MATHEMATICS (BS) *Science and Engineering

UTRio Grande Valley

Degree Info

Mathematics is both an exact science and a

highly creative endeavor; a field of study that

develops problem-solving skills and a passion

for inquiry. Mathematics majors are

surprisingly attractive to many professional

branches in our society, particularly

intelligence, technology, finance, security,

engineering and physics. Mathematics Majors

with Teacher Certification are attractive to the growing demand for teachers in high

schools, middle schools and elementary

schools. A BS in Mathematics will prepare the

graduate for a competitive position in society

and provide the necessary preparation graduate for an exciting and rewarding

teaching position and for graduate studies.

	FIRST YEAR	SECOND YEAR	THIRD YEAR	FOURTH YEAR AND BEYOND	• Theoretical Research
MILESTONES	□UTRGV has a Writing Center and a Learning Center. Make it a point to visit them! □Complete your core English classes (section 010) during your first year. □Complete 30 credit hours every year in order to graduate in 4 years. □Shoot for a GPA of 3.5. □Take MATH 2412 in your first year. □Take MATH 1342 Elementary Statistical Methods □Meet with your academic advisor and bring your orientation folder with you to every session!	□Shoot for a GPA of 3.5. □Complete major foundation classes, such as Math 2413, 2414, and 2415. □Complete 30 credit hours. □Want to explore different careers? Check out MyMajors!	□Shoot for a GPA of 3.5. □Complete 30 credit hours. □Have you landed an internship or acquired research experience? This is the year to make it happen. Ask your favorite professor about research opportunities. □Enroll in upper level courses for your concentration and major such as MATH 3372 Real Analysis I. □Seek out research opportunities within your major and join a professional organization such as American Mathematical	□Shoot for a GPA of 3.00. □"I have a plan for after graduation." If this describes you, great! If not, visit your Faculty Advisor or Career Center! □Register for your Capstone project: MATH 4390 Math Project. □Enroll in Senior level courses in Mathematics, Engineering, or Computer Science. □Complete at least 30 credit hours to graduate. □Submit your application(s) for graduate school in the fall, an apprenticeship, or for fulltime employment. □Discuss future plans with your faculty mentor or advisor that include employment, finances, and other life goals.	 Applied Research Modeling and simulation Numerical methods an analysis Statistics and probabili Engineering analysis Differential equations Operations research Discrete mathematics Accounting and finance Computer programmin Computer systems Analysis operations Sales and marketing management Actuarial science Engineering Analysis and control of processes Optimization and scheduling of resource Programming Systems development Systems analysis
ADVICE & SUPPORT	 □Choose a major with confidence- Visit my.UTRGV.edu and check out MyMajors. □Visit a faculty member during their office hours and ask a question about class. □Classes fill up fast. When registration opens, be sure to register on the first day for your group. □Cold or flu getting you down? We have Student 	□Come ready with course suggestions and questions when you visit your academic advisor. □Visit the Communication Hauser Lab for help with your presentations, especially capstone presentations. □Trouble making your tuition payment? The Financial Aid Office can help. Payment plans and emergency loans are also available	Society. Check DegreeWorks to make sure you are on track for graduation next year. Apply for internship and/or job shadowing opportunities. Discuss this with your advisor, faculty mentor, or Career Center. Conter. Look for future scholarships and fellowships to apply for during the fall of your senior year. Visit utrgv.edu/cstem.	□ Apply for graduation one semester prior to your anticipated date. Visit your advisor to ensure you are on track. □ Ask the Career Center and your faculty mentors for feedback on your resume, cover letters, and other job application documents. □ Consider applying for a Masters of Doctoral Program. You can start either type of graduate degree with your BS in Mathematics.	
