

How to connect to OPAL on VPN

Download UTRGV VPN

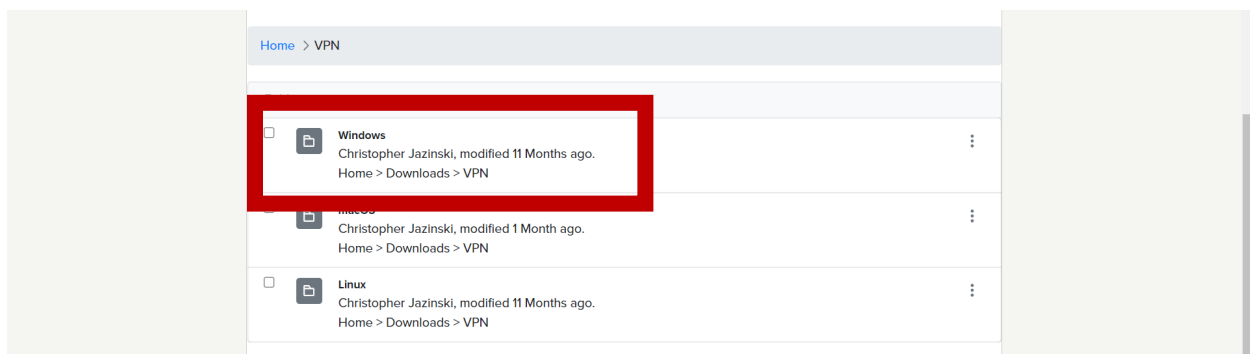

1. Login to my.utrgv.edu. Click on “Help & Downloads”

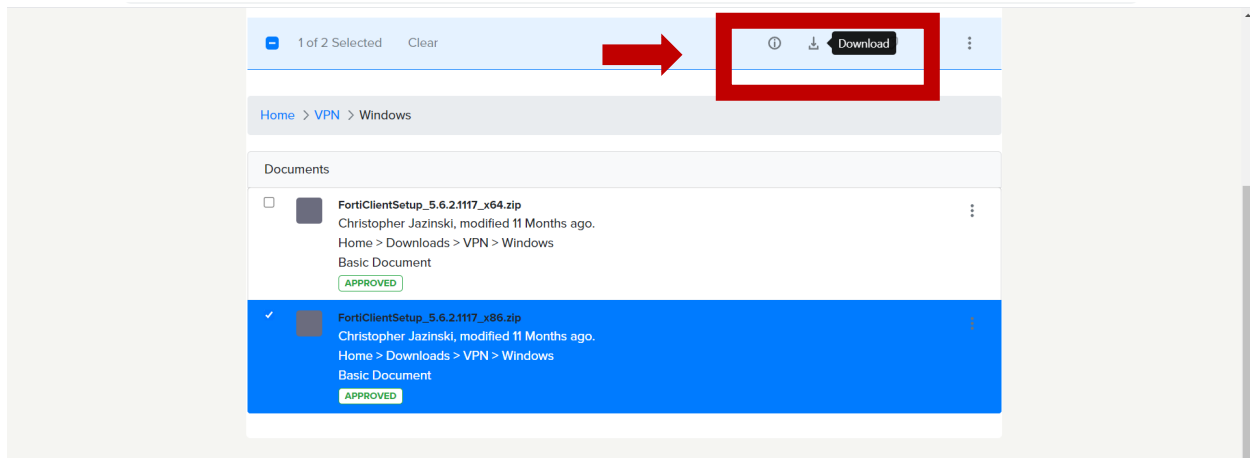

2. Select the first link that says “VPN”

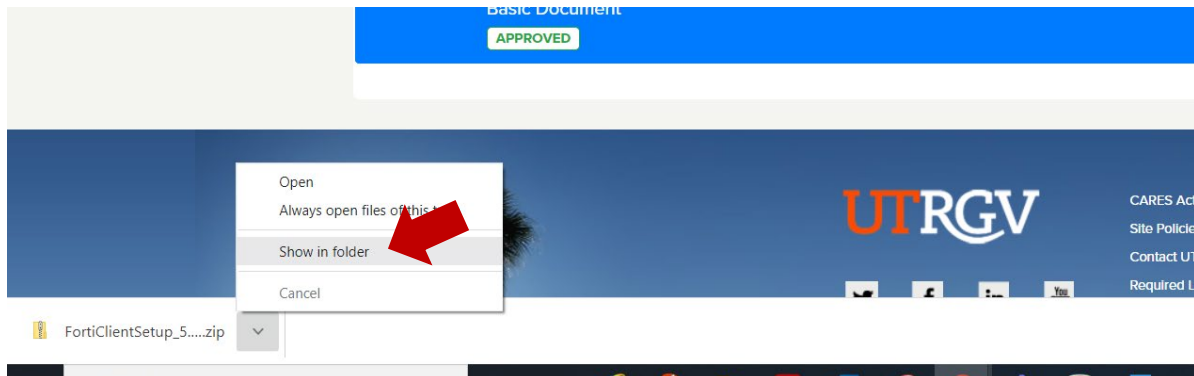

3. Select “Windows” Option. (OPAL will only work on windows machines.)

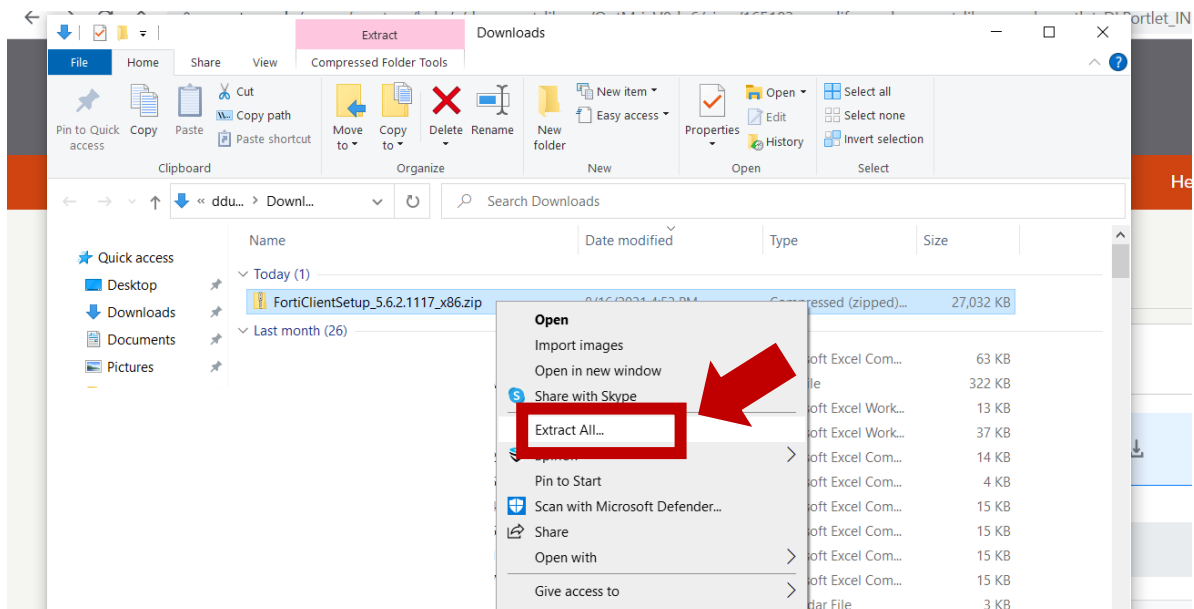

