INFORMATION SYSTEMS (BBA)
Catalog: 2018-19
ROBERT C. VACKAR COLLEGE OF BUSINESS AND ENTREPRENEURSHIP

Degree Info

This major is designed to prepare students with the business and computer-related knowledge necessary to enter a career in the information systems field. The Information Systems program allows students to combine functional business skills with technology skills for the development, implementation, management, and strategic direction of information systems. The program provides graduates with the necessary analytical, technical, and managerial background to function effectively in information systems organizational environments. Information Systems graduates will be able to implement, coordinate and direct information systems activities of an organization, including systems analysis, database administration and electronic records management, network data communications, business analytics, and project management.
