments to Date:

The greatest accomplishment noted is that since the inception of the Center in Fall 2000, 500 students (as of Spring 2016) completed a Bachelor of Interdisciplinary Studies degree in EC-4/6 teacher certification.

Secondly, at the inception of the BIS program at the Center in Fall 2000, a great number of classrooms in the Rio Grande City and Roma Independent School Districts began every school year with uncertified teachers on Emergency Permits as the teacher of the record. The Center was initiated in response to the need for highly qualified teachers expressed by the area superintendents. Since Fall 2008, all classrooms in Starr County were staffed by fully-certified teachers.

In September 2010, a new, state-of-the art, permanent facility was inaugurated for the UTRGV at Starr County Center. The new facility provides greater opportunities for the residents of Starr County to access post-secondary education and to pursue undergraduate and graduate degrees in a variety of fields.

Specific data for course offering and student enrollment for academic years 2014-2016 is as follows:

- Offered 25 courses during AY 2014-2015 and AY 2015-2016
- Enrolled 188 students in AY 2014-2015 and AY 2015-2016 (unduplicated)
- Generated 1,047 semester credit hours in AY 2014-2015 and AY 2015-2016
- Graduated 48 students in AY 2014-2015 and AY 2015-2016

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- In FY18, we will begin offering upper-level courses in majors often sought by residents of Starr County.
- Develop ITV capability, restricted to upper level and graduate courses, to increase access to academic programs currently only available at the Edinburg campus.
- We will work to increase the number of graduate courses leading to a master's degree offered at the Starr County Center.

(4) Funding Source Prior to Receiving Special Item Funding:

None

746 The University of Texas Rio Grande Valley

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

- Ceasing or reducing funding for this item will result in the inability to materially improve and maintain the momentum of this initiative.
 - Failure to respond to the continued need for certified teachers and other professional employment in the western region of the Rio Grande Valley.
 - Failure to respond to the educational and economic needs of the area, characterized by high poverty, high unemployment, low levels of educational attainment, and high illiteracy.
 - Unless other sources of funding are identified, this initiative will continue to provide funding that fuel the instruction of the University of Texas Rio Grande Valley at Starr County Center. However, this appropriation is not sufficient to operate and run the 30,000 square foot facility that was inaugurated in Fall 2010. The supplemental award from Institutional Enhancement funding is necessary to cover instructional and day-to-day operating costs, such as telephone and computer lines.
 - Failure to establish collaborative partnerships with the public school and South Texas College
-

746 The University of Texas Rio Grande Valley

Special Item: 4 **McAllen Teaching Site**

(1) Year Special Item: 2012

Original Appropriations: \$400,000

(2) Mission of Special Item:

With UTRGV's focus on promoting excellence in teaching, research, creative activity, and community engagement, it prepares students to be socially conscious citizens and transformative leaders who will have a significant socio-economic impact on the region.

UTRGV's McAllen Teaching Site (MTS) serves the needs of the community by providing convenient access to its academic and continuing education programs. Located at 1800 S. Main St, Suite 110, MTS offers 7 state-of-the art classrooms and a conference room with full interactive video capability.

Courses and programs offered at MTS target graduate students and community members employed in education, business, and public service fields. The Master in Business Administration, the Master in Public Administration, and Master of Education in Educational Leadership at MTS UTRGV's Language Institute offers classes to professionals in industries like the maquiladora industry as well as prospective college students.

A robust schedule of continuing education programs are offered to meet the needs for professional certification, personal growth, and academic advancement. Courses like the Certified Public Manager, Paralegal Certificate Program; Certificate in Digital Marketing, and Pharmacy Technician Programs help adults in diversified professional fields to advance in their careers. Courses on social media and branding help small business owners keep up with the latest advertising tools.

(3) (a) Major Accomplishments to Date:

Classroom utilization increases each year as new programs are offered at MTS, underscoring the importance of providing expanded learning options to the community. In the AY2014-AY2016, UTRGV has held 114 courses with a total of enrollment of 1,042 students (unduplicated) and 5,763 of credit hours generated during these terms. The continuing education department offered 20 new programs at MTS in addition to its established courses in order to meet the community's needs and served over 1000 individuals in FY 2015.

UTRGV also engages the community at MTS as non-profit organizations and others to utilize the facility for their meetings and training sessions. For example, in FY 2016, UTRGV's Nonprofit Resource Center held focus group meetings with local nonprofit leaders to study their needs which attracted members of nonprofit agencies from upper and lower valley. The Rio Grande Valley Teen Pregnancy Coalition, a non-profit organization, holds its quarterly meetings at MTS under the sponsorship of UTRGV's Department of Social Work. The Community Advisory Board to College of Health Science and Human Services holds their regular meetings at MTS. The local chapter of the Society for Human Resource Managers (SHRM) holds its monthly board meetings at MTS, in addition to their social mixers in partnership with SHRM Student Chapters.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

746 The University of Texas Rio Grande Valley

UTRGV's campus master-plan, under development, will include establishing community-based hubs around the Rio Grande Valley to increase access to academic programs and student support services. As a first step, the educational technology at MTS will receive a major upgrade in AY16-17 to allow Interactive Television (ITV) courses to be held there. This will increase the utilization of the facility by offering a broader range of courses there and increase access and convenience for students.

Additionally, the continuing education program will continue to expand its offerings in order to meet the community needs for professional and personal growth. New programs such as Club Code UTRGV, Grief Education Series, will be offered along with numerous other established programs including Certificate in Web Design, Nonprofit Workshop Series, Information Technology, and test preparation courses such as GMAT, GRE and LSAT. Future plans also include partnering with the School of Medicine to hold specialized workshops and certificate programs designed for health care professionals.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Loss of funding for this item will result in the inability of UTRGV to improve and expand services at McAllen Teaching Site (MTS). For example, the plans to offer more graduate and continuing education programs there, will require additional resources such as additional support staff and instructional technology.

746 The University of Texas Rio Grande Valley

Special Item: 5 **Academy of Mathematics and Science**

(1) Year Special Item: 2016
Original Appropriations: \$500,000

(2) Mission of Special Item:

The requested funding will support the Academy in its goal to increase higher-education opportunities in the STEM fields to eligible students and continue to expand the Academy's enrollment from its current limited model program of 105 students into a program that will enroll up to 400 students. The primary beneficial factor is that the proposed program will provide for the development of a full high school with the addition of grades 9th and 10th and most certainly will provide additional enrollment opportunities to high achieving students from the South Texas region.