APPLY WHAT YOU LEARN	Health Services on campus with free office visits. Look for a service-learning course! For guidance, visit Engaged Scholarship & Learning Office. Participate in a campus-sponsored community service project. Ask a student in class to study with you.	☐To find undergraduate research opportunities, visit the Engaged Scholarship & Learning Office. ☐Consider attending the LeaderShape Institute or attend the Engaged Scholar Symposium.	□Go show off your research, service-learning or creative works at the Engaged Scholar Symposium! □Sharpen your writing skills! Take proof-rich courses beginning with MATH 3350, Introduction to Mathematical Proof Writing, or become the secretary for your organization.	□Continue to present research or creative works at the Engaged Scholar Symposium or at State or National meetings of the Society for Industrial and Applied Mathematics and the American Mathematical Society. □Set up an informational interview with an individual (especially an alumnus) currently in the field you aspire to work in.	
GLOBAL, CAMPUS & COMMUNITY ENGAGEMENT	□Set up your profile on the Engagement Zone through My.UTRGV.edu. □Attend a diversity based campus or community event (e.g. MLK Day of Service). □Attend a School Colloquium or Departmental seminar, and drop by your favorite professor's office to talk about research opportunities. □Join a student organization! Consider looking into Society for Industrial and Applied Mathematics (SIAM) or visit VLink (utrgv.edu/vlink) for other options.	□Look at study abroad opportunities or consider applying to UT-LSAMP or other internal or external summer research projects. Click on Student resources at http://www.utrgv.edu/cstem/ □Check out a cultural campus or community event such as HESTEC or FESTIBA. □Join another student organization. Perhaps the Society for the Advancement of Chicanos/Hispanics & Native Americans in Science (SACNAS) or visit VLink for options. □Check out a campus event that offers free lunch-	☐ Consider serving on a campus life/community committee or become a student leader and make a difference. Visit VLink or speak with your Student Government Association for more information! ☐ Engage in outreach programs to local schools to complement your major. Consider joining the Experimental Algebra and Geometry group and participating in their outreach program. ☐ Travel the world! Look into study abroad opportunities at Office for International Programs & Partnerships.	□ Identify employers of interest and seek them out at job fairs, online, at on-campus information sessions, staffing agencies, etc. The Career Center can help. □ Before a job interview, schedule a mock interview with the Career Center or speech coaching with the Communication Hauser Lab. □ Ask your favorite professor or faculty mentor for career advice and to review your application materials.	
LIFE AFTER GRADUATION	□Create a résumé and set up your profile on the Handshake icon: (My.UTRGV.edu). □Got summer plans? Visit Career Center and ask about places to do some job shadowing. □Research shows that students who work on campus perform better than those who work off campus. Look for a job on Handshake! □Check your UTRGV email for the daily Messengerlocate and attend one student workshop.	bring a friend! Update your resume in Handshake and have it reviewed. Usist the Career Center site to find a job fair to attend. At the event, approach a recruiter and discuss internships. Will a minor expand your career options? We recommend_Computer Science, Physics, or Engineering. Explain to someone how your academic program aligns with your strengths and interests	□Check out the Center for Excellence in STEM program department website for postings on career/graduate school. Click on Student resources at http://www.utrgv.edu/cstem/ □Think about three people you can ask for letters of recommendation (professors, mentors, advisors, supervisors, etc.). Give them at least two weeks' advance notice! □When is the deadline for your graduate school application? Most schools require you to apply a year in advance and to	□ Have you received your acceptance for graduate school or an employment offer? If not, network: talk to faculty, the Career Center, and get on LinkedIn. □ Formulate and implement a strategy for life after graduation: attend career fairs, graduate fairs, apply to fellowships, etc. □ Update your information with Alumni Relations. Enjoy alumni mixers, events and continued access to Career Center services! □ Remember to do your exit loan counseling on studentlans gov	For additional info, visit the Career Center website and check out "What Can I Do With This Major?" www.utrgv.edu/careercente

UTRio Grande Valley

aligns with your strengths and interests.

take the GRE exam. Visiting the program admissions webpage. Most do not accept late applicants!
