

ASSISTANT DEAN FOR FACULTY DEVELOPMENT

Key Roles and Responsibilities

- Provides faculty development by promoting best practices for teaching and learning using learning-centered strategies and innovative education technologies in the context of medical education within higher education.
- Identifies assessment strategies and instruments to improve learning outcomes and increase medical education research and scholarship at the individual, department and programmatic level.
- Maintains ongoing dialogue with School of Medicine leadership regarding department-specific faculty developmental needs in regard to wellness, mentoring, assessment and evaluation, and learning environments that foster faculty success.
- Works closely with UTRGV Office of Faculty Affairs and Office of Diversity, Inclusion and Enrichment to ensure coordinated efforts in faculty development.
- Develops, coordinates and presents skill-building seminars and workshops, organizes departmental mentorship and leadership programs and promotes professional development courses.