(3) (a) Major Accomplishments to Date:

For the 2016-2017 academic year, the enrollment of the Academy will increase from 105 to 157 students. This significant increase is due to the expansion to the UTRGV Edinburg campus. Students from a total of 50 different high schools will be full-time university students. As participants in the UTRGV MSA Program, they are enrolled in the same classes with UTRGV undergraduate students.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

UTRGV MSA definitely anticipates increasing the size of the program as more South Texas families become aware of the program. UTRGV's goal is to expand the program from 157 students enrolled in the 2016-2017 academic year, to up to 400 students over the next two years. One hundred percent of the students will immediately enroll in higher education institutions to pursue a bachelor's degree.

(4) Funding Source Prior to Receiving Special Item Funding:

Funding is generated via average daily attendance allotment from the Texas Foundation School Fund. Higher education formula funding is also generated by students enrolled in the Academy.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

746 The University of Texas Rio Grande Valley

(9) Consequences of Not Funding:

With limited funding, TAMS at UTRGV can only support a model limited to 157 students. Even with limited funding and capacity, TAMS at UTRGV Brownsville campus has been highly successful: graduating more than 321 students, with each graduate completing at least 60 college credit hours; significantly accelerating their entrance into post-secondary schools and decreasing their time to graduation. One hundred percent of graduates have immediately enrolled in institutions of higher education to pursue a bachelor's degree. TAMS at UTRGV graduates achieve a bachelor's degree sooner than their high school peers and enter the workforce sooner in STEM fields supporting economic development in Texas.

With special funding, TAMS at UTRGV would provide additional enrollment opportunities for high achieving high school students, to include 9th and 10th graders, who reside in South Texas so that they may enroll in a high school alternative that is an accelerated educational model.

TAMS at UTRGV has brought to the forefront a model of accelerated science and mathematics education to lower South Texas. Student participation in UTRGV's TAMS program has a dramatic influence on student's lives, their future and contributes to stronger economic development in Texas. Student achievement at TAMS at UTRGV for the past nine years demonstrates that the investment of the special item funding results in high educational yields with minimal investment risk.

746 The University of Texas Rio Grande Valley

Special Item: 6 Economic Development

(1) Year Special Item: 1988
Original Appropriations: \$150,000

(2) Mission of Special Item:

The formation of UTRGV enabled a broader and stronger border economic development program than previously served the region. The Texas Border Consortium and Small Business Development Center are addressed in detail below. Regional economic development is also served by two other existing special line funded center the Texas Center for Border Economic and Enterprise Development, and Trade and Technology that operate in the UTRGV Research, Innovation and Economic Dev. Division.

UTRGV Small Business Development Center promotes small business and community economic development through extension services. SBDC is a service center of the UTSA-administered, 79-county South-West Texas Border (SWTB) SBDC Network which receives Federal, U.S. SBA funds. SBDC promotes growth, expansion, innovation, increased productivity, and improved management for small business through individual advising and technical assistance, workshops, outreach, and related research. SBDC engages students through structured service-learning, public service to benefit small businesses. The SBDC is tax revenue-neutral and accredited by the Association of SBDCs.

The Border Consortium supports a network of economic and enterprise development programs and initiatives in both urban and rural settings in South Texas. The Consortium also is used to leverage and secure substantial amounts of sponsored funding for economic and enterprise development across the region.

(3) (a) Major Accomplishments to Date:

Since inception, SBDC has provided advising management and technical assistance to more than 13,863 entrepreneurs, conducted over 2,358 business workshops attended by more than 32,166 participants. The net result of these efforts has been the creation of more than 7,237 new jobs and retention of 4,234 and the generation of more than \$488 million in capital formation for businesses in the Rio Grande Valley. UTRGV SBDC received U.S. SBA's national 2011 SBDC Service Center Excellence and Innovation Award.

Since 2010, the Border Consortium Line Item has assisted over 2,000 clients by providing leveraged support for the UTRGV Veteran's Business Outreach Center, Procurement Technical Assistance Center, and the Texas Rural Cooperative Center, and other federally-funded projects. During this period, support from this Line Item has resulted in over 500 training events attended by more than 6,300 participants; the start-up of 43 businesses; creation of 804 jobs; capital formation of \$113 million; and contracting opportunities of \$60 million.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

746 The University of Texas Rio Grande Valley

SBDC will continue to provide uninterrupted business advising and training assistance to Rio Grande Valley small businesses who seek to establish or grow a small business and create jobs, serving as a catalyst to business and economic development activities. SBDC will provide advising to 1,600 individuals seeking to start or grow a business; 200 workshops on various business topics to 2,000 attendees; and help individuals start or grow 180 small businesses that produce or retain 1,200 jobs and access \$20,000,000 in capital funding. It will provide support for the implementation of in-depth training and advising to 4 cohorts totaling 64 companies interested in growth to scale up their operations.

During the 2018/2019 biennium, the Border Consortium will continue to help leverage additional federal and private-sector funding of \$2.2 million for training and technical assistance in economic development; resulting in 175 training sessions attended by 2,200 participants and a client base 700 individuals. This activity is expected to result in an economic impact that includes the start-up of 15 businesses, the creation of 290 jobs, business capitalization of \$5 million, and \$21 million in contracting opportunities.

(4) Funding Source Prior to Receiving Special Item Funding:

The UTRGV SBDC, service center of the SWTB SBDC Network, was established through a funding formula that includes the special item as match to access additional federal and state funds.

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

SBDC State (UTSA): \$187,053

SBDC Federal (UTSA): \$280,579

Federal and State Contracts and Program: \$314,937

Border Consortium Line-Item funding is strategically leveraged to create over \$1.6 million in mostly sponsored, federal funding for regional business and economic development each year; or over \$3.2 million each biennium.

(9) Consequences of Not Funding:

Without these funds for the SBDC program and the Border Consortium, entrepreneurs throughout the region would not receive much needed business technical assistance to start and/or grow their businesses. Consequences could include a larger number of business failures and the resulting higher unemployment in South Texas. Regional economic development and sales tax revenues would be negatively impacted. The line-item funding provides direct community outreach for business technical assistance that leads to economic development employment growth. These funds are leveraged to support access additional federal and state economic development dollars. Should funding not occur, UTRGV would not effectively leverage additional federal funds nor offer the extent of business and economic development services to the communities in our region.

