RE: Fiscal Year 2018 Student Services Fee Funding Recommendations

---

I am pleased to confirm my approval of the committee's recommendations as presented.

Thank you for your efforts in leading the committee in the development of its recommendations for allocation of Student Services Fees (SFF) for fiscal year 2018. I know how challenging it is to prioritize needs and after reading the report was glad to see the thoughtful consideration the committee gave to the various activities under review.

Please do not hesitate to bring concerns to my attention.
