

School of Rehabilitation Services and Counseling

PhD. Rehabilitation Counseling Annual Report 2016-2017

**Mission**

The mission of the Doctorate of Philosophy Program in Rehabilitation Counseling is to train rehabilitation counselor educators, counselors, researchers, and rehabilitation administrators in order to meet the growing and critical demand statewide and nationally to educate next-generation counselors, conduct original research regarding the issues facing persons with disabilities, and ultimately strive to meet the personal, vocational, and independent living needs of persons with disabilities.

**Program Objectives****A. Professional Leadership and Identity**

1. Students will demonstrate leadership skills in local, state, regional or national professional organizations.
2. Students will become members of relevant professional organizations and demonstrate knowledge regarding professional affiliations and accreditation standards.
3. Students will demonstrate knowledge and skills of ethical and legal issues in counselor education.

**B. Teaching**

1. Students will demonstrate skills in the development of coursework and teaching in a classroom setting.
2. Students will demonstrate skills in designing syllabi for a variety of rehabilitation services and counseling education courses.
3. Students will demonstrate skills in the utilization of technology in the classroom.

**C. Clinical Counseling Practice**

1. Students will demonstrate counseling skills.
2. Students will demonstrate skills to (a) assess clients, and (b) diagnose and treat clients in counseling sessions including with a multicultural perspective.
3. Students will provide live supervision or videotape or counseling sessions, which demonstrate the skills to work with clients from a variety of cultural and disability backgrounds.

**D. Supervision**

1. Students will demonstrate knowledge of the theories, techniques and ethics of supervision.
2. Students will demonstrate the skills to supervise counselors.

3. Students will demonstrate the skills to supervise individuals from different, cultural, ethnic, racial, backgrounds and with differing world views, sexual orientation, and religious/spiritual beliefs.

#### E. Research

1. Students will demonstrate knowledge of and skills to conduct qualitative research projects relevant to counselor education and rehabilitation of individuals with disabilities.
2. Students will demonstrate knowledge and skills to conduct quantitative research projects relevant to counselor education and rehabilitation of individuals with disabilities.
3. Students will demonstrate ethical conduct in research.
4. Students will demonstrate the knowledge of how research can be utilized to inform public policy.

#### F. Disability and Multicultural Competence

1. Students will demonstrate the knowledge and skills to work effectively in a counseling setting with clients who have disabilities and/or are culturally different showing the attitudes of respect and giving evidence of knowledge of the specific disability and cultural differences.
2. Students will demonstrate the skills to focus attention to individual and population differences that affect counseling practice that may arise in teaching or supervision including cultural, racial, ethnic, regional, world view, religious, spiritual, or people with different sexual orientations.
3. Students will demonstrate the knowledge of societal evolution and the role of advocacy.

## Summary of Program Evaluation Results

## Applicant Demographics 2016-2017

	Applied	Accepted	Accepted, Enrolled
Total	10	8	6
Men	3	3	2

## 18 Characteristics of the UTRGV PhD Rehabilitation Counseling Program

(see attached)

### Summary

Overall, the Annual Evaluation of the PhD Rehabilitation Counseling Program for 2016-2017 is positive. Noteworthy, Key Performance Indicators for students including Clinical Competence, Professional Performance and Dispositions were all rated Above Average, Very Good, or Excellent. Two students receiving Grade Point Averages below requirements (GPA < 3.25) were advised and then permitted to continue. However, one student has not returned to the program. Diversity was noteworthy among our applicants and those who were accepted and enrolled in the program.

As the programs first Annual Evaluation, there were missing evaluations as faculty adopt the requirements of assessment. However, this evaluation was sufficient to provide a meaningful measurement of the program's strengths and challenges.

The 18 Characteristics of the UTRGV PhD Rehabilitation Counseling Program provides a very positive current perspective of the program. Noteworthy, 80% of the doctoral students receive institutional funding; average institutional support of students is \$28,727; 100% of graduates are employed in the field; faculty average 2.4 publications per faculty; and students; faculty are diverse in the composition; and in 2016-2017 students had 33 presentations and/or publications.

### Subsequent Program Modifications

Major program modifications made in the 2016-2017 academic year were to employ the comprehensive program evaluation. The program is now adopting its adopted procedures for evaluation. It is in the process of implementation.

### Other Substantial Changes

The PhD program degree was changed to reflect CACREP requirements and has been established for the first cohort accepted and enrolled in the 2016-2017 academic year.