746 The University of Texas Rio Grande Valley

Special Item: 7 **Center for Manufacturing**

(1) Year Special Item: 1994
Original Appropriations: \$250,000

(2) Mission of Special Item:

The Center's mission is to increase the global competitiveness of the Texas economy by working with the extended manufacturing enterprise, to accelerate profitable growth by developing and improving processes, products and workforce. The Center's external objectives are to provide assistance to current and prospective manufacturers through the utilization of services available from the Center as well as from academic, industrial, governmental, or private sources to assist them to improve their operations. The Center collaborates with regional Advanced Manufacturing Cluster consists of manufacturing extended enterprises from the private industries and public partners such as regional Community and Technical Colleges, regional manufacturer associations and economic development entities to create and support a Manufacturing Innovation Eco-System. The purpose of the eco-system is to create a sustainable economic growth through entrepreneurship development, technical & engineering services, and advanced skill workforce development. The Center's internal objectives are to strengthen and support the university's educational mission by facilitating faculty research, provide training, working experience, and employment opportunities for UTRGV students certified through Lean Sigma Academy. The Center interfaces with middle and high schools to develop a seamless STEP curriculum for grades K-16 in STEM education.

(3) (a) Major Accomplishments to Date:

In FY '14 and FY'15, the Center provided advanced manufacturing training and technical assistance to 110 manufacturing and manufacturing extended companies, completing 30 projects on-site and 35 group projects. The financial impact (i.e., sales increase, costs savings and investment leverage) reported by the Center's customers in an external survey conducted by the Department of Commerce's National Institute for Standards and Technology (NIST) was \$314,952,001. The customers served by the Center also reported adding 455 new jobs in their operations plus retaining 747 jobs in their existing businesses. Through the public and private partnership program, the Center has billed and collected approximately \$562,034 from the services rendered. The special line item is also used as a match to draw down about \$552,310 in federal funding from NIST's Manufacturing Extension Partnership (MEP) Program.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

20% increase in the projected economic impact:

- Financial Impact created by project implementations
- Project revenues collected through services rendered

Jobs retained and created as a result from project implementation.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

746 The University of Texas Rio Grande Valley

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

The loss of state funding would lead to the loss of the additional \$1,114,344 that the Center receives from federal grants and revenues from private companies. The Center will be forced to close and manufacturers in the Rio South Texas Region will not have access to affordable technical and research assistance needed to maintain their competitiveness at the national and global levels.

746 The University of Texas Rio Grande Valley

Special Item: 8 **UT System K-12 Collaboration**

(1) Year Special Item: 1996
Original Appropriations: \$178,000

(2) Mission of Special Item:

The K-12 Collaboration initiative promotes and prepares South Texas High School students for success in higher education.

(3) (a) Major Accomplishments to Date:

On average, 48% of the high school students who participated in the Dual/Concurrent Enrollment Program continued as a freshman the fall after high school graduation. Students who participated in the Dual/Concurrent Enrollment Program and entered UTRGV/UTPA/UTB earn average GPA's above 3.0 and have higher retention and graduation rates than the institution as a whole. In addition, there is a significant association between students who participated in the Dual/Concurrent Enrollment Program and retention and graduation rates.

- 89.8% first-year retention (fall 2014 cohort)
- 43.1% four-year graduation rate (fall 2011 cohort)

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- Increase the number of students in the Rio Grande Valley participating in dual enrollment at UTRGV in order to improve student success and timely graduation rates.
- Continue to increase the number of first-time students with college credit. Increase the number of dual enrollment students who matriculate to UTRGV. Improve Entering Freshmen retention and graduation rates.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

746 The University of Texas Rio Grande Valley

(9) Consequences of Not Funding:

The University would be forced to discontinue the Dual Enrollment Program that serves South Texas high school students and encourages them to take more rigorous courses to prepare for college. This would decrease the number of students prepared for college and increase time to graduation.

746 The University of Texas Rio Grande Valley

Special Item: 9 **K-16 Collaboration**

(1) Year Special Item: 2002
Original Appropriations: \$250,000

(2) Mission of Special Item:

Funding will support P16 initiatives and partnerships with RGV school districts in order to provide pre-collegiate support and early intervention programs to increase college admission rates and student success in higher education.

(3) (a) Major Accomplishments to Date:

In FY 2016, funding has supported scholarships to students in the UTRGV JumpStart summer bridge program. JumpStart Scholars are newly admitted UTRGV freshmen who have met institutional admission requirements and are working towards meeting Texas' College Readiness standards.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- Increase the number of students in the Rio Grande Valley participating in dual enrollment at UTRGV to improve student success and timely graduation rates.
- Expand P16 initiatives to the lower Rio Grande Valley such as TexPrep, Mother-Daughter program and summer camps.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

UTRGV would not be able to meet the legislative intent to expand and develop educational programs to serve the rapidly growing and economically disadvantaged population of the region. The quickest and most efficient way to impact educational success is through P16 initiatives led by the University in partnership with local school districts.

746 The University of Texas Rio Grande Valley

Special Item: 10 **Trade & Technology/Telecomm**

(1) Year Special Item: 1996
Original Appropriations: \$133,500

(2) Mission of Special Item:

The program provides trade and technology related assistance to communities, businesses and entrepreneurs in the Rio Grande Valley region. This training and technical assistance fosters economic growth and creates jobs through the provision of market research, economic data and economic impact analysis.

This Line-Item funding is strategically leveraged to help support over \$2.5 million in mostly sponsored, federal funding for regional business and economic development each year; or over \$5 million each biennium.

(3) (a) Major Accomplishments to Date:

This program has leveraged public and private funds for technology-oriented business and economic information and analyses that supports expanded trade. In order to promote technology development in South Texas, this Special Item has assisted in providing over 3,400 computer and Internet training sessions to over 16,400 participants. Additionally, the Special Item provides technical support for over 12 business-and economic-development projects each year and has helped support annual federally-sponsored funding of over \$3 million. Since 2010, the Trade & Technology Line Item has served as a catalyst for the development of trade and technology, resulting in the deployment of an \$80 million fiber-optic network in rural South Texas and a \$23 million fiber-optic transport system that ties UTRGV to major education and health-care institutions in the South Texas region. The program provided economic support services for 38 projects in the 2015/2016 budget year.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The funding will be used to continue trade research and economic information support to individual businesses and communities across the region.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

746 The University of Texas Rio Grande Valley

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Without this Special Item, resources that provide trade and technology training and technical assistance to South Texas businesses would be significantly reduced. This could diminish the prospects for business success and impact job creation as a result. The University of Texas Rio Grande Valley depends heavily on this funding to provide community outreach in business training and technical assistance. Without this Special Item, UTRGV would not be able to effectively leverage for federal funds for trade and technology, negatively impacting the region and its position in the global market place.

