 This academic plan outlines the recommended course sequence for Regular Standing students starting in Spring.

 Following this plan helps ensure timely graduation and smooth progression through the program.

 Any changes to this plan may result in delays in graduation. Please consult your academic advisor before making adjustments to your course sequence.

 Track courses allow you to focus on a specific area of practice. These courses are selected based on your chosen specialization. Please consult your academic advisor for guidance on selecting the right track for your career goals.

 Elective courses are optional classes that let you explore topics outside your required or track courses. They provide flexibility to pursue your interests or strengthen complementary skills. Please consult your academic advisor for guidance on selecting electives that fit your goals.