4. Select the Forticlient option based on your computer type, and click download on the top right hand corner.

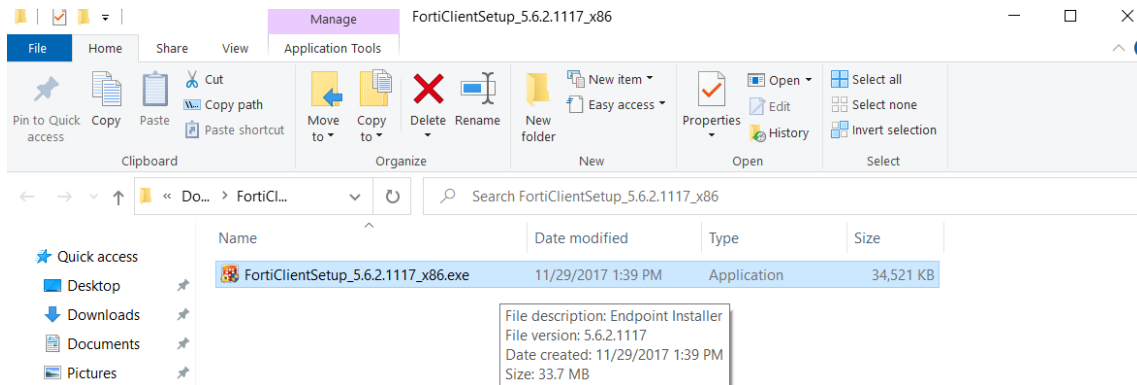

5. Hit the drop down arrow next to the download and select "Show in Folder"

6. Right click on the "Forticlient" folder and select 'Extract All'

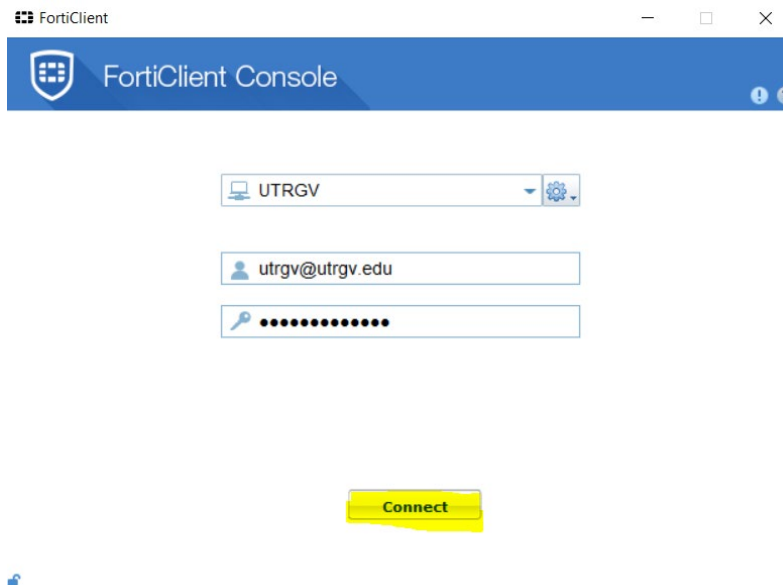

7. Double click on the forticlient.exe file and install the software.