746 The University of Texas Rio Grande Valley

Special Item: 11 **Diabetes Registry**

(1) Year Special Item: 1996

Original Appropriations: \$139,805

(2) Mission of Special Item:

The mission of the Diabetes Registry is to reduce the diabetes hardship through prevention and control of the disease and its complications throughout the Rio Grande Valley through education and health promotion.

The Diabetes Registry works collaboratively with agencies such as the Rio Grande Valley Diabetes Association, the Texas Diabetes Council, the Texas School Health Association, the Texas Department of State Health Services, the Texas School Nurse Association, Migrant Health Promotion, and various school districts in the Rio Grande Valley to create awareness and encourage education on diabetes among the predominantly Hispanic population of South Texas and the state, reaching thousands of individuals each year.

Through the Diabetes Registry, the Border Health Office coordinates the School Education and Enrollment Project (SEEP), which provides diabetes education to approximately 12,000 4th grade students in the RGV. This has been found to be an optimum point to reach students about the importance of diabetes awareness. SEEP is the largest, most visible program under the Diabetes Registry. It allows for mass education and enrollment of persons with diabetes. The materials provided through this program have served as the standard lesson plan for diabetes education in the many RGV school districts.

(3) (a) Major Accomplishments to Date:

- Developed a report on the diabetes prevalence, demographic information, and its complications in the four-county Rio Grande Valley Area
- Increased awareness of the diabetes problem by conducting media campaigns and seminars throughout the region
- Maintained a system of surveillance and education through a registrant database
- Provided literature, published newsletters, and produced educational materials
- Collaborated with school districts and have developed wellness camps to promote the importance of good nutrition and physical fitness in the prevention of diabetes and obesity
- Collaborated with South, West, and Panhandle Plains Geriatric Education Centers Vision Station grant project to provide eye care services and diabetes education to low income families
- Developed and coordinated the School Education and Enrollment Project (SEEP), which provides diabetes education to 4th grade students
- In 2014-2015, 11,849 4th grade students were educated on diabetes signs, symptoms, risk factors, and prevention through SEEP
- In 2015-2016, 10,540 4th grade students were educated on diabetes signs, symptoms, risk factors, and prevention through SEEP
- Through community engagement, the Diabetes Registry participated in 146 events during 2014-2015 which provided diabetes education to 5,860 adults and children
- Through community engagement, the Diabetes Registry participated in 108 events during 2015-2016 which provided diabetes education to 4,453 adults and children

(3) (b) Major Accomplishments Expected During the Next 2 Years:

746 The University of Texas Rio Grande Valley

- Continue to increase awareness of the diabetes problem by conducting media campaigns and seminars throughout the region
- Continue to maintain and increase the Diabetes Registry database
- Continue to provide literature, publish newsletters, and produce educational materials
- Continue to provide internship-like practices for UTRGV nursing, dietetic and physician assistant students
- Establish new partnerships and collaborative efforts with agencies such as the newly formed Rio Grande Valley Diabetes Association and the Children of the Valley Foundation, as well as area doctors and schools in the RGV
- Collaborate with faculty/researchers to conduct research using data from the Diabetes Registry
- Continue with School Education and Enrollment Project (SEEP), which provides diabetes education to 4th graders in the RGV
- Write and produce videos with health messages (fitness, healthy eating) and distribute to schools to air on school networks throughout the Rio Grande Valley
- Work with the South Texas Diabetes and Obesity Institute and UTRGV School of Medicine to generate research and programs to reduce the burden of diabetes in the state of Texas
- Continue to sponsor events (conferences/symposiums) that will bring awareness to issues regarding diabetes
- Develop an animated video using dinosaurs to teach children about diabetes and proper nutrition and exercise

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Through health education and health promotion activities, the Diabetes Registry has played a crucial role in helping adults and children in the Rio Grande Valley understand the risks factors for developing diabetes and understand the importance of engaging in healthy lifestyles. With many of its activities focusing on children, the Diabetes Registry has also played a role in supporting coordinated school health education programs and public health policy for the prevention of diabetes and has helped schools initiate systems changes to improve the school health environment. Not funding the Diabetes Registry would result in the cessation of all of its activities, which means that the dissemination of diabetes and wellness information would not occur among those at highest risk to develop the disease. As a consequence of not funding the Diabetes Registry, the diabetes epidemic in the Rio Grande Valley would receive less attention, and the focus on prevention and delay of new cases of diabetes would diminish. The surveillance, service and research opportunities that the Diabetes Registry provides to the Rio Grande Valley and South Texas will be lost as well as the ongoing collaboration with other higher learning institutions and community organizations.

746 The University of Texas Rio Grande Valley

746 The University of Texas Rio Grande Valley

Special Item: 12 **Texas/Mexico Border Health**

(1) Year Special Item: 2002

Original Appropriations: \$350,000

(2) Mission of Special Item:

The Texas Risk Factor Assessment for Type 2 Diabetes in Children program helps families across the state of Texas by identifying school children who are at risk of developing type 2 diabetes and its numerous associated health conditions. Through these assessments, parents are alerted if risk factors are present in children and are encouraged to seek further evaluation from a health professional. Utilizing these risk assessments as a starting point for health promotion and disease prevention in a population who is at risk to develop type 2 diabetes has merit and complements concerted efforts to prevent or reduce future health problems. Through these risk assessments, families have become more aware of the signs and risk factors of type 2 diabetes. Equipped with the knowledge and awareness of what risk factors mean, parents and schools alike, can take action to prevent this devastating disease. This program continues to support the Texas Diabetes Council's state plan for diabetes prevention and control. Risk assessment information is available to school administrators via website by state, Regional Education Service (ESC), school district, and individual schools. The risk assessment results have helped schools initiate systems changes, assist with other school health initiatives, and improve the overall school health environment.

