Select 2-3 areas of opportunities you want to focus on and identify goals and action steps to work toward your goals. Make sure that your action steps are within your area's control. **Reflection:**

How do your goals support UTRGVs [strategic plan](#) and [mission](#)? How do your goals align with student success? How do they make a positive impact on the student experience?

1. improve shared governance within the College and to other units in order to implement efficient processes to enhance student, faculty, and administrative communication

Our focus is on improved communication in both quality and quantity. Our approved bylaws provide multiple venues for doing so and the College of Liberal Arts leads the way in terms of information and data sharing.

2. update policies to be more in line with a research-intensive institution

Departments and programs have been tasked with improving faculty evaluation policies to reflect this emphasis and are encouraged to use their summer incentive funding to better support faculty initiatives, including scholarship. Furthermore, we are in the process of creating a full-time, self-funded administrative position that will be tasked to provide administrative support for faculty researchers.