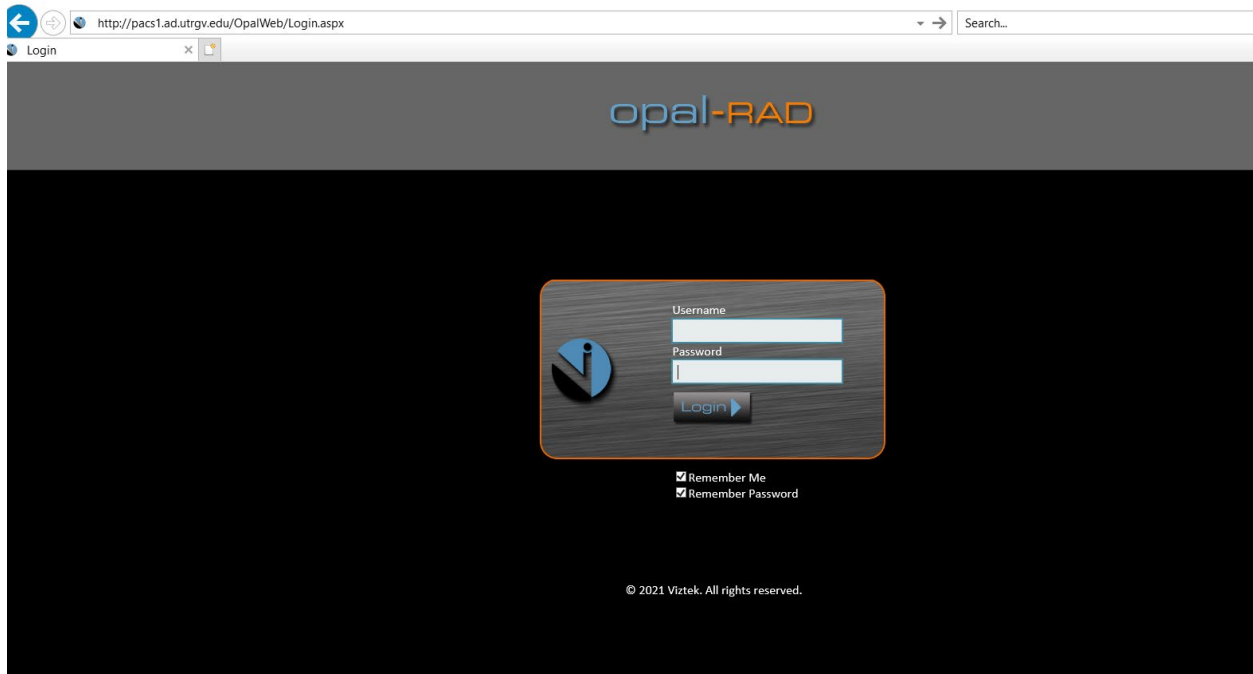

Connect to Forticlient VPN/Login to OPAL

1. Login with your UTRGV email and password and click “connect” Approve the sign in on Microsoft authenticator app

2. Open Internet Explorer and go to the URL: <http://pacs1.ad.utrgv.edu/OpalWeb/Login.aspx>

3. Login with your credentials and download the OPAL viewer, and click "run". You will now be able to view studies.