(3) (a) Major Accomplishments to Date:

- Recognized as leaders in diabetes risk factor assessments in Texas
- Assessed over 1.06 and 1.1 million children in public and private schools for diabetes risk factors 2014-2015 and 2015-2016 respectively
- 7,907 children in 2015 and 8,293 children in 2016 followed up their diabetes risk assessment with a health professional, with a potential cost-savings of \$35 million (2015) and \$36 million (2016) in diabetes-related health care cost
- Increased awareness about Acanthosis Nigricans, body mass index, elevated blood pressure and its associated health consequences
- Developed a tool kit to assist school nurses with assessments
- Provided risk assessment and outcome data to the Texas Diabetes Council Strategic Plan
- Provided schools with annual summary compilations of risk assessments results via web-based fact sheet with data that can be accessed for current and previous reporting years
- Created an online training certification module for school nurses
- During the 2015-2016 school year, over 2,843 school nurses were certified online
- Created the Risk Factor Electronic System (RFES), a web-based reporting system for data
- Provided support and technical assistance to over 7,000 school nurses annually
- Created and distribute education for the TRAT2DC program
- Provided faculty/researchers with risk assessment data to yield peer-reviewed articles
- Risk assessment data has allowed schools to apply for grants to improve their school health environment

(3) (b) Major Accomplishments Expected During the Next 2 Years:

746 The University of Texas Rio Grande Valley

- Continue to increase awareness about Acanthosis Nigricans, body mass index, elevated blood pressure, and its related health consequences
- Provide risk assessment and outcome data to the Texas Diabetes Council Strategic Plan
- Provide schools with annual compilations of risk assessments results via web-based fact sheet
- Continue to train/certify school nurses on conducting risk factor assessments through video conferencing and in-person trainings
- Continue to train and certify school nurses through the TRAT2DC Online Certification
- Continue to provide faculty/researchers with risk assessment data to yield peer-reviewed articles
- Create educational materials (online tutorials, training packets, printed brochures and posters) that will assist school nurses with risk assessments
- Update tool kit to assist school nurses with assessments to include anatomical models of Acanthosis Nigricans
- Maintain and improve the Risk Factor Electronic System
- Disseminate literature to physicians, school administrators, school nurses, teachers, parents, and other health-related organizations on Acanthosis Nigricans and other risk factors
- Meet annually with The Tx Risk Factor Assessment for Type 2 Diabetes in Children Advisory Committee
- Maintain and improve the online training certification for school nurses
- Work with the South Tx Diabetes and Obesity Institute and UTRGV School of Medicine to generate research and programs to reduce the burden of diabetes in the state

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

746 The University of Texas Rio Grande Valley

This program has been vital in early identification of children who may be at risk to develop this devastating disease, while at the same time allowing parents the opportunity to seek health intervention for their children. Although leadership and momentum for type 2 diabetes in children has been gained through this program, childhood obesity and its related conditions continues to be a major public health concern for our children and youth. Lack of funding would result in termination of the state's only large-scale public health model that identifies at-risk children for type 2 diabetes and other metabolic conditions. The Texas Risk Factor Assessment for Type 2 Diabetes in Children program provides public schools with technical expertise and termination of the program would end this valuable resource. The leadership and momentum the risk factor assessments have generated for a state that suffers from extremely high rates of diabetes and obesity would be lost. Early intervention is crucial to eliminate not only the costs associated with type 2 diabetes but also the human suffering associated with it. The potential cost-savings on diabetes health care expenditures from the children who are identified at-risk to develop diabetes through this program would be lost.

746 The University of Texas Rio Grande Valley

Special Item: 13 **Regional Advanced Tooling Center**

(1) Year Special Item: 2014

Original Appropriations: \$500,000

(2) Mission of Special Item:

The mission of this initiative is to allow the Regional Advance Tooling Center and the College of Engineering and Computer Science to establish a strategic presence in the McAllen, Texas area. The vision for the center calls for the assurance of sustainable world class advanced tooling engineering knowledge and fabrication ability for the region to enhance a prosperous and innovative manufacturing sector in the Rio South Texas Region. The center will allow for UTRGV to serve a greater number of students who are seeking access to engineering education in South Texas. In addition, the enhancements provided to the Regional Advance Tooling Center and the College of Engineering and Computer Science will increase the innovation capability of the region in support of the expanding manufacturing industry. The implementation of this project will provide tremendous opportunities for innovation and technology based economic development in South Texas providing a catalyst for sustainable economic prosperity. The enhanced real world advanced manufacturing engineering environment that would be made possible through this funding will help the students to become better prepared to lead the region in addressing the technological challenges of the future.

(3) (a) Major Accomplishments to Date:

- The establishment of a functional Regional Advanced Tooling Engineering Center that will be a one stop shop for the tooling needs of the region providing state of the art advanced tooling engineering, technology, R&D, Fabrication, Maintenance, and Education and Training including credentialing programs and advanced degrees.
- Signed a lease of the property.
- Renovated the building to meet the immediate need of our projects which were paid by the university.
- Moved and set up research equipment to begin operations.
- Identified faculty members that will be housed in the center.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- Seek out business partners that are looking for a small space to lease in the Advanced Tooling Center that can benefit from the expertise and services provided by the center. The ITV capable smart classroom can help attract some of these businesses along with the availability of graduate students that can support the operations of the small businesses. The intent here is to have the center start generating revenue by assisting industry partners through faculty and student expertise.
- Establish an environment in which students and professionals can interact to generate wealth in the region by facilitating the rapid deployment of new advanced manufacturing processes and/or products. This will lead to enhanced competitive capabilities and to sustainable economic prosperity for the region through the creation of new enterprises that are geographically rooted in the community.
- Establish an engineering innovation center that can attract and grow the collaborations among the manufacturing engineering department, the associated manufacturing centers, and their business and industry partners.

746 The University of Texas Rio Grande Valley

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Not funding the proposed activity will limit the regional ability to compete in the advanced manufacturing sector and enhance a dependence on other regions for the advanced tooling needs of the region. It will reduce the potential for the region to succeed in its quest to become a leading international advanced manufacturing and innovation hub that will provide opportunities for the young people of the region to have economically viable careers in the region without having to venture elsewhere.

We believe with proper training in the fastest growing region in population – the Rio Grande Valley, and application of rapid response tools and logistics, combined with our proposed low costs of transportation of goods, and a ready workforce, we can bring manufacturing back to the USA.

746 The University of Texas Rio Grande Valley

Special Item: 14 **Border Economic Development**

(1) Year Special Item: 2002
Original Appropriations: \$250,000

(2) Mission of Special Item:

The Center was originally created by the 77th legislature in 2001 to assist border economic development and was managed through the University of Texas Brownsville until August 2015. The formation of UTRGV enabled a broader regional border economic development program to be created that combines resources from three other existing border development programs now within UTRGV's Research, Innovation and Economic Development Division. These programs provide a range of economic development support for Texas Border communities that include business counseling, educational programs and business seminars. The Center helps sustain and grow regional employment by directly assisting entrepreneurs to develop their business ideas to create new businesses or expand their existing business. The work involves collaboration with communities throughout the region in economic development activities in business counseling and economic research analyses. Center funding is also used to help attract and support other federal programs that may become available to further support regional economic development activities. The Center also provides support for student employment and interns that enhances their experiential learning experiences while serving area communities.

(3) (a) Major Accomplishments to Date:

The Center operates a small business incubator in Brownsville and provides associated technical support assisting local entrepreneurs and existing small businesses to develop and sustain their business ventures. Those activities include one on one business counseling and seminars. The Center also serves as a resource for university researchers and external companies on technology commercialization. The Center has also been engaged in activities to operationalize a technology business incubator for the UTRGV STARGATE project which will help commercialize space industry technologies.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Continued funding will allow the center to provide continued regional small business assistance focus on external clients throughout the Rio Grande Valley. The funding will also help sustain activities related to both the small business incubator and the STARGATE incubator. UTRGV's focus on applied research in the life sciences, advanced manufacturing, space industry and coastal studies will be supplemented by the technology commercialization, small business assistance and community economic research activities that the Center will continue to support.

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

746 The University of Texas Rio Grande Valley

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

UTRGV has a legislative mandate to expand and develop education programs to serve the rapidly growing and economically disadvantage population in the region. Loss of center funding would result in the reduction or elimination of existing small business and technology commercialization program delivered in communities across the Rio Grande Valley region for over fifteen years. Not continuing center funding would also significantly reduce the opportunity to leverage other resources federal, state and corporate sources that support the education and job creation programs at UTRGV.

746 The University of Texas Rio Grande Valley

Special Item: 15 **Institutional Enhancement**

(1) Year Special Item: 2000
Original Appropriations: \$10,031,798

(2) Mission of Special Item:

The mission of this special lien item is to develop new programs, both at undergraduate and graduate level, to enhance the quality of existing programs, and to allow the organization to evolve into an institution that fully meets the higher education needs of South Texas. Funding is used to address critical challenges and opportunities:

- Promote and encourage preparedness for the pursuit of higher education.
- Support proven scholarship initiatives for entering freshmen and transfer students
- Support critical academic advising and tutoring given that many area students are first generation.
- Assist in ensuring that students are successfully progressing toward graduation.
- Support emerging programs.
- Seed research activities, where border health issues and STEM fields are a special interest and will allow the engagement of an increasing number of students, at all levels, in research projects.
- Support retention and graduation initiatives

(3) (a) Major Accomplishments to Date:

At UTB, a legacy institution funding was used to develop new degrees -13 graduate and 16 undergraduate: Masters in History, Psychology, Spanish Translation and Interpreting, Music Education, Public Policy and Management, Biology, Computer Science, Mathematics, Physics, Exercise Science, Bilingual Educ., Nursing and doctoral in Curriculum and Instruction with an Emphasis in Bilingual Educ. Bachelor in Spanish Translation and Interpreting, Communication, Law and Judicial Studies, Computational Science, Engineering Tech., Engineering Physics, Exercise Science, Early Childhood Studies, Biomedicine, Nursing, applied Tech. in CIS, Workforce Leadership. Also, collaborated with UTSA for Ph.D. in Biology and Physics.

At UTPA, a legacy institution, funding was used to develop new degrees in Creative writing, Educ leadership, Pharmacy, Physician assistant, Rehab (bachelor's and doctorate), Computer engineering, Civil engineering, Engineering management, Early Care and Early Childhood, and an online M.S. in Health Sciences. Also, established the Center for Bilingual Studies and Counseling Assessment Prep Clinic and also supports MCAT/EMSAP preparation to increase admittance rates to medical school. In addition, funding was used to establish a student mentoring program that helped improve retention rates for these students is 92.3%.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

Degree programs continue to be evaluated for implementation. As a new institution, improvements, will continue across the breadth of activities supported with Institutional Enhancement funding.

(4) Funding Source Prior to Receiving Special Item Funding:

none

746 The University of Texas Rio Grande Valley

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

none

(9) Consequences of Not Funding:

Institutional Enhancement is a mixture of funding initiatives begun on the lower Texas border in the early 1990's known as the "Texas Border Initiative." When the Initiative was discontinued the funding was rolled into Institutional Enhancement and continues to be essential to the operation and foundation to the institution.

The University would not be able to meet legislative intent to expand and develop programs to serve the rapidly growing and economically disadvantaged population of the region. This would further decrease accessibility and educational opportunity for the students in a region that has the third lowest per capita income in the nation and is the fastest growing in Texas and recently became the fifth largest MSA (Metropolitan Statistical Area) in the State.

Restoration of 4% Reduction: This would impact the ability of UTRGV to address growth and enhancements in a variety of areas of the institution, including the nascent medical school and services at the undergraduate and graduate levels. Negative impacts would be felt in new program development and enhancement of existing programs to fully meet the needs of South Texas. Examples of programs in the development pipeline include Early Care & Early Childhood, MS in Health Sciences, BS in Marine Biology, and the MA in Disaster Studies. To further put the reduction amount of \$3.7 million (\$1.8 million annually) in perspective, the amount represents twenty one associate professor positions, with benefits.

746 The University of Texas Rio Grande Valley

Special Item: 16 **Transition to College**

(1) Year Special Item: 2000
Original Appropriations: \$250,000

(2) Mission of Special Item:

The Transition to College initiative provides leadership/mentoring programs to first-year and at-risk students with the goal of improving college readiness, retention, and graduation rates through outreach and programming efforts that focus on academic, personal, and social issues related to transitioning into the University.

(3) (a) Major Accomplishments to Date:

Collaborated with various university stakeholders to develop and implement the JumpStart summer bridge program in 2015. JumpStart Scholars are newly admitted UTRGV freshmen who have met institutional admission requirements and are working towards meeting Texas' College Readiness standards during a five-week summer experience. JumpStart Scholars are paired with a peer mentor who meets with them one-on-one to provide support and guidance in attaining college readiness.

495 students participated in the 2015 JumpStart summer bridge program and were paired with a peer mentor. At the end of the summer, 87% qualified as college ready in English, 83% in math (algebra pathway,) and 73% in math (statistics pathway).

In fall 2015, peer mentors were assigned to 16 sections of UNIV 1301: Learning Frameworks course and 22 sections in spring 2016.

In 2015-2016, the peer mentors assisted over 1,000 first year students through mentoring programs. 78% of survey respondents stated that peer mentors helped them overcome academic challenges.

In spring 2016, the Fresh Start conference was created to kick-off the spring semester with a fresh perspective on academic success. 124 participants attended sessions on developing academic skills, increasing personal motivation, encouraging student involvement, and developing resiliency skills. Special invitations for the conference were sent to 648 first year students that were placed on academic probation during the fall 2015 semester.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

By working with first year students and providing support, the University will be able to provide timely intervention and employ high engagement strategies both in and outside of the classroom to increase first year student retention and support timely graduation.

- In summer 2016, peer mentors will provide support to approximately 500 JumpStart Scholars.
- The Fresh Start academic success conference will be held during the fall semester and will engage additional university stakeholders to increase attendance and provide quality workshops for students.
- In fall 2016, peer mentoring will expand to all 41 sections of the UNIV 1301 Learning Frameworks course. Peer mentors will be assigned to all first year students enrolled in the UNIV 1301 Learning Frameworks courses. Mentoring services will be offered to all entering first year students which includes new transfer students.
- Provide workshops and information to parent and family members of first year students to expand the network of support to aid in academic progress and success.

746 The University of Texas Rio Grande Valley

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

The university would have to scale back on successful transition to college initiatives that are supported by this line item. The wages from this account enable us to support first year students with a peer mentor. Lack of funding will prohibit the University from offering first year students a peer mentor that can provide one-on-one support needed for student success.

746 The University of Texas Rio Grande Valley

Special Item: 17 **School of Medicine-Existing Special Item**

(1) Year Special Item: 2016
Original Appropriations: \$30,698,950

(2) Mission of Special Item:

The funding will continue the development and sustainability of the School of Medicine's undergraduate/graduate medical education and research initiatives. The funding will be used for the infrastructure for faculty, staff, educational programs, student support services, and facilities needed for accreditation requirements. The funding will be used to support the development and expansion of the South TX Institute for Diabetes and Obesity. Clinical research will also be developed and expanded with the funds allowing the medical students to engage in research complementing their academic experience. Community outreach and public service through the development of inter-professional education will be provided using the funding. Funding will also be used to develop and support a Middle to Medical school pipeline program to increase the number and diversity of health professionals in Texas. The School of Medicine will continue to provide medical education to MS3 and MS4 students from UTHSCSA through 2019 under the South TX Clinical Education Campus (CEC) track.

(3) (a) Major Accomplishments to Date:

To date, major accomplishments of the School of Medicine include

- 1) Received Preliminary Accreditation from the Liaison Committee of Medical Education (LCME)
- 2) Infrastructure for Years 1 and 2 completed by FY17 including hiring faculty and staff to support the educational programs and student services
- 3) Enrolled inaugural class of 55 in July, 2016 and will admit up to 220 medical students by FY19

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- 1) Attain Provisional Accreditation in FY18
- 2) Admission of up to 220 medical students by FY19
- 3) Infrastructure for Years 3 and 4: Faculty, Staff, Student Services, Academic Resources, Clinical Sites and Partnerships, Technology
- 4) Expand graduate medical education providing up to 202 residency positions by 2020 across the Rio Grande Valley with hospital partners at DHR, VBMC, MMC and Knapp Medical.

(4) Funding Source Prior to Receiving Special Item Funding:

81st – established stand-alone health sciences center and medical school in South Texas
83rd – incorporated medical school into the UT Rio Grande Valley (UTRGV)

(5) Formula Funding:

N

(6) Startup Funding:

N

746 The University of Texas Rio Grande Valley

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

The LCME requires evidence of firm financial support for the medical school. Without funding the School of Medicine's accreditation could be in jeopardy even leading to termination of the medical school. Since the inaugural class has matriculated this would be devastating to the students. Local communities, their leaders, local practicing health professionals would be affected and could have adverse reactions.

746 The University of Texas Rio Grande Valley

Special Item: 18 **School of Medicine**

(1) Year Special Item: 0

Original Appropriations: \$0

(2) Mission of Special Item:

To offer an exceptionally innovative learning experience designed to instill students with scientific, clinical and research expertise of the highest professional standards while prioritizing improvement of health at the individual and community level, leading to the graduation of outstanding physicians who are patient advocates, community focused, culturally aware, collaborative leaders, life-long learners, and problem servers.

(3) (a) Major Accomplishments to Date:

- 1) Received Preliminary Accreditation October 2015
- 2) Enrolled inaugural class of 55 in July, 2016
- 3) Infrastructure for Years 1 and 2: Faculty, Staff, Student Services, Academic Resources, Facilities, Technology
- 4) 100 Residency slots across the Rio Grande Valley with hospital partners at DHR, VBMC and MMC.
- 5) Development of the South Texas Institute for Diabetes and Obesity and continued development of clinical research allowing students the opportunity to engage in research activities

(3) (b) Major Accomplishments Expected During the Next 2 Years:

- 1) Attain Provisional Accreditation in FY18
- 2) Admission of up to 220 medical students by FY19
- 3) Infrastructure for Years 3 and 4: Faculty, Staff, Student Services, Academic Resources, Clinical Sites and Partnerships, Technology
- 4) Expand graduate medical education providing up to 202 residency positions by 2020 across the Rio Grande Valley with hospital partners at DHR, VBMC, MMC and Knapp Medical.

(4) Funding Source Prior to Receiving Special Item Funding:

81st – established stand-alone health sciences center and medical school in South Texas
83rd – incorporated medical school into the UT Rio Grande Valley (UTRGV)

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

746 The University of Texas Rio Grande Valley

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Provisional Accreditation at Risk

746 The University of Texas Rio Grande Valley

Special Item: 19 **Business Technology Incubator**

(1) Year Special Item: 0

Original Appropriations: \$0

(2) Mission of Special Item:

The Center for Innovation and Commercialization (CIC) will promote economic growth in a region that has been historically underdeveloped. This will be achieved by pursuing three key tasks, (1) assisting regional entrepreneurs in the ideation, development and acceleration of new business ventures, (2) developing the next generation of RGV entrepreneurs by providing students with experiential learning opportunities in new venture creation, and (3) becoming the nexus of the regional entrepreneurial ecosystem. In so doing we will drive the creation of innovative, scalable enterprise.

(3) (a) Major Accomplishments to Date:

The CIC has operated on a limited scale both in terms of clients helped and geographical coverage, working with 12 to 15 potential new start-ups each year. This has been accomplished through a \$107,000 Economic Development Administration (EDA) grant as well as faculty and student in-kind work. In its 2 years of operation the CIC has helped 26 entrepreneurs explore the merits of their business ideas and has developed business models for a total of 18 projects. Of these projects, 5 have received financing and launched.

(3) (b) Major Accomplishments Expected During the Next 2 Years:

The CIC aspires to expand its service area to the entire RGV) and facilitate the development of more truly scalable business enterprises. We can accomplish this through the establishment of a new business and technology incubator. The incubator will provide a nurturing environment of services, technology, facilities, and expertise on a cost effective basis to help new business in the region. The CIC will strengthen the region's entrepreneurial eco-system by supporting businesses that have the potential to create new, higher-paying jobs and grow the economic base of the RGV. The CIC plans to strengthen its relationships with agencies and organizations that foster economic opportunities. These include the region's economic development corporations, chambers of commerce, the SBA, and the U.S. EDA. In this manner, the Center and the Incubator together will truly become an entrepreneurship "hub" in the region.

(4) Funding Source Prior to Receiving Special Item Funding:

107,000/yr EDA grant

(5) Formula Funding:

N

(6) Startup Funding:

N

(7) Transition Funding:

N

746 The University of Texas Rio Grande Valley

(8) Non-general Revenue Sources of Funding:

Usage fees from clients and revenue generated from the rental of space.

(9) Consequences of Not Funding:

Without funding from this line item, there will be insufficient funds to continue and expand the CIC's work, especially with the end of EDA funding in 2018. Without new, stable funding the Center will be forced to close, which would deprive the Valley of a valuable part of its entrepreneurial eco-system. In addition, our students will lose access to opportunities to work directly with new venture creation as a direct part of their educational experience.

746 The University of Texas Rio Grande Valley

Special Item: 20 **Biomedical Sciences Research**

(1) Year Special Item: 0

Original Appropriations: \$0

(2) Mission of Special Item:

The overarching mission of the biomedical sciences program at UTRGV is to address (1) the biological basis of health disparities in the Rio Grande Valley, the State of Texas and the Nation and (2) the infectious disease public health threats along the Texas-Mexico border while contributing to the education and diversification of the biomedical research workforce. This will be accomplished by building a biomedical research faculty across Colleges and the School of Medicine who will address chronic diseases such as diabetes, cancer, cardiovascular disease, stroke, arthritis, and others using an interdisciplinary approach. To support these efforts, the necessary capacity in infectious disease research, neuroscience, tissue engineering, pharmacology, biochemistry, toxicology, bioinformatics, and bioengineering will be developed. Cutting edge and competitive research programs will be supported by making available the most advanced technologies in core biomedical laboratory facilities.

(3) (a) Major Accomplishments to Date:

Major accomplishments to date and expected over the next two years:.

1. Established a biomedical sciences and research program
2. Obtained NIH funded research grants in excess of 15 million dollars over the past decade
3. Established an experiential biomedical undergraduate training program
4. Developed a competency-based hybrid undergraduate biomedical sciences degree

(3) (b) Major Accomplishments Expected During the Next 2 Years:

1. Develop a biomedical science faculty core that is competitive for NIH funding
2. Develop core infrastructure that allows for cutting edge biomedical research
3. Significantly increase research expenditures through NIH and other grant funding
4. Develop a doctoral program in biomedical science

(4) Funding Source Prior to Receiving Special Item Funding:

None

(5) Formula Funding:

N

(6) Startup Funding:

N

746 The University of Texas Rio Grande Valley

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

None

(9) Consequences of Not Funding:

Consequences of not funding:

1. Loss of experiential learning opportunities for undergraduate students
 2. Inability to develop doctoral program
 3. Loss of and inability to attract major federal funding for biomedical research
 4. Inability to contribute to the diversification of the biomedical research workforce
 5. Reduced educational opportunities
 6. We will be unable to recruit biomedical faculty that utilize these critical technologies in their research
 7. We will not be able to establish a viral mosquito borne surveillance program
-

Special Item: 21 Coastal Study Research Center

Original Appropriations: \$0

The Mission of the Coastal Science Research Center (CSRC) is to provide a unique integrative research, education and training experience that prepares students to meet the challenges and opportunities in the multiple dimensions of contemporary coastal, environmental, and earth sciences. The center will address the opportunities and challenges faced by Texas coastal communities, particularly urban development, water quality, safety, tropical storms, coastal flooding, and other disasters. The CSRC will provide research opportunities for undergraduate and graduate students that generates new knowledge and formulates effective solutions for a sustainable Rio Grande Valley and beyond.

1. Created a brand new School for the Earth, Environmental and Marine Sciences (SEEMS)
2. Established a brand new BS program in Marine Biology
3. Purchased land in Port Isabel for establishing the proposed research and education center
4. Purchased 3 portable buildings to establish research labs in Port Isabel
5. Hired two STAR Faculty and another Coastal Plant Scientist

1. A new MS program in Ocean, Coastal, and Earth Sciences will be initiated
2. A planning Authority proposal to establish a joint Ph.D. program with UTMSI in Marine and Environmental Sciences will be submitted to the UT System for approval
3. A multi-point estuarine water quality observation system in the Lower Laguna Madre capable of monitoring real time changes in water quality and algal populations across the north-south axis of the system will be established
4. A wetland and aquaculture outdoor science area will be established

RESTORE – Texas OneGulf
NOAA – Environmental Cooperative Science Center
NOAA – Gulf Cooperative Science Center
DoD – Ocean Sensing and Intelligence
Texas Parks & Wildlife Artificial Reef Program

N

746 The University of Texas Rio Grande Valley

(6) Startup Funding:

N

(7) Transition Funding:

N

(8) Non-general Revenue Sources of Funding:

UTRGV Development Board

(9) Consequences of Not Funding:

Not funding will stall UTRGV's progress on research and education in the coastal and marine sciences area. Also the environmental, social, and economic resilience of coastal communities need to be bolstered in the wake of recent and impending natural and any accidental man-made disasters.

746 The University of Texas Rio Grande Valley

(9) Consequences of Not Funding:

The B3 Institute will not be able to function without this funding, and it will be hard pressed to function in a sustainable manner without external support during its first few years.
